Williams College is dedicated to building a diverse and inclusive community in which members of all backgrounds can live, learn and thrive. In compliance with state and federal law, Williams does not discriminate in admission, employment, or administration of its programs and activities on the basis of race, color, sex, national origin, religion, age, disability, marital status, sexual orientation, gender identity or expression, ancestry, or military service.

The following person has been designated to handle inquiries concerning the College’s non-discrimination policies: Assistant Vice President & Title IX Coordinator, Office of Institutional Diversity and Equity, Williams College, Williamstown, MA (413) 597-3301
Directions for Correspondence

The post office address of the College is Williamstown, Massachusetts 01267 and the telephone number is 413-597-3131.

Correspondence concerning matters of general interest to the College should be addressed to the President.

Other inquiries should be addressed to the officers named below:

- Academic and Student Affairs
- Admission of Students
- Alumni
- Business
- Catalogs and Brochures
- Financial Aid
- Graduate Study in Art History
- Graduate Study in Policy Economics
- Transcripts and Records
- Dean of the College
- Director of Admission
- Director of Alumni Relations
- Controller
- Communications
- Director of Financial Aid
- Director of Master of Arts in Art History
- Chair of Master of Arts in Policy Economics
- Registrar

The corporate name of the College is:
The President and Trustees of Williams College

Williams College is accredited by:
New England Association of Schools and Colleges

Published by Williams College, Hopkins Hall, 880 Main Street, Williamstown, Massachusetts, 01267

This catalog contains information that was complete and accurate at the time of publication. Williams College reserves the right, however, to make from time to time such changes in its operations, programs, and activities as the trustees, faculty, and officers consider appropriate.
The bold decision to plant a college in a virgin community like Williams, with the soil they had chosen was stubbornly uncongenial—so uncongenial, in fact, that for many years the trustees of Williams spent more time and energy in trying to close the College than in trying to keep it open.

In 1819, the petition of the students of Williams to the legislature, and in 1820, having been spurred by the legislature, President Zephaniah Swift Moore took matters into his own hands. Convinced that almost everything about Williams was inimical to the idea of creating a college where, as they put it, “young gentlemen from every part of the Union” might resort for instruction “in all the branches of useful and polite literature.” The proposal was extremely ambitious, to be sure, but the college’s intentions of Colonel Williams; yet the new vision had been fed by the same sort of dreams that had led Ephraim Williams to see a school and a comfortable community where only a military outpost had stood. The early colonists and the legislature of the Commonwealth were to be remembered for their foresight, for their faith in this experiment, for their confidence in the Colonel, and for their determination to stir up the soil at the base of a mountain.

In 1837, for the first time in its history, Williams was able to close the year with an accumulated surplus. In 1845, for the first time in its history, Williams was able to close the year with a full budget. The College had come of age. The noose of financial uncertainty was loosening. A new era was breaking on the College.

The College that had been taking shape under Griffin and his predecessors resembled many other New England colleges where the classical curriculum and a moral atmosphere served as the basis for training young men for the ministry and the law. The college was known for its chapel services, its training of clergymen, doctors, lawyers, and teachers, serving the needs of Western Massachusetts and surrounding communities in New York and Vermont. But Williams was not yet a place to which “young gentlemen from every part of the Union” resorted. In fact, Nathaniel Hawthorne, attending the commencement exercises in 1838, jotted in his notebook some observations on the Williams students he saw there: “Country graduates-rough, brown-haired, schoolmaster-looking...A rough hewn, heavy set of fellows from the hills and woods in his neighborhood; unpolished bumpkins, who had grown up as farmer-boys.”

Williams seldom knew financial security until the end of the nineteenth century. But it did have assets that enabled it to develop into a prototype of the small New England college. Scarcely a reputation for moral soundness, a loyal body of alumni, and a devoted faculty went a long way toward compensating for inadequate funds.

Of the scenery, Thoreau remarked, after a visit in 1844, “It would be no small advantage if every college were thus located at the base of a mountain.” For Thoreau, the location of Williams was “as good as at least one well-endowed professorship.

In the early years, the religious reputation of the College depended on the essential orthodoxy of its president. Charles Francis Adams, Sr., who was the first of six Adams to serve as president, retired in 1886. The Adams family had been prominent in American foreign missions. The Williams’s very informal ties with the Congregationalists avoided the sometimes-chafing relations later experienced by many of the colleges with fuller denominational connections.

During a cusp of American educational history, run in association with Exeter College, Oxford, which provides each year for some 30 Williams juniors a year-long immersion in the life of Oxford University.

III

Williams moved into the twentieth century firm in its intentions to remain a college, at a time when aspirations toward university status were unsettling many of the old colleges. It adhered to a curriculum that was designed for undergraduates; it made room for the elective principle, but it subjected undergraduates; it made room for the elective principle, but it subjected undergraduates to required courses and without any uncontrolled wide-option electives. The Williams curriculum has continued to evolve, but it has not undergone such a series of major overhauls as characterize curriculums inspired by the popular educational fancy of the moment. Not having abandoned itself to the elective principle in the nineteenth century, Williams did not need to rescue itself with the general education principle of the twentieth century.

During its long history, much of the life and tone of the college was shaped by a combination of common sense and tradition. With the same influence continues, the competitive pressure for admission since World War II has allowed for a new and significant degree of selectivity on the part of the College. Among the consequences of this change have been a quickening of the intellectual life of the College and a reconsideration of traditions and emphases no longer considered appropriate for an institution of liberal learning.

Among the first traditions to go was that of compulsory religious exercises, abandoned in 1962 after a hundred years of gradual but steady erosion. Voluntary worship in the form of ecumenical chapel services and the activities of student religious organizations carry on another long tradition. In response to the concerns of undergraduate leaders and the faculty and in recognition of the failure of Greek Letter Fraternities to fulfill their promise, the Board of Trustees in 1962 took the first of a series of actions that replaced fraternities with a residential house system. Williams became, as a result, a much more open community. The decision to become coeducational has enabled Williams as degree candidates in 1970 have reinforced the spirit of equality and freedom conducive to a climate of learning.

In this atmosphere of change and heightened purpose the curriculum under a single planning board has become a catalyst for an expansion of the yearly catalogs readily shows, leading to the present 4-1-4 curriculum and a more flexible and wide-ranging schedule and program both on and beyond the campus. Changes in the curriculum included the addition of new courses and departments, the admission of women as degree candidates, the enlargement of language offerings to include full, four-year cycles in Chinese and Japanese. Continuing the tradition of putting the student at the center of the educational experience, Williams in the Fall of 1988 introduced in each of the undergraduate departments a tutorial course in which students of students meet weekly with the professor to discuss a paper, problem set, or work of art produced by one of the students. By 2004 some 60 percent of the graduating class had experienced at least one tutorial course either in the Williams-Exeter program, run in association with Exeter College, Oxford, or in the Williams-Oxford program, which provides each year for some 30 Williams juniors a year-long immersion in the life of Oxford University.
This curricular expansion, and another in the first decade of this century, reflected, and in part resulted from, the fact that the makeup of the college community was changing to mirror more closely the growing racial, ethnic, and religious diversity of American society and of the world more broadly. The percentage of students who identified themselves as members of one or more American minority group or were overseas citizens rose to 40 percent, of faculty to 22 percent.

At the same time, programming and structures were introduced to student residential life and major projects were completed to enhance greatly the College’s student center, its facilities for theatre and dance, its office and teaching spaces for faculty, and its libraries.

PRESIDENTS OF WILLIAMS
Ebenezer Fitch, D.D., 1793-1815
Zephaniah Swift Moore, D.D., 1815-1821
Edward Dorr Griffin, D.D., 1821-1836
Mark Hopkins, M.D., D.D., LL.D., 1836-1872
Paul Ansel Chadbourne, D.D., LL.D., 1872-1881
Franklin Carter, Ph.D., LL.D., 1881-1901
John Haskell Hewitt, LL.D., Acting President, 1901-1902
Henry Hopkins, D.D., LL.D., 1902-1908
Harry Augustus Garfield, L.H.D., LL.D., 1908-1934
Tyler Dennett, Ph.D., Litt.D., LL.D., 1934-1937
Francis Christopher Oakley, Ph.D., L.H.D., Litt.D., LL.D., 1985-1993
William Gilson Wagner, B.Phil., D.Phil., L.H.D., 2009-2010
Adam F. Falk, Ph.D., 2010-

TRUSTEES 2017-2018
Adam F. Falk, Ph.D., L.L.D., President
Michael R. Eisenson ’77, M.B.A., J.D., Boston, Massachusetts, Chairman of the Board of Trustees
Clarence Otis, Jr. ’77, J.D., Windermere, Florida
Kate L. Queeney ’92, Ph.D., Northampton, Massachusetts
O. Andreas Halvorsen ’86, M.B.A., Greenwich, Connecticut
Liz Robinson ’90, M.B.A., New York, New York
Martha Williamson ’77, B.A., San Marino, California
Elizabeth A. Andersen ’87, J.D., Washington, D.C.
William C. Foote ’73, M.B.A., Whitefish Bay, Wisconsin
Richard R. Pickard ’75, J.D., Los Gatos, California
Sarah Moltman Underhill ’80, M.A., Bronxville, New York
Timothy A. Barrows ’79, M.B.A., Cambridge, Massachusetts
Valerie A. DiFebo ’84, B.A., New York, New York
Jeffrey S. Harleston ’82, J.D., Santa Monica, California
Gregory H. Woods ’91, J.D., New York, New York
Thomas M. Belk ’77, M.B.A., Charlotte, North Carolina
Noriko Honda Chen ’89, B.A., San Francisco, California
Cooper Campbell Jackson ’89, J.D., Los Angeles, California
Jonathan D. Sokoloff ’79, B.A., Los Angeles, California
Jillian E. Charles ’91, J.D., Cleveland, Virginia
Leila H. Jere ’91, B.A., San Mateo, California
MISSION AND PURPOSES

In the gentle light of the Berkshire hills, Williams pursues a bold ambition: To provide the finest possible liberal arts education. If the goal is immodest, it is also bracing: Elevating the sights and standards of every member of the community, encouraging them to keep with faith the challenges inscribed on the College’s gates. 

Williams is fortunate to have extraordinary resources, but its strength derives above all else from the quality of its people. Williams students rank with the best in the country; the rigor and competitiveness of the College’s academic work lays the foundation upon which the students in the company of only a handful of other institutions. Over the past thirty years especially, Williams has both strengthened its academic profile and actively recruited a student body that is markedly more diverse in many dimensions, including race, national origin, and the educational and socio-economic background of its families. The strength of the student body today is the product of the College’s resolve to search as widely as possible for students of high academic ability and great personal promise. There is not an exclusively academic drawback flowing from the conviction that encountering differences is at the heart of the educational enterprise—differences, certainly, of ideas and beliefs, but also differences of perspectives rooted in the varied histories students bring with them.

As both an educational and social imperative, we are committed to welcoming talented students irrespective of their financial resources, and it is therefore a central institutional priority—unwaveringly supported by all parts of the College community—to maintain our policies of need-blind admission for domestic students and of fully meeting a student’s demonstrated need. And, recognizing that of those to whom much has been given much may properly be required, we ask all our students to understand that an education at Williams should not be regarded as a privilege destined to create further privilege, but rather as a privilege that creates the opportunity and responsibility to serve society at large.

We seek to capitalize on our character as a residential college by placing great emphasis on the learning that takes place not only inside the classroom, but outside as well, where students can strengthen mind, body, and spirit by participating in athletic teams, artistic performances, political debates, religious and volunteer groups, and nearly one-hundred-and-seventy extra-curricular activities. We also view their college as a laboratory in citizenship. To an unusual degree, Williams gives students primary responsibility for creating and governing their own community, whether as Junior Advisors (chosen by fellow students to live with and mentor first-year students), or as guardians of academic integrity through the student-led Honor Code.

Recruiting top talent from a wide variety of institutions, Williams asks its faculty to accept a distinctive—and unusually demanding—combination of challenges: to be exemplary teachers, productive scholars or artists, and unusually demanding active partners in running the institution. Well supported by the College through research funding and a generous sabbatical program, Williams faculty are leaders in their fields—recognized nationally, and often internationally, for the high quality and significance of their scholarly and creative work. They also embrace the chance to shape their college, serving in a civic spirit on an array of committees, and as senior officers of an institution that has long prized shared governance and collaborative decision-making.

But it is the teaching gene that especially defines Williams professors. They devote sustained attention every year to assessing the quality and freshness of the curriculum, and to crafting pedagogical approaches that help make room in the minds and lives of their students for the profound truths our students are—indeed, must be—learning to live. Faculty members invite students to become partners in the process of intellectual discovery. That partnership becomes visible in every classroom, where students are expected to engage with their professors and with one another in pursuing the underlying setting of Williams tutorials, where students take the lead in explaining what is interesting and consequential about that week’s assignment; and in the College’s ambitious programs to engage students directly in faculty research. But the classroom and curriculum are only the entry points. Professors at Williams want to know not only what their students think, but how they think and who they are. They want to know students in all their dimensions—to learn their histories and hopes, to advise them on matters personal as well as academic, to see them as complex individuals who deserve attention and respect. Faculty and students together, learning with and from each other in a community whose intimacy of scale fosters close personal and intellectual relationships, where “community” is truly more than a convenient label. Williams is not only an educational, but an ethical, imperative; where the values of engagement and decency fundamentally shape the educational process: These are the ideals to which Williams faculty and students aspire.

If students are strong partners in their own education, they are also able to shape the kind of place Williams is. Williams talent—administrative and support staff; they keenly understand the College’s mission and devote their energies to advancing it. Williams alumni are fiercely and intelligently loyal, contributing generously of their time, their experience, and resources to the lives of students and faculty. And where it was in their time, alumni encourage Williams to reinvent itself for each new generation. Williams trustees (all of whom are currently alumni) provide discerning strategic direction and careful stewardship of the College’s assets. While the board of trustees is fully engaged, it keeps its focus on large policy issues and long-term decisions.

We are fortunate, too, in our location. Surrounded by communities that enthusiastically support and participate in its educational project, Williams is at home in a rich and vibrant cultural area. The Berkshires are a responsible citizen and employer, and contributes both expertise and resources to numerous local initiatives. The natural beauty of the Berkshires makes us especially conscious of the urgent need to address—through our teaching and research, and through the daily operations of the College—the environmental problems that threaten an increasingly fragile planet.

That is who we are, and this is what we aim to do: To develop in students both the wisdom and skills they will need to become responsible contributors to the advanced societies we shape, and to make them rigorously self-reflective, ethically alert, and imaginatively alive. Public and private purposes, as it were, harmoniously nurturing each other. Toward these ends, certain principles and values shape our sense of mission:

• Our purpose is not to offer specialized or professional training, but to develop in our students strong writing, speaking, and quantitative abilities, as well as analytical and interpretive talents, lasted in relation to fields, disciplines, and original liberal arts. We invite young people to claim that a broadly educated person will be more capable of adapting to the particular needs of the professions and of public life than a person narrowly trained in singular subjects.

• Our curricular requirements aim to negotiate the crucial balance between breadth and depth. We combine an appropriately liberal distribution of each student’s course choices across the curriculum with some measure of control over the methods and subject matter of at least one required course. In important ways of discipline approaches and the disciplinary traditions that support them, we have welcomed and participated in the academy’s growing emphasis on inter-disciplinary learning as a way of understanding the interconnectedness of ideas, and as a bulwark against the fragmentation of knowledge.

• Through the increasingly global reach of our curriculum, as well as the diversity of our campus community, we seek to develop in students the confidence to see and feel, to grasp, respond, and resolve to search as widely as possible for students of high academic ability, and to understand that values of community whose intimacy of scale fosters close personal and intellectual learning and knowledge, and to make judgments that we fail to think of the past as something that calls to us with an urgent, or admonitory, or even sympathetic voice.

• We want, too, to lean against the growing culture of simplification, where intricate issues are boiled down into fiercely held “positions,” where counter-arguments are seen as irritating distractions from clarity, where “points” have more power and visibility than the thinking that produced them. We want instead to inspire in our students the confidence to be undaunted by complexity, and to embrace it in ways that will prove valuable to them and to society at large.

• We aim to encourage students to develop a personal stance toward learning and knowledge, and to make judgments that put their beliefs and values on the line. We want them to have the courage of their convictions, and to be not so much right or wrong, as we tell our students they too must be prepared to respond in an agile, nuanced way to needs and challenges we cannot yet anticipate.

In summarizing this college’s mission, we can turn to the eloquent words spoken by Williams President John Sawyer ’39 in his induction address in 1961:

The most versatile, the most durable, in an ultimate sense the most profound, is learning. Through it we gain the knowledge to do, and the wisdom to make the best use of it. The things that are now offered are those impractical arts and sciences around which a liberal education has long centered: the capacity to see and feel, to grasp, respond, and act over a widening arc of experience; the disposition and ability to think, and the confidence to act with one’s full capacity for thought. Under an ever-extending range of reality; the elasticity to grow, to perceive more widely and more deeply, and perhaps to create; the understanding to decide where to stand and will and tenacity to do so; the wit and wisdom, the humanity and humor to try to see oneself, and also the clear thinking of others, to live in that world which things in which one believes on their way. This is not the whole of a liberal arts education, but as I understand it, this range of goals is close to its core. So it was more than a half-century ago, and so it remains today.

The statement above is the product of discussions during the 2016-17 academic year in the Accreditation Self-Study Steering Committee, whose twenty-eight members include faculty, students, and administrators, and in the Williams College Board of Trustees. The Board approved this statement in June 2017.
COURSES OF INSTRUCTION 2017-2018
COURSE NUMBERING SYSTEM
Courses designated by a single number are semester courses. In some departments, course numbers have special meanings that are explained in their listings.

YEAR-LONG COURSES
Year-long courses are designated by an odd number and an even number joined by a hyphen; the work of the two semesters constitutes an integral, cohesive whole. Because students may not pass the second half of a year-long course, they forfeit credit for the first half and incur a deficiency as a result of the forfeiture. Students who register for a year course are required to do both semesters of that course within the same academic year.

THESE SYMBOLS ARE USED IN DEPARTMENTAL MASTHEADS TO INDICATE FACULTY STATUS
* On leave for study
** On leave for fall semester
*** On leave for spring semester
§ Visiting or adjunct, part-time fall semester
§§ Visiting or adjunct, part-time spring semester
§§§ Visiting or adjunct, full-time spring semester

REGISTRATION
Registration for fall and spring semesters and for the Winter Study Program takes place at designated periods during the academic year. There may be a $5 per day late fee for any registration changes accepted after the announced deadlines, including the subject designation for cross-listed courses.

- New students register online in early summer; soon after arrival at Williams, they meet with their assigned Academic Advisors to discuss the curriculum and their course selections. All course changes for new students are made after these meetings. During the first two years of study, students are limited in the number of courses they may take in one department or subject each semester as follows:
  - First-year students may take no more than one course with the same course prefix, nor more than two in one department, in a semester.
  - Sophomores may take no more than two courses with the same course prefix, nor more than three in one department, in a semester.
  - Sophomores may take no more than three courses with the same course prefix, nor more than four in one department, during the full year.
  - A student may take no more than a total of five courses with the same course prefix, nor more than eight in one department, during the first two years.

Of note:
1) A course in which registration is deemed insufficient may be withdrawn at the beginning of the semester without prior notice.
2) An instructor has the right to: a) require a student to drop a course if the student does not attend the first scheduled meeting of that course; b) refuse permission to add a course if a student has not attended the first scheduled meeting of that course.
4) An incoming junior must declare a major by filling a “Major Declaration Form” during preregistration. A current junior or senior may change or add a major by filling a “Major Declaration Form” subject to approval by CAS.
5) Declaration of two majors is subject to the approval of the CAS.
6) Students wishing to undertake an independent study must submit a petition before the end of drop/add in which the student plans to take the independent study.
7) Forms for any of the above requests may be obtained at the Registrar's Office website.
8) When choosing a course cross-listed in two or more subjects, students should specify which designation they wish to have recorded—at the time they register for that course.
9) Courses normally meet three times a week in fifty-minute periods, twice a week in seventy-five-minute periods, or once a week for 150 minutes as indicated within the course description. The days of the week that courses meet are represented by the first letter of each day, for example, M for Monday (except that R is used for Thursday).
10) Tutorials are not available for the fifth course option. Students may not drop a tutorial after 4:00 pm on the day before the first scheduled day of organizational meetings each semester.

THE CURRICULUM
- Williams College offers a course of study leading to the degree of Bachelor of Arts. The course requirements prescribe both the number of courses to be completed and the minimum grade level to be achieved; the curriculum also requires that each student explore several fields of knowledge and concentrate in one. The full requirements for the degree include meeting the minimum academic standards stated below, residing at the College, fulfilling the distribution requirement, completing a major, and completing the physical education requirement.
- The academic year is divided into two regular semesters and a Winter Study Period. The student takes four courses in each semester and during January pursues a single program of study on a pass/fail basis.
- Winter Study Period, which began in 1967, is intended to provide students and faculty with a dramatically different educational experience. The differences are in the nature of the courses, the nature of the learning experience, and the change of educational pace and format from the fall and spring semesters. These differences apply to the faculty and students in several ways: faculty can try out courses with new subjects and techniques that might, if successful, be used later in the regular terms; they can explore subjects not amenable to inclusion in regular courses; and they can investigate fields outside their usual areas of expertise. In addition, the academic work, which is graded Pass, Perfunctory Pass, or Fail, students can explore new fields at low risk, concentrate on one subject that requires a great deal of time, develop individual research projects, or work in a different milieu (as interns, for example, or on trips outside Williamstown). In addition, Winter Study offers students an opportunity for more independence and initiative in a less formal setting, more opportunity to participate in cultural events, and an occasion to get to know one another better.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE

General Requirements for the Bachelor of Arts Degree
- To be eligible for the Bachelor of Arts degree a student must pass 32 semester courses (at least 29 of which must be regularly graded A-E, including 19 with grades of C- or better), pass four Winter Study Projects, fulfill the four-part distribution requirement, complete all requirements for the major, get no more than one grade below a C in any one division, and meet the four-year education requirement. A student may not repeat a course for which degree credit has been awarded.

Distribution Requirement
- The distribution requirement falls into four parts. Note that courses used to fulfill these requirements must be regularly graded. Please refer to individual course listings in the online catalog to determine distribution credit.

1) Division Requirement. Designed to ensure that in their course of study at Williams students take an appropriately diverse distribution of courses across the full range of the curriculum.
- The purposes of the requirement, courses are grouped into three divisions: Division I, Languages and the Arts; Division II, Social Studies; and Division III, Science and Mathematics. A full listing of the subjects in each division appears below.
- Students must complete at least three graded semester courses in each division. Two in each division must be completed by the end of the sophomore year. No more than two of the courses used to satisfy the requirement may have the same course prefix. The courses must be taken at Williams or at programs under the direction of Williams College Faculty.
- Courses that fulfill the distribution requirement in Division I are designed to help students become better able to respond to the arts sensitively and intelligently by learning the language, whether verbal, visual, or musical, of a significant field of artistic expression. Students learn how to develop the capacity for critical discussion, to increase awareness of the esthetic and moral issues raised by works of art, and to grow in self-awareness and creativity.
- Courses which fulfill the Division II requirement consider the institutions and social structures that human beings have created, whether knowingly or unknowingly, and which in turn markedly affect their lives. These courses are intended to help the students recognize, analyze, and evaluate these human structures in order that they may better understand themselves and the social
Courses which fulfill the Division III requirement are intended to provide some of the factual and methodological knowledge needed to be an informed citizen in a world deeply influenced by scientific thought and technological accomplishment, and to cultivate skill in exact and quantitative reasoning.

Courses with the following designations receive divisional distribution credit as indicated:

**Division I: Languages and the Arts**

Arabic (except 111, 206, 207, 215, 230, 231, 232, 234, 243, 280, 281, 303, 305, 310, 311, 332, 408, 409, 410, 480, 491)

Art History
Art Studies
Asian Studies 103, 274
Chinese (except CHIN 223)
Classics
Comparative Literature
Critical Languages
Danish
Dance
English
EXPR 245, 420
French
German
Greek
INTR 152
Italian
Japanese (except JAPN 217, 218, 321, 486T)
Latin
Literary Studies
Maritime Studies 231
Music
Russian
Spanish
Spanish Theatre

**Division II: Social Studies**

African Studies
American Studies
Anthropology
Arabic 111, 206, 207, 215, 230, 231, 232, 234, 243, 280, 281, 303, 305, 310, 311, 332, 408, 409, 410, 480, 491
Asian Studies (except 103, 274)
Chinese 223
Cognitive Science
Economics
Economics Studies 101
Experimental Studies (except EXPR 245, 420)
Global Studies
History

Maritime Studies 104, 211, 311
Mathematics
Neuroscience
Physics
Psychology 212, 312, 315, 316, 317T, 318
Statistics

Please note: Any Environmental Studies course that is also cross-listed with another subject carries distribution credit of that subject. Other Environmental Studies courses may fulfill distribution requirements as indicated under individual course listings.

Courses at the Williams-Mystic Program may also be used toward fulfilling the distribution requirement as appropriate.

2) Exploring Diversity Initiative Requirement. Williams College is committed to creating and maintaining a curriculum, faculty, and student body that reflects and explores a diverse, globalized world and the multi-cultural character of the United States. Courses marked with a “(Q)” in the College Bulletin are a part of the College’s Exploring Diversity Initiative (EDI); they represent our dedication to study groups, cultures, and societies as they interact with, and challenge, each other. Through such courses, students and faculty also consider the multiple approaches that engage social and political power relations, in the past or present, however, courses fulfilling the requirement actively promote a self-conscious and critical engagement with diversity. They urge students to consider the operations of difference in the world and provide them with the tools to do so. The ultimate aim of the requirement is to lay the groundwork for a life-long engagement with the diverse cultures, societies, and histories of the United States and the rest of the world.

Courses that constitute the Exploring Diversity Initiative may fall under a variety of categories, including (but not limited to) the following:

- **Comparative Study of Cultures and Societies.** These courses focus on the differences and similarities between cultures and societies, and/or on the ways in which cultures, peoples, and societies have interacted and responded to one another in the past.
- **Empathetic Understanding.** These courses explore diverse human feelings, thoughts, and actions by recreating the social, political, cultural, and historical context of a group in order to imagine why within that context, those beliefs, experiences, and actions of the group emerged.
- **Power and Privilege.** These courses link issues of diversity to economic and political power relations, investigating how cultural interaction is influenced by various structures, institutions, or practices that enable, maintain, or mitigate inequality among different groups.
- **Critical Theorization.** These courses focus on ways scholars theorize the possibilities of cross-cultural understanding and interaction; they investigate the ways that disciplines and paradigms of knowledge both constitute “difference” and are reconfigured by the study of diversity-related questions.

All students are required to complete ONE course that is part of the Exploring Diversity Initiative. Although this course, which may be counted toward the divisional distribution requirement, may be completed any semester before graduation, students are urged to complete the course by the end of the sophomore year.

Students wishing to fulfill the EDI requirement via the completion of study away must submit the completed EDI form and their essay after their return proposing EDI credit for a course or independent study project/research they pursued while away. The essay will require students to intellectually describe how they believe their study away course or independent study project/research met one or more of the goals of the Exploring Diversity Initiative; the essay will be considered by the Director of the Exploring Diversity Initiative working in concert with the Committee on Academic Affairs. There is no appeal process, and all decisions are final.

Here is a current list of courses offered that meet the Exploring Diversity Initiative requirement.

3) Quantitative/Formal Reasoning Requirement. This is intended to help students become adept at reasoning mathematically and abstractly. The ability to apply a formal method to reach conclusions, to use numbers comfortably, and to employ the research tools necessary to analyze data lessen barriers to carrying out professional and economic roles. Prior to the senior year, all students must pass a Quantitative/Formal Reasoning (QFR) course- those marked with a “(Q).” Students requiring extra assistance (as assessed during First Days) are normally placed into Mathematics 100/101/102, which is to be taken before fulfilling the QFR requirement.

The hallmarks of a QFR course are the representation of facts in a language of mathematical symbols and the use of formal rules to obtain a determinate answer. Primary evaluation is based on multistep mathematical, statistical, or logical inference (as opposed to descriptive answers).

Here is a current list of courses offered that meet the Quantitative/Formal Reasoning requirement.

4) Writing Requirement. All students are required to take two writing-intensive courses; one by the end of sophomore year, and one by the end of the junior year. Students will benefit most from these courses by taking them early in their college careers, and are therefore strongly encouraged to complete the requirement by the end of the sophomore year.

The goal of the writing-intensive course requirement is to improve student writing proficiency across disciplines. Students in these courses should expect to receive guidance on style, argumentation, and other significant aspects of writing, as well as evaluation and criticism of their writing throughout the semester. This may be achieved through a variety of approaches: brief assignments spaced over the semester, sequenced...
assignments leading to a longer final paper, etc. Writing-intensive courses may also include multiple drafts, conferences, peer review, or class discussions designed to improve writing skills. A course with a single long paper due at the end of the semester, but with no required or structured means of addressing writing issues, would not be considered writing-intensive.

Writing-intensive courses require a minimum of 20 pages of writing and have a maximum enrollment of 19 to allow the instructor to devote appropriate attention to writing over the course of the semester.

All tutorial courses in the Williams-Exeter Programme at Oxford University (WIOX) meet the Williams College ‘W’ designation, except for those in the studio arts, mathematics, and the sciences.

Here is a current list of courses offered that meet the Writing requirement.

Major Requirement
The Major Requirement is designed to assure that all Williams undergraduates will have the experience of disciplined and cumulative study, carried on over an extended period of time, in some important field of intellectual inquiry. Juniors are required to declare a major and the selection is normally made at the time of registration in the spring of the sophomore year.

Majors are offered in the following fields:
- American Studies
- Anthropology
- Arabic Studies
- Art
- Asian Studies
- Astronomy
- Astrophysics
- Biology
- Chemistry
- Chinese
- Classics (Greek, Latin)
- Comparative Literature
- Computer Science
- Economics
- English
- Environmental Studies
- French
- Geosciences
- German
- History
- Japanese
- Mathematics
- Music
- Philosophy
- Physics
- Political Economy
- Political Science
- Psychology
- Religion
- Russian
- Sociology
- Spanish
- Statistics
- Theatre

Women’s, Gender and Sexuality Studies

General Structure of Majors
1) A student ordinarily must elect at least nine semester courses in their major field. A major may also require an additional course and/or one Winter Study Project during the junior or senior year. A student may also fulfill the minimum requirements for a major by taking eight semester courses in the major field and two semester courses, approved by a major advisor, in associated fields. In interdepartmental majors, such as Political Economy, a larger number of courses may be required.

2) A prescribed sequence of courses, supplemented by parallel courses, and including a major seminar, is required in some major fields. Other majors ask the student to plan a sequence of elective courses, including advanced work building on elementary courses in the field, and ending in a one- or two-semester faculty-organized course or project in the senior year. All majors provide a system of counseling to help students plan programs reflecting individual interests as well as disciplinary and cumulative patterns of inquiry. Courses in many major programs require prerequisite courses in related areas. A full description of the detailed structure of each major is found under the heading of that major.

Contract Major
Students who wish to undertake the coherent study of an interdisciplinary subject not covered by a studently offered major may propose to be contract majors. Procedures for arranging a contract major and for honors work in such a major are described in the section, “Courses of Instruction.” Students interested in this option should begin consulting with the Dean’s Office and with potential faculty advisors early in the sophomore year. A student completing a contract major may not do so in conjunction with a second major.

Two Majors
A student may complete two majors with the permission of both majors and the Committee on Academic Standing. Although a student may be granted permission to use a course from one major to fulfill a particular requirement in the other, the student nevertheless must take the minimum number of courses in each field without counting any course twice. A student may be a candidate for Honors in either or both of the majors, but a course for Honors in one major may not be used for an Honors course in the other.

Physical Education Requirement
The Physical Education requirement provides students the opportunity of establishing and maintaining a general level of fitness and well-being; of developing abilities in carry-over activities; of discovering and extending their other physical capabilities; and of developing skills in activities with survival implications, such as swimming.

A swim test is required of all first-year students at the start of the academic year. All students who fail to complete the test must pass a basic swim course given in the Physical Education program during the first quarter of the year. Students must complete four quarters of physical education by the end of the sophomore year.

Students must enroll in at least two different activities in fulfilling the requirement.

Satisfactory attendance is required except for students excused by the Dean and the Director of Medical Services or the Director of Psychological Counseling Services.

- Participation in an intercollegiate, junior varsity or club sport is equivalent to two activity each year, split season sports will earn one credit for each half of the year (crew, golf, tennis, rugby, ultimate, etc.).
- A maximum of three credits may be attained while participating in sports with the exception of a two-sport athlete who may fulfill the physical education requirement by totaling four units in two sports. The remaining units must come from the physical education activity program.

Residence Requirement
Students who begin college at Williams must spend a minimum of six semesters in residence at Williams. Students transferring to Williams from other institutions must spend a minimum of four semesters in residence at Williams, and those entering as sophomores are expected to spend six semesters in residence. Students are considered to be in residence if they are taking a program of study under the direction of the Williams College Faculty. Students must be in residence for both semesters of the final year.

The degree requirements must be completed within eight semesters, including any semesters for which a student receives credit while not in residence at Williams. Thus, semesters spent away on exchange or other approved programs at other colleges are included in the eight semesters.

ADDITIONAL CURRICULAR OPPORTUNITIES
Advanced Placement and International Baccalaureate
At the discretion of the appropriate departments or programs, students presenting satisfactory scores in Advanced Placement exams or International Baccalaureate higher level examinations may be placed in advanced courses not regularly open to them and/or may receive course credit toward the major or concentration. Therefore, if granted, this credit may be used as a prerequisite or in partial fulfillment of the major or concentration requirements.

- AP and IB credit may not be used to reduce the normal course load of a semester, make up a deficiency incurred at Williams, or satisfy the Distribution Requirement.

Degree Credit Based on A-Level Examination Grades
Upon petition from the student, the Committee on Academic Standing may award two course credits toward the Williams degree for each grade of A or B received on an A-Level Examination in a liberal arts discipline. These credits may be used to accelerate graduation but may not be used to lower the course load during a semester in residence.

Normally, a student must have completed at least one full year of study at Williams and have met minimum academic standards before the CAS will consider the petition. The petition must include certification that all degree requirements, including a major, can be fulfilled if the credit is awarded.

Certificate in Foreign Languages
Certificates are awarded in Arabic, French, German, Russian, and Spanish. The certificate confirms a particular degree of proficiency, cultural literacy, and experience in the content of the student’s college education. Seven or eight courses are required, depending on the language. Please see the individual programs for details and specific requirements.

Combined Program in Liberal Arts and Engineering
The 3-2 program enables a qualified student to combine a liberal arts education at Williams with undergraduate professional training in engineering. Students spend the first three years at Williams and the remaining three years at Columbia University, completing a Bachelor of Arts degree from Williams and a Bachelor of Science degree from Columbia.

During their 3 years at Williams, 3-2 students must complete all of the normal requirements for a Williams degree, including a major and the distribution requirements. Students majoring in the sciences should consult...
with their department chair to see if any of the courses taken at Columbia can count toward their Williams major. Only students who have taken the prerequisite courses, who have at least a 3.30 grade point average in scientific subjects and overall will be recommended by their major department and approved by the Committee on Academic Standing for this program. The 3-2 program has an extensive list of prerequisite mathematics and science courses, so it is necessary to plan course selections at Williams carefully. The Physics Department’s Pre-Engineering website includes a list of Williams courses recommended to prospective engineers, as well as a link to the list of Columbia’s prerequisites.

A popular alternative to the 3-2 program is to complete the Williams B.A. in the usual 4 years, majoring in one of the sciences, and then go directly to a graduate program in engineering. Please see Preparation for Graduate and Professional Study. Also, prospective engineers at Williams have the opportunity to take undergraduate engineering courses at other institutions through various exchange programs.

The pre-engineering advisor, Taku Majumder, will be happy to assist students interested in any of the options leading to engineering careers.

Concentrations
In addition to majoring in a field, a student may choose to concentrate elective courses on a single topic or area. Normally, a student declares a concentration at the time of registration in the spring of the sophomore year. Concentrations are offered in the following programs:

- Africana Studies
- Biochemistry and Molecular Biology
- Cognitive Science
- Environmental Studies
- Global Studies
- Jewish Studies
- Justice and Law
- Latina/o Studies
- Leadership Studies
- Maritime Studies
- Neuroscience
- Public Health
- Science and Technology Studies

Coordinate Programs
A number of programs do not offer concentrations formally, but do provide students with the opportunity to study topics that cross department and program lines. These are: Bioinformatics, Genomics, and Proteomics; Film and Media Studies; History of Science; Linguistics; and Materials Science Studies.

These programs provide guidance only and do not appear on transcripts.

Cross-Enrollment Programs
A limited number of students may register at Bennington College or Massachusetts College of Liberal Arts for courses not offered at Williams. Students should contact the Registrar’s Office about arrangements.

Experiential Education at Williams
Experiential education, involving “learning by doing” outside the classroom, is a successful and growing part of the Williams curriculum. In addition to the use of traditional laboratory work in the natural sciences and studio work in the arts, challenge students to become deeply engaged in their academic and civic learning through field work, whether in the form of research, sustained work on special projects or through placement with community organizations. Courses which include experiential learning provide students with opportunities to encounter firsthand the issues that they read and study about, requiring them to apply academic learning to nonacademic settings and challenging them to use their experiences in those settings to think more critically and deeply about what they are studying. Courses with an experiential dimension range from those involving a small fieldwork project to the multi-course semester length immersive Williams-Mystic Maritime Studies program. The amount and nature of the experiential component(s) varies according to the instructor’s judgment. Experiential course listings are available on the Center for Learning in Action (CLIA) website. Beyond specially designated semester and winter study courses, faculty welcome students developing their community service and work interests into curricular fieldwork, whether as a retooling of an existing assignment or an independent study.

A range of non-credit experiential learning opportunities is also available to interested students. Course work, internships, research, and special initiatives all provide students the chance to “learn by doing” outside the classroom. Information on each of these avenues is highlighted below.

Volunteer and Paid Community Service
Opportunities to apply creative energy and initiative in the service of others, i.e. to learn by doing good, abound in education, government and non-profit organizations surrounding campus. Volunteers can teach, tutor, or mentor in the local schools, build homes with Habitat for Humanity, work on energy efficiency campaigns, join or lead Break Out (spring break) Trips, serve as volunteer income tax consultants, clean hiking trails, and more. Work in these areas is facilitated by the Center for Learning in Action (CLIA) and over a dozen student groups, including Williams Homeless Outreach, Ephs Out Loud, Williams Recovery of All Perishable Surplus (WRAPS), and Lehman Community Engagement (LCE) which leads monthly service projects and a fall and spring Great Day of Service.

Curation and Education at the Williams College Museum of Art
Students can help develop exhibitions and programs, or teach art to the public as Gallery Guides of the Williams College Museum of Art. To learn more, contact Rachel Heisler, Manager of Student and Visitor Engagement.

Internships and Research Opportunities
A wide variety of summer internship and research fellowship opportunities are available to interested students through the Career Center, the Center for Environmental Studies (CES), the Zilkha Center, the Williams Outing Club, and the Center for Learning in Action (CLIA). Research opportunities are also available through individual academic departments.

Summer Internships
Students can apply for grants or participate in internship programs run by many campus departments and programs. Options include serving as a community outreach intern or K-8 science curriculum developer with the Center of Learning in Action (CLIA), summer internship funding from the Career Center, the Center for Environmental Studies (CES), the Zilkha Center for Sustainability, and the Economics Department.

Summer Research Work with Williams Faculty and Independent Field Research
Students can work on research projects with faculty involving fieldwork in the Humanities and Natural and Social Sciences through programs administered by the Office of the Dean of the Faculty and Center for Learning in Action (CLIA). For more information, see the Office of the Dean of the Faculty and the Sentinels Fellowship Program, which funds U.S. policy research. For funding for an independent research or creative project, see the Office of Fellowships.

For more information about experiential learning and community engagement at Williams College, go to the Center for Learning in Action (CLIA).

Honors Program
Williams awards the degree with honors to those students who have demonstrated imagination, initiative, and intellectual independence within the major or in some concentrations. The Honors Program requires two or three courses, one of which may be a Winter Study Project, constituting a clearly interrelated pattern of study, whether in the form of a thesis, specialization within the major, or interdisciplinary study with courses from other programs or departments. At least one of the courses must be in addition to the minimum requirement for the major or concentration. A student needs to do the equivalent of two theses in order to be eligible for honors in two majors or a major and a concentration.

Individual departments and programs describe special criteria, procedures, and patterns of study for honors in the “Courses of Instruction” section. Students should consult with their departments on their honors options prior to the senior year. Before the student has begun the last of the required course units, the department or program determines whether the student is admitted to honors candidacy. The degree is awarded with Honors or Highest Honors at the end of the senior year if, in the judgment of the department, its criteria of excellence have been met.

Independent Study
When a particularly able student wishes to study a subject not covered by the normal course offerings, arrangements may be made to undertake courses of independent study under faculty supervision. Such arrangements are made with the appropriate department well in advance of the start of the semester. Once you have discussed plans for an independent study with a faculty sponsor, please submit the Independent Study Request form before the beginning of the semester in which the independent study will be taken, but no later than the last day of drop/add.

Study Away from Williams
Students are encouraged to think about the option of study away as they begin the process of choosing major and course requirements for the sophomore year. All students in good standing with no deficiencies, including financial aid recipients, are encouraged to study away during all or part of their junior year. The Office of International Education and Study Away offers over 200 approved programs, both domestically and internationally, for students to choose from. Over 40% of the junior class chooses to study away for a full semester or academic year.

Credit earned on the Williams-Mystic Maritime Studies and the Williams-Exeter Program at Oxford are considered Williams College credits and the grades will be applied toward the GPA. Students participating on all other approved programs will receive general credit and their GPA will not be impacted, however, the experience will appear on their Williams College transcript. Credits can transfer toward the Williams degree; however, approval is required from the chair of the student’s major department; the Director of International Education and Study Away; and the Committee on Academic Standing (CAS).

The one-time petition deadline is March 1st the year before a student chooses to study away. To learn more about the process please contact the Office of International Education and Study Away.
The Williams Tutorial Program

The Tutorial Program offers Williams students a distinctive opportunity to take a heightened form of responsibility for their own intellectual development. No student is required to take a tutorial course, but any student with the appropriate qualifications and interests is invited to do so.

Tutorials at the 100/200 level are designed primarily for first-year students and sophomores; they are usually given enrollment preference for such courses, though interested juniors and seniors are often welcome. Tutorials at the 300/400 level are designed primarily for juniors and seniors (and, often, for majors in the discipline); interested first-year and sophomores are welcome to apply, but are urged to consult the instructor before registering.

Tutorials place much greater weight on student participation—more so than regular courses or small seminars. They aim to teach students how to develop and present arguments; listen carefully, and then refine their positions in the context of a challenging discussion; and respond quickly and cogently to critiques of their work. Tutorials place particular emphasis on developing analytical skills, writing abilities, and the talents of engaging in rigorous conversation and debate.

The ways in which particular tutorials are conducted vary across the disciplines, but this is how most tutorials at Williams are organized:

Tutorials usually limit enrollment to ten students. At the start of term, the instructor divides the students into pairs. Each pair meets weekly with the instructor for roughly one hour—this is the main focus of tutorial courses. Many tutorial courses begin and end the term with a group seminar, and in a few departments, instructors hold weekly group meetings of all tutorial members to provide background information designed to facilitate the students’ independent work.

At these weekly meetings, one student delivers a prepared essay or presentation (e.g., an analysis of a text or work of art, a discussion of a problem set, a report, etc.) pertaining to the assignment for that week, while the other student and then the instructor—offer a critique. In the following week, students switch roles. Typically, students write five or six critiques (on 4 to 7 pages) during the term, and offer five or six critiques of their partners’ work.

Since the program’s inception in 1988, students have ranked tutorials among the most demanding—and rewarding—courses they have taken at Williams. While not all tutorials are as demanding as other courses, tutorials are nonetheless challenging, with frequent writing assignments and the expectation that students will be well prepared to participate actively and effectively in weekly discussions. At the same time, students have consistently placed tutorials among the most enriching and consequential courses they have taken. They appreciate the close attention to their writing and argumentation skills; the opportunity to be held accountable, in a detailed way, for the extended implications of their ideas; the chance to develop their oral abilities as they engage in debate; and the close intellectual and argumentation skills; the opportunity to be held accountable, in a detailed way, for the extended implications of their ideas; the chance to develop their oral abilities as they engage in debate; and the close intellectual discussion.

Williams offers a year-long program of studies at Oxford University in cooperation with Exeter College, Oxford. Based at Exeter, Williams House, Williams’ study center at Oxford, the Programme is designed to offer the fullest possible integration of the student into the intellectual and social life of one of the world’s great universities. It makes full use of the Oxford tutorial system and the Oxford three-term calendar is followed.

Eligibility for and Completion of Majors

To be eligible for any major, students must have received grades of C- or better in each course in the major taken in the first two years of college and
Pass on any Winter Study Project taken in the major department or program. A senior may enter a major only upon the approval of the department chair and the Committee on Academic Standing.

All semester courses in the major must be taken on an A-E graded basis, unless a course is the first in the major; in that case, it can be taken pass-fail. In rare instances, and with the permission of the relevant chair, students may be allowed to count a second pass-fail course for the major. In addition to passing each major course and, where required, a major Winter Study Project, the student must maintain an average in the major of 1.67 or higher. Seniors who have failed a course for the major may continue to remain in the major. A senior who receives a grade of E in the first semester of a required major course may be dropped from the College at mid-year. A student who falls below these standards may continue in the major only with the approval of the Committee on Academic Standing.

A senior major exercise is not required by every department but is by some. All departments requiring such an exercise specify it as such in the description of their major programs, and all students in those departments must complete the exercise satisfactorily.

Early Concentration Rule

During the first two years of study, students are limited in the number of courses they may take in one department or subject each semester as follows:

- First-year students may take no more than one course with the same course prefix, nor more than two in one department, in a semester.
- Sophomores may take no more than two courses with the same course prefix, nor more than three in one department, in a semester.
- Juniors may take no more than three courses with the same course prefix, nor more than four in one department, during the full year.
- A student may take no more than a total of five courses with the same course prefix, nor more than eight in one department, during the first two years.

Any exception to the above early concentration rule may be requested by a petition to the Committee on Academic Standing (CAS) filed at the time of registration.

Course Load

Students are required to complete four courses each semester.

Approved Reduced Course Load

If a student with a disability believes that they are unable to pursue a full course of study, the student may petition the Disabilities and Accommodations Advisory Committee for permission to pursue a reduced course load. Such a petition must be accompanied by a professional evaluation that addresses the student’s ability to maintain a full-course of study and discusses the rationale for a reduced course load. Upon consideration of a student’s petition and supporting documentation, the Disabilities and Accommodations Advisory Committee makes a recommendation to the Committee on Academic Standing, which renders decisions. Such cases are considered on an individual basis and may be initiated at any time during the student’s tenure at Williams.

A reduced course load permits students with documented need based on a disability to take three rather than four courses each semester. Students approved for a reduced course load must still complete all academic requirements of the college (including passing 32 courses, completing a major, and completing all of the distribution requirements) in order to graduate.

Academic rules of the college as they apply to students on approved reduced (three) course load:

- Minimum academic standards for an upperclass student on a reduced course load are three grades of C minus or better. OR two grades of C minus or better and a Pass and each semester, and at least Perfunctory Pass on the Winter Study Project. The minimum academic standards for a first-year student on a reduced course load are two grades of C minus or better and no failures each semester, and at least Perfunctory Pass on the Winter Study Project. The Committee on Academic Standing may require a student to withdraw from the college for a period of time for failure to meet these minimum standards.
- Students may take a fourth course as an extra course. This course may be taken pass/fail or for a grade, and will count toward the 32-course requirement.
- Students on a reduced course load should consult with the Associate Registrar and with Dr. Wallace, Director of Academic Services, at least once each year to make plans for completing the degree. Since the student will complete fewer than 32 Williams courses in eight semesters, the student will need to either take summer courses elsewhere or take additional semesters at Williams in order to complete their graduation requirements. Note, however, that only Williams courses can be used for completing distribution requirements.
- If a student wishes to take summer courses elsewhere, they must be pre-approved by the Associate Registrar and must be taken at an accredited four-year institution and be in a field appropriate to the liberal arts.
- If a student wishes to take courses elsewhere that count towards the requirements of their major, those courses will need to be approved by the chair in their major department or program.
- If a student receives financial aid, that aid can be extended if the reduced course load requires additional semesters to complete 32 courses.
- The college requires all students to take a full course load. This means that students on a reduced course load must be enrolled in a minimum of three courses each semester. Students who come to the end of a semester having completed 30 or 31 courses, and choose to complete those remaining courses by petitioning to take an additional semester at Williams will be expected to be enrolled in three courses that final semester.
- As is the case for all students, students are permitted to withdraw from one course in the first year and one additional course during the remaining semesters at Williams, so long as the requirements for withdrawing from a course are met. If the student withdraws from a course before the deadline for the following summer or the next semester. For more details on withdrawing from courses and making up course deficiencies, see http://www.williams.edu/admin/registrar/faq/failure.html#withdraw
- Students on reduced course load who plan to study away should be sure to both Dr. Wallace and the study away advisor know of their intention to take a reduced course load while away. Many study away programs permit students to take five courses (of which four may be pass/fail) or to complete a course load if they have been approved for that load by their home institution, but some programs are fully integrated such that taking only three courses is not possible without disrupting the academic integrity of the program.

If a student is approved for a reduced course load without a specific ending date, Dr. Wallace will review the necessity of continuing on reduced load at the beginning of each term. He may contact the student to request updated academic or medical information if needed to determine the appropriateness of continuing the reduced course load accommodation.

Pass/Fail Option

Students may designate a fifth course as one of their pass/fail options, similarly by the tenth week of the semester. Courses taken pass/fail as part of a course-load or as a fifth course to make up a course deficiency will count toward graduation; courses taken pass/fail as an extra course will not count toward graduation.

Instructors have the option of designating any of their courses not eligible for the pass/fail option.

Fifth Course Option

Except in the case of the unbalanced course program described above, a student may, by the end of drop/add, enroll in a fifth course that must be designated as an extra graded course. An extra course may be dropped any time up to the sixth week of the semester. If a student chooses to continue in the course and the course is available for the pass/fail option, they must decide by the tenth week whether to complete the course on an A-E graded basis or change the course to pass/fail. An extra course graded “Pass” may not be used to fulfill distribution requirements or certificate requirements (under rare circumstances, the chair of the relevant program or department may grant an exception to this rule) or to accelerate graduation, but may be used to make up a deficiency from a prior semester as one of the seven courses that complete the degree. An extra course completed as a fifth A-E graded course may be used to fulfill distribution or major, concentration, or certificate requirements or to make up a deficiency incurred in a prior term, but not to accelerate graduation. The grade received will be included in the calculation of the student’s cumulative grade-point average.

Instructors have the option of designating any of their courses not eligible for the fifth course option.

Withdrawing from a Course

First-year and first-semester transfer students may be permitted to withdraw from one course (incuring a deficiency but no grade penalty) as late as the tenth week of the semester. Upperclass students also may withdraw from a course under the same conditions once in subsequent years. A withdrawal, recorded on the transcript as a “W,” is granted only with the approval of the instructor and a dean and only if there is complete agreement between the instructor and the dean that, despite conscientious effort to do the work, continuation in the course would be detrimental to the overall educational interest or health of the student. The deficiency thereby incurred must be removed in the normal manner. See “Deficiencies” for more information.

Extensions of Deadlines

Deadlines for course work are set by the instructor with the following limitations and are not extendable fully:

- for courses with final exams, the latest that written work may be due is 5:00 p.m. on the last day of reading period.
- for courses without final exams, the latest that written work may be due is 5:00 p.m. on the third-to-last day of the exam period.
Failing a Course and Deficiencies

When a student fails in course credits because of a failure or course withdrawal, they have a deficiency. Deficiencies can be made up only by courses taken after the deficiencies have incurred. Thus, for example, Advanced Placement credits may not be used to make up deficiencies.

A deficiency incurred in the fall term must be made up before the start of the following academic year. A deficiency incurred in the spring semester must be made up prior to the start of the following spring semester. A student may, in consultation with the Dean’s Office, petition the Committee on Academic Standing with an alternate plan.

A student must make up a deficiency in one of these ways:
- obtain a grade of at least C in a summer school course, approved in advance by the Registrar, at a regionally accredited four-year college or university (the grade will not, however, be included in the calculation of the student’s cumulative grade point average)
- pass an extra course, either on a pass/fail or on an A-E graded basis, at Williams in the semester following the withdrawal or failure.
- in the case of a first semester failure, obtain a grade of at least a C minus in the work of the second semester of that course. The failure for the first semester will, however, remain on the student’s record and will be included in the cumulative grade point average.

For first-year students:
- three grades of C minus or better and no failures each semester, and at least Perfunctory Pass on the Winter Study Project
- for upperclassmen: Four grades of C minus or better, OR three grades of C minus or better and a Pass each semester, and at least Perfunctory Pass on the Winter Study Project

Students whose records fail to meet these minimum academic requirements or whose records otherwise fail to show adequate progress may receive an academic reminder, be placed on academic probation, or be required to resign.

Students who are required to resign from the College for academic reasons are normally not permitted to return for at least one year from the date of their resignation. There may, however, be exceptions. If a student is required to resign from the College may petition the Committee on Academic Standing through the Dean for reinstatement on two conditions only: all deficiencies must have been made up and a letter submitted to the Committee that offers convincing evidence that the student is now able to complete work toward a degree at Williams without further interruption.

When required to resign, students must vacate their rooms promptly. Financial aid students must also see the Director of Financial Aid before leaving to discuss loan repayment and renewal of aid in the event of readmission.

A student who fails to meet minimum academic standards in their final semester at Williams may be required by the Committee on Academic Standing to meet them by earning grades of at least C minus elsewhere before the B.A. will be awarded. If such work is required, it must be completed within three years unless stipulated otherwise, and the courses must be approved in advance by the Registrar.

Withdrawal from the College in Good Standing

Students may request personal leaves of absence from a dean and, if granted, withdraw from the College. Such time away, often as a period of reassessment and self-evaluation, can prove beneficial educationally. A withdrawal in good standing may be granted for not less than one semester and not more than three years. Students who withdraw in good standing are readmitted with the approval of the Dean’s Office and are expected to complete the degree requirements in the same time limitations.

Students may request permission from a dean to withdraw at any time. If a student is granted a personal leave of absence after the semester begins, before the end of the drop/add period, the transcript will list the date of withdrawal as the day the student officially withdrew. If the student is granted permission after the end of the drop/add period, but before the end of the eighth week of the semester, the transcript will list the date of withdrawal, but the semester will not count toward the maximum of eight allowed to complete the degree. If a personal withdrawal is allowed after the eighth week of the semester, the transcript will list the date of withdrawal and the courses in progress, each with a W. The semester will normally count toward the maximum of eight allowed to complete the degree and the student will incur deficiencies that must be made up before returning to the College.

Refunds

Payment refund or credit in the event of withdrawal is described in the Williams College Refund Policy.

Eligibility for Extracurricular Activities

A student is eligible to represent the College in any athletic, dramatic, literary, or musical event and be in the student government, or other organization as a member, substitute, or officer, unless they are declared ineligible to do so for one or more of the following reasons:
- by the Dean;
- by vote of the Discipline Committee; or
- by vote of the Discipline Committee on Academic Standing because of a dangerously low record.

The Student Honor Committee may recommend to the Dean loss of eligibility as a penalty for a violation of the Honor Code.

Dean’s List

All students who attain a semester average of 3.50 or higher in a program of four or more courses taken on an A-E graded basis are placed on the Dean’s List for that semester. (Note: students with three courses taken on an A-E graded basis and one pass/fail course are not eligible for the Dean’s List.)

Phi Beta Kappa Society

Students of the highest academic standing are eligible for election to membership in the Phi Beta Kappa Society in accordance with the following rules:

1) The requirements for election to membership shall be a grade point average of 3.3 and Honors or Pass in all required Winter Study Projects. There shall be two elections of new members for each class, at the end of the junior and senior years.

2) At the end of the junior year, all students in the highest five percent of the class, ranked by cumulative grade point average, shall be eligible for election provided they have met the requirements.

3) Students shall be eligible for election only if they have been students at Williams College for at least two years.

4) Honorary members may be elected from distinguished alumni of at least twenty years’ standing. No more than one such member shall be elected each year.

5) Any student who shall have gained their rank by unfair means or who in the judgment of the Dean of the College is not of good moral character is ineligible to election.

6) The name of a member elect shall be entered on the roll only after they have accepted the election and has paid to the Treasurer the regular entrance fee.

7) Any undergraduate member who withdraws from the College before graduation or who fails short of the minimum Phi Beta Kappa scholastic standing may, upon a two-thirds vote of the members present at the annual meeting, be deprived of membership in the society.

8) Any undergraduate expelled from the College shall be deprived of membership in the Society.

9) While connected with Williams College as an officer of instruction or administration, any graduate of Williams College who is a member of another chapter of Phi Beta Kappa shall be considered a regular member of the Williams chapter.

10) While connected with Williams College as professor, associate professor or assistant professor, or an officer of administration, any member of another chapter of Phi Beta Kappa shall have all the privileges of the Williams chapter, including holding office and voting. While connected with Williams College, any other officer of instruction or administration who is a member of another chapter shall have all the privileges of the Williams chapter, except holding office and voting.

Awarding of Degrees

By vote of the Trustees, the degree of Bachelor of Arts is conferred at Commencement upon students who have completed the requirements as to courses and grades to the satisfaction of the Faculty. The right to a degree may, however, be forfeited by misconduct at any time prior to the conferring of the degree. No degree in absentia will be conferred except by special vote of the Trustees on petition of a student and recommendation of the department concerned and with the approval of the Committee on Academic Standing.

Graduation with Distinction (Latin Honors)

The Faculty will recommend to the Trustees that the degree of Bachelor of Arts with distinction (Latin Honors) be conferred upon those members of the graduating class who have passed all Winter Study Projects and obtained a four-year average in the top:

- 7) Any undergraduate member who withdraws from the College before graduation or who fails short of the minimum Phi Beta Kappa scholastic standing may, upon a two-thirds vote of the members present at the annual meeting, be deprived of membership in the society.

8) Any undergraduate expelled from the College shall be deprived of membership in the Society.

9) While connected with Williams College as an officer of instruction or administration, any graduate of Williams College who is a member of another chapter of Phi Beta Kappa shall be considered a regular member of the Williams chapter.

10) While connected with Williams College as professor, associate professor or assistant professor, or an officer of administration, any member of another chapter of Phi Beta Kappa shall have all the privileges of the Williams chapter, including holding office and voting. While connected with Williams College, any other officer of instruction or administration who is a member of another chapter shall have all the privileges of the Williams chapter, except holding office and voting.
35% of the graduating class – Bachelor of Arts cum laude or higher  
15% of the graduating class – Bachelor of Arts magna cum laude or higher  
2% of the graduating class – Bachelor of Arts summa cum laude

Winter Study Project
Students must pass a Winter Study Project in each of their four years. Winter Study Projects are graded Pass, Perfunctory Pass, or Fail. All work for Winter Study Projects must be submitted by the last day of the Winter Study Program; work may be accepted after this date only with the permission of a dean. Students who fail their Winter Study Projects or receive a second Perfunctory Pass will be placed on academic probation by the Committee on Academic Standing and will be required to make up the deficiency. Students who fail through gross neglect of work will normally be required to resign.

Program
Prior to 1967-68, Williams College followed the traditional two semester calendar. Beginning with the year 1967-68, the 4-1-4 plan has been followed. Williams has no summer session.

Credits
Prior to 1967-68, 40 semester courses were required for the degree. Each course was considered the equivalent of three semester hours. The 401-402 course and certain other courses carried double credit.

Starting with 1967-68, 32 semester courses, four winter study projects, and four units of physical education were required for the degree. Our course system considers all full semester courses to have equal weight toward completing the degree requirements. Full semester courses typically meet for a minimum of three hours a week, with the expectation that at least an additional ten hours of academic engagement be spent in class, lab, discussion, studio, film viewing, reading, research, writing, and/or other forms of intellectual and creative work related to their class.

The Winter Study Project enhances the breadth of our traditional liberal arts curriculum. The four-unit requirement encourages students to explore topics both within and outside the traditional liberal arts curriculum, provides opportunities for domestic and international travel, and allows students to participate in research and fieldwork that will enrich their education and that may lead to possible careers.

If it is necessary to convert course units to credit hours, we suggest that each full semester course be considered the equivalent of 3.75 credit hours.

ACADEMIC HONESTY
All students are expected to be familiar with the Williams College Honor Code and to reaffirm their commitment to the Statement of Academic Honesty by signing an Honor Code pledge at the beginning of each academic year. The Honor Code covers all aspects of academic honesty, including the writing of papers and laboratory reports as well as all quizzes, hour tests, and examinations. For a self-directed citation tutorial, please see The Eph Survival Guide at williams.edu/wp-etc/acad-resources/survival_guide. For a complete description of honor and discipline procedures, please see sites.williams.edu/honor-system.

Statement of Academic Honesty
As an institution fundamentally concerned with the free exchange of ideas, Williams College has always depended on the academic integrity of each of its members. In the spirit of this free exchange, the students and faculty of Williams recognize the necessity and accept the responsibility for academic honesty.

A student who enrolls at the College thereby agrees to respect and acknowledge the research and ideas of others in their work and to abide by the standards of reference and attribution required. The basic rules are summarized below. Students are further advised to consult a recognized style manual to learn how to acknowledge sources correctly. While academic honesty does not demand a footnote on statements of common fact, it does require that a student provide clear footnotes or other appropriate documentation and give credit in the bibliography to ideas, interpretations, and facts that particular sources have contributed to the student’s final work.

The basic rules of attribution require that:
1. A direct quotation (whether a single word or a phrase, sentence, paragraph, or series of paragraphs) must always be identified by quotation marks, by indenting and single spacing, or by reduced type size of the quoted material, and a note must be used to state the exact source.
2. A paraphrase of the work of another must be acknowledged as such by a note stating the source.
3. Indebtedness to the specific ideas of others, or the summarizing of several pages, even though expressed in different words, must be acknowledged by a note stating the source.
4. In every instance, the use of another student’s laboratory reports, class notes, term papers, or other material must be acknowledged by a note.
5. Even the use of a student’s own previous or concurrent work must be acknowledged; thus, a student must obtain the prior permission of all instructors concerned before submitting substantially all or part of the same paper in more than one course.

Note: Attempts to gain academic advantage by misleading a professor are violations of the Honor Code. For example, if a student claims to have handed in an assignment that work must actually have been submitted.

EXPENSES
Within the limits of available funds, Williams endeavors to offer its educational opportunities to all who qualify for admission. Income from its endowment and annual contributions from its alumni and friends have enabled Williams to keep its tuition at about half the actual cost per student to the College.

Payment of Term Bills
College bills for one-half of all tuition and fees are available online to students (and other authorized payers) twice a year (in mid-July and mid-December) for payment by August 15 and January 15; a fee of $250 may be charged if payment is received after these dates. Term bills must be paid before the semester’s classes begin or the student may not be permitted to enroll in classes or remain in residence at the College. Billing statements for accounts with outstanding balances or current activity will be issued online monthly and are due upon receipt.

All outstanding balances must be paid to the Bursar, and all books and materials must be returned to the Library, before the student is entitled to a degree or a transcript.

College Bills
College charges for tuition, room, board, and fees for the academic year 2017-2018 are as follows:

Tuition $53,240
Board $7,170
Room $6,980
Activities and Residential House Fees $310
$67,700

Other Expenses
Based on a study of expenses reported by financial aid students, a minimum normal budget for a college year at Williams includes additional expenses estimated as follows:

Books $800
Clothing, Laundry, Recreation ~ $1,500
Estimated year's total, exclusive of travel expenses* $2,300

* A student activities fee for support of non-athletic student organizations is charged to all undergraduates as part of the College term bill.
** Travel expenses are not included in figures listed above. The cost of two round-trip tickets is added into each successful financial aid candidate’s award.

Additional Items
A Residential House Fee of $60 per year is charged to upperclassmen as

11
a part of the College term bill at the rate of $30 each semester. It is used to provide a base for the social and cultural programs of each residential House and to meet any unusual maintenance expenses for the Houses. First-year class dues of $80 are charged at the rate of $30 each semester. Co-op residents and off-campus residents are charged a $30 Neighborhood Residential Fee each semester.

The Commonwealth of Massachusetts requires that all full- and part-time students enrolled in institutions of higher education located in Massachusetts must participate in a qualifying student health insurance plan offered by the institution or in another health insurance program offering comparable coverage.

The College offers a qualifying student health insurance plan to all students. Students may opt to participate in the College’s plan if the student certifies prior to August 1, 2017 at www.gallagherstudent.com that the coverage offered by an alternative program chosen by the student is comparable to the plan offered by the College. Students enrolled in the College’s plan for the 2018-2019 academic year will be charged $1,818 for this coverage.

Information about the student health insurance plan offered by the College is emailed to every student in May. Questions about the College’s plan or the online waiver/enrollment process should be directed to Gallagher Student Health at 800-406-5205 or by email at williamsstudent@gallagherstudent.com.

There may be a $5 per day processing fee for any registration changes accepted after the announced deadlines. There is a charge of $25 for a lost key and $15 for a lost ID.

**Payment of College Bills**

A non-refundable deposit of $200 to reserve a place in the first-year class is required from applicants (except certain financial aid recipients) by the Candidate’s Reply Date of May 1. The deposit appears as a credit on the term bill rendered in July.

College term bills for one half of the annual comprehensive fee are issued electronically and may be paid by credit card (Visa, MasterCard, Discover or American Express). Credit card payments are subject to a 2.99% convenience fee. Payments may be made online through the Student Account Center or by credit card (VISA, MasterCard, Discover or American Express). Credit card payments are subject to a 2.99% convenience fee. Payments may also be made via check, money order, or cash. International payments may be made by wire transfer through Flywire.

Students who receive a scholarship(s) that was not awarded through the Williams Office of Financial Aid must complete a Scholarship Information Sheet and submit it to the Financial Aid Office by early June. Provisional credit will be posted in the student’s account for the following; and any disbursements of direct loans for which a promissory note has been signed and returned to the Office of Financial Aid, anticipated disbursements of outside loans approved by the lender, outside scholarships which have not yet been received and applied against the student account, and any remaining summer contract amount for the TMS Installment Payment Plan (5-month or 4-month plan for each term). If actual payment for the above provisional credits are not received by the date anticipated, the provisional credit will expire and be removed from the student’s account creating a balance due.

A check or online payment returned to the College for any reason such as “no account/unable to locate account” or “insufficient funds” will be charged to the student’s account a $25 late fee and may not be permitted to enroll in classes, register a vehicle, participate in the housing lottery/room draw, or remain in residence at the College. Furthermore, if arrangements for payment after the start of the semester are not made satisfactory and communication with the Bursar is subject to a $250 late fee and may not be permitted to enroll in classes, register a vehicle, participate in the housing lottery/room draw, or remain in residence at the College. If efforts by the Bursar’s Office to collect the monies owed are unsuccessful, the account could be placed with a collection agency, and if the delinquency persists, the College’s experience with the account may be reported to a national credit bureau. It is the policy of the College to pass on to the debtor all reasonable costs associated with collection of the debt through a collection agency. If at any time the student believes information concerning payment and billing is inaccurate, they should notify the Williams College c/o Bursar’s Office, P.O. Box 406, Williamstown, MA 01267.

There are several loan options available to parents through outside sources. These include the Federal PLUS Loan program and the MassPlan Loan through the Massachusetts Educational Financing Authority (MEFA). Information on these loans can be found in the Guide to Financing Your Williams College Education and at www.meфа.org.

Williams also offers an installment payment plan, administered by Tuition Management Systems. The program is only available for each term and may be closed early for any reason. The monthly payment is divided into 5 equal installments (July through November for fall term and December through April for spring term), with no interest charges. There is also a 4-month plan available (August through November for fall term and January through April for spring term). There is a convenient 12-month installment plan (mid-July to mid-July) by August 5, which will be the total cost for each term (less any scholarships, Federal Direct or parent loans) divided by 5 or 4 months. There is an enrollment fee per term for this program. Information on the payment plan and Tuition Management Systems can be found at williams.afford.com.

**Refund Policy**

Federal regulations require that all educational institutions disclose their refund policy to all prospective students. In accordance with that regulation, below is the Williams College Refund Policy for the 2017-2018 academic year.

### FALL SEMESTER 2017

**Date of withdrawal:**

- Prior to start of classes Sept 7: 100% Tuition, room, board
- Week 1: Sept 7 to Sept 13: 90% Tuition, board only*
- Week 2: Sept 14 to Sept 20: 80% Tuition, board only*
- Week 3: Sept 21 to Sept 27: 70% Tuition, board only*
- Week 4: Sept 28 to Oct 4: 60% Tuition, board only*
- Week 5: Oct 5 to Oct 11: 50% Tuition, board only*
- Week 6: Oct 12 to Oct 18: 40% Tuition, board only*
- Week 7: Oct 19 to Oct 25: 30% Tuition, board only*
- Week 8: Oct 26 to Nov 1: 20% Tuition, board only*
- No refund after November 1, 2017

### SPRING SEMESTER 2018

**Date of withdrawal:**

- Prior to start of classes Jan 31: 100% Tuition, room, board
- Week 1: Jan 31 to Feb 6: 90% Tuition, board only*
- Week 2: Feb 7 to Feb 13: 80% Tuition, board only*
- Week 3: Feb 14 to Feb 20: 70% Tuition, board only*
- Week 4: Feb 21 to Feb 27: 60% Tuition, board only*
- Week 5: Feb 28 to Mar 6: 50% Tuition, board only*
- Week 6: Mar 7 to Mar 13: 40% Tuition, board only*
- Week 7: Mar 14 to Mar 20: 30% Tuition, board only*
- Week 8: Mar 21 to Mar 27: 20% Tuition, board only*
- No refund after March 27, 2018

*Housing and miscellaneous fees are not pro-rated after the start of classes. Coverage under the College’s student health insurance plan will continue for the length of the plan (August 15, 2017 - August 14, 2018). For students receiving Title IV federal funds, repayment of federal funds on a pro-rata basis will be determined up to the 60% point of the semester per federal regulations. Please note that withdrawal from the semester could result in a balance owed to the College for federal aid that must be repaid.

Repayment is first made to federal programs in the following order: Unsubsidized Federal Direct Stafford Loan, Subsidized Federal Direct Stafford Loan, Federal Perkins Loan, Federal Direct PLUS Loan, Federal Pell Grant, Federal SEOG, Federal ACG, National Smart, Federal SSIG, Robert Byrd Scholarship. Any remaining credit balance reimburses other sources in the following order: Williams scholarship, other scholarships, other parent loan programs and family. Specific examples are available on request. The College offers, through GradGuard, a Tuition Refund Plan which supplements the Williams College Refund Policy in certain circumstances. For information visit www.gradguard.com/refund/williams.

The College will issue a 1098-T form at the end of each calendar year for the American Opportunity and Lifetime Learning tax credits. The 1098-T should not be used to calculate the amount of scholarship and grant aid that is taxable. These forms will be mailed by January 31 to the student at the permanent address on file.

### Financial Aid

Williams has a substantial financial aid program to promote the greatest possible diversity in the social and economic background of the student population. Students interested in financial aid policies and procedures should consult Williams College Prospectus, the Student Handbook, or the Office of Financial Aid at finaid.williams.edu.

### ENDOWED SCHOLARSHIPS AND TUTORIALS

#### Distinctive Undergraduate Scholarships

Williams College, through the Office of Financial Aid, administers over three hundred endowed scholarships, all of which are based on demonstrated need. Students who apply for financial assistance are automatically considered for all these and many other endowed scholarships. No separate application is required. Limited space prohibits the complete listing of these, but some deserve special mention because of their distinctiveness.

#### BRONFMAN FAMILY FUND: Established in 1990 as part of the Third Century Campaign for international programs. The family’s support provides financial aid both for students coming to Williams from foreign countries and for students spending part of their undergraduate years overseas. CLASS OF 1936 MEMORIAL SCHOLARSHIP: Established in 1986 by members of the Class of 1936 and their families and friends as its 50th Reunion gift to the College. Preference is given to descendants of members of the Class of 1936.

CLASS OF 1957 SCHOLARSHIP: Established in 1982 by the Class of 1957 as its 25th Reunion gift to the College. This award honors several juniors and seniors each year who have successfully combined campus
leadership with academic achievement.

POLLY AND WILLARD D. DICKERSON ’40 SCHOLARSHIP: Established in 1990 by members of the Class of 1940 on the occasion of their 50th Reunion in honor of Willard D. Dickerson ’40, Executive Director of Development Emeritus, and his wife Polly. For 32 years from their home in Williamstown, the Dickersons cared for the College, the class, and its members with great concern, affection, and pride. Awarded to students of promise.

MARY AGNES R. AND PETER D. KIERNAN ’44 SCHOLARSHIP: Established in 1989 by Fleet Financial Group in memory of Peter D. Kiernan ’44, former chairman and CEO of Fleet/ Norstar Financial Group, Inc. The scholarship was further endowed by Peter D. Kiernan III ’75, and his wife Eaddo, in memory of his father and in honor of his mother, Mary Agnes R. Kiernan. The scholarship is awarded annually, with preference given first to Fleet employees and their children or to residents of regions served by Fleet Financial Group (notably New England, New York, and New Jersey). Second preference is given to students of English and Romantic Languages. Candidates for the master of arts degree in one of the sciences (usually represented by slides) is regarded as an absolute necessity in the admission process.

JOHN W. LASSELL SCHOLARSHIP: Established in 1952 by five members of the Lasell family in memory of John W. Lasell of the Class of 1920. Preference is given first to students of Whitinsville; then to other Massachusetts residents.

HERBERT H. LEHMAN SCHOLARSHIP: Established in 1964 by Mrs. Lehman as a memorial to her husband, a former New York Governor and U.S. Senator, who graduated from Williams in 1899. Fifteen to twenty upper-class students are selected each year on the basis of service to both the Williams and wider community.

MORRIS AND GLADYS LÉWY SCHOLARSHIP: Established in 1983 by Morris and Gladys Lewy, parents and grandparents to two Williams graduates. Preference is given to pre-medical students.

JOHN J. LOUIS, JR. ’47 SCHOLARSHIP: Established in 1976 by the late John J. Louis, Jr., former Trustee of Williams, for general scholarship purposes. Preference is given to students from Illinois.

RALPH PERKINS ’09 SCHOLARSHIP: Established in 1960 by the family of Ralph Perkins, a member of the class of 1909. Preference is to be given to students from Ohio.

FREDERICK H. ROBINSON ’20 MEMORIAL SCHOLARSHIP: Established in 1929 by the late Mrs. Dorothy S. Robinson in memory of her husband, a member of the Class of 1920. Preference is given to students who demonstrate interest in music.

SPENCER FAMILY SCHOLARSHIP: Established at Williams in 1991 by Mrs. Harriet Spencer, a former Trustee of the College, in honor of her husband’s (Edson W. Spencer ’48) 65th birthday and her great affection and respect for Williams College. Preference is given to students of Native American, African-American, Latino, or Asian-American descent.

C. V. STARR SCHOLARSHIP: Established in 1963 by C. V. Starr Foundation with preference given to international students.

FRANCIS LYNDE STETSON SCHOLARSHIP: Established in 1921-22 by Francis Lynde Stetson, Class of 1867. Preference is given to students from northern New York.

JACOB C. STONE SCHOLARSHIP: Established in 1928 by Jacob C. Stone, a member of the Class of 1914, a Trustee of Williams, and a native of North Adams, Massachusetts. Preference is given to students from Berkshire County.

Alumni Funded Tutorials

Tutorials bring a professor and two students together in weekly sessions that explore significant topics in the student’s major. The tutorial has a written statement: “The ideal college is Mark Hopkins on one end of the log and a student and the other.” They forge student-professor bonds, teach students about arguments, about arriving at and defending a position, and about answering the question: Is my response to it defensible? They also promote critical reading, the writing of succinct analyses, and oral defense.

Williams College recognizes the Classes of 1953, 1954, and 1979 with deepest gratitude for supporting tutorials with their generous 25th and 50th Reunion gifts. Williams is also pleased to recognize the following individuals and families who have created generous endowments to support tutorials, many in honor of their 25th and 50th Reunions: Hugh Germannet 1954, David A. Gray 1954, Robert L. Guyett 1958, The Hunter Family, John D. Mabie 1954, and John H. Simpson 1979, The Testa Family.

PREPARATION FOR GRADUATE STUDIES AND PROFESSIONAL CAREERS

Although the principal function of Williams is to provide a broad and solid liberal education that will be of lasting value no matter what vocation a graduate chooses, the College recognizes that fundamental conflict exists between a liberal education and preparation for a professional career; on the contrary, a foundation of liberal studies increases professional competence in any field. A student should plan their program of study so as to provide as much educational breadth and enrichment as circumstances permit. A student should also give serious consideration to post-college plans early in their college careers. Each departmental major provides the foundation for graduate study in the corresponding field. Students should consult with individual departmental programs for requirements, and for special advice regarding preparation for graduate study. Students should also consult departmental chair or special faculty advisors as early as possible in their college careers to make certain they have taken all the necessary factors into consideration.

Visual Arts

Students interested in graduate studies in art or architecture should meet with faculty with whom they have completed advanced work in the areas they wish to pursue. Their counsel can help narrow the search of programs that would best match a student’s needs. The specific requirements of all art and architecture programs are varied. The requirements of Master of Arts and/or Master of Fine Arts is available from their online resources.

The College Art Association (CAA) has written: “Admission to (graduate) programs should be based on the nature, extent, and quality of undergraduate preparation, including courses in studio, art history, and other academic subjects. Quality of studio preparation can best be judged on the basis of careful evaluation of work done at the undergraduate level; therefore, a portfolio review (usually represented by slides) is regarded as an absolute necessity in the admission process. While many institutions consider the BFA to be the standard qualifying degree, many art schools maintain a formal 3-2 arrangement with a second institution in art which is considered an absolute necessity in the admission process...

Some institutions use the MA degree as a qualifying prerequisite for final acceptance into MFA candidacy, allowing the student to apply the earned credits toward the higher degree.”

Students are advised to take into consideration not only current minimum requirements but also recommended courses.

Business Administration

Many Williams graduates enjoy productive careers in engineering, applied science, or technical management. Successful engineers need to be able to communicate effectively, reason logically, and understand both the technical and the social dimensions of a problem. A prospective engineer should major in one of the sciences (usually physics, chemistry, computer science, or mathematics), while pursuing a broad liberal arts education at Williams. Most often a student will complete a B.A. in engineering at Dartmouth College, as indicated on the webpage, Williams maintains a formal 3-2 arrangement with Dartmouth College that offers the opportunity to study engineering and business administration, as well as a 2+1-1 arrangement with the Thayer School of Engineering at Dartmouth College.

Foreign Language

Particular attention is called to the foreign language requirements of graduate study. Candidates for the degree of doctor of philosophy at many graduate schools are required to have a reading knowledge of both French and German. Students interested in graduate work in business administration should contact the Pre-MBA Advisor, Robin Meyer (Robin.L.Meyer@williams.edu), at the Career Center.

Engineering

Many Williams graduates enjoy productive careers in engineering, applied science, or technical management. Successful engineers need to be able to communicate effectively, reason logically, and understand both the technical and the social dimensions of a problem. A prospective engineer should major in one of the sciences (usually physics, chemistry, computer science, or mathematics), while pursuing a broad liberal arts education at Williams. Most often a student will complete a B.A. in engineering at Dartmouth College, as indicated on the webpage, Williams maintains a formal 3-2 arrangement with Dartmouth College that offers the opportunity to study engineering and business administration, as well as a 2+1-1 arrangement with the Thayer School of Engineering at Dartmouth College.

Foreign Language

Particular attention is called to the foreign language requirements of graduate study. Candidates for the degree of doctor of philosophy at many graduate schools are required to have a reading knowledge of both French and German. Students interested in graduate work in business administration should contact the Pre-MBA Advisor, Robin Meyer (Robin.L.Meyer@williams.edu), at the Career Center.

Law

Williams graduates regularly proceed directly to law schools on the
strength of their liberal arts education. As a rule, law schools do not require particular pre-law curriculum for undergraduates. Consequently, application and admission to law school is open to qualified students from all academic disciplines. This does not mean, however, that law schools are indifferent to one’s undergraduate academic experience. In fact, law schools will be very conscious of the quality and rigor of one’s undergraduate education. A serious student, considering law school, will heed this advice and undertake a challenging program.

Students intending to study law should consult with the Pre-Law Advisor, Michelle A. Shaw (Michelle.A.Shaw@williams.edu), at the Career Center. Also, on a regular basis, law schools from around the country will visit Williams to provide information and answer questions from potential applicants.

The Health Professions

Many Williams graduates elect to pursue a career in medicine, dentistry, veterinary medicine, public health, or other health-related fields. All are welcome to seek guidance from the Health Professions Advisor within the Career Center.

Students interested in medicine and related fields should pursue a broad liberal arts education, letting enthusiasm for subjects be a guide. In most cases, a student should acquire volunteer service and field-specific internship experience in an effort to confirm interest in the chosen field. With careful planning, any major can be studied.

In order to pursue a career in a health-related field, a student must pay particular attention to the courses required for graduate school admission. In certain fields, upwards of twelve courses are listed as prerequisites. The general requirements for many programs are outlined in “Choosing First Year Courses,” but each student considering advanced study in health fields should meet with the Health Professions Advisor early in the college career to ensure that planned coursework will satisfy admissions requirements.

Barbara Fuller (Barbara.Fuller@williams.edu), the Health Professions Advisor, will be happy to discuss goals and specific steps that might help a student realize them. Detailed information is available at the Health Professions website careers.williams.edu/grad-school/pre-health.

Pre-College and College Teaching/Research

A central qualification for careers in teaching at any level is proficiency in a major. Students interested in college teaching and research should prepare themselves at Williams for graduate work in the subject of their choice. Those interested in teaching at the elementary or secondary level should plan to attain state certification and/or earn a MAT or M.Ed at a good graduate school. There are many opportunities for internships and study education as an undergraduate while at Williams.

Students interested in college teaching should consult with the chairs of the departments in which they intend to major. Those interested in teaching at the elementary or secondary level should consult with Susan Engel (Susan.L.Engel@williams.edu), the Director of the Program in Teaching (program-in-teaching.williams.edu). Additional advice for both of these options is also available at the Career Center.

Teaching after Williams

There are many options for teaching after Williams, including independent and public school teaching. Many states now offer streamlined programs to certify public school teachers, and many states offer a wide range of options in which they intend to major. Those interested in teaching at the elementary or secondary level should consult with Michelle Shaw, the Director of the Program in Teaching (program-in-teaching.williams.edu), the Director of the Program, to find out how they might participate.

Students who want career advice should consult the Career Center which has a very active on-campus educational recruiting program that includes many private schools as well as Teach for America and similar programs. The program begins in the fall and continuing at developing for the spring. The program is open to any student interested in education and offers opportunities for all levels of interest, including those who want to find out about certification and graduate study. Students should contact Susan Engel (Susan.L.Engel@williams.edu), the Director of the Program, to find out how they might participate.

Students interested in teaching may want to consider participating in the Program in Teaching at Williams (program-in-teaching.williams.edu) which is designed to enable undergraduates to study the ideas, questions, and practices involved in teaching at all levels. The program is open to any student interested in education and offers opportunities for all levels of interest, including those who want to find out about certification and graduate study. Students interested in teaching at independent elementary- or secondary-level schools or participating in the Teach for America or similar programs after graduation from Williams (certification is not required) should consult with the Career Center.

Religious Study

There is no particular path through the Williams curriculum designed or recommended for students intending to prepare for a career as a religious professional, enroll in a seminary, or pursue theological education. Undergraduate study in many fields within the liberal arts curriculum can be useful to the prospective minister, priest, rabbi, imam, or teacher of religion.

Students contemplating a career in religious studies or who are interested in the study of religion are urged to make themselves known to one’s undergraduate academic experience. In fact, law schools will be very conscious of the quality and rigor of one’s undergraduate education. A serious student, considering law school, will heed this advice and undertake a challenging program.

Students intending to study law should consult with the Pre-Law Advisor, Michelle A. Shaw (Michelle.A.Shaw@williams.edu), at the Career Center. Also, on a regular basis, law schools from around the country will visit Williams to provide information and answer questions from potential applicants.

GRADUATE PROGRAMS AT WILLIAMS

Master of Arts in Policy in Economics

The Center for Development Economics (CDE), which opened at Williams College in 1960, offers an intensive one-year program in economic analysis leading to the degree of Master of Arts in Policy Economics. The program is specifically designed for economists from developing countries who have already embarked on professional careers in the public sector. The curriculum requires courses in development economics, macroeconomics, public finance, and econometrics. CDE fellows choose among other courses in lecture, seminar, and tutorial formats. Recent course electives have included: developing country macroeconomics II; financial development and regulation; tax policy; international trade and development; program evaluation for international development; environmental and cultural resource policy; international financial institutions; long-term fiscal challenges; the role of social safety nets; and micro-simulation for policy analysis. Williams undergraduates who satisfy course prerequisites, with the consent of the individual instructor, are encouraged to take courses at the CDE. Admission to the master’s degree program is highly selective, with several hundred applicants each year for approximately 30 places. Candidates normally have a B.A. or B.S. degree with honors in economics or a related field, two or more years of relevant work experience, and an effective statement of purpose and written English. CDE fellows are often nominated for the program by public agencies from which they will be on leave. More information is available on the CDE website, cde.williams.edu.

Master of Arts in the History of Art

In cooperation with the Sterling and Francine Clark Art Institute, Williams College offers a two-year course of study leading to the degree of Master of Arts in the History of Art. The objective of the program is to offer to a small number of students a thorough professional preparation for careers in the visual arts, including schools and museums, and to enable them to pursue further research independently or at institutions offering higher degrees. The curriculum consists of seminars in a wide range of art historical subjects. Opportunities are provided for practical experience in museum work at The Clark, the Williams College Museum of Art, the Massachusetts Museum of Contemporary Art, and other local collections. The study of primary materials is further extended by field trips to other collections. The degree is normally awarded after two years of resident graduate study. To earn the degree, students must take ten courses, of which at least six must be graduate seminars (including ARTH 504 and ARTH 506). In connection with the preparation of a paper for the Graduate Symposium, students will register for an eleventh course (ARTH 509), to be graded pass/fail, in their fourth semester. A demonstration of proficiency in reading two foreign languages is required. Of these two, German is required, and French is recommended. In January of the second year, students must complete a draft of their Qualifying Paper. In addition to all course work, students must, at the end of the second year, present a short version of the Qualifying Paper at a graduate symposium to be held on Commencement weekend. To enter the program a successful applicant must have been awarded the degree of Bachelor of Arts or its equivalent from an accredited institution. An undergraduate major in art history is not required for acceptance to the program. More information is available on the Graduate Program website, gradart.williams.edu.

PRIZES AND AWARDS

George Olmsted Jr., Class of 1924 Prizes

Awarded for excellence in teaching to four secondary school teachers nominated by members of the senior class.

Prizes in Special Studies

JOHN SÁVIN ADRIANCE 1882 PRIZE IN CHEMISTRY: From a fund given by John Sabin Adriance, 1882, a prize cash is given to the student who has maintained the highest rank in all courses offered by the department of chemistry during the college years.

ROBERT G. BARROW MEMORIAL PRIZE FOR MUSIC COMPOSITION: Established in 1989 in memory of Robert Barrow, professor of music at Williams 1939-1976, to be awarded to a qualified music student on the basis of their accomplishment in music composition at Williams College and on promise as a composer.

OLGA R. BEAVER MEMORIAL PRIZE IN MATHEMATICS: From a fund established in 1938 by members of the senior class. A cash prize is awarded for excellence in biology, French, German, Latin,
Greek, history, and mathematics.

RUSSELL H. BOSTERTThESIS PRIZE IN HISTORY: A cash prize established in 1990 by Roger L. Headrick 1958 in honor of Professor Bostert, Stanfield Professor of History, on the occasion of his retirement after forty-two years as a member of the Williams faculty, and awarded to an Honors student for the best thesis in American History, with special consideration to inter-American relations or Sino-American relations.

ERNST BROWNAFRICANA ARTS PRIZE: In appreciation of Ernst Brown's steadfast and inspired service to Africana Studies as a Professor, as Director of the Africana Mathematics and as Co-Director of Kuska, this cash prize is given to a senior whose work has shown unusual brilliance, imagination, and industry in the arts, especially the performing arts.

KENNETH L. BROWN PRIZE IN AMERICAN STUDIES: From a fund established by his parents in memory of Kenneth L. Brown, 1947, a cash prize is awarded annually to a senior major for the best thesis in American studies.

NATHAN BROWN PRIZE IN HISTORY: In honor of Nathan Brown, a member of the Williams faculty from 1977 who died in 1987, this prize is awarded to a graduating senior from Asian countries, the department of history awards a book to the first-year student or sophomore who writes the best essay in a course in Asian, African, Latin American, or Middle Eastern history.

ICHOLIC P. FERSEN PRIZE IN RUSSIAN: A book awarded annually on the recommendation of the chairman of the department of history for outstanding work done in Russian at Williams from 1960 to 1988 by colleagues and friends, in recognition of Jean Donati's service to the Russian Department, 1971.

DORIS DE KEYSERLINGK PRIZE IN RUSSIAN: A book awarded annually on the recommendation of the chairman of the department of history for outstanding work done in Russian at Williams from 1960 to 1988 by colleagues and friends, in recognition of Jean Donati's service to the Russian Department, 1971.

FREEMADISON PEAKE, JR. PRIZE IN SOCIOLOGY: Established in 1986 by friends and members of his family in memory of Thomas G. Hardie III, 1978. Awarded for the best study of political science judged in a annual competition. The prize consists of a cash award of $10,000 from the Arthur Judson Foundation. Selection to be made by the faculty of the Music Department. Awarded to a student for achievement in music, with preference given to those "choosing or planning a career in Music Management or Music Administration".

CHARLES W. HUFFORD MEMORIAL SERIES: Established in 1988 in memory of Charles W. Hufford, 1969, by his family, friends, and classmates and awarded to a graduating senior for an outstanding thesis in any field of study. The selection of the recipient is made by the Faculty of the Music Department. Awarded to a student for achievement in music, with preference given to those "choosing or planning a career in Music Management or Music Administration".

D. LAWRENCE J. AND CAROLYN F. KAPLAN PRIZE FOR DEDICATION TO LEADERSHIP IN THE WILLIAMS COLLEGE JEWISH ASSOCIATION: Established in honor of Professor (Williams Chemistry Department, 1971-) and Mrs. Kaplan's dedication and commitment to enriching the lives of the Jewish students at Williams College, this prize is awarded annually to a student who has demonstrated exceptional achievement in research within the field of neuroscience.

FRANK C. GOODRICH 1945 AWARD IN CHEMISTRY: Established by Mrs. L. Carrington Goodrich to honor her son, Professor Frank C. Goodrich, 1945. An award in Chemistry given each year to a student (or students), chosen by the Chair of the Department of Chemistry, who has demonstrated excellence in research. This award supports travel to professional meetings where the student may present their research.

WILLIAM C. GRANT, JR. PRIZE IN BIOLOGY: A cash award to a junior or senior showing great potential in the performing arts as exemplified through excellence in criticism and scholarship.

FREDERICK C. HAGEDORN, JR. 1971 PREMEDICAL PRIZE: From a fund established by his parents in memory of Frederick C. Hagedorn, Jr., 1971, in his memory, a cash prize is awarded to a premedical student entering the senior class, on the advice of the Faculty Premedical Advisory Committee, "in recognition of academic achievement and the embodiment of the spirit of the Williams student of the year".

CHARLES W. HUFFORD BOOK PRIZE: Established in 1988 in memory of Charles W. Hufford, 1969, by his family, friends, and classmates and awarded to a graduating senior for an outstanding thesis in any field of study. The selection of the recipient is made by the Faculty of the Music Department. Awarded to a student for achievement in music, with preference given to those "choosing or planning a career in Music Management or Music Administration".

TOM HARDIE MEMORIAL SERIES: Established in 1991 in memory of William Kleinhandler, 1950, a fund has been established by his fellow workers for a book prize awarded annually on the recommendation of the English Department for excellence in English.

MUHAMMAD KENYATTA 1966 COMMUNITY SERVICE PRIZE: Established in 1993 to honor the memory of Muhammad Kenyatta, '66, this prize will be awarded each year to the graduating senior whose undergraduate experience reflects outstanding community service involvement with Berkshire County.

WILLIAM C. LAYNE PRIZE FOR EXCELLENCE IN MUSIC: Established in 1991 in memory of William Kleinhandler, 1950, as an annual prize for excellence by a student in the department of Music.

ROBERT M. KOZELKA PRIZE IN STATISTICS: In 2000, the Department of Mathematics and Statistics established the annual Kozelka Prize in Statistics to recognize an excellent statistics student. The prize honors the former chair and statistician, Robert M. Kozelka, who was widely recognized for his applications of statistics in the social sciences, especially anthropology.

memory of David N. Major, 1981, who died in an accident aboard an
oceanographic vessel in June 1980. Awarded to an outstanding graduating
senior in geology.
MORGAN P RICHARD MORGAN 1975 PRIZE IN COMMERCE: A prize established by Gwen Rankin, 1975, for impressive contributions by
a graduating senior to Women's and Gender Studies.
GAIUS C. BOLIN, 1889, PRIZE IN AFRICANA STUDIES: A cash prize
awarded to a graduating student who writes a book to be published in the
field of Africana Studies.
JOHN E. SAWYER PRIZE IN TRANSNATIONAL AND NON-WESTERN
HISTORY: The John E. Sawyer Prize in Transnational and Non-Western
History was established by the Department of History in 2012 in order to
recognize excellence in the work of a graduating senior who has written and
defended an Honors thesis in the field of transnational or non-Western
History. The Prize will be awarded periodically in years when senior Honors
students have completed an Honors thesis in that field. The prize is
awarded in honor of former President Sawyer, whose foresight and commitment to
the College and to the Department of History led to the first expansion of the
Department's offerings outside the fields of U.S. and European history.
HAROLD H. WARREN PRIZE IN CHEMISTRY: Established in 1984 in
memory of Professor Harold H. Warren's distinguished research career in the field
of chemistry and his dedication to the students he taught. The prize is
awarded to a senior majoring in chemistry who has shown unusual brilliance,
imagination, and industry.
EDWARD GOULD SHUMWAY 1871 PRIZE IN ENGLISH: In memory of
Edward Gould Shumway, 1871, a fund has been established by his daughter,
Mary Shumway Adams, from which a cash prize is awarded annually to a
senior majoring in English who has, in the judgment of the English
department, done the most distinguished and creative work in English.
ROBERT F. ROSENBURG PRIZE FOR EXCELLENCE IN
MATHEMATICS: A group of grateful alumni who established a fund for
the purpose of encouraging and recognizing scholarly work in
Mathematics, is a member of Phi Beta Kappa and has a grade of
A' in at least one course in Math or Computer Science during the junior
year student or sophomore who writes the best essay in an
introductory course in Euro
JOHN W. MILLER PRIZE IN PHILOSOPHY: A group of grateful alumni
who studied under Professor John W. Miller have established a fund as a
continuing symbol of their appreciation of his teaching. The income shall be
awarded to a student who writes the best essay in an
introductory course in Philosophy.
WITTE PROBLEM SOLVING PRIZE: Awarded to a mathematics student
who, while exhibiting substantial technical
depth, develop the most innovative and creative project in computer science
during the academic year.
Honors Thesis or any other outstanding American literature essay submitted by a Williams student.  

BULLOCK POETRY PRIZE: A cash prize awarded by the department of English for the best poem or group of poems by an undergraduate. The prize was made possible originally by a bequest of Mrs. Mary Cummings Eudy, a former member of the class of 1899. In memory of their classmate, Henry Rutgers Conger, a cash prize is awarded annually for the best contribution of prose or poetry submitted to a literary magazine published by the undergraduates of the College, as judged by a committee from the department of English.

DUNBAR STUDENT LIFE PRIZES: A cash prize, established by a bequest from Philip R. Dunbar, Class of 1900, for a significant written work, published or unpulished, on any subject of student life focused on any local, national or global issue affecting college students.

ARTHUR B. GRAVES PRIZES: Established by Arthur B. Graves, 1858, for the best six essays prepared by seniors on subjects assigned by the following departments: art, economics, history, philosophy, political science, religion. The fund also provides a cash award or awards for the best report or reports delivered in the senior political economy project.

C. DAVID HARRIS JR. 1963 BOOK PRIZE IN POLITICAL SCIENCE: In memory of C. David Harris Jr., 1963, who died during his college career, a book is awarded annually to the Political Science major who writes the best paper in political philosophy or empirical political science. The prize was donated by his classmates through the Williams College Social Council, of which David was a member, and the winner is selected by the political science department.

RICHARD LATHERS 1877 ESSAY PRIZE IN GOVERNMENT: From a fund given by Richard Lathers, 1877, a prize is given to the senior who writes the best essay on a subject in government, politics, public administration, international relations, public opinion, or any other aspect of political science classes in her retirement, a cash prize is awarded to the senior who writes the best essay on international relations or comparative politics.

SENTINELS OF THE REPUBLIC ESSAY PRIZE IN GOVERNMENT: Established in 1944, by a gift from the Sentinel's Auditors, a cash prize is awarded by the political science department to the student who has written the best essay in the course of the year on some subject relating to the American federal system of government, the preservation of civil liberty, the maintenance of free enterprise, and the proper distribution of powers and responsibilities between the Federal and State Governments.

STANLEY R. STRAUSS 1936 PRIZE IN ENGLISH: Established in 1985 by friends of Stanley R. Strauss, 1936, in honor of his 70th birthday on June 3, 1985. Awarded to a student of the English department who has written the most outstanding critical Honors thesis, judged on the quality of research as well as on the quality of exposition.

WILLIAM BRADFORD TURNER CITIZENSHIP PRIZE: From a fund established in memory of William Bradford Turner, 1914, who was killed in action in France in September, 1918, a cash prize is awarded for the best thesis or essay in the field of American history or institutions.

BENJAMIN B. WAINWRIGHT 1920 PRIZE IN ENGLISH: From a bequest of Benjamin B. Wainwright, 1920, a cash prize for the best short story submitted by a student, to be judged by a committee of the department of English.

DAVID D. WELLS PRIZE IN POLITICAL ECONOMY: From a bequest of David A. Wells, 1847, a prize is awarded for an essay upon a subject in political economy. Competition is limited to seniors and to graduates of not more than three years’ standing. The successful essay may be printed and circulated by the College.

General Prizes

CHAPLAINS’ PRIZE FOR COMMITMENT TO AND USE OF CIVILIZATION IN INTER-RELIGIOUS ENGAGEMENT AND SERVICE: Awarded to a member of the graduating class whose spiritual citizenship in the religious diversity of this learning community has enriched our common life, and deepened our communal appreciation of faith and spiritual practice, secularity and pluralism as structures of learning and avenues of service to humanity.

CHARLES R. ALBERTI, 1919, AWARD: Established in 1994 by gifts from his son and grandson, Charles R. Alberti ’50 and C. Christopher Alberti ’75, an annual cash prize for a member of the student body who has significantly enhanced the sense of community on campus and who has the potential for doing so in wider communities in the future.

STERLING A. BROWN, 1922, CITIZENSHIP PRIZE: Initially established in 1974 by three members of the Class of 1974 and carried on by the Afro-American Studies Program, this prize honors Sterling A. Brown, Class of 1922, retired Professor of English at Howard University. Awarded to the graduating senior whose undergraduate experience reflects outstanding leadership and involvement in campus affairs, academic achievement, and communication of new ideas, with preference to be given to members of the Black Student Union.

CULTIVATING COMMUNITY AWARD: This award recognizes a senior committed to developing and building a stronger, more inclusive Williams College community. This senior works towards building bonds between students, developing deeper understanding between communities, and helping others to feel like they belong at Williams College.

GROSSENVOR MEMORIAL CUP: Given by the members of the Interfraternity Council of 1931 in memory of their fellow member, Allain Livingston Grosvenor. This award is given to the senior who, in their time at Williams, has demonstrated concern for the college community and beyond through extended dedicated service and who has served with the utmost integrity and reliability. The committee of award consists of the chairman and the secretary of the Interfraternity Council, with a last-minute decision by the College Council.

LAWRENCE J. AND CAROLYN M. KAPLAN PRIZE FOR DEDICATION TO AND LEADERSHIP IN THE WILLIAMS COLLEGE: Established in honor of Professor (Williams Chemistry Department, 1971-) and Mrs. Kaplan’s dedication and commitment to enriching the lives of the Jewish students at Williams College, this prize is awarded annually to a senior who has shown sincere participation, responsibility, engagement, and menschlichkeit on behalf of the Williams College Jewish Community throughout his/her college career. In addition to a cash prize, a book of Jewish interest, to be selected by the Jewish Chaplain, the faculty advisor to the WCJA, and/or the professors in Jewish Studies, will be given to the recipient. A copy of this book will be donated to the library in the Jewish Religious Center in honor of the recipient. The selection of recipients is made by a committee of the student leaders of the WCJA in consultation with the Jewish Chaplain or, in the event there is no Jewish Chaplain, the faculty advisor of the WCJA and/or Dean of the College.

GROSSVOR MEMORIAL PRIZE: This award recognizes a senior who, in their time at Williams, has demonstrated a commitment to action toward access, equity, and inclusion at Williams and elsewhere. This senior works towards challenging systems of injustice, embraces a broad definition of Social Justice and, in their speech, drives ongoing conversation regarding these issues.

WILLIAM BRADFORD TURNER CITIZENSHIP PRIZE: From a fund established in memory of William Bradford Turner, 1914, who was killed in action in France in September, 1918, a cash prize is awarded to the member of the graduating class who, in the judgment of the faculty and of the graduating class, has best fulfilled her or his obligations to the College, to fellow students, and to self. The committee of award, appointed by the President of the College, is composed jointly of faculty members and members of the graduating class.

Rhetorical Prizes

DEWEY PRIZE: A cash prize, founded by Francis Henshaw Dewey, 1840, is awarded to the member of the graduating class who presents the most creditable oration in point of composition and delivery at the commencement exercises.

B. B. ROWE PRIZE: In appreciation to Muriel B. Rowe for nearly a quarter of a century of dedication and commitment to The Williams College Chapter of the Phi Beta Kappa Honor Society, the prize is awarded annually to the Phi Beta Kappa Speaker.

ELIZUR WYSE PRIZE FOR PASSIONATE PUBLIC SPEAKING: Awarded by the Chaplains’ Office to the winners of the spring competition in the Social Justice and Activism category and in the Spirituality and Faith category.

STERLING A. BROWN, 1922, CITIZENSHIP PRIZE: Initially established in 1974 by three members of the Class of 1974 and carried on by the Afro-American Studies Program, this prize honors Sterling A. Brown, Class of 1922, retired Professor of English at Howard University. Awarded to the graduating senior whose undergraduate experience reflects outstanding leadership and involvement in campus affairs, academic achievement, and communication of new ideas, with preference to be given to members of the Black Student Union.

BRZEZINSKI TRACK PRIZE: Awarded annually to the female track athlete who has exhibited loyalty to the team, determination, perseverance under
adversity, and hardworking dedication to reach the maximum of her potential. A.

J. EDWIN BULLOCK WRESTLING TROPHY: Presented in 1960 by his fellow coaches and awarded annually to that varsity wrestler who because of his superior performance, courage, and loyalty has been of credit to his college.

W. MARRIOTT CANBY 1891 ATHLETIC SCHOLARSHIP PRIZE: A cash prize established by W. Marriott Canby, 1891, and awarded at commencement to the senior who has attained the highest average standing in scholarship during his senior year, or if none shall be selected, the junior most meritorious in scholarship during his junior year. Must have been a member of the College since the beginning of their junior year, and must have represented the College in a recognized collegiate athletic contest.

CLASS OF 1981 BASKETBALL HOOP: Established to promote excellence in the sport. The selection committee consists of the Dean, the Chairman of the Faculty Committee on Athletics, coaches of two women's teams or clubs named by the Director of Athletics, a woman student, preferably a member of the Faculty Committee on Athletics, and the Athletic Director.

CLASS OF 1986 MOST IMPROVED AWARD: Awarded annually to the male track athlete who has continued the attributes of his son, to that member of the hockey team who best combines the attributes of skill, desire, leadership, and coachability in order to help further the team's progress toward its goals. The trophy will be awarded to the recipient most deserving who has exemplified the qualities of leadership, performance, and sportsmanship.

LEONARD S. PRINCE MEMORIAL SWIMMING PRIZE: In memory of Leonard Sidney Prince, 1914, donated by his father, Mrs. S. S. Prince. Presented to the outstanding first-year student or sophomore woman member of the varsity swimming team who best continuous throughout the swimming season.

ROCKWOOD TENNIS CUP: In memory of Lieutenant Richard Burton Rockwood, 1916, who was killed in action in France, his mother, Mrs. R. L. Rockwood, has given a fund to provide a cup to be awarded annually to the varsity tennis player of the year.

CHARLES DEWDROY SALMON AWARD: Presented in 1960 by his former teammates in memory of Captain Charles D. Salmon, USAR, former Little All-American guard captain of the baseball team. Presented in the coach's name of the varsity football coach who, in the opinion of the coaching staff, has made the most significant contribution to the varsity football team in his sophomore or first year of eligibility. Presented by the team of 1951 in the sincere hope that it will serve to inspire the recipients in the years to follow to seek the same supreme qualities of performance and leadership which Chuck Salmon exemplified.

SCRIBNER MEMORIAL TENNIS TROPHY: Presented in 1954 by the faculty to men's varsity tennis players who continued the academical and athletic standards set by the former teammates in memory of Captain Charles D. Salmon, USAR, former Little All-American guard captain of the baseball team. Presented in the coach's name of the varsity football team who, in the opinion of the coaching staff, has made the most significant contribution to the varsity football team in his sophomore or first year of eligibility. Presented by the team of 1951 in the sincere hope that it will serve to inspire the recipients in the years to follow to seek the same supreme qualities of performance and leadership which Chuck Salmon exemplified.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR WOMEN’S SWIMMING TROPHY: Presented in 1977 by Peggy and Sam Maples, 1944, a former Williams College swimmer. Awarded annually to the outstanding woman varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR WOMEN’S SWIMMING TROPHY: Presented in 1977 by Peggy and Sam Maples, 1944, a former Williams College swimmer. Awarded annually to the outstanding woman varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.

BOBBY AND BARBARA BRZEZINSKI MEMORIAL MENS’ HOCKEY TROPHY: Presented in 1960 by the students of the Men’s Hockey Team in memory of Robert Brzezinski and awarded annually to the best woman track athlete on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR WOMEN’S SWIMMING TROPHY: Presented in 1977 by Peggy and Sam Maples, 1944, a former Williams College swimmer. Awarded annually to the outstanding woman varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.

ROBERT B. MUIR MEN’S SWIMMING TROPHY: Presented in 1960 by Mr. and Mrs. George S. Dively, parents of Michael A. Dively, 1961. Awarded annually to the outstanding male varsity swimmer on the basis of performance, leadership, and sportsmanship.
Association of Maryland as a permanent trophy on which is inscribed each year the name of the outstanding men's varsity lacrosse player.

WILLIAMS COLLEGE ALUMNI ASSOCIATION OF MARYLAND WOMEN'S LACROSSE AWARD: Awarded to the most valuable player of the year.

ROBERT B. WILSON '76 MEMORIAL TROPHY (Most Improved Player): The purpose of this award is to honor that member of the men's intercollegiate hockey program who, in the opinion of the athletic director and coach, has shown the most improvement over the course of the season, while maintaining “teamwork, hustle, and good sportsmanship.”

YOUNG-JAY HOCKEY TROPHY: Presented by George C. Young, 1938, and John C. Jay, 1938. For a member of the Williams varsity hockey team notable for loyalty and devotion to the interest of Williams hockey: courage, self-control, and perseverance under discouragement; and a sense of fair play towards his teammates and his opponents.

Fellowships Awarded by Williams College

Faculty Selection Committees examine candidates for the awards listed below. Application must be made through the Dean's Office or appropriate department.

THE 2006 AND 2009 INTERNATIONAL SERVICE FELLOWSHIP: The fellowship fund was established in 2011 by parents of recent alumni to provide summer fellowships for undergraduate students' international service-learning projects.

RUSSELL H. BOSTERT FELLOWSHIP: A summer fellowship to support student summer travel and research with preference awarded to students in Division II, with a preference to History majors. Application is through the Fellowships Office.

MARY CLARK 1833 PRIZE FELLOWSHIPS: Established in 1894 under the provisions of the will of Madame Marie Louise Souberbeille in memory of her husband, 1833. One or two awards to help support one year of graduate study to members of the senior class chosen on the basis of superior intellectual and personal development. The living allowance does not support formal academic study but is meant to foster travel and learning that lead to an enhancement of international understanding.

CLASS OF 1945 FLORENCE CHANDLER FELLOWSHIP: Provided through the generosity of the Class of 1945, this fellowship is awarded annually to a senior to support one year of post-graduate intellectual and personal development. The living allowance does not support formal academic study but is meant to foster travel and learning that lead to an enhancement of international understanding.

CLASS OF 1945 STUDENT WORLD FELLOWSHIP: Designed to support independent summer research and travel abroad for sophomores and juniors. This grant is intended to support study that can promote conflict resolution, international understanding, and world peace, although other worthwhile projects not directly linked to these aims will be considered.

ALISON DAVIS FELLOWSHIP: Established in 1999 to replace the McNaIr Post Baccalaureate Achievement Program, this fellowship is available to five rising seniors who are from a group traditionally underrepresented in academia. The fellows must show a commitment to graduating school and are funded for two years of faculty-sponsored research.

DOROTHY H. DONOVAN MEMORIAL FELLOWSHIP: Established in 1978 by Hedley T. Donovan in memory of his wife, Dorothy H. Donovan. The income is directed to the support of Williams graduates at Oxford University, initial use for those attending Exeter or Worcester with the hope that Herford College might eventually be included.

FRANCIS SESSIONS HUTCHINS 1900 MEMORIAL FELLOWSHIP PRIZE: Established in 1894 by Freda E. Seasholtz Hutchins. To assist students in continuing and completing their college course and in obtaining a start in business or professions in the early years following their graduation, the selection to be made by the President. To be awarded to students selected as having within himself... giving promise... of becoming, as he did, a useful, worthy, and lovable citizen.”

HUBBARD HUTCHINSON 1917 MEMORIAL FELLOWSHIP: Established in 1940 by Mrs. Eva W. Hutchinson in memory of her husband, 1917. Awarded to a member or members of the graduating class who produce the most creative work in music composition, poetry, fiction, painting, sculpture, photography or choreography; then to those who show unusual talent and promise in performance; then to those majoring in philosophy or the sciences. The purpose of the award is to assist in truth, wisdom, and physical vigor. The recipient is chosen from those who have majored in the humanities, social sciences, or mathematics or the natural sciences. One set of criteria includes general intellectual ability and attainment in the major field of study with special reference to the promise of original and creative work, and character; the other set of criteria includes leadership, scholastic attainment, and physical vigor after the manner of selection of Rhodes scholars.

FREDERICK EUGENE STRATTON 1872 FELLOWSHIP IN BIOLOGY: Established in 2010 by Arthur Frederick Stocker 1934 in memory of his father, E. E. Stratton, this fellowship supports graduate study in Biology at an institution belonging to the American Association of Universities. Candidates must be seniors.

ROBERT G. WILMERS JR., CLASS OF 1990, INTERNSHIP PROGRAM: Three internships were created in memory of Robert G. Wilmers, Jr., and offer challenging summer work opportunities in developing countries for rising juniors and seniors.

ROBERT G. WILMERS JR., CLASS OF 1990, LANGUAGE STUDY GRANT: Established in 2011, this fellowship provides funds for formal summer study of a foreign language in a country where the target language is commonly spoken.

ROBERT G. WILMERS JR., 1990 MEMORIAL STUDENT TRAVEL ABRROAD FELLOWSHIP: Given in memory of Robert G. Wilmers, Jr., this grant provides support for summer travel and research for students in their sophomore or junior year at Williams.

CARROLL A. WILSON FELLOWSHIP IN MEMORY OF JOHN E. WILMERS: Established in memory of Carroll A. Wilson, 1907, in memory of his son, who was killed in the World War II crossing of the Rhine, March 28, 1945. The income to be devoted to scholarships for attendance at Oxford University, for members of the senior class chosen “after the manner of Rhodes Scholars” who are not in college, in college, with special attention to leadership, scholastic attainment, and physical vigor.

George J. Mead Fund

In 1951 Williams College received a substantial gift from the Estate of George J. Mead. Mr. Mead expressed in his will an intention “that this gift shall be used to improve the quality of leadership and service in all branches of government, whether Federal, State, or municipal, by encouraging young people to study public administration. The candidates are not restricted by major or other interest and may pursue undergraduate or graduate degrees at Worcester.

MELLON MAY'S UNDERGRADUATE FELLOWSHIP: Established in 1989 and funded by the Andrew W. Mellon Foundation, this two-year fellowship is awarded to five rising African American, Latino/a, or Native American juniors who show the academic potential and commitment to pursue Ph.D.’s in the humanities and certain fields in the social sciences and natural sciences. Fellows receive funding to conduct faculty-mentored research for two summers and four semesters.

WILLIAM C. MILLARD, CLASS OF 1929, FELLOWSHIP: This summer fellowship, established in 2014, shall be used to enable undergraduate students to pursue opportunities for personal growth fostering independence, creativity and/or broaden some area of special interest, whether or not it is connected to academic work.

JOHN EDMUND MOODY 1921 FELLOWSHIP: Established in 1927 by Mr. John Moody in memory of his son, Class of 1921. To enable a graduate of Williams College to pursue studies at Oxford University for the two years following graduation. The recipient is chosen from those who have majored in Greek, Latin, English, history, political science, philosophy, religion, or economics. The basis of award is general intellectual ability as shown in the major field of study, with special reference to character, need of assistance, and promises of original and creative work.

COLIN AND LILLI ROCHE, 1993, STUDENT RESEARCH PROGRAM: Established in 2016 to provide funding to support meaningful, student-driven academic experiences outside of, and complementary to, the traditional classroom that culminate in academic credit.

RUCHMAN STUDENT FELLOWSHIPS: Established in 1993 by Allan B. Ruchman '75 and Mark C. Ruchman '71, this fellowship provides a research stipend to two Williams seniors who demonstrate a firm commitment to graduate study and intention to pursue a career in teaching at the college level. Ruchman Fellows take part in the activities of the Oakley Center for the Humanities and Social Sciences during their senior year.

HERCHEL B. HUBBARD HUTCHINSON 1917 MEMORIAL FELLOWSHIP: Established in 1979 by Dr. Herchel Smith to enable five or more graduates of Williams College to pursue studies at Emmanuel College, Cambridge for the two years following graduation. One recipient is chosen from those who have majored in the humanities, social sciences, or mathematics or the natural sciences. One set of criteria includes general intellectual ability and attainment in the major field of study with special reference to the promise of original and creative work, and character; the other set of criteria includes leadership, scholastic attainment, and physical vigor after the manner of selection of Rhodes scholars.

YUHAKKONG KONG AND GUANGZHOU

UNITED COLLEGE, CHINESE UNIVERSITY OF HONG KONG: Begun in 1961, this two-year fellowship is offered to a member of the graduating class for the academic years in the English and in their sophomore or junior year to pursue scholarship and personal interests in journalism during the summer.

ALLEN MARTIN FELLOWSHIP: Established by Allen Martin, himself a Carroll A. Wilson Fellow, this fellowship helps to support a Williams graduate student studying in the English and in one of three sister colleges comprising the Chinese University of Hong Kong. The appointee, known as a Teaching Fellow or Tutor, also studies Chinese (Mandarin or Cantonese) and selected aspects of Chinese culture. Students are chosen by a selection committee, chaired by Professor Crane. Interested students should contact Professor Crane for application forms. Deadline November 30th.
AFRICA STUDIES (DIV II)
Chair: Associate Professor JAMES A. MANIGAULT-BRYANT
Sterling Brown Visiting Professor: R. HARDING. Bolin Fellow: M. COLEMAN-TTOIAS.

GENERAL PROGRAM DESCRIPTION
The Africana Studies Program is an interdisciplinary concentration offering students an in-depth understanding of the history, politics, religion, and culture of peoples of African descent, especially in the Americas. We use music, dance, literature, the arts, and scholarly works to explore the origins of this field of study in the fulcrum of African American and Caribbean movements of resistance. A trans-national program, intellectually influenced by scholars from W. E. B. Du Bois to the present, Africana Studies encourages students to study abroad, and offers travel Winter Study courses designed to expose students to experiential learning settings outside of the classroom.

CONCENTRATION IN AFRICAN STUDIES
Candidates for a concentration in Africana Studies must complete at least five courses listed as Africana courses [note: many Africana courses are cross-listed with departmental offerings; all these are considered African Studies courses and can be used to count both for the concentration and for the departmental major of which they are a part]. Two of these five courses are required courses that every concentrator takes. They are the introductory course, AFR 200, normally taken in the sophomore and junior years, but open to all students, and an Africana course not normally taken in the senior year, but also open to others at the Professor's discretion. Additional courses may be taken either with our core Africana faculty or with faculty and visiting professors affiliated with the program. However, at least one of these three additional courses must be listed as "Core Electives" which are each designated in the descriptions below as a "Primary Crosslisting." We also encourage students to take at least one course in a program/department other than Africana Studies and consider an experiential learning Winter Study session. Concentrators are expected to meet with the Chair and/or an Africana core faculty member to plan their concentration.

AFRICANA STUDIES AND OTHER PROGRAMS
Students concentrating in Africana Studies are encouraged to pursue concentrations in American Studies, Environmental Studies, Latina/o Studies, Performance Studies, and Women's, Gender and Sexuality Studies. Many of the courses counted for these concentrations may also earn credit toward the Africana Studies concentration.

REQUIREMENTS
AFR 200 Introduction to Africana Studies

AFR 200 Introduction to Africana Studies and one of the following two AFR 400-level Senior Seminar capstone courses (not all 400-level courses meet the requirement for the concentration): AFR 440(S) CAPSTONE: Performing Blackness
AFR 476(S) CAPSTONE: Black Radicalism

One core elective:
AFR 132/PSCI 132/AMST 132 Contemporary Africana Social and Political Philosophy
AFR 140 Black Autobiography
AFR 156/COMP 156/AMST 156/ENGL 223 Thirteen Ways of Looking at Jazz
AFR 193/HIST 193 Black Power Abroad: Decolonization in Africa, the Caribbean and Europe
AFR 200 Introduction to Africana Studies
AFR 205 She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings
AFR 207/PSCI 212 Hip Hop and Political Theory
AFR 208/AMST 208/REL 262 Time and Blackness
AFR 211/ENVI 211/SOC 211/AMST 211 Race and the Environment
AFR 213/AMST 211 Race 213 Race, Gender, and the Alien Body: Octavia Butler's Science Fiction
AFR 217/AMST 217/ENGL 215 Race(ing) Spaces: Issues, Themes and Representations of Black Athletes
MUS225/AFR225 Musics of the Caribbean
AFR 221/REL 263 Giving God a Backbeat: Rap Music, Religion, and Spirituality
AFR 248/HIST 248 The Caribbean: From Slavery to Independence
AFR 299/PSCI 233/REL 261 Rastafari: Dread, Politics, Agency
AFR 300/AMST 300/SOC 308 Lessons of 'The Game': The Wire and American Culture
AFR 302 Complexion Complexities: Colorism in Literature, Lyrics, and Everyday Life
AFR 305/REL 315/SOC 305/AMST 305 The Sociology of Black Religious Experience
AFR 310/REL 310/WGSS 310/AMST 309 Womanist/Black Feminist Thought
AFR 311/REL 311 Black Ministerial Imaginations: Griots, Athletes, and Maestros
AFR 314/AMST 314/COMP 321/ENGL 314 Groovin' the Written Word: The Role of Music in African American Literature
AFR 315/AMST 315 Blackness 2.0: Race, Film and New Technologies
AFR 316/REL 265/AMST 316 Sacred Cinema: Black Religion and the Movies
AFR 317/COMP 319/DANC 317/ENGL 317/THEA 317/AMST 317 Black Performances: African American Performance at Home and Abroad
AFR 331/SOC 319/AMST 319 Ethnographic Approaches to Africana Studies
AFR 332/AMST 332/WGSS 320 DANGEROUS BODIES: BLACK WOMANHOOD, SEXUALITY & POPULAR CULTURE
AFR 332 Trending Black: Race and Social Media in the 21st Century
AFR 332/AMST 332/ARTH 223/COMP 322/ENGL 356 Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora
AFR 332 Televised/Black Media, the Americas, and Black Woman 'Unscripted'
AFR 338/PSCI 338/LEAD 338 Garveyism
AFR 340 AMST 340/GBST 340/REL 340 African Diasporic Religions in the Americas and the Caribbean
AFR 348 Black Radical Tradition
AFR 356 The Plantation and Its Afterlife
AFR 360/PSCI 370/PHIL 360/LEAD 360 The Political Thought of Frantz Fanon
AFR 405 CAPSTONE: Africana Studies and the Disciplines
AFR 406 CAPSTONE: CRATING RESEARCH: Methods in Africana Studies
AFR 440 CAPSTONE: Performing Blackness
AFR 444 CAPSTONE: The Black Republic—Haiti in History and Imagination (D)
AFR 476/HIST 476 CAPSTONE: Black Racism
AFR 479 Independent Study: Africana Studies
AFR 498 Independent Study: Africana Studies

Two additional electives (a total of three required for the concentration): No electives are included by default. However, students should check with the program chair to see if other courses not listed here might count as electives toward the concentration.

HONORS PROGRAM IN AFRICAN STUDIES
A student wishing to earn honors must complete an “Honors Dossier” during the Winter Study term and Spring semester of their Senior Year. This Dossier is comprised of three linked essays. Students may begin the project with essays written for Africana Studies courses and, under their advisor's guidance complete additional research, incorporate instructor feedback, and substantially re-write and expand these two papers. The third essay must be a new work, written specifically for the Honors project. Students must submit these three linked essays to the program chair to see if other courses not listed here might count as electives toward the concentration.

AFR 104 Travel Narratives and African History (W)
Crosslistings: HIST 104/AFR 104

In a way, all historical thinking and writing deals with travel accounts given that, as many scholars have noted, the past can be likened to a foreign country and the historian can be viewed as a traveler in foreign places. Not only do actual travel narratives include the actual physical visits of writers to distant lands—call for careful and critical analysis because they can be seductive, and they can shape the ways we think about the present—and the past—of distant lands and cultures. This course addresses African, European, African American travel narratives and their influence on various regions of Africa since the 14th century. We will mine the travel accounts for descriptions of local contexts. We will also explore what travel writing says about the author’s perceptions of self, home, and “other." Ultimately, we will investigate the authors’ biases about the actual physical influence both our perception of Africa and the writing of African history. This course is highly interdisciplinary and draws heavily on literary, anthropological, geographical, and historical methodologies.

Class Format: seminar

Requirements/Evaluation: evaluation will be based on class participation, oral reports, 1-2 short papers and a research paper
AFR 105(F) Materials, Meanings, and Messages in the Arts of Africa (D)
Crosslistings: ART 304/AFR 105
This course introduces students to the wealth, power, and diversity of expressive forms that have characterized the arts of Africa and its Diaspora from prehistory to the present. Pulling extensively from the collections at the Williams College Museum of Art and other campus resources, students will not only experience firsthand the wide array of objects that have been produced within this vast geography, but will also come to recognize how multiple senses including sight, sound, smell, and touch play a key role in understanding how these objects work within their respective contexts. As tools of political control, social protest, divine manifestation, and spiritual intervention, these objects and their associated performances also challenge what we might typically consider art in the Western tradition and as such students will be pushed to think beyond such terms in their examinations of these rich creative traditions. This course fulfills EDI requirements through its exploration of the differences between concepts of art in African and Western traditions, and its focus on reconstructing historical biases and assumptions about the objects that position them as ‘primitive’ or ‘exotic’ constructs.
Class Format: lecture
Requirements/Evaluation: three 2-page response papers, class journal, midterm exam and final exam
Prerequisites: none
Enrollment Preferences: lottery
Expected Class Size: 25
Distribution Notes: meets Division 1 requirement if registration is under AFR; meets Division 2 requirements if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity
Not Offered Academic Year 2018
LEC Instructor: Michelle Aposhos
AFR 113 Musics of Africa (D)
Crosslistings: MUS 120/AFR 113
This course introduces a selection of musical cultures from the geographical breadth of Africa. Following an introductory exploration of the fundamental aesthetic and social parameters governing African musical practice, we will engage in a series of case studies considering a diverse array of musical practices and related social and political issues in specific locales. Featured countries include Ghana, Zimbabwe, Ethiopia, Algeria and the Democratic Republic of Congo. This course samples a wide range of musical practices from the Ghanain dance craze, azonto, to Ethiopian liturgical change, to Shona mbira music in Zimbabwe. Performance analysis and critical reading and listing assignments are combined with a number of hands-on workshops and musical exercises.
Class Format: lecture
Requirements/Evaluation: grade based on two 4- to 6-page papers, two term papers, one performance project, a final paper, and class participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: no prerequisite; prior musical background is not essential for this class
Enrollment Preferences: current or prospective Music majors and Africana Studies concentrators
Enrollment Limit: 30
Expected Class Size: 25
Dept. Notes: MUS World Music/Ethnomusicology
Distribution Notes: meets Division 1 requirement if registration is under MUS; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity
Other Attributes: GBST African Studies Electives, MUS World Music/Ethnomusicology
Not Offered Academic Year 2018
LEC Instructor: Corinna Campbell
AFR 129(F) Twentieth-Century Black Poets (D) (W)
Crosslistings: ENGL 129/AFR 129
From Langston Hughes to contemporary poets such as Angela Jackson and Claudia Rankine, African American poets have been preoccupied with the relations of poetry to other traditions. Vernacular speech, English poetry, jazz and other musical forms, folk humor, and African mythology have all been seen as essential sources for black poetry. This course will survey major black poets such as Hughes, James Weldon Johnson, Countee Cullen, Robert Hayden, Gwendolyn Brooks, Amiri Baraka, Jackson, and Yusuf Komunyaka, reading their poems and their essays and interviews about poetic craft. We will ask how black poetic has been defined and whether there is a single black poetic tradition or several.
Class Format: seminar
Requirements/Evaluation: several short papers, a 15-page final paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19
Distribution Notes: meets Division 1 requirement if registration is under ENGL; meets Division 2 requirements if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Context Electives
Fall 2017
SEM Section: 01 W 01:10 PM 02:25 PM Instructor: David Smith
AFR 132(F) Contemporary Africana Social and Political Philosophy (D)
Crosslistings: AFR 132/PSCI 132/AMST 132
This introductory seminar investigates the relationship between three major schools of thought in contemporary Africana social and political philosophy, namely critical theory, African American, and Afro-Caribbean intellectual traditions. We will discuss a range of thinkers including Aimé Césaire, Angela Y. Davis, Édouard Glissant, Lewis R. Gordon, Kwame Gyekye, Paget Henry, bell hooks, Charles W. Mills, Nkrumah Nzegwu, Lucius Outlaw, Oyèrónke Oyewumi, Tommie Shelby, and Sylvia Wynter. A primary goal of the course is to provide tools of political action, social protest, divine manifestation, and spiritual intervention, these objects and their associated performances also challenge what we might typically consider art in the Western tradition and as such students will be pushed to think beyond such terms in their examinations of these rich creative traditions. This course fulfills EDI requirements through its exploration of the differences between concepts of art in African and Western traditions, and its focus on reconstructing historical biases and assumptions about the objects that position them as ‘primitive’ or ‘exotic’ constructs.
Class Format: seminar
Requirements/Evaluation: evaluation will be based on attendance and participation, two 5- to 7-page essays, and one 10-page final paper
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first- and second-year students
Enrollment Limit: 15
Expected Class Size: 12
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: AFR Core Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Critical and Cultural Theory Electives
Fall 2017
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Neil Roberts
AFR 140(S) Black Autobiography
Crosslistings: AFR 140/COMP 141
Autobiography—whether slave narrative, memoir, or semi-fictional life account—has served as a primary form of writing for people of African descent. Although primarily understood as a textual means for articulating selfhood, Black autobiographies also ask other questions like: How do Black reflections on the self necessitate critiques of society and culture? How have Black autobiographies been utilized for political mobilization? And, what might a collective analysis of Black autobiographies reveal about changes in conceptions of Black selfhood over time? We will explore these concerns by reading autobiographies across time and space by authors like Ottobah Cugoano, W. E. B. Du Bois, and Alice Walker.
Class Format: lecture
Requirements/Evaluation: evaluation will be based on class participation, two to three short papers (5- to 7-pages), and a 15- to 20-page paper or multimedia final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first- and second-year students
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 2 requirement if registration is under AFR; meets Division 1 requirement if registration is under COMP
Distributional Requirements: Division 2
Other Attributes: AFR Core Electives
Spring 2018
LEC Section: 01 MR 02:35 PM 03:50 PM Instructor: James Mangault-Bryant
AFR 152 A Composer's History of Jazz (D) (W)
Crosslistings: MUS 152/AFR 152
This course will provide a chronological survey of jazz composers as focused on the self necessitate critiques of society and culture? How have Black autobiographies been utilized for political mobilization? And, what might a collective analysis of Black autobiographies reveal about changes in conceptions of Black selfhood over time? We will explore these concerns by reading autobiographies across time and space by authors like Ottobah Cugoano, W. E. B. Du Bois, and Alice Walker.
Class Format: lecture
Requirements/Evaluation: evaluation will be based on class participation, two to three short papers (5- to 7-pages), and a 15- to 20-page paper or multimedia final project

This course will provide a chronological survey of jazz composers as focused on
AFR 167 Let Freedom Ring? African Americans and Emancipation (W)
Crosslistings: HIST 167/AFR 167/AMST 167
This course will examine African American transition from slavery to freedom. In the years that preceded the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the constitutional right to examine this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.
Class Format: seminar
Requirements/Evaluation: research paper, short writing assignments, class participation
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2, Writing Intensive
Other Attributes: AMST Arts in Context Electives
Not Offered Academic Year 2018
LEC Instructor: Andrew Jaffe

AFR 193 Black Power Abroad: Decolonization in Africa, the Caribbean and Europe (D) (W)
Crosslistings: AFR 193/HIST 193
Obama’s recent successful bid for the Presidency has reminded Americans of the strong links between African-Americans and Africans and of the international dimensions of the struggle for racial justice. This struggle has its roots in the post-World War II transformation of the world associated with the decolonization struggles led by individuals like C.L.R. James, Aimé Césaire, Kwame Nkrumah, Franz Fanon and Nelson Mandela. This course will examine this movement, focusing on activists in the Caribbean and Africa, the new ideas and cultural movements they inspired (Pan-Africanism, Negritude, and Socialism), their organizational activities in London and Paris, and their success in breaking free of European imperialism only to be confronted with American and Russian Cold War rivalry. By comparing and contrasting different experiences of independence in the Caribbean and in Ghana, and in apartheid South Africa—this course will grapple with the ways in which racism, political power, and cultural difference affected relations between Blacks, mulattoes, whites, and Indians in these countries and on one side of the Atlantic Scope of this course, combined with its focus on race relations, power, and privilege helps it meet the requirements of the Exploring Diversity Initiative.
Class Format: discussion
Requirements/Evaluation: evaluation will be based on class participation, oral reports, 1 short paper, and a 10- to 12-page research paper
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Enrollment Limit: 19

Not Offered Academic Year 2018
SEM Instructor: Shanti Singham
critical frameworks for understanding African diasporic experience while simultaneously illuminating disjunctures and challenges for the field. This course features two pedagogical strategies: 1) a rotational, interdisciplinary approach that includes the expertise, methods, and specializations of Africana faculty; and 2) the incorporation of aesthetic materials—film, phonograms, music, visual art, performance, and art—to enhance student ability to draw ongoing connections between visual and textual sources covered in the course. Close textual analysis, vibrant debate, and engaging discourse are expected.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based upon class participation, weekly reading response papers, two short essays, and a final research project.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

AFR 203 Modern African History (D)

Crosslistings: HIST 203/AFR 203

This course surveys the history of 19th and 20th century Africa. The first section of the course focuses on the European conquest of Africa and the dynamics of colonialism, including the politics of colonial control, and the role of the African state. The second section focuses on the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The third section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The fourth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The fifth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The sixth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The seventh section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The eighth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The ninth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The tenth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The eleventh section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The twelfth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The thirteenth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The fourteenth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society. The fifteenth section examines the postcolonial states, focusing on the challenges of nation-building, the politics of development, and the role of the state in society.
with ethnographic observation.

Class Format: tutorial

AFR 206(T) African Dance and Percussion
Crosslistings: DANC 202/AFR 206/MUS 221

Course continues the investigation of selected music and dance from the African continent. Advancing knowledge and music skills, deepening understanding of history and context of the material are focus of readings, discussions and projects throughout the semester. Questions we will address include the impact of religion, colonialism, travel, immigration, media tradition and the continued emergence of new forms. Material may include Gum Boots (Isicathula) from Southern Africa, Juju in Nigeria or Hip Hop in several nations. This course can be taken for academic and/or PE credit.

Class Format: seminar
Requirements/Evaluation: participation in assignments that include research and performance projects and a short paper; students enrolled for PE credit only are not required to do short paper or research assignments; all students must participate in all performance projects
Prerequisites: none
Enrollment Preferences: students who have taken DANC 100, DANC 201 or permission of the instructor
Enrollment Limit: 20
Expected Class Size: 20
Dept. Notes: MUS World Music/Ethnomusicology
Distribution Notes: meets Division 1 requirement if registration is under DANC or MUS; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1
Other Attributes: GBST African Studies Electives, MUS World Music/Ethnomusicology

AFR 207 Hip-Hop and Political Theory
Crosslistings: AFR 207/PSCI 212

This course is an introduction into the theoretical underpinnings of the genesis and evolution of hip-hop, a late modern phenomenon whose forms are routinely referred to as a movement, a culture, a music, and a politics. Since its emergence in the South Bronx during the late 1970s, what constitutes the organizing definitions and philosophical bulwarks of hip-hop are often unexplored. The course illuminates such submerged, neglected, and contested concepts: justice, rights, recognition, freedom, equality, democracy, love, and judgment. Through these principles, students are able to address how we frame questions of race, ethnicity, gender, sexuality, class, authenticity, the public sphere, incarceralization, and globalization. Our meetings consider the popular and the underground, the originally forged and the remixed, the utility of nomenclature bifurcating conscious and radical hip-hop on the one hand and alternative modes following the logic of neocorporatism and neoliberalism on the other, examining throughout the interplay among language, aesthetics, and form. We investigate as well whether hip-hop in the United States and around the world is intrinsically a political, anti-political, or neutral force in the realm of politics. Written texts, lyrical thought, breaking, film, music videos, and guest lectures on rap papers, R&B singers, DJs, academics, and graffiti artists are interwoven in assignments and in-class discussions. Through these mediums and select experiential education opportunities outside the classroom, students have an opportunity to render evaluations on the political theory of hip-hop between past and future.

Class Format: lecture
Requirements/Evaluation: attendance and participation, two 5- to 7-page essays, and choice of a final 10-page paper or final project; students opting for a final project must receive instructor approval and convey the contours of a core course concept
Extra Info: through one of the following mediums: video interviews with visiting artists and scholars, a PowerPoint presentation, original song, mixtape, or combination thereof
Prerequisites: none; open to all
Enrollment Preferences: none
Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: AFR Core Electives, AMST Arts in Context Electives, AMST Critical and Cultural Theory Electives
Not Offered Academic Year 2018

AFR 208T Time and Blackness (W)
Crosslistings: AFR 208/AMST 208/REL 262

The concept of time is one of the most examined, yet least theorized, concepts in Africana Studies. While the field is saturated with historical studies and literary analyses that take up issues of cultural memory, both of which involve thinking about time, time itself is rarely the subject of sustained inquiry. This may be due to its abstractness as an idea and the level of analysis its conceptualization demands, or because time in the African American experience cannot be understood outside of the meaning of race, which itself is far from tangible. In this tutorial, "Time and Blackness," we will explore how African American writers across a number of genres understand time. Through a series of selected texts within the context of African American publics, we will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how spurious critique is constructed to disempower community activists. Through these principles, students are able to address how we frame questions of race, ethnicity, gender, sexuality, class, authenticity, the public sphere, incarceralization, and globalization. Our meetings consider the popular and the underground, the originally forged and the remixed, the utility of nomenclature bifurcating conscious and radical hip-hop on the one hand and alternative modes following the logic of neocorporatism and neoliberalism on the other, examining throughout the interplay among language, aesthetics, and form. We investigate as well whether hip-hop in the United States and around the world is intrinsically a political, anti-political, or neutral force in the realm of politics. Written texts, lyrical thought, breaking, film, music videos, and guest lectures on rap papers, R&B singers, DJs, academics, and graffiti artists are interwoven in assignments and in-class discussions. Through these mediums and select experiential education opportunities outside the classroom, students have an opportunity to render evaluations on the political theory of hip-hop between past and future.

Class Format: tutorial
Requirements/Evaluation: assignments will include six 2-page response papers; two 5-page writing assignments; and a final, 10-page research essay on how time is understood in a genre of writing
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: concentrators in Africana Studies, majors in Religious Studies, and majors in American Studies
Enrollment Limit: 10
Expected Class Size: 10

AFR 210 Culture and Incarceration
Crosslistings: PSCI 210/AFR 210/AMST 210/WGSS 210/INTR 210

This seminar examines incarceration, immigration detention centers, and the death penalty from historical and contemporary perspectives. Students will study and examine interdisciplinary texts as well primary sources (legislative and criminal codes and writings by the incarcerated). The emphasis will be on the study of social differences concerning ethnic groups, sexuality and class as they pertain to a "penal culture" in the United States.

Class Format: seminar
Requirements/Evaluation: attendance and active participation (10%); collective/group presentations (30%); four 5-page double spaced e-papers (60%)
Prerequisites: none
Enrollment Preferences: juniors and seniors, or sophomores with permission of instructor
Enrollment Limit: 15
Distributional Requirements: Division 2
Other Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora, JLST Enactment/Applications in Institutions
Not Offered Academic Year 2018
SEM Instructor: Joy James

AFR 211(F) Race and the Environment
Crosslistings: AFR 211/ENVI 211/SOC 211/AMST 211

In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address "environmental racism,“ like Robert Bullard’s Dancing in Dixie and David Pellow’s Garbage Wars. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for polluting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions—like literature, film, and music—to understand how people of color respond to environmental injustice and imagine the natural world.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, 2-3 group projects (5 pages total), and a final examination (5 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Limit: 20
Distributional Requirements: Division 2

Fall 2017
AFR 212(S) Jazz Theory and Improvisation I
Crosslistings: MUS 204, AFR 212
The theory and application of basic techniques in jazz improvisation and performance styles, including blues forms, swing, bebop, modally based composition, Afro-Cuban, etc. Appropriate for students with skill on their instrument and some basic theoretical knowledge. Knowledge of all key signatures, major/minor keys and modes, intervals, triads and basic seventh chords and their functions within keys. Students should be able to play and demonstrate these concepts on their instruments-competence on an instrument is essential (vocalists and drummers will be encouraged to study the piano). Pianists and guitarists should be able to sight read chords on a jazz lead sheet.
Class Format: alternates between lecture style exposition of theoretical topics and a master class where students will perform and be evaluated on assigned repertoire
Requirements/Evaluation: evaluation will be based on weekly assignments, e.g., harmonic analysis and exercises in transposition and transcription, midterm, a transcription project and the end of semester concert, as well as improvement as measured in weekly class performance
Extra Info: may not be taken on a pass/fail basis
Enrollment Preferences: prospective Music majors, then Jazz Ensemble members, then Music majors
Enrollment Limit: 15
Expected Class Size: 12
Distribution Notes: meets Division 1 requirement if registration is under MUS; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1

AFR 213T Race, Gender, and the Alien Body: Octavia Butler's Science Fiction (W)
Crosslistings: AFR 213/WGSS 213
Science fiction is a genre well known for its ability to envision new realities, and Octavia E. Butler (1947-2006) is among the most highly regarded science fiction writers. Butler's uncanny ability to imagine the future anew and to merge those ruminations with her experiences as an African American woman provide powerful commentary on—and often disrupt—modern understandings of race, gender, and human embodiment. We will explore questions such as: What role does 'gender' play in Butler's fiction? How does Butler's treatment of the 'alien' cause us to reconsider what it means to be human? How does Butler incorporate 'race' and the concept of 'other' into her fiction, and how do these techniques help us situate contemporary discussions of a post-race society? We will examine the relationship between Butler's visions for the future and what her narratives of future worlds invariably suggest about the present. We will read key texts including the best-selling text Kindred (1979), the haunting dystopian novel Parable of the Sower (1994), the popular vampire text Fledgling (2005), and the collection Bloodchild and Other Stories (1998). We will also explore contemporary engagement with Butler's work including the relationship between the main character from her book Dawn (1987), and Henrietta Lacks, the African American woman from whom the immortal cell line (HeLa) used for medical research derives. This tutorial will engage Octavia Butler's work broadly, and with particular attention to how the concepts of race, 'gender', 'alien' and 'body' are interrogated in her writings.
Class Format: tutorial
Requirements/Evaluation: attendance, paired weekly reflection/response papers, a 5- to 7-page creative writing assignment, and a final essay of 10 pages
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: students with interests and/or prior coursework in Africana Studies and Women's, Gender, and Sexuality Studies
Enrollment Limit: 10
Expected Class Size: 10

AFR 214 Jazz Theory and Composition II
Crosslistings: MUS 204/AFR 214
A continuation of MUS 104b, this course builds upon theoretical knowledge, performance and aural skills developed previously. Students will deal with more complex theoretical and performance issues, including the use of symmetrical scales, strategies for chord reharmonization, pentatonic and hexatonic scale shapes, and Coltrane's “Three Tonic” harmonic system.
Class Format: two weekly seminar meetings, alternating between theory and performance sessions
Requirements/Evaluation: weekly compositional, analysis, transcription or performance exercises and final transcription project
Prerequisites: MUS 104a, or permission of instructor
Enrollment Preferences: Music majors and Jazz Ensemble members
Enrollment Limit: 12
Expected Class Size: 5-8
Distribution Notes: meets Division 1 requirement if registration is under MUS; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1
Other Attributes: EXPE, Experiential Education Courses
Not Offered Academic Year 2018
SEM Instructor: Kris Allen

AFR 215(F) Ways of Knowing: Music, Movement, Memory (D)
This interdisciplinary seminar proceeds from the premise that the body knows. Ongoing colonial modernity is rooted in a racialized hierarchy: the “civilized” life of the mind vs. the “primitive” instincts of the flesh. According to this binary, the body is marked as irrational, sinful, outside of the archive. The body cannot know because the happenings of the body are ephemeral: unlike documents, they don’t last. In this course, we will subject this logic to close scrutiny. As performer, scholar, and activist Diana Taylor asks, “What remains of memories, traditions, and claims to history disappear if performance practices lack the staying power to transmit vital knowledge?” In this course, we look to music, movement, and other repertoires as ways of knowing, remembering, and world-making. How do embodied knowledge travel across time and space? How have performance practices served as modes of what Ashimabee cultural theorist Gerald Vizenor calls “survivance” (survival + resistance) for indigenous, nomadic, queer, and colored communities. Case studies include: the Middle Passage and the syncritical birth of the Blues in the Americas; nomadism, the nation-state, and the migration of Roman music; and the evolution of queer ball culture. Students will engage with a variety of texts (verbal, sonic, visual, kinesthetic) and respond to them critically not only through writing and discussion, but also through their own performance practices.
Class Format: Seminar
Requirements/Evaluation: in-class participation, critical responses to texts, final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: if overenrolled, theater majors will get preference
Enrollment Limit: 14

SEM Section: 01 W 01:10 PM-03:50 PM Instructor: Shayok Chowdhury
AFR 219(S) Spiritualities of Dissent (D) Crosslistings: REL 220/AFR 219
This course offers an in-depth consideration of spiritual communities that challenge a prevailing status quo in the Americas. Interrogating the category of "dissent" through an examination of 'ethnic' New Religious Movements in the twentieth and twenty-first centuries, the course seeks to understand how protest fuels the creation and sustenance of novel spiritual systems. The course will examine the distinctive qualities of selected African-descended activists, community workers, scholars, spiritual/religious leaders and creative writers. Representative traditions include Rastafarianism, Africentric Christianisms, and modern Buddhism. Potential case studies of leaders include el-hajj Malik el-Shabazz (Malcolm X), Oba Efunfela Oseijeman Adefunmi I (Walter King), and Alice Walker. By the end of this course, students will be able to thoughtfully respond to the questions, "What is spirituality?"; "What is dissent?"; and "Has blackness required resilient spiritual communities?"
Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, weekly reading responses, a critical book review, and a final paper or project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Religion majors; Africana Studies concentrators
Enrollment Limit: 15

AFR 220(S) Introduction to African American Literature Crosslistings: ENGL 221/AMST/220/AFR 220
What does it mean, socially, culturally, historically, personally, and spiritually, to be African American? No single, simple answer suffices, but African American literature as a genre is defined by its ongoing engagement with this complex question. This course will examine a series of texts that in various ways epitomize the fraught literary grappling with the entailments of American blackness. Readings will include texts by Frederick Douglass, Booker T. Washington, Zora Neale Hurston, Langston Hughes, Richard Wright, Ralph Ellison, Amiri Baraka, Toni Morrison, and Ishmael Reed.
Class Format: seminar
Requirements/Evaluation: writing assignments for the course will total 20 pages, distributed over 3 papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

AFR 221 Giving God a Backbeat: Rap Music, Religion & Spirituality Crosslistings: AFR 221/REL 263
On the surface, religion and rap music may seem as if they have little in common. Yet, like other Black musical traditions such as spirituals and the blues, rap is rooted in African American religious traditions. In this course, we will explore the ways in which rap music intersects with the sacred and secular worlds. Through an examination of black religious traditions, lyrics, music videos, and digital media, we will unearth what Anthony Pinn calls the "spiritual and religious sensibilities" of rap music. Grounded in cultural centered criticism, we will investigate the rhetoric of rap and religion through the theoretical ideas of Black Liberation Theology and hip-hop feminism.
Class Format: seminar
Requirements/Evaluation: students will be evaluated on their class participation, responses to class readings, quizzes, and a final class project
Extra Info: may not be taken on a pass/fail basis

SEM Instructor: VaNatta Ford

AFR 223 Politics of Performance/Performing Politics in Contemporary Africa (D) (W)
Crosslistings: MUS 222/AFR 223
Using select examples from throughout Africa, this course highlights genres, artists, and works that engage with social and ideological change. Students practice critical listening and performance analysis, while also considering the social contexts that render these performances meaningful and provocative. Topics include: challenges to mass mediated stereotypes of African populations, the social and economic impact of cultural tourism, music as a form of social critique, changing attitudes toward women and the LGBTQ community, music and global aid organizations, issues of migration and displacement, and the changing roles of traditional musical occupations. Popular genres—among them Afrobeat, kwaito, soukous, rai, mbalax, Congolese, and nusum—are discussed alongside numerous traditional and ceremonial genres, national/political anthems, and concert pieces. Active participation in class discussion is an important component of this course.
Class Format: lecture
Requirements/Evaluation: based on in-class preparation and participation, bi-weekly short writing assignments, a midterm paper and a final project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: sophomores, juniors, or seniors who are current or prospective Music majors, as well as current and prospective Africana Studies and Latina/o Studies concentrators

AFR 225 Musics of the Caribbean (D) Crosslistings: MUS 225/AFR 225
From witty and politically charged calypsos to soulful batuchas, from folkloric dancehalls that advertise a country’s cultural diversity to ritual performances that facilitate communication with the spirit world, the music of the Caribbean is astonishingly diverse, both sonically and in its social application. This course serves as an introduction to a wide spectrum of Caribbean music in its social and historical contexts and through engaging with audio and video sources, readings, performance exercises and workshops, students will learn to identify distinguishing features associated with particular countries and regions, while also exploring the sounds and musical structures that are shared between them. Featured genres include reggae, steel pan, calypso, zouk, Maroon music from Suriname and Jamaica, chutney, salsa, merengue and music from Haitian Vodu and Cuban Santería religions. Interlaced with discussion of musical genres and innovative musicians are a number of central questions about the social role of music within the region: How has slavery and colonial enterprise shaped the musical landscape of the Caribbean? How do the realms of sacred and secular performance relate to each other? What role does tourism and global circulation play in influencing musical tastes and practices? Finally, how do music and dance interconnect? This course satisfies the EDI requirement, with a particular focus on the comparative study of cultures and societies and critical engagement with issues of power and privilege.
Class Format: lecture
Requirements/Evaluation: class participation, multimedia project, midterm paper, intermittent short assignments, final exam
Prerequisites: none
Enrollment Preferences: Music majors and Africana Studies or Latina/o Studies concentrators
Enrollment Limit: 25
Expected Class Size: 20

LEC Instructor: Corinna Campbell

AFR 226(S) Black France/Françafrique (D) Crosslistings: RLFR 226/AFR 226
On the eve of the new millennium, the year 1998 saw the emergence in France of “Black studies à la française” (Ndlaye). Inspired, in part, by the 150th anniversary of the 1848 abolition of slavery, the French black minority “made itself more visible” (Faes and Smith). This course examines a wide range of discursive practices through which artists, authors, actors, politicians, activists, and scholars amplified their voices in the French hexagone. It retrace the rises of these discourses and how they assert, reformulate and establish blackness as a legitimate field of knowledge and a space of contestation. Following a study of the interwar period (1918-1939), when the work of “negritude women” (Sharpley-Whiting) such as “afro-latinité” spurred the negritude movement, we will discuss publications, documentaries, and seminal moments of protest in the early twenty-first century. Course material may include works by Suzanne Césaire, Jane and Paulette Nardal, Aimé Césaire, Frantz Fanon, Achille Mbembé, Françoise Vergès, Pascal Blanchard, Nicolas Bancel and Sandrine Lemaire, Pap Ndiaye, Gaston Kelman, Kokhaya Diallo, Alice Diop, Léonora Miano, and Fabienne and Véronique Kanor. Conducted in French.
response. The class will look at examples of successful policies and activism as well as the failures, corruption and complacency that have characterized the global pandemic. There will be a particular geographical focus on experiences in the U.S. and sub-Saharan Africa. The class is an EDI course because of its focus on diversity and difference, as they shape the different ways that the HIV epidemic affects individuals in different global locations, and its discussion of the ways that global and local contexts of colonialism, patriarchy, and heteronormativity have inevitably shaped relationships between policy makers, researchers, activists, and those living with HIV and ultimate the content of their policies and interventions.

Fall 2017
SEM Section: 01  MWF 11:00 AM 12:15 PM Instructor: Kiaran Wonderich
From the Haitian Revolution to the Manley `Revolt' in Jamaica, the Puerto Rican Independence Movement, the Cuban Revolution, and the Grenadian Revolution, the Caribbean has been at the forefront of radical change in the New World. Pioneering slave emancipation, independence from European empires, and unique experiments in socialism, communism, and Black Power, these small islands have been world leaders. But their innovative social and political experimentation—expressed in vivid artistic and musical forms—has all too often been repressed by the violent acts of powerful neighbors or former colonial rulers. This course will examine the audacious experiments of the Caribbean people from the eighteenth to the twentieth centuries as well as the repression they have faced from abroad. We will pay particular attention to the rich cultural diversity of the region, using film, music, literature and art to examine diverse phenomena, including voodoo, Santeria, and Rastafarianism. We will also explore the prospects for continuing change in the contemporary Caribbean, paying special attention to the environments in which they face amidst rising sea levels, drought, heat waves, and the effect of two hundred years of environmental destruction at the hands of rapacious foreigners, from slaver ships to cruise ships to bauxite and oil producers.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, a midterm and final examination, and a 10- to 12-page research paper

AFR 254(F) Bebop: The (R)evolution of Modern Jazz
Crosslistings: MUS 254/AFR 254
In the 1940s, Jazz turned a corner, transitioning from the functional and popular music of the swing era to the increasingly complex art music known as bebop. The practitioners of this new sub-genre were not seen as showmen or entertainers, but (in the words of poet Ralph Ellison) as "frozen faced introverts, dedicated to chaos." This music was simultaneously old and new, a musical evolution interpreted through the lens of cultural revolution. This class will survey the lives, music and continuing impact of bebop’s most pivotal figures: Charlie Parker, Thelonious Monk, Dizzy Gillespie, Bud Powell, and others. Alongside the work of these performers, we will pay particular attention to the rich cultural diversity of the region, using music, literature and art to examine diverse phenomena, including voodoo, Santeria, and Rastafarianism. We will also explore the prospects for continuing change in the contemporary Caribbean, paying special attention to the environments in which they face amidst rising sea levels, drought, heat waves, and the effect of two hundred years of environmental destruction at the hands of rapacious foreigners, from slaver ships to cruise ships to bauxite and oil producers.

Class Format: seminar

AFR 257 Social Justice Traditions: 1960s #BLM
Crosslistings: AMST 256/AFR 257/HIST 256
We live in a time of renewed social justice activism, as people from all walks of life confront economic inequality, police violence, discrimination against transgender individuals, and other forms of oppression. This course is designed to clarify where recent initiatives like Black Lives Matter and Occupy Wall Street came from, and to evaluate how they might shape American life in the near future. Movements have histories, as today's activists draw on the "freedom dreams," tactics, and styles of rhetoric crafted by their predecessors, while making use of new technologies, such as Twitter, and evolving understandings of "justice." Taking a historical approach, we will begin with the work of people like Black Power, anti-war, counter-culture, and feminist initiatives of the 1960s. We will then explore how progressive and radical activists adjusted their theories and strategies as the country became more conservative in the 1970s and 1980s. Making use of movement documents, documentary films, and scholarly accounts, we will study the development of LGBTQ, ecological, and economic justice initiatives up to the present day. Throughout, we will seek to understand how movements in the United States are shaped by global events and how activists balance their political work with other desires and commitments.
Class Format: seminar
Requirements/Evaluation: class participation, argumentative papers; six 2-page analytical essays
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

AFR 258 The Rhetoric(s) of Black Religious Traditions
Crosslistings: AFR 258/REL 258
This course will introduce students to the rich religious expressions of Black Americans through their rhetorical traditions. We will begin with a survey of rhetorical productions like sermons, music, and other forms of public address in the historical literatures on Black religions. Our review will yield some of the primary themes of Black religious experiences—the injustices of modern racism, the significance of Africanisms as an Africa as a homeland. We will then investigate how secular processes like commodification alter rhetorical practices.
Class Format: lecture
Requirements/Evaluation: evaluation in this course will be based upon class participation, response papers, one 8-page paper, and a formal group presentation
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 20

AFR 259 Blad al-Sudan and Beyond: As Is of the Afro-Islamic World (D)
Crosslistings: ARTH 259/AFR 259/ARAB 259
From the Swahili stone houses of East Africa to the massive earth and timber mosques of the Sahel, the story of Islam in Africa is one of cultural and spiritual hybridity expressed through material form. In this course, students will explore how artistic forms and traditions in Africa have functioned as vehicles of access and integration for Islam, enabling it to assimilate itself with numerous African contexts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just one African Islam, but many different iterations, each shaped by the specific frameworks of its cultural context. The contemporary component of the course will examine how modernity in the form of globalization, technocolonialism, and Western art historian's vision of Afro-Islamic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period. This course fulfills EDI requirements through its exploration of the cross-cultural strategies used by Islam to interact with, respond to, and manifest itself within established African expressive traditions.
Class Format: lecture
Requirements/Evaluation: three reading response papers (2 pages each), class journal, a mid-term exam, and a final exam
Prerequisites: none, although an introductory course in art history or Islamic studies would be useful
Enrollment Preferences: if the course is oversubscribed, preference will be given to students who have declared a major in Art History or Africana Studies
Enrollment Limit: 25
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under ARTH or ARAB; meets Division 2 requirement if registration is under AFR

AFR 261 Haitian and French Caribbean Literatures and Films (D)
Crosslistings: RLFR 261/AFR 261/COMP 283
Over the twentieth and twenty-first centuries, authors and filmmakers have questioned prevalent representations of the Creole and French-speaking Caribbean such as the island of Haiti as the poorest nation in the Western hemisphere and of Martínique and Guadeloupe as the "French" Caribbean. They have also interrogated their forebears by reclaiming modernity, reframing History, and telling "intimist" stories. This course focuses on the writing of Haitian and French Caribbean literatures (short stories, play, poem, novels) and film (short, feature and documentaries) as critical interventions that bring into focus slavery, identity, exile, migration, imperialism, culture, and (non) sovereignty.
Class Format: seminar
Requirements/Evaluation: in-class discussions, journaling, steps towards final project, final project and presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: French majors, French certificate, Africana and Comparative Literature students
Enrollment Preferences: 105 and above, French majors, French certificate, Africana and Comparative Literature students
Enrollment Limit: 15
Expected Class Size: 10
Distribution Notes: meets Division 1 requirement if registration is under RLFR or COMP; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity
Other Attributes: FMST Core Courses
Not Offered Academic Year 2018

AFR 276(S) Black Europeans (W)
Crosslistings: COMP 276/AFR 276
This course explores the invisibility of Black Europeans from the Enlightenment to the present with a particular focus on French, German, Italian, Austrian, Dutch, French, and Russian history. With the European Enlightenment as point of departure, the tutorial investigates the large presence of Blacks as objectified subjects in paintings and decorative artifacts of the 18th and 19th centuries while interrogating their century-long absences from European historiography until fairly recently. In this tutorial we will first start discussing the significance of the Code Noir (1685) as well as the major economic impact of the Atlantic Slave Trade on European countries such as Great Britain, France, and the Netherlands. We will read historical biographies of a handful of outstanding Black Europeans in France (composer Monsieur de Saint George), Germany (Prussian officer Gustav Sabac el Cher, philosopher Wilhelm Anton Amo), Austria (royal tutor Angelo Soliman), Holland (Prince Kwasi Boachi), and Russia (military leader Abram Petrovitch Gannibal) during the 18th and 19th centuries, study paintings and decorative artifacts of the 18th and 19th centuries depicting black servants—such as Hyacinthe Rigaud's Portrait of Marquise de Louvois (1708), Nicholas Lancret's The Escaped Bird (1730), and Manet's Olympia (1863) to name a few— and watch the biopic Hyacinthe Monnier (2010), narrating the life of black heiress Dido Elizabeth Belle in 18th-century England. We will also do a quick survey of 20th-century European cinema, that has until now cast very few black actors in supporting and leading roles, and we will ponder the representation of black people in recent films that were commercially successful at the box office (such as Les Intouchables by Nakache/Toledano, 2011). Finally, we will reflect on the deep roots of European colonialism that takes the form of national debates surrounding the naming of chocolate-coated treats and licorice sweets (Têtes de noir, Mohrenkopf, and Negerkuss) or of a controversy around cultural identity resulting from the grotesque depiction of black men in folkloric tradition (like Zwarte Piet in the Netherlands).
Class Format: tutorial
Requirements/Evaluation: six 5- to 7-page argumentative papers; six 2- to 3-page response papers; final paper optional
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first-years, sophomores, and juniors
Enrollment Limit: 10
Expected Class Size: 8
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1, Writing Intensive

AFR 280 African American History: An Introduction (D)
Crosslistings: HIST 280/AFR 280
This course provides a survey of African American history from the earliest importation and migration of Africans to North America through the present day. Our readings and discussions will take up the development, expansion, and organization of slavery, the coming and meaning of freedom, and the political and cultural landscapes of African Americans over time. We will
discuss slavery, freedom, civil rights, and racial ideologies. Finally, we will examine the post Civil Rights era, the changing meaning of the designation "African American" in light of global migrations, and African American political power in the 21st century. Our readings, which will include both primary and secondary sources, will help us to interrogate American history and gain an understanding of the development of African American history. The course will be primarily discussion based. Given its focus on the workings of racial ideology and the development of slavery and other forms of unfree labor in the U.S. economic system, this course fulfills the criteria of the Exploring Diversity Initiative.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on three short papers, a take-home final exam, and performance in class discussions and assignments.
Prerequisites: none; open to all
Enrollment Limit: 40
Expected Class Size: 20-30
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: HIST Group F Electives - U.S. + Canada
Not Offered Academic Year 2018
LEC Instructor: Gretchen Long

AFR 283(F) Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film (D)
Crosslistings: WGSS 283/ENGL 286/AFR 283/AMST 283

This course will explore representations of Black queer bodies in experimental, documentary and narrative film. This course will engage foundational texts from Black Queer Studies. We will pair texts and films in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1988), and Pulp Fiction (Quentin Tarantino, 1994). Throughout the course we will study different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be assigned to facilitate a class discussion. You will also be required to work on critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that "represents" some segment of Black queer living. This course fulfills the EDI requirement in that it centers questions of power and privilege. Students will also hone their critical theorization skills.

Class Format: seminar
Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Women's, Gender and Sexuality Studies majors, then Africana Studies concentrators
Enrollment Limit: 20
Expected Class Size: 20
Distributional Notes: meets Division 2 requirement if registration is under WGSS, AFR or AMST; meets Division 1 requirement if registration is under ENGL
Distributional Requirements: Division 2, Exploring Diversity

AFR 299(S) Rastafari: Dread, Politics, Agency
Crosslistings: AFR 299/PSCI 233/REL 261

The emergence of Rastafari in the twentieth century marked a distinct phase in the theory and practice of political agency. From its heretical roots in Jamaica, Garveyism, Pan-Africanism, and Pan-Africanism, Rastafari has evolved into a Caribbean theological movement to an international political actor. This course investigates the political theory of Rastafari in order to develop intellectual resources for theorizing the concept of agency in contemporary Africana thought and political theory. We will analyze texts and visual works on the political economy of late colonial Jamaica, core political agency, and the influence of Rastafari on global politics. Rastafari thinking, political theology, the role of reggae music, the notion of political agency. From its heretical roots in Jamaica, Garveyism, Pan-Africanism, and Pan-Africanism, Rastafari has evolved into a Caribbean theological movement to an international political actor. AFR 300 Lessons of The Game: The Wire and American Culture
Crosslistings: AFR 300/AMST 300/SOC 306
The critically acclaimed television program, The Wire, ran for five seasons on Home Box Office (HBO) between 2002 and 2008. Set in "inner city" Baltimore, the program addressed a wide array of topics, including, but not limited to, drug trade, law enforcement, local politics, labor unions, education, and the newspaper industry. Though a work of "fiction," sociologist William Julius Wilson has called the show an important and instructive portrayal of the "deep inequality in inner-city America." By contrast, some scholars have criticized the series and indeed courses like this one, as examples of mainstream America's fascination with and acceptance of African American drug use, criminal tendencies, and corruption. In this course, we will not reconstruct The Wire per se, but use select episodes from the series to explore key issues in Africana Studies, ranging from political geography to a history of Baltimore and the "War on Drugs." Students should have some familiarity with the show. Africana Studies concentrators will show select episodes during Winter Study. Readings will include texts about African American urban life, such as Elijah Anderson's Code of the Street and Sudhir Venkatesh's Gang Leader for a Day. Due to its attention to crime, drug addiction, violence, and urban decay, this course is a part of the Gaudino Danger Initiative.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on 2-3 short papers (5-7 pages), and a final written project (10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 50

AFR 301 Experimental African American Poetry
Crosslistings: AFR 301/COMP 311/AFR 301/ENGL 327

Contemporary African American poets represent a wide array of voices from New York City to Los Angeles, from Berkeley to Durham, N.C.—are currently producing a vibrant and thriving body of formally experimental work, yet this poetry is largely unknown to readers both within and outside the academy. This formally innovative poetry defamiliarizes what we normally assume to be part of "black writing" and pushes us to question assumptions and preconceptions about black identity, "identity politics," the avant-garde (for example, is it implicitly raced?), formalism, socially "relevant" writing, the (false) dichotomy of form versus content, the black "community," digital poetics, and other issues of race and aesthetics. We will examine the writings of living poets, who range widely in age, and those of their avant-garde predecessors in the twentieth century. We will also be making links between this poetry and African American music and visual art.

Class Format: seminar
Requirements/Evaluation: two papers (6-8 pp., 8-10 pp.), short response papers, oral presentation, and class participation
Prerequisites: none, though at least one previous literature course preferred
Enrollment Preferences: American Studies majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Notes: meets Division 2 requirement if registration is under AMST or AFR; meets Division 1 requirement if registration is under COMP or ENGL

AFR 302(S) Complexion Complexities: Colorism in Literature, Lyrics & Everyday Life
Crosslistings: AFR 302/COMP 309

Often viewed as the "dirty laundry" of the Black American past, colorism, or skin color bias, is a pervasive force within modern global society. Although it is not a new issue, its impact is far reaching and continues to have damaging effects on people of color—especially members within the African Diaspora. From skin bleaching creams like "Whitenicious" to rap music's fetishization of light-skinned women, colorism is a very real and present issue affecting Black life. From the literary works of Wallace Thurman and Toni Morrison, to the lyrics of blues crooner Big Bill Broonzy and rapper Lil Wayne, we will analyze the many ways that the politics of color influence standards of beauty and attractiveness, perceptions of behavior and criminality, and economic attainment and stability.

Class Format: seminar
Requirements/Evaluation: evaluation in this course will be based upon class participation, response papers, one 6- to 8-page paper, and a formal class presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Limit: 25
AFR 303 A History of Islam in Africa (D)
Crosslistings: HIST 303/REL 303/AFR 303/ARAB 303/GBST 303
This course examines the history of Islam in Africa from the seventh century to the present. We will start off by looking at the spread of Islam in different parts of Africa. We will then analyze the social, political, economic, and cultural impact of Islam on African societies, the interaction between Islam and indigenous African institutions, the Islamic revolutions in the nineteenth century, the impact of European colonial rule on Muslim societies, and the development of Islam in the post-independence period. We will also examine how African Muslims reconstructed and asserted their religious identities by localizing Islamic intellectual traditions, healing practices, music, arts, cultural norms, and formal and informal religious festivals. By the end of the semester students should be able to appreciate Islam’s common framework as well as its diversity and dynamics within that larger framework and over time.

Class Format: seminar
Requirements/Evaluation: two 7-page papers and one 12- to 15-page paper
Prerequisites: none
Enrollment Preferences: lottery
Enrollment Limit: none
Expected Class Size: 25
Distribution Notes: meets Division 2 requirement if registration is under AFR, SEM

AFR 304 South Africa and Apartheid (D)
Crosslistings: HIST 304/AFR 304
This course introduces students to the spatial, legal, economic, social and political structures that created Apartheid in South Africa, and to the factors that led to the collapse of the racist order. We will examine the many forms of black oppression and, also, the various forms of resistance to Apartheid.

Some of the themes we will explore include industrialization and the formation of the black working classes, the constructions of race, ethnicities and sexualities, land alienation and rural struggles, township poverty and violence, Black education, and the Black Consciousness Movement. This EDI course explores and experiences of the culturally diverse peoples of African descent in the New World (the Old), as well as the myriad ways in which they confront, negotiate, and at times challenge dominant U.S. and/or European hierarchies of race, culture, gender and class.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation and three short papers
Prerequisites: none
Enrollment Limit: open to first-year students with instructors permission
Expected Class Size: 20
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: GBST African Studies Electives, HIST Group A Electives - Africa
Not Offered Academic Year 2018

AFR 305 The Sociology of Black Religious Experience
Crosslistings: AFR 305/REL 315/SOC 305/AMST 305
The United House of Prayer For All People. The Nation of Islam. New Birth Missionary Baptist Church. The African-American Buddhist Retreat at Spirit Rock Meditation Center. While each of these groups reflects a different spiritual tradition, all are examples of the rich religious expressions of Black Americans. This course will introduce students to the landscape of Black religious practices in the United States. We will begin with a historical survey of the literature on Black religions. Our review will yield some of the primary themes of the Black religious experience—the injustices of modern racism, the significance of liberation, and continued meaning of Africa as a homeland. We will then investigate processes of commodification, and the modern media, alter understandings of the sacred in Black experience.

Class Format: seminar/discussion
Requirements/Evaluation: evaluation will be based upon class participation, 2-3 short papers, and a final research paper
Enrollment Preferences: African Studies concentrators and Anthropology majors
Enrollment Limit: 15

AFR 306 Queer of Color Critique: Race, Sex and Urban Life (D)
Crosslistings: WGSS 306/AMST 306/AFR 306/LATS 306/COMP 304
This seminar is an introduction to queer of color critique, a field of scholarship that explores the dynamics of power, oppression, and resistance in the lives of people of color. We will examine the history of this line of critique, beginning with Black and Chicana feminisms and extending into present day issues and activism focusing on intersectionality, exploring how and why QOCOC became a necessary intervention into the then still emerging field of queer studies. Our texts include scholarly works as well as science fiction novels, plays, films, diaries, and graphic novels. Methodologically, we will draw on many fields of study, including anthropology, literary studies, feminist studies, and ethnic studies, often primarily but by no means exclusively on US contexts, paying particular attention to the role that urban environments have served for queer communities of color. Topics include: feminisms of color, inter-racial desire and fetishization, orientalism and colonial fantasy, black queer science fiction, transgender subjectivities, and the political economy of sexual desire. A key feature of this course will also be the inclusion of numerous and diverse authors to appear on Skype or in person to answer questions about their work as we read it in class.

Class Format: discussion/lecture
Requirements/Evaluation: mid-term essay, choice of final exam essay or 8-10 page research paper, responses to performance/special events
Prerequisites: none
Enrollment Preferences: Women's Gender & Sexuality Studies majors or prospective majors
Enrollment Limit: 15
Expected Class Size: 25
Distribution Notes: meets Division 2 requirement if registration is under WGSS, AMST, AFR or LATS; meets Division 1 requirement if registration is under COMP

AFR 307(F) Contemporary Short Stories from North Africa
Crosslistings: RLFR 309/AFR 307
Short stories are the vibrant center of the literary landscape in North Africa today. Written in French, Arabic and sometimes Amazigh languages, short stories provide timely interventions in political and social discourse. In this course, we will read short stories that use humor and satire to address the injustices of modern racism, and challenge the political economy of sexual desire and fetishization, orientalism and colonial fantasy, black queer science fiction, transgender subjectivities, and the political economy of sexual desire. A key feature of this course will also be the inclusion of numerous and diverse authors to appear on Skype or in person to answer questions about their work as we read it in class.

Class Format: seminar/discussion
Requirements/Evaluation: active class participation, weekly response papers, two short papers, an oral presentation and a final paper
Prerequisites: RLFR 201, 202 or 203 or permission of instructor
Enrollment Preferences: French majors and those with compelling justification for admission
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 1 requirement if registration is under RLFR; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1
Other Attributes: GBST African Studies Electives

AFR 308 Gender and Society in Modern Africa
Crosslistings: HIST 308/WGSS 308/AFR 308
This course explores the constructions of feminine and masculine categories in African societies. We will examine the ways in which women's experiences during the colonial and postcolonial periods. In addition, we will examine how the study of history and gender offers perspectives on contemporary women's issues such as female/circumcision, teen pregnancy, global HIV/AIDS, and AIDS activism.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based upon class participation and three short papers
Prerequisites: open to first-year students with instructors permission
Enrollment Limit: 25
AFR 309(S) Scriptures and Race
Crosslistings: REL 309/AFR 309/LATS 309
This course explores the relationships between constructions of race in the post-1492 American world and "Christian scriptures." The big questions of the course examine the ways that contestations of power are intertwined with the making of, interpretation, and transformation of sacred texts. Both scriptures and race are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Kate Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies. Fulfilling the EDI requirement, this course will explore how womanism/black feminism can be a bridge for empathetic understanding of diverse experiences, and will examine the varied social, political, and historical contexts that led to the formulation of womanism/black feminism as a tool to critique power and privilege.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on participation, short writing assignments, a 5- to 8-page take-home midterm essay, and a 10- to 15-page final essay
Prerequisites: none
Enrollment Limit: 20
Expected Class Size: 15
Distributional Requirements: Division 2
Other Attributes: LATS Core Electives

LEC Instructor: Kenda Mutongi
AFR 311 Black Ministerial Imaginations: Griots, Athletes, and Maestros
Crosslistings: AFR 311/REL 311
In one of the most memorable lines from the classic Souls of Black Folk, W. E. B. Du Bois described the Black minister as "the most unique personality developed on U. S. soil." This course will draw from Du Bois's social-psychological portrait of the minister to explore how the ministerial personality actively appears across a number of social arenas beyond the religious sphere, including politics, sports, and music. We will investigate the complex social dynamics of race and gender surrounding Black ministerial expressions, such as Barack Obama's campaign for the U. S. presidency, Mike Singletary's career as a Hall of Fame linebacker for the Chicago Bears, motivational speaker, and Head Coach for the San Francisco 49ers; and John Coltrane's "A Love Supreme."

Class Format: discussion
Requirements/Evaluation: evaluation will be based upon class participation, a few short papers, and a final research paper
Prerequisites: none; open to all
Enrollment Preferences: Africana Studies concentrators
Enrollment Limit: 15
Expected Class Size: 10
Dept. Notes: this course DOES NOT fulfill the body of theory seminar requirement for Religion majors; this course will count as an elective towards the major in Religion

AFR 313 A History of an African City
Crosslistings: HIST 307/AFR 313/ENVI 306
The city of Nairobi was founded solely to serve the needs of white colonials during the late 19th century to the present. We will focus on the city's political and economic development, its racial conflicts, as well as the daily experience of various groups of city dwellers. We will also look at the growth of the city's physical infrastructure—its transportation, housing, trade, and labor networks. Students will also get a chance to read about various artistic movements in Nairobi, focusing especially on music, theater, and street performances.

Class Format: lecture
Requirements/Evaluation: two 7-page papers and one 12- to 15-page paper
Prerequisites: none
Enrollment Preferences: seniors; History majors
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2
Other Attributes: AFR African Studies Electives, GBST Urbanizing World Electives, HIST Group A Electives - Africa

LEC Instructor: James Manigault
AFR 314 Groovin' the Written Word: The Role of Music in African American Literature
Crosslistings: AFR 314/AMST 314/COMP 321/ENGL 314
In this interview with saxophonist Paul Gilroy, Toni Morrison once said, "Music provides a key to the whole medley of Afro-American artistic practices." Morrison is not the only one who believes that music speaks to numerous aspects of the African American experience. From Sterling Brown and Zora Neale Hurston to John Edgar Wideman and Suzan Lori-Parks, many African American authors have drawn on music to take political stands, shape creative aesthetics, and articulate black identity. In this course, students will explore the work of these authors and more, investigating music's ability to represent and critique African American culture in their literature. Texts will cover a range of literary forms including poetry, plays, short stories and novels alongside theoretical and critical essays. Students will discuss such key issues as assimilation into mainstream culture, authenticity claims on black music, and music used as a tool for protest. Additionally, class assignments will include musical examples in spirituals/gospel, blues, jazz, and rock/ritmy and blues. While this class requires students to practice in-depth literary and performance analysis skills, students are not required to have technical musical knowledge.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based upon class participation, short weekly reading responses and/or listening assignments, one 3-page paper, one 8- to 8-page paper comparing two works, one in-class spoken word performance with 2-page report, final presentation
Prerequisites:
AFR 315 Blackness 2.0: Race, Film and New Technologies

Crosslistings: AFR 315/AMST 315

Media theorists have raised three key questions regarding representations of race (or the lack thereof) within contemporary media forms: (1) Is race a liability in the 21st century where utopian forecasts suggest a race-free or “post-race” future? (2) Is there more to new media and race than assumptions about a “digital divide”? (3) Are race distinctions totally eliminated with digital technologies? Our exploration of these questions will be informed by investigating the nuanced ways that race becomes constructed in popular media forms. Although we will largely focus on representations of blackness in modern film, we will also explore the implications of “new” medias and technologies upon the categories of race, gender, and sexuality. We will, for example, consider how avatar-based social and entertainment medias become viable forums for conceptualizing race, and whether or not these formats are more “plural” spaces in which racialized “bodies” can exist. Additional discussion topics may include: how racial discourses in the “real world” are (or are not) reshaped and redefined in the virtual world; blogsphere politics; social networking; gaming and the virtual world; activism on the web; and fandom in the twitter era.

Class Format: seminar
Requirements/Evaluation: evaluation based on class participation, maintenance & update of a personal blog (including weekly reading-related posts), & design of a student project explicitly connected to race & new media/race & new technologies.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

AFR 316 Sacred Cinema: Black Religion and the Movies

Crosslistings: AFR 316/REL 265/AMST 316

Although they represent different genres, what popular films Madea’s Family Reunion (2006), First Sunday (2008), The Princess and the Frog (2009) have in common is that they each offer complex and at times contradictory images of race in the modern American experience. For example, consider how Evans’ Madea figure serves as a bridge between black religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple representations of the African Diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: seminar/discussion
Requirements/Evaluation: evaluation will be based upon class participation, in-class student performance, 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report.
Extra Info: may not be taken on a pass/fail basis.
Prerequisites: none; open to all.
Enrollment Limit: 15
Expected Class Size: 10
Distribution Notes: meets Division 2 requirement if registration is under AFR or AMST; meets Division 1 requirement if registration is under COMP, DANCE, ENGL, or THEA.
Distributional Requirements: Division 2
Other Attributes: AFR Core Electives, AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Space and Place Electives

AFR 318(F) Disease and Identity in Latin American Narratives of Self (D)

Crosslistings: RLSP 320/AFR 318/COMP 357

This course focuses on autobiographical, auto-fictional, and testimonial Latin American narrative, in order to analyze the ways in which the authors narrate the transformation of the body and subjectivity because of disease. The main goal of the course is to emphasize the bio-cultural constructions of disease and read the different texts as geo-culturally located expressions in constant dialogue with prior literary representations of disease. Readings by Severo Sarduy, Reinaldo Arenas, Pedro Lemebel, Mario Bellatin, Fernando Vallejo, and Manta Díaz about the uses which new media and race than assumptions about a “digital divide”?

Class Format: seminar
Requirements/Evaluation: active class participation, three 20- to 25-minute oral presentations, short written assignments, and two 10-page papers.
Prerequisites: any RLSP 200-level course, or permission of the instructor, or results of the Williams College Placement Exam in Spanish.
Enrollment Preferences: none
Enrollment Limit: 19
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under RLSP or COMP; meets Division 2 requirement if registration is under AFR.
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive.

AFR 319 Ethnographic Approaches to African Studies

Crosslistings: AFR 319/SOC 319/AMST 319

Ethnography is the systematic study and recording of human cultures. It involves the collection and analysis of information from multiple sources including but not limited to first-person accounts, life histories, interviews, observations, and autobiographical materials. Within African Studies, ethnographic approaches have been utilized to reflect complex narratives of black experience throughout the Diaspora. This seminar is a critical introduction to the theoretical, method, and practice of ethnography in African studies. We will explore a variety of cultures and settings, and discuss the practical, methodological, and ethical issues related to ethnography. Three broad questions will dominate our discussions: 1) What are the theoretical, practical, and ethical tools used to fashion compelling ethnographies? 2) What get to the heart of what it means to document African experience? 2) What are the ethical and political implications of representing African perspectives in fieldwork studies? 3) What are the strengths and limitations of ethnography as a research method in African studies? By using the materials covered in the course to research and write his or her own ethnography.

Class Format: seminar
Requirements/Evaluation: evaluation will be based upon class participation, weekly response papers, a 5- to 7-page critical book review, and the construction of a mini-ethnography.
Prerequisites: none
Enrollment Preferences: Africana Studies concentrators, Women’s, Gender and Sexuality Studies majors, Religion majors.
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2
Other Attributes: AFR Core Electives, AMST Comp Studies in Race,
AFR 320 Dangerous Bodies: Black Womanhood, Sexuality & Popular Culture

Crosslistings: AFR 320/AMST 320/WGSS 320

Whether presented as maternal saints, divas, video vixens, or bitches, black female celebrities navigate a tumultuous terrain in popular culture. This course explores the stereotypes that black female celebrities such as Oprah, Rihanna, Nicki Minaj, Beyoncé, Janet Jackson, and Michelle Obama negotiate womanhood and sexuality, and the popular landscapes through which we witness that negotiation. It also engages contemporary black feminism's scholarship on how most frequently presents the presentation of black female bodies in popular media forms as exploitive. We will review historical stereotypes of black women in popular media forms, discuss the history of the “politics of representation” within black culture, engage black feminist responses to these types, and examine theoretical approaches to assess social constructions of womanhood and sexuality. We will also consider provocative questions relevant to discussions of contemporary black sexual politics. Should we view these women as feminists? Are they merely representative of cultural commodification and control of black women’s bodies? Do these women best exemplify the reiteratation of problematic characterizations? Are they positive models for demonstrating female empowerment, agency, or “femineness”? This course explores the histories of representation of black female figures in popular culture, and in so doing, troubles contemporary considerations of black womanhood and sexuality.

Class Format: Seminar

Requirements/Evaluation: Evaluation will be based on attendance/participation, short response papers, and a mid-term and final portfolio.

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: None

INR 321(W)arching Black: Race & Social Media in the 21st Century

The 21st Century ushered in new and exciting ways for people to communicate digitally. With the creation of social media outlets like Facebook, Twitter, Instagram, and more recently Vine, connecting with the world is literally one click, or selfie away. Though much of the attention around social media is focused on people with race and educational privilege, people of color have created their own spaces to curate, articulate, and produce culture. Through the methods of rhetorical criticism, critical discourse analysis, cultural criticism and ethnography, we will investigate the ways African American culture, specifically in the United States, utilize social media to shape community and influence popular culture. This course will give students hands-on experience analyzing various texts, and a deeper understanding of rhetorical methodologies.

Class Format: Seminar

Requirements/Evaluation: Evaluation will be based upon class participation, response papers, and a final research project.

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: None

Enrollment Limit: 20

Expected Class Size: 20

AFR 323(S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora

Crosslistings: AFR 323/AMST 323/ARTH 223/COMP 322/ENGL 356

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as Jeremy Love’s Bayou and Ho Che Anderson’s King: A Comic Biography, this course illustrates and critiques multiple ways the graphic novel can tell stories that are not only a form of entertainment, but also serves as a cultural artifact. Students will learn to read and appreciate the visual language of graphic novels and comic strips, with the help of critical essays, reviews and film; the chosen texts will center on African American culture, prompting students to consider how the graphic novel may act as a useful alternate history for the study of American culture and social history. Students will keep a journal with images, themes and reflections and will use Comic Life software and ipads to create their own graphic short stories based on historical and/or autobiographical narratives.

Class Format: Seminar

Requirements/Evaluation: Evaluation will be based upon class participation, weekly written responses, student-led facilitation, one 3-page graphic analysis, one 8- to 8-page essay, and a final project (producing a graphic story about how they would like to see the world).

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: None

Enrollment Preferences: None

Enrollment Limit: 19

Expected Class Size: 15

AFR 330 Modern Folklore: Postcolonial Dance and Music in Africa 
Crosslistings: DANC 330/MUS 330/AFR 330
"Folklore is a mixture of traditions, poems, songs, dances and legends of the people, and no more than the reflection of the life of the country and if that country develops, there is no reason why the folklore which is the living expression, should not develop as well. Modern folklore in present Africa is as authentic as the African of old." —Keita Fodeba, founding Artistic Director of Les Ballet African, Guinea, West Africa. This course will involve intensive dance and music immersion into new forms of music and dance or modern folklore.
Class Format: studio
Requirements/Evaluation: student progress with music and dance material taught, quality of assigned short papers, papers on research and performance midterm and final projects
Enrollment Preferences: Any of the following courses offers students preparation or experience DANC 100, 201, 202, MUS 111, 117, 120, 211, 222, 233; AFR 193, 200, 223, expected Class Size: 10

AFR 332 A History of Family in Africa (D) (W)
Crosslistings: HIST 402/AFR 332/GBST 402/WGSS 400
The family is the center of private life, but it has also been a topic of constant discussion and contention in Africa. In this class we will examine how political upheavals and economic pressures have changed the concept of the family and the role it plays in various African societies. We will also consider the changing views of gender, race, age, class, and sexuality on the idea of family.
Class Format: seminar
Requirements/Evaluation: seminar, discussion, exam, research paper. Weekly class format: discussion and work on assignments.
Expected Class Size: 15

AFR 333 New Asian American, African American, Native American, and Latina/o Writing (D) 
Crosslistings: AMST 403/COMP 375/ENGL 375/AFR 333/LATS 403
Critics reading minority writing often focus on its thematic—i.e., sociological—content. Such literature is usually presumed to be inseparable from the "identity" body of the writer and read as autobiographical, ethnographic, representational, exotic. At the other end of the spectrum, avant-garde writing is seen to concern itself "purely" with formal questions, divorced from the socio-historical (and certainly not sullied by the taint of race). In the critical realm we live in, which "race" is opposed to the "avant-garde," an experimental minority writer can indeed seem an oxymoron. In this class we will closely read recent work by Asian American, African American, Native American and Latina/o writers which challenges preconceptions about ethnic literature, avant-garde writing, genre categorization, among other things. The writing done by these mostly young, mostly urban, poets and fiction writers is some of the most exciting being written in the United States today; their texts push the boundaries of aesthetic form while simultaneously engaging questions of culture, politics, and history. Reading them forces us to re-think our received notions about literature. Authors to be read include Will Alexander, Sherwin Bitsui, Monicé de la Torre, Sesshu Foster, Renee Gladman, Bhanu Pandit, Tan Lin, Tao, E. Roberson, James Thomas Stevens, Roberto Tejada, and Edwin Torres.
Class Format: seminar/discussion
Requirements/Evaluation: evaluation will be based on either one 16-18 page seminar paper (one 7-8 pages and one 9-10 pages); short response papers; participation
Enrollment Preferences: those taking this as an ENGL class must have previously taken a 100-level ENGL course
Enrollment Limit: 15

AFR 334 Radical Theories of Political Struggle: Anti-Black Racism and the Obama Administration 
Crosslistings: INTR 334/AFR 334/PSCI 346
This seminar reviews contemporary theories of "anti-black racism": their artification or assimilation within current political movements and mobilizations; and the influence and impact such theories—expressed in new forms of political activism—have on the racial justice programs and civil rights policies of the Obama Administration. Legal theory, "Afro-pessimism," black feminist/queer theory are forms of radical thought shaping political discourse and influencing new advocacy formations (e.g. the Black Women’s Blue Print and #BlackLivesMatter); these new democracy advocates have in turn shaped the public rhetoric and policy initiatives of a black presidency as it grapples with multiculturalism and racial animus. Focusing on social and legal theory and the Obama Administration, this seminar uses the works of Hortense Spillers, Evelyn Harries, Toni Morrison as well as: Frank Wilderson’s Red, White and Black: Cinema and the Structure of US Antagonisms; Jared Sexton’s Amalgamation Schemes; Lewis Gordon’s Bad Faith and Anti-Black Racism; Saidiya Hartman’s Scenes of Subjection; Orlando Patterson’s Slavery; Dennis Beller’s Races at the Bottom of the World; Dennis Childs’s Slaves of the State; Assata Shakur’s Assata: An Autobiography; Cheryl Harris’s Whiteness as Property.
Class Format: seminar
Requirements/Evaluation: 1 research paper (50%); 2 presentations with summaries (40%); active engagement in class discussions (10%); Weekly student presentations consist of 15 minutes of analysis with written summaries and Q/A
Expected Class Size: 15

AFR 336 Blackness, Theater, Theatricality (D) 
Crosslistings: ENGL 316/AFR 336
Representations of African American life have pervaded the various genres and layers of American culture, embodying a carnival of competing attitudes and perspectives. Many oddities and ironies result from this curious history. For example, African Americans as theatrical figures enter American consciousness via the minstrel stage, where white entertainers wearing burnt cork and champagne nose themselves as black to amuse white audiences. Black performers created their own versions of minstrelsy, black playwrights created dramas more sympathetic to black life, and representations of black life proliferated in every noteworthy medium. This course will consider how attitudes about blackness have informed or deformed theatrical representations of African American life. It will examine major texts by African American writers, considering both their social importance and their aesthetic experiences and innovations. It will range from politically oriented works of James Baldwin and Richard Pryor to more radical analyses of the civil rights movements of the 1960s and 1970s. Alongside these, we will also consider a variety of comic traditions, ranging from minstrelsy to Spike Lee’s film Bamboozled and characters created by comedians such as Jackie “Moms” Mabley and Richard Pryor. And how should we assess Porgy, a play by the white writer Du Bois Heyward, which evolved into America’s greatest opera, Porgy and Bess? This course will be an ongoing inquiry into the riotous...
Africana Religious Studies. This background will inform the second and subsequent cleavages in political thought and allegiances among their respective adherents will be addressed, along with various other core issues including: the relationship between race, nation, and empire; transnationalism; the meaning of power; notional citizenship; the limitations of understanding Garveyism through the phrase “Back-to-Africa”; the moral philosophy of respect, reparation, and redistribution; prophetic political theory; Pan-Africanism; the impact of Garveyism on political theological movements such as the Nation of Islam; and its relationship to the slave trade, to the slave trade, to slavery, early modern Jesuits related it to the system of European estates, and since the nineteenth century, anti-caste radicals from Dalit, or “untouchable,” backgrounds have drawn a sustained comparison between the forms of oppression they face and those with which African Americans contend in the United States. Reciprocally, thinkers from W.E.B. DuBois to Frantz Fanon have made the category of refusing to do so? In this seminar we will acquire a thorough grounding in the anthropological literature on caste and then investigate the politics of the caste-race comparison over the last hundred years. Assignments include a 10-page research paper, but not available for the fifth course option.

Distributional Requirements: Division 2, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: Joel Lee

AFR 342 Racial Capitalism
Crosslistings: AFR 342/AMST 342
This class will interrogate the ways in which capitalist economies have “always and everywhere” relied upon forms of racial domination and exclusion. Although the United States will be in the foreground, the subject really is international, and one could consider the ways in which capitalist economies have undermined the potential for unified movements of poor and working people to challenge the prerogatives of wealthy citizens, and served to excuse imperial violence waged in the name of securing resources and “opening markets”. Ideas about gender and sexuality always undergird racial imaginaries, so we will study, for instance, the ways rhetoric about “welfare queens” has impacted public assistance programs, and claims about the embodiment of Asian women play into the international division of labor. We will also be attuned to the means - from interracial unionism to national liberation struggles - by which subjects of racial capitalism have resisted its dehumanizing effects. This is a reading intensive course that will challenge students to synthesize historical knowledge with concepts drawn from scholars working in the traditions of Marxist, decolonial, and materialist feminist thought, including: Angela Davis, Cedric Robinson, Anibal Quijano, Chandra Mohanty, David Roediger, Stuart Hall, Ruth Wilson Gilmore, and Silvia Federici.

Class Format: seminar
Requirements/Evaluation: weekly postings; not available for the fifth course option.
Prerequisites: none

SEM Instructor: Andrew Cornell

AFR 343T(S) Representations of Racial-Sexual Violence from Enslavement to Emancipation (D) (W)
Crosslistings: INTR 343/WGSS 343/AFR 343/AMST 343
This tutorial examines representations of violence and resistance to racial-sexual violence in American society, from colonial America to contemporary US culture. Interdisciplinary texts cover history, politics, literature, film, feminist studies, American studies, LGBTQ and ethnic/black studies. Books include Southern Horizons: Intimate Matters; Trauma and Recovery; The Delectable Negro; At the Dark End of the Street; films include Birth of a Nation; Bush Mama; To Kill a Mockingbird. The primary focus is on racial and sexual vulnerability to violence and mobilization for freedom from the 18th-21st centuries.

Class Format: tutorial; students prepare primary and response papers and discuss their analyses and theories of social and interpersonal violence.
Requirements/Evaluation: weekly primary and response papers may not be taken on a pass/fail basis; not available for the fifth course option.
Prerequisites: permission of instructor required
Enrollment Preferences: permission of Instructor is required; preference given to juniors and seniors
Enrollment Limit: 10
Expected Class Size: 8

AFR 346 History of Modern Brazil (D)
Crosslistings: HIST 245/AFR 346

Brazil has been “the country of the future” far longer than it has been an independent nation. Although after European domination, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often lent a booster-ish quality to its descriptions of the country, it has also brought ambiguity—for if the label suggests Brazil’s potential, it also underlines the country’s failure to live up to it.

“country of the future” must be as much a troubling as a cheering designation. This course will examine the modern history of that country of the future by taking up major themes from independence to the present. Beginning with what was by Latin American standards an easy transition from colony to independent empire, we will analyze the hierarchies that have characterized Brazilian society and their relation to the political and economic evolution of the Brazilian nation-state. The course will give particular attention to the themes of race, gender, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations. Combining cultural, political, and social analyses, this course fulfills the Exploring Diversity initiative requirement by examining a range of written texts and other sources to understand these and other themes in the lives of Brazilians of different social identities and political standpoints since Independence.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, two short papers, and a final exam
Prerequisites: none; open to first-year students with instructors permission
Enrollment Limit: 40

AFR 348(T) The Black Radical Tradition (W)
Crosslistings: AFR 348/LEAD 348/PSCI 348

The black radical tradition is a modern tradition of thought and action begun after transatlantic slavery’s advent. Contemporary social science and the humanities overwhelmingly portray it as a critique of black politics in the latter’s liberal, libertarian, and conservative forms. This tutorial unsettles that framing, first by situating the black radical tradition as a species of black politics, and second through expanding the boundaries of black politics beyond the United States. Central to the black radical tradition’s architecture are inquiries into the concepts of freedom, race, equality, rights, and humanism; meaning of “radical”; the national-transnational relationship; notions of leadership; status of global capitalism; the nexus of theory and practice; and revolutionary politics. We will begin with examinations of these central notions and debates, and then move to investigations of the political thought of four key late modern Afro-Caribbean and African-American thinkers within the tradition: Walter Rodney, Sylvia Wynter, Cedric Robinson, and Angela Davis.

Class Format: tutorial
Requirements/Evaluation: attendance; five 5-page essays, five 2-page critiques, and one 1-page essay for the final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none; open to all

AFR 350 Organizing Resistance: Black Activism, Then and Now (D)

This Africana class will be an experiential learning class designed both to study and to do activism as a way of learning how to be effective organizers in the Black world today. Our study component will focus on important past organizations and movements—Fannie Lou Hamer and the organizing of the Mississippi Freedom Summer and “Freedom Democrats” challenge to the Democratic Party, The Student Non-Violent Coordinating Committee, The National Welfare Rights Organization, The Poor People’s Budget, The Free Breakfast Program of the Black Panther Party—under the eye towards understanding how they actually organized and determining their successes and failure. The activism component of the class will include work in Pittsfield and/or Albany—with immigrant rights groups, prison rights organizations, educational enterprises—and we will take a Spring break activism trip (for one of our two weeks off), either to Ferguson, Missouri, or to Florida to continue work on environmental justice already in place via Africanza WS 25. We will also be exploring organizing activism, especially interrelationships to the growing activism against police and other racist violence in Ferguson, Missouri, Sanford, Florida, Oakland, California and New York City. This Africana Studies course is an EDI course focusing on the experiences and expressions of the culturally diverse peoples of African descent in the United States, as well as the myriad ways in which they confront, negotiate, and resist at times challenging U.S. hierarchies of race, culture, gender, and class.

Class Format: seminar
Requirements/Evaluation: two short 5-page papers; final portfolio and/or final paper; class participation
Prerequisites: none
Enrollment Preferences: Africana Studies concentrators;
Enrollment Limit: 10

Not Offered Academic Year 2018

AFR 354 Black Literary and Cultural Theories
Crosslistings: AMST 410/COMP 410/ENGL 410/AFR 354

This course will examine the writings of black twentieth- and twenty-first-century Anglophone and Francophone literary and cultural theorists in the African diaspora. We will begin with Sojourner Truth and W.E.B. Du Bois and end with current debates between the "Afro-Pessimists" and "Afro-Optimists." We will be reading writers from the United States, Britain, Africa, the Caribbean, and Europe, moving through the writings of the Harlem Renaissance, Négritude, Pan-Africanism, the Black Arts movement and Black Panthers, the Black Atlantic, and black feminism and queer studies. We will come to see that there is no easy separation between questions of politics (e.g., anti-colonialist, anti-racist, anti-capitalist) and those of aesthetics and politics.

Class Format: seminar
Requirements/Evaluation: midterm, participation (attendance, discussions, GLOW posts), short paper (4-5 pp.), two response papers (2-3 pp. papers), final project (10-12 pp.).
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: AMST majors
Enrollment Limit: 15
Expected Class Size: 10
Distribution Notes: meets Division 2 requirement if registration is under AMST or AFR, meets Division 1 requirement if registration is under COMP or ENGL

AFR 355 The Black Atlantic as Scriptural Formation
Crosslistings: REL 305/AFR 355

**“I don’t read such small stuff as letters, I read men and nations...” The unpacking of this provocative and unsettling statement ascribed to Sojourner...**
Truth can be taken as a springboard for this seminar that explores the politics of the scriptural (or writing) as analytical window onto the complex formation of the circum-Black Atlantic (and its complex relationships to colonial and post-colonial Atlantic worlds). The isolation of selected Black Atlantic readings as cultural sites, rituals, performances, institutions, as different and conflicting types of politics and social orientation—from first contacts through slavery to the contemporary irruptions of protest and fundamentalist movements—will structure the seminar.

**Class Format:** seminar-style discussion

**Requirements/Evaluation:** consistent participation (informed by engagement of selected readings); and submission of mid-term prospectus (1-2pp) and end-of-term research paper (15-20pp)

**Enrollment Preferences:** religion; African American (and other American ethnic groups); cultural studies; history; literature; social sciences

**Enrollment Limit:** 19

**Expected Class Size:** 10

**Distributional Requirements:** Division 2 Not Offered Academic Year 2018

**SEM Instructor:** Vincent Wimbush

**AFR 356(F) The Plantation and Its Afterlife**

This course is an advanced seminar devoted to a comprehensive examination of Fanon and end by considering how Fanon has been interpreted by his contemporaries as well as activists and critical theorists writing today.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based upon attendance and participation, weekly online reading response papers, a class presentation, and a 20-page final research paper

**Extra Info:** may not be taken on a pass/fail basis

**Enrollment Preferences:** none

**Enrollment Limit:** Africana Studies concentrators, Leadership Studies concentrators, and Political Science majors

**Expected Class Size:** 10

**Distributional Requirements:** Division 2, Writing Intensive

**Fall 2017**

**SEM Section:** 01 MR 01:10 PM 02:25 PM Instructor: Neil Roberts

**AFR 362 Race and Abstraction**

**Crosslistings:** AMST 465/AFR 362/COMP 465/ENGL 326

Minority artists—writers and visual artists mainly and, to a lesser degree, musicians—face a difficult "double bind" when creating works of art: the expectation is that they, like their racialized marked bodies, will exhibit their difference by means of concrete signifiers (details, tropes, narratives, themes) of racial difference. Thus, the work is judged primarily in terms of its embodied sociological content (material, empirical) and not by "abstract" standards of aesthetic subtlety, philosophical sophistication, and so on. At the same time, in the popular and academic imaginary, minority subjects and artists/poets occupy a single abstract signifying category—homogenously, undifferentiated, "other," "non-universal"—while racially "unmarked" (white) artists occupy the position of being universal and individual at once. The irony, of course, is that, say, an African American poet's being read as an abstract signifier does not mean that the black, subject or writer is seen as capable of engaging in abstract ideas. This course will ask questions about the problem of race and abstraction by looking at the work of various African American and Asian American writers, visual artists and musicians—including Will Alexander, Mei-mei Benssenbrugge, David Hammons, Yayoi Kusama, Tan Lin, Nathaniel Mackey, and Cecil Taylor—as well as critics. We will pay particular attention to formally experimental works. This course will ask questions about the problem of race and abstraction by looking at the work of various African American and Asian American writers, visual artists and musicians—including Will Alexander, John Keene, Mei-mei Benssenbrugge, John Yau, Cecil Taylor, David Hammons, and Yoko Ono—as well as critics. We will pay particular attention to formally experimental works.

**Class Format:** seminar

**Requirements/Evaluation:** two papers (one 6-8 pages and the other 10-12 pages), in-class presentation, brief response papers, and class participation

**Prerequisites:** none if registering under AMST, AFR, or COMP, though a previous lit, art or music class would be helpful; if registering under ENGL, 100-level ENGL course, or 5 on AP English Lit exam or 6 or 7 on the Higher Level IB English exam required

**Enrollment Limit:** 13

**Expected Class Size:** 13

**Distribute Notes:** meets Division 1 requirement if registration is under ENGL or COMP; meets Division 2 requirement if registration is under AFR or AMST

**OtherAttributes:** AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, AMST 400-level Senior Seminars Not Offered Academic Year 2018

**SEM Instructor:** Dorothy Wang

**AFR 364(F) History of the Old South**

**Crosslistings:** HIST 364/AFR 364/AMST 364

During the course of the semester, we will investigate two broad, interrelated topics: slavery in the antebellum South, and the impact of slavery on Southern civilization. Our approach will be primarily topical. In the first half of the course, we shall look at subjects like the foreign and domestic slave trade, the economic forms of work and treatment, the nature of the master-slave relationship, resistance and rebellion, and slave cultural, social, and family life. The second half of the course will concentrate on the influence of the institution of slavery on the mind, social structure, and economy of the Old South, and its slavery's impact on Southern politics and the decision for secession in 1860-61.

**Class Format:** discussion

**Requirements/Evaluation:** evaluation based on class participation, two papers of moderate length, and a comprehensive final examination

**Prerequisites:** none; open to first-year students with instructor's permission

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 2

**OtherAttributes:** AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Space and Place Electives, HIST Group F Electives - U.S. + Canada, HIST Group F Electives - Premodern

**Fall 2017**

**LEC Section:** 01 TF 02:35 PM 03:50 PM Instructor: Charles Dew

**AFR 365(S) History of the New South**

**Crosslistings:** HIST 365/AFR 365/AMST 365

A study of the history of the American South from 1877 to the present. Social,
political and economic trends will be examined in some detail: the rule of the "Redeemers" following the end of Reconstruction; tenancy, sharecropping, and the rise of agrarian radicalism; Southern Progressivism; the coming of racial segregation and the destruction of the Jim Crow system during the years of the Civil Rights movement; Southern politics during the depression and post-World War II years.

Class Format: discussion
Requirements/Evaluation: evaluation based on class participation, 2 papers of moderate length, and a comprehensive final examination
Prerequisites: none; open to first-year students with instructor's permission
Enrollment Limit: 25
Expected Class Size: 25

AFR 366 African American Urban History
Crosslistings: HIST 370/AFR 366
In the mid-twentieth century, "inner city" became synonymous with poor African Americans living in urban centers of the industrial North and West. However, urban African American history stretches back to before the Declaration of Independence. African Americans built and dwelled in great cities North and South. This course will explore the history of African Americans in places like New York, Savannah, Chicago, Miami, and Oakland. We will explore such themes as slavery and freedom in cities, migrations to cities in the early 20th century, the shape of Jim Crow in the North, and the contention over the definition of "black" as Caribbean and African migration came to urban centers after 1960. We will pay particular attention to the history of black urban culture and style, reading texts on fashion, music, dance, and leisure. Students will write one book review (2-3 pages), do an oral presentation, and write two papers. One brief research paper (7-10 pages) and one historiographic essay (7-10 pages).

Class Format: seminar
Requirements/Evaluation: one short book review, one brief research project (7-10 pages), and one historiographic essay
Prerequisites: none
Enrollment Preferences: African Studies concentrators and History majors
Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: AMST Space and Place Electives, HIST Group F Electives - U.S. + Canada
Not Offered Academic Year 2018

AFR 369T African Art and the Western Museum (D) (W)
Crosslistings: ARTH 308/AFR 369
Provides a focused study of the issues associated with the exhibition of African objects within Western institutions from the formative period of the practice in the early 19th century to the modern era. Covering topics ranging from early collection and display methodologies to exhibition-based practice in the contemporary digital era, this tutorial will provide an opportunity for robust discussion about the interactions that have occurred between the arts of Africa and the Western museum over the lengthy history of their engagement. Students will investigate the nature of the cross-cultural dialogues taking place between the politics of display at work in regional museum spaces that display African art towards fleshing out how exhibitions function through the strategic organization and display of objects. In other words, students will explore how the dialogues created between objects and individuals often speak to the voices and agendas that collide, compete, and even compete with each other within the environment of the museum. This tutorial fulfills EDI requirements through its exploration of issues of so-called 'authentic' representation, cultural capital, rights of seeing, the politics of representation, and the meaning of art as it applies to African artifacts displayed within the context of a Western art museum.

Class Format: tutorial
Requirements/Evaluation: field trips to area museums, weekly targeted writing assignments, 4 to 5 pages in length, bi-monthly peer response papers (2 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: seniors and majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under AFR
Other Attributes: ARTH post-1600 Courses
Not Offered Academic Year 2018
TUT Instructor: Michelle Apotosos

AFR 371 Women Activists and Social Movements
Crosslistings: INTL 371/AFR 371/PSCI 371/WGSS 370
This seminar examines the role of women in "liberation movements," it focuses on their contributions to civil and human rights, democratic culture, and theories of political and social change. Students will examine multi-disciplinary texts, such as academic historical narratives, memoirs, political analyses, in critical and comparative readings of mid-late 20th century struggles. Women studied include: Mamie Till Mobley, Anne Moody, Ella Baker, Gloria Steinem, Angela Davis, Bettina Aptheker, Assata Shakur, Yuri Kochiyama, Denise Oliver, Domitilia Chugnara.

Class Format: seminar
Requirements/Evaluation: attendance and participation in discussions (10%); collective/group report (30%); 15-20 page double spaced research paper (60%)
Enrollment Preferences: seniors and juniors, or sophomores with permission of instructor
Enrollment Limit: 19
Expected Class Size: 19
Materials/Lab Fee: $20
Distributional Requirements: Division 2
Not Offered Academic Year 2018

AFR 373 Going to Ground: Considering Earth in the Arts of Africa (D) (W)
Crosslistings: ARTH 419/AFR 373/ENVI 419
Drawing its inspiration from the landmark exhibition Earth Matters: Land as Material and Metaphor in the Arts of Africa (National Museum of African Art, 2013), this seminar explores how earth has been conceptualized and integrated into African artistic thought as material, metaphor, geography, environment, and intervention, and how this interpretive flexibility has allowed it to become a symbol of power and presence in African art-making from prehistory to the present. The seminar will also focus on the ways in which earth has been used in contemporary art towards addressing the growing problems of pollution, unsustainable development, and the widespread depletion of Earth's natural resources in Africa. Over the course of this seminar, students will develop awareness of the myriad Earth-related issues that have been addressed in African artistic production, and engage with various cross-disciplinary methodologies to critically analyze the conceptual and aesthetic strategies deployed in these works. Students will also have the opportunity to interact with specialists from diverse disciplines and fields towards fleshing out their knowledge base. This course fulfills EDI requirements through its exploration of the effects of globalization and modernization on the African natural environment, and its integration of diverse cultural legacies, socio-political systems, and economic realities on the continent as contributors to art-making strategies deployed by contemporary African environmental artists. Students will also explore the ways in which African artists have internalized the various conditions and situations of their contexts as individuals defined by gender, sexual orientation, religious affiliation, etc. as well as members of distinctive cultures and communities.

Class Format: seminar
Requirements/Evaluation: 2-page reading response papers, 2-page paper proposal, draft and final paper (15 pages) with presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: some coursework in ARTH and/or AFR would be useful
Enrollment Preferences: seniors and majors
Enrollment Limit: 19
Expected Class Size: 19
Distribution Notes: meets Division 1 requirement if registration is under ARTH or ENVI; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Other Attributes: ARTH post-1600 Courses, GBST African Studies Electives
Not Offered Academic Year 2018
SEM Instructor: Michelle Apotosos

AFR 375 History of American Childhood (D)
Crosslistings: HIST 375/AFR 375
Over the course of American history both the experience of childhood and our understandings of childhood have changed radically. Children have been bought and sold as slaves, hanged as convicted witches, and purchased slaves themselves. A century ago many children were sent "out to work" at ages that our so-called childhood never defines as too young even to be left alone in the house. Common experiences of modern middle-class American childhood— summer camp, secondary school, and organized youth sports teams—are recent additions to American life. Through reading works of history and autobiography we will explore American childhood and what attitudes toward specific groups of children reveals about American society. This course is an EDI course; as such, we will consistently study groups of children that differ by race and class. In addition, we will interrogate the category of childhood and debate its universality and usefulness. Does the experience of childhood help to "unify" diverse groups of people?

Class Format: lecture/discussion
Requirements/Evaluation: students will be required to write three papers and be expected to contribute actively to class discussion
Prerequisites: none; open to first-year students with instructor's permission
Enrollment Preferences: determined by instructor
Enrollment Limit: 25
Expected Class Size: 20-25
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: HIST Group F Electives - U.S. + Canada
Not Offered Academic Year 2018

AFR 379 Black Women in the United States (D)
Crosslistings: HIST 379/AFR 379/WGSS 379

As slaves and free women, activists, domestics, artists and writers, African Americans have played exciting and often unexpected roles in U.S. political, social, and cultural history. In this course we will examine black women’s lives from the earliest importation of slaves from Africa and the Caribbean through to the expansion of slavery, the Civil War, freedom, Jim Crow, the Civil Rights movements, and up to the present day. Consistent themes we will explore are the significance of gender in African American history and the changing roles and public perceptions of black women both inside and outside the black community. We will read and discuss a combination of primary and secondary sources; we will also consider music, art, and literature, as well as more standard “historical” texts. This course meets the requirements of the Exploring Diversity Initiative in that it focuses on empathetic understanding, power and privilege, especially in relation to class, gender, and race within a U.S. context.

Class Format: discussion
Requirements/Evaluation: evaluation will be based on student participation, three papers, and a brief oral presentation
Prerequisites: none
Enrollment Preferences: History majors and African Studies concentrators
Enrollment Limit: 15
Expected Class Size: 15-20
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: AMST Space and Place Electives, HIST Group F Electives - U.S. + Canada, WGSS Racial Sexual + Cultural Diversity Courses
Not Offered Academic Year 2018

AFR 380(S) Freedom Dreams, Afro-Futures & Visionary Fictions (D)

Crosslistings: WGSS 380/ENGL 381/AFR 380/AMST 380

This course examines the various ways Black scholars, artists, & writers use science fiction and visionary fiction to imagine freedom and new world orders. We will focus on the role of history, particularly slavery, in the Black radical imagination. “Freedom” is the keyword throughout the course. We will grapple with the various and sometimes conflicting meanings and uses of freedom as it relates to blackness, gender, sexuality, class and ability. We will explore multiple forms of scholarship and cultural productions including film, music, hip hop, short-stories, art, poetry, and other academic texts. All students will be asked to discover and develop their writerly voices through various critical, creative, experimental and performative assignments.

Class Format: seminar
Requirements/Evaluation: active participation, completion of various short assignments, one 5-page paper and one 7- to 10-page final paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Women’s, Gender and Sexuality Studies majors, then African Studies concentrators
Enrollment Limit: 20
Expected Class Size: 20
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: WGSS Racial Sexual + Cultural Diversity Courses Spring 2018

AFR 383(S) Race and Ethnicity in Latin America (D)

Crosslistings: HIST 443/AFR 383

Race and ethnicity have been central to the formation of national identities in Latin America, as well as to the creation of transnational networks that include Latin American diasporas. This seminar will critically consider Latin American racializations of Brazil and other countries as “racial democracies” and look at the historical roots and political impact of both “positive” and “negative” stereotypes of race relations in the region. To do this we will explore the rise and decline of slavery, the changing constructions of indigenous and Afro-Latin American identities at national and transnational levels, and to the emergence of new Black Movements and other racial and ethnic activism in Colombia, Guatemala, Brazil, and elsewhere.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, one short paper, and a substantial (20-25 page) research paper
Enrollment Preferences: History majors and Latino/a Studies concentrators
Enrollment Limit: 10
Expected Class Size: 10-15
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora, HIST Group D Electives - Latin America + Caribbean Spring 2018

AFR 385(F) Civil War and Reconstruction

Crosslistings: HIST 456/AFR 385/AMST 456

An examination of one of the most turbulent periods in American history, with special emphasis on the changing status of Afro-Americans during the era. During the war years, we shall study both the war itself and homefront conditions: military, naval, political, economic, and especially social aspects will be examined in some detail. Our study of Reconstruction will concentrate on the evolution of federal policy toward the Southern states and the workings out of that policy in the South, particularly as it relates to the freedmen.

Class Format: seminar
Requirements/Evaluation: evaluation based on class participation and a substantial research paper based at least in part on primary source materials
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2
Other Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora, HIST Group F Electives - U.S. + Canada

AFR 390 Transforming the New World and the Old: The Haitian and French Revolutions (D)

Crosslistings: HIST 390/AFR 390

This course focuses on the radical transformative power of the Haitian and French Revolutions, the ways in which they challenged the hierarchies of the New World—of racism, and slavery—and of the Old World—of monarchy, the Church, aristocracy, the bourgeoisie—with long-lasting effect. It will show how the two revolutions were intricately interrelated—even though historians of the French Revolution have usually neglected the Haitian Revolution and downplayed its centrality—and how they initiated a century of Revolutionary dynamics on both sides of the Atlantic. Given the incomplete and unfinished character of the French Revolution and the Haitian Revolution, and how the two revolutions were intricately interrelated, this class will make a conscious attempt to show the ongoing relevance of these Revolutions to 21st century movements for change. This African Studies course meets the EDI requirement because it explores the experiences and expressions of the culturally diverse peoples of African descent in the New World, as well as the myriad ways in which they confronted, negotiated, and challenged the dominant U.S. and European hierarchies of race, culture, gender, and class.

Class Format: lecture
Requirements/Evaluation: short paper (8-10 pages), research paper (15 pages), final exam and class participation
Prerequisites: none
Enrollment Preferences: History majors and African Studies concentrators
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2, Exploring Diversity

Not Offered Academic Year 2018
SEM Instructor: Shanti Singham

AFR 392 Fictions of African-American History (W)

Crosslistings: HIST 482/AFR 392

This course examines the form and function of African-American narratives with particular attention to written texts pertaining to the enslavement and freedom of African Americans during the nineteenth and early twentieth centuries. We will explore the role of books, writing, and reading in the African American experience. African American authors have faced a long and difficult history as varied as Pan-Africanism, Nationalism, Classical Liberalism, Social Democracy, Marxism, Black Consciousness, Negritude and Gender theory, yet each participates in a tradition that has already faced, confronted, negotiated, and challenged the dominant U.S. and European hierarchies of race, culture, gender, and class. This course satisfies the Writing Intensive requirement.

Class Format: tutorial
Requirements/Evaluation: weekly paper or critique
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: History majors and African Studies concentrators
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 2, Writing Intensive

Not Offered Academic Year 2018
TUT Instructor: Gretchen Long

AFR 393 Freedom in Africa (W)

Crosslistings: HIST 483/AFR 393/GBST 483

This course examines the ideas of major figures in the progressive tradition of African political thought. This emancipatory tradition emerged in societies shaped by racial, cultural, and economic exploitation, forcing both African men and women to address questions of identity and political action. Most members of this tradition also considered the ways in which uneven power relations within African communities shaped the personal and political landscapes. The Africans we will examine in this course drew on resources as varied as Pan-Africanism, Nationalism, Classical Liberalism, Social Democracy, Marxism, Black Consciousness, Negritude and Gender theory, yet each participates in a tradition that has already faced, confronted, negotiated, and challenged the dominant U.S. and of being African.

Class Format: tutorial; students will meet with the instructor in pairs for an hour each week, a student either will write & present orally a 5- to 7-page essay on the assigned readings or be responsible for offering an oral critique of their partner’s work each week
AFR 405 CAPSTONE: Africana Studies and the Disciplines
Of the many things that distinguish Africana Studies from other fields of knowledge, perhaps most remarkable are its creative uses and techniques of disciplinary perspectives. In some instances, a scholar in the field might move between disciplines; in others, a scholar might integrate two or more disciplines into one point of view. Disciplinary creativity accommodates the array of information, written texts, music, visual art, film—that contributes to our understanding of the African Diaspora. This seminar will illuminate the disciplinary nuances and challenges of studying people of African descent. After outlining genealogies of Africana Studies and the field’s complicated relationships to social science disciplines, students will closely read classic texts by some of the pioneers in the field and explore their uses of disciplinary perspectives. In the latter half of the course, students will have the opportunity to design and conduct their own research projects with the aforementioned disciplinary concerns in mind.

Class Format: Seminar

Requirements/Evaluation: evaluation will be based upon class participation, a couple of short papers and the completion of a final research paper or project.

Prerequisites: none

Enrollment Preferences: Africana Studies concentrators

Enrollment Limit: 15

Expected Class Size: 10

Distributional Requirements: Division 2

AFR 406 CAPSTONE: Crafting Research: Methods in Africana Studies
Any student of Africana Studies swiftly recognizes there is a limitslessness breadth to what constitutes “Africana experience” and that there are diverse means through which Africana experience is examined. For example, while some scholars utilize a more historical approach to chronicle Africana experience, others study the black body via performance to unearth nuanced meanings of Africana experience. This capstone seminar will explore a variety of methods and strategies for crafting research within the field of Africana Studies. We will focus on approaches that derive from traditional disciplines as well as techniques that have emerged with the advent of dynamic new media and digital technologies. Some of the methodologies we will engage include: historiography; archival research; digital archiving; quantitative data analysis; ethnographic and qualitative analysis; critical textual analysis; reading the body as text and text as body; blackness and its representational and digital publishing; and evaluating films as text. Serving as a practicum, the course will provide considerable background in a variety of methods as well as hands-on learning. Students will have the opportunity to craft a final research project that is best explored through one or more of the methods we examine.

Class Format: Seminar

Requirements/Evaluation: evaluation will be based upon class participation, response papers, and a final research project.

Extra Info: may not be taken on a pass/fail basis

Prerequisites: none

Enrollment Preferences: Africana Studies concentrators

Enrollment Limit: 15

Expected Class Size: 10

SEM Instructor: Rhon Manigault-Bryant

AFR 440(S) CAPSTONE: Performing Blackness
In modern parlance and scholarship, blackness is understood not as a biological but rather a socially constructed phenomenon. This course extends common perceptions by working from the foundational concept that blackness is not only social construction but also performance and lived experience. Using the lens of performance on racial identity foregrounds the active and shifting nature of race in contrast to the potentially passive, static construction of color. But what is this term performance that is now so widely used as to be an anathema? In this course, we explore performance broadly as entertainment, representation, social function, and lived experience. By the end of the course, students will analyze multiple performance types from theatrical and dance performances to performance of race in everyday life. They will also study and practice at least four core black performance studies methodologies: oral interpretation of literature, ethnography, written performance analysis, and embodied performance (i.e. movement, music and/or theatre). In this way, students will begin to understand performance as both subject matter and method. The course will be structured around discussions, written responses, and performance exercises that help students analyze and practice each methodology. At the end of the semester, students will create final creative research projects that articulate key theories of black performance studies and draw on at least one of the featured performance methodologies. While preference is given to Africana Studies concentrators, students are not required to have prior performance experience.

Class Format: Seminar

Requirements/Evaluation: evaluation will be based on class participation, performance exercises, response papers, and a final creative research project.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Instructor: Rashida Braggs

AFR 444 The Black Republic—Haiti in History and Imagination (D)
Crosslistings: AFR 444/HIST 444

This senior Africana capstone course/History seminar explores the central role of Haiti in the American and the transnational pan-African imaginations. As home to the world’s only successful slave rebellion, Haiti has been a role model of tremendous importance, stimulating slave rebellions in America and throughout the Caribbean, playing an instrumental role in the liberation of the “Negroes from the Spaniards,” and inspiring decolonization movements in Africa and the Caribbean in the 20th century. Not surprisingly, it has had tumultuous relations with both its colonial occupier, France, and its most powerful neighbor, the United States. From isolation and sanctions, to occupation and U.S. supported dictatorship, this seminar traces the historical silencing suffered by Haiti at the hands of western historians, the vivid images Haitians evoke in the American imagination—from boat people and carriers of AIDS, to practitioners of voodoo and creators of a uniquely African-Caribbean art—and the role of the French and American governments in the recent coup against President Jean-Bertrand Aristide. Film, dance, literature, music, history, anthropology and religion will be explored in this interdisciplinary course, with an eye towards helping students produce an original work of their own as the final project. By examining Haiti’s fraught racial relations—particularly between Haitian blacks and mulattoes—and her early and unique black power movement—noirisme—this class fulfills the requirements of the Exploring Diversity Initiative.

Class Format: Seminar

Requirements/Evaluation: evaluation will be based on student participation, a short paper, and the completion of an original research paper or project.

Extra Info: all projects will have some written component, but may include a dance performance, spoken word, fieldwork etc.

Prerequisites: none

Enrollment Preferences: Africana Studies concentrators and History majors

Enrollment Limit: 15

SEM Instructor: Shanti Singham

AFR 476(F) CAPSTONE: Black Radicalism (D)
Crosslistings: AFR 476/HIST 476

Amandla! Black Power! Venceremos! A Luta Continua! Ever since the end of slavery—brought about by the Haitian Revolution, slave rebellions, maroons, Quilombos, Civil War and various other means of resistance—transatlantic people of African descent have demanded radical change in the organization of modern societies. Their struggles and ideas have changed the ways we think and study—through the formation of African/African-American/Black-Studies and the ways in which we express ideas—through the creation of rich traditions of music, dance, theater, poetry, carnivals, sculpture, and art that have acted as global conduits of cultures of resistance. In this Senior Seminar, we will study the most tumultuous period of Black radicalism in the 1960’s, focusing on the Black Panther Party, the League of Revolutionary Black Workers, the Third World Women’s Alliance, Bob Marley, and the Caribbean and African radical movements, with an eye to examining their relevance to Black radical movements today.

Class Format: Seminar

Requirements/Evaluation: evaluation to be based on student participation, a take-home mid-term paper, and the completion of an original research paper or project; all projects will have some written component, but may include a dance performance, spoken word, fieldwork, etc.

Extra Info: may not be taken on a pass/fail basis

We will have a number of shared class/discussions w/ Mt. Holyoke’s Africana Senior Seminar via video-skyeye; the class will visit Mt. Holyoke, & we will host a visit from the Mt. Holyoke seminar, organized around speakers, readings, and musical guests.

Prerequisites: none; open to all

AMERICAN STUDIES (DIV II)
Chair: Professor MARK REINHARDT

Professors: L. JOHNSON*, M. REINHARDT, M. RUJA, D. L. SMITH. Associate Professors: D. WANG*. Visiting Assistant Professor: A. CORNELL. Senior Lecturer: C. CLEGHORN. Affiliated Faculty: Associate Professor: M. E. CEPEDA**. Associate Professors: R. BRAGGS, N. HOWE, Bolin Fellow: T. ROGERS.

GENERAL PROGRAM DESCRIPTION

The American Studies Program, an eleven-course major, uses interdisciplinary approaches to develop students’ understanding of the complexity of the culture(s) usually labeled “American.” Examining history, literature, visual media, performance, and other forms of expression, we explore the processes of cultural definition as contested by diverse individuals and groups. We ask new questions about aspects of American life long taken for granted; we also use American culture as a laboratory for testing classic and contemporary theories about how cultures work.

NON-MAJORS, FIRST-YEAR STUDENTS, AND SOPHOMORES

America: the Nation and Its Discontents, our introductory course, is open to non-majors including first-year students, who are especially encouraged to take the class. All elective courses are open to students who meet the requirements or prerequisites specified in the course description. American Studies 301, the junior seminar required of majors, is open to non-majors with permission of the instructor.

COURSES AND COURSE NUMBERING

American Studies offers courses at all levels. Our 100-level electives, which give preference to first-year students, explore a substantive topic in depth without seeking to introduce the field as a whole. Our introductory course, AMST 101, explores broad patterns of power and imagination, struggle and social change in American culture but also introduces the interdisciplinary approach and diverse cultural artifacts, genres, and media that distinguish American Studies as a form of inquiry. Both this course and our occasional 200-level electives are appropriate for students at all levels, including first-years. The intermediate electives at the 300-level are offered primarily for juniors and seniors, although space and instructor policy permits, they are open to sophomores. All majors are required to take AMST 301, the junior seminar, which teaches students how to employ theories and methods central to the field. The 400-level courses designated as senior seminars are designed for seniors, though other students (majors and non-majors) with appropriate preparation are typically welcome in these courses as well.

THE MAJOR

Required Courses
American Studies 101, America: the Nation and Its Discontents
American Studies 301, Junior Seminar

One 400-level course designated Senior Seminar

Elective courses:
Eight courses: five should be chosen from one of the specializations listed below, the other three chosen from among any of the electives listed, but students must draw their remaining courses from two of the other specializations. Students are also required to take at least one course covering pre-1900 American history or culture; this need not be an additional course, but can be one of the eight electives.

THE DEGREE WITH HONORS IN AMERICAN STUDIES

Candidates for honors in American Studies will undertake a substantial, year-long, independent project during their senior year. Applicants should have a consistent record of high achievement in courses taken for the major, and normally will have done work in the field of study of their proposed thesis. Students who wish to write or produce an honors project should consult with a prospective faculty advisor in their junior year. Formal application to pursue honors should be made by the time of spring registration in the junior year. Students must submit a brief preliminary proposal describing the proposed project to the Chair of the American Studies Program at this time. Final admissions to the honors program will depend on the AMST advisory committee’s assessment of the qualifications of the student and the merits and feasibility of the project (including the availability of relevant faculty advisors). If the proposal is approved, the student will be permitted to register for AMST 491, W30, and AMST 492 the following year. The completed project is due in the final week of the spring semester. Each student will present a short oral presentation of their thesis at the end of the semester. Honors Theses count as one of the eleven courses required for the major.

ADVISORY

All majors will be assigned a faculty advisor. Majors must meet with their advisor during the first week of classes during the fall semester and at the time of the spring semester registration period in order to have their courses and plans for the American Studies major approved. Both majors and non-majors are encouraged to talk at any time with the program chair or other affiliated faculty about the major.

AMERICAN STUDIES AND OTHER PROGRAMS

Students majoring in American Studies are encouraged to consider pursuing concentrations in Africana Studies, Environmental Studies, Latina/o Studies, Performance Studies, and Women’s and Gender Studies. Many of the courses counted for those concentrations may also earn credit toward the American Studies major.

STUDY AWAY FROM WILLIAMS

We encourage students to pursue cross-cultural comparative studies. A major in American Studies can be combined with study away from Williams for a semester or a year if plans are made carefully. Many of the courses that will be approved for College credit may also count toward the American Studies major if their subject matter is American culture. Much of the required curriculum of the Williams at Mystic Program also counts toward the major.

Students planning to be away in the junior year should have taken American Studies 101 before they leave; those who can take the Junior Seminar before they go away are strongly encouraged to do so. Students should consult as early as possible with the chair or their advisor about their plans for fulfilling the requirements of the major.

SPECIALIZATION FIELDS

To provide focus for work in the major, each student will choose one of the specialization fields listed below and record this choice when registering for the major. (This commitment can be revised, in consultation with the chair.) At least five electives will be taken from among those designated to support a specialization field. In extraordinary cases, students who wish to do so may be permitted to design their own specialization field. All such arrangements must be approved by the American Studies Advisory Committee.

ARTS IN CONTEXT

This specialization is for students interested in American arts, literature and media. Its approaches are interdisciplinary: it trains students to examine cultural artifacts with attention to aesthetic form and to the contexts—historical, social, political—that determine and situate those forms. Broadly, it asks how history has shaped the arts and media and how the arts and media have shaped how we think and who we are. Students in this specialization take courses across a range of genres and media: poetry, fiction, music, film and video, pop culture, visual culture, performance, experimental and activist art.

Students may check with the program chair to see if other courses not listed here might count as electives.

Elective Courses

AFR 120/ENG 109/AMST 120 Science Fiction of the African Diaspora
AFR 129/ENG 129 Twentieth-Century Black Poets
AFR 156/COMP 156/AMST 156/ENGL 223 Thirteen Ways of Looking at Jazz
AFR 205/COMP 236/WGSS 207 The Color-Complex in Toni Morrison’s Writing
AFR 207 Hip-Hop and Political Theory
AFR 208/AMST 208/REL 262 Time and Blackness
AFR 220/ENG 220 Introduction to African American Literature
AFR 221 Giving God a Backbeat: Rap Music, Religion & Spirituality
AFR 336/ENG 316 Blackface, Blackness, Black Theatre, Blackly.
AFR 245/LATS 245/WGSS 247/ENG 245/CMP 249 Queering the Color Line
AFR 270 Digital Diaspora: Interrogating Race, New Media, and Black Cultural Production Online
AFR 299/PSCI 233/REL 261 Rastafari: Dread, Politics, Agency
AFR 300/AMST 300/SOC 306 Lessons of ‘The Game’: The Wire and American Culture
AFR 302 Complexion Complexities: Colorism in Literature, Lyrics & Everyday Life

42
AMST 101(F,S) America: the Nation and Its Discontents (D)
America is a bundle of myths and ideas, and being an American has always meant more than U.S. citizenship. This course is an introduction to the interdisciplinary study of American culture. We will focus on the workings of that culture as it has been shaped by factors such as race, ethnicity, class, gender, sexuality, place, and religion. Over the semester, we will ask critical questions of a wide variety of materials: essays, novels, autobiographies, poems, photographs, films, music, visual art, architecture, urban plans, historical documents and legal texts. In this course, we critique notions of American exceptionalism and grapple with questions of power and privilege, difference and commonality, this course satisfies the EDI requirement.

Class Format: seminar
Requirements/Evaluation: Fall—two or three essays (about 7 pages each); class participation; some sections may have additional short writing assignments or field trips; Spring—regular writing assignments, including revisions, for a total of 20+ pages; class participation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: sophomores and first-year students
Expected Class Size: 19
Distribution Notes: Spring section only carries the Writing Intensive designation
Distributional Requirements: Division 2, Exploring Diversity, (Spring section only - Writing Intensive )
Other Attributes: EXPE Experiential Education Courses
Fall 2017
SEM Section: 01 MR 01:10 PM 02:25 PM Instructor: Andrew Cornell
SEM Section: 02 MR 02:35 PM 03:50 PM Instructor: Andrew Cornell
Spring 2018
SEM Section: 01 TR 09:55 AM 11:10 AM Instructor: Cassandra Cleghorn
AMST 105(S) American Girlhoods (D) (W)
This course examines the girl's place in American society. It surveys a broad range of texts produced by writers from various Asian American ethnic groups—from the late nineteenth century to the present and contextualizes them historically, both domestically and globally. We will examine the material, cultural, political, and psychic intersections of larger structural forces with individual writers and texts. Along the way, we will interrogate the notion of "Asian American"—its contradictions, heterogeneous nature, and our assumptions—and its relation to the idea of "American." Some questions we will explore: Why have Asian Americans and Asian American writings and writing so often been viewed as 'foreign' or 'alien' to the American body politic and the English-language literary tradition? What might Asian American writing be linked to other English-language texts in the Asian diaspora?
Class Format: seminar
Requirements/Evaluation: six 2-3 pp. papers, participation (attendance, discussion, GLOW posts), and a final project (the final project is 7-9 pages: either a creative project or an analytical paper)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course; WGSS majors
Expected Class Size: 19
Distribution Notes: Division 1 requirement if registration is under ENGL; meets Division 2 requirement if registration is under AMST or WGSS
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Context Electives
Spring 2018
SEM Section: 01 TF 02:35 PM 03:50 PM Instructor: Kathryn Kent
AMST 106(F) Coming of Age in the City: Growing up and Growing Older in Communities of Color (D) (W)
This tutorial examines urban life in communities of color through the lens of aging. We will focus on the political and economic dimensions of cities that have deeply affected the daily collective lives of certain populations from childhood to elderhood, taking into account how age and race relations are highly differentiated by race, class, and gender. We will also consider the ways in which communities are organized and arranged to create and recreate categories and ideas associated with age. This EDI tutorial foregrounds the significance of age, as it crosses race, class, and gender, in explorations of urban inequality.

Class Format: tutorial
Requirements/Evaluation: five to six 5-page papers, five to six 2-page responses, oral presentations of papers; discussion
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first- and second-years, students considering an American Studies major or Latina/o Studies concentration
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive
Other Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Space and Place Electives, LATS Core Electives
Fall 2017
TUT Section: T1 TBA Instructor: Merida Rua
AMST 128 Reading Asian American Literature (W)
Crosslistings: AMST 128/ENGL 128/COMP 128
Though the category and term "Asian American" came about as a result of political struggle in the 1980s, what we now call Asian American writing in English began in the nineteenth century and has played a significant role in every American literary "movement" from Modernism, realism, protest literature to various avant-gardes, the graphic novel, and digital poetry. This writing-intensive course closely reads a sampling of texts in a variety of genres and styles—produced by writers from various Asian American ethnic groups—from the late nineteenth century to the present and contextualizes them historically, both domestically and globally. We will examine the material, cultural, political, and psychic interactions of larger structural forces with individual writers and texts. Along the way, we will interrogate the notion of "Asian American"—its contradictions, heterogeneous nature, and our assumptions—and its relation to the idea of "American." Some questions we will explore: Why have Asian Americans and Asian American writings and writing so often been viewed as 'foreign' or 'alien' to the American body politic and the English-language literary tradition? How might Asian American writing be linked to other English-language texts in the Asian diaspora?
Prerequisites: none
Enrollment Preferences: prospective AMST or ENGL majors
Enrollment Limit: 15
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under AMST; meets Division 1 requirement if registration is under COMP or ENGL
Distributional Requirements: Division 2, Writing Intensive

Not Offered Academic Year 2018
SEM Instructor: Dorothy Wang

AMST 132(F) Contemporary Africana Social and Political Philosophy (D)
Crosslistings: AFR 132/PSCI 132/AMST 132
This introductory seminar investigates the relationship between three major schools of thought in contemporary Africana social and political philosophy, namely the African, Afro-American, and Afro-Caribbean intellectual traditions. We will discuss a range of thinkers including Aimé Césaire, Angela Y. Davis, Édouard Glissant, Lewis R. Gordon, Kwame Gyekye, Oyèrónke Oyewùmi, Édouard Glissant, Lewis R. Gordon, Kwame Gyekye, Oyèrónke Oyewùmi, Tommie Shelby, and Sylvia Wynter. A primary goal of the course is to provide students with the intellectual resources to decipher problems central to philosophical discourse and to allow students an opportunity to apply what they learn to critical issues in current geopolitics. This seminar is part of the Exploring Diversity Initiative, and as such we shall investigate—via the authors mentioned—comparative philosophical analyses, critical theorization, and the plurality of global thinking in contemporary social and political philosophy.
Class Format: seminar
Requirements/Evaluation: evaluation will be based on attendance and participation, two 5- to 7-page essays, and one 10-page final paper
Extra Info: not available for the fifth course option
Prerequisites: none; open to all
Expected Class Size: 12
AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Critical and Cultural Theory Electives

AMST 149 First-Hand America (D) (W)
Crosslistings: AMST 149/ENGL 149
Gonzol journalism, the nonfiction novel, literary journalism, the "new journalism"...tion. The study of American culture has thrived in the able hands of writers, reformers and amateur anthropologists. This course is an introduction to American writing and culture through the eyes of extraordinary witnesses who work as public intellectuals, addressing a readership that reaches beyond the university. Through essays, films and music we will track the documentary impulse from coast to coast: from Ferguson, Baltimore, Miami, Watts, Denver, Harlem, Chicago, Compton and Sing-Sing prison to the wilds of Alaska and rural Georgia; from mass demonstrations to the most intimate, beside revelations. How have writers and artists given their audiences tools for understanding power, privilege, and difference in America? This course contributes to the College's Exploring Diversity Initiative by reading the work of witnesses in their literary, social, political, cultural, and historical contexts in order to understand the formation of their beliefs and actions and the effects of their works. Artists include: Jane Addams, James Baldwin, Charles Burnett, Ta-Nehisi Coates, Ted Conover, Angela Davis, Joan Didion, Zora Neale Hurston, Kendrick Lamar, Audre Lourde, John McPhee and Jack Kerouac.
Class Format: seminar
Requirements/Evaluation: multiple short essays and revisions, peer-editing and class participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level English course
Enrollment Limit: 19

AMST 156 Thirteen Ways of Looking at Jazz (D) (W)
Crosslistings: AFR 156/COMP 156/AMST 156/ENGL 223
Taking its title from the Wallace Stevens poem, "Thirteen Ways of Looking at a Blackbird," which interprets the blackbird in different ways, this course similarly explores a more complex, multi-layered perspective on jazz, from jazz and American democracy to jazz in visual art. Accordingly, the course introduces students to several genres, including historical documents, cultural criticism, music, literature, film, photography and art. The course does not draw on a musico logical method but rather a socio-cultural analysis of the concept, music and its effect—so students are not required to have any prior musical knowledge or ability. In this writing intensive course, students will write and revise short close analyses of multiple types of media, ultimately honing their writing skills on one form of media for a polished, original analysis that wed's their increased critical thinking skills. This EDI course explores the musical expressions of the culturally diverse peoples of African descent in the New World, as well as the myriad ways in which representations of jazz signify on institutional power, reaffirm dominant U.S. and/or European hierarchies of race, gender and class, and signal inequality in order to contest it.
Class Format: lecture
Requirements/Evaluation: evaluation will be based upon class participation, 1 quiz, several 2-page response essays, 1 three-page essay, 1 five-page essay, one oral presentation/performance with 3-page critical report, totaling approximately 20 pages of written work
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 30
Expected Class Size: 19
Distribution Notes: meets Division 2 requirement if registration is under AFR and AMST; meets Division 1 requirement if registration is under COMP or ENGL
Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive

Not Offered Academic Year 2018
LEC Instructor: Rashida Bragg

AMST 165(S) Slavery in the United States (W)
Crosslistings: HIST 164/AFR 164/AMST 165
Slavery and freedom rose as concomitant ideologies—simultaneously and interrelated—critical to the development of the American colonies and United States. How did various areas of American social, political, and economic life have been more active and exciting in recent years than the study of this relationship. This seminar introduces students to the most important aspects of American slavery, beginning with an examination of the international slave trade and tracing the development of the “peculiar institution” to its demise with Civil War.
Class Format: seminar
Requirements/Evaluation: building on several preliminary essays, each student will complete a research project which leads to a final research paper
Extra Info: in addition to reading key books in the field, students will engage in primary source research using the College library’s extensive holdings of microfilm and local records dealing with slavery
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Enrollment Limit: 19
Expected Class Size: 15-19

AMST 167 Let Freedom Ring? African Americans and Emancipation (W)
Crosslistings: HIST 167/AFR 167/AMST 167
This course will examine African Americans' transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, millions of African Americans were transformed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include major articles, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.
Class Format: seminar
Requirements/Evaluation: research paper, short writing assignments, class participation
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Enrollment Limit: 19
Expected Class Size: 19

SEM Instructor: Gretchen Long

AMST 168 1968-1969: Two Years in America (W)
Crosslistings: HIST 168/AMST 168
These two years were tumultuous ones worldwide. The escalation of the war in Vietnam, the Soviet invasion of Prague, the student uprisings in Paris and Japan, and the racial politics in the Summer Olympics held in Mexico City all had their counterparts that reverberated in the streets, college campuses, the halls of Congress, movie theaters, and concert halls and rock festivals in the United States. This first seminar will examine some of the major events of this time period in America: the assassinations of Martin Luther King, Jr. and Robert Kennedy, the Democratic Convention in Chicago, as well as cultural trends such as the development of the anti-war movement, the push for curricular reforms on college campuses, and the rise of the “counter culture.”

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on a number of writing assignments: 2-3 to 5-page responses papers, a 5- to 7-page oral history, an annotated bibliography, and a final 10-page research paper

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Preferences:** first-year students, and then sophomores who have not previously taken a 100-level seminar

**Enrollment Limit:** 19

**Expected Class Size:** 15-19

**SEM Instructor:** Scott Wong

**AMST 169(F) Introduction to Asian American Studies (D)**

**Crosslistings:** AMST 169/HIST 169

This course will offer students an introduction to the field of Asian American Studies. First, we will examine how history is shaped not only by laws and institutions but more significantly by people and social movements responding to the challenges of war, capitalism, colonialism, imperialism, immigration, globalization, and white supremacy. Secondly, we will pay an immediate attention to the dynamic, narrative interactions of race, ethnicity, class, gender, sexuality, ability, and nationality/citizenship. We will question how the social, political, and economic differences produced by these categories help to make and remake the multiple dimensions of Asian America from within and without. Finally, our discussions will illuminate the contradictions of power and spaces for possibility that emerge in key moments—namely, how human actors strive to imagine, if not build visions and practices of the world in difference to the master narratives of American history and American exceptionalism. Our study will be supplemented with documentary screenings, oral histories, and personal memoirs.

**Class Format:** lecture

**Requirements/Evaluation:** attendance and participation; in-class group presentation; weekly online journal responses; midterm paper (5-7 pages); final creative project

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**AMST 205 Chicana/o Film and Video (D)**

**Crosslistings:** LATS 203/ARTH 203/WGSS 203/AMST 205

Hollywood cinema has long been fascinated with the border between the United States and Mexico. This course will examine representations of the U.S.-Mexico border, Mexican Americans, and Chicana/os in both Hollywood film and independent media. We will consider how positions on nationalism, race, gender, identity, migration, and history are represented and negotiated through film. We will begin by analyzing Hollywood “border” and gang films before approaching Chicana/o-produced features, independent narratives, and experimental work. This course will explore issues of film and ideology, genre, representation, and national politics, and examine the cultural theory and the performative aspects of identity. Through a focus on Chicana/o representation, the course explores a wide spectrum of film history (from the silent era to the present) and considers numerous genres. By introducing various interdisciplinary approaches and theoretical methods related to race, representation, and the media, the course fulfills the Exploring Diversity Initiative’s themes of critical theorization and power and privilege.

**Class Format:** film screenings will be scheduled as a lab

**Requirements/Evaluation:** evaluation will be based on one short paper, midterm exam, final exam and take home essays

**Prerequisites:** none

**Enrollment Limit:** 20

**Expected Class Size:** 20

**Distribution Notes:** meets Division 2 requirement if registration is under AMST, LATS or WGSS; meets Division 1 requirement if registration is under ARTH

**Distributional Requirements:** Division 2, Exploring Diversity

**Not Offered Academic Year 2018**

**LEC Instructor:** C. Ondine Chavoya

**AMST 207 Introduction to Latina/o Literatures (D)**

**Crosslistings:** LATS 208/AMST 207/COMP 211/ENGL 251

This discussion course serves as an introduction; the reading list is not meant to be exhaustive or comprehensive, but will rather provide a sampling of texts for student exploration. We will explore a number of readings across different genres (the novel, play, poem, short story, graphic novel). Students will endeavor to understand how each author defines Latinidad. What characterizes Latina/o in each of these writers and how do their works articulate the historical conditions out of which they emerge? How is Latinidad marked through notions of language, nationality, gender, sexuality, class, race, polities, form, and genre? The readings will provide both a survey of gender, ethnicity in Latino/a literatures as well as specific case studies and historical examples from which we will extrapolate about the larger field. Readings include works by Tómas Rivera, Cristina Garcia, Griselda C. Roa, Oscar Zeta Acosta, Junot Díaz, Alisa Valdes-Rodriguez, and more. This course fulfills the Exploring Diversity Initiative requirements as it offers students a comparative study of cultures and societies by examining the U.S. racial project of constructing a Latina/o people out of various peoples. Additional attention is given, under the rubric of power and privilege, to the specific economic and political institutions that structure Latina/o cultural production.

**Class Format:** lecture

**Requirements/Evaluation:** students will be evaluated based on weekly online discussion forum posts, two short papers, a midterm exam, a final comprehensive project, as well as classroom participation

**Prerequisites:** none

**Enrollment Preferences:** Latina/o Studies concentrators, American Studies and Comparative Literature majors

**Enrollment Limit:** 30

**Expected Class Size:** 20

**Distribution Notes:** meets Division 1 requirement if registration is under COMP or ENGL; meets Division 2 requirement if registration is under AMST or LATS

**Other Attributes:** AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, LATS Core Electives

**Not Offered Academic Year 2018**

**LEC Instructor:** Alma Granado

**AMST 208 Time and Blackness (W)**

**Crosslistings:** AFR 208/AMST 208/REL 262

The concept of time is one of the most examined, yet least theorized, concepts in African Studies. While the field is saturated with historical studies and literary analyses that take up issues of cultural memory, both of which involve thinking about time, time itself is rarely the subject of sustained inquiry. This may be due to its abstractness as an idea and the level of analysis its conceptualization demands, or because time in the African American experience cannot be understood outside of the meaning of race, which itself is far from tangible. In this tutorial, “Time and Blackness,” we will explore how African American writers across a number of genres understand time. We will read select texts of fiction as well as spiritual autobiographies, historical narratives, and personal memoirs, and writers will be encouraged—both to read and create—paradigms of time to organize their work. The following questions will structurally our investigation: What are the constituent elements of time in African American writing? How does race shape the ways a writer conceives of the experiences of time? Is there something that we can call an identifiable African-American “timescape”?

**Class Format:** tutorial

**Requirements/Evaluation:** assignments will include six 2-page response papers; two 5-page writing assignments; and a final, 10-page review essay on how time is understood in a genre of writing

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** concentrators in African Studies, majors in Religious Studies, and majors in American Studies

**Enrollment Limit:** 10

**Expected Class Size:** 10

**AMST 209 Ecologies of Place: Culture, Commodities and Everyday Life**

**Crosslistings:** ENV 209/ANTH 209/AMST 209

This course will explore the environmental implications of everyday life in modern America. It will ask how cultural, political, economic, and ecological systems interact to produce ordinary places and vernacular landscapes, from campuses to cul-de-sacs, farms to forests, nation-states to national parks. Combining approaches from cultural geography, environmental history, and political ecology, it will focus on the hidden lives of “things”—the commodities and technologies that form the basic building blocks of place: food, oil, water, wood, machines. With strong emphasis on local-global relations, it will look
beneath the surface of the ordinary to reveal the complex networks of power, meaning, and matter that connect "here" to "there," "now" to "then," and "us" to "them." In so doing, it will pursue parallel goals: to understand the socio-spatial processes shaping today's global environment; and to explore the cultural systems through which those processes are understood and contested. Topics will include the bottled water controversy, factory farming and local agriculture, the political economy of lawns, and the cultural politics of invasive species.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** three 5- to 7-page essays and several shorter writing assignments

**Prerequisites:** none; open to first-year students

**Enrollment Limit:** 15

**Expected Class Size:** 20

**Distributional Requirements:** Division 2

**Other Attributes:** AMST Critical and Cultural Theory Electives, AMST Space and Place Electives, ENST Culture/Humanities

**SEM Instructor:** Joy James

---

**AMST 211(F) Race and the Environment**

**Crosslistings:** AFR 211/ENVI 211/SOC 211/AMST 211

In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address "environmental racism," like Robert Bullard's *Dumping in Dixie* and David Pellow's *Garbage Wars*. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for polluting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions—like literature, film, and music—to understand how people of color respond to environmental injustice and imagine the natural world.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** evaluation will be based on class participation, 2-3 short papers (5-7 pages), and a self-scheduled final

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**AMST 214(F) Performance Ethnography: Global Approaches to Dance (D)**

**Crosslistings:** DANC 214/GBST 215/AMST 214/THEA 215

The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance and performance ethnography. Traditionally considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) will read ethnographic studies of dance and performance practices from different parts of the world, and (iii) will do field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and will include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance experience required.

**Class Format:** seminar

**Requirements/Evaluation:** class participation, reading responses, fieldwork and field notes, short papers, and final essay

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**AMST 214(S) Global Approaches to Dance: Asian-American Identities in Motion (D)**

**Crosslistings:** DANC 214/GBST 215/AMST 214/THEA 215

The course aims to explore dance and movement-based performances as mediums through which identities in Asian-American (including South Asian) diaspora are constructed and/or redefined. We will explore historical narratives related to nationalism, post-colonialism and diasporic identity-formation, and learn about the socio-historical contexts in which performances are used to maintain cultural continuity. We will explore how diasporic artists use performances to enforce or resist traditional practices and ideologies. Throughout the course, we will investigate issues of race, gender, sexuality, ethnicity, nationality, tradition/innovation, agency/resistance, and borrowing/appropriation among other topics. This is primarily a discussion-based seminar course but will also include attendance at live performances in the area, film screenings, and discussion and workshops with guest artists. No previous dance experience required.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation includes reading responses, participation, short papers, a midterm, and a final essay

**AMST 215 Experimental Asian American Writing**

**Crosslistings:** AMST 215/ENGL 217/COMP 215

Asian American literature did not begin in the 1980s with Amy Tan's *The Joy Luck Club*. Nor has the writing primarily been confined to autobiographical accounts of generational conflict, divided identities, and glimpses of Chinatown families. Asian American literature in English began with poetry in the late nineteenth century, and has encompassed a variety of aesthetic styles across the last century—from Modernism to New York School poetry to poetry of protest to digital poetics. This course will explore Asian American writings that have pushed formal (and political) boundaries in the past 100+ years, with a particular focus on avant-garde writers working today. We will look at such authors as Jose Garcia Villa, Chuang Hua, Wong May, Theresa Chavez, John Yau, Mei-mei Bensinergue, Tan Lin, Prageeta Sharma, Bhanu Kapil, and Tao Lin.

**Class Format:** seminar

**Requirements/Evaluation:** papers (6-8 pp. and 10-12 pp.) plus in-class presentation, brief research papers, and class participation

**Prerequisites:** none

**Enrollment Preferences:** if the course is over-enrolled, preference will be given to American Studies majors

**Enrollment Limit:** 15

**AMST 216 Environmental Humanities: Theory and Practice (D)**

**Crosslistings:** ENVI 217/AMST 216

How does culture shape our use and imagination of the physical environment? And how does the physical environment shape culture in turn? These are the central questions of the environmental humanities. This course will explore the various ways in which scholars from a broad range of disciplines have sought to answer these questions by incorporating insights from social theory and cultural criticism. Focusing on studies of land and landscape in the Americas from the time of European colonization to the present, it will examine key works from fields such as environmental history, ecocriticism, environmental philosophy, and cultural geography, and it will survey the major methodological and theoretical commitments that unite
these fields. Emphasis will be placed on the ideological critique of modernity. How have scholars made environmental sense of liberalism, colonialism, capitalism, nationalism, sexism, racism, and speciesism? How have these "isms" influenced our relations with the natural world, and how can the humanities help us both understand and change these relations for the better? This course fulfills the Exploring Diversity requirement.

Class Format: lecture/discussion
Requirements/Evaluation: three 5- to 7-page essays; several shorter writing assignments
Prerequisites: ENVI 101 or permission of instructor

AMST 217(F) Race(ing) Sports: Issues, Themes and Representations of Black Athletes
Crosslistings: AFR 217/AMST 217/SOC 217/ENGL 215
Althea Gibson to the Williams Sisters. Julius (Dr. J) Irving to Michael Jordan. Jesse Owens to Tommie Smith and John Carlos. Throughout the 20th century, black athletes have broken through Jim Crow restraints, challenged racial stereotypes, and taken their sports to new heights of achievement. In this course, students will explore a range of black athletes in the 20th century, paying particular attention to the attitudes, stereotypes and experiences they endured. In addition, this course will prompt students to analyze the representation, perception, and commodification of black athletes in popular media forms. Students will trace trends, shifts and themes in representations of blackness across different sports and historical periods. Topics under study may include resistance against and affirmation of athletes as role models, racial slurs in sports, and the role of black athletes in encouraging social change. The course will examine a series of texts that in various ways epistemize the fraught literary grappling with the entanglements of American blackness. Readings will include texts by Frederick Douglass, Booker T. Washington, Zora Neale Hurston, Langston Hughes, Richard Wright, Ralph Ellison, Amiri Baraka, Toni Morrison, and Ishmael Reed.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based upon class participation, short weekly reading and/or listening assignments, one 5-page paper, final group project

AMST 221(F) Introduction to Urban Studies: Shaping and Living the City
Crosslistings: LATS 220/AMST 221/ENVI 221
Generally, cities have been described either as vibrant commercial and cultural centers or as violent and decaying urban slums. In an effort to begin to think more critically about cities, this course introduces important topics in the interdisciplinary field of Urban Studies. Specifically, we will discuss concepts and theories used to examine the peoples and structures that make up cities: In what ways do socio-cultural, economic, and political factors affect urban life and development? How are cities planned and used by various stakeholders (politicians, developers, businesses, and residents)? How do people make meaning of the places they inhabit? We will pay particular attention to the roles of race, ethnicity, class, and gender in understanding and interpreting urban communities. Texts include works by anthropologists, historians, sociologists, cultural critics, cultural geographers, and literary writers.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on attendance and class participation, several short writing assignments (1-2 pages), two creative group projects and presentations, a midterm essay (6-7 pages) and final essay (8-10 pages)
Extra Info: may not be taken on a pass/fail basis, not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first and second year students as well as American Studies majors and Latin/o Studies concentrators
Enrollment Limit: 20

AMST 222(S) U.S. Latinx Religions (D)
Crosslistings: LATS 224/AMST 224/REL 224
In this course, we will engage aspects of Latinx religious experiences, practices, and expressions in the United States of America. We examine moments when religious expressions intersect with politics, popular culture, and daily life in the U.S.A. Given the plurality of Latinx/o communities and religions in the U.S.A., we will engage certain selected religious traditions and practices—such as popular Catholic devotions to Guadalupe, crypto-Judaism, curanderismo, Latinx Muslins, and Santería—by focusing on particular moments of religious expression as elucidated in specific historical, biographical, ethnographical, art, literature, and film. We will also consider, though more briefly, historical contexts in Iberia and Latin America, as well as questions of how one studies Latinx religions. Rooting ourselves in the social, political, cultural, and historical contexts in which particular Latinx religious forms developed, this EDI course examines issues of social and institutional power relations that influence particular religious formations.

Class Format: discussion
Requirements/Evaluation: based upon class participation, short writing exercises, a 5- to 8-page take-home midterm essay, and a 10- to 15-page final review essay
Prerequisites: none
Enrollment Limit: 25
Expected Class Size: 15

AMST 227 Utopias and Americas
Crosslistings: REL 227/LATS 227/AMST 227/ENVI 227
Where does the term "new world" come from? What do we mean by "utopia," "utopian," and "utopianism?" What relationships exist between the people who imagine utopias and the lands they inhabit? This course considers the
relationship between utopian imaginations and the imaginations of the lands and peoples in the Western hemisphere. We will spend some time studying utopian theory, ancient proto-utopias, and utopias in Latin America, though our main focus will be on particular examples of utopianism in the U.S.A. We will attend to particular instances of utopian social dreaming that re-imagine time, space, economy, community. More specifically, the U.S. is the main focus of the class, students are encouraged to pursue and bring to class utopian perspectives from other parts of the Americas. Students are also strongly encouraged to take questions from class and engage utopian images not listed on this syllabus but pertinent to our classroom learning.

Class Format: seminar

Requirements/Evaluation: participation, short writing assignments, a 5-page midterm essay, and a 10- to 15-page final research paper examining an American utopia

AMST 228(F) Revolt and Revelation in 20th-Century Americas (D)

Crosslistings: LATS 228/AFR 228/AMST 228/REL 223

Writing in 1971, Dominican priest and Peruvian theologian Gustavo Gutiérrez asked “Is the Church pursuing a religious role when by its silence or friendly relationships it lends legitimacy to dictatorial and oppressive government?” Such a question encapsulates the sometimes agonistic and other times deeply intertwined relationships between religious institutions, religious thought, and movements for political transformation in the 20th century Americas. This course examines those forms of “God-talk” broadly termed “liberation theologies” that responded to and challenged social relationships of class, colonization, race, culture, gender, sexuality, (dis)ability, and economic power. In doing so, these theologies and their hand out of the classroom doing field work. Experience in photography and/or video, although not required, will be helpful.

Class Format: seminar

Requirements/Evaluation: participation, short writing exercises, a 5- to 6-page take-home midterm essay, and an 8- to 12-page final review essay

AMST 229 Reel Jesus: Reading the Christian Bible and Film in the U.S.A. (W)

Crosslistings: REL 229/AMST 229

In this course we examine some of the ways that Christian biblical narratives have appeared in late twentieth-century and early twenty-first century Hollywood movies, looking in particular at films such as The Matrix (1999), The Passion of the Christ (2004), Jesus Christ Superstar (1973), The Shawshank Redemption (1994), The Olsen (1976), Children of Men (2006), and The Book of Eli (2010). What are the overt and subtle ways that these films seek to interpret and employ biblical texts? Why do they draw upon the texts they do and read them as they read them? What can cinematic interpretations of biblical texts reveal to us about how these texts are used in larger U.S. culture, especially to crystallize and reflect certain political, economic, ethnic, racial, sexual, and social U.S. cultures? How does an awareness of this scriptural dimension in a work of “popular culture” affect our interpretation of both the film and the scriptural text's meanings? How do varying interpretations of biblical texts help us to understand cinematic readings? By assuming that we can read both biblical texts and films in multiple and contradictory ways, this class can use film as the occasion for interpreting, analyzing, and debating the meanings, cultural functions, and affective responses generated by biblical narratives in film. Finally, this course analyzes the implications of ways in which we read texts and films. For this interdisciplinary course we will read selected biblical and extra-canonical texts, including selections from canonical and non-canonical gospels, the letters of Paul, and the book of Revelation, but our focus will be on the way that movies (and the people who make them and watch them) make meaning out of these biblical texts.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation based on participation, short writing exercises (1-pg response papers), one 3-pg analytical essay that will also be revised, a 6-pg synthetic midterm essay, and a final 10-pg review essay

AMST 231 Approaches to Media Studies: Analyzing Mediated Difference (D)

Crosslistings: LATS 231/AMST 231/WGSS 232

Media's influence in 21st century life is pervasive, and encompasses visual, sonic, and discursive formats. This course introduces students to a variety of qualitative approaches to the study of contemporary media. Simultaneously, we will explore questions of ethno-racial identity, gender, and sexuality. Students will work with hand-on exercises designed to provide experience in the areas of textual analysis, in-depth interviews, virtual ethnography and participant observation. This class will provide students with interdisciplinary training that enhances their understanding of everyday media and its interaction with multiple categories of identity. This course is a D-AMP X class. The class encourages students to employ media as a lens for theorizing the intersections between ethno-racial identity, gender, and sexuality. We review materials focusing on a wide range of minoritarian communities. According to the EDI framework this class engages in the comparative study of cultures and societies, examines questions of power and privilege, and aims to sharpen students' critical theorization of difference in the media.

Class Format: lab

Requirements/Evaluation: participation; four 3- to 5-page papers; student papers will be based on hands-on exercises using various current Media Studies methods

AMST 236(S) Making Things Visible: Adventures in Documentary Work

Crosslistings: SOC 236/AMST 236/ARTH 237/ENGL 237

Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps and resonances between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will try their hand at methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of classical and recent examples of investigative work that blend word and image, from Let Us Now Praise Famous Men by Walker Evans and James Agee to the more recent Righteous Dopefiend by Philippe Bourgois and Jeff Schonberg. We will ask questions about the changing practices and expectations associated with the documentary's role, and the evolving platforms on which such work can be presented, both off- and on-line. Lastly, we will pose and debate ethical questions that haunt documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether "objective representation" is even possible or desirable. In addition to readings, students should be prepared to spend a significant time out of the classroom doing fieldwork. Experience in photography and/or video, although not required, will be helpful.

Class Format: seminar

Requirements/Evaluation: full participation in discussions, reading response papers, a research journal, field materials, and an independent final project

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

AMST 237(F) Islam in the United States: From Black Muslims to the War on Terror (D)

Crosslistings: REL 237/AMST 237/AFR 237

This course is likely the most prominent and influential Muslim figure in the history of the United States. His story represents two fundamental themes in
the history of Islam in America: conflict between Muslims over what is "authentic" or "orthodox" Islam; and the ways that American history, politics, and culture determine the contours of "American Islam". This course will explore these two themes through an array of topics in the history of American Islam. In so doing, we will examine the complex relation between religion, politics, and society in the United States.Beginning with the story of Malcolm X, the Nation of Islam, and other African-American Muslim movements, we will try to understand: What made Islam so appealing to millions of African-Americans throughout the 20th century? And were these genuine "American" Muslims "Islamic"? In other words, were the"nation" and "nationalist" movements in the guise of religion? What counts as legitimately "Islamic", and who gets to decide? We will then move into the latter half of the 20th century and the post-9/11 debates over authentic Islam. What happened to American Islam after the wars and attacks after the post-1965 immigration from Muslim countries? How do debates about Muslim identity shift over time, from being configured in terms of black separatism, to transnational, to the assimilationist "American-Muslim" identity? How do national narratives around 9/11 and the "War on Terror" impacted these debates over identity and "true Islam"? And how have these debates intersected with gender, racial, and ethnic politics?Throughout the course, we will be studying and understanding the cultural and social dimensions of diversity, from religion to race, ethnicity, nationality, culture, gender, language, and identity.

AMST 240 Latina/o Language Politics: Hybrid Voices (D)
Crosslistings: LATS 240/AMST 240/COMP 210

In this course we will focus on issues of language and identity in the contemporary cultural production and lived experience of various Latina/o communities. As such, how are cultural values and material conditions expressed through Latina/o language and literature? How does Latina/o identity challenge traditional notations of the relationship between language, culture, and nation? In what ways might Latina/o literary and linguistic practices serve as tools for social change? Departing from an overview of common linguistic phenomena such as code-switching (popularly known as "Spanglish") and Latina/o English, we will examine bilingual education, recent linguistic legislation, and the English Only movement. Throughout the course we will survey texts culled from a variety of literary genres as well, including theatre, autobiography, novels, and poetry. Both directly and/or indirectly, these texts address Latina/o language politics, as well as the broader themes of power, community, ethnic-racial identity, gender, sexuality, class, and hybridity.

Class Format: seminar

Requirements/Evaluation: participation, two essays, final take-home examination

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

AMST 241(F) Performing Masculinity in Global Popular Culture (D)
Crosslistings: WGSS 240/AMST 241/LATS 241/THA 241/SOC 241

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have men, ranging from beer-bellies to conforming to their own society's perceived standards, been socialized to believe that these things are normal? How did the construction of masculinity change in the post-90s world? How has the idea of masculinity changed in the public imagination? What is the future of masculinity in the context of contemporary gender genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture. The course includes a field trip to a drag performance in Northampton.

Class Format: seminar

Requirements/Evaluation: masculinity journal, mid-term essay, visual analyses of pop culture artifacts, choice of final essay or 12 page final paper

Prerequisites: none

Enrollment Preferences: in the event of over-enrollment, a short statement of interest will be solicited

AMST 242(S) Americans Abroad (D) (W)
Crosslistings: COMP 242/ENGL 250/AMST 242

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Readings will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What makes a war profound, and often comic, gaps between the traveler's expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even failing, in translation? Authors may include: Henry James, Langston Hughes, Martha Gelhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts.

Class Format: seminar

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences abroad

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 10

AMST 244(S) What They Saw in America
Crosslistings: SOC 244/HIST 366/AMST 244

This course traces the travels and writings of four important observers of the United States: Alexis de Tocqueville, Max Weber, G.K. Chesterton, and Sayyid Qutb. The course will consider their respective journeys: Where did they go? With whom did they talk? What did they see? The historical scope and varying national origins of the observers provide a unique and useful outsider's view of America—one that sheds light on persisting qualities of American national character and gives insight into the nature and substance of national attitudes toward the United States over time. The course will analyze the common themes found in the visitors' respective writings about America and will pay particular attention to their insights on religion, democracy, agrarianism, capitalism, and race. This course is part of the Williams College program in England at the Berkshire County Jail and House of Corrections and will be held at the jail. Transportation will be provided by the college. The class will be composed exclusively of Williams students and inmates, and one goal of the course will be to encourage students from different national backgrounds to think together about issues of common human concern.* Please note atypical class hour Monday, 4:45-8:30 pm.

Class Format: seminar; * Please note atypical class hour Monday, 4:45-8:30 pm

Requirements/Evaluation: several short response pieces; a final paper of 10-15 pages

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: juniors and seniors; final selection for the course will be made on the basis of an interview with the instructor

Enrollment Limit: 9

Expected Class Size: 9

Dept. Notes: * Please note atypical class hour Monday, 4:45-8:30 pm.
What does it mean to acknowledge the literal land we stand upon—in Williamsport and beyond, a territory of indigenous peoples? This course strives to answer that question by offering an introduction to the histories, politics, and arts of indigenous peoples across the Americas and the Pacific. Foregrounding the ways in which indigenous peoples have been resisting, reclaiming, and reimagining the legacy of settler colonialism, we will survey scholarship in the interdisciplinary field of Native American and Indigenous Studies. By analyzing such scholarship alongside a range of primary sources—including historical documents, literature, film, visual art, music, and social media—we will examine the complex interweavings of indigeneity, race, gender, and sexuality. Throughout the course, we will discuss topics of both past and present importance, such as environmental justice, cultural representation, and self-determination.

Providing critical insights into the legacies of settler colonialism, this course satisfies the Exploring Diversity Initiative (EDI) requirement.

Class Format: seminar

Requirements/Evaluation: one 2- to 3-page response paper, one 5- to 6-page analytical essay, one 8- to 10-page research paper, weekly Glow posts, and regular class participation

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: AMST majors

Enrollment Limit: 20

Expected Class Size: 19

AMST 246(S) Aesthetics and Place-making in Latina/o New York Crosslistings: LATS 246/AMST 246

New York City has long served as a nexus of Latina/o migration and settlement since the late nineteenth century. From the New York sound of Afro-Cuban and Puerto Rican salsa to the poetics of slam poetry forged in the Nuyorican Poets Cafe, New York’s Latinas/os have defined and developed numerous forms of Latina/o popular expression. This course examines the aesthetic foundations of Latina/o New York, remaining attentive to the numerous diasporas that have migrated to and made the city their home. Student will engage with a multiplicity of popular cultural genres including memoirs, literature, poetry, sound, visual art, and photography in the context of the history of the city while focusing on key themes of racial formation, the politics of space and place, and the labor of culture.

Class Format: lecture/discussion

Requirements/Evaluation: attendance and class participation, short writing exercises, 4- to 5-page midterm paper close-reading a text, and a 10- to 15-page final paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: LATS concentrators and AMST majors

Enrollment Limit: 20

Expected Class Size: 15

Distributional Requirements: Division 2

AMST 247 Race and Religion in the American West (D)

Crosslistings: REL 247/LATS 247/AMST 247/ENVI 247

From the "Land of Enchantment" of New Mexico in the far reaches of the desert to the sacred temples on the West Coast that overlook Pacific Ocean, this course examines the peoples and the "sacrosanctos" of the American West. Historian Patricia Limerick regards this region as an extraordinary site of convergence and one of "the greatest meeting places on the planet." The region is a site of cultural complexity where Penitentes maintained a sacred order, Pentecostals attracted a global audience, Native Americans forged legal/protected definitions of "religion," and Asian immigrants built the first Buddhist and Hindu temples. Until recently, surveys of religious history in North America have devoted minimal attention to the distinctive role of religion in the American West. They have focused on religious history in the flow of events westward from the Plymouth Rock landing and Puritan establishment to the cultural collapse of the Ringo Revolution in modern-day New Mexico which occurred in that same century and marked the temporary suspension of Spanish encroachment. How do scholars of religion and history account for these renditions between the past and present? Most mainstream religious historians treat religious experience and identity in the U.S. West as additive rather than complementary to or constitutive of its mainstream narratives. Contemporary historians of religion note the need for new "sights," "sites," and "situations" in order to deconstruct and reconstruct this incomplete meta-narrative, taking into account such factors as migration, gender, region, and the environment. In this EDI course we will use tools of critical theory and historicism to examine this region, compare religious cultures, and interrogate ways in which religious practices (re)construct notions of race.

Class Format: seminar/discussion

Requirements/Evaluation: student participation, weekly reflection papers (up to half page), midterm primary source paper (up to 5 pages), and a final research paper on religion and the Environment (8-10 page paper with a media/visual component)

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

AMST 250 Social Class: Multidisciplinary Approaches

Despite decades of growing income inequality, many Americans remain reluctant to discuss socio-economic class. Why is that? And how does one do it "right" anyway? This course will introduce students to the ways sociologists, historians, and others make sense of the differences in economic role, social status, and cultural taste that congeal in the notion of class. We will seek greater understanding of the lived experiences of poor, working, middle, and upper class Americans, and we will investigate unique "class fractions" such as bohemians and professionals. Throughout, we will consider the ways that race, gender, and sexuality interact with class to shape identity and power.

Class Format: seminar

Requirements/Evaluation: attendance and participation; personal narrative essay, one additional short essay, brief midterm, and final exam

Prerequisites: none

Enrollment Preferences: American Studies majors

Enrollment Limit: 20

Expected Class Size: 20

Distributional Requirements: Division 2

Other Attributes: AMST Critical and Cultural Theory Electives

AMST 256 Social Justice Traditions: 1960s to #BLM

Crosslistings: AMST 256/AFR 257/HIST 256

We live in a time of renewed social justice activism, as people from all walks of life confront economic inequality, police violence, discrimination against transgender individuals, and other forms of oppression. This course is designed to clarify where recent initiatives like Black Lives Matter and Occupy Wall Street came from, and to evaluate how they might shape American life in the near future. Movements have histories, as today’s activists draw on the “freedom dreams,” tactics, and styles of rhetoric crafted by their predecessors, while making use of new technologies, such as Twitter, and evolving understandings of “justice.” Taking a historical approach, we will begin by studying the civil rights, Black Power, anti-war, counter-culture, and feminist initiatives of the 1960s. We will then explore how progressive and radical activists adjusted their theories and strategies as the country became more conservative in the 1970s and 1980s. Making use of movement documents, documentary films, and scholarly accounts, we will study the development of LGBTQ, ecological, and economic justice initiatives up to the present day. Throughout, we will seek to understand how movements in the United States are shaped by global events and how activists balance their political work with other desires and commitments.

Class Format: seminar

Requirements/Evaluation: attendance and class participation; four page 2 page reading response papers; discussion of films via GLOW forums; and a final 7-8 page analytical essay

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: first years, sophomores, and American Studies majors

AMST 263 Cold War Technocultures

Crosslistings: SOC 263/AMST 263/HIST 363/HSCI 263/SCST 263

With the Soviet Union’s collapse at the end of the twentieth century and the emergence of the United States as an unchallenged victor and “new world” hegemon, have we lost a sense of the drama, fear, and unbridled terror that permeated American life during the Cold War? In this course we will set out to understand Cold War American culture(s) by examining the intersection of politics, aesthetics, and a range of major technoscientific developments
during this period. The course will take shape in three parts. Part I will explore the emergence and role of the computer in shaping the distinctly American style of thought aimed at Soviet "containment". We will furthermore trace historical trends connecting MIT's legendary Whirlwind computer, the SAGE continental air defense system, nuclear wargaming at the RAND Corporation, artificial intelligence, and the advanced technologies, management strategies, and atrocities of the Vietnam War. Part II takes up the symbolic potency of the space race, which we will use as a conduit through which to explore the following events and developments: Sputnik, Yuri Gagarin's spaceflight, the Apollo moon landing, and American civil defense; the postwar science of cybernetics and the emergence of the now iconic cyborg; the Club of Rome's Limits to Growth report and the Gaia hypothesis; plans backed by NASA for the industrialization of humanization, and colonization of outer space; and Ronald Reagan's Strategic Defense Initiative, "Star Wars". Finally, case studies considered in Part III will focus on moments of conflict and resistance, appropriation, and unintended consequences of the preceding and other Cold War technological developments, among them antipsychiatry and environmentalism; Project Cybernet, an infrastructural causality of the US/CIA-backed Chilean coup of 1973; the American counterculture and the countercultural roots of neoliberalism(s).

**Class Format:**
- lecture/discussion
- weekly reading discussions
- short response papers
- oral exams

**Requirements/Evaluation:**
- weekly class participation
- two short response papers
- final 15-minute oral exam

AMST 284 Introduction to Asian American History (D)

Crosslistings: HIST 284/AMST 284/AMST 284

This course serves as the introduction to Asian American history, roughly covering the years 1850 to the present. It examines the lives of Chinese, Japanese, Koreans, Filipinos, Indians, and Southeast Asians in America, and the historical reasons why they came to the US and their subsequent interactions with other ethno-racial groups in the United States. Topics include the anti-Asian exclusion movements, the wartime incarceration of Japanese Americans, the increase of Asian immigration after the 1965 Immigration Act and the war in Viet Nam, and the impact of the events of September 11, 2001 on Asian American communities. These themes and others will be explored through the use of historical texts, primary documents, novels, memoirs, and films. This is an ECO course because it examines how people from different Asian countries and cultures interact with each other and those already here in the US. Theirs is a story of immigration, exclusion, resistance, accommodation, and the process of "becoming American."

Class Format: lecture

Requirements/Evaluation: evaluation will be based on four response papers, two short critical essays (5-7 pages) and a final oral history/family history of an Asian American (10-15 pages)

Prerequisites: none; open to all

Enrollment Limit: 40

Expected Class Size: 30

Distributional Requirements: Division 2, Exploring Diversity

Other Attributes: AMST Core Courses, HIST Core Courses, HIST Core Electives - U. S. + Canada

Not Offered Academic Year 2018

LEC Instructor: Scott Wong

AMST 300 Lessons of 'The Game': The Wire and American Culture

Crosslistings: AFR 300/AMST 300/SOC 306

The critically acclaimed television program, "The Wire," ran for five seasons on HBO Home Box Office (HBO) in 2002 and 2008. Set in "inner city" Baltimore, the program addressed a wide array of topics, including, but not limited to, the urban drug trade, law enforcement, local city politics, labor unions, education, and the newspaper industry. Though a work of "fiction," sociologist William Julius Wilson has called the show an important and instructive portrayal of the "deep inequality in inner-city America." By contrast, some scholars and critics have decried the series and indeed, courses like this one, as examples of mainstream America's fascination with and acceptance of African American drug use, criminal tendencies, and corruption. In this course, we will not deconstruct The Wire per se, but use select episodes from the series to explore key issues in Africana Studies, ranging from political geography to a history of Baltimore and the War on Drugs. Students should have some familiarity with the show. Africana Studies will show select episodes during Winter Study. Readings will include texts about African American urban life, such as Elijah Anderson's Code of the Street and Sudhir Venkatesh's Gang Leader for a Day. Due to its attention to crime, drug addiction, violence, and urban decay, this course is a part of the Gaudino Danger Initiative.

Class Format: lecture

Requirements/Evaluation: evaluation will be based on 2-3 short papers (5-7 pages), and a final oral project (10 pages)

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Limit: 50

Expected Class Size: 50

Distributional Requirements: Division 2

AMST 301(S) Theories and Methods in American Studies (Junior Seminar)

This course aims to provide a "how to" of American Studies from an integrative, multiracial, and socio-cultural perspective. Taking American culture as a site for testing classic and contemporary theories about how cultures work, the Junior Seminar in American Studies serves as an introduction to resources and techniques for interdisciplinary research. Students will be exposed to and experiment with a wide range of current theoretical and methodological approaches employed in American Studies and contributing disciplinary fields, and in the process gain a working knowledge of all the frameworks of the major (Spatio-Cultural Studies in Race, Ethnicity and Diaspora; Art in Context; and Critical and Cultural Theory). The goal of the course is not only for students to develop knowledge of main currents in the field of American Studies but also to become practitioners through a series of assignments that will permit students to exercise their newfound skills. Students will thus, for instance, develop rhetorical analyses, gather ethnographic data, and "read" assorted spaces and buildings, as the class explores such problems or topics as national narratives, ethnoral formations, the American prison system, and the circulation of commodities.

Class Format: discussion

Requirements/Evaluation: evaluation will be based on class participation and a wide variety of student assignments, ranging from postings to the class Glow site, to short, analytical essays (5 pp.), to field work exercises, to in class presentations

Prerequisites: AMST 201, junior or senior standing, or permission of instructor

Enrollment Preferences: juniors majoring in American Studies

Enrollment Limit: 15

Expected Class Size: 12

Dept. Notes: required of junior majors

Distributional Requirements: Division 2

LEC Instructor: David Romero

AMST 302(F) Environmental Planning Workshop: Community-Based Environmental Problem Solving

Crosslistings: ENVI 411/AMST 302

This interdisciplinary, experiential workshop course introduces students to the field of planning through community-based projects. Environmental Planning encompasses many fields pertaining to the natural and built landscape such as landscape design, agricultural planning, climate planning, transportation planning, and community development. Students will get out of the classroom and gain direct experience working on the planning process in the Berkshire region. The class is organized into two parts. Part 1 focuses on reading and discussion of the planning literature: history, theory, policy, ethics, and legal framework. Part 2 focuses on project work in which students apply concepts learned to tackle an actual community problem. Small teams of students working in conjunction with a client in the region and under supervision of the instructor, conduct a planning project using all the tools of a planner, including research, interviews, survey research, mapping, and site design. The project work draws on students' academic training and extracurricular activities, and applies creative, design thinking techniques to solve thorny problems. The midterm assignment is a creative landscape/site design project. The lab sections include field trips, GIS mapping labs, project-related workshop sessions, public meetings, and in-class project work. The course includes several class presentations and students will gain skills in public speaking, preparing presentations, interviewing, survey research, hands-on design, and team work. The class culminates in a public presentation of each team's planning study.

Class Format: seminar/discussion/group workshop/project lab

Requirements/Evaluation: short written exercises, class discussion, class presentations, final group report

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: ENV 101 or permission of instructor; open to juniors and seniors only

Enrollment Preferences: Environmental Studies majors and concentrators

Enrollment Limit: 16

Expected Class Size: 16

Distribution Notes: does not meet Division 1, 2, or 3 requirements

Distributional Requirements: Non-divisional

AMST 305 The Sociology of Black Religious Experience

Crosslistings: AFR 305/REL 315/SOC 305/AMST 305

The United House of Prayer For All People. The Nation of Islam. New Birth Missionary Baptist Church. The African-American Buddhist Retreat at Spirit Rock Meditation Center. While each of these groups reflects a different spiritual tradition, all are examples of the rich religious expressions of Black

LEC Instructor: Kai Green
AMST 306 Queer of Color Critique: Race, Sex and Urban Life (D)
Crosslistings: WGSS 306/AMST 306/AFR 306/LATS 306/COMP 304
This seminar is an introduction to queer of color critique, a field of scholarship that seeks to intervene in the predominantly white canon of queer studies. We will examine the history of this line of critique, beginning with Black and Chicana feminisms and extending into present day issues and activism highlighting intersectionality, exploring how and why QOCC became a necessary intervention in the then still emerging field of queer studies. Our texts include scholarly works as well as science fiction novels, plays, films, diaries, and graphic novels. Methodologically, we draw on many fields of study, including anthropology, literary studies, feminist studies, and ethnic studies. We focus primarily but by no means exclusively on US contexts, paying particular attention to the role that urban environments have served for queer communities of color. Topics include: feminisms of color, inter-racial desire and fetishization, orientalism and colonial fantasy, black queer science fiction, transgender subjectivities, and the political economy of sexual desire. A key feature of this course will also be the inclusion of numerous and diverse authors to appear on Skype or in person to answer questions about their work as we read it in class.
Class Format: discussion/lecture
Requirements/Evaluation: mid-term essay, choice of final exam essay or 8-10 page research paper, responses to performance/special events
Prerequisites: none
Enrollment Preferences: Women's Gender & Sexuality Studies majors or prospective majors
Enrollment Limit: 15

Not Offered Academic Year 2018
SEM Instructor: Dorothy Wang
AMST 309 Womanist/Black Feminist Thought
Crosslistings: AFR 310/REL 310/WGSS 310/AMST 309
This course explores the genealogy and development of black feminist and womanist thought. We will investigate the expansion of womanist thought from a theologically dominated discourse to a broader category of critical reflection associated with black feminism, and analyze the relationship between womanism and black feminism, and review the historical interventions of black feminism. As critical reflections upon western norms of patriarchy, heterosexism, and racism, womanism and black feminism begin with the assumption that the experiences of women of color—particularly black women—are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Katie Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies. Fulfiling the EDI requirement, this course will explore how womanism/black feminism can be a bridge for empathetic understanding of diverse experiences, and will examine the varied social, political, and historical contexts that led to the formulation of womanism/black feminism as a tool to critique power and privilege.
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, three short response papers, and the completion of an original research paper or project
Prerequisites: none
Enrollment Preferences: African Studies majors, Latina/o Studies majors, Religion majors
Enrollment Limit: 25

AMST 312(S) Chicago
Crosslistings: LATS 312/AMST 312/ENVI 313
The city of big shoulders has plenty of room for diversity," reads the official visitor's website for the City of Chicago. Focusing on this claim, this course focuses on the discourses about what kind room has been made for diversity—social, spatial, and ideological. Additionally we examine the ways in which diverse social actors have shouldered their way into the imagined and physical landscape of the city. Working with ethnography, history, literature, critical essays, and popular culture, we will explore the material and discursive constructions of Chi-Town and urban life among its residents. Appreciating these constructions we also consider how Chicago has served as a key site for understandings of urbanity within a broader national and global context.
Class Format: discussion
Requirements/Evaluation: evaluation will be based on attendance and class participation, group presentations and discussions, 5 critical briefs (2 pages) and a book review (10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none

AMST 313 Gencer, Race, and the Power of Personal Aesthetics (D)
Crosslistings: LATS 313/AMST 313/WGSS 313/AFR 313
This course focuses on the politics of personal style among women of color in an era of viral video clips, the 24-hour news cycle, and e-commerce sites dedicated to the dermatological concerns of "minority" females. With a comparative, transnational emphasis on the ways in which gender, sexuality, ethno-racial identity, and class inform standards of beauty, we will examine a variety of materials including commercial websites, histories, personal narratives, ethnographies, sociological case studies, and feminist theory. What are the origins and development of the fashion industry, and how are the issues of power and privilege, we will engage the following questions: What are the everyday functions of personal style among women of color? Is it possible to assert that an easily identifiable "African American," "Latina," "Arab American," or "Asian American" aesthetic is intimately tied to issues of power and privilege, we will engage the following questions: What role do transnational media play in the development and circulation of popular aesthetic forms? How might the belief in personal style as activist strategy challenge traditional understandings of feminist political activity?
Class Format: seminar
Requirements/Evaluation: participation, one student-led discussion period,
two written essays of 5-7 pages, final take-home exam

Extra Info: may not be taken on a pass/fail basis

Prerequisites: LATS 105, AMST 201, WGSS 101 or permission of instructor; first-year students are not permitted to take this course

SEM Instructor: Maria Elena Capeda

AMST 314 Groovin' the Written Word: The Role of Music in African American Literary Traditions

Crosslistings: AFR 314/AMST 314/COMP 321/ENGL 314

In an interview with Paul Gilroy, Toni Morrison once said, "Music provides a key to the whole medley of Afro-American artistic practices." Morrison is not the only one who believes that music speaks to numerous aspects of the African American experience. From Sterling Brown and Zora Neale Hurston to John Edgar Wideman and Suzan Lori-Parks, many African American authors have drawn on music to take political stands, shape creative aesthetics, and articulate black identity. In this course, students will explore the work of these authors and more, investigating music's ability to represent and critique African American culture in their literature. Texts will cover a range of literary forms including poetry, plays, short stories and novels alongside theoretical and critical essays. Students will discuss such key issues as assimilation and cross-over culture; the role of black music, and music used as a tool for protest. Additionally, class assignments will include musical examples in spirituals/gospel, blues, jazz, and rock/rhythm and blues. Moreover, this class requires students to practice in-depth literary and performance analysis skills, students are not required to have technical musical knowledge.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based upon class participation, short weekly reading responses and/or listening assignments, one 3-page paper, one 6- to 8-page paper comparing two works, one in-class spoken word performance with 2-page report, final presentation

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none; open to all

Enrollment Limit: 20

Expected Class Size: 15

Distribution Notes: meets Division 2 requirement if registration is under AFR or AMST; meets Division 1 requirement if registration is under COMP or ENGL

Distributional Requirements: Division 2

Other Attributes: AMST Core Electives, AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora

Not Offered Academic Year 2018

LEC Instructor: Rashida Braggs

AMST 315 Blackness 2.0: Race, Film and New Technologies

Crosslistings: AFR 315/AMST 315

Media theorists have posed three key questions regarding representations of race (or the lack thereof) within contemporary media forms: (1) Is race a liability in the 21st century where utopian forecasts suggest a race-free or "post-race" future? (2) Is there more to new media and race than assumptions about a "digital divide" in Germany digital technologies? In this course we will respond to these questions by investigating the nuanced ways that race becomes constructed in popular media forms. Although we will largely focus on representations of blackness in modern film, we will also explore the implications of "new" medias and technologies upon the categories of race, gender, and sexuality. We will, for example, consider how avatar-based social and entertainment medias become viable forms for conceptualizing race, and whether or not these formats are somehow "better" spaces in which racialized bodies can exist. Additional discussion topics may include: how racial discourses in the "real world" are (are not) reshaped and redefined in the virtual world; blogosphere politics; social networking; gaming and the virtual world; activism on the web; and fanzine in the twitter era.

Class Format: seminar

Requirements/Evaluation: evaluation based on class participation, maintenance & update of a personal blog (including weekly reading-related posts), & the design of a final, original multimedia project explicitly connected to race & new medias/race & new technologies

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: African Studies concentrators

Enrollment Limit: 13

Not Offered Academic Year 2018

SEM Instructor: Rhon Manigault-Bryant

AMST 316 Sacred Cinema: Black Religion and the Movies

Crosslistings: AFR 316/REL 265/AMST 316

Although they represent different genres, what popular films Madea's Family Reunion (2006), First Sunday (2008), The Princess and the Frog (2009) have in common is that they each offer complex and at times contradictory images of race and race relations. More and more, the African diaspora is at the forefront, and public cultural forms, including those within the realm of the visual, are being transformed. By examining the use of black religious expression pervades modern cinema, and will discuss what appears on screen. Through interdisciplinary, critical approaches to film and popular studies, this course will examine how black religious expression pervades modern cinema, and will offer constructive strategies for engaging in dialogue with this phenomenon.

Class Format: lecture/discussion

Requirements/Evaluation: class participation and film viewings, film analyses and research papers, two written essays of 5 pages each, research seminar; final two-page report, final seminar project

Extra Info: not available for the fifth course option

Prerequisites: Africana Studies concentrators, Religion majors

Enrollment Limit: 13

Expected Class Size: 13

Distributional Requirements: Division 2

Other Attributes: AMST Core Electives, AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, FMST Core Courses

Not Offered Academic Year 2018

LEC Instructor: Rhon Manigault-Bryant

AMST 317(F) Black Migrations: African American Performance at Home and Abroad

Crosslistings: AFR 317/COMP 319/DANC 317/ENGL 317/THEA 317/A

In this course, students will investigate, critique and define the concepts of migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to music. What is the relationship between music and migration and diaspora? How do African American artists engage these processes through their performance practices? This course will examine how performance reflects, critiques and engages themes inherent to the study of religion, such as the role of faith in decision-making processes and the use of religious tradition as a means of resistance to discrimination and domination. Although the focus of the course will be on the use of film to study black religious expression as it is about the use of black religious expression as it is about the use of paradigms of religious thought to study the intersections of gender, race, and religion in film. We will study films of different genres to facilitate discussion about representational dimensions of race and black religious expression. Conviviality will be central to the course. We will use images, metaphors, and teachings found in Religious Studies to discuss what appears on screen. Through interdisciplinary, critical approaches to film and popular studies, this course will examine how black religious expression pervades modern cinema, and will offer constructive strategies for engaging in dialogue with this phenomenon.

Class Format: lecture/discussion

Requirements/Evaluation: class participation and film viewings, film analyses and research papers, two written essays of 5 pages each, research seminar; final two-page report, final seminar project

AMST 318 California: Myths, Peoples, Places (W)

Crosslistings: LATS 318/AMST 318/REL 318/CMP 328/ENVI 318

Crosslisting Between Paradise and Hell, between environmental disaster and agricultural wonderland, between Reagan and Berkeley, between a land of all nations and a land of multiracial enmity, a diversity of myths have been inscribed onto and pursued within the space we call California. How did certain narratives of California come to be, who has imagined California in certain ways, and why? What is the relationship between certain myths, the people who have imagined them, and the other peoples who have shared California dreams? In this course, we will examine some of the myths that surround California by looking at a few specific moments of interaction between the peoples who have come to make California home and the spaces in which they have interacted with each other. Of special interest will be imaginations of the Spanish missions, the Gold Rush, agricultural California, wilderness California, California as "sprawling multicultural dystopia," and California as "west of the west.

Class Format: seminar

Requirements/Evaluation: this course will be mostly discussion oriented,
AMST 319 Ethnographic Approaches to Africana Studies
Crosslistings: AFR 319/SOC 319/AMST 319

Ethnography is the systematic study and recording of human cultures. It involves the collection and analysis of information from multiple sources including (but not limited to) first-person accounts, life histories, interviews, observations, and autobiographical materials. Within Africana Studies, ethnographic approaches have been utilized to reflect complex narratives of black experience throughout the Diaspora. This seminar is a critical introduction to the theory, method, and practice of ethnography in Africana studies. We will explore a variety of cultures and settings, and discuss the practical, methodological, and ethical issues related to ethnography. Three broad questions will dominate our discussions: 1) What are the theoretical, practical, and stylistic tools needed to fashion compelling ethnographies that get to the heart of what it means to document Africana experience? 2) What are the ethical and political implications of representing Africana perspectives in fieldwork studies? 3) What are the strengths and limitations of ethnography as a research method in Africana studies? Each student will utilize the materials covered in the course to research and write his or her own ethnography.

Class Format: Seminar
Requirements/Evaluation: Evaluation will be based upon class participation, weekly response papers, a 5- to 7-page critical book review, and the construction of a mini-ethnography
Prerequisites: None
Enrollment Preferences: Africana Studies concentrators, Women’s, Gender and Sexuality Studies majors, Religion majors
Enrollment Limit: 15
Expected Class Size: 10
Distributional Requirements: Division 2
Other Attributes: AFRC Core Electives, AMST Comp Studies in Race, Ethnicity, Diaspora

SEM Instructor: Jacqueline Hidalgo

AMST 320 Dangerous Bodies: Black Womanhood, Sexuality & Popular Culture
Crosslistings: AFR 320/AMST 320/WGS 320

Whether presented as maternal saints, divas, video vixens, or bitches, black female celebrities navigate a tumultuous terrain in popular culture. This course considers the ways that black female celebrities such as Oprah, Rihanna, Nicki Minaj, Beyoncé, Janet Jackson, and Michelle Obama negotiate womanhood and sexuality, and the popular landscapes through which we witness that negotiation. It also engages contemporary black feminism scholarship, which most frequently presents the presentation of black female bodies in popular media forms as exploitive. We will review historical stereotypes of black women in popular media forms, discuss the history of the “politics of respectability” within black culture, engage black feminist responses to these types, and examine theoretical approaches to assess social constructions of womanhood and sexuality. We will also consider provocative questions relevant to discussions of contemporary black sexual politics: Should we view these women as feminists? Are they merely representatives of cultural commodification and control of black women’s bodies? Do these women best exemplify the reiteration of problematic social constructions of black womanhood and sexuality?

Class Format: Seminar
Requirements/Evaluation: Evaluation will be based on attendance/participation, short response papers, and a midterm and final portfolio

AMST 322(F) Race, Culture, Incarceration (D) (W)
Crosslistings: INTR 322/PSYC 313/AFR 322/AMST 322

This course explores racially-fashioned policing and incarceration from the Reconstruction era convict prison lease system to contemporary mass incarceration and its hybridity with contemporary United States. Also explored will be political imprisonments in the United States.

Class Format: Seminar
Requirements/Evaluation: Brief analytical papers and group presentations

AMST 323(S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora
Crosslistings: AFR 323/AMST 323/ARTH 223/COMP 322/ENGL 356

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as Jeremy Love’s Bayou and Ho Che Anderson’s King: A Comic Biography, this course illustrates and critiques multiple ways the graphic novel commentaries weight and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels and comic strips, with the help of critical essays, reviews and film; the chosen texts will center on African cultures, prompting students to consider how the comic novel may act as a useful alternate history for marginalized peoples. During the course, students will keep a journal with images, themes and reflections and will use Comic Life software and ipads to create their own graphic short stories based on historical and/or autobiographical narratives.

Class Format: Seminar
Requirements/Evaluation: evaluation will be based upon class participation, weekly written responses, student-led facilitation, one 3-page graphic analysis, one 5- to 8-page essay, and a final project (producing a graphic short story with Comic Life)

AMST 327 Asian Diaspora
Crosslistings: LATS 427/REL 314/AMST 327/AFR 357

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as Jeremy Love’s Bayou and Ho Che Anderson’s King: A Comic Biography, this course illustrates and critiques multiple ways the graphic novel commentaries weight and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels and comic strips, with the help of critical essays, reviews and film; the chosen texts will center on African cultures, prompting students to consider how the comic novel may act as a useful alternate history for marginalized peoples. AMST 328 American Social Dramas (W)
Crosslistings: SOC 328/AMST 328/COMP 325/THEA 328
As Shakespeare wrote memorably in As You Like It, “All the world’s a stage, and all the men and women merely players.” Sociologists have heeded Shakespeare’s wisdom, arguing that social and political events are “performances” that take shape in accordance with familiar cultural scripts, and indeed that social actors implicitly interpret real-world events using plot structures from literary and dramatic genres such as romance, irony, comedy, and tragedy. We will explore this thesis through the lens of contemporary American political events, including the Clinton-Lewinsky scandal, September 11, Hurricane Katrina, the 2008 presidential election, and current debates over Confederate symbols, etc. We will give careful attention to the unfolding drama associated with the 2016 presidential election. How do social performances and struggles to “control the narrative” shape the meanings and outcomes of political events? Are they merely “spectacles,” or wellspring authentic civic participation? What role do political comedy, satire, and social media play in shaping the trajectory of contemporary events? Major authors will include Victor Turner, Clifford Geertz, J.L. Austin, Erving Goffman, and Jeffrey Alexander. Throughout the semester, each student will develop a significant project on a political event of his or her choosing.
Class Format: seminar
Requirements/Evaluation: active participation, five 2-page response papers, a 12-page paper that will go through draft and revision stage, and a presentation
Prerequisites: none
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 19
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under SOC; AMST; meets Division 1 requirement if registration is under COMP or THEA
Distributional Requirements: Division 2, Writing Intensive
Not Offered Academic Year 2018
SEM Instructor: Jacqueline Hidalgo

AMST 331(S) New Orleans as Muse: Literature, Music, Art, Film and Theatre in the City
Crosslistings: THEA 330/COMP 330/AMST 331
This course will look at the representation of a city and how it has influenced artists. Students will read, listen to, and view a selection of the literature, music, film and art that represent the city from both pre-flooding and current post-flooding re-building. Reading selections will include examples such as A Streetcar Named Desire (Tennessee Williams), The Moviegoer (Walker Percy), Why New Orleans Matters (Tom Piazza), A Confederacy of Dunces (John Kennedy O’Toole), New Orleans Sketches (William Faulkner), One Dead in the Attic (Chris Rose). Film examples such as A Streetcar Named Desire, An Interview with a Vampire, The Curious Case of Benjamin Button, When the Levees Broke, Treme, Waiting for Godot (in the 9th Ward). Music selections from examples such as Louis Moreau Gottschalk, Jelly Roll Morton, Louis Armstrong, Fats Domino, The Meters, Kermit Ruffins and the Rebirth Brass Band. Art selections will come from a variety of sources such as THE Ogden Museum of Southern Art and Prospect 1, 2, & 3. As Shakespeare wrote memorably in As You Like It, “All the world’s a stage, and all the men and women merely players.” Sociologists have heeded Shakespeare’s wisdom, arguing that social and political events are “performances” that take shape in accordance with familiar cultural scripts, and indeed that social actors implicitly interpret real-world events using plot structures from literary and dramatic genres such as romance, irony, comedy, and tragedy. We will explore this thesis through the lens of contemporary American political events, including the Clinton-Lewinsky scandal, September 11, Hurricane Katrina, the 2008 presidential election, and current debates over Confederate symbols, etc. We will give careful attention to the unfolding drama associated with the 2016 presidential election. AMST 333 An American Family and “Reality” Television (W)
Crosslistings: ARTH 310/WGSS 312/AMST 333/COMP 316
An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called “Reality TV.” In addition to challenging standard rules for television programming, the show challenged traditional social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the “American dream.” Documenting the family’s life over the course of eight months, the series chronicled the dissolution of the Louds’ marriage and broadcast the “coming out” of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program’s historical reception, and analyze its influence on broadcast and film media, particularly on “reality” television. A final 16- to 20-page research paper will be prepared in stages, including a 6- to 8-page mid-term essay that will be revised and expanded over the course of the semester.
Class Format: seminar
Requirements/Evaluation: class presentations, research assignments, and final 16- to 20-page research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: junior majors, followed by senior majors
Enrollment Limit: 15
Expected Class Size: 14
Distribution Notes: meets Division 1 requirement if registration is under ARTH or COMP; meets Division 2 requirement if registration is under AMST or WGSS

SEM Instructor: C. Ondine Chavoya

AMST 334 Sexual Economies (D)
Crosslistings: WGSS 330/AMST 334/ANTH 301
This course examines various forms of sexual labor in a variety of global contexts with an emphasis on contemporary anthropological and sociological research and its implications for public policy. Our topics include: (a) traditional sex work (e.g., pornography, escorting, street prostitution, brothels, sex tourism), (b) sexualized labor without physical contact (e.g., stripping, burlesque, phone/online sex), and also (c) contemporary debates about sex trafficking and sex worker migration. Because of our ethnographic focus, the readings for this class will frequently foreground the lived experiences of sex workers from a variety of nations, races, classes, and backgrounds in order to explore the broader social implications of our subject matter. A key component of this course is a field trip to New York City to meet with sex workers and sex worker rights advocates. (Note: students should be advised that we will necessarily encounter and discuss adult content and images that some may find offensive.)
Class Format: seminar
Requirements/Evaluation: mid-term essay exam, research proposals/annotated bibliography, app 10-15- page final research paper, field trip reaction paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Women’s Gender & Sexuality Studies majors; short statement of interest
Enrollment Limit: 15
Expected Class Size: 20
Distributional Requirements: Division 2, Exploring Diversity
Not Offered Academic Year 2018

AMST 335 Uncovering Williams  
Crosslistings: AMST 335/ARTH 335  
Sparked by current controversies around visual representations at Williams, this course—a joint effort of the Williams College Museum of Art and the American Studies Program—interrogates the history of the college and its relationship to race, gender, and class. Students in this course will examine the visual and material culture of Williams and the land it occupies to uncover how the long and complex history of the college reverberates in the spaces and places students, faculty, and staff traverse daily. We will take seriously the ways that objects and environments are not neutral nor are the atmospheres that they reflect and produce. Our interdisciplinary approach draws from the methods and theories of American Studies, art history, material culture studies, critical race theory, gender studies, and eco-criticism. Topics of discussion include: the conceptual foundations of Enlightenment, assimilation, and displacement of native populations; buildings, objects, and monuments linked to Williams’ evangelical history and the role of missionaries in American imperialism; and the symbolic meaning of the varied architectural styles at the college; and the visibility/invisibility of the college’s relationship to slavery and Abolitionism.

Class Format: Seminar  

Requirements/ Evaluation: Participation (Discussion, GLOW posts), 2-3 short papers, 3-5 to 6-page midterm paper, and a 10- to 12-page final project (either a research paper or a substantial arts-type project) + bibliography  
Extra Info: May not be taken on a pass/fail basis  
Prerequisites:  
Enrollment Preferences: AMST majors  
Enrollment Limit: 19

AMST 336T Two American Poets: Wallace Stevens and John Ashbery (W)  
Crosslistings: AMST 336/ENGL 320/COMP 335  
This tutorial focuses on the work of two major American poets who are known for their "difficult" poetry. In some respects, Stevens (1879-1955) and Ashbery (b. 1927) book-end twentieth-century poetry: Stevens is a major Modernist poet, perhaps the most philosophically oriented American poet of the twentieth century, and Ashbery is considered by most critics to be the most important American poet alive. Students will do close readings of their poems (and one play, “Three Travelers Watch a Sunrise”, by Stevens), as well as read their writing on poetry and art. We will discuss the overlaps between Stevens’ and Ashbery’s work and lives—their having grown up in the Northeast and attended Harvard, what some see as the abstractness of their writing, their mastery of tone, among others—but also the differences: Ashbery’s sexuality, his having lived in France, the supposedly more “avant-garde” nature of Ashbery’s work, and so on. Along the way, we will ask questions about the nature of poetic difficulty, of abstraction, of the (lyric) poetic speaker in their works, of poetic tone, of the link between the poem and the world (e.g., in description), of the thinking and philosophizing that poems do. We will also ask about their links to major poetry “movements” (Modernism, the New York School) and pose questions that are rarely asked about their poetry, such as “What are the politics, implicit and explicit, in their poems?” “What do their poems say about their own lives?” “What assumptions about race, gender and class are embedded in their poetry?” And, always, we will be paying close attention to the question of form and language in Stevens’ and Ashberry’s poetry.

Class Format: Tutorial  
Requirements/Evaluation: typical tutorial format; papers every other week  
Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option  
Prerequisites: none  
Enrollment Preferences: ENGL majors, COMP majors, AMST majors; preference will be given to students who have already taken at least one literature class  
Enrollment Limit: 10  
Expected Class Size: 10

AMST 338F The American Renaissance  
Crosslistings: ENGL 338/AMST 338  
"The American Renaissance" is the name given to US literature from 1830-1860. The explosive cultural energy of this period resulted from a multitude of ideas, practices and formations: the unprecedented spread of empire under the banner of "manifest destiny"; the formation of the white middle class; the consolidation of pro- and anti-slavery political factions; religious and spiritual experimentation; new, contested definitions of self, work, race, class and gender; and the looming Civil War. In short, a historical moment not unlike our own. If you want to understand contemporary American culture, the mid-19th century provides an uncanny key. We will read works by Emerson, Thoreau, Douglass, Jacobs, Whitman, Poe, Hawthorne, Dickinson, Melville, and a host of lesser known writers. We will also make constant reference to contemporary American literature, music, and art.

Class Format: Seminar  

Requirements/Evaluation: 3 papers totaling about 15 pages, class participation, and participation in the final course project  
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam  
Enrollment Preferences: English majors, American Studies majors  
Enrollment Limit: 20  

Expected Class Size: 20  
Distribution Notes: meets Division 1 requirement if registration is under ENGL; meets Division 2 requirement if registration is under AMST

AMST 339 Latin/o Musical Cultures: Sounding Out Gender, Race, and Sexuality (D) (W)  
Crosslistings: LATS 338/AMST 339/WGSS 338  
In this class we will investigate a wide variety of Latin/o popular musical and dance forms, with particular emphasis on questions of gender, sexuality, and ethno-racial identity. Employing interdisciplinary materials and approaches, this course focuses on the sonic and visual analysis of contemporary Latin/o popular music and the identities of its producers, performers, and audiences. We will focus on the following questions, among others: How are the various facets of Latin/o identities expressed through popular music and dance? In what ways do gender, sexuality, and ethno-racial identity inform the performance and interpretation of particular Latin/o musical forms? What unique role does sound play in our understanding of popular music and identity?  

Class Format: Seminar  

Requirements/Evaluation: class participation, one semester-long original research project conducted in stages  
Extra Info: May not be taken on a pass/fail basis  
Prerequisites: prior courses in AMST, LATS, or WGSS; not open to first-year students  
Enrollment Preferences: Latin/o Studies concentrators, Women's Gender, and Sexuality Studies majors, and American Studies majors by seniority  
Enrollment Limit: 12  
Expected Class Size: 12

AMST 341 American Genders, American Sexualities (D)  
Crosslistings: ENGL 341/WGSS 342/AMST 341  
This course investigates how sexual identities, desires, and acts are represented and reproduced in American literary and popular culture. For much of the 20th century, two culturally rich periods—roughly 1880-1940 (when the terms "homosexual" and "heterosexual" came to connotes discrete sexual identities), and the contemporary context of the "postmodern" 21st-century—we will explore what it means to read and theorize "queerly." Among the questions we will ask: What counts as "sex" or "sexual identity" in a text? Are there definably lesbian, gay, bisexual, queer or transgender writing styles or cultural practices? What does sexuality have to do with gender? How are sexual subjectivities intertwined with race, ethnicity, class, and other identities and identifications? Why has "queerness" proven to be such a powerful and sometimes powerfully contested concept? We will also explore what impact particular historical events, such as the rise of sexology, the Harlem Renaissance, and the emergence of a transgender movement have had on queer cultural production. Readings may include works by the following authors: Butler, Cather, Díaz, Ferguson, Fitzgerald, Foucault, Freud, Hammonds, Hughes, James, Larsem, Lorde, Muñoz, Rich, Rodriguez, Sedgwick, and Stein, and as well as screenings of contemporary videos and films. This course meets the Writing Intensive Requirement in that it focuses on empathetic understanding, power and privilege, and critical theorization, especially in relation to race, gender, sexuality, class and ethnicity within a U.S. context.

Class Format: Discussion Seminar  
Requirements/Evaluation: active class participation, several short writing assignments, two 5-page papers, and one 8- to 10-page paper  
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 on the Higher Level IB English exam  
Enrollment Preferences: English majors and/or students interested in WGSS  
Enrollment Limit: 25

AMST 343(T) Representations of Racial-Sexual Violence from Enslavement to Emancipation (D) (W)
Crosslistings: INTR 343/WGSS 343/AFR 343/AMST 343
This tutorial examines representations of and resistance to racial-sexual violence in American society, from colonial America to contemporary US culture. Interdisciplinary texts cover history, politics, literature, film, feminist studies, American studies, lbqt and ethnic/black studies. Books include Southern Horrors: Intimate Matters; Scenes of Subjection: Trauma and Recovery; Three Churchwomen Abroad; Dark End of the Street; films include Birth of a Nation; Bush Mama; To Kill a Mockingbird. The primary focus is on racial and sexual vulnerability to violence and mobilization for freedom from the 18th-21st centuries.

Class Format: tutorials provide primary and response papers and discuss their analyses and theories of social and interpersonal violence.

Requirements/Evaluation: weekly primary and response papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: permission of instructor required
Enrollment Preferences: permission of Instructor is required; preference given to juniors and seniors
Enrollment Limit: 10
Expected Class Size: 8

AMST 345 Contemporary Theatre and Performance Crosslistings: THEA 345/ENGL 349/COMP 355/AMST 345
As Gertrude Stein once remarked, "The hardest thing is to know one's present moment." What is going on in theatre and performance today? What are the hot topics? Who are the writers, performers, and directors of our recent past and present moment? This seminar course will consider both experimental and mainstream drama and performance mainly in the U.S. from the past twenty years, focusing on topics such as: postmodern performance, theatre of images, auteur-directors, new realism, identity theatre, eco-theatre, performance art, postdramatic theatre, devised performance, virtual theatre, immersive theatre, social practice, neo-collectivism, and more. As part of the seminar, students will conduct individual research on selected topics and present their findings through oral reports. Students will be required to attend theatre, dance and other performances at the '82 Center. Artists and groups considered may include: The Wooster Group, Richard Foreman, Meredith Monk, Andy Albee, Maria Irene Fornes, Sam Shepard, Caryl Churchill, Tony Kushner, Suzan-Lori Parks, Sarah Kane, Will Eno, Richard Maxwell, Young Jean Lee, Annie Baker, Branden Jacobs-Jenkins, Quiara Alegria Hudes, Anna Washburn, Elevator Repair Service, Nature Theatre of Oklahoma, The Civilians, and many others. As a final project, students will work individually or in small groups to create a script or short performance that addresses the question: "What is the most important story to be telling right now?"

Class Format: seminar
Requirements/Evaluation: evaluation will be based on written and dramaturgical-based assignments, an oral presentation, as well as in-class discussions and a final writing and performance project
Prerequisites: introductory course in THEA, ENGL, ARTH, COMP, or AMST
Enrollment Preferences: Theatre, Art History/English or Comparative Literature major
Enrollment Limit: 18
Expected Class Size: 16
Distribution Notes: meets Division 1 requirement if registration is under THEA, COMP or ENGL; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 1 Not Offered Academic Year 2018
SEM Instructor: Amy Holzapfel

AMST 346(F) Latinas/os and the Media: From Production to Consumption (D) (W)
Crosslistings: LATS 346/AMST 346
This interdisciplinary course focuses on the areas of Latinas/os media production, policy, content, and consumption in an attempt to answer the following questions, among others: How do Latinas/os construct identity (and have their identities constructed for them) through the media? How can we best understand the complex relationship between consumer, producer, and media text? How are Latinas/os stereotypes constructed and circulated in mass media? Where do issues of Latinas/o consumer agency come into play? In what ways does this practice impact our understanding of ethno-racial identities, gender, sexuality, class, language, and nation?

Class Format: seminar
Requirements/Evaluation: evaluation to be based on student participation, one 2- to 3-page close reading exercise, and an original 12- to 15 page research paper conducted in stages

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: LATS 105 or permission of the instructor; no first-year students are permitted to take this course
Enrollment Preferences: Latin/o Studies concentrators or American Studies majors by seniority
Enrollment Limit: 12
Expected Class Size: 12
Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, FMST Core Courses, FMST Related Courses, offered in conjunction with LATS Electives

AMST 348(F) Drawing Democracy: Graphic Narratives as Democratic Ideals Crosslistings: LATS 348/AMST 348/COMP 348
This course examines the graphic narrative in terms of how each artist or narrator employs narrative technique (plotting, structure, characterization, text, and visuals) to express social realities within the context of democratic ideals. The primary focus will be on texts that explore themes of democracy and Latinidades. We will also discuss the "graphic activism" of artists like Sharon Lee De La Cruz of Digital Citizens Lab, a design collective with a focus on civic technology. Throughout the course, students will have the opportunity to create their own graphic narratives, experiment digitally or in print. Possible guest speaker: comic book artist Ivan Vélez (Planet Bronx, 2015 Creative Capital Award in Visual Arts).

Class Format: seminar
Requirements/Evaluation: evaluation will be based on attendance and class participation, short writing exercises, 4-5 page midterm paper (close-reading a text), 10-15 page final creative paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

AMST 349 Sexuality and US Literatures of the 19th Century (D)
Crosslistings: ENGL 329/AMST 349/WGSS 329
If homosexuality and heterosexuality, as it is commonly argued, only came into being as legible identities at the end of the nineteenth century, what constituted "sexualities" before that? This course will explore how sexualities were expressed, regulated, denied and embraced "before identity" through reading closely some of the most central literary and cultural works of the period alongside a set of methodologically and theoretically diverse critical works that engage this query. Some questions we may explore include: What counts as sex and why would that be important to understanding a work of literature? What effect does race, ethnicity, gender, class and other differences make on sexual expression and regulation? How does literature itself represent, theorize, and respond to discourses of desire? Authors whose works we may explore include Emily Dickinson, Frederick Douglass, Harriet Jacobs, Henry James, Herman Melville, and Ralph Waldo Emerson.

Class Format: seminar
Requirements/Evaluation: engaged and thoughtful discussion, in-class writings, oral presentation, one 5- to 7-page paper and one 8- to 10-page paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: ENGL, WGSS, and AMST majors
Enrollment Limit: 19
Expected Class Size: 19
Distribution Notes: meets Division 1 requirement if registration is under ENGL, meets Division 2 requirement if registration is under AMST or WGSS
Distributional Requirements: Division 1, Exploring Diversity
Other Attributes: ENGL Literary Histories B
Not Offered Academic Year 2018

AMST 352 Grassroots Organizing and Civil Resistance
This course examines the ways that ordinary people exercise collective power to influence elites, access resources, and even topple authoritarian regimes. We will explore a variety of case studies—from the U.S. labor movement and urban community organizing, to recent direct action campaigns to prevent climate catastrophe—in order to gain insight into the art and science of grassroots mobilization. The class will make use of scholarship from the fields of history, sociology, and peace studies to probe the nature of political consent and the efficacy of forms of nonviolent action, such as boycotts, strikes, and blockades. Most importantly, however, we will draw from the personal expertise, tool kits, and training manuals of on-the-ground organizers to develop practical skill sets that can be applied in a variety of settings. Students will gain hands-on experience with important
organizing techniques, such as power-mapping, 1-on-1 conversations, and action scenario planning. We will also consider the importance of expressive cultures and artistic practices to social change efforts, and delve into abiding challenges, such as building coalitions across race and class differences. The course will prove useful for those considering careers in social work, the labor movement, international NGOs, the law, public education, or political journalism.

Class Format: seminar
Requirements/Evaluation: attendance and participation; in-person skills assessment, group project; short essay-style final exam.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none
Enrollment Preferences: American Studies majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2

Not Offered Academic Year 2018

SEM Instructor: Andrew Cornell

AMST 354(F) Asian American Literature: Fiction and Creative Nonfiction (D) (W)
Crosslist: ENGL 354/AMST 354

This tutorial is for students who want an opportunity to explore some of the wonderful fiction and creative nonfiction written by Asian American writers over the past hundred years. This course will be perfect both for students who are already familiar with Asian American studies and literature and want to dive deeper into one of the rich Asian American literary traditions (its prose: novels, memoirs, and short stories), as well as for students who are new to Asian American literary studies and want an introduction to this exciting and important too-little-explored side of American literature. The tutorial format will make it easy to pair students based on their level of familiarity with Asian American history and literature. Likely readings include: Carlos Bulosan's America is in the Heart (1946); John Okada's No-No Boy (1957); Maxine Hong Kingston's Woman Warrior (1976); Chang-rae Lee's Native Speaker (1995); lí thi diem thú; The Gangster We Are All Looking For (2003); Rajesh Parameswaran, I Am An Executioner: Love Stories (2012); Celeste Ng, Everything I Never Told You (2014); Viet Thanh Nguyen, The Sympathizer (2015); and The Collected (2013) by Williams College's own Karen Shepard (an historical novel about the experience of Chinese laborers in 1870's North Adams). As we read, we will attend to the various ways in which the often difficult, and sometimes traumatic, historical experiences of Asian Americans have informed their acts of literary invention. And in order to better understand the broader, ever shifting, social contexts in and against which these literary works were created, we will supplement our primary readings with texts that discuss the experiences of Asian Americans from a historical and sociological perspective. Students who take this course should be prepared to read one book and two or three supplementary historical/theoretical essays each week. This course fulfills the EDI requirement, as it engages questions of power and privilege, and the coded representation of racial or ethnic others.

Class Format: tutorial
Requirements/Evaluation: quality of tutorial papers and participation during tutorial discussions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level English course; not open to first-year students
Enrollment Preferences: none; if the course is over-enrolled, I may ask students to send me an email explaining why they would like to take this course

Enrollment Limit: 10
Expected Class Size: 10
Distribution Notes: meets Division 1 requirement if registration is under ENGL; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 1; Exploring Diversity, Writing Intensive

AMST 359(S) Spirits of Rebellion: The L.A. Rebellion Filmmakers

When Beyoncé unveiled the Lemonade visual album in 2016, her production captured the artistic spirit and gave new life to an earlier work: Julie Dash's Daughters of the Dust (1991), a luminous film about three generations of the Gullah people and the first motion picture by a Black woman to obtain wide theatrical release in the United States. Many, however, are unaware of the decades-long cinematic movement to which Dash belongs. In this course, we will devote our critical inquiry to the creative output of the L.A. Rebellion, a group of Black Cinematic artists trained at the UCLA Film and Television School between the 1960s and 1990s. Our visual journey will take us through a diverse set of filmmakers like Charles Burnett, Ben Caldwell, Barbara McCullough, Julie Dash, Zeinabu irene Davis, Haile Gerima, Alile Sharon Larkin, and Madeleine Woodruff. Among many others, they sought to not only redefine the Black image on-screen but also reimagine the infinite possibilities of Blackness. We will pay close attention to the heterogeneity of genres, styles, and techniques that they put into practice from narrative to neorealism to documentary to avant-garde/experimental to African and African American musical and storytelling traditions. We will explore

various social and political issues that were represented by their films including: racial and class oppression, woman of color feminisms, Black Power, Afrocentrism, anti-colonialism and decolonization, police brutality and mass incarceration, radical social movements and coalition building, and the importance of community-based art and film practices. Finally, we will touch upon some of the recent works that have been inspired by the L.A. Rebellion, including the aforementioned Lemonade and Barry Jenkins' Moonlight (2016). Our viewership will be supplemented with readings in Black social and cultural criticism.

Class Format: seminar
Requirements/Evaluation: attendance and participation; weekly online journal responses (1-2 pages); midterm essay (5-7 pages); final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

AMST 364(F) History of the Old South
Crosslistings: HIST 364/AFR 364/AMST 364

During the course of the semester, we shall introduce two broad, interconnected topics: slavery in the antebellum South, and the impact of slavery on Southern civilization. We will primarily work in the first half of the course, we shall look at subjects like the foreign and domestic slave trade, patterns of work and treatment, the nature of the master-slave relationship, race and slavery, and family life. The second half of the course will concentrate on the influence of the institution of slavery on the mind, social structure, and economy of the Old South, and slavery's impact on Southern politics and the decision for secession in 1860.

AMST 379(F) American Pragmatism
Crosslistings: PHIL 379/AMST 379

Along with jazz, pragmatism stands as the greatest uniquely American contribution to world culture. As the music wails in the background, we will study the classic pragmatists: William James, C. S. Peirce, and John Dewey. We will continue with the contemporary inheritors of the tradition: Cornel West, Richard Rorty, and Hilary Putnam. Although it has influenced both analytic and continental philosophy, pragmatism is a powerful third philosophical movement. Always asking what practical difference would it make if we adopted X, Pragmatism assumes that the logic of the world is that of life. Pragmatists accept the indeterminacy of all domains, except that of the world of action. Pragmatism is an alternative to the concept of a fixed meaning in a fixed world. It is a more democratic philosophy, from epistemology and metaphysics to ethics and religion. Rather than seeing philosophy as an esoteric discipline, the pragmatic philosophers (with the possible exception of Peirce) see philosophy as integral to our culture and see their role as public intellectuals.

AMST 403 New Asian American, African American, Native American, and Latina/o Writing (D)  
Crosslistings: AMST 403/COMP 375/ENGL 375/AFR 333/LATS 403  
Critics reading minority writing often focus on its thematic—i.e., sociological—content. Such literature is usually presumed to be inseparable from the "identity/body of the writer and read as autobiographical, ethnographic, representational, exotic. At the other end of the spectrum, avant-garde writing is seen to concern itself "purely" with formal questions, divorced from the socio-historical (and certainly not suffiled by the taint of race). In the critical frameworks of cultural studies and critical media literacy, avant-garde writing, genre categorization, among other things. The writing done by these mostly young, mostly urban, poets and fiction writers is some of the most exciting being written in the United States today; their texts push the boundaries of aesthetic form while simultaneously engaging questions of culture, identity, and race. We will closely read recent work by Asian American, African American, Native American and Latino/a writers which challenges preconceptions about ethnic literatures. The avant-garde writing we will explore is not written in opposition to, and as the opposite of, the received notions about the writer. Authors to be read include Will Alexander, Sherwin Bitsui, Monica de la Torre, Sesuush Foster, Renee Gladwell, Stan Filippo, Taylor Johnson Lin, Ed Roberson, James Thomas Stevens, Roberto Tejada, and Edwin Torres.  
Class Format: seminar/discussion  
Requirements/Evaluation: evaluation will be based on either one 16- to 18-page seminar paper or two shorter papers (one 7-8 pages and one 9-10-page seminar paper or two shorter response papers per semester).

AMST 407(S) The Culture and Politics of Neoliberalism  
Neoliberalism is, in essence, the belief that unencumbered market mechanisms will maximize prosperity and happiness. Over the past forty years this idea has come to shape the global economy, the way governments function, and how individuals conduct themselves and view their relations with other people. However, political movements around the world have challenged these principles — pointing to growing wealth gaps, environmental destruction, and, in the process, help envision and create different world orders. We will focus on the role of history, particularly slavery, in the Black, post-colonial, and feminist imagination. "Freedom" is the keyword throughout the course. We will grapple with the various and sometimes conflicting meanings and uses of freedom as it relates to blackness, gender, sexuality, class and ability. We will explore multiple forms of science fiction and cultural productions, including film, music, novels, short-stories, art, poetry, and other academic texts. All students will be asked to discover and develop their writerly voices through various critical, creative, experimental and performative assignments.  
Class Format: seminar

AMST 408 Envisioning Urban Life: Objects, Subjects, and Everyday People (D)  
Crosslistings: LATS 408/AMST 408  
What is the relationship between real life in urban communities and the multiple ways in which they are imagined? What does it mean to be "urban," to live in an "urban community," or to be part of an "urban environment"? Who do we think the people are who populate these spaces? This course takes a critical look at these questions by examining some of the problems that have come to dominate and characterize our conceptions of the quality, form, and function of U.S. urban life. A few of the topics we may cover include historical accounts of the varied ways in which poverty and "urban culture" have been studied; race, class, and housing; the spatial practices of urban youth and the urban elderly; and gendered perspectives on social mobility and community activism. Finally, this course will explore how diverse social actors negotiate responses to their socio-spatial and economic circumstances, and, in the process, help envision and create different dimensions of the urban experience. The course fulfills the Exploring Diversity
AMST 410 Black Literary and Cultural Theories
Crosslistings: AMST 410/COMP 410/ENGL 410/AFR 354
This course will examine the writings of black twentieth- and twenty-first-century Anglophone and Francophone literary and cultural theorists in the African diaspora. We will begin with Sojourner Truth and W.E.B. Du Bois and end with current debates between the “Afro-Pessimists” and “Afro-Optimists.” We will read a range of works from the United States, Britain, Africa, the Caribbean, and Europe. We will see that there is no easy separation between questions of politics (e.g., anti-colonialist, anti-racist, anti-capitalist) and those of aesthetics and poetry.
Class Format: Seminar
Requirements/Evaluation: midterm, participation (attendance, discussions, GLOW posts), short paper (4-5 pp.), two response papers (2-3 pp. papers), final project (10-12 pp.: analytical paper)

AMST 411 Transnationalism and Difference: Comparative Perspectives (D) (W)
Crosslistings: LATS 409/AMST 411/WGSS 409
In the age of satellite television, e-mail, and mobile applications such as WhatsApp and Skype, transnational living has rapidly emerged as the norm, as opposed to the exception. However, what does it really mean to “be transnational”? How are the lived experiences of transnational individuals and communities shaped by categories of difference such as gender, ethno-racial identity, sexuality, and class? How do the growing number of transnational citizens and residents in the U.S. have on our understanding of “American” identity in the local, national, and global contexts? In this interdisciplinary, comparative course we will analyze recent theories regarding the origins and impacts of transnationalism. Particular attention will be paid throughout the semester to the interplay of gender, ethno-racial identity, sexuality, and class in connection with everyday transnational dynamics. The broad range of case studies examined includes China, Colombia, the Dominican Republic, Haiti, Mexico, the Philippines, Puerto Rico, and Middle East.
Class Format: Seminar
Requirements/Evaluation: evaluation to be based on student participation, an original 12-page research paper conducted in stages, and peer evaluation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: LATS 105, WGSS 101 or AMST 201; junior or senior standing
AMST 412 An Infinity of Traces: Haunting, Historical Violence, and Alternative Futures (D)
Crosslistings: AMST 412/COMP 412
Course Description: In Prison Notebook s, Antonio Gramsci writes that history has “deposited in you an infinity of traces, without leaving an inventory.” In this seminar, we will read a diverse array of interdisciplinary, and mixed media approach to inventory some of these uncanny traces as they manifest in historical trauma, commemoration, and mourning. We will read texts of mass incarceration, representation of racism, and historical violence. Animated by a whole host of names like “ghost,” “spirit,” “specter,” “zombie,” “things that go bump in the night,” “the unborn,” or “the undead,” we will ask what other stories/other knowledges these haunting and haunted flows might seek to tell us. How do they dis-order our experience of a modern world whose space/time is shaped by ongoing processes of chattel slavery, settler colonialism, capitalism, mass incarceration, immigration, imperialism, militarism, and war? How do they unsettle, arrest, disrupt, and even seek revenge for a “common sense” that is structured in human dispossession, exploitation, repression, and death? Finally, how do they leave us with a radical urgency to.unlearn and reorient our ways of knowing, being, living, and thinking toward alternative futures where such systems of power and domination can be dismantled for good? Texts to be considered may include: All They Will Call You by Tim Z. Hernandez, The Lone Ranger and Tonto Fistfight in Heaven and short stories by Sherman Alexie, Lose Your Mother by Saidiya Hartman, Burning Vision by Maria Clemente, The Ganges: We Are All Lovers of the Dust) by Julie Dash, and The Watermelon Woman by Cheryl Dunye.
Class Format: Seminar
Requirements/Evaluation: attendance and class participation; weekly journal entries (1-2 pages); in-class group presentation; midterm paper (5-6 pages); final creative project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: American Studies majors
Enrollment Limit: 15
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 2
Other Attributes: AMST Comparative Studies in Race, Ethnicity, and Diaspora Electives, AMST 400-level Senior Seminars, AMST Critical and Cultural Theory Electives
Fall 2017

AMST 440 Racial Capitalism
Crosslistings: AMST 440/AFR 342
This class will interrogate the ways in which capitalist economies have “always and everywhere” relied upon forms of racist domination and exclusion. Although the United States was in the foreground, the subject requires an international perspective by its very nature. We will consider the ways in which the violent expropriation of land from the indigenous peoples of the Americas, paired with chattel slavery and other coercive forms of labor, made possible the rise of a capitalist world economy centered in Europe during the early modern period. We will then explore ways racial divisions have undermined the potential for unified movements of poor and working people to challenge the prerogatives of wealthy citizens, and served to excuse imperial violence waged in the name of securing resources and “opening markets”. Ideas about gender and sexuality always undergird racial imaginaries, so we will study, for instance, the ways rhetoric about “welfare queens” has impacted public assistance programs, and claims about the embodiment of Asian women play into the international division of labor. We will also be attentive to the means - from inter-racial unionism to national liberation struggles - by which subjects of racial capitalism have resisted its dehumanizing effects. This is a reading intensive course that will challenge students to synthesize historical knowledge with concepts drawn from scholars working in the traditions of Marxist, decolonial, and materialist feminist thought, including: Angela Davis, Cedric Robinson, Anabai Quijano, Chandra Mohanty, David Roediger, Stuart Hall, Ruth Wilson Gilmore, and Silvia Federici
Class Format: Seminar
Requirements/Evaluation: attendance and participation; a written mid-term exam; one in-class presentation; research paper proposal; 12-16 page research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: previous course work in race and ethnicity, critical studies in neoliberalism or political economy, or permission of the instructor
Enrollment Preferences: American Studies majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2
Other Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora, AMST 400-level Senior Seminars, AMST Space and Place Electives
Not Offered Academic Year 2018
SEM Instructor: Andrew Cornell
AMST 456(F) Civil War and Reconstruction
Crosslistings: HIST 456/AFR 385/AMST 456
An examination of one of the most turbulent periods in American history, with special emphasis on the changing status of Afro-Americans during the era. During the war years, we shall study both the war itself and homefront conditions: military, naval, political, economic, and especially social aspects
will be examined in some detail. Our study of Reconstruction will concentrate on the evolution of federal policy toward the Southern states and the workings out of that policy in the South, particularly as it relates to the freedmen.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation based on class participation and a substantial research paper based at least in part on primary source materials

**Enrollment Limit:** 15

**Expected Class Size:** 15

---

**AMST 462(F) Art of California: Pacific Standard Time (D) (W)**

**Crosslistings:** ARTH 462/AMST 462/LATS 462/ARTH 562

In this course, we will examine the development of art in California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American artists, Chicano and Chicana artists, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of artists, art critics, and curatorial practice in contemporary art history. In fall 2017, a new Getty PST initiative focused on Latin American art and this class will examine and critique these exhibitions as well. This course fulfills the Exploring Diversity Initiative requirement as it offers students a comparative study of cultures and societies and various interdisciplinary perspectives on the art and visual culture of a specific region.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on several short writing assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course repetition

**Prerequisites:** ARTH 102

**Enrollment Preferences:** senior Art major and senior Latina/o Studies concentrators

**Enrollment Limit:** 15

**Expected Class Size:** 15

**Distribution Notes:**

**Distributional Requirements:** Division 1, Exploring Diversity, Writing Intensive

**Other Attributes:** AMST Arts in Context Electives, AMST Space and Place Electives, ARTH post-1600 Courses, LATS Comparative Race + Ethnic Studies Electives

---

**AMST 465 Race and Abstraction**

**Crosslistings:** AMST 465/AFR 362/COMP 465/ENGL 326

Minority artists—writers and visual artists mainly and, to a lesser degree, musicians—often create a “race-bend”* when creating works of art: the expectation is that they, like their racially marked bodies, will exhibit their difference by means of concrete signifiers (details, tropes, narratives, themes) of racial difference. Thus, the work is judged primarily in terms of its embodied sociocultural content (material, empirical) and not by “abstract” standards of aesthetic subtlety, philosophical sophistication, and so on. At the same time, in the popular and academic imaginary, minority subjects and artists occupy a single abstract signifying category—homogeneous, undifferentiated, “other,” marginalized, non-universal—while racially “unmarked” (white) artists occupy the position of being universal and individual at once. The irony, of course, is that, say, an African American poet’s being read as an abstract signifier does not mean that individual at once. The irony, of course, is that, say, an African American “unmarked” (white) artists occupy the position of being universal and artists poets occupy a single abstract signifying category.

This course will spend the final weeks of the semester discussing examples from the art exhibitions, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of artists, art critics, and curatorial practice in contemporary art history. In fall 2017, a new Getty PST initiative focused on Latin American art and this class will examine and critique these exhibitions as well. This course fulfills the Exploring Diversity Initiative requirement as it offers students a comparative study of cultures and societies and various interdisciplinary perspectives on the art and visual culture of a specific region.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on several short writing assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course repetition

**Prerequisites:** ARTH 102

---

**AMST 469 Notions of Race and Ethnicity in American Culture (D)**

**Crosslistings:** HIST 469/AMST 469

While “race” and “ethnicity” have always played fundamental roles in shaping the policies and practices of American culture and the definition of who is or who can be “American,” our understanding of these concepts of race and ethnicity has often been less than clear. The purpose of this seminar is to examine how Americans have defined and articulated the concepts of race and ethnicity at various points in our history and how these ideas have been expressed in art, policy, practice, and theory. This course fulfills the Exploring Diversity Initiative because it examines various dynamics of power structures based on race and ethnic politics, as well as class and gender relations.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on several short writing assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course repetition

**Prerequisites:** previous upper division HIST courses

**Enrollment Preferences:** senior History majors

**Enrollment Limit:** 15

**Expected Class Size:** 10-15

**Distribution Notes:**

**Distributional Requirements:** Division 2, Exploring Diversity, Related Courses, HIST Group F Electives - U.S. + Canada

**Not Offered Academic Year 2018**

**SEM Instructor:** Scott Wong

---

**AMST 478 Cold War Landscapes**

**Crosslistings:** HIST 478/ENVI 478/AMST 478

The Cold War between the United States and the Soviet Union set in motion dramatic changes to the natural and built environments of many nations between 1945 and 1991. Nuclear test and missile launch sites, naval installations, military production operations, and border securitizations are just a few of the most obvious ways in which the stand-off between the two countries altered urban and rural landscapes around the world. But one can also see the Cold War as setting in motion less immediately direct but nonetheless profound changes to the way that many people saw and planned for the environments around them, as evidenced, for instance, by the rise of national parks and other kinds of protected lands, the reconstruction of postwar Europe, and cultural and industrial initiatives in many developing nations. We will begin this seminar by exploring several distinct “Cold War landscapes” in the United States, then move on to examining others in Europe and the Soviet Union. We will spend the final weeks of the semester discussing examples from other parts of the world. Our approach to our topics will be interdisciplinary throughout the semester, and students are welcome to write their research papers on any geographical area of the world.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on several short writing assignments, oral presentations, and a final research paper of 16-20 pages written in stages over the course of the semester

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course repetition

**Prerequisites:** none

**Enrollment Preferences:** History, Environmental Studies majors if over-enrolled

**Enrollment Limit:** 10

**Expected Class Size:** 15

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

**Other Attributes:** AMST Space and Place Electives, HIST Group C Electives

---

64
The disciplines of anthropology and sociology aim to teach students how to enter into the social/cultural worlds of others, how to grasp those worlds from the viewpoints of their inhabitants, and how to articulate those denizens’ habits of mind, worldviews, and values to broader audiences.

Anthropology critically analyzes social forms and practices in all their local and global diversity, illuminating the cultural grounding of the ideologies, narratives, and structures in which we are all implicated. Archaeology extends this analysis to social formations of the historical and prehistorical past. Sociology studies the nature and trajectories of modernity, examining the intricacies of industrial and post-industrial societies and the dilemmas that confront individuals in modern social systems. These disciplines introduce students to classical and contemporary theories that illuminate the contours and contradictions of social experience. The Anthropology & Sociology program promotes a critical engagement with these theories while at the same time bringing evidence and case studies into conversation with theory.

The Department emphasizes qualitative fieldwork in its many forms. We teach students how to formulate, frame, and address intellectual problems. We also teach students the empirical methods widely used in anthropology, sociology, and other related disciplines, including, but not limited to ethnography, participant observation, interviewing, discourse and visual analysis, archival research, oral history, and archaeological methods.

Because the program emphasizes critical thinking skills to assess social claims made by others, and the application of anthropological and sociological skills to present day concerns, undergraduate training in Anthropology or Sociology has proven invaluable to majors pursuing a range of careers, including public policy, diplomacy, international development, marketing, social media development, K-12 education, journalism, medicine, and law.

MAJORS

The department offers separate majors in both Anthropology and Sociology, with a broad and diverse array of courses in both disciplines. The department is committed to providing a quality education in the social sciences. To this end, Anthropology and Sociology offer joint core courses in methodology and theory, as well as several elective courses in common. All joint courses are designated “ANSO.”

Requirements

For the degree in Anthropology or Sociology, students must complete a minimum of nine courses as outlined below:

Core Courses

Majors in both disciplines must take a sequence of four core courses. Three of these are joint (ANSO) courses. The sequences are:

- Anthropology
  - ANTH 101 How to Be Human
- Sociology
  - SOC 101 Invitation to Sociology

Elective Courses

Majors in Anthropology or Sociology must take five elective courses from the course listings of their respective disciplines or from the joint ANSO listings. Two of the courses chosen are normally at the 300 level or above. In close consultation with their departmental advisors, majors may take some selected courses from other disciplines to fulfill major requirements in either Anthropology or Sociology.

Electives

Majors in each wing of the department are allowed to count up to two courses in the other wing towards fulfillment of their major requirements.

STATISTICS AND DATA ANALYSIS

In addition to the nine total courses required for the major, it is recommended that Anthropology and Sociology majors take Statistics 101 or a comparable course in statistics and data analysis.

AREA STUDIES CONCENTRATION

Students who wish to combine a major in Anthropology or Sociology with an Area Studies concentration are encouraged to do so. Courses taken to satisfy an Area Studies requirement may be counted toward the major with prior approval of a student’s departmental advisor. The only exception to this rule is the Area Studies senior seminar, which cannot ordinarily be counted toward the Anthropology or Sociology degree.

LANGUAGE STUDY, STUDY ABROAD, AND WINTER STUDY

Departmental advisors will help interested students integrate a major with study abroad, foreign language study, or field research during the winter study period. The department encourages Williams students to take advantage of established foreign study programs in Egypt, Japan, India, Hong Kong, and other countries. Because some foreign study programs do not offer courses that can be counted toward the Anthropology or Sociology degree, however, sophomores planning to study abroad in junior year must consult with the departmental advisor before declaring a major. You can find general study away guidelines for Anthropology and Sociology here.

THE DEGREE WITH HONORS IN ANTHROPOLOGY OR SOCIOLOGY

Honors and highest honors are conferred for the completion of a year-long research project that has resulted in an original thesis of high quality. Students wishing to write an honors thesis should engage a member of the department faculty as a Thesis Advisor as soon as possible and must submit a proposal for the thesis for department approval no later than the end of spring reading period of the junior year. If the proposal is approved, they will be permitted to register for Anthropology and Sociology 493-W31-494, during which they will write and defend a thesis. If their overall work in the major continues to be of high quality and the thesis is deemed of a similar quality, they may be awarded honors or highest honors in Anthropology or Sociology.

ANSO 205(S) Ways of Knowing

An applied exploration of how one makes sense of the social world through fieldwork. Some of the key questions of the course are: What are the philosophical and epistemological underpinnings of social inquiry? How does one frame intellectual problems and go about collecting, sifting, and assessing field materials? What are the uses and limits of statistical data?
What is the importance of history to sociological and anthropological research? How can one use archival and other documentary materials to enrich ethnographic research? What are the empirical limits to interpretation? What is the relationship between empirical data and the generation of social theory? How does the social organization of social research affect one’s inquiry? What are the ethical dilemmas of fieldwork and of other kinds of social research? How do researchers’ personal biographies and values shape their work? In the first half of the course, we will approach these problems concretely rather than abstractly through a series of case studies, drawing upon the field experiences of departmental faculty and guest speakers from different professional backgrounds. The second half of the course will be dedicated to a hands-on training in field methods, in which the students will design and undertake their own pilot field projects.

Class Format: seminar
Requirements/Evaluation: full-participation in the seminar, several short papers, an independent ethnographic project and a final research proposal
Prerequisites: ANTH 101 or SOC 101 or permission of instructor
Enrollment Limit: 25
Expected Class Size: 25

ENST 305(F) Social Theory
An introduction to social theory in anthropology and sociology, with strong emphasis on enduring themes that cut across disciplinary divides. What is modern about modern social theory? How do social thinkers construe "society" and "culture," and have these constructions withstood challenges over time? What role does human agency play in the unfolding of social life, and where does that sense of agency come from in the first place? What are the forces that animate social interaction on the level of individuals, social groups and complex units like nation-states? What are the possibilities and limits of systematic approaches to the study of human social experience? The course emphasizes major differences between interpretive frameworks as well as the common elements that contribute to a deeper understanding of the social world.

Class Format: seminar
Requirements/Evaluation: full participation in the seminar, regular reading response memos, two papers and a take-home final
Extra Info: formerly ANSO 206. May not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ANTH 101 or SOC 101 or ANSO 205 or permission of the instructor
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 19
Expected Class Size: 15

ANTH 101(F,S) How to Be Human (D)
Is there such a thing as "human nature"? Why have human societies developed such a bewildering range of customs to deal with problems common to people everywhere? This course addresses these questions by introducing students to the comparative study of human social life and culture. Topics surveyed in the course include economics, language and thought, kinship and marriage, law and politics, and the wide variations in human belief systems, including religions. The course also considers the ways that anthropology, a discipline that was until recently practiced almost exclusively by Westerners, approaches other societies in search of insights on our own customs and values. Ethnographic descriptions of both "simple" tribal societies and complex modern ones are a prominent part of the readings. This course explores differences and similarities between cultures and societies and ways in which they have interacted and responded to one another over time.

Class Format: lecture/discussion of case studies and ethnographic films
Requirements/Evaluation: two short essays, a final examination and class participation
Prerequisites: first-year students and sophomores
Enrollment Preferences: first-year students and sophomores; juniors and seniors admitted only by permission of instructor
Enrollment Limit: 30
Expected Class Size: 30

ANTH 103 Pyramids, Bones, and Sherds: What is Archaeology?
Anthropology examines not only living societies, but also prehistoric cultures with which we have found nowhere else. This course presents how archaeology reconstructs the various aspects of human society from the physical record of prehistory. How do we study the subsistence and settlement patterns, the political and social organization, and the economy and ideology of prehistoric societies who have left behind mute material records? The objective of anthropological archaeology is to bring to life these prehistoric cultures through archaeological analysis. The different goals, approaches and methodologies of modern archaeology will be discussed theoretically and applied in practical exercises.

Class Format: lecture/discussion/class presentations of case studies
Requirements/Evaluation: class presentations, two papers, midterm and final exams
Prerequisites: none
Enrollment Limit: 30
Expected Class Size: 25

ANTH 138T(S) Spectacular Sex (D)
Crosslistings: WGS 138/ANTH 138
From Beyoncé’s Super Bowl halftime show to Donald Trump’s presidential campaign, spectaculars captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Class Format: tutorial
Requirements/Evaluation: weekly response papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: none
Enrollment Limit: first- and second-year students; a statement of interest will be solicited from pre-registrants
Enrollment Limit: 10
Expected Class Size: 10

ANTH 208 Afghanistan Post-Mortem
Crosslistings: ANTH 208/ASST 208/PSCI 220/GBST 208
The United States attacks on insurgents in the Afghan Taliban regime over in the course of a few short weeks in 2001. Over the next decade, the finality of that victory was brought into question as the Taliban regrouped and eventually reasserted itself as a formidable guerilla army that the U.S. military could not defeat. This course examines the history of American involvement in Afghanistan, beginning in the Cold War when the U.S. used Afghanistan as a test case for new models of political modernization and economic development, through the Soviet occupation and U.S. support for Islamist political parties in the 1980s, and continuing with the most recent abortive U.S. efforts at nation-building and social and political reform.

Class Format: seminar
Requirements/Evaluation: grading will be determined by class participation, two short essays, and a 15-page research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Anthropology and Sociology majors, Global Studies concentrators, Political Science and Asian Studies majors will get
ANTH 216(S) Urbanism in the Ancient World (D) (W)
Crosslistings: ANTH 216/GBST 216
This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Aman, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots that will be examined in the course. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanities had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities? This course fulfills the Exploring Diversity Initiative through a comparative study of urban cultures and societies across the world in premodern times, and by theorizing how power and privilege inequalities were manifested and dealt with in these ancient cities.
Class Format: lecture/tutorial
Requirements/Evaluation: 5-page papers every other week; oral responses on alternate weeks; tutorial attendance is required
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: sophomores; or majors in Anthropology or Sociology
Division: 2
Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive
Other Attributes: GBST Urbanizing World Electives
Spring 2018
TUT Section: T1 TBA Instructor: Antonia Foias

ANTH 219 The Art and Archeology of Maya Civilization: A Marriage Made in Xibalba
Crosslistings: ANTH 219/ARTH 209
The ancient Maya civilization was one of the most sophisticated and complex cultures of prehispanic Central America. Its complex calendars, mathematics and hieroglyphic writing system are well known worldwide. The course will examine the trajectory and nature of ancient Maya civilization from the combined perspectives of archaeology and art history. The origins and evolution of the Maya states during the Preclassic period (1000 B.C.-A.D. 250) will be explored by looking at the rich archaeological evidence and at Preclassic art styles. The Classic Maya civilization (A.D. 250-1000) will then be presented through a detailed survey of the archaeology, art and hieroglyphic texts of this period. Finally, the collapse of Classic Maya civilization and its transformation and endurance during the Postclassic period and under early Spanish rule (A.D. 1000-1600) will be critically evaluated through a detailed review of the archaeological and iconographic evidence.
Class Format: lecture/discussion
Requirements/Evaluation: midterm and final exams, hieroglyphic project, research paper
Prerequisites: none, but an introductory ARTH or ANTH course recommended
Enrollment Preferences: Anthropology/Sociology and Art History majors
Division: 2
Distributional Requirements: Division 2
Other Attributes: GBST Urbanizing World Electives
Spring 2018
TUT Section: T1 TBA Instructor: Antonia Foias

ANTH 222 Heroes, Saints, and Celebrities (W)
Crosslistings: ANTH 222/REL 273
This course examines the ways in which cultures select, ritually celebrate, and institutionalize heroes, and ultimately deify people designated as ‘extraordinary’. We will begin by considering cultural archetypes and theories of the hero and how these have been understood in different eras and cultural contexts. Using Weber’s theory of charisma as a foundation, we will look at a number of specific case studies to evaluate the relationship between individual creativity and action and the demands of social conformity and control. Finally, we will examine how charisma is commoditized in the form of the celebrity in contemporary American culture.
Class Format: seminar
Requirements/Evaluation: class participation, two short response papers, research paper, final exam
Prerequisites: none
ANTH 223 Ethnic Minorities in China: Past and Present (D)

Crosslistings: CHIN 223/ANTH 223

This course introduces students to the multiethnic aspect of China's past and present. We will address topics such as the minority-group identification project; the definition of minzu; government policy toward and the current situation of the fifty-five official ethnic minority groups; historical sino-centric views about "forbiddens" and "barbarians"; ideas of "diversity," "unity," and "sinicization"; and the roles that "barbarians" have played in China's long history. All readings will be in English. This is an EDI course. We will explore various meanings of "diversity" and "being ethnic" in the Chinese context and compare them with students' own experiences through class discussions and an essay assignment.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on attendance, in-class participation, oral presentations, two short response papers, one mid-term, and one final paper
Prerequisites: none; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if proficient; open to all
Enrollment Preferences: Chinese, Japanese, or Asian Studies majors, and then to first-year students
Enrollment Limit: 20
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under CHN

ANTH 224(S) Culture and Morality

Crosslistings: ANTH 224/REL 225

Moral judgments differ across cultures, within cultures, and across time. How do we account for this variation, and what does it tell us about human nature and the nature of moral reasoning? This course examines practical and theoretical orientations for the descriptive study of morality. We will read about and analyze moral life in a range of cultural and historical settings, from Africa and Oceania to North America and the Upper Amazon. As an object of academic inquiry, morality has historically been resistant to classification under any one discipline, recognized at various times to be the exclusive province of philosophy, psychology, religion, and so on; so we will draw on works from across a range of fields in order to better understand morality and its relationship with other significant dimensions of human social life (political economy, religion, gender, etc.). Specific topics will include: the relationship between morality and freedom; the apparent intractability of moral disagreements; the role of intuition and emotion in moral reasoning; and the influence of power and hierarchy on moral judgment.

Class Format: seminar
Requirements/Evaluation: a midterm project and a final paper
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Preferences: ANSO students
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2

ANTH 227(F) Language and Society: What Does Your Speech Say About You?

Crosslistings: ARAB 227/ANTH 227

Sociolinguistics is the study of how aspects of society influence the way language is used by the society members. In this course, we will examine the inter-relationships between the way language is used in various social contexts and how it affects the way society perceives itself. We will use a variety of topics to examine the way language is used in different social situations, such as the way language is used in the home, the workplace, and the community. The focus of the course is on the relationship between language and society, and how language is used to express social identity and status.

Class Format: lecture/discussion
Requirements/Evaluation: active class participation, response essays, assignments, article presentation, variation paper, final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: seniors, students who need to fulfill Arabic major or Anthropology major requirements, students interested in linguistics
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 1 requirement if registration is under ARAB; meets Division 2 requirement if registration is under ANTH

ANTH 230 Musical Ethnography (D)

Crosslistings: MUS 230/ANTH 230

Often, we experience music's impact on us without fully considering why it achieves such strong effects. The discipline of ethnomusicology confronts the question of musical meaning by combining musicological study and analysis with an exploration into the contexts of musical production, circulation, and reception. Musical ethnography is both the means by which scholars pursue this line of questioning, and also the (usually) written work that results from such investigations. This course features a hands-on approach to musical ethnography. Students will each conduct ethnomusicological fieldwork in a music-making community within Williamstown and the surrounding area. Coursework will survey approaches to methodology (modes and degrees of researcher involvement, practical skills related to documentation), issues of ethics, and social and musical analysis. This course fulfills the EDI requirement, with particular emphasis on empathetic understanding. Please note: This course requires students to devote regular time outside of class to the study of a musical community.

Class Format: lecture/discussion
Requirements/Evaluation: class participation, small assignments (four 1-2 page assignments), interview transcript with commentary, reading response, final project and presentation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: some musical training/experience necessary, see instructor for more information
Enrollment Preferences: students with some musical experience
Enrollment Limit: 10
Expected Class Size: 6

ANTH 232 Town and Gown: Investigating the Relationship of College and Community

This course examines the relationship between Williams College and the surrounding communities of Northern Berkshire County via ethnographic research conducted by students. The course will look at several case studies centered on "town-gown" relations in different areas and locations in order to contextualize and provide comparative material for understanding the relationship of Williams to its neighboring communities. Among the topics to be considered and possibly investigated will be the social and economic effects of colleges on local communities, the role of alcohol and athletics in town
gown relations, and how the increasing corporatization of academic institutions has changed the nature of town-gown interactions and the place and role of institutions of higher education in their communities. The focus of the course will be on combining academic study and student involvement, with a large percentage of class time devoted to learning the basic techniques of ethnographic and journalistic research, including interviewing, oral historical research, survey research, and participant-observation. Each student will conduct a major research project of their choosing, which will culminate in an investigative report and a public presentation.

Class Format: seminar
Requirements/Evaluation: class participation, research exercises, major ethnographic research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
ANTH 233(S) Spiritual Crossroads: Religious Life in Southeast Asia (D) Crosslistings: ANTH 233/ASST 233/REL 253
No region of the world presents a richer tapestry of religious beliefs, practices, and institutions than Southeast Asia. Buddhism, Hinduism, Christianity, and Islam are all to be found and all of them interpenetrate and contend with each other and with a deep undergirding of animism, shamanism, and mystical folk belief systems. This course will survey these religious traditions as they communicate with and influence each other, and with the state. Southeast Asian religious life will range from Hesiod, Theocritus, Vergil, and Propertius to Cato the Elder, and the connection between “city” and “countryside” will be examined where religious beliefs and practices are shared.

Distributional Requirements: Division 2
Not Offered Academic Year 2018
SEM Instructor: David Edwards

ANTH 234 Masculinities (W) Crosslistings: ANTH 234/WGSS 234
What does it mean to be a man? This course approaches masculinity in its various forms as a culturally constructed category and as an achieved aspect of social identity. We will look at characteristics of manhood as they are imagined cross-culturally: man as warrior, lover, husband, father, protector, provider, disciplinarian, abuser; we will look at how manhood is variously achieved and how it can be lost; and we will look at forms of masculinity as they articulate with modes of sexuality and gender. The course will make extensive use of cinema in exploring these themes.

Class Format: seminar
Requirements/Evaluation: attendance at film screenings, active leading and participation in class discussions, two 7-page papers, final 12-page paper
Enrollment Limit: 19
Expected Class Size: 15
Distributional Requirements: Division 2, Writing Intensive
Not Offered Academic Year 2018
SEM Instructor: Peter Just

ANTH 242(S) The Country and the City in the Classical World Crosslistings: CLAS 242/ENVI 242/ANTH 242
A growing urban-rural divide is defining political discourse around the world. The interrelation and tension between “city” and “countryside” are not new, however, but date back to the time when cities first began. How do cities occupy and transform, interact with and displace rural landscapes? What are the values and ideologies of cities? Why are they the engines of growth? The course will explore the historical and social construction of the city as a modern ideal.

Class Format: seminar
Requirements/Evaluation: course option
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2
Not Offered Academic Year 2018
SEM Instructor: David Edwards

ANTH 245(F) Introduction to Native American and Indigenous Studies (D) Crosslistings: AMST 245/ANTH 245/HIST 255/WGSS 247
What does it mean to acknowledge the literal land we stand upon—in Williamstown and beyond—as the occupied territory of indigenous peoples? This course strives to answer that question by offering an introduction to the histories, politics, knowledges, and arts of indigenous peoples across the Americas and Native Pacific. Foregrounding the ways in which indigenous peoples have resisted, refused, and reimagined ongoing histories of settler colonialism, we will survey scholarship in the interdisciplinary field of Native American and Indigenous Studies. By analyzing such scholarship alongside a range of primary sources—including historical documents, literature, film, visual art, music, and social media—we will examine the genealogies of indigeneity, race, gender, and sexuality. Throughout the course, we will discuss topics of both past and present importance, such as environmental justice, cultural representation, and self-determination. Providing critical perspectives on ongoing processes of settler colonialism, this course satisfies the Exploring Diversity Initiative (EDI) requirement.

Class Format: seminar
Requirements/Evaluation: one 2- to 3-page response paper, one 5- to 6-page analytical essay, one 8- to 10-page research paper, weekly Glow posts, and regular class participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: AMST majors
Enrollment Limit: 19

ANTH 246(F) India’s Identities: Reproducing the Nation, Community and Individual (D) (W) Crosslistings: REL 246/AMST 246/WGSS 246/ASST 246
This course considers India’s contradictory legacy as a booming democracy and fragile society built upon deep and enduring divisions. Why is India’s growing population so often described in terms of multiple identities or fragmenting oppositions — Hindu/Muslim, rich/poor, high caste/outcaste, male/female? What are the historic roots and ongoing causes that produce structural violence and longing for fixes of difference? We pay particular attention to key moments (Partition, communal riots in Gujarat in 2003, Hyderabad in 1990, Delhi in 1984), and places (Punjab, Bengal, Jammu & Kashmir) for our analysis of how religion, gender, and caste intersect to produce a landscape of communal violence, social hierarchy, and fragmented subjectivity in India today. We are as interested in discourses and practices that shore up these binaries as well as the third terms that attempt to transcend or diffuse them. For instance, we look at how Buddhism is and is not a middle path between Hindu/Muslim conflict in Indian Kashmir. Our course readings include ethnographic, sociological, and historical analyses, as well as oral histories and popular media. This course fulfills the Exploring Diversity Initiative by theorizing the ways that difference has been used to effect profound historical & social changes in India.

Class Format: tutorial
Requirements/Evaluation: weekly writing assignments and tutorial attendance every week
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ANTH 248 Body Politics in South Asia: Gender, Sex, Religion, and Nation (D) (W) Crosslistings: REL 248/AMST 248/ANTH 248/WGSS 249/GBST 248
This course examines the relationship between body, gender, sex, and society in South Asia, using three countries and religions—India, Sri Lanka, and Bangladesh, and Hinduism, Buddhism, and Islam—as its foil. The course explores the body as a lens by which to unpack South Asian discourses that link body and sexuality with nation, community, and population. In particular, it explores a South Asia that links individual and social bodies in ways that are as social as they are sexual. The course will examine the body as an organizing mechanism of society, as well as a mass-produced ideology of sexuality. How does the body and its meanings create the social world of the South Asian body and how do these bodies and meanings work within the political, economic, and cultural contexts of South Asia? We will explore how the body serves as a lens for understanding the meaning of these interactions and how bodies are created, constructed, and transformed. This course fulfills the Exploring Diversity Initiative by theorizing the ways that difference has been used to effect profound historical and social changes in India.

Class Format: seminar
Requirements/Evaluation: written work and oral presentation
Enrollment Limit: 10
Expected Class Size: 25
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: AMST majors in Anthropology, Bioethics + Interpretations of Health, WGSS Racial Sexual + Cultural Diversity Courses

ANTH 255(F) Buddhism: Ideas and Practices
Crosslistings: REL 255/ASST 255/ANTH 255
This course introduces students to Buddhism by examining its ideas and practices as they have taken place in actual social contexts rather than as disembodied textual objects. After examining the main ideas and narratives of the tradition, we turn our attention to Thailand where we examine how these ideas and narratives have shaped a whole range of practices, from meditation to shamanistic rituals. We then consider the transformations that Buddhism is undergoing in contemporary society, examining the rise of meditation movement, the changing role of monks and laity, the resurgence of the nun order, the rise of Buddhist social activism and the development of new Buddhist social philosophies. We ask questions such as: How can Buddhism adapt to a modern global consumerist society? What are the transformations involved in this process and discourse? This course will consider Buddhism as a global society? Should Buddhists take advantage of the opportunities of this new global culture or should they adopt a critical stance toward its consumerist values?
Class Format: lecture/discussion
Requirements/Evaluation: full attendance and active participation; two essays
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 25
Expected Class Size: 25

ANTH 256 Engendering Buddhism: How Women and Men Shape and Are Shaped by Buddhism (W)
Crosslistings: REL 256/WGSS 256/ANTH 256
This course looks at how gender has shaped Buddhism as well as how Buddhism has shaped gender. Most generally, it considers the myriad ways that Buddhist societies and practice produce the very gender differences they purport to overcome. How have the Buddha and his far-flung disciples institutionalized gender differences in spite of their putative goal of transcending duality? We examine the varying experiences of women and men in Buddhist societies and literatures as a lens by which to analyze the pervasive operation of social and gender hierarchies. Last but not least, we discuss how well feminist and American revisions of Buddhism have transformed gender and other forms of difference. Our analysis revolves around several interdependent themes. (1) How do female and male bodies become the subject of a specific set of Buddhist gazes? What does Buddhist discourse say about the possibility of gaining enlightenment in the female body? (2) How do gender divisions reflect deeper social divisions such as class and race in Buddhist discourse? (3) How have feminist deconstructions of Buddhism transformed gender and social hierarchies in the contemporary world? This course fulfills the Exploring Diversity Initiative by seeking to theorize the ways that Buddhism has produced and reinscribed gender differences and social hierarchies.
Class Format: seminar

ANTH 260(F) The Whale
Crosslistings: ENVI 260/ANTH 260/SCST 260
Between the 1950s and 1970s, public attitudes toward whales and dolphins underwent a remarkable change. Once the target of a rapacious global industry, whales now (mostly) enjoy protection from commercial exploitation and occupy the position of global environmental icon. A key figure in the industrial revolution as well as in the emergence of environmental consciousness in North America, whales provide a touchstone for examining the environmental imaginations of diverse peoples and institutions across time and space. This course traces the history of the human-whale relationship from the eighteenth century onward in North America and concludes with an in-depth discussion of whales’ current place in the law, culture, and politics of a globalizing world.
Class Format: seminar
Requirements/Evaluation: several shorter writing assignments and a final project

Spring 2018
SEM Section: 01 MW 08:25 PM 09:40 PM Instructor: Les Beldo

ANTH 261(A) Animal Biocapital and the Politics of Meat
Crosslistings: ENVI 261/ANTH 261
What does it mean to “produce” animal flesh? To “invent” an organism? To patent life? It has been just 40 years since a farmer to the journal Hog Farm Management infamously declared that farmers should “forget the pig is an animal,” and “treat him just like a machine in a factory.” In that time, challenging questions such as: How do the roles of animals in society figure in the biocapital of animal husbandry and the production of animal biocapital. We will explore the legal structures that enable (and occasionally limit) the ownership of life, and we will seek alternative views on the human-animal relationships that remain (for now) at the center of the factory farm. Contemporary and historical accounts of the industrial hog and broiler chicken industries will serve as primary case studies, along with recent developments in industrial aquaculture and military bioengineering.
Class Format: seminar
Requirements/Evaluation: several shorter writing assignments and a final project
Prerequisites: ENVI 101 or permission of instructor
Enrollment Preferences: Environmental Studies majors and concentrators
Enrollment Limit: 19

Distributional Requirements: Division 2

Fall 2017
SEM Section: 01 MW 08:25 PM 09:40 PM Instructor: Les Beldo

ANTH 262(F) Language and Power
"A language is a dialect with an army and a navy." This (originally Yiddish) aphorism points to ways in which language, often imagined to be a neutral or apolitical medium of communication, proves in practice to be a social domain fully implicated in the operations of power. How do we create community - and sometimes exclusion - by the way that we talk? What role does speech play in the accumulation of cultural capital? How are racism and colonialism sustained by language practices, and how can speech transform the world? This introduction to linguistic anthropology draws together classic works of linguistic and semiotic theory with studies of the politics of actual speech, grounded in rich and particular cultural and historical contexts, from witchcraft accusations in rural France to American presidential elections. Students will gain familiarity with key concepts (speech acts, performatives, code-switching, language ideology), themes and debates in the social scientific study of language. Assignments include regular postings of 1-page critical response papers and an ethnographic project analyzing a series of speech events in the Williams or Berkshire County community.
Class Format: seminar
Requirements/Evaluation: regular postings of critical response papers and an ethnographic final project

Fall 2017
LEC Section: 01 TR 11:20 AM 12:35 PM Instructor: Joel Lee

ANTH 270 Object and Place/Memory and Nation (D)
This course explores the role of object and place in the creation and perpetuation of national identity. In particular, we will consider the role of monuments, battlefields, museums, and various 'sacred' sites in inculcating a sense of shared origins, values, commitments, and ultimate ends. Using a variety of key theoretical texts (including Benedict Anderson's Imagined Communities and Eric Hobsbawm and Terence Ranger's The Invention of
Tradition) and maintaining a focus on two countries — Afghanistan and the Czech Republic — with long and painful histories of foreign invasion and occupation, the EDI course focuses on the ways in which people orient themselves within the symbolic worlds they inherit and how they negotiate tragedies of circumstance.

Class Format: seminar
Requirements/Evaluation: two essays, an in-class presentation, and a take-home exam
Prerequisites: none
Enrollment Preferences: 1) Anthropology and Sociology majors; 2) students who have taken one or more ANSO courses
Enrollment Limit: 24
Expected Class Size: 24
Distributional Requirements: Division 2, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: David Edwards

ANTH 272 Sex and the Reproduction of Society
Crosslistings: ANTH 272/WGSS 272
Why is reproduction such a controversial subject in society today, especially in areas of medicine, culture, and religion? And why is the reproductive body subject to such intense regulation? This course will deconstruct the process of human reproduction through readings culled from a variety of cultures and disciplines including anthropology, medicine, religious studies, sociology, and gender and sexuality studies.

Class Format: seminar
Requirements/Evaluation: in-class presentations, attendance, class blog, final research paper
Prerequisites: none
Enrollment Preferences: majors in Anthropology/Sociology, Women's Gender & Sexuality Studies
Enrollment Limit: 25
Expected Class Size: 25

ANTH 281(F) The Seeds of Divinity: Exploring Pre Columbian Art & Civilization in a Museum Exhibit
Crosslistings: ANTH 281(FL) REL 280/ARTH 281
For all ancient civilizations, the gods were a powerful force, affecting all aspects of human life and dominating ancient art. This course will explore concepts of divinity in five civilizations in Pre columbian Central America: Aztec, Maya, Zapotec, Teotihuacan, and Nayarit. The course examines how the broad concept of divinity is materialized in everyday life. We will query how the human body is used as the prism through which concepts of divinity are understood. We will also create rituals for ensuring the preservation of the dominant social order and discern through deconstruction how the body is ritually mobilized as an instrument of persuasion and control. This foundation, we move to examine how political rituals are used to undermine entrenched orthodoxies, mobilize popular dissent, and bring down dictators.

Class Format: seminar
Requirements/Evaluation: active class participation; four short papers; 15-page research paper and presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: ANTH, SOC and ARTH majors

ANTH 297(F) Theorizing Magic (W)
Crosslistings: REL 297/COMP 297/ANTH 297
This is a course about magic. It is not about stage magic, sleight of hand, or the art of pulling rabbits out of hats. You will learn no card tricks. But instead we will learn about those people who believed in the reality of certain powers; from the ability to summon good or evil spirits, transform base metals into gold, predict the future, or manipulate matter by thought alone. The problem of how to theorize magic has long been a cause of concern for the natural and social sciences. Many a sociologist and anthropologist has imagined that belief in magic should have vanished with modernity (despite much evidence to the contrary). Meanwhile, philosophers of science have been long fascinated with the demarcation problem—figuring out grounds by which to distinguish legitimate sciences (like astronomy) from their magical or superstitious counterparts, including magic, witchcraft, and other occult sciences. We will join these discussions and problematize them by looking at the beliefs of self-defined witches and magicians. This will put us in a position to interrogate the construction of concepts of magic, science, and religion and show how the boundaries between these and other historical topics to be discussed will include: the rationality of magic, the fine lines separating magic, science and religion, the persecution of witches, and the role notions of magic and superstition played in European modernization and colonisation projects. The topics of discussions will be customized to student interests, but topics we will likely include selection from primary works in translation, such as Cornelius Agrippa's Occult Philosophy, Giordano Bruno's On Magic, Aleister Crowley's Magic and Its Aetzman, as well as selections from secondary literature, perhaps including Marcel Mauss, A General Theory of Magic, Max Weber, "Science as Vocation," Tanya Luhrmann, Pervisions of the Witches' Craft, Thomas Kuhn, The Structure of Scientific Revolutions, Larry Laudan, "The Demise of the Demarcation Problem," E.E. Evans-Pritchard, Witchcraft and Oracles, and Mary Douglas, The Azande, and Kelly Hayes, Holy Harlots: Femininity, Sexuality and Black Magic in Brazil.

Fall 2017
TUT Section: T1
TBA Instructor: Jason Storm

ANTH 299 The Body in Power
Crosslistings: ANTH 299/REL 274
The thesis of this course is that ritual plays a crucial role not only in legitimizing and mobilizing political power, but also in determining whether people decide to act in defense of or dissent against the status quo. In the first part of the semester, we focus on the ways in which different cultures construct categories of inclusion and exclusion, safe and dangerous, while also constructing rituals for ensuring the protection of the dominant social order against all that is transgressive and undermining to those in power. Of particular importance to our discussion will be consideration of how the body is ritually mobilized as an instrument of persuasion and control. On this foundation, we move to an examination of how political rituals are used to undermine entrenched orthodoxies, mobilize popular dissent, and bring down those on top. Among the topics to be discussed are the role of martyrdom and beheadings in the rise of the Islamic State, the use of symbols and ritual interventions in framing both sides of the abortion debate, and the expanding importance of social media in protests movements around the world. The final unit of the course will consider a current controversy (e.g., police violence against African-American men) in light of the concepts discussed during the semester.

Class Format: seminar
Requirements/Evaluation: class participation, three short response papers, and one 10- to 12-page research paper
Prerequisites: none
Enrollment Preferences: open to first years
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2
Not Offered Academic Year 2018
SEM Instructor: David Edwards

ANTH 301 Sexual Economies (D)
Crosslistings: WGSS 301/AMST 334/ANTH 301
This course examines various forms of sexual labor in a variety of global contexts with an emphasis on contemporary anthropological and sociological research and its implications for public policy. Our topics include: (a) traditional sex work (e.g., pornography, escorting, street prostitution, brothels, sex tourism), (b) sexualized labor without physical contact (e.g., stripping, burlesque, phone/online sex), and also (c) contemporary debates about sex tourism), (b) sexualized labor without physical contact (e.g., stripping, burlesque, phone/online sex), and (c) contemporary debates about sex work policy. Our topics include: (a) traditional sex work (e.g., pornography, escorting, street prostitution, brothels, sex tourism), (b) sexualized labor without physical contact (e.g., stripping, burlesque, phone/online sex), and also (c) contemporary debates about sex tourism). Students will learn about the broader implications of sex work for a variety of nations, races, classes, and backgrounds in order to explore the broader social implications of our subject matter. A key component of this course is a field trip New York City to meet with sex workers and sex worker rights advocates. (Note: students should be advised that some may find offensive.)

Class Format: seminar
Requirements/Evaluation: mid-term essay exam, research proposals/annotated bibliography, app 10-15- page final research paper, field trip reaction paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
ANTH 322(F) Trash
Crosslistings: ANTH 322/ENVI 322/GBST 322
What is waste? What is filth? Why do titles or categories of sanitation workers—"garbage man," for instance—bear such charged social and sometimes moral significance in so many societies? In this seminar we will critically examine the production of waste and its role in the production of value, meaning, hierarchy, and the environment. Readings will be of three types. First we will consider theoretical inquiries into the relations between filth and culture. Second, we will examine studies of the political and environmental consequences of systems of waste management historically and in the present, with a focus on South Asia and the United States. Third, we will read ethnographies of sanitation labor and social hierarchy with the same regional focus - work on Dhaka and Delhi, Chicago and New York. There is also a fieldwork component to this class. In groups, students will conduct ethnographic micro-studies of elements of the systems of waste production and management in Berkshire County (e.g., cafeterias, retail outlets, homes, dorms, recycling facilities, sewage treatment plants). Students will post field notes to a class blog, and each group will present its findings in the form of a short film, multimedia presentation, or paper.

Class Format: lecture/discussion
Requirements/Evaluation: regular posting of critical response papers and an ethnographic final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ANTH 324 Empires of Antiquity (W)
Cycles of rise and collapse of civilizations are common in our human past. Among the most fascinating cases are those of empires, conquest or destruction, of states that encompass a number of different ethnicities, polities and peoples. However, their rise and often rapid collapse begs an important question: how stable have empires been in human prehistory? Are they intrinsically unstable political forms? The course will address these questions by examining the major empires of the Old and New World in pre-modern history: Persian; Assyrian; Mongol; Roman; Chinese; Ottoman; Aztec; and Inca empires. Using readings by political scientists, historians, epigraphers, archaeologists and political anthropologists, we will consider the causes of the expansion and collapse of these empires. We will also explore their sociopolitical and economic structures as mechanisms for their maintenance in order to provide a cross-cultural comparison of the differential success and final decline of all these empires.

Class Format: seminar
Requirements/Evaluation: weekly short response papers and a research paper, class presentation and participation
Prerequisites: none; open to first-year students
Enrollment Limit: 20
Expected Class Size: 15
Distributional Requirements: Division 2, Writing Intensive
Not Offered Academic Year 2018
SEM Instructor: Antonia Foias

ANTH 328(F) Emotions and the Self (D) (W)
Everyone everywhere experiences emotions, and everyone everywhere is faced with the task of conceptualizing a self and its place in the social world. This course analyzes a variety of recent attempts in the social sciences to come to grips with topics that have long been avoided: the nature of the interior experience and an epistemological framework for its cross-cultural comparison. In the fifth and sixth centuries between anthropology, sociology, and psychology, we will bring the tools of ethnographic analysis to bear on central pan-human concepts: emotions and the self. By examining these phenomena as they occur in other cultures, we will be better placed to apprehend and challenge the implicit (and often unconsciously held) assumptions about emotions and the self in our own culture, both in daily life and in academic psychological theory. What are emotions? Are they things—neuro-physiological states—or ideas—sociocultural constructions? How are we to be described: complexly constituted and constituted? How do various cultures respond to categories of emotion and self, and how can we develop a sense of the relationship between self and emotion?

Class Format: tutorial
Requirements/Evaluation: typical for that of a tutorial
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none; open to first-year students
Enrollment Limit: 10
Expected Class Size: 10

ANTH 331 Witchcraft, Sorcery, and Magic
Beliefs in magic, benign and otherwise, have been nearly universal in human experience. This course examines modern beliefs in an attempt to understand their cognitive basis, symbolic effectiveness, and social consequences. In particular we will approach the question of "magical thinking": is magical thought "a universal science" or a universal non-rational way of seeing the world? What does the prevalence of irrational beliefs say about the whole idea of rationality? Are witches self-aware agents who believe in the magic they practice, or are they irrational, marginalized victims of hegemonic powers? To answer these and other questions we will draw on case studies from a broad range of ethnographic and historic sources, including Aguaruna love magic, Azande oracles, Voodoo in Brooklyn, and witches in Renaissance Italy and twentieth-century England.

Class Format: seminar
Requirements/Evaluation: a midterm, class presentation, and a term paper
Prerequisites: Anthropology 101 or permission of instructor
Enrollment Preferences: Anthropology and Sociology majors and upperclassmen
Enrollment Limit: 19
Expected Class Size: 15
Distributional Requirements: Division 2
Not Offered Academic Year 2018
LEC Instructor: Peter Just

ANTH 334(S) Imagining Joseph (W)
Crosslistings: ANTH 334/COMP 334/JWST 334/REL 334
Beloved son, rival brother, faithful servant, dreamer, seer, object of desire, lover, husband, bureaucrat, Joseph is one of the most fully-limned and compelling figures in the Jewish, Christian, and Muslim scriptural traditions. The story of Joseph unfolds over fourteen chapters in the Hebrew Bible, and is the subject of the fourth longest sura in the Qur'an. Through millennia, the story of Joseph has inspired a wealth of interpretations, commentary, apocrypha, re-tellings, and back-story, including an apocryphal book of scripture about Joseph and his wife, Asenath, Sufi poetry about Joseph and Zuleikha (Potiphar's wife), a trilogy by the 20th century German novelist Thomas Mann, a musical by Andrew Lloyd Weber, and many expressions in Western visual art. The course will explore these various expressions, looking to them for the ways in which Joseph has captured the imaginations of peoples and cultures across time and space. The course will be organized as a collaborative seminar in which the class will read the foundational scriptures together, followed by thematic discussions to which students will contribute insights from their own readings of particular peripheral texts. Students will learn the pleasures of close and intense exegetical reading in approaching the Hebrew Bible and Qur'an, as well as the more expansive pleasures of linking post-scriptural expressions together.

Class Format: seminar
Requirements/Evaluation: 3- to 5-page weekly response papers; 15-page final paper; class participation
Prerequisites: none
Enrollment Preferences: based on responses to a questionnaire
Enrollment Limit: 12
Expected Class Size: 10
Distributional Notes: meets Division 2 requirement if registration is under ANTH, JWST, or REL; meets Division 1 requirement if registration is under COMP

Distributional Requirements: Division 2, Writing Intensive
Other Attributes: JWST Core Electives
Spring 2018
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Peter Just

ANTH 335 In Between: The Ritual Construction of Identity and Difference
This course examines the categories of inclusion and exclusion, and safe and dangerous, pure and impure, right and wrong that constitute cultural worlds, while also creating the middle zones that make cultural creativity possible. Beginning with an examination of “liminality” and rites of passage in the work of Arnold Van Gennep and Victor Turner, we will go on to look at how political thinkers, sociologists, and other theorists work on the ritual and the sacred. In the course of the semester, we will consider a variety of cultural contexts in which liminality is of central importance, including transvestitism in traditional Native American and contemporary US cultures, various avant garde artistic movements, and the ritual construction of the suicide bomber/martyr in Islamist practice.

Class Format: seminar
Requirements/Evaluation: class participation, two short response papers, research paper, final exam
Prerequisites: ANTH 101, SOC 101 or another ANTH/SOC course
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 20
Expected Class Size: 18-20
Distributional Requirements: Division 2
ANTH 340 Artisan and Connoisseur (W)

In recent decades Americans have increasingly taken up the small-scale hand-work production of specialized goods as a livelihood, depending on connoisseurs who appreciate and are willing to pay high prices for their goods. Products ranging from cheeses to wooden boats have secured markets enabling lifestyles that appear to challenge classic capitalist modes of production and consumerism. We'll explore this movement. Students will conduct original research resulting in a major paper and presentation. To elaborate: We will explore the differences among traditional craftsmen, hobbyists, and contemporary artisans, considering the nature of creativity and hand-work. We will also look at the ways in which artisans have articulated with capitalism and industrial production has shifted over time, beginning with the Arts and Crafts movement around the turn of the last century, through the "hippies" of the 1960s and '70s, to more recent entrepreneurial artisans and those engaged in the "Maker Movement." The course will end with a critical analysis of the connoisseur as a frame for considering the ways in which both artisans and connoisseurs appear to be resisting modern capitalist modes of production and consumption. We will look at the ways in which artisans' work and consumption have been recontextualized across time, and their often taken-for-granted practices and commodities have been understood by others as "artisanal" and "hand-made." Crosslistings: ANTH 346

ANTH 341 Caste, Race, Industry (D)

Caste in India looms large in global social thought as a kind of benchmark against which hierarchical social systems across the world are measured. This prominence has much to do with British colonial ideologies of rule, but it also has a deeper and different history: the Buddha compared caste to Greek slavery, early modern Jesuits related it to the system of European estates, and since the nineteenth century, anti-caste radicals from Dalit or "untouchable," backgrounds have drawn a sustained comparison between the forms of oppression they face and those with which African Americans contend in the United States. Reciprocally, thinkers from W.E.B. DuBois to Toni Morrison have deployed the category of caste in their writings on race. What can the study of caste in postcolonial South Asia contribute to global debates over the persistence of "traditional" forms of social hierarchy? What are the stakes of bringing caste and race into the same conversation, and what are the implications of refusing to do so? In this seminar we will acquire a thorough grounding in the anthropological literature on caste and then investigate the politics of the caste-race comparison over the last hundred years. Assignments include weekly postings of 1-page critical response papers and a 10-15 page research paper or an interview-based, ethnographic final project examining "caste" in one's own community. In its engagement with hierarchy in our various communities, and in its critical theorization of the commensurability (or not) of distinctive systems of inequality, the course fulfills the EDI requirement.

ANTH 346 Islam and Anthropology

Crosslistings: ANTH 346/REL 346/ARAB 280/ASST 346

If anthropology has helped to define Islam in global thought, Islam has returned the favor, holding a critical mirror to the anthropological endeavor perhaps more than any other traditional "object" of study. This course examines anthropological studies of Islamic societies for what they teach us about Islam and about anthropology. We begin with foundational social theorists whose studies of religious phenomena helped give rise to the field of anthropology of religion. We then survey influential efforts to construct "ideal-type" models of Muslim society based on anthropological and historical knowledge. Throughout, we'll try to engage without condescension, to critique, historicize, and redirect the model-building project (notably by Talal Asad and Edward Said). The second half of the course is devoted to ethnographies that explore, from a variety of perspectives and in several regions (Morocco, India, Egypt, Syria), questions of human agency, hierarchy and resistance, and Islam, as discursive resource, ethical project, and embodied community.

ANTH 347 Tribe and State on the Afghanistan-Pakistan Border (D)

Crosslistings: ANTH 347/ASST 347

One of the major challenges President Obama will face in his first term in office involves the perilous situation on the border between Afghanistan and Pakistan. While the problems in the region are generally framed in relation to Islamic extremism, the more fundamental issue is the failure of the Afghan and Pakistan governments to exercise control over the tribes that occupy the mountainous hinterlands. This course will look first at the history of the Afghan and Pakistani states and of the Pushtun and Baluchi tribes that are part of, yet independent from the states that surround them. We will then go on to consider the role of Islam as a political force in the region, with particular emphasis on the ways in which outside religious groups, most recently al-Qaeda, have managed to gain a foothold in the borderlands, despite the historic resistance of the tribes to outsiders of any kind. The course will also examine the efforts of, first, the Soviet Union in the 1980s and, more recently, the United States and its allies to control the borderlands, and we will conclude with a consideration of the geopolitical implications if Afghanistan and Pakistan prove in the end to be "failed states." Readings will include theoretical discussions of tribal relations, British and Soviet era accounts of the frontier (non-fiction and fiction), ethnographies of tribal societies, and contemporary studies.

ANTH 371(F) Medicine, Pathology, and Power: An Ethnographic View (D) (W)

Crosslistings: ANTH 371/WGSS 371

How do medical anthropologists examine and interpret health and illness in relation to the intersectional issues of gender, race, class, and sexuality today? We consider how medical anthropologists employ ethnographic techniques such as participant observation and reflexive interviewing once characterized as "deep hanging out," in order to analyze the distribution of health and other forms of social power between and within groups & societies. Through experiential inquiries and local fieldwork projects, we will investigate how the structural violence of race, class, & gender produces systemic health inequalities. We explore the interplay of social power and difference , while attending to the ways that these social facts shape health outcomes among the most marginalized or vulnerable populations and individuals in society. We read a selection of medical ethnographies and then pursue individual fieldwork projects on or off-campus that explore the social determinants of health outcomes, health behaviors, and access to healthcare. Our goal is a better understanding of the limits and strengths of ethnographic inquiry as we experience the challenges of qualitative research in communities always already split by diverse actors and agendas.

ANTH 391 Insurgencies: Revolts, Revolutions, Wars of National Liberation, and Jihads

Crosslistings: ANTH 391/INTR 391

This course takes a fine-grained look at the use of warfare in the classic terms described by Clausewitz: states waging armed conflict against other states using unformed armed forces that are distinct from non-combatant civilian populations. Throughout history, however, we may also encounter many instances of asymmetric conflict within states: colonies, and other political entities, involving combatants who are often indistinguishable from the general
population and whose objectives are often unlike those of states: Peasant revolts, revolutions, wars of independence or national liberation, and other forms of resistance and civil insurgency pit the relatively weak against the power of the state and may succeed because, to use Mao’s metaphor, the insurgents move among the people like fish in water. The close relationship between insurgent fighters and the supporting population makes the social structure, social values, social institutions—in short, the culture—of the society particularly relevant to understanding the nature of a given asymmetric conflict. In this course we will use theoretical and analytical concepts from anthropology, sociology, history, and political philosophy to examine asymmetric conflicts of the twentieth century and the present day.

The course will be divided into three parts: in the first we will explore some of the theoretical literature on violence and warfare as well as some of the basic literature on tribal society, peasant revolts, wars of national liberation, guerilla warfare, and insurgencies. The second part of the course will be devoted to presentations prepared by small groups of students on case studies, e.g., the American civil war, the Korean war, the Vietnamese war, the wars in the Philippines, the communist revolutions of China, Cuba, and Vietnam. The wars of national liberation such as those in Algeria and Vietnam, and other ongoing civil conflicts such as the Palestinian intifadah and “ethnic cleansing” in the Balkans. The final portion of the course is devoted to an in-depth study of Iraq following the American invasion and to a consideration of the evolving nature of asymmetric conflict in a globalizing world.

Class Format: Seminar
Requirements/Evaluation: class participation, two exams, research paper
Prerequisites: none; open to first-year students

ANTH 412(S) Graphic Sex: Queer Ethnographic Writing (D)
Crosslistings: WGSS 412/ANTH 412
This seminar examines recent and canonical work in queer anthropology, exploring how different cultures construct sexual and gender identities and subjectivities, and what happens when dominant paradigms such as the Euro-American LBT model become enmeshed in globalization, late capitalism, and consumerism. We begin with a series of case studies highlighting alternative gender and sexual formations in various cultures around the world, emphasizing how these seemingly “authentic” local categories are themselves the products of historical shifts, cultural relations, and political economy. We also examine how these categories overlap, conflict with, subvert, or syncretize with the increasingly global category of “gay.” In addition to reading queer ethnographies, we will also learn the methods required for doing ethnography ourselves, including interviewing techniques, participant observation, writing thick description, data analysis, and editing.
Class Format: Seminar
Requirements/Evaluation: ethnographic writing assignments (e.g., interviews, field notes, essays, etc.)
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Women’s, Gender and Sexuality Studies majors and others with substantial background in Women’s, Gender and Sexuality Studies or Anthropology and Sociology Studies, statements of interest will be solicited
Enrollment Limit: 15

SOC 101(F,S) Invitation to Sociology
An introduction to sociological analysis. The course focuses on the relationship of individual mental life to the social world and introduces students to systematic institutional analysis. Students will explore the intersection of biography, history, culture, and social structure as seen in the work of classical and contemporary social thinkers, including Marx, Durkheim, and Weber. Special consideration will be given to understanding the social and cultural problems of capitalism, irrationality and irrationality in modern institutions and organizations, the psychological dilemmas facing the individual in modern society, and the origin and development of the problem of social order and conflict.
Class Format: lecture/discussion
Requirements/Evaluation: a take-home midterm exam, a class presentation and a final
Prerequisites: none
Enrollment Preferences: first-year students and sophomores
Enrollment Limit: 35

SOC 201(S) Science, Technology, and Human Values
Crosslistings: SCST 101/SCI 101/SOC 201
This course offers an introduction to science and technology studies, or STS. A radically interdisciplinary field of inquiry, the roots of STS stretch through the philosophy, history, and sociology/anthropology of science and technology. Students will become acquainted with major STS schools, methodologies, and research trajectories through intensive reading and analysis of classical and contemporary works in the field. Considerable attention will be devoted to exploring the nature of science and technology, their relationships to and interactions with one another, society and the natural world, and the influences these interactions exert in shaping what humans value. A fundamental goal of the course is to cultivate awareness and understanding of the social organization of technology and scientific knowledge production, and the technoscientific structuring of modern social life broadly. The course as such is aimed at attracting from all divisions those students who are intellectually adventurous and inclined to think critically about the place and prominence of science and technology in the modern world.
Class Format: Seminar
Requirements/Evaluation: two or three short exercises, two papers (3-5 pages and 5-7 pages), and two hour exams
Prerequisites: none
Enrollment Preferences: first-years and sophomores
Enrollment Limit: 20-25
Expected Class Size: 20
Distributional Requirements: Division 2
Spring 2018

SOC 211(F,S) Race and the Environment
Crosslistings: AFR 211/ENVI 211/SOC 211/AMST 211
In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address “environmental racism,” like Robert Bullard’s *Dumping in Dixie* and David Pellow’s *Garbage Wars*. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for polluting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions—like literature, film, and music—to understand how people of color respond to environmental injustice and imagine the natural world.
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, 2-3 short papers (5-7 pages), and a self-scheduled final exam. Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.
Prerequisites: none
Enrollment Limit: 20
Distributional Requirements: Division 2
Spring 2017
SEM Section: 01 MW 09:45 AM 11:00 AM Instructor: James
Soc 215 Crime
An examination of crime, criminals, and crime-fighters. Topics include: violent urban youth gangs in America; the recruitment, socialization, argot, culture, worldviews, and ethics of professional criminals both in America and the international arena; the stages of criminal careers; the violence inherent in the drug trade; the trafficking of girls and women; the illegal immigration industry; white-collar scams, fraud, and financial depredations; identity theft; the work worlds and habits of mind of crime-fighters, with a special focus on the work of uniformed police officers, detectives, federal agents, and state and federal prosecutors; the symbolic representations of criminals and crime-fighters in American and international popular culture; and the crisis of public social order. Special attention to the nature of criminal investigation.

Class Format: seminar
Requirements/Evaluation: full participation in the seminar, class presentations, short mid-term paper, term paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Soc 216 The City
Modern humans have moved to the city, a site with concentrated powers of various kinds, this move has effected irreversible change in human life. We will examine how these forces through readings in urban theories as well as ethnographic studies. We will address themes such as the organization of urban life, the political economy of cities, housing and homelessness, and urban planning. The city is also the chief site of cultural production and meaning making so our interest will range from studying subcultures, to reading graffiti, to analyzing monuments. Bearing in mind the inexorable social change of past decades, we will reconsider some classical thought on urban life in the context of postmodern discourse, conceptualize the post-industrial and global city, and conclude with an examination of the problems faced by cities in developing countries. This course is designed to provide students with a comprehensive introduction to urban studies. Students will become familiarized with both classical and modern urban theories, and in reading materials they will have an opportunity to understand some fundamental methodological approaches to the study of the city.

Class Format: seminar

Soc 217 Race(ing) Sports: Issues, Themes and Representations of Black Athletes
Crosslistings: AFR 217/AMST 217/SOC 217/ENGL 215
Althea Gibson to the Williams Sisters. Julius (Dr. J) Irving to Michael Jordan. Jesse Owens to Tommie Smith and John Carlos. Throughout the 20th century, black athletes have broken through Jim Crow restraints, challenged racial stereotypes, and taken their sports to new heights of achievement. In this course, students will explore a range of black athletes in the 20th century, paying particular attention to the attitudes, stereotypes and experiences they endured. In addition, this course will prompt students to analyze the representation, perception, and commodification of black athletes in popular media forms. Students will trace trends, shifts and themes in representations of blackness across different sports and historical periods. Topics under study may include resistance against and affirmation of athletes as role models, racial slurs in sports broadcasting, common themes in commercialized images of the black male athlete, and distinctions in media coverage based on race and gender. Texts will include everything from critical essays and sociological studies to commercials and documentary films. In their final projects, students may put their newfound knowledge to the test by exploring their campus or hometown to investigate the role that race plays on their own playing field.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based upon class participation, short weekly reading and/or listening assignments, one 5-page paper, final group project
Prerequisites: none; open to all
Enrollment Limit: 25

Instructor: James Nolan

Soc 219 Images and Society
"This is obvious!" is what we say when we believe our point is irrefutable. But images are far less obvious than we may like to think. This course will create a forum for discussing the role of images in our lives, as well as the place of the visual in social inquiry. It will explore the variety of ways in which images—and even vision itself—are shaped by the social and cultural context in which they are embedded, develop skills for critical analysis of existing representations, and address the analytical possibilities and limitations of the study of signs and images. The course will touch upon a range of visual material, from advertising to paintings, but the bulk of the course is dedicated to photography, both as an object of visual analysis and as, increasingly, a research method in social sciences. Topics for discussion include debates around truth in photography and the politics of representation, changing uses of photography in institutional settings, different photographic cultures and their anthropological and sociological significance, as well as the use of photography in social research. Primary sources for the discussions will be drawn from a variety of spheres, from Soviet propaganda posters to Indian studio portraiture, and will include the images we encounter in everyday life, media, politics, academia, "high" art and pop culture.

Class Format: seminar
Requirements/Evaluation: active class participation, several response papers, a midterm paper and a take-home final
Prerequisites: none; open to all
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2
Other Attributes: FMST Related Courses
Not Offered Academic Year 2018
SEM Instructor: Olga Shevchenko

Soc 221 Money and Intimacy
Can money buy love and care? The course will consider this taboo question from a sociological perspective. We will look into how relevant this question has been over the course of history, what forces have contributed to the shift in thinking about it, and, most importantly, how sociological research helps us understand its current ramifications. We will discuss a wide range of aspects of the relationship between marriage and romantic love, the role of inheritance in family and social life, the distribution of resources in the context of modern family forms (most notably remarriages), and the outsourcing of care for dependents. Intimacy bears different value and content in these changing contexts. The course will further look into the changing character of new economy where "people's skills" are ever more required from employees (emotional labor) and where intimacy, care, and/or sex constitute purchasable commodities. A reflection on the growth of new technologies will complie some of the discussed concepts and notions, but throughout a common denominator of our discussion will be the role of social inequality.

Class Format: seminar
Requirements/Evaluation: classroom participation and a final research paper
Prerequisites: none
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 12
Expected Class Size: 12
Distributional Requirements: Division 2
Not Offered Academic Year 2018
SEM Instructor: Marketa Rulikova
SOC 230(S) Memory and Forgetting (D)
On the surface, remembering generally confronts us as a deeply personal act. What is more private than nostalgic reverie or the secrets of a dark and painful past? Yet even “individual” memories take shape through social frameworks, and we also remember “collectively” through shared myths, narratives, traditions, and symbols. This course will explore the dimensions of memory and remembering as well as their inevitable counterpart—forgetting. How do social frameworks inform our individual understandings of the past and shape our sense of selfhood? How and why are figures from the past, such as Homer and Shakespeare, so important in our lives? How do we celebrate past glories, and how do they deal with shameful or embarrassing episodes? How do economic and political power relations shape struggles over the past? In the increasingly global society, can we speak of “cosmopolitan” or “transcultural” forms of memory? Topics will include self-identity, memory, and oral history; memorials, museums, and monuments; reputations, commemorations, and collective trauma; silence, denial, and forgetting; and transnational justice, official apologies, and reparations. This course meets the EDI requirement by taking a comparative perspective, attending to cross-national struggles over memory and examining cases such as the Holocaust, the atomic bombings of Hiroshima and Nagasaki, Anzac Day in Australia and New Zealand, the assassination of Yitzhak Rabin in Israel, apartheid in South Africa, and slavery in the United States.

Class Format: seminar
Requirements/Evaluation: active class participation, several short papers, one class presentation, and an 8-10 page final paper
Extra Info: not available for the fifth course option
Prerequisites: none

SOC 232 Symbols and Society
Human beings, as Kenneth Burke put it, are “symbol-using, symbol-making, and symbol-referring” individuals. In order to understand human beings, symbols help to substitute for “instincts.” Symbol guides our actions, shape our emotions, and enable us to coordinate with others. Symbols may generate solidarity across wide spaces and among people who have never encountered one another face-to-face. They may also influence the conflicts and exaggerate distinctions, even promote violence. This course will examine the role of symbols and symbolism in modern society, exploring how words, gestures, images, and icons give shape and form to social life. The first part of the course will provide a broad introduction to the sociological study of symbols. The second part of the course will pay particular attention to the role that symbols play in politics and nationhood. How do symbols such as flags, anthems, values, ideas, monuments, and memorials promote solidarity and common identity across space and time? When and why do nations struggle over symbols, and what influence do these symbolic struggles have on collective life? What role do symbols play in war, conflict, and violence? Topics will include the Vietnam Veterans Memorial, the 1995 Enola Gay exhibit at the Smithsonian, the Holocaust Museum in D.C., the “Ground Zero cross,” and the recent debates over the Confederate flag in South Carolina and beyond. We will focus primarily on the U.S., but will also work to make comparisons.

Class Format: seminar
Requirements/Evaluation: active class participation, several response papers, a short midterm essay, and a final paper with class presentation
Prerequisites: none
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 24
Expected Class Size: 15

SOC 236(S) Making Things Visible: Adventures in Documentary Work
Crosslistings: SOC 236/AMST 236/ARTH 237/ENGL 237
Photography, like an art or a craft, is a language, and looking carefully, this course will explore the overlaps and resonances between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will try their hand at the historically dominant approach to photojournalism, the art of interviewing, still photography, and video. Concurrently, we will explore a number of classical and recent examples of investigative work that blend word and image, from Let Us Now Praise Famous Men by Walker Evans and James Agee to the more recent Righteous Dopefiend by Philippe Bourgois and Jeff Schonberg. We will ask questions about the changing practices and expectations associated with the documentary’s role, and the evolving platforms on which such work can be presented, both off- and on-line. Lastly, we will pose the question of who controls that documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether “objective representation” is even possible or desirable. In addition to readings, students should be prepared to spend a significant time out of the classroom doing fieldwork. Experience in photography and/or video, although not required, will be helpful.

Class Format: seminar
Requirements/Evaluation: full participation in discussions, reading responses, projects, and a final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 12
Expected Class Size: 12
Distribution Notes: in addition to substantial readings, students should be prepared to spend a significant time out of the classroom doing field work.
Distribution Notes: meets Division 2 requirement if registration is under AMST or SOC, meets Division 1 requirement if registration is under ARTH or ENGL
Distributional Requirements: Division 2

SOC 240(F) Performing Masculinity in Global Popular Culture (D)
Crosslistings: WGSS 240/AMST 241/LATS 241/THEA 241/SOC 240
This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the visual arts. In our increasingly multicultural world, what does it mean to be masculine? How can the economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes - had their use value articulated in gendered ways? Why must masculinity be the purview of “males” at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to the racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J-K Pop), hip hop masculinities at home and abroad, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture. The course includes a field trip to a drag performance in Northampton.

Class Format: seminar
Requirements/Evaluation: masculinity journal, mid-term essay, visual analyses of pop culture artifact, choice of final essay or 12 page final paper
Prerequisites: none
Enrollment Preferences: in the event of over-enrollment, a short statement of interest will be solicited
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 2 requirement if registration is under AMST, LATS or SOC or WGSS; meets Division 1 requirement if registration is under THEA
Distributional Requirements: Division 2, Exploring Diversity

SOC 241 Meritocracy
Crosslistings: PSCI 241/SOC 241
Although an infinitesimal number of Americans have degrees from Harvard or Yale universities, 33% of the top decision makers in the second Obama administration did so. How do seven of the country’s eight sitting Supreme Court justices (as of early 2016)? Is this a positive sign that the United States is governed by its most talented and capable members who have risen through hard work and equal opportunity? Or a negative sign pointing to the power of a corrupt and self-selecting elite? This course explores the theme of meritocracy — rule by the intellectually talented — in comparative perspective. We will look at both old and new arguments regarding the proper role and definition of merit in political society as well as take the measure of meritocracy in present-day Singapore, France, and the United States. The course concludes with a focus on the current debate over American meritocracy and inequality.

Class Format: seminar
Requirements/Evaluation: two papers, take-home final exam, class participation
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Political Science and Sociology majors, first-years and sophomores intending a Political Science or Sociology major
Enrollment Limit: 25

SOC 244(S) What They Saw in America
Crosslistings: SOC 244/HIST 366/AMST 244
This course traces the travels and writings of four important observers of the United States: Alexis de Tocqueville, Max Weber, G.K. Chesterton, and Sayyid Qutb. The course will consider their respective journeys: Where did they go? With whom did they talk? What did they see? The historical scope and varying national origins of the observers provide a unique and useful
outside's view of America—once that sheds light on persisting qualities of American national character and gives insights into the nature and substance of international attitudes toward the United States over time. The course will analyze the common themes found in the visitors’ respective writings about America and will pay particular attention to their insights on religion, democracy, agrarianism, capitalism, and race. This course is part of the Williams College program at the Berkshire County Jail and House of Corrections and will be held at the jail. Transportation will be provided by the college. The class will be composed equally of Williams students and inmates, and one of the central goals of the course will be to encourage students from different backgrounds to think together about issues of common human concern. * Please note atypical class hour Monday, 4:45-8:30 pm.

**Class Format:** seminar; * Please note atypical class hour Monday, 4:45-8:30 pm.

**Requirements/Evaluation:** several short response pieces; a final paper of 10-15 pages.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option.

**Prerequisites:** none

**Enrollment Preferences:** juniors and seniors; final selection for the course will be made on the basis of an interview with the instructor

**Enrollment Limit:** 19

**Expected Class Size:** 9

**Dept. Notes:** * Please note atypical class hour Monday, 4:45-8:30 pm.

**SOC 248T(S) Altering States: Post-Soviet Paradoxes of Identity and Difference (D) (W)**

**Crosslistings:** SOC 248/GBST 247/RUSS 248

**Critics and apologists of Soviet-style socialism may not agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, and ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the perennial tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating an outsider’s view of America—once that sheds light on persisting qualities of American national character and gives insights into the nature and substance of international attitudes toward the United States over time. The course will also be on the systemic transition from state socialism to market democracy. The course is less to analyze and debate the historical and contemporary relations of inequality, values, attitudes, inter- and political heterogeneity of the postsocialist condition.

**Class Format:** tutorial

**Requirements/Evaluation:** 5-page paper every other week; comments on the partner’s paper in alternate weeks.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option.

**Prerequisites:** none

**Enrollment Preferences:** Anthropology and Sociology majors

**Enrollment Limit:** 10

**SOC 252(F) Moral Life in the Modern World**

**Crosslistings:** SOC 252/REL 286

This interdisciplinary seminar attempts to locate and examine modern moral life (i.e., the ethical dimension of modern culture) in its broader historical and cultural contexts. The aim of the course is to less to analyze and debate the theoretical moralities of philosophers and theologians, than it is to interpret and attempt to understand the lived moralities that people actually practice and carry out; that shape conduct and selfhood in the modern world. Part I of the course will provide a guided introduction to a range of central issues in the study of ethics and morality: moralism, moral relativism, and the nature of modern moral discourse; moral truth, and value freedom; the differences between normative and descriptive ethical inquiry; “thick” and “thin” moral conceptions, and the historically variable relationships between lived moralities, theoretical moralities, and moral customs. In Part II we will work through a series of case studies that take up the following issues: moral life in corporate, urban, and suburban contexts; media, moralism, and moral panics; business ethics; racism and racial identity; depersonalization, war and genocide. The course will furthermore examine ethics and morality “in,” “through,” and “of” literature, as students will select, read, and critique a work of fiction.

**Class Format:** lecture

**Requirements/Evaluation:** weekly discussion précis, film screenings, two book review essays, class presentations, and a take-home midterm.

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** none

**Enrollment Preferences:** Sociology and Anthropology students

**Enrollment Limit:** 19

**Expected Class Size:** 19

**SOC 263 Cold War Technocultures**

**Crosslistings:** SOC 263/AMST 263/HIST 363/HSCL 263/SCST 263

With the Soviet Union’s collapse at the end of the twentieth century and the emergence of the United States as an unchallenged victor and “new world” hegemon, how were we to make sense of the Cold War and what roles, if any, will it play in the future? This course will explore the emergence and role of the computer in shaping the distinctly American style of thought aimed at Soviet “containment.” We will furthermore trace historical developments in American culture and technology, from MIT’s legendary Whirlwind computer, the SAGE continental air defense system, nuclear war gaming at the RAND Corporation, artificial intelligence, and the advanced technologies, management strategies, and atrocities of the Vietnam War. Part II builds on the symbolic potency of the space race, which we will use as a conduit through which to explore the folowing: the Apollo moon landing, and American civil defense; the postwar science of cybernetics and the emergence of the now iconic cyborg; the Club of Rome’s Limits to Growth report and the Gaia hypothesis; plans backed by NASA for the industrialization, humanization, and colonization of outer space; and Ronald Reagan’s Strategic Defense Initiative, “Star Wars.” Finally, case studies considered in Part III will focus on moments of conflict and resistance, appropriation, and unintended consequences of the preceding and other Cold War technocultural developments, among them anti-psychiatry and environmentalism; Project Cybersyn, an infrastructural causality of the US/CIA-backed Chilean coup of 1973; the American counterculture and the countercultural roots of neoliberlalism(s)

**Class Format:** seminar

**Requirements/Evaluation:** weekly discussion précis, film screenings, class presentations, and a final research project decided in consultation with the instructor.

**Prerequisites:** none

**Enrollment Preferences:** preference will be given to students with a demonstrated interest in the study of Cold War science and technology

**Enrollment Limit:** 15

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

**SEM Instructor:** Grant Shoffstall

**SOC 268 Class and Inequality**

This course is designed to explore, both theoretically and empirically, the theme of social structure and inequality in contemporary modern societies. One’s position in social space largely determines one’s consciousness, identity, values, attitudes, interest, and behavior. While inequality is ubiquitous, there are cross-cultural variations in the definition of status and consequent distribution of social conditions and opportunities among individuals. In modern societies, social space and individual status are closely interconnected with the economic system and, consequently, with the occupational structures and relations evolving from it. Currently, globalization and technological developments, among them anti-psychiatry and environmentalism, are closely tied to the American counterculture and the countercultural roots of neoliberalism(s).

**Class Format:** seminar

**Requirements/Evaluation:** response papers, mid term exam and final research paper.

**Prerequisites:** none

**Enrollment Preferences:** Anthropology and Sociology majors

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

**SEM Instructor:** Marketa Rulikova

**SOC 283 Religion and Capitalism (W)**

**Crosslistings:** PSCI 140/SOC 283/REL 282

Up through the 1960s it was popular to claim that the world was becoming increasingly and inevitably secular, with the development of modern capitalist societies and relations as the “secularization thesis” was becoming largely defunct. Instead one sees the vibrant return of religion to social, economic, and political prominence in most parts of the world—at the very same time we are experiencing through globalization and the information revolution the most dismal economic advances in a century. This course investigates the historical and contemporary relationship between culture and economics, religion and capitalism, in their most encompassing forms. In investigating this theme, our cornerstone will be Max Weber’s famous argument from The Protestant Ethic and the Spirit of Capitalism. Along the way we will discuss both the origins of capitalistic society as well as its more...
recent transformations through the rise of the welfare state, consumerism, and globalization. We will also discuss changes in religion under the influence of capitalism including romanticism, Pentecostalism, moralistic therapeutic Deism, and the 'God gap' between largely theist Africa, South and West Asia, and the Americas on the one hand and largely atheistic Europe and East Asia on the other. These trends are investigated how secular processes like industrialization and commodification, and the modern media, alter understandings of the sacred in Black experience.

Class Format: seminar/discussion
Requirements/Evaluation: evaluation will be based upon class participation, 2-3 short papers, and a final research paper
Prerequisites: none; open to all
Enrollment Preferences: Africana Studies concentrators and Anthropology/Sociology majors
Enrollment Limit: 15

SOC 306 Lessons of The Game: The Wire and American Culture
Crosslistings: AFR 300/AMST 300/SOC 306
This critically acclaimed television program, The Wire, ran for five seasons on Home Box Office (HBO) between 2002 and 2008. Set in "inner city" Baltimore, the program addressed a wide array of topics, including, but not limited to, the urban drug trade, law enforcement, local city politics, labor unions, education, and the newspaper industry. Though a work of "fiction," William Julius Wilson has called the show an important and instructive portrayal of the "deep inequality in inner-city America." By contrast, some scholars and critics have decried the series and indeed, courses like this one, as examples of mainstream America's fascination with and attention to crime, drug addiction, violence, and urban decay, this course is part of the Gaudino Danger Initiative.

Class Format: lecture
Requirements/Evaluation: evaluation will be based on 2-3 short papers (5-7 pages), and a final written project (10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

SOC 311(F) Espionage
An exploration of the occupational world of intelligence officers. A focus on the 20th-century history of intelligence in the United States, Britain, and the Soviet Union, and on the post 9/11 Western intelligence efforts against Islamist terrorists. An appraisal of the structure and ethos of intelligence work both in the field and in the headquarters analysis of field materials. An examination of the training, social psychology, moral rules-in-use, and world views of intelligence officers, including those engaged in counterintelligence and counterespionage. A look at both remarkable intelligence successes and catastrophic failures. Extensive reading of declassified materials and interviews with former intelligence officers and memoirs written by them as well as an examination of interviews collected by the instructor.

Class Format: seminar
Requirements/Evaluation: full participation in the seminar, class presentations, and a major paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: all students are required to submit an application essay in order to be included in the course

SOC 315(F) Culture, Consumption and Modernity (W)

Not Offered Academic Year 2018

SEM Instructor: [Instructor's Name]
How do lifestyles, fashions and trends appear and evolve? Are we authors of our own taste? What structures our choices of goods and activities? What is it that gives meaning to objects and makes them desirable? Are there non-consumer societies in the modern world? How has globalization changed the ways people consume in different parts of the globe? This course will explore consumption and contemporary United States, tracing both the mechanisms that analyze the political, cultural and social agendas that have transformed consumption over time. Politics of consumption (the way in which seemingly free and independent consumption choices aggregate into the existing system of power and capital) will be the thread throughout. We will think about: the role of consumer practices in creating and articulating identities, building relationships and creating solidarities. We will look at fashion, advertising, arts and shopping in places as varied as nineteenth-century France, socialist Russia, and contemporary United States, tracing both the mechanisms that structure patterns of consumption, and the consequences that these patterns have for the larger social order.

Class Format: seminar

Requirements/Evaluation: full participation, ten journal entries and a 15-page term paper that will go through a draft and revision stage

Prerequisites: none; open to first-year students

SOC 317T The Public and the Private (W)

The sharp distinction between the private and the public spheres is often taken as one of the defining features of the Western modernity itself. Furthermore, the existence and vibrancy of the public sphere is a crucial precondition for participatory democracy, whereas respect for privacy and provisions and guarantees that ensure personal autonomy remain fundamental for the proper operations of the private sphere. This tutorial will address the public and the private as concepts that are always in a state of tension, and will explore these tensions from a sociological and historical vantage point. Topics include: democracy and the public sphere, publicity and its institutions, from the coffee house to the mass media, individual and collective identities, the “religion of individualism” and its rites and priests, public and private uses of space, the shifting lines of differentiation between the private and the public and the contestations of this distinction, as well as the impact of new technologies on the relationship between the public and the private. The tutorial will mainly address the Western cultural tradition, although it will involve intercultural comparisons, drawing on a wide range of literature, from Jürgen Habermas to Svetlana Boym, Nancy Fraser and Richard Sennett.

Class Format: tutorial; students will meet in pairs with the instructor 1 hour each week; they will write a 5- to 7-page paper based on the readings every other week (5 papers total); on alternate weeks they will write & present a 2-page response to their peer’s paper

Requirements/Evaluation: evaluation will be based on the analytical qualities of the students’ written and oral work and on their weekly participation in discussion

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none; open to all

Enrollment Preferences: Anthropology and Sociology majors

Enrollment Limit: 10

TUT Instructor: Olga Shevchenko

SOC 319 Ethnographic Approaches to African Studies

Crosslistings: AFR 319/SOC 319/AMST 319

Ethnography is the theoretical study and recording of human cultures. It involves the collection and analysis of information from multiple sources including (but not limited to) first-person accounts, life histories, interviews, observations, and autobiographical materials. Within African Studies, ethnographic approaches have been utilized to reflect complex narratives of black experience throughout the Diaspora. This seminar is a critical introduction to the theory, method, and practice of ethnography in African studies. We will explore a variety of cultures and settings, and discuss the practical, methodological and ethical issues related to ethnography. Three broad questions will dominate our discussions: 1) What are the theoretical, practical, and stylistic tools needed to fashion compelling ethnographies that get to the heart of what it means to document Africana experience? 2) What are the ethical and political implications of representing Africana perspectives in fieldwork studies? 3) What are the strengths and limitations of ethnography as a research method in African studies? Each student will utilize the materials covered in the course to research and write his or her own ethnography.

Class Format: seminar

Requirements/Evaluation: evaluation will be based upon class participation, weekly response papers, a 5- to 7-page critical book review, and the construction of a mini-ethnography

Prerequisites: none

Enrollment Preferences: Africana Studies concentrators, Women’s, Gender and Sexuality Studies majors, Religion majors

Enrollment Limit: 15

Expected Class Size: 10

Distributional Requirements: Division 2

Core Attributes: AFR Core Electives, AMST Comp Studies in Race, Ethnicity, Diaspora

Not Offered Academic Year 2018

SEM Instructor: Rhon Mangault-Bryant

SOC 324 Memory and Identity (D)

Our sense of self is inextricably tied to our understanding of our past, both as individuals and as members of society. This sense of origins, however, is far from self-evident; it is itself determined through the filtering of the time and events that an individual experiences and evolves under an array of influences. This course analyzes discourses of collective and individual identity and the mechanisms involved in the formulation of the Africains’ sense of their place in the world. Topics include: media of memory, politics of commemoration, nostalgia and selective forgetting, narratives of trauma and of a “golden age,” the invention of tradition, and battles over remembrance and heritage, such as the dispute over the ownership of Parthenon Marbles between Greece and the UK, or over the proper way to commemorate the victims of 9/11 in the US or the victims of Stalin’s purges in the post-Soviet space. This course fulfills the EDI requirement because it explores the diversity of the ways in which communities imagine and engage with their past, and puts struggles over memory in the context of groups’ struggles for power and visibility.

Class Format: seminar

Requirements/Evaluation: extensive class participation, several short papers, and a final research project with class presentation

Prerequisites: none

Enrollment Limit: 19

Expected Class Size: 15

Distributional Requirements: Division 2, Exploring Diversity

Not Offered Academic Year 2018

SOC 326(S) Being Mortal

One of the defining features of the human condition is our awareness of our own mortality. How do we cope with this awareness? How does it influence our social institutions? We will begin by exploring how social theorists such as Emmanuel Levinas, Max Weber, Ernest Becker, and Peter Berger grappled with mortality and its significance for human social life. We will then turn to the social institutions that structure our confrontation with mortality today. How, why, and with what consequences has death been “sequestered” in modern societies? How do collective memories and solidarities relate to the social world of the living? Why do rituals and rituals remain for coping with death and dying, and how do our cultural assumptions influence the experiences of grief, loss, and mourning? How does modern medicine—which is oriented toward cure but must ultimately confront the inescapable realities of aging and death—deal with mortality? How have hospice, palliative care, and debates over physician-assisted suicide changed the landscape in recent years? Our focus will be on the United States, but we will also consider cross-cultural comparisons.

Class Format: seminar

Requirements/Evaluation: three 6- to 7-page papers; an in-class presentation; thoughtful and consistent participation in class discussion

Prerequisites: none

Enrollment Preferences: if overenrolled, Sociology and Anthropology majors will receive preference

SOC 328 American Social Dramas (W)

Crosslistings: SOC 328/AMST 328/COMP 325/THES 328

As Shakespeare wrote memorably in As You Like It, “All the world’s a stage, and all the men and women merely players.” Sociologists have heeded Shakespeare’s wisdom, arguing that social and political events are “performances” that take shape in accordance with familiar cultural scripts and indeed that social actors implicitly interpret real-world events using plot structures from literary and dramatic genres such as romance, irony, comedy, and tragedy. We will explore this through the lens of contemporary American political events, including the Clinton-Lewinsky scandal, September 11, Hurricane Katrina, the 2012 presidential election, and current debates over Confederate symbolism. We will also pay careful attention to the unfolding drama associated with the 2016 presidential election. How do social performances and struggles to “control the narrative” shape the meanings and outcomes of political events? Are they merely “spectacles,” or wellspring for genuine civic participation? What role do political comedy, satire, and arts play in shaping the trajectory of contemporary political events? Major authors will include Victor Turner, Clifford Geertz, J.L. Austin, Erving Goffman, and Jeffrey Alexander. Throughout the semester, each student will develop a significant project on a political event of his or her choosing.

Class Format: seminar

Requirements/Evaluation: active participation, five 2-page response papers, a 12-page paper that will go through draft and revision stage, and a presentation

Prerequisites: none
SOC 330 Technology, Culture and Society
Crosslistings: SOC 330/SCST 330
An introduction to major trajectories of theory and empirical research in the sociology and history of technology: the Social Construction of Technology (SCOT), Large Scale Technological Systems (LTS), Actor-Network Theory (ANT), and cultural studies of technoscience broadly. Students will also become acquainted with a number of philosophical positions on technocracy: instrumentalist, Marxist, cultural/substantivist, humanist and posthumanist. Topics to be explored include technology, (post)industrial capitalism, and the nature of modern power; the role of technology in giving shape and weight to social institutions and forms of agency; technology, individualism, and the everyday life in the context of science and medicine and accommodation to technological change; technology as a point of view and total way of life (culture); language, quantification, computerization, and (tele)visual media; and technology and environment. The course is furthermore designed to allow students to explore and research topics not appearing on the syllabus in the main.
Class Format: seminar
Requirements/Evaluation: weekly discussion precincts, class presentations, a midterm essay, and final paper

SOC 332 Life and Death in Modernity
Death is a biological fact. Death is also one of the few universal parameters in and through which social worlds and individual lives are created. Death, in other words, is a primary source of the material and symbolic activities through which humans work to construct, legitimate, and maintain social realities. To attend to the ways of death, then, is to attend simultaneously, if only indirectly, to “ways of life”—the hopes and fears, the ways and wants of a people. In this course we will ask: How, why, and with what manner of consequence has it come to be that, under late-western modernity, the aged, the sick, the dying, the bereaved, and indeed death itself, are routinely “set aside”, hidden from view and thus awareness, institutionally sequestered from those of us among the living? We will attend to the historical emergence of the institutional forms that perpetuate this sequestration, and show how they have become tightly articulated with one another: hospitals, nursing homes, hospice centers, funeral homes, cemeteries. We will furthermore examine the peculiar bodies of expert knowledge that have arisen in tandem with these institutional forms, among them gerontology, thanatology, and bereavement studies, noting how they have contributed to the (bio)medicalization of aging, death, and grief. Other topics to be explored include the commodification and consumption of health and well-being; the emergence of anti-aging medicine and “popular” rationalities of human life extension; cryogenic suspension, zombies, and the paranormal.
Class Format: seminar
Requirements/Evaluation: weekly journal entries, film screenings, take-home midterm, class presentations, and a final 12- to 15-page paper to be decided in consultation with the instructor

SOC 334 Social Studies of (Pseudo) Science
What makes science science? Where does science end and pseudoscience begin? What (if anything) separates the crackpots from the innovators? Philosophers of science have long labored over the so-called "demarcation” problem: how to analytically hive off "science” from "non-science.” In this course we will survey the history of these philosophical labors, underscoring the inherent limits of demarcation as an analytical problem amenable to solution in the abstract. Operating instead in a largely sociohistorical register, we will consider demarcation as a practical problem scientists take up and negotiate in the concrete, in a range of different contexts and for a variety of ends. What is at stake in scientists’ efforts to establish boundaries between what counts as scientific knowledge and what does not? How are these boundaries created, maintained and contested, and by whom? This course will speak to these questions by focusing on how and under what circumstances various doctrines that have aspired to science have nevertheless been met with the designation of “pseudoscience.”

SOC 338(F) Transhumanism: Religion, Technoscience, Obsolescence
Crosslistings: SOC 338/SCST 338/HSCI 338/REL 338
This interdisciplinary seminar invites students to pursue sociohistorical analysis and sustained critical discussion of the so-called “transhumanist movement” and its overriding aim: the transformation and eventual transcendence of human biological constitution; the realization, through highly speculative technoscientific means, of an enhanced or even “postbiological” existence, the so-called “posthuman condition,” “Humanity 2.0.” Through close readings of historical documents, transhumanist texts, scholarship on transhumanism, and relevant cultural artifacts, we will learn to think critically about the boundaries between science and pseudoscience and to consider how we might imagine a transhumanist movement’s potential for creating new political and ethical possibilities. The course will position the movement as an empirical conduit through which we can explore the sociohistorical conditions under which transhumanist ideas have emerged and circulated, and take their theoretical, social, and political implications seriously. To this end, we will consider transhumanism’s ties to some of the most objectionable aspects of modern technology and late capitalism: eugenics, the commodification of health, and massive investments pharmaceuticals, anti-aging medicine, and so-called “GNR” technologies (i.e. genetics, nanotechnology, and artificial intelligence and robotics); the movement’s affinities with neoliberalism and Euro-American (cyber) libertarian politics; and what some have pointed to as transhumanism’s racialized subtexts of whiteness. We will furthermore devote considerable attention to the technological singularity, artificial intelligence, the figure of the cyborg, mind-uploading, space colonization, and cryogenic suspension, all of which, like transhumanism broadly, suggest that science and technology have in some sense come to operate as powerful channeling forces that shape our social and political expectations and association that theorists of secularization expected to produce a truly secular moment, by way of attending to instances of pseudoscientific designation.

SOC 350 Max Weber & Critical Theory or Rationalization & Its Discontents
Crosslistings: REL 350/SOC 350/COMP 349
We live in an age characterized by unprecedented technological and scientific progress—we have unraveled the building blocks of life, witnessed the birth of stars at the edge of the galaxy, and harnessed the power of the atom—and yet many of us feel adrift, as though they have lost any sense of ultimate value—we work, we eat, we excrete, we die, perhaps in the interim shuffling paperwork, sucking up to our boss, and asking ourselves, "What kind of dining set defines me as a person?" Few thinkers have explored the roots of modern ennui as thoroughly as Max Weber, the sociologist often regarded as the single most important social theorist of the twentieth century. Weber wanted to know why it was European civilization in particular that gave birth to the grand trifecta of rationality, science, and capitalism and how we have become enslaved by the very things that were supposed to have set us free. Weber’s key innovation was to trace the grand trajectory of Western "rationalization”—the historical attempt to produce a world in which “one can, in principle, master all things by calculation.” Further, he showed how this rationalization produced not just mastery over nature, but also “the disenchantment of the world” - value fragmentation, hyper-specialization, bureaucracy, and ultimately the “iron cage” of modernity. The first part of this course will follow in Weber’s footsteps by tracing those various lines of flight from the iron cage of
modern.

Class Format: seminar

Requirements/Evaluation: attendance and participation, weekly critical reflections, 5- to 6-page midterm paper, 10- to 15-page final essay

Prerequisites: none

Enrollment Preferences: preference will be given to REL, ANSO and COMP majors

Enrollment Limit: 15

Expected Class Size: 15

Distribution Notes: meets Division 2 requirement if registration is under REL or SOC; meets Division 1 requirement if registration is under COMP

Distributional Requirements: Division 2

SEM Instructor: Jason Storm

SOC 362(F) Story, Self, and Society (W)

Crosslistings: SOC 362/COMP 362

From The Moth to StoryCorps to Williams College’s own Storytime, stories are ubiquitous in contemporary society. Indeed, sociologists have argued that social life is itself “storyed”-that we locate ourselves within familiar narrativ structures, using them to “construct” identities and “tell” our lives. Stories, in this view, are not only the stuff of literature, but also the very fabric of social life: the foundation for individual and collective identities. This tutorial will grapple with the role of stories and storytelling in modern social life. What role do stories play in constituting personal identity? What cultural templates structure the stories we tell? Why are memoirs so popular, and how can we explain the more recent resurgence of interest in oral forms of storytelling? Specific topics will include illness narratives, confessional culture, digital stories, oral history, and memoir. As a capstone exercise, each student will construct a narrative analysis focused on a memoir that we will select collectively. The course will conclude with a final seminar meeting during which each student will tell a story of his/her own, and we will work together to consider how the theories we have encountered throughout the semester might illuminate our own narratives.

Class Format: tutorial

Requirements/Evaluation: 5-page paper every other week; comments on the partner’s paper in alternate weeks

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest; priority consideration will be given to ANSO and COMP majors

Enrollment Limit: 10

Expected Class Size: 10

Distribution Notes: meets Division 2 requirement if registration is under SOC; meets Division 1 requirement if registration is under COMP

SOC 368(F) Technology and Modern Society

Crosslistings: SOC 368/ENVI 368

With widespread use of new social media, controversial developments in such bio-technical practices as the cloning of mammals, rapid advancement in various forms of telecommunication, and the increasing sophistication of technological weaponry in the military, the triumph of technology remains a defining feature of modern life. For the most part, modern humans remain unflinchingly confident in the possibility that technology holds for continuing to improve the human condition. Indisputably, technology has benefited human life in innumerable ways. However, as with other features of modernity, technology has also had significant, albeit largely unanticipated, social consequences. Working within a sociological paradigm, this course will focus on the less often examined latent functions of technology in modern society. It will consider, for example, the social effects of technology on community life, on privacy, and on how people learn, think, understand the world, communicate, and organize themselves. The course will also examine the effects of technology on medicine, education, criminal law, and agriculture and will consider such counter-cultural reactions to technology as the Luddite movement in early nineteenth century England, Amish agrarian practices, and the CSA (community supported agriculture) movement.

Class Format: seminar

Requirements/Evaluation: two short papers, a midterm exam, and a final exam

Extra Info: may not be taken on a pass/fail basis

Prerequisites: none

Enrollment Preferences: Anthropology and Sociology majors

SOC 371 Medicine, Technology, and Modern Power

Crosslistings: SOC 371/HSCI 371/SCST 371

Medicatization: those processes by which previously non-medical problems, once deﬁned as ethical-religious, legal or social (e.g. drug and alcohol addiction, shyness, obesity), are brought within the purview of medical science and redeﬁned as medical problems, usually in terms of “illness” or “disorder.” Part I: The history of the medicatization thesis; medicatization as a technical process; modern medicine as a form of social control; critiques of the medicatization thesis. Part II: From medicatization to biomedicalization; from the management of human life to the transformation of “life itself” by way of post-World War II technoscientiﬁc interventions aimed at “optimizing” human vitality. Empirical cases for consideration will be drawn from those technoscientific developments having major implications for optimatization that deﬁnes biomedicalization: molecular biology, pharmacogenomics, biotechnologies, imaging techniques, robotics, and transplant medicine, among others. Finally, a consideration of how processes of biomedical optimization have produced new ways of knowing, and imagining human bodies, such that biology is increasingly less representative of “destiny” than it is of possibility. The course will to this end conclude with a survey of emerging issues in speculative technosciene and the ethics and politics of human enhancement.

Class Format: lecture

Requirements/Evaluation: weekly discussion précis, science-ﬁction book review essay, class presentations, and a take-home midterm exam

SOC 385(F) Breaking Apart

This course examines the splintering of American and indeed Western social structure and culture. Attention will be paid to the: transformation of family, marked by the abandonment of traditional definitions of sex, gender, and marriage; the consequences of the de-industrialization and globalization of Western economy; increasing bureaucratization of every sphere of life, especially the growth of the leviathan state; institutionalization of adversary political cultures, on both left and right; proliferation of claims on public and private bureaucracies, fueled by competing propaganda spun by technicians in moral outrage; transformation of mass media and of audiences into specialized cliques; alliance of insulated political, economic, and cultural elites against the interests of middle/working classes on myriad issues, particularly crime, immigration, and the implications of the ecological crisis; metaphors of public manners, etiquette, and rules for discernment of aesthetic, artistic, and intellectual worth; clashes between the manifold cultural frameworks that give meaning to personal experiences; the stark racialization of public opinion and discussion; and the multiplicity of moral codes and conceptions of public order that often conflict with presumably common laws.

Class Format: seminar once a week

Requirements/Evaluation: regular class presentations, major term paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: an application essay required for admittance

Enrollment Preferences: Anthropology and Sociology majors

SOC 386(S) Living with the Bomb: American Culture in the Nuclear Age Crosslistings: SOC 386/HIST 387

Following the first use of nuclear weapons against Japan at the end of World War II, atomic science has fueled Americans’ fears, hopes, nightmares, and fantasies. This course will examine various aspects of American nuclear culture in the early-Cold War period. It will consider topics ranging from the Manhattan Project to delivery of the bombs for combat, scientists’ movements to abolish atomic weapons and expand peaceful atomic energy production, and the destructive consequences of the bomb’s initial use and subsequent testing. The class will also investigate the role of the nuclear arms race in the Cold War, the development of civil defense and bomb shelter culture in the United States, and dystopian fiction about the nuclear apocalypse. Employing both historical and sociological perspectives, we will explore the interactions between science, diplomacy, politics, and culture in the nuclear age.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based on a midterm, a final exam, and a 10- to 12-page research paper

81
SOC 387 Propaganda
A sociological analysis of the phenomenon of mass persuasion in modern society. The course will examine the institutional and technical apparatus of modern propaganda and the role of intellectuals and technicians in shaping and disseminating propaganda. The symbolic content of specific kinds of propaganda—political, commercial, social, and organizational—will be considered with attention to propaganda that seeks to overthrow social structures as well as maintain them. The course will proceed through a series of intensive case studies with a particular focus on propagandists themselves, considered as experts with symbols, and on the institutional milieus in which they work. Among other examples, we will examine the U.S. Committee on Public Information during the First World War; the Nazi Ministry of Propaganda; the propaganda machinery in contemporary states and non-state actors of both the left and right; conservative and liberal “public interest” groups; propaganda in contemporary social movements and national political campaigns; the workings of corporate and university personnel offices; and advertising and publications agencies in the United States. Throughout the course, we will analyze how the language, ideologies, and visual symbols of particular varieties of propaganda seem to affect mass audiences.

Class Format: seminar
Requirements/Evaluation: full participation in seminar, class presentations, and a major paper

ARABIC STUDIES
(DIV I, with some exceptions as noted in course descriptions)
Coordinator: Professor GAIL NEWMAN
Assistant Professors: A. EQUEI, L. NASSIF. Visiting Assistant Professor: K. BECK. Affiliated Faculty: Professors: M. BERNHARDSSON***, D. EDWARDS**, G. NEWMAN***, K. PIEPRZAK, L. ROUHI**. Assistant Professors: M. APOTSOS*, S. YACOOB. Senior Lecturer: H. EDWARDS.
Teaching Associate: TBA.

Middle Eastern Studies is a vibrant and growing discipline in the United States and around the world. Students wishing to enter this rich and varied discipline can begin with a major in Arabic Studies at Williams. The major is designed to give students a foundation in the Arabic language and to provide the opportunity for the interdisciplinary and multi-disciplinary study of the Arab, Islamic, and Middle Eastern areas.

THE MAJOR IN ARABIC STUDIES
Students wishing to major in Arabic Studies must complete ten courses, including the following six courses:
ARAB 101-102 Elementary Arabic
ARAB 201 Intermediate Arabic I
ARAB 202 Intermediate Arabic II
ARAB 301 Advanced Arabic I
ARAB 302 Advanced Arabic II

Students must also take at least one 400-level ARAB course, in addition to three other courses in Arabic and Middle Eastern Studies in Arabic Studies or affiliated units. At least one of these courses should be from the arenas of language and the arts (DIV I) and at least one from politics, religion, economics, history, etc. (DIV II). Students should consult with the Department to confirm that electives are authorized.

Students who place into more advanced language courses may substitute additional courses, adding up to a total of at least nine courses.

Up to four courses from approved study abroad programs may be counted toward the major.

THE CERTIFICATE IN ARABIC
The Certificate in Arabic demonstrates that a student has acquired a working foundation in the language. The sequence of eight language and culture courses is designed to supplement a student’s major at Williams by enabling the student to expand their knowledge in a related field.

Required Courses
ARAB 101
ARAB 102
ARAB 201
ARAB 202
ARAB 301
ARAB 302
At least one elective course, either in Arabic literature, arts, or culture, or in Arabic history, religion, politics, economics, etc.

Students must earn a cumulative grade average of B or higher in the sequence of seven courses.

Students who enter Williams with previous training in Arabic may be exempted from up to two of the required seven courses. Thus, in order to earn a certificate, a student must take no fewer than five courses (including three language courses) after enrolling at Williams.

THE DEGREE WITH HONORS IN ARABIC STUDIES
Prerequisites
Honors candidates in Arabic are required to have maintained a GPA of 3.5 in the major to qualify for submitting a thesis proposal. In addition, candidates must demonstrate a strong interest in a specific topic for which an appropriate faculty advisor will be available in the senior year.

Timing
Students wishing to pursue a thesis in Arabic are strongly urged to secure an advisor by the end of the week after Spring Break in their junior year. By May 15th of their junior year, candidates must submit to the Program Advisory Committee a one- to two-page proposal and a preliminary bibliography. The Advisory Committee will inform candidates by June 1 whether they may proceed with the thesis and advise them about any changes that should be made in the focus or scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and preparing for the process of writing the thesis.

In their senior year, candidates will devote two semesters and the winter study abroad period to their theses (ARAB 493-W31-ARAB 494). By the end of the Fall semester, students will normally have undertaken substantial research and produced the draft of at least the first half of the project. At this point students should also have a clear sense of the work remaining for completion of the thesis. In the course of the Fall semester, students will also have chosen and met with a second reader for the project, who will provide additional guidance and read the final thesis. By the end of Winter Study, students should have completed a draft of the entire project. At that time, the Comparative Literature Advisory Committee, together with the advisor, will determine whether the project may continue as an Honors Thesis, or whether its first portions (ARAB 493-W) will be graded as Independent Studies.

The second semester of independent thesis work will be spent revising as necessary. The completed thesis in its final form will be due one week before the last day of classes. At the end of the Spring term, the student will make a public presentation of the final project, to which members of the Advisory Committee will be specially invited.

Characteristics of the Thesis, Evaluation, and Major Credit
The topic of the thesis must have to do with some aspect of Arabic language, culture, history, politics, etc. and will be worked out between the thesis writer and her/his advisor. It is also possible to write a thesis that consists of an original translation of a significant text or texts; in this case, a theoretical apparatus must accompany the translation. The complete thesis must be at least 50 and at most 75 pages in length, excluding the bibliography.

The advisor will assign the grades for the thesis courses (ARAB 493-W-494); the Advisory Committee will determine whether a candidate will receive Honors, Highest Honors, or no honors.

For students who pursue an honors thesis, the total number of courses required for the major-including the thesis course (ARAB 493-W-494) is 10, i.e., one of the thesis courses may substitute for one elective.

STUDY AWAY
ARAB 101(F) Elementary Arabic
This is the first course in the year-long Beginning Arabic sequence. It will help you establish a foundation of communicative competence and understanding of the Arabic language and culture. The course adopts an integrated-skills approach with a focus on "formal Arabic" (or so-called Modern Standard Arabic), the language of formal speech in Arab countries, while simultaneously familiarizing you with one variety of spoken Arabic. The course focuses on day-to-day situations and familiar topics.
Class Format: lectures, five hours a week
Requirements/Evaluation: evaluation is based on tests, daily homework, active class participation, a skit, a culture portfolio, and engagement in a variety of co-curricular activities
Extra Info: students registered for ARAB 101 and 102 are required to attend and pass the sustaining program during the winter study period; credit is granted only if both semesters (ARAB 101 and 102) are taken may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: students considering a major in Arabic Studies
Enrollment Limit: 18
Expected Class Size: 15
Distributional Requirements: Division 1

Fall 2017
LEC Section: 01 M-F 10:00 AM 10:50 AM Instructor: Lama Nassif

ARAB 102(S) Elementary Arabic
This is the second course in the Beginning Arabic sequence. It builds on the foundation of Arabic competence that you established in Arabic 101, and will continue to develop your competence in Modern Standard Arabic and one variety of spoken Arabic. The course will continue to focus on day-to-day situations and familiar topics from the immediate environment while expanding the range of topics and authentic materials, and broadening the scope of linguistically-based and culturally-based tasks and course expectations.
Class Format: lectures, five hours a week
Requirements/Evaluation: evaluation is based on tests, daily homework, active class participation, a presentation, a writing portfolio, and engagement in a variety of co-curricular activities
Extra Info: students registered for Arabic 101 and 102 are required to attend and pass the sustaining program during the winter study period; credit is granted only if both semesters (ARAB 101 and 102) are taken may not be taken on a pass/fail basis; not available for the fifth course option

ARAB 111(F) Movers and Shakers in the Middle East (D) (W)
Crosslistings: HIST 111/LEAD 150/ARAB 111
This course examines the careers, ideas, and impact of leading politicians, religious leaders, intellectuals, and artists in the Middle East in the twentieth century. Utilizing biographical studies and the general literature on the political and cultural history of the period, this course will analyze how these individuals achieved prominence in Middle Eastern society and how they addressed the pertinent problems of their day, such as war and peace, relations with Western powers, the role of religion in society, and the status of women. A range of significant individuals will be studied, including Gamal Abd al-Nasser, Mustafa Kemal Ataturk, Ayatollah Khomeini, Muhammad Mussadiq, Umm Khulthum, Sayyid Qutb, Anwar Sadat, Naghuiabh Mahfouz, and Huda Shaarawi.
Class Format: seminar

ARAB 201(F) Intermediate Arabic I
In this course we will continue to study the Modern Standard Arabic and one variety of spoken Arabic. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing an increased vocabulary and cultural appreciation of Arabic-speaking countries.
Class Format: lecture; the class meets four hours a week with the fourth hour a conversation section
Requirements/Evaluation: evaluation will be based on quizzes, tests, homework, and active class participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARAB 101-102 or permission of instructor
Enrollment Limit: none
Expected Class Size: 10
Distributional Requirements: Division 1

Fall 2017

ARAB 21ST The Veil: History and Interpretations (D) (W)
Crosslistings: HIST 110/ARAB 215/WGSS 110

This tutorial will consider the history and the changing meanings of the veil (hijab) and its many manifestations (e.g. burqa, chador, niqab), starting with the earliest religious traditions and the status of women in Islamic law. We will then proceed to examine imperialist and orientalist representations of gender in the Middle East, the rise of Islamic feminism and finally consider the emergence and return of the veil in recent years in the Middle East, North America, Asia and Europe. The tutorial is part of the Exploring Diversity Initiative (EDI) because it considers the veil across different cultural areas.

Class Format: tutorial

Requirements/Evaluation: each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner's paper; by semester's end each student will have written a minimum of 40 pages.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ARAB 222 Photography in/of the Middle East (D)
Crosslistings: ARTH 222/ARAB 222

Since its inception, photography has been globally disseminated but locally inflected, serving disparate documentary needs and expressive purposes in different cultural contexts. In the Middle East, the powers and pleasures of the medium have been valued by colonial forces, indigenous populations, photojournalists and artists; the resulting images merit aesthetic appreciation even as they grant visual access to the past and present in complicated places. The course will explore photographic practices in different zones of the Middle East—e.g., the Holy Land, Egypt or the Persian sphere—by attending to individual photographers and case studies. This tightly focused approach will support, in turn, a consideration of the burdens and risks of representation in particular circumstances—what work do photographs do? Who resists and who benefits? The general goal will be to appreciate the diversity of perspectives that underlie renderings of the Middle East.

Class Format: lecture

Requirements/Evaluation: class participation, short papers, term project

ARAB 224 Second Language Learning: The Learner, the Classroom, and the Social World

Learning a second language is one of the most exhilarating, rewarding, and eye-opening experiences of a life-time. Millions of people around the globe embark on a journey of exploration of target languages and cultures while moving beyond their first language(s) in the process. This course introduces you to core issues related to the learning of a second language. What are the processes involved in learning a second language? What does it mean to know another language? Is second language learning similar to first language learning? Why are some language learners more successful than others? What individual variables do learners bring to the learning process? How can classrooms facilitate second language learning? How do the dynamics of native and non-native teachers in the classroom affect second language learning? How does the specific sociocultural context impact language learning? How does learning about the target culture feed into language learning? How does the learner's identity evolve in the process of second language learning? These are some key second language learning questions that we will examine in this class. Readings are drawn from studies on the learning of different languages.

Class Format: lecture

ARAB 227(F) Language and Society: What Does Your Speech Say About You?
Crosslistings: ARAB 227/ANTH 227

Sociolinguistics is the study of how aspects of society influence the way language is used by the society members. In this course, we will examine the interrelationships between the way language is used in various social contexts affecting that usage. How and why do languages change? How does language reflect a person's identity? How does language intersect with power relations among individuals within a society? Does language vary according to social contexts? How and why do languages switch among different varieties? These are some key questions that we will examine in this class, drawing on readings that focus on different languages.

Class Format: lecture

Requirements/Evaluation: active class participation, response essays, assignments, article presentation, variation paper, final exam

Spring 2018

SEM Section: 01 TR 08:30 AM 09:45 AM Instructor: Kirsten Beck
Crosslistings: REL 230/ARAB 230/GBST 230
Considered the Messenger of God, Muhammad is a central character of the Islamic tradition and has been the object of love and devotion for centuries. Recent outbursts sparked by controversial cartoons depicting Muhammad have made clear that he remains a revered and controversial figure even today. This course takes a critical historical perspective to the biography of Muhammad, the founder of Islam. Rather than focus on the "facts" of his life, we will think about the ways in which historical context, political interests, and shifting conceptions of religion have influenced the way in which Muhammad has been remembered. We will consider the ways in which Muslim and non-Muslim biographies of Muhammad are intertwined and interdependent, often developing in tandem with one another. By exploring Muslim and non-Muslim, pre-modern and modern accounts of Muhammad’s life, we will think about the many layers in which Muhammad’s life has been told and re-told over the centuries. In this course we will consider some of the following depictions of Muhammad: Muhammad as the object of ritual devotion, Muhammad as a social and military leader; Muhammad’s polygamous marriages and his young wife, Aisha; Muhammad as social reformer and revolutionary. Course readings will include pre-modern biographies (in translation) as well as contemporary Muslim and non-Muslim biographies.

Class Format: seminar
Requirements/Evaluation: reading responses, 3 short essays (3-4 pages double-spaced), and final exam
Prerequisites: none
Enrollment Preferences: Religion majors

ARAB 236(S) Reading the Qur'an (D) (W)
Crosslistings: REL 236/ARAB 236/GBST 236/COMP 236
In the nearly 1500 years of Islamic history, the Qur'an has been a central source of spiritual insight, ethical and legal guidance, sacred stories, and theological principles. Considered the divine word of God, the Qur'an is central to devotional life. This course will explore the Qur'an as a text that is always in a state of production. We will focus significantly on close readings of the text of the Qur'an, in addition to pre-modern and modern Qur'anic exegesis. The course will begin with a historical account of the revelation and collection of the Qur'an, placing the form and content of the text in the context of 7th century Arab society and the life of the Prophet. We will then study Qur'anic commentaries to discuss how Muslims have drawn theological, legal, philosophical, and mystical meaning from the Qur'an. We will pose some of the following questions: What do the different exegetical methods tell us about the intertextual nature of the Qur'an? How have these shifting notions affected the meaning made from Qur'anic verses and passages? What role do interpretive communities play in determining what the Qur'an says? Lastly, through an exploration of the art of Qur'an recitation, calligraphy, and Qur'an manuscripts, we will explore the ways in which the Qur'an is also an object of devotion in Muslim life.

Class Format: seminar
Requirements/Evaluation: class participation, weekly reading responses, 3- to 5-page midterm paper, and a final project with a media component and a 4- to 6-page analytical essay
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Religion and Arabic Studies majors
Enrollment Limit: 19
Expected Class Size: 19
Distribution Notes: meets Division 2 requirement if registration is under REL or GBST; meets Division 1 requirement if registration is under ARAB or COMP
Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive

ARAB 238(F) Science and Civilization in Islam (D)
Crosslistings: ARAB 238/REL 232/SCST 238/HSCI 238
History of scientific traditions and ideas in Islamic civilization, from the origins of Islam to the contemporary period. Students will explore the ancient sources of science that were appropriated by Islamic thinkers, the development and significance of scientific ideas within Islam, and the interaction of science and religion. The transmission and influence of Islamic science on other cultural traditions and its importance for modern science will also be discussed. We will also examine the larger question of rationality within Islamic societies and religion, and how these questions have influenced modern political debates.

Class Format: lecture
Requirements/Evaluation: midterm, final, several short assignments, and a longer final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: juniors and seniors
Enrollment Limit: 25
Expected Class Size: 15

Distribution Notes: meets Division 1 requirement if registration is under ARAB; meets Division 2 requirement if registration is under REL, HSCI or SCST

Distributional Requirements: Division 1, Exploring Diversity
Fall 2017

ARAB 242 Women, Gender, and Sexuality in Islam
Crosslistings: REL 242/ARAB 242/WSGS 242
This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these roles through different layers of Islamic law and culture. We will explore representations of Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law; how they have reformed and reimagined Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities.

Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Class Format: seminar
Requirements/Evaluation: active class participation (including a presentation on the reading materials), short weekly reflections, and one final research paper (10-15 pages)
Prerequisites: none
Enrollment Preferences: Religion, Women's, Gender Studies and Arabic majors
Enrollment Limit: 19
Expected Class Size: 10
Distribution Notes: meets Division 2 requirement if registration is under ARAB

ARAB 243 Islamic Law: Past and Present
Crosslistings: REL 243/ARAB 243/HIST 302/WSGS 243
From fear of the Shari'a to its implementation in so called "Islamic countries," Islamic law is perhaps best associated with draconian punishments and the oppression of women. Islamic law is ever present in our public discourse today and yet little is known about it. This course is designed to give students a foundation in the substantive teachings of Islamic law. Islamic law stretches back over 1400 years and is grounded in the Qur'an, the life example of the Prophet Muhammad, and juridical discourse. Teetering between legal and ethical discourse, the Sharia moves between what we normally consider law as well as ethics and etiquette. The course will explore four key aspects of the law: its historical development, its ethical and legal content, the law in practice, and the transformation of Islamic law through colonialism and into the contemporary. Specific areas we will cover include: ritual piety, family and personal status law, criminal law, and dietary rules.

Class Format: seminar
Requirements/Evaluation: weekly responses, four 2- to 3-page essays
Prerequisites: none
Enrollment Preferences: majors
Enrollment Limit: 19
Expected Class Size: 10
Distribution Notes: meets Division 2 requirement if registration is under ARAB

ARAB 251 Popular Culture in the Arab World: Youth, Populism, and Politics
Crosslistings: ARAB 251/COMP 251
Since the uprisings in the Arab world in 2011, much attention has been paid to the significant role of the “popular” in creating social and cultural transformations. The voice of the youth and “the street,” in particular, emerged as a massive source of动力. But, are these categories identical? Does youth culture equal popular culture? This survey course is designed to provide students with an introduction to the different layers that constitute popular culture in the Arab world since the democratization of Arab states in the 1950s. Questions that we will ask include: What constitutes “popular culture” in the Arab world? How is it different than folk culture, mass culture, or “high” culture? Who are the key players in the creation and dissemination of “popular” culture? Besides globalization, for example, what other social, political, and economic forces shape the definition of the “popular”? What are modes of self-fashioning and
representation of Arab identity that characterizes this culture? To answer these questions we will watch several documentaries about music, politics and youth in the Arab world. We will also read a selection of essays from anthropology, Arab culture studies, political science, and journalism to provide historical and critical context for the material discussed in class.

Required graphic texts will include: Najat Al-Ali's A Child in Palestine and Majdi Shafî's Metro: A Story of Cairo.

Class Format: lecture
Requirements/Evaluation: active class participation, several short response assignments (2-3 pages each), and final paper (5-7 pages)
Prerequisites: none

Enrollment Preferences: students majoring in or considering major in Arab Studies

ARAB 252 Arab Women Memoirs: Writing Feminist History
Crosslistings: ARAB 252/COMP 252/WGSS 251/HIST 309

This course reviews selected autobiographical writings by Arab women writers from the wave of independence in the 20th century to the contemporary Arab uprisings, passing through all the transformations that globalization and the technosphere have instigated. We will examine the role that firstvoice narrative plays in shaping literature, history and thought, while providing a political agency. Focusing on the different articulations of selfrepresentation, our discussion will address how these women reflect on the shifting discourses of identities, gender, nationalism, race, identity, sexuality, politics, borders and their histories. Questions we will address include: How did these memoirs contribute to the development of Arab feminist consciousness? In addition to the memoirs, we will look at women’s blogs and watch films that focus on first-person narrative to discuss related topics, such as, visual testimonies, virtual political participation and feminist resistance in the technosphere. Required texts may include: Fadwa Tuqan (A Mountainous Journey: An Autobiography), Fatima Mernissi (Dreams of Trespass: Tales of a Harem Girlhood), Leila Ahmed (A Border Passages: From Cairo to America—a Woman’s Journey), Fadia Fagir and Shirley Eber (In the House of Silence: Autobiographical Essays by Arab Women Writers), and Jumanah Haddad (I Killed Scheherazade: Confessions of an Angry Arab Woman), as well as critical essays and selections from Middle Eastern Studies Electives

Class Format: seminar
Requirements/Evaluation: active class participation, several short response papers, three short papers (3-5 pages), and a final paper (7-10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ARAB 253 Narratives of Placement and “Displacement” from the Global South (W)
Crosslistings: COMP 253/ARAB 253

This seminar deals with the theme of placement and “displacement” in literature from different sites in the Global South in the late 20th century. Situating the question of placement and uprootedness within multiple historical and cultural contexts in different sites in the Southern hemisphere, the location of much of the “developing world,” including the Middle East and North Africa, Latin America, the Caribbean, the African Diaspora and the US-Mexico borderlands, we will address the following questions: What distinguishes exile from Diaspora? What constitutes “displacement”? How do the experiences of up-rootedness and forced migration among Palestinian refugees and Mexican migrant workers (within Mexico and the US; with or without documents) inform our notion of home and belonging? How do the legacy of French colonialism in North Africa and the rise of globalization in Latin America, for example, shed light on the ongoing massive immigration of subjects from the Global South to the North? Our emphasis will be on working together to find ways of expressing yourselves in writing and other media, such as creating your own blog entries about these topics. In addition to a course reader with selected stories, poems, and critical essays, readings will include: Benjamin’s Goat Days, Aimé Césaire’s Return to My Native Land, Ghassan Kanafani’s Men in the Sun, Mamduh Darwish’s Journal of an Ordinary Grief, and Laila Lalami’s Hope & Other Dangerous Pursuits.

Class Format: seminar
Requirements/Evaluation: active class participation, several short response assignments (1-2 pages each), one midterm paper (5-6 pages), and final paper (7-10 pages)

Prerequisites: none
Enrollment Preferences: students majoring in Comparative Literature
Enrollment Limit: 19

ARAB 256 Arab and Anglophone: Narratives Beyond Nation and Diaspora
Crosslistings: ARAB 256/COMP 256/ENGL 284

This course takes a close look at contemporary Anglophone Arab writings. The objective is to familiarize students with major Arab writers, and/or writers of Arab origin who live in the Anglo-Saxon diaspora, especially the UK, North America and Australia. We will investigate the work of these writers with special attention to the history of Arab migration to these geographies, and the emergence of hyphenated Arab identities and literatures. At the heart of this course is a desire to not only shed light on what it means to be an Arab or an immigrant producing English literature, but also to understand the multiple ways in which we conceptualize and seek to define what transnational literature means. Texts for this course may include novels by the following writers: Rabih Alameddine (Lebanon/USA), Mohja Kahf (Syria/USA), Leila Aboulela (Sudan/UK), Hisham Matar (Libya/UK), and Randa Abdel-Fattah (Palestine-Egypt/Australia). There will also be a course reader that includes critical essays, poems, as well as a number of films and selections of music that shed light on the different articulations of being Arab and Anglophone.

Class Format: seminar
Requirements/Evaluation: active class participation, 4 short response assignments (2-3 pages), and final paper (5-7 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

ARAB 257(F) Iran, Islam, and the Last Great Revolution (W)
Crosslistings: PSCI 257/ARAB 257

The title and inspiration for this course comes from Robin Wright’s book The Last Great Revolution. Wright argues that the 1979 Revolution in Iran completes the promise of the Modern Era, “launched in the West” but “adopted by or adapted to all other parts of the world.” The overthrow of 2500 years of monarchy “paved the way for using Islam to push for empowerment.” It is this empowerment, of nations and of ordinary individuals, that stands as the signal quality of modernity. The notion that post-revolutionary Iran offers an alternative path to modernity is hardly conventional wisdom in the United States or Europe, where images of men draped in religious passion and women in forbidding black chadors are as common as the belief that the 1979 Revolution set Iran spinning back thirteen centuries in time. If westerners do not view Iran as entirely anti-modern, then at best they see it as a country filled with “paradoxes” and “puzzles,” one in which indie rock bands play underground, figuratively and literally beneath the feet of retrograde religious fanatics, or unveiled women attend all-night parties only to slip back into proper hejab the next morning. The class will ask you to consider why these assumptions exist, whether they are the symptoms of a western civilization “clashing” with the east, and if they are exclusive to the United States or Europe. Do there also exist an “orientalism in reverse,” a negative gaze of Iranians towards the west and towards their fellow, “backwards” citizens?

Class Format: seminar
Requirements/Evaluation: first short essay, 5 pages (15%); second short essay, 5 pages (15%); research report, 15 pages (30%); participation, including blogs, presentation, and quizzes (40%)

ARAB 259 Birad al-Sudan and Beyond: Arts of the Afro-Islamic World (D)
Crosslistings: ARTH 259/AFR 259/ARAB 259

86
From the Swahili stone houses of East Africa to the massive earth and timber mosques of the Sahel, the story of Islam in Africa is one of cultural and spiritual hybridity expressed through material form. In this course, students will explore how artistic forms and traditions in Africa have functioned as vehicles of access and integration for Islam, enabling it to assimilate itself with numerous African texts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just one African Islam, but many different iterations, each shaped by the specific cultural contexts of the time. The contemporary component of the course will examine how modernity in the form of globalization, technology, and Westernization has affected Afro-Islamic artistic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period. This course fulfills EDI requirements through its exploration of the cross-cultural strategies used by Islam to interact with, respond to, and manifest itself within established African expressive traditions.

Class Format: lecture
Requirements/Evaluation: three reading response papers (2 pages each), class journal, a midterm exam, and a final exam
Prerequisites: none, although an introductory course in art history or Islamic studies would be useful
Enrollment Preferences: if the course is oversubscribed, preference will be given to students who have declared a major in Art History or Africana Studies
Enrollment Limit: 25
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under ARTH or 2 requirement if registration is under AFR
Distributional Requirements: Division 1, Exploring Diversity

ARAB 261 Comparative Postcolonial Narratives: Novels from the Arab World, Latin America and the Caribbean (W)
Crosslistings: COMP 261/ARAB 261
In this introductory course to the global postcolonial novel, we will examine novels in translation from the Arab world, Latin America and the Caribbean that are in conversation with each other. Through textual and formal analysis of selected novels in translation, we will ask questions concerning the legacy of the different forms of European colonialism in these distinct geographies. This course has two goals: First, to familiarize students with classical, canonical and popular Arabic, Latin American and Caribbean novels that deal with the consequences of European colonialism and/or neocolonialism. Second, to introduce student to some of the critical trends and theoretical debates concerning the potential and limits of reading these novels as resistance and/or postcolonial literature. In addition to selected critical essays, the readings for this course may include novels by the following writers: Assia Djebar (Algeria), Gamal al-Ghitani (Egypt), Sahar Khalifeh (Palestine), Tayyib Saleh (Sudan), Alejo Carpentier (Cuba), Rosario Castellanos (Mexico), Jamaica Kincaid (Antigua), and Gabriel García Marquez (Colombia).

Class Format: seminar
Requirements/Evaluation: active class participation, three short papers (3-5 pages) and a final 7-10 page expansion and rewrite
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: majors or prospective majors in Comparative Literature or Arabic Studies

ARAB 267 International Relations of the Middle East
Crosslistings: PSCI 267/ARAB 267/LEAD 267
This course provides an overview of the international relations of the Middle East, with a special focus on the period from the late nineteenth century to the present. Students will learn about the region's geopolitical significance from both a historical and political science perspective. The first part of the course focuses primarily on the Middle East’s impact on the international system throughout the late nineteenth and twentieth centuries, while the second part of the course examines contemporary issues. In substantive terms, the class covers the rise of the Zionist movement; the effects of the First World War on the Middle East; the international politics of the Arab-Israeli conflict; the geopolitics of the area’s energy resources; the Cold War in the Middle East; the causes and consequences of the Iranian Revolution; the rise of Islamic fundamentalism; the Arab-Israeli conflict; the Arab Spring; and the role of the United States in the Middle East. By the end of the term, students should have an enhanced understanding of the major dilemmas related to the region's place in the international system.

Class Format: lecture
Requirements/Evaluation: class participation, two 5- to 6-page papers, midterm, final
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Political Science majors and Leadership Studies concentrators
Enrollment Limit: 30
Expected Class Size: 30

ARAB 278 The Golden Road to Samarqand (D)
Crosslistings: ARTH 278/ARAB 278
This region stretching from present day Iran to India figures prominently in contemporary global culture but it also has a rich and complex history—an amalgamation of Persian, Turkish and Islamic influences, Home to Genghis Khan and Timur (Tamerlane), Akbar the Great and Shah Jahan, it has generated some of the most renowned monuments (e.g. the Taj Mahal and the blue tiled mosques of Isfahan) and refined manuscript painting ever known. We will cover a broad swath of time—from the 10th to the 20th century—concentrating on important centers of artistic production such as Timuride and Central Asian and Mughul India. Students will have the opportunity to study original works of art in the college museum collections.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, a short paper, a midterm and a final
Prerequisites: none
Enrollment Limit: 20
Distribution Notes: meets Division 1 requirement if registration is under ARAB
Distributional Requirements: Division 1, Exploring Diversity

ARAB 280 Islam and Anthropology
Crosslistings: ARTH 280/ASST 280/ARAB 280/ASST 346
If anthropology has helped to define Islam in global thought, Islam has returned the favor, holding a critical mirror to the anthropological endeavor perhaps more than any other traditional “object” of study. This course examines anthropological studies of Islamic societies for what they teach us both about Islam and about anthropology. We begin with foundational social theorists whose studies of religious phenomena helped give rise to the field of anthropology of religion. We then survey influential efforts to construct "ideal-type" models of Muslim society based on anthropological and historical knowledge, alongside efforts to critique, historicize, and redirect the model-building project (notably by Talal Asad and Edward Said). The second half of the course is devoted to ethnographies that explore, from a variety of perspectives and in several regions (Morocco, India, Egypt, Syria), questions of human agency, hierarchy and resistance, and Islam as discursive resource, ethical project, and embodied community.

Class Format: seminar
Requirements/Evaluation: weekly postings, one 5-page paper, one 10-page paper, discussion leading
Prerequisites: none
Enrollment Preferences: seniors and juniors, Anthropology, Sociology or Religion majors
Enrollment Limit: 19
Expected Class Size: 19
Distribution Notes: meets Division 2 requirement if registration is under ARAB
Distributional Requirements: Division 2
Not Offered Academic Year 2018
LEC Instructor: Joel Lee

ARAB 292 Revolutions and Counter-Revolutions: Narratives from the Arab World, Latin America and the Caribbean (D) (W)
Crosslistings: COMP 292/ARAB 292
This course offers a South-South comparative reading of revolutions and counter-revolutions in the second half of the 20th century in the Arab World, Latin America and the Caribbean. Focusing mostly on novels that depict histories of social movements, post-independence revolutions, indigenous autonomies, dictatorships, and counter-revolutions, our aim is to investigate narratives of people power vs. absolute power, insurgency vs. neocolonialism, utopias and dystopias. To familiarize students with an alternative, yet foundational, canon of modern Arab, Latin American and Caribbean literature, we will focus on novels from the post-Sixties generation in the Arab world and the post-Boom Latin American generation. Questions that we will ask: How do these novels configure narratives of the nation and its fragments? What can we learn about the rise and fall of Communist rebellions in Iran and Syria? How do memories of traumatic lives under dictatorship in Syria and Chile shaped the genre of the political novel? How did novels about the 'revolution' contribute to the rise of realist experimental literary movements Arabic and Latin American literatures? In addition to selected films and critical essays, the readings for this course may include novels by the following writers: Sahar Khalifeh, (Palestine), Sonallah, Ibrahim (Egypt), Dima Wannous (Syria), Sinan Antoon (Iraq), Zoé Valdés (Cuba), Subcomandante Marcos and Paco Ignacio Taibo III (México), Roberto Bolaño (Chile), and Luisa Valenzuela (Argentina).

Class Format: seminar
ARAB 301(F) Advanced Arabic I
This course is a continuation of Intermediate Arabic. It focuses on expanding the students' knowledge of vocabulary and grammar while stressing the development of reading, spoken, and written skills in Modern Standard Arabic. The material covered in class will include lessons from the Al-Kitaab series, as well as literary and multi-media works. Emphasis will be placed on increasing cultural literacy. Class is conducted in Arabic.
Class Format: meets four hours a week with the fourth hour a conversation section, time to be arranged
Requirements/Evaluation: active class participation, completion of all written assignments, quizzes, a midterm, and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: two semesters of Intermediate Arabic or permission of instructor
Enrollment Limit: none
Expected Class Size: 8
Distributional Requirements: Division 1

Enrollment Limit: none
Distributional Requirements: Division 1

ARAB 303 A History of Islam in Africa (D)
Crosslistings: HIST 303/REL 303/AFR 303/ARAB 303/GBST 303
This course examines the history of Islam in Africa from the seventh century to the present. We will start off by looking at the spread of Islam in different parts of Africa. We will then analyze the social, political, economic, and cultural impact of Islam on African societies, the Islamic revolutions in the fourteenth century, the impact of European colonial rule on Muslim societies, and the development of Islam in the post-independence period. We will also examine how African Muslims reconstructed and asserted their religious identities by localizing Islamic intellectual traditions, healing practices, music, arts, cultural norms, and formal and informal religious festivals. By the end of the semester, students should be able to appreciate Islamic's common framework as well as its diversity and dynamics within that larger framework and over time. This EDI course explores the experiences and expressions of the culturally diverse peoples of African descent in the New World (and the Old), as well as the myriad ways in which they confront, negotiate, and at times challenge dominant U.S. and/or European hierarchies of race, culture, gender and class.
Class Format: seminar
Requirements/Evaluation: two 7-page papers and one 12- to 15-page paper
Prerequisites: none
Enrollment Limit: 25
Expected Class Size: 25
Distribution Notes: meets Division 2 requirement if registration is under ARAB

Not Offered Academic Year 2018
SEM Instructor: Kenda Mutongi

ARAB 305 Nationalism and Nation Building in the Middle East (D)
Crosslistings: HIST 305/ARAB 305
In 1932, or twelve years into his rule and twelve years after the establishment of Iraq, King Faisal I lamented that there were "no Iraqi people but only unimaginable masses of human beings, devoid of any patriotic idea, imbued with religious traditions and absurdities, connected by no common tie." This course will consider how true the King's statement still holds by evaluating the various attempts at state and nation building in the modern Middle East and the challenges of statecraft. After assessing some of the more influential theories of nationalism, we will explore the historical experience of nationalism and national identity in Iraq, Israel, Turkey, Palestine, Iran, and Egypt. What has been at the basis of nationhood? How did European concepts of nation translate into the Middle Eastern context? What was the role of religion in the national societies? How did traditional and gender effect concepts of citizenship? We will also explore some of the unresolved issues facing the various nations of the Middle East, such as unfulfilled nationalist aspirations, disputes over land and borders, and challenges to sovereignty. Finally, we will evaluate the role of foreign powers in nation building in the Middle East and consider whether the modern concept of the nation has any validity in the Middle Eastern context. Because this course is comparative in nature that utilizes theoretical frameworks to better understand cross-cultural interaction and because it focuses on the ways in which governments in the Middle East have used their power to legitimate their actions in the name of nationalism, this course fulfills the requirements of the Exploring Diversity Initiative (EDI).
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on several short papers and a "Magnus" Opus (a.k.a. final research paper)
Prerequisites: none
Enrollment Preferences: History majors and students with a background in Middle Eastern studies
Enrollment Limit: 25
Expected Class Size: 20
Distribution Notes: meets Division 2 requirement if registration is under ARAB
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: HIST Group E Electives - Middle East
Not Offered Academic Year 2018

ARAB 310 Iraq and Iran in the Twentieth Century (D)
Crosslistings: HIST 310/ARAB 310
Despite being neighbors, the historical experience of Iran and Iraq has been drastically different. In this course we will begin by exploring the creation of Iraq in 1921 and the Pahlavi government in Iran. We will evaluate the revolutions of 1958 and 1978-9 and compare the lives and careers of Saddam Hussein and Ayatollah Khomeini. The tragic Iran-Iraq war of 1980-88 will also be discussed. Finally, the political future of these countries will be assessed.
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, short essays, and a final paper
Prerequisites: none
Enrollment Preferences: open to first-year students with instructors permission
Enrollment Limit: 25
Expected Class Size: 20
Distribution Notes: meets Division 2 requirement if registration is under ARAB
Distributional Requirements: Division 2, Exploring Diversity
Other Attributes: GBST Middle Eastern Studies Electives, HIST Group E Electives - Middle East
Not Offered Academic Year 2018
LEC Instructor: Magnus Bernhardsson

ARAB 311 The United States and the Middle East
Crosslistings: HIST 311/ARAB 311
At the turn of the twentieth century, the United States was considered a benign superstar in the Middle East. Americans were known as "innocents abroad" for their educational and philanthropic work. From a distance, American society was admired for its affluence and freedom, and Middle Eastern politicians eagerly sought American advice and assistance. Today, however, the situation could hardly be more different. This course will examine the remarkable transformation of American involvement in the Middle East. Significant cultural and political encounters of the latter half of the twentieth century will be assessed in order to identify how the United States has approached the region and consider the multifaceted and sometimes ambivalent reactions of people in the Middle East to increasing U.S. presence. It will also explore the difficulty the United States has experienced in balancing diverse, and sometimes conflicting, foreign policy interests, and will evaluate what may account for the increasing level of antagonism and mistrust on both sides.
Class Format: discussion
Requirements/Evaluation: evaluation will be based on class participation, short papers and a final research paper
Prerequisites: none
Enrollment Preferences: History and Arabic Studies majors
Enrollment Limit: 25
Expected Class Size: 25
Distribution Notes: meets Division 2 requirement if registration is under ARAB
Distributional Requirements: Division 2

ARAB 322 Islam in Spain (D)
Crosslistings: RSLP 322/ARAB 322
88
The presence of Islam—in all its diverse manifestations—is not new to Europe, least of all to Spain. In this course we will focus for the most part on the medieval and early modern periods, and study several works—primarily of literature, though we will supplement with other texts—in which Muslims and Islam have been portrayed in the Iberian Peninsula. We will cover a wide range of perspectives that include Christian and Muslim writers as well as converts on both sides. While the bulk of the course is focused on the period prior to 1700 CE, we will devote the final few weeks of class to the study of Islam in contemporary Spain using fiction, legal debates, and issues related to immigration. Conducted in Spanish

**Class Format:** seminar

**Requirements/Evaluation:** two short papers, oral presentations, one final project

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** any RLSP 200-level class, or results of the Williams College Placement Exam

**Enrollment Preferences:** Spanish majors, Arabic Studies majors

**Enrollment Limit:** 20

**Expected Class Size:** 15

**Distributional Requirements:** Division 1, Exploring Diversity

Not Offered Academic Year 2018

**SEM Instructor:** Leyla Rouhi

### ARAB 330 Thinking Critically: Major Debates in Modern Arab Thought (W)

**Crosslistings:** ARAB 330/COMP 363

The aim of this course is to introduce students to some of the major debates in Arab intellectual history in the 20th century and the ways in which they have shaped Arabic Studies as a discipline. We will read a range of texts from History, Religion, Politics, Anthropology, Cultural Studies, Literature, Gender, Sexuality, and Women’s Studies, in order to gain a deeper insight into critical debates about nationhood, modernity, post-coloniality, democracy, feminism, social, political and religious movements, Orientalism and post-Orientalizing perspectives of modern Arab subjectivities. In addition to a course packet with selected texts and essays, students are required to read the following books: Ibrahim Abu-Rabi’, *Contemporary Arab Thought: Studies in Post-1967 Arab Intellectual History* (2004), Elizabeth Suzanne Kassab and Conor Kelly, *Contemporary Arab Thought: Cultural Critique in Comparative Perspective* (2010) & Tarik Sabry, *Arab Cultural Studies: Mapping the Field* (2012).

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, three short papers (3-5 pages), a final 7-10 page expansion and rewrite

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** majors or prospective majors in Arabic Studies and Comparative Literature

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Distribution Notes:** meets Division 1 requirement if registration is under ARAB

**Distributional Requirements:** Division 1, Writing Intensive

Not Offered Academic Year 2018

**SEM Instructor:** Amal Eqeiq

### ARAB 332(F) Islam and Feminism

**Crosslistings:** REL 332/WGSS 334/ARAB 332

This course examines the relationship between feminism and Islam, focusing particularly on Islamic feminist scholarship. We will take a genealogical approach to our study of Islamic feminism tracing the different discourses that have informed and shaped the field. The first part of the course will begin with a critical examination of orientalist and colonial representations of Muslim women as oppressed and in need of liberation. We will then explore Muslim responses so such critiques that were entwined with nationalist and independence movements. This historical backdrop is critical to understanding why the question of women and their rights and roles become crucial to Muslim self-understanding and Islamic reform. The second part of the course will focus on major intellectuals and thinkers who have influenced Islamic feminism. Finally, the last part of our course will explore the breadth of Islamic feminism and its influence on other kinds of feminist thought. We will discuss: 1) feminist readings of scripture; 2) feminist critiques of Islamic law; and 3) feminist theology.

**Class Format:** seminar

**Requirements/Evaluation:** weekly responses, four 2- to 3-page essays

**Prerequisites:** none

**Enrollment Preferences:** Religion, Arabic Studies, Women’s, Gender and Sexuality Studies, History majors

**Enrollment Limit:** 15

**Expected Class Size:** 10

**Distribution Notes:** meets Division 2 requirement if registration is under ARAB

**Distributional Requirements:** Division 2 Fall 2017

**SEM Section:** 01 **MW 11:00 AM 12:15 PM** Instructor: Saadia Yacoob

### ARAB 368(F) Arab Women Writers: Remapping Urban Narratives (D) (W)

**Crosslistings:** ARAB 368/COMP 368/WGSS 368

*In the Lover of Blue Writing above the Sea,* (1995) a poem written to console a lover after the death of his beloved, Syrian poet, Ghada al-Samman, pens: “If you are sad and burn the edge of my book/I shall come to you/like the genie in my grandmother’s Damascus stories...” As these lines imply, the fantastic grandmother’s Damascene stories have the power to equally amend broken hearts and restore memories of loss. In this course, we will consider the “grandmother’s Damascus stories” as a conceptual metaphor that guides our line inquiry into the intersection of Arab women’s narrative and the city. We will read novels and short stories by Arab women writers about cities and capitals in the Arab world and the diaspora. The goal of this course is not only to familiarize students with prominent Arab women novelists, such as Hoda Barakat, Radwa Ashur, Lila Badr, Raja’a Alem, Alia Mamdouh, and Ahlami Mosteghanemi, among others, but also to introduce the student to the literarily rich cartographic cartography of Beirut, Granada (via Cairo), Ramallah, Mecca, Baghdad, and Constantine, respectively. We will also read short stories about other cities in the world, such as New York, Paris, London, Buenos Aires and Tokyo among other world metropolises. Questions we will address include: How do Arab women novelists represent nationhood, modernity, memory, love, war, sexuality and religion, among other themes, in their construction of urban narratives? How do these narratives map an Arab feminist metropolis? How do Arab women writers represent cities beyond the Arab world? To answer these questions, we will also look at Arab women’s blogs and watch films that focus the city as a site for spatial articulation of national histories, popular revolutions, and feminist public spaces.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, several short response papers, three short papers (3 - 5 pages), a final performance project, and a final paper (7 - 10 pages)

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** Arabic Studies majors and Comparative Literature majors

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Distribution Notes:** meets Division 1 requirement if registration is under ARAB

### ARAB 369(S) Indigenous Narratives: From the Fourth World to the Global South (D) (W)

**Crosslistings:** COMP 369/ARAB 369/GBST 369/HIST 306

In the late 20th century, world literature has witnessed a “boom” in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 19, 1992. In this course, we will investigate this “indigenous boom” by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about colonization, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laotian American poet Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tahshehyer Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology only to name a few? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, several short response assignments (2 - 3 pages each), final performance project, and final paper (5 - 7 pages)

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** Comparative Literature majors

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Distribution Notes:** meets Division 1 requirement if registration is under COMP or ARAB; meets Division 2 requirement if registration is under GBST or MR

ARAB 401 Topics in Advanced Arabic I: Contemporary Arab Cinema

Crosslistings: ARAB 401/COMP 403

The Arab world is a fascinating region with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze select movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

Class Format: lecture
Requirements/Evaluation: essays, presentations, final paper, exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ARAB 402(F) Topics in Advanced Arabic II: Cultural Representations of Modern Identities in the Middle East

How are Islamism and the groups that engage this framework represented in the Arab World? This course will examine the satirical and critical cultural representations of Islamism in Arabic film, music, and literature over the last half-century alongside the cultural output of these groups themselves. Conducted in Arabic, this course will consider these texts in the original language to broaden students’ cultural and linguistic competence.

Class Format: seminar
Requirements/Evaluation: class participation, 3 short papers (maximum 5 pages), and oral presentations

ARAB 409 Crescent, Cross, and Star: Religion and Politics in the Middle East (D) (W)

Crosslistings: HIST 409/ARAB 409/GBST 409

Is religion the most powerful force in the Middle East? Is religion becoming more prominent in the political sphere and what impact will that have on religious minorities and the status of women in the Middle East? Using a case study and historical approach, this course will consider the development of religiously inspired political ideologies in the Arab Middle East. The course will also employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

Class Format: lecture
Requirements/Evaluation: class participation and a 25-page research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none; preference will be given to History, Jewish Studies and Arabic Studies Majors and to those who have taken History 207

ARAB 410 Kings, Heroes, Gods, & Monsters: Historical Texts and Modern Identities in the Middle East (D) (W)

Crosslistings: HIST 410/ARAB 410/JWST 410/REL 405

What role does ancient history play in modern societies? What is the role of myths and fables in the creation of national identities? This course will address the use and abuse of ancient history and archaeology in the modern Middle East. The first part will focus on some of the primary ancient texts, with special focus on Ferdowsi’s epic Shahnāme (Book of Kings); we will compare its themes and world view with those of the Iranian sagas that share many similarities with the Iranian canon. In the second part of the course we will explore how ancient history, archaeology, and epic texts helped forge national identities in the modern Middle East. Our primary attention will be Iran and its relationship with the Shahnameh. But we will also consider the relationship of Biblical history to the establishment of modern Israel and Israeli nationalism, how contemporary Egypt relates to its Pharaonic past, the obsession with pre-Islamic history in modern Turkey, and the relationship between archaeological artifacts and ancient Mesopotamian history and 20th century Iraqi politics. Because of its comparative focus, this course is part of the Exploring Diversity Initiative.

Class Format: seminar
Requirements/Evaluation: a final, 25-page research paper on the relationship between ancient and modern self-identities in the Middle East
Enrollment Preferences: History majors, Jewish Studies concentrators, Arabic Studies majors, and other students with a strong background in Middle East studies

ARAB 411(F) Happy Holidays! A Comparative History of Comemmorations and Festivals (D) (W)

Crosslistings: HIST 411/ARAB 411/REL 321

What do our holidays tell us about ourselves and our societies? This seminar in religious, political and cultural history is in two parts. In the first half, we will explore the major holidays and festivals that emerged in the Middle East, among the three monotheistic religions (Judaism, Christianity, and Islam). It will examine how certain events became ritualized and then spread to different parts of the globe and were adapted to specific cultural situations. We will consider the role of myth and commemoration and how various religious holidays are celebrated in different ways around the world. The second part of the seminar focuses on secular holidays with particular attention to the Modern Middle East. Which events are commemorated and how and what are the political implications of these celebrations?

Class Format: seminar
Requirements/Evaluation: several short response papers and a 20- to 25-page final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ARAB 415(S) Beyond Headlines: Surveying the Arab Landscape through Arabic Media

How do Arabic media represent the Arab landscape? This course will explore Arabic media as a window to the understanding of modern Arab thought and culture. It will discuss Arabic media as a vehicle through which issues of political, historical, social, and economic significance in the Arab world are discussed, debated, and analyzed. Some issues include political and social freedoms, inter-Arab relations, national identity, recent revolts, gender identities, the Arabic language in a changing world, and technology in the age of globalization. The course will explore these issues as represented in the language of print, internet, television, movies, and social media, and we will employ linguistic and paralinguistic analysis of these resources.

Class Format: lecture
Requirements/Evaluation: active participation in class, assignments, blogs, group presentation, final project

ARAB 480T Interpretations of the Israeli-Palestinian Conflict (D) (W)
Crosslistings: HIST 480/ARAB 480/JWST 480
This tutorial addresses the powerful, competing, and bitterly contested
historical narratives that underpin the Israeli-Palestinian conflict. Both Israelis
and Palestinians appeal to history to legitimize their territorial claims and to
justify contemporary action. Special attention will be paid to the
interpretations of key historical moments, especially the 1948 and 1967 wars,
and on the contrasting views of some of the core issues of the conflict
(Jerusalem, refugees, settlements, terrorism).
Class Format: tutorial
Requirements/Evaluation: 5- to 7-page essays or 2-page critiques due each
week and a final report (3-4 pages) at the end of the semester
Extra Info: may not be taken on a pass/fail basis; not available for the fifth
course option

ART (DIV I)
Chair: Professor PETER LOW

Professors: L. ALL, C. CHAVOYA, Z. FILIPCZAK, M. GLIER, M.
GOTLIEB*, G. HEDREZ*, J. JANG, M. LEWIS, P. LOW, E. MCGOWAN*,
C. OCKMAN, A. PODMORE**, S. SOLUM, B. TAKENAGA, Assistant
Professors: M. APOTSO*, M. BINNIE, Clark Visiting Professors: N. DUBIN,
M. ROBERTS, Senior Lecturer: H. EDWARDS. Lecturers: B. BENEDICT, C.
HOWE. Lecturers in the Graduate Program in the History of Art: V. BROOKS,
E. BUTTERFIELD-ROSEN, J. CLARKE, M. CONFORTI, C. HEUER, P.
PARK. Visiting Lecturer: E. PEREZ*. Visiting Assistant Professors: A.
CLARKE, I. HARRIS-BABOU, B. HATTON, N. MALOOF. C3 Postdoctoral
Fellow in the History of Art: K. POLZAK.

The Department offers students different paths to explore the vital
connection between visuality and creativity. With courses of study in the
History of Art and the Practice of Studio Art (or a combination of History and
Practice), the Major is designed to train students to develop the technical,
conceptual, critical, and historical tools they need to engage the visual world.

ADVISING
Majors are expected to discuss their choice of courses and path through the
major with their advisor or another professor in the department. Official
departmental advisors for each route through the major (listed here below)
are available to field general questions concerning curriculum, requirements,
and planning to study away.

Art History Faculty Advisor: TBA
Art Studio Faculty Advisor: TBA
History and Practice Faculty Advisor: Ben Benedic

ART HISTORY
The history of art is different from other historical disciplines in that it is
founded on direct visual confrontation with objects that are both concretely
present and yet documents of the past. We emphasize analysis of images,
objects, and built environments as the basis for critical thought and visual
literacy. In addition to formal and iconographic analysis, we use the work of
other disciplines to understand visual images, such as social history,
perceptual psychology, engineering, psychoanalysis, cultural studies, and
archaeology. Because of its concentration on visual experience, the Art

History major increases one’s ability to observe and to use those
observations as analytical tools for understanding history and culture.

Major Requirements
The Art History major requires a minimum of nine courses:

- Any three of the following four courses: ARTH 101, ARTH 102, ARTH
  103, and ARTH 104
- Any ARTS (studio) course
- Any two courses in Art History concerned with the following:
  One course in art history concerned with a period prior to 1600
  One course in art history concerned with post 1600
- ARTH 301 Methods of Art History

One 400-level Seminar or 500-level Graduate Seminar (in addition this
course may be used to satisfy the pre-1600 or post-1600 requirement).

One additional course, at any level

The faculty encourages students to construct a major with a historical depth
and cultural breadth. The numbered sequence of courses is intended to
develop knowledge and skills appropriate to students’ level of experience,
ultimately supporting original, independent work at the 400-level.

100-LEVEL COURSES require no experience in the subject. They are
introduction to the methods that develop students’ skills in visual analysis,
interpretation, and written expression and argumentation.

200-LEVEL COURSES are introductions to specific fields within art history,
but normally open to students with no experience in art history. Often, there is
a significant lecture component to the courses.

300-LEVEL COURSES focus more closely on specific art-historical
problems, or present material in a tutorial format. The goal of these courses is
to build skills needed for independent research and sustained analytical
writing. Generally, there is a higher expectation of student participation
or initiative, and longer and/or more frequent writing assignments. In the 300
level, students learn to work with and evaluate different types of sources,
research tools, historical perspectives, and methodological approaches.

400-LEVEL COURSES are intensive discussion-oriented seminars that
emphasize critical analysis and build toward student-initiated, independent
work (oral presentations and sustained, analytical research papers).

Advanced majors who have taken ARTH 301 are encouraged to work at the
400 or 500 level, and papers produced in these courses are normally the
basis for the senior thesis.

ART STUDIO
The Studio division of the art major has been structured to develop
students’ perceptions and imaginations as they investigate a variety of visual
media and to foster the development of a critical understanding of making art
to support creative interests.

Major Requirements
The Studio Art major requires a minimum of nine courses:

ARTS 100 Drawing I
One art history course (preferably taken by the end of the junior year)
A combination of at least three 100 and 200-level courses in three different
media (ARTS 100 and tutorials do not satisfy this requirement)

ARTS 319 Junior Seminar
One 300-level ARTS course
One elected ARTS course
ARTS 418T Senior Tutorial

The numbered sequence of courses in the Studio Art major is intended to
develop knowledge and skills appropriate to students’ levels of experience,
ultimately supporting original, independent work at the 400-level. ARTS 100 is
an introduction to the principles of drawing and design, which are the
foundation of visual expression. An art history course not only increases
visual knowledge of other periods and cultures, but also provides exposure to
the methods of visual analysis. 100 and 200-level ARTS courses introduce the
relation between form and content and serve as introductions to a variety of
media including architecture, painting, performance, photography,
printmaking, sculpture, and video. 300-level courses place greater emphasis
on the application of visual skills to thematic concerns, and to the
development of the student’s individual vision. The capstone to the major,
ARTS 418, provides a comprehensive, professional exhibition experience.

Students not only define, research, and create an original body of work, but
are also engaged in all aspects of producing an exhibition at the Williams
College Museum of Art.
The faculty encourages students to begin exploring studio art in the first year so that they can fully explore a variety of media in preparation for independent work in the junior and senior year. A successful route through the major might look like this:

First year: two classes at the 100 and/or 200 level in different media and an art history class. We encourage students to explore media with which they are unfamiliar, as doing so provides a good base and allows for more flexibility later on. While there is only one art history class required for the major, we encourage students to take advantage of the rich art history offerings throughout their four years of study.

Second year: at least two 100 and/or 200 level courses.

Third year: Junior seminar, a 200- or 300-level course and a second art history class.

Fourth year: one 300-level course, ARTS 418, and other courses chosen to support your individual interests.

HISTORY AND PRACTICE
This route allows students to study in depth both the history of art and the making of it. It offers considerable flexibility: students may propose courses of study that emphasize particular media, themes, or methodological issues. Students may take more courses in one wing of the department than the other, as long as the minimum requirements in each wing are satisfied. (Note that the Art History and Studio Art Practice routes are strongly recommended for any prospective Art major who is contemplating graduate study in Art History or Art Studio.)

Some students will be attracted to both wings of the department but will not have a field of study that falls between the two. In these cases, it is better for the student to choose between history and studio-taking additional courses from the other wing as desired. In short, the History and Practice route is reserved for students with a strong record of achievement who cannot be accommodated in the wings of the department.

History and Practice students who are admitted to the Senior Tutorial will participate in the senior studio exhibition at the end of the year. Unlike the history or studio routes, acceptance into the History and Practice route is automatic. The student must first submit a written application for the major. The application must include a thoughtful statement of the theme of the major that both 1) shows the coherence and integrity of the plan of study and 2) explains why the students’ goals cannot be met in either history or studio. The application must include both the written statement and a list of proposed courses. The application must be submitted in two copies to advisors in both wings of the department. If approved, the application and list of proposed courses must be submitted to the department secretary before registering for the major.

Major Requirements
The History and Practice major requires a minimum of nine courses:

Any three of the following four courses: ARTH 101, 102, 103, and 104
ARTS 100 Drawing I
One 200-level ARTS course
ARTH 301 Methods
or ARTS 319 Junior Seminar
One ARTH seminar (400-level),
or one 500-level graduate course (except 508)
One 300-level ARTS course,
or (with permission) ARTS 418T Senior Tutorial
Any four additional Art Studio or Art History courses. At least one elective must be taken in each wing of the department. At least one of the electives must be an Art History course concerned with a period of art prior to 1600.

The Degree with Honors in Art
Students who wish to become candidates for the degree with honors must show prior evidence of superior performance in the major as well as research capabilities to carry out the proposed project.

Art History
To graduate with honors in art history, students are to enroll in the Senior Thesis Seminar (ARTH 494) during the Spring semester of their senior year, where they will develop an original research paper (completed in a prior course, a travel research project, or an independent study). To be admitted to the seminar, students must submit their original research paper to the Art Department’s Administrative Assistant in Lawrence no later than the end of the reading period of the Fall semester. The paper must be properly formatted and include both illustrations and bibliography. It must additionally include a thesis project proposal of 500 words or more.

Students must also secure an academic advisor for their project and complete the advising Agreement Form (available from the Art Department’s Administrative Assistant) by the end of the reading period of the Fall semester. This form serves to verify: a) your advisor’s support of your project, and b) your advisor’s approval of your plans for Winter Study. Students should plan to dedicate Winter Study to work on their thesis project and, to this end, they should enroll in ARTH 31 immediately after (but not before) notification of admission into ARTH 494. (To avoid problems should they not be admitted to ARTH 494, students should pre-register in another Winter Study course). Because faculty are not usually available during this period, it is very important for students to plan, together with their advisors, a work schedule for Winter Study with concrete goals. Admission to the Senior Thesis Seminar will be determined by the instructor, in consultation with the Art Department faculty. The important criteria for admission are: 1) the quality, originality, and potential of the research paper on which the thesis project will be based; 2) the availability of a suitable advisor for the project, and the commitment of that advisor to supervise the work during the Spring term; 3) strong past performance in the art history route to the Major; 4) completion of ARTH 301 by the time of the application (exceptions to this rule must be granted beforehand by the chair of the Department).

In early January, the instructor will notify students of their admission to the Thesis Seminar. Since enrollment is by invitation only, students should pre-register for four classes in the Spring semester. If invited to join the seminar, students should then drop one of those courses and add the Thesis Seminar during drop-add period. The Thesis Seminar is to be taken in addition to the nine required courses for the art history route to the Major. Once in the seminar, students will revise, refine, and expand on previous research and produce a paper of approximately 25 pages. At the end of the semester, they will present a shortened version of the paper to the faculty and public at the Williams College Museum of Art.

Students who have a thesis topic and secured an advisor may apply early (in the Spring semester of their junior year) in order to pursue – in relation to their thesis project – summer research opportunities and/or a faculty-sponsored independent study in the following Fall semester. The program will aid in studying in the summer and/ or a faculty-sponsored independent study in the following Fall semester. The program will aid in studying in the summer and/or a faculty-sponsored independent study in the following Fall semester. The program will aid in studying in the summer and/or

History and Practice
Students who have identified a thesis topic and secured an advisor may apply early (in the Spring semester of their junior year) in order to pursue – in relation to their thesis project – summer research opportunities and/or a faculty-sponsored independent study in the following Fall semester. ART STUDIO
Studio art concentrators who wish to be candidates for honors are required to take an extra studio course, of their choosing, for a total of ten courses. One of the ten courses must be the 400-level Senior Tutorial (ARTS 418T). Students must also take the Honors Independent Study course (ARTS 31) during Winter Study of their senior year. Studio faculty will provide feedback on the progress of the honors project at the beginning of the Spring semester.

Honors candidates enrolled in the Senior Tutorial must demonstrate prior experience in the media chosen for the honors work. This proof may consist of one or more 200-level courses in the medium, course work at the 300 level, and/or a portfolio demonstrating the student's proficiency in the media chosen for the honors project. This work must be presented to the instructor of the Senior Tutorial at the start of the Spring semester. At the end of the Spring semester of senior year, honors candidates will orally defend their work in the senior exhibition at WCMC. The entire studio faculty will attend each defense. Based on the work and the oral defense, the studio faculty (as a whole) will designate honors, high honors or no honors.

History and Practice
The route to honors is a combination of the art studio and art history routes to honors. At the beginning of senior year, a candidate for honors is required to choose between the two. History and Practice makes a proposal to two faculty members, one faculty advisor from each wing of the department. If both advisors agree to supervise the project, the candidate enrolls in an independent study and works through the Fall semester and Winter Study. The project is assessed by both advisors at the end of Winter Study; if the project is not well enough developed, the advisors may end it at that time. If the project is allowed to move forward, the student enrolls either in Senior Tutorial (ARTS 418T, for students who have been granted permission of the instructor), if they are in a major of making art, or in an Honors Independent Study, if it is primarily a writing project. The final project is submitted to the two advisors, who will determine whether or not it will receive honors.

Study Abroad
The Art Department encourages students to travel during Winter Study, and to study abroad for a semester during the junior year. Students planning on traveling abroad must: consult with their departmental advisor, leave a copy of their Study Away Petition on file in the Department, and consider the required junior seminars (ARTH 301 and ARTS 319) that prepare students for the independent research and/or independent artistic production which is the focus of the senior year.

Art History majors must take ARTH 301 in their junior year unless they are planning to study abroad for a full year or unless there is only one section of ARTH 301 offered that year. Students who have identified a thesis topic and secured an advisor must consult with the Art Department faculty. The Department does not pre-approve courses for the art history major, but will offer provisional credit for courses that appear to satisfy requirements for the major. Art history majors may not take more than three requirements abroad (the ARTS requirement may be satisfied abroad only if the student is away for the full academic year. Student may
not receive credit for 400-level work while abroad). Art history students should be aware that in many programs course selection is limited and is not known before one commits to the program. It may happen that none of the art history courses offered during the semester abroad satisfy distribution requirements for the major.

Studio Art Majors must take the required Junior Seminar (ARTS 319) in the fall semester of their junior year, unless they are planning to study abroad for a full year, or unless they have permission of the chair of the department (in these cases, they may take the required class in their sophomore or senior year). The Department does not grant pre-approval or provisional credit for study abroad courses; studio majors must submit their portfolios for review and will receive credit only if the work completed abroad is deemed worthy of art as physical objects, to be viewed and contemplated, to be sure, but also often to be worshiped, exhibited, bought and sold, held, touched, worn, passed through or around, and lived in. To help students begin to appreciate how these works of art might have been understood by those who originally made and used them, the course set its objects of study within a number of revealing historical contexts, from the social and the political to the philosophical and the art historical. To train students to look carefully at art, and to give them time with original works of art, we use the wealth of art resources in Williamstown: the Clark Art Institute, the buildings and sculpture of the Williams College Campus, the Williams College Museum of Art, and the Chapin Rare Book Library.

**ART HISTORY CLASSES**

**ARTH 101(F) Art Through Time**
A single-semester, team-taught introduction to European and North American art and architecture from the beginning to approximately 1600. This course celebrates the glory of works of art as physical objects, to be viewed and contemplated, to be sure, but also often to be worshiped, exhibited, bought and sold, held, touched, worn, passed through or around, and lived in. To help students begin to appreciate how these works of art might have been understood by those who originally made and used them, the course set its objects of study within a number of revealing historical contexts, from the social and the political to the philosophical and the art historical. To train students to look carefully at art, and to give them time with original works of art, we use the wealth of art resources in Williamstown: the Clark Art Institute, the buildings and sculpture of the Williams College Campus, the Williams College Museum of Art, and the Chapin Rare Book Library.

**ARTH 102(S) Art Through Time**
A semester-long, team-taught introduction to European and North American art and architecture from approximately 1600 to today. This course celebrates the glory of works of art as physical objects, to be viewed and contemplated, to be sure, but also often to be worshiped, exhibited, bought and sold, held, touched, worn, passed through or around, and lived in. To help students begin to appreciate how these works of art might have been understood by those who originally made and used them, the course sets its objects of study within a number of revealing historical contexts, from the social and the political to the philosophical and the art historical. To train students to look carefully at art, and to give them time with original works of art, we use the wealth of art resources in Williamstown: the Clark Art Institute, the buildings and sculpture of the Williams College Campus, the Williams College Museum of Art, and the Chapin Rare Book Library.

**ARTH 103 Asian Art Survey: From the Land of the Buddha to the World of the Geisha**
This course introduces students to some of the most enduring masterpieces of Asian art with an emphasis on the art of India, China, and Japan. Its approach helps students gain insight into the aesthetic, religious, and political ideas and cultural meanings conveyed by the works of art. It also provides students with the vocabulary, techniques, and patterns of thinking needed for advanced art history courses. Highlights include sexual symbolism in Hindu and Buddhist art; nature or landscape painting as moral and political rhetoric; the industry and kabuki theater and the art in Edo Japan, and the meeting of the Eastern and Western art. This course is one of the four foundational courses; art history majors may choose any three of the four courses ARTH 101, ARTH 102, ARTH 103, and ARTH 104 to fulfill the foundational requirements. As an EDI course, its historical, visual, and thematic analyses will bear upon the interconnectedness not only among these three distinctively different cultures, but their respective interactions with the West.

**Class Format:** lecture

**Requirements/Evaluation:** evaluation will be based on quizzes, two short papers, film screening and class attendance

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** none; highly recommended for first-year students

**Enrollment Preferences:** none

**Distribution Notes:** meets Division 1 requirement if registration is under ASST

**Distributional Requirements:** Division 1, Exploring Diversity

**Not Offered:** Academic Year 2018

**LECTORS:** Ju-Yu Jiang

**ARTH 104 Materials, Meanings, and Messages in the Arts of Africa (D)**
This course introduces students to the wealth, power, and diversity of expressive forms that have characterized the arts of Africa and its Diaspora from prehistory to the present. Pulling extensively from the collections at the Williams College Museum of Art and other campus resources, students will not only experience firsthand the wide array of objects that have been produced within this vast geography, but will also come to recognize how multiple senses including sight, sound, smell, and touch play a crucial role in understanding how these objects work within their respective contexts. As tools of political control, social protest, divine manifestation, and spiritual intervention, these objects and their associated performances also challenge what we might typically consider art in the Western tradition and as such students will be pushed to think beyond such terms in their examinations of these rich creative traditions. This course fulfills EDI requirements through its exploration of the differences between concepts of art in African and Western traditions, and its focus on renovating historical biases and assumptions about these objects that position them as "primitive" or "exotic" constructs.

**Class Format:** lecture

**Requirements/Evaluation:** three 2-page response papers, class journal, midterm exam and final exam

**Prerequisites:** none

**Enrollment Preferences:** lottery

**Expected Class Size:** 25

**Distribution Notes:** meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under AFR

**Distributional Requirements:** Division 1, Exploring Diversity

**Not Offered:** Academic Year 2018

**LECTORS:** Michelle Apostos

LEC Instructor: C. Ondine Chavoya

**ARTH 209 The Art and Archeology of Maya Civilization: A Marriage Made in Xibalba**

**Crosslistings:** ANTH 219/ARTH 209

The ancient Maya civilization was one of the most sophisticated and complex cultures of prehistory in Central America. Its complex calendrics, astronomy, mathematics and hieroglyphic writing system are well known worldwide. The course will examine the trajectory and nature of ancient Maya civilization from the combined perspectives of archaeology and art history. The origins and evolution of the Maya states during the Preclassic period (1000 B.C.-A.D. 250) will be explored by looking at the rich archaeological evidence and at Preclassic art styles. The Classic Maya civilization (A.D. 250-1000) will then be presented through a detailed survey of the archaeology, art and hieroglyphic texts of this period. Finally, the collapse of Classic Maya civilization and its transformation and endurance during the Postclassic period and under early Spanish rule (A.D. 1000-1600) will be critically evaluated through a detailed review of the archaeological and iconographic evidence.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** midterm and final exams, herioglyphic project, reading of art historical and archaeological evidence

**Prerequisites:** none, but an introductory ARTH or ANTH course recommended

**Enrollment Preferences:** Anthropology/Sociology and Art History majors

**Enrollment Limit:** none

**Expected Class Size:** 16

**Distribution Notes:** meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under ANTH

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

LEC Instructor: Antonia Foias

**ARTH 220 Sacred Spaces of Islam (D)**

A clean place oriented towards Mecca is enough for daily prayer, but the communal practices of Islam are myriad and they often transpire in more formal architectural settings. These structures range from traditional columned halls of brick and timber to modernist ensembles of reinforced concrete and plate glass; monuments may be open to the elements, flat-roofed or domed; surfaces may be enhanced with carved marble, inlaid wood, glazed tile and other beautifying elements. This course will explore the diversity and the commonalities of sacred spaces ranging from New Delhi to New York.

**Class Format:** lecture/discussion

**ARTH 221(F) History of Photography**

This lecture course will examine the history of photography from its beginnings in the 1830s to the present, from the first grainy black and white images to the work of contemporary artists using cutting-edge photographic technologies. We will examine photographs used for documentary, scientific, and aesthetic purposes, and we will trace the medium's emergence and acceptance as a fine art. We will also explore photography's physical and conceptual characteristics as a medium, paying particular attention to its uniquely intimate and frequently contested relationship to "the real." By the end of the course, students will have a broad understanding of photography as a unique medium within the history of art and knowledge of the theoretical frameworks that developed alongside that history.

**Class Format:** lecture

LEC Section: 01 MW 08:30 AM 09:45 AM Instructor: Howe

**ARTH 222 Photography in/of the Middle East (D)**

**Crosslistings:** ARTH 222/ARAB 222

Since its inception, photography has been globally disseminated but locally interpreted. Documentary work is one of the most compelling and expressive purposes in different cultural contexts. In the Middle East, the powers and pleasures of the medium have been valued by colonial forces, indigenous populations, photojournalists and artists; the resulting images merit aesthetic appreciation even as they grant visual access to previously veiled places. The course will explore photographic practices in different zones of the Middle East—e.g., the Holy Land, Egypt or the Persian sphere—by attending to individual photographers and case studies. This tightly focused approach will support, in turn, a consideration of the burdens and risks of representation in particular circumstances—what work do photographs do? Who resists and who benefits? The general goal will be to appreciate the diversity of perspectives that underlie renderings of the Middle East.

LEC Instructor: Holly Edwards

**ARTH 223(S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora**

**Crosslistings:** AFR 323/AMST 323/ARTH 223/COMP 322/ENGL 356

This course explores how the graphic novel has been an effective, provocative and potentially transformative medium for representing marginalized histories. Drawing on graphic novels such as Jeremy Love's Bayou and Ho Che Anderson's King: A Comic Biography, this course illustrates and critiques multiple ways the graphic novel conveys layering and image to create more sensitive access into ethnic traumatic, challenges and interventions in critical voices in resistance throughout history. Students will practice analyzing graphic novels and comic strips, with the help of critical essays, reviews and film; the chosen texts will center on Africana cultures, prompting students to consider how the graphic novel may act as a useful alternative history for marginalized peoples. During the course, students will keep a journal with images, themes and reflections and will use Comic Life software and ipads to create their own graphic short stories based on historical and/or autobiographical narratives.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based upon class participation, weekly written responses, student-led facilitation, 1-page graphic analysis, one 6- to 8-page essay, and a final project (producing a graphic short story with Comic Life)

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**ARTH 230(F) From Alexander to Cleopatra: Remodeling the Mediterranean World**

**Crosslistings:** CLAS 230/ARTH 230

The period between Alexander the Great (323 B.C.) and Cleopatra (30 B.C.), like our own, was characterized by internationalism, migration, wide-ranging cultural values and religious practices, and ethnically diverse urban populations. Large numbers of non-Greeks came under the control of newly established Hellenistic kingdoms, while in the west Rome's emergence as a superpower offered both new opportunity and danger. The Hellenistic world was a place of vibrant change in the spheres of art, architecture, urban planning, and public spectacles. In this course, we will consider the history and archaeology of this period in their political, social, and religious contexts, focusing on the visual language of power and royalty; developments in painting, sculpture, mosaics, and monumental architecture; interactions between Greeks and non-Greeks; and the impact of Greek culture in Rome.

**Class Format:** lecture

**Requirements/Evaluation:** class participation, quizzes, midterm, final exam, and one medium-length paper

**Prerequisites:** none

**Enrollment Preferences:** students with an interest in the ancient
ARTH 232(S) Renaissance Rome: Renovating the Eternal City
George Eliot called Rome “the city of visible history,” a place with the power to bring us to past of a whole hemisphere right before our eyes. The magnetic visual power of Rome did not just occur naturally; however, it is a product of a bold urban project first envisioned by Renaissance popes and brought into being by the artists and architects they hired. During the fifteenth and sixteenth centuries, Rome was transformed from a shrinking and neglected medieval town into a thriving center of artistic energy and invention. Beginning with the papacy’s return to the city in 1417, we will focus on the historical, ideological, and artistic forces behind this period of renovation and restoration that reshaped the urban and artistic fabric of the city. We will study the particularly Roman foundations for the period known as the High Renaissance, then, approaching art historical touchstones by Michelangelo, Raphael, and Bramante, we will ground in a uniquely Roman sense of time and historical destiny. We will conclude with a seminar at Baroque works by Caravaggio, Bernini and Borromini, examining their particular innovations and effects as a continuation of the Renaissance renovation of the eternal city.

Class Format: lecture/discussion
Requirements/Evaluation: ungraded mapping assignments and short written assignments, 7-10 page research paper, midterm and final examinations
Prerequisites: none; open to Art majors as well as non-majors
Enrollment Limit: 30

ARTH 236 Demigods: Nature, Social Theory, and Visual Imagination in Art and Literature, Ancient to Modern Crosslistings: ARTH 236/CLAS 236/ENVI 236
This course traces the obscure history of demigods (satyrs, centaurs, nymphs, Pan, etc.) from its origins in ancient Greek art and poetry until today. We pay special attention to three points: the relationship between the mythology of demigods and ancient political theory concerning primitive life; the relationship between the mythology and evolving conceptions of the environment, and the ambiguity of the demigod as an agent to generate and transmit mythology that has a limited literary counterpart. Individual demigods occasionally interact with gods or heroes, and end up in the pages of a book. But animal-human hybrids are usually envisioned en masse and exist primarily in visual art, where they thrive to this day. The interpretation of demigods has changed over time, keeping up with developments in ethics and evolving hierarchies of genre and taste. Demigods have been subordinated to the status of decoration, or banished altogether. In antiquity, they are hardly ornamental. Embodied in satyrs, nymphs, Pan, and the others is a collective vision of an alternate evolutionary trajectory and cultural history. In this parallel world, humans and animals not only talk to each other, they live similar lives, intermarry, and create new species. The distinction between humans and animals is replaced by continuous phenomena, from the theology of mortal functions of visual representations of gods, and the continued interest in the corporeality in poetry; the theology of mortal phenomena, as expressed by the archer god depicted him as a boy teasing a lizard. In the Iliad, when the god Apollo is visualized, it is as a man, angry in his shoulders, the arrows clanging as the god moves, “like the coming of night,” to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into metaphors in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address in detail influential artistic monuments, literary forms, and social phenomena, including the sculptures of Olympia and the Parthenon; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural function of visual representations and the perennial question of whether “objective representation” is even possible or desirable. In addition to readings, students should be prepared to spend a significant time out of the classroom doing fieldwork. Experience in photography and/or video, although not required, will be helpful.

Class Format: lecture/discussion
Requirements/Evaluation: full participation in discussions, reading response papers, a research journal, field materials, and an independent final project

ARTH 238 Greek Art and the Gods Crosslistings: ARTH 238/CLAS 248/REL 216
In the Iliad, when the god Apollo is visualized, it is as a man, angry in his heart, coming down from the peaks of Olympus, bow and quiver on his shoulder, as the arrows clanging as the god moves, “like the coming of night,” to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into metaphors in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address in detail influential artistic monuments, literary forms, and social phenomena, including the sculptures of Olympia and the Parthenon; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural function of visual representations and the perennial question of whether “objective representation” is even possible or desirable. ARTH 244(S) City, Anti-City, and Utopia: Town Planning from 1500 to 1800
The Italian Renaissance gave us our modern conception of the ideal city, whose geometrically regular form was both symbol and instrument of a perfectly ordered society. This alluring notion has preoccupied artists and theorists from Michelangelo and Thomas More to Albrecht Dürer and Christopher Wren; it achieved tangible form in such new capitals as St. Petersburg and Washington, D.C. But the West has remained characteristically ambivalent about the city, especially in the United States, an ambivalence reflected in persistent attempts to decentralize the city (Frank Lloyd Wright), to beautify it (the City Beautiful Movement), reshape it (Urban...
Enrollment Limit: 19

ARTH 246(F) Do You See What I See?!

We are all citizens of global visual culture, subject to a daily assault of images, artifacts, information and experiences. What we see and how we make meaning from it all depends on many variables—what we are, where we are and what we choose to look at. It also depends on what tools we bring to bear. This class is an opportunity to assemble a useful tool kit for the challenging visual environments of the 21st century. Image study will be central as we wander freely in space and time, but the goal is not to master a body of canonical examples. Rather, we will consider different ways of seeing, and practice transferable skills of viewing diverse materials. The approach will be cumulative and interrogative; case studies will range from coinage to painting, from advertising to monumental sculpture. Along the way, we will consider what “art” is, what a visual culture is, and how different visual cultures might overlap the global arena. Students will look, sketch and write throughout the semester, thereby exploring the entire spectrum of visuality from production to reception.

Class Format: lecture/discussion
Requirements/Evaluation: short writing assignments and class presentations
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Exploring Diversity

ARTH 248(F) Art about Art: 1500 to 2000

Artists sometimes produced works that refer to their own profession. This lecture/discussion course will focus on examples from the end of the Middle Ages to the present, such as self-portraits and portraits of other artists (e.g., Rembrandt, Viger-Lebrun), legends about the origin of art (Boucher), studio scenes with contemporary or historical artists (Delacroix, Matisse), and images of one or more art works (Magritte, Picasso). Analysis of the changes that took place in art about-art subject matter over seven centuries will yield a visual record of what artists thought about their own profession, i.e., a pictorial version of art theory.

Class Format: lecture; two 75-minute meetings a week, one lecture and the other discussion
Requirements/Evaluation: 3- to 4-page paper, 5-minute class presentation focused on work of the student’s choice, and 10- to 11-page paper on the subject selected as the final presentation
Prerequisites: none
Enrollment Limit: 16
Expected Class Size: 16
Distributional Requirements: Division 1

ARTH 254 Manet to Matisse

Crosslistings: ARTH 254/WGSS 254

In the eighteenth and nineteenth centuries a new conception of architecture arose with numerous African contexts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just the African Islamic but many different Islamic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period. This course fulfills EDI requirements

Expected Class Size: 15
Distributional Requirements: Division 1, Exploring Diversity

ARTH 257 Architecture 1700-1900

In the eighteenth and nineteenth centuries a new conception of architecture arose, based on archaeological discoveries, the development of new building materials, and changing social values. This course looks at the major architectural movements of this period, and the theoretical ideas that shaped them. Topics include Neoclassicism, new building types, Victorian Architecture, the development of the architectural profession, and Art Nouveau. Major archeologists and architects will be discussed in the context of their cultural, historical, political and social shifts.

Instructor: Carol Ockman
Crosslistings: ARTH 257/WGSS 257

Distributional Requirements: Division 1, Not Offered Academic Year 2018

ARTH 259 Bilad al-Sudan and Beyond: Arts of the Afro-Islamic World (D)

Crosslistings: ARTH 259/AFR 259/ARB 259

Not just the African Islamic, but many different Islamic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period. This course fulfills EDI requirements

Expected Class Size: 15
Distributional Requirements: Division 1, Exploring Diversity

ARTH 262/F ARTH 262/AMST 262

The lecture course will survey the visual and material products of European contact with Asia, Oceania, Africa, and the Americas between 1550 and 1900. This period witnessed the establishment and loss of Spanish, English, Dutch, and French colonial empires, a proliferation of exploratory voyages, and the abolition of the transatlantic slave trade. Some of our objects of study will be European in origin from well-known artists including Rubens, Velasquez, Reynolds, and Gaugin. In many cases, we will be asking questions about art’s circulation—whether we are looking at Tugi featherwork from Brazil brought to Europe, Flemish prints adapted by artists in Central and South America, or tattooed bodies traveling to and from Tahiti. Against the backdrop of these context-specific case studies, students will be asked to consider, in the context of access and ownership, the role of the marketplace in the creation of objects of art. How do we begin to develop an understanding of the many different cultures that have interacted and responded to one another and in its discussion of historical readings that will help students analyze the histories of difference and power.

Class Format: lecture
Requirements/Evaluation: midterm exam, final exam, short 10-page research paper (5- to 10-pages)
Prerequisites: none
Enrollment Preferences: Art majors
Enrollment Limit: 30
through its exploration of the cross-cultural strategies used by Islam to interact with, respond to, and manifest itself within established African expressive traditions.

Class Format: lecture
Requirements/Evaluation: three reading response papers (2 pages each), class participation and a two hour test, and a final exam
Prerequisites: none, although an introductory course in art history or Islamic studies would be useful
Enrollment Preferences: if the course is oversubscribed, preference will be given to students who have declared a major in Art History or Africana Studies

Enrollment Limit: 25
Expected Class Size: 15

Distributional Requirements: Division 1, Exploring Diversity

ARTH 261 Augustan Rome
Crosslistings: CLAS 260/HIST 224/ARTH 261

In 31 B.C., Octavian defeated Marc Antony at Actium, the culminating battle in a bloody civil war that had wracked the Roman state for years. As victor, Octavian found himself in a complex position: he was sole ruler over a society that traditionally abhorred monarchy, he had defeated a charismatic Roman citizen whose supporters might now pose resistance, and he had promised to re-establish a governmental system that seemed hopelessly broken. October, soon after the name of Augustus, set about repairing the war-torn state while simultaneously solidifying his power. He announced that he had “restored the Republic,” yet we regard him as Rome’s first emperor. How did those living through this transition and subsequent ancient authors interpret it? How do works of art from Augustus’ time contribute to, or resist, the idea that he ushered in a Roman “golden age”? In this course we will consider these questions using a range of sources including monuments and visual art, ancient historiography, biography, and poetry (Oio, Suetonius, Tacitus, Callistus, etc), art (Pompeii, Tusculum, Vetulonia, Ovid), and selections from contemporary scholarship. In the process, we will gain a better understanding of a pivotal period of ancient history, as well as tools for thinking comparatively about power, rhetoric, and propaganda in our own day. All readings are in translation.

Class Format: lecture/discussion
Requirements/Evaluation: class discussion, student presentations, quizzes, two papers, and a final exam
Extra Info: meets Division 1 requirement if registration is under CLAS or ARTH; meets Division 2 requirement if registration is under HIST
Prerequisites: none

ARTH 263(F) Introduction to Contemporary Art: Institutions and Upsetters
Crosslistings: CLAS 260/HIST 224/ARTH 261

This course is an introduction to some of the central artists, themes, works, and debates informing and comprising the history of contemporary art, roughly 1945 to today. In the decades following the second World War, artists became interested in creating the conditions for widespread cultural re-orientation and evolution of perspectives on the world, its problems and its possibilities. The ways in which artists have approached, contested, and reflected on the role of various institutions—be they social, governmental, academic, political, commercial, media-based, or the art world itself—is a key aspect of late 20th-early 21st century cultural and aesthetic histories. This course will therefore address major movements in contemporary art (such as abstract expressionism, pop art, happenings, conceptual art, performance, earthworks, street art etc.) through the interpretive lens of various institutions and the ways in which these have been challenged, reconfigured, utilized, and critiqued by notable artistic upsetters. Keeping in mind the tendency of art’s categories and practices to cross-pollinate and mutually construct as well as disrupt the various worlds in which they move, we will consider contemporary art in relation to the past as well as the present, looking to the historical avant-garde on which contemporary art builds (such as Dada and Surrealism), as well as the context of current events, from which the concept of the ‘contemporary’ itself is inextricable. No prior knowledge of art history or contemporary art is required to take this course.

Class Format: lecture
Requirements/Evaluation: midterm: 15%; final Exam: 15%; final Project (curate imaginary exhibition comprised of works on view locally + key works covered in class) 50%; participation: 20%
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none

ARTH 276 Chinese Art and Culture

This course surveys the arts of China, including painting, sculpture, ceramics, gardens, and other decorative arts. Topics covered will include the rise and development of Buddhist art; meanings and functions of landscape painting; gender construction in Chinese art; Western influence in Chinese art; and more. Its contextual approach helps students gain insight into the aesthetic, religious, and political ideas and cultural meanings conveyed by the works of art. Visual analysis of specific discussions will bear upon the interactions and interconnectedness between China and the West. This course also provides students with the vocabulary, techniques, and patterns of thinking needed for advanced art history courses.

ARTH 278 The Golden Road to Samargand (D)

Crosslistings: ARTH 278/ARAB 273

The region stretching from present day Iran to India figures prominently in contemporary global culture but it also has a rich and complex history—an amalgamation of Persian, Turkish and Islamic influences. Home to Genghis Khan and Timur (Tamerlane), Akbar the Great and Shah Jahan, it has generated some of the most renowned monuments (e.g. the Taj Mahal and the blue tiled mosques of Isfahan) and refined manuscript painting ever known. We will cover a broad swath of time—from the 10th to the 20th century—concentrating on important centers of artistic production such as Timurid Central Asia and Mughal India. Students will have the opportunity to study original works of art in the college museum collections.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based on class participation, a short paper, a midterm and a final

ARTH 280 Art of the Commons: Social Practice, Participatory Art and Performing Publics (D)

Crosslistings: THEA 280/ARTH 280

What responsibility does art have to its public? How is art a “social practice”? What is the model of the “cultural commons” and how might it be reshaping the way we make art today? This combined seminar and studio course will begin by exploring the concept of the “commons” as a cultural resource belonging to all members of a community. Drawing from recent scholarship, theory and debates across disparate fields (law, economics, history, theatre and performance studies, and art), we will first define the “cultural commons” of Williams College and Williamstown. We will then design and implement a series of art and performance projects involving participation, collective labor and ownership, community building, utopianism, active spectatorship, and public space. Students will also conduct and present to the class independent research on contemporary artists (Theaster Gates, Mierle Laderman Ukeles, Santiago Sierra, Francis Allys, Tino Sehgal, Paul Chan), collectives (The TEAM, The Civilian, Gob Squad, SoHo Theatre, The Neofuturists, Ghana Think Tank), and community-based initiatives in our local art institutions (WCMMA, Mass MoCA, The Clark). Readings on participatory art, happenings, relational aesthetics, social works, and utopias may be drawn from such authors as: Allan Kaprow, Theodor Adorno, Augusto Boal, Nicolas Bourriaud, Jacques Rancière, Peggy Phelan, Shannon Jackson, Claire Bishop, Grant Kester, Nicholas Ridout, Jill Dolan, José E. Muñoz, Guillermo Gomez-Peña, and Rebecca Schneider. This course fulfills the Exploring Diversity Initiative by engaging directly with questions of how diversities of gender, race, class, and sexuality may be embraced rather than negated by communal forms of art making.

Class Format: seminar

Requirements/Evaluation: weekly writing; two ”workshop” showings; public art or performance project; one 15-minute oral presentation; one 10- to 12-page paper; active participation

Prerequisites: none

Enrollment Preferences: Art Majors, Theatre Majors

Enrollment Limit: 14

ARTH 281(F) The Seeds of Divinity: Exploring Precolumbian Art & Civilization in a Museum Exhibit

Crosslistings: ANTH 281/REL 280/ARTH 281

For all ancient civilizations, the gods were a powerful force, affecting all aspects of human lives and dominating ancient art. This course will explore concepts of divinity in five civilizations in Precolumbian Central America: Aztec, Maya, Zapotec, Teotihuacan, and Nayarit. The course examines how the concept of divinity is materialized in everyday life. We will query how the human body is used as the prism through which concepts about humanity, the human soul and the supernatural are perceived and depicted in the art of these civilizations. Students in this course will curate the upcoming exhibition on Precolumbian art. Students will participate in all aspects of the project, including formulating the thematic vision of the exhibition, creating a catalog, working with the professional staff of the museum. This is a project based course, and each student will study one or more exhibit objects and work on how these objects will be presented in the exhibit.

Class Format: seminar

Requirements/Evaluation: active class participation; four short papers; 15-page research paper and presentation

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ARTH 284(F) The Postwar Avant-Gardes

Artistic discourse in the Western hemisphere dramatically changed course in the wake of the Second World War. The mass trauma inflicted by the war prompted artists and critics throughout the region to reassess the role and potential of art in society. But the war's displacement of communities also displaced the centers for artistic activity, and avant-garde practices soon expanded vigorously throughout the Americas. Through comparative studies, this course will analyze the artistic avant-gardes that emerged simultaneously in the United States and Latin America after 1945. We will place these myriad practices in dialogue, to elucidate the complexity, richness, and vitality of artistic practices in the postwar era.

Class Format: lecture

Requirements/Evaluation: midterm exam, final exam, one short 2-page written assignment, one 6- to 8-page research paper

Extra Info: may not be taken on a pass/fail basis

ARTH 286 Japanese Popular Visual Culture

Crosslistings: COMP 286/ARTH 286/ARTH 586/ASST 286

The phrase “Japanese popular culture” often calls to mind comics and

98
animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodem visual art (ukiyoe, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Okazaki), and animation (Oshii, Miyazaki, Ōsaka). We will focus on developing visual reading skills to come up with original interpretations of these works, and on comparing different media to make them shed light on one another.

Class Format: lecture/weekly discussion sections

Requirements/Evaluation: attendance, participation, two 5-page papers, final exam
Extra Info: may not be taken on a pass/fail basis

ARTH 301 Methods of Art History

This course on the methods and historiography of art history offers art-history majors an overview of the discipline since the late 18th century. The course surveys influential definitions of the discipline, the evolving tasks it has set itself, and the methods it has developed for implementing and executing them. We will look at issues that are inherently part of the discipline: the objects of study will be texts about art as well as texts about methods for an historical study of art. Topics include: style and periodization; iconography, narratology, and phenomenology; the social functions of images and the social histories of art; the material world, art, gender, and sexuality; and art as a global phenomenon.

Class Format: lecture and discussion

Requirements/Evaluation: six short papers, one final paper, one short oral presentation, and class participation

Extra Info: may not be taken on a pass/fail basis

Enrollment Preferences: ARTH 101-102 or equivalent

Enrollment Limit: 25

Expected Class Size: 15-10

LEC Instructor: Guy Hedeen

ARTH 301(F) Methods of Art History

This course on methods is designed to offer Art History majors a foundational review of how art history is thought through today, focusing on developments in the discipline since the beginning of the twentieth century. Weekly readings are grouped around a particular art historical problem, approach, methodology, or disciplinary "turn" which has significantly impacted the way scholars think and write about art. Since art history is a field that acknowledges conclusions in scholarship are always reflective of how inquiry is organized and structured, my expectation for the course is that students will acquire a detailed grasp of the internal arguments of methodological texts, and also be able to ground the historical significance of these arguments in context, and for the worth of art on the page. Broad Course Objectives: 1) Cultivate visual and historical analysis, ekphrastic and critical writing skills. 2) Critically engage with the intersection of history, theory, interpretation, and methodological analysis with the practice of reading and writing about art. 3) Ground analysis, argument, and interpretation in critical thinking. Discussion sections: Throughout the semester, one day a week will be devoted to lecture, and one day a week to student-led discussions of the assigned readings. Weekly lectures are primarily intended to support, contextualize and clarify the readings not to vice versa get the most out of the weekly lectures and discussions, it is imperative that you do all of the week’s readings before the lecture. At some point in the semester, each student will be assigned the task of leading the weekly discussion session on the topic of at least one of the week’s readings. This task entails organizing a short (~10-15 min) presentation of the essential argument of the assigned reading(s), preparing 2-3 discussion questions to raise to the entire class, and arranging for visual presentation of art works pertinent to the discussion.

Class Format: lecture with weekly discussion sections

Requirements/Evaluation: 6 Short writing assignments (<900 words): 40%; 1 Final Paper (10-15 pages): 25%; Leading Discussion Section (1 time/semester): 20%; Class Participation: 15%

Extra Info: may not be taken on a pass/fail basis

Enrollment Limit: 25

Expected Class Size: 10-15

Dept. Notes: or spring: open to undergraduate Art-History majors only and required of them; graduate students may not enroll without permission of the department chair

ARTH 308 African Art and the Western Museum (D) (W)

Crosslistings: ARTH 308/AFR 369

Provides a focused study of the issues associated with the exhibition of African art objects within Western institutions from the formative period of the practice in the early 19th century to the modern era. Covering topics ranging from early collection and display methodologies to exhibition-based practice in the contemporary digital era, this tutorial will provide an opportunity for robust discussion about the interactions that have occurred between the arts of Africa and the Western museum over the lengthy history of their engagement. Students will investigate the nature of the cross-cultural dialogues taking place and the politics of display at work in regional museum spaces that display African art towards reflecting functions through the strategic organization and display of objects. In other words, students will explore how the dialogues created between objects and individuals often speak to the voices and affinities that collide, collaborate, and even compete with each other within the environment of the museum. This tutorial fulfills EDI requirements through its exploration of issues of so-called "authentic" representation, cultural capital, rights of seeing, the politics of representation, and the meaning of art as it applies to African artifacts displayed within the context of a Western art museum.

Class Format: tutorial

Requirements/Evaluation: field trips to area museums, weekly targeted writing assignments between 4 to 5 pages in length, bi-monthly peer response papers (2 pages)

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Enrollment Limit: 10

Expected Class Size: 10

ARTH 310 An American Family and "Reality" Television (W)

Crosslistings: ARTH 310/WGSS 312/AMST 333/COMP 316

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documentary the family’s life over the course of eight months, the series chronicled the dissolution of the Louds’ marriage and broadcast the “coming out” of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program’s historical reception, and analyze its influence on broadcast and film media, particularly on “reality television.” A final 16- to 20-page research paper will be prepared in the final weeks of the course, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Class Format: seminar

Requirements/Evaluation: class presentations, research assignments, and final 16- to 20-page research paper

ARTH 337(S) Visual Politics (W)
Crosslistings: PSCI 337/ARTH 337
Expected cases observers know that appearances matter politically and that the saturation of politics by visual technologies, media, and images has reached unprecedented levels. Yet the visual dimensions of political life are at best peripheral in the study of political science and political theory. This seminar explores how our understanding of politics and political theory might change if visuality were made central to our inquiries. Treating the visual as a site of power and struggle, order and change, we will examine not only how political institutions and conflicts shape what images people see and how they imagine themselves but also how the two are constructed. Through these explorations, which will consider a wide variety of visual art and political practices (from 17th century paintings to contemporary surveillance), we will also take up fundamental theoretical questions about the place of the senses in political life. Readings may include excerpts from ancient and modern theorists, but our primary focus will be contemporary and will bring political theory into conversation with other fields, particularly art history and visual studies but also film and media studies, psychoanalysis, affect theory, and cognitive science. Possible authors include Arendt, Badiou, Barthes, Belting, Benjamin, Browne, Buck-Morss, Butler, Clark, Connolly, Deleuze, Diderot, Fanon, Foucault, Freedberg, Garland-Thompson, Harriman and Lu, Hobbes, Machamer, Kittler, Mercer, Mitchell, Mulvey, Noé, Plato, Rancière, Warburg, and Zeki.

Class Format: seminar
Requirements/Evaluation: regular, engaged class participation, several short papers, a 10-page midterm paper, and a 10-page final paper addressing major themes of the tutorial.
Extra Info: qualified students from all disciplines welcome, space permitting
Prerequisites: at least one prior course in political theory, cultural theory, visual studies, or art history; permission of instructor
Enrollment Limit: 19
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under PSCI; meets Division 1 requirement if registration is under ARTH

ARTH 405(F) Seminar in Architectural Criticism (W)
How does one judge a building? According to its structural efficiency or its aesthetic qualities? Or just its pizzazz? Depending on the building, and the critic, any of these questions might be pertinent, or impertinent. This seminar explores architectural criticism, that curious genre between literature and architecture, and looks at its history, nature and function. We will read and discuss classic reviews by historical and contemporary critics as John Ruskin, Mariana van Rensselaer, Lewis Mumford, Ada Louise Huxtable and Herbert Muschamp. Insights gained from these discussions will be applied by students to writing their own reviews, which will likewise be discussed in class. Early assignments will concentrate on mechanics: how to describe a building vividly and accurately, how to balance description and interpretation judiciously, how to compare. Subsequent ones will be more synthetic, encouraging students to write bold, living, and critical essays. The ultimate goal is to develop a distinctive and effective voice, and to gain a better understanding of the nature of criticism in general.

Class Format: seminar
Requirements/Evaluation: students will write and revise six papers (5-7 pages) during the semester
Prerequisites: ARTH 101-102 and permission of instructor
Enrollment Preferences: junior Art History majors
Enrollment Limit: 11
Distributional Requirements: Division 1, Writing Intensive
Not Offered Academic Year 2018
SEM Instructor: Michael Lewis

ARTH 419 Going to Ground: Considering Earth in the Arts of Africa (D) (W)
Crosslistings: ARTH 419/AFR 373/ENVI 419
Drawing its inspiration from the landmark exhibition Earth Matters: Land as Material and Metaphor in the Arts of Africa (National Museum of African Art, 2013), this seminar explores how earth has been conceptualized and integrated into African artistic thought and material, metaphor, geography, environment, and intervention, and how this interpretive flexibility has allowed it to become a symbol of power and presence in African art-making from prehistory to the present. The seminar will also focus on the ways in which earth has been used in contemporary art towards addressing the growing problems of pollution, unsustainable development, and the widespread depletion of earth-based natural resources in Africa. Over the course of this seminar, students will develop a knowledge base of earth-related issues that have been expressed in African art production, and engage with various cross-disciplinary methodologies to critically analyze the conceptual and aesthetic strategies deployed in these works. Students will also have the opportunity to interact with specialists from diverse disciplines and fields towards fleshing out their knowledge base. This course fulfills EDI requirements through its exploration of the effects of globalization and
modernization on the African natural environment, and its engagement with diverse cultural legacies, socio-political systems, and economic realities on the continent as contributors to art-making strategies deployed by contemporary African environmental artists. Students will also explore the ways in which African artists have internalized the various conditions and situations of their communities defined by gender, sexual orientation, religious affiliation, etc. as well as members of distinctive cultures and communities.

Class Format: seminar

Requirements/Evaluation: 2-page reading response papers, 2-page paper proposal, draft and final paper (15 pages) with presentation

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course offering

ARTH 420 Architecture and Sustainability in a Global World (W)

Crosslistings: ARTH 420/ENVI 420/GBST 420/EXPR 420

What does it mean to create a sustainable built environment? What do such environmental concepts look like? Do they look the same for different people across different times and places? This course takes these questions as starting points in exploring the concept of architectural sustainability, defined as “minimizing the negative impact of built form on the surrounding landscape, and how this concept can be interpreted not only from an environmental point of view, but from cultural, political, and social perspectives as well. Over the course of the class, students will explore different conceptualizations of sustainability and how these conceptualizations take form in built environments in response to cultural identities, political agendas, social norms, gender roles, and religious values circulating in society at any given moment. In recognizing the relationship between the way things are constructed (technique of assembly, technology, materials, process) and the deeper meanings behind the structural languages deployed, students will come to understand sustainability as a fundamentally context-specific ideal, and its manifestation within the architectural environment as a mode of producing dialogues about the anticipated futures of both cultural and architectural worlds.

Class Format: seminar

Requirements/Evaluation: response papers on class readings (2 pages), leading class discussions, and final project/paper (15-20 pages) and presentation

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course offering

Prerequisites: none, although a course in art/architectural history would be advantageous

Enrollment Preferences: Art History majors, Environmental Studies majors

Enrollment Limit: 19

Expected Class Size: 19

Materials/Equipment: 20-page paper

Distribution Notes: meets Division 1 requirement if registration is under ARTH or ENVI or EXPR: meets Division 2 requirement if registration is under GBST

Distributional Requirements: Division 1, Writing Intensive Not Offered Academic Year 2018

SEM Instructor: Michelle Aapotso

ARTH 433 Michelangelo: Biography, Mythology, and the History of Art

Crosslistings: ARTH 433/ARTH 533

One might argue that Michelangelo's enduring fame, and his preeminence in the European art historical canon, is as much a product of his artistic persona as his historical achievement. Indeed, the classic image of the artist as a brooding, tortured genius of unstoppable creative force finds its roots in the Italian Renaissance, and specifically in the fascinated biography— and mythology—of Michelangelo. With a life and career more than five centuries old, students will become well-acquainted with the life and work of Michelangelo, giving critical attention to the connection between the man and his work. We will investigate, in particular, the practice of interpreting his work according to his philosophical orientation, political influences, religious beliefs, sexual desire, and more. While this course will bring us deep into the life and work of a single artist, one of its goals is to generate ideas about the very act of biographically-based art historical interpretation. How can thinking carefully about Michelangelo reshape our understanding of art historical practice?

Class Format: seminar

Requirements/Evaluation: an oral presentation, a research paper, short response papers, and critical commentary on work of peers

Prerequisites: Arth 301 or permission of instructor (prerequisite for 400-level)

Enrollment Preferences: equally given to senior Art majors and graduate students in the history of art

Enrollment Limit: 18

Distributional Requirements: Division 1

Other Attributes: ARTH pre-1600 Courses Crosslisted: Art History, Academic Year 98

SEM Instructor: Stefanie Solum

ARTH 451 Ideal Bodies: The Modern Nude and Its Dilemmas

Crosslistings: ARTH 451/WGSS 451

Since the nineteenth century, the female nude has been so dominant that the very term “nude” has come to stand for the female body. This course looks at both male and female nudes from the time of the French revolution to the present in order to order how and why this occurred. We will explore the ways in which certain types of bodies have been defined in opposition to the white western ideal, and thereby exoticized and marginalized. Our core focus is the work of David, Ingres, Courbet, Gericault, Manet and Renoir but more popular nineteenth-century images as well as selected works by artists working in the twentieth and twenty-first centuries will be discussed.

Class Format: seminar

Requirements/Evaluation: evaluation will be based on biweekly 1-page papers, short reports, an oral presentation and a 10–20 page paper

Prerequisites: two semesters of ARTH 101-102-103; permission of instructor required

Enrollment Preferences: junior and senior Art majors, Women’s, Gender and Sexuality Studies majors, French majors, and History majors with a concentration in European studies.

Enrollment Limit: 12

Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under WGSS

Distributional Requirements: Division 1 Not Offered Academic Year 2018

SEM Instructor: Carol Ockman

ARTH 453(F) Native North American Arts: Objects and Methods (D) This seminar explores the production of knowledge about Native north American arts, and explores new approaches to expanding how they think about Native arts. Questions of violence, contact, and cultural appropriation will also be examined. Students are expected to experiment with Native American epistemologies in class and in their assignments, which will require them to write a deep analysis of one object. This course fulfills E1D requirements because it enhances awareness about the effects of cultural distance, cultural contact, and power relations in the production of knowledge about Native north American arts, and explores new theories of its study in the discipline of art history.

Class Format: seminar

Requirements/Evaluation: class participation, three response papers, one class presentation/paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course offering

Prerequisites: ARTH 101-102 or permission of the instructor

Enrollment Preferences: none

Enrollment Limit: 14

Expected Class Size: 14

Distributional Requirements: Division 1, Exploring Diversity Fall 2017

SEM Section: 01 T 01:10 PM 03:50 PM PMinstructor: Catherine Girard

ARTH 455(F) Ottoman and Orientalist Visual Culture

Crosslistings: ARTH 455/ARTH 455

Jean-Léon Gérôme’s famous painting, The Snake Charmer, at the Clark Art Institute will be our starting point for examining the connections between Ottoman and Orientalist visual culture in the modern period. Artists who were influenced by the Near East (Gérôme, Ingres, Delacroix, Lewis, Renoir and Matisse) will be studied alongside Orientalist photography, international exhibitions, theories of ornament, travel literature and film. This course encompasses diverse regional orientations (in Poland, Russia, Denmark, America and Australia) and the distinctive contribution of women artists. Western engagement with the Islamic world will be examined alongside contemporaneous Ottoman art, patronage and the visual culture of statecraft. We will consider Ottoman modernization as a context through which we can understand these new histories. The political and cultural significance of Orientalist visual culture will be critically analyzed through a comparative study of French-trained Ottoman artists and their Orientalist mentors Gérôme and Boulangier.

Class Format: seminar

Requirements/Evaluation: each student will write one short midterm paper and a longer concluding essay, as well as present a couple of readings to the class

Extra Info: may not be taken on a pass/fail basis

Enrollment Preferences: places for 8 undergraduates and 8 graduate
students assured

Enrollment Limit: 16
Expected Class Size: 16
Distributional Requirements: Division 1
Fall 2018

ARTH 462(F) Art of California: Pacific Standard Time (D) (W)
Crosslistings: ARTH 462/AMST 462/LATS 462/ARTH 502
In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Our course will explore important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine Southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art. The course fulfills the Exploring Diversity Initiative requirement as it offers students a comparative study of cultures and societies and provides various interdisciplinary perspectives on the art and visual culture of a specific region.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on several short writing assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARTH 102
Enrollment Preferences: senior Art major and minor Latina/o Studies concentrations
Enrollment Limit: 15
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under AMST or LATS
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Context Electives, AMST Space and Place Electives, ARTH post-1600 Courses, LATS Comparative Race + Ethnic Studies Electives
Fall 2017 SEC: 01 W 01:10 PM 03:50 PM Instructor: C. Ondine Chavoya

ARTH 464 Latina/o Visual Culture: Histories, Identities, and Representation (D) (W)
Crosslistings: ARTH 464/LATS 464
This course examines the contemporary history of Latina/o visual culture and explores the various relations between cultural expression, identity formation, and public representation. We will begin by considering the critical and aesthetic practices that emerged in the context of civil rights actions and nationalistic movements, which often focused on issues of visibility, self-representation, and autonomy. The topics of immigration, transnationalism, and the “Latinization” of the United States will then be analyzed in depth as we examine representations of, and representations by Latina/os in film and television, the visual arts, advertising, and other forms of popular media. Throughout the course, we will investigate the role of visual culture in determining taste and trends as well as shaping notions of belonging and cultural citizenship.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, a research presentation, several short writing assignments (1-2 pages), and a final research paper (15-20 pages)
Prerequisites: LATS 105 or ARTH 101-102 or permission of instructor
Enrollment Preferences: Latina/o Studies and Art History seniors and juniors
Enrollment Limit: 12
Expected Class Size: 12
Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under LATS
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Context Electives, LATS 400-level Seminars Not Offered Academic Year 2018

ARTH 468(S) Practicum in Curating: Visual Art for a Garden (W)
Crosslistings: ARTH 468/WGSS 468
This course aims to develop the wide range of skills needed to realize an art exhibition in a botanical garden (here specifically an exhibition at the Marie Selby Botanical Gardens in Sarasota in winter/spring 2019) including: 1 research on the artist (TBD) and the concept, the focal works of art, auxiliary objects that do not require clinical control (e.g., photographs and other work on paper), social history and other methodological frameworks, including gender, sexuality, class, and race; 2 writing requests e.g., loans, rights; and 3) preparations for the press release, wall texts, wall labels, audio guide, and programming for the exhibition. Students may have the opportunity to participate in a WSP in situ the following year on the final stages of production.

Class Format: seminar; this is a practicum so while it meets 3 hours/week as a seminar does, it is hands on in a different way (e.g., co-peer and one-on-one reviewing by me in class)
Requirements/Evaluation: two to three short research papers (ca. 5 pp. each), a substantial annotated bibliography, several short writing assignments (e.g., letters, queries, reviews),
Extra Info: final synthetic research project about the artist and the use and significance of floral sculpture in their work may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: at least one 100-level course in ARTH
Enrollment Preferences: junior and senior art majors, especially those who have completed other courses or a seminar and/or those with strong research, writing, and design skills
Enrollment Limit: 10
Expected Class Size: 10
Materials/Lab Fee: field trip expenses that may not be funded by the department (not to exceed $100)
Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under WGSS
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: ARTH post-1600 Courses
Spring 2018 SEC: 01 W 01:10 PM 03:50 PM Instructor: Carol Ockman

ARTH 470 Image-making, Orientalism and Visual Culture (D)
Images enjoy extraordinary power in the spaces between self and other, human and divine. They play myriad roles-witness, surrogate, instigator, suppressant—and travel freely across political, religious and cultural boundaries. This course is about three regions-United States, France and the Persian sphere—and the images that mediate and document their interactions. Along the way, we will address important issues like iconoclast and aniconism, common types like veiled women and pious men, and asymmetrical relationships like Orientalism. The peculiar nature of portraiture will be a prominent theme. This course fulfills the Exploring Diversity Initiative in its emphasis on comparative cultures and its effort to promote understanding of and conceptualized meanings in diverse settings.

Class Format: seminar
Requirements/Evaluation: students will give oral presentations and complete a seminar-long project.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: one ARTH class or permission of instructor
Enrollment Preferences: Art majors
Enrollment Limit: 12
Distributional Requirements: Division 1, Exploring Diversity
Other Attributes: AMST Arts in Context Electives, ARTH post-1600 Courses
Not Offered Academic Year 2018 SEC: 01 W 01:10 PM 03:50 PM Instructor: Holly Edwards

ARTH 472(S) Timelines (D)
Art is really time-consuming to make, to view, to use, to understand. We engage, exhibit, exhibit, exhibit, and, particularly since the 19th century, we have concocted increasingly elaborate narratives around revered artifacts. We even think we control these many fabled things, but then they have the temerity to outlive us and outrun us, melding in the spaces between self and other, human and divine. We must then and now reengage, reengage, reengage in order to remain human. This course is an opportunity to explore how images are tangled up with time. We will begin in the 19th century, when commonplace notions of past and present wobbled seriously with the invention of photography and the avid pursuit of archaeology. From that pivot point, we will operate transnationally and anachronistically, with particular reference to the Middle East, the birth-place of monotheism and idol anxiety. There will be no single timeline, but rather a series of case studies, ranging from iconic paintings and sacred spaces to calendar art and photojournalism. Ultimately, we must ask, can art ever be fixed in time or will it always be an unruly presence in our lives?

Class Format: seminar
Requirements/Evaluation: regular presentations and term project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: 100-level art history course
Enrollment Preferences: majors, seniors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1, Exploring Diversity
Spring 2018 SEC: 01 R 01:10 PM 03:50 PM Instructor: Holly Edwards

ARTH 474(S) Brazilian Art in the 20th Century: Aesthetics, Internationalism, Utopia (W)
In 1924 the modernist poet Oswald de Andrade radically called for Brazilians to engage in cultural “anthropophagy”—to cannibalize from European modernist ideas and synthesize these with local aesthetic and cultural values. Toward the mid-20th century, the narrative of Brazilian art was marked by the desire on part of artists and intellectuals to problematize its place in Latin
ARTS 100(F) Drawing I
In childhood everyone draws. Like language drawing is a basic human tool to observe and interpret the world as well as to make comment and find agency within it. As an introduction to art making, this course will provide basic design and conceptual skills to engage feeling, develop content and communicate with others. Divided into sections on line, composition, proportion, value and space, the course is designed for those with no previous experience in drawing, but it is flexible enough to challenge experienced students. New concepts are introduced each week in slide talks and developed in workshops and through homework assignments.

Class Format: studio
Requirements/Evaluation: evaluation is based on the following: successful application of art skills, development of concept, participation in class, effort, timeliness and attendance
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Limit: 18
Expected Class Size: 18
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1

STU Instructor: Michael Gliner

ARTS 100(F) Intro to Drawing-Thinking with Line
What is a line? A line is things: a scribble, a word, a contour, a vector in a diagram, a nose, a mark to denote one thing from another, a shadow, a means to describe form. This class will explore the basics of how to construct an image through the use of line, one of the simplest gestures of expression there is. The goal of the class is to reevaluate how we see the world, using drawing as our main tool of inquiry. Through a buildup of basic fundamentals of drawing-including composition, value, basic perspective, form, proportion as well as an examination of past and contemporary artworks, students will develop a basic skill set that will allow them to confidently engage in our oldest means of image-making. This class is primarily aimed at students with little or no prior experience with drawing, but all levels are welcome.

Class Format: studio
Requirements/Evaluation: quality of projects completed during and outside of class hours, overall participation and contribution to critiques, and attendance
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Art majors, first- and second-year students
Enrollment Limit: 18
Expected Class Size: 18
Materials/Lab Fee: TBD
Distributional Requirements: Division 1

Fall 2017
STU Instructor: Nicole Maloof

ARTS 100(S) Drawing I
This course will heighten your awareness of the visual world, teach basic drawing skills, and demonstrate how drawing operates as a form of visual exchange. Each class session introduces you to a specific drawing technique, concept or media. The homework assignments involve practicing the skills presented in class while encouraging personal expression by incorporating your own ideas into the art work. This course also promotes the understanding of artists and their work. It requires that you attend at least one Visiting Artist presentation to gain a deeper knowledge of artist's aspirations and practice.

To allow for more practice with working directly from life, you are also required to attend at least two evening life drawing sessions.

Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality and quantity of work produced, depth and quality of investigative process, participation in critiques, and attendance
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Art Majors (declared); students who have previously enrolled but have been dropped from the course, first-year and sophomore students
Enrollment Limit: 18
Expected Class Size: 18
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1

Spring 2018
STU Instructor: Amy Podmore

ARTS 102(F) In the Room Together: An Introduction to Dance, Theatre, and Live Performance
This course offers an introduction to the time-based art of performance,
ARTS 120(F) Introduction to Performance Art
Crosslistings: ARTS 120/THEA 120
Historically, artists have turned to performance art during times of collective trauma to observe, analyze, and deconstruct established systems of power. This course will explore the legacies of theory, and practice of this radical and subversive genre. Equal parts studio and seminar students will engage in open dialogue based on assigned readings, screenings, and museum/gallery visits. Starting with the emergence of Dadaism during World War I, and exploration of works by artists that will include: Adrian Piper, David Hammons, Lynda Montano, Chris Burden, Clifford Owens, and Anna Mendieta, students will gain an understanding of the mechanisms of performance: The body as object. The Gaze (the dynamics of viewing/being viewed). Active and inactive participatory, and breaking the fourth wall. This class is open to all students that are willing to embrace the awkwardness of their humanity and the vulnerabilities of our collective bodies.

Class Format: studio/seminar
Requirements/Evaluation: completion of assigned readings, active class engagement, writing reflections, showing of works in progress, and presentation of a final performance that will be workshoped throughout the semester
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Art Studio majors, first-years, sophomores
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1
Fall 2017
SEM Section: 01 TR 09:55 AM 12:35 PM Instructor: Allana Clarke

ARTS 124(F) Introductory Video Art
In this course we explore how the proliferation of video has transformed the way we relate our own image, and that of others. Video has become a platform for hypervisibility. In an era of selfies, live-streaming, state sanctioned violence (and its digital record), how might we use video as a tool of empathy and accountability? We will pursue answers to these questions through the act of making. In the introductory level course students will gain facility in Adobe Premiere and other post-production tools in the Adobe Creative Suite. Students will explore camera technique, lighting, and how to work with appropriated footage. We will look at early and contemporary video works in order to situate the work being made in context. Video Art will also be contextualized within vernacular applications of video. Through regular technical exercises, readings, and group critiques, students will learn how to use video as a critical tool in their practice.

Class Format: studio
Requirements/Evaluation: discussion, participation, and the technical and conceptual strength of the projects, with consideration given to individual development
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Preferences: current and prospective Art majors
Enrollment Limit: 12
Expected Class Size: 12
Distributional Requirements: Division 1
Other Attributes: Film and Media Studies Core Courses
Fall 2017
STU Section: 01 MW 11:00 AM 12:50 PM Instructor: Ilana Harris-Babou

ARTS 200(F) Costume Design
Crosslistings: THEA 305/ARTS 200
This course is both an introductory and an intensive study of the art of costume design. The course focuses on the designer's process: script analysis, collaboration, research, color theory, basic design principles, rendering techniques, fabric research, organizational skills and presentation of designs.

Class Format: studio
Requirements/Evaluation: evaluation will be based on multiple design assessments including a detailed final design project, costume labs, image and research files, costume sketchbook, short papers, committed participation, and attendance
Extra Info: students are required to attend two to three theatre department or major industry professional events per week. Lab Fee: fee of $25 will be added to the student's term bill
Prerequisites: successful completion of any 200-level course in the fine or performing arts or permission of instructor
Enrollment Preferences: Theater and Art Studio, sophomores and juniors
Enrollment Limit: 10
Expected Class Size: 8
Department Notes: does not satisfy any requirements for the Art major
Material Fee: Lab Fee: Fee of $150 will be added to the student's term bill
Distributional Requirements: Division 1
Fall 2017
STU Section: 01 MR 01:10 PM 03:50 PM Instructor: Deborah Brothers

ARTS 201(S) Worldbuilding: Staging and Design For The Theater
Crosslistings: THEA 201/ARTS 201
This course examines the designer's and director's creative processes as they work together to imagine the fictional worlds of theatrical productions.
Over a series of practical projects in staging, mise-en-scène, and various design disciplines, we will develop techniques for eliciting an initial creative response to a text, developing that response into a point-of-view, and solving the practical needs of the production. Particular emphasis is placed on how design elements synthesize with one another and the work of the actors and director, to form the larger intertextual, emotional, and physical context of the work as a whole. Students will adopt various creative roles throughout a series of assigned projects, giving a broad exposure to the work of designers and directors. Basic presentation skills and technique, as well as methodologies for critical feedback, will be taught as crucial elements of staging and design development.

Class Format: studio
Requirements/Evaluation: evaluation will be based upon committed class participation, assignment and thoughtful, timely completion of all assignments and projects
Prerequisites: none
Enrollment Preferences: Theatre majors and prospective Theatre majors
Enrollment Limit: 12
Expected Class Size: 12

Dept. Notes: this course is required for the Theatre major and is a prerequisite for THEA 302; this course does not count toward the Art major
Materials/Lab Fee: materials and copying $125 to be added to the student's term bill

Distributional Requirements: Division 1
Spring 2018
STU Section: 01 MW 11:00 AM 12:50 PM Instructor: David Gurcay-Morris

ARTS 215 Sustainable building (verb)
Sustainability considerations will figure prominently (and always have) in good building design. This architectural design studio will include instruction, research, and reading about current design and energy strategies. These will be applied in two or more design problems. Drawings and models will be critiqued in class reviews with outside critics.

Class Format: studio
Requirements/Evaluation: based on quality of design and presentation
Prerequisites: none but ARTS 220 and/or ENVI 108 are recommended; permission of instructor is required; registration does not guarantee admission to the course
Enrollment Limit: 12
Expected Class Size: 12
Materials/Lab Fee: lab fee TBD will be added to the student’s term bill

Distributional Requirements: Division 1
Not Offered Academic Year 2018
STU Instructor: Ben Benedict

ARTS 220 (S) Architectural Design I
Instruction in design with an introduction to architectural theory. Five simple design problems will explore form and meaning in architecture. Each problem will require drawings/model and will be critiqued in a class review with outside critics.

Class Format: studio
Requirements/Evaluation: evaluation will be based on quality of design, with improvement taken into account
Prerequisites: ARTS 100; ARTH 101-102 strongly suggested; permission of instructor is required; registration does not guarantee admission to the course
Enrollment Limit: 15
Expected Class Size: 15
Materials/Lab Fee: lab fee TBD will be added to the student’s term bill

Distributional Requirements: Division 1
Spring 2018
STU Section: 01 F 01:10 PM 03:50 PM Instructor: Ben Benedict

ARTS 221T Scenic Design and Experimental Performance
Crosslistings: THEA 302/ARTS 221
The artistic, intellectual, and practical roles of a set designer vary widely, from the spectacle of Broadway to the do-it-yourself ingenuity of downtown theater. In contemporary experimental theater designers are essential parts of the ensemble, contributing equally to devised work alongside directors, writers, performers and producers. This class is not viewed as a response to the script, but rather an initial condition: a world whose creation describes the limits of the play while also providing the necessary components for that play to exist. In this way the act of designing and the act of devising can be seen as inextricably entangled and indistinguishable. This course explores a range of techniques and methodologies utilized to create stage environments in traditional and experimental modes. Grounded in textual analysis and research, and emphasizing process, critique, and revision, we will create theoretical stage designs in response to a variety of performance texts. These may include plays, musicals, operas, physical- and dance-theater, and other work that is deeply grounded in the physicality of performer, spectator and performance environment. Emphasis will be on sketching and model-making as the primary means of developing and communicating design ideas. Drafting and digital tools will also be factors in course work, which will include training and mentorship in all materials and craft.

Class Format: tutorial
Requirements/Evaluation: evaluation will be based upon committed class participation in discussion and critique, as well as thoughtful, timely completion of all assignments and projects
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: THEA 201 or permission of instructor
Enrollment Preferences: Theatre and Art majors
Enrollment Limit: 10
Expected Class Size: 6

Dept. Notes: this course does not count toward the Art major
Materials/Lab Fee: lab fee of $125 to be added to the student's term bill

Distributional Requirements: Division 1
Not Offered Academic Year 2018

ARTS 224F Materials of Performance
Mud, meat, lard, time, cruelty, and language. These are the materials of performance art. This course will examine the catalog of 10 distinct artists who incorporate performance into their interdisciplinary practices. Students will learn how the materials appear in each artist's work and how artists disrupt the sign/symbol relationship to create new meanings for these materials. The goal of this course is to enable students to develop a distinct and focused voice as performers/artists by gaining an understanding of the methods and theories of the performance art genre. Artists covered will include: Bruce Nauman, Carrie Mae Weems, Mike Kelley, Santiago Sierra, and Shirin Neshat.

Class Format: studio
Requirements/Evaluation: completion of readings, writing reflections, active class participation, creation of weekly performances, and students may be required to visit exhibitions
Extra Info: may not be taken on a pass/fail basis
Prerequisites: students who have previously taken a studio class with performance elements, a dance or theater class, or by permission of the instructor

Enrollment Preferences: Art Studio majors
Enrollment Limit: 15
Expected Class Size: 15

Distributional Requirements: Division 1
Fall 2017
STU Section: 01 R 01:10 PM 03:50 PM Instructor: Allana Clarke

ARTS 228T (F) The Art of Almost Nothing
In this studio lab class, students will create studio art projects by using materials that are mainly not bought but found, re purposed, and/or overlooked and ubiquitous. In this time of extreme material production and consumption, with a great deal being thrown out and unrecoverable, how can we make intentional, creative meaning from what is around us? This class is concerned with impacts on the environment but also with how consumer culture has wielded profound influence in the current production of studio art. How can we engage with our major concerns—aesthetic, topical, critical—and use what is around us mindfully and creatively with desired impact? Some of the artists we will look at: William Pope L., Ana Mendieta, David Hammons, Tania Bruguera, and the Yes Men. This class is a hands-on studio class with weekly assignments.

Class Format: studio tutorial; studio class, 3 hours per week
Requirements/Evaluation: projects, assignments, class participation, attendance
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: one previous studio art class at Williams

Enrollment Preferences: first and second-year students
Enrollment Limit: 14
Expected Class Size: 14
Materials/Lab Fee: TBD

Distributional Requirements: Division 1
Fall 2017
TUT Section: 01 M 01:10 PM 03:50 PM Instructor: Laylah Ali

ARTS 230 Drawing II
This advanced drawing course will continue to investigate the techniques and ideas which were introduced in the Drawing I course. Having become more familiar with the drawing process, students will be encouraged through intensive weekly assignments to expand and challenge the conventions of markmaking. As with any discipline, familiarity with traditional approaches allows students to seek alternatives and develop definitions of how the drawing process can best be suited to their own visual vocabulary. The range of exercises could include traditional materials on paper as well as non-traditional methods and exercises.

Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality of work produced, participation in class discussions and critiques, successful completion of all assignments and attendance
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARTS 100
Enrollment Limit: 15
Materials/Lab Fee: lab fee TBD will be added to the student's term bill

Distributional Requirements: Division 1
Not Offered Academic Year 2018
STU Instructor: Laylah Ali

ARTS 241 Introduction to Oil Painting
This course is designed to introduce the fundamentals of oil painting. A significant portion of class time will be devoted to learning some of the basics of painting, such as the manipulation of color, value, surface, and texture. We will learn how to prepare paper, canvas, and board supports as well as
exploring the properties of several mediums (what the paint is mixed with to allow for application and drying). This course is focused on giving students access to a range of introductory techniques that they can explore during the semester. We will also spend time looking at each other's work and giving feedback and suggestions as well as studying the work of established artists. Evaluation will be based on evidence of each student's progress, as shown by the weekly assignments; attendance and participation in class discussions.

Class Format: studio
Requirements/Evaluation: based on evidence of each student's progress, as shown by the weekly assignments; attendance and participation in class discussions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARTS 100
Enrollment Preferences: Art majors, sophomores
Enrollment Limit: 14
Expected Class Size: 14
Materials/Lab Fee: yes
Distributional Requirements: Division 1
Not Offered Academic Year 2018
STU Instructor: Laylah Ali

ARTS 241(F) Acrylic Painting
In this course, we will explore the options that painting with acrylic can offer. The class will focus on developing necessary technical skills, such as the manipulation of color, value, surface, and texture. We will also consider issues of content in a diverse range of approaches, including painting from observation (still life and portraits), abstraction, and cross-media experiments (for example, combinations in installations, sculpture, photography). The particular characteristics and benefits of acrylic paint will be explored in contemporary approaches. There will be visits to museums (WCMA, the Clark Art Institute and MASS MoCA), critiques, and slide presentations.

Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality of work, investment of time, participation in critiques, and attendance in class
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ARTS 100
Enrollment Preferences: Art majors
Enrollment Limit: 14
Expected Class Size: 14
Materials/Lab Fee: lab fee TBD will be added to student's term bill
Distributional Requirements: Division 1
Fall 2017
STU Section: 01 M 01:10 PM 03:50 PM Instructor: Barbara Takenaga

ARTS 241(S) Painting
The variables of oil painting are so numerous that the permutations are endless. As an introduction to basic variables like color, brushwork, surface, form and light, this course is the beginning of what may be a life long, creative adventure through the medium of paint. Most assignments are done from direct observation of the human figure, the landscape and objects. Museum visits and slide presentations are an important part of the class.

Class Format: workshop
Requirements/Evaluation: weekly assignments
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARTS 100; ARTS 230 recommended
Enrollment Preferences: majors, sophomores, juniors, seniors
Enrollment Limit: 15
Expected Class Size: 15
Materials/Lab Fee: a lab fee of approximately $375 to be added to the student's term bill
Distributional Requirements: Division 1
Spring 2018
STU Section: 01 M 11:00 AM 12:15 PM 01:10 PM 03:50 PM 05:00 PM Instructor: Michael Glier

ARTS 250(S) Devised Performance: The Art of Embodied Inquiry
This studio course offers students hands-on experience in devising new performance work. Looking to the work of practitioners and collectives like Jerzy Grotowski, El Teatro Campesino, Tectonic Theater Project, Pina Bausch, Belarus Free Theatre, Nrittyagram, and SITI Company, we will challenge ourselves to really probe what live performance as a research methodology? As a lifestyle? As a form of political action? This class will function as a laboratory, forming its own unique structure for developing and realizing a live performance. The course provides an opportunity to navigate the complex dynamics present in collaborative creation. Guest classes with practitioners will offer a fuller range of skills for the student ensemble to utilize during the devising process. Work-in-progress presentations spaced regularly throughout the semester will allow the ensemble to receive feedback from small, invited audiences as well as the opportunity to apply that critique to an ongoing creative process. At the end of the semester the accumulated work will have a public presentation in a workshop format.

Class Format: studio
Requirements/Evaluation: participation, indiv. presentations, contribution to group work, self-evaluation
Extra Info: students will contribute to the creation and presentation, by the group as a whole, of a newly devised performance piece
Prerequisites: none
Enrollment Preferences: Theatre majors and Art majors
Enrollment Limit: 14
Expected Class Size: 10
Distributional Requirements: Division 1
Spring 2018
STU Section: 01 T 01:10 PM 03:50 PM Instructor: Shayok Chowdhury

ARTS 252 The Human Image: Photographing People and Their Stories
This course will cover a variety of easy techniques to make multiple images, exploring the properties of several mediums (what the paint is mixed with to allow for application and drying). This course is focused on giving students access to a range of introductory techniques that they can explore during the semester. We will also spend time looking at each other's work and giving feedback and suggestions as well as studying the work of established artists. Evaluation will be based on evidence of each student's progress, as shown by the weekly assignments; attendance and participation in class discussions.

Class Format: studio
Requirements/Evaluation: based on evidence of each student's progress, as shown by the weekly assignments; attendance and participation in class discussions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ARTS 100
Enrollment Preferences: Art majors, sophomores
Enrollment Limit: 14
Expected Class Size: 14
Materials/Lab Fee: yes
Distributional Requirements: Division 1
Not Offered Academic Year 2018
STU Instructor: Laylah Ali

ARTS 266(F) Low Tech Printmaking
This course will cover a variety of easy techniques to make multiple images, including drypoint, linoleum plates, stencilling, collagographs, solar plates, and monotyping. Students will be encouraged to hand-color or add to the prints, incorporating drawing, painting, photography, bookmaking and collage. With less emphasis on market considerations, students will learn how to market their work, and will be encouraged to explore printing as a fine art. Students will learn about the history of printmaking and will research printmakers from a variety of cultures and periods. Students will be expected to experiment with different mediums and techniques as they develop their own unique style.

Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality of work, investment of time, participation in critiques and attendance in class
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ARTS 100
Enrollment Preferences: current and prospective Art majors
Enrollment Limit: 12
Expected Class Size: 12
Materials/Lab Fee: $125
Distributional Requirements: Division 1
Other Attributes: FMST - Core Courses
Fall 2017
STU Section: 01 M 07:00 PM 09:40 PM Instructor: Ilana Harris-Babou

ARTS 266(S) Objects in Video, Video as Object
In a world where the screen is often taken for granted, how might we begin to dissect the ways video has transformed visual perception? This course will focus on video installation and how video is transformed by its physical context. We will examine how videos shift our relationship to objects in space. Students will experiment with lighting and set building, paying particular attention to how surfaces are transformed by the lens. We will also explore projection mapping, built installation, and the peculiarities of the screen. We will look at works by artists who have emphasized the physicality or immateriality of video through installation and web-based art. We will read a variety of texts, charting the changing role video has played in our society. Through weekly assignments and regular critiques, we will begin to unpack how the videos we make contact with daily can shift our relationship with our own bodies and our surrounding environment.

Class Format: studio
Requirements/Evaluation: discussion, participation, and the technical and conceptual strength of the projects, with consideration given to individual development
Prerequisites: 100 level video course
Enrollment Preferences: current and prospective Art majors
Enrollment Limit: 12
Expected Class Size: 12
Materials/Lab Fee: $125
Distributional Requirements: Division 1
Other Attributes: FMST - Core Courses
Fall 2017
STU Section: 01 M 07:00 PM 09:40 PM Instructor: Ilana Harris-Babou
ARTS 273(F) Sound Art, Public Music
Crosslistings: MUS 175/ARTS 273
Spring 2018
Western music performance traditionally occurs within contained spaces in which "performer" and "audience" adhere to designated locations and follow tacit scripts: seats/standing seats, applause/bows, etc. In recent years, traditional boundaries and scripts of performance and reception have moved into public spaces—from sound art installations to ambient music, from interactive sound sculpture to radio art to social media driven flash mobs. This course studies the work of pioneers in public music and sound art including Alvin Lucier, Bill Fontana, John Cage, Hildegard Westerkamp, Brian Eno and John Luther Adams, among others. The course will alternate between study and analysis of particular artistic strategies and the creation of site-specific works on and around the Williams campus.

Class Format: seminar
Requirements/Evaluation: class participation, three short (2-4 page) essays, a response journal, and the creation of four public music works
Prerequisites: none
Enrollment Preferences: juniors and seniors
Enrollment Limit: 10
Expected Class Size: 10

Department Notes: ARTS elective
Distributional Requirements: Division I
Fall 2017
SEM Section: 01 MR 01:10 PM 02:55 PM Instructor: Brad Wells

ARTS 274(S) Chinese Calligraphy: Theory and Practice
Crosslistings: ARTH 274/ASST 274/ARTS 274
Fall 2017
Beginning in the fourth century, Chinese calligraphy has remained one of the highest art forms in China and in East Asia generally, practiced by the literati, or highly erudite scholars. This course has two components: art history and studio practice. The first offers students an opportunity to acquire an understanding of the theoretical and aesthetic principles of Chinese calligraphy. It also examines the religious, social, and political functions of Chinese calligraphy in ancient and contemporary China. Students will also have an opportunity to investigate contemporary artists, both Eastern and Western, whose works are either inspired or influenced by Chinese calligraphy, and those whose works are akin to Chinese calligraphy in their abstraction. Studio practice allows students to apply theories to creating beautiful writing, or calligraphy (from Greek kallos "beauty" + graphe "writing"). This course can be taken as either an Art History or a Studio Art course.

Class Format: lecture/studio instruction
Requirements/Evaluation: weekly assignments, a midterm, one short paper, oral presentations, participation in class discussion, a final project (artistic or scholarly), class attendance, film screening
Prerequisites: none
Enrollment Limit: 12
Department Notes: this course can count toward the Art History or Studio major
Materials/ Lab Fee: TBD will be added to the student's term bill
Distribution Notes: meets Division I requirement if registration is under ASST
Distributional Requirements: Division I
Other Attributes: ARTH pre-1600 Courses, GBST East Asian Studies Electives
Spring 2018
LEC Section: 01 M 01:10 PM 03:50 PM Instructor: Yu-Jang

ARTS 275(F,S) Introduction to Sculpture
Spring 2018
This course is an introduction to the media and processes of sculpture. The focus will be on the development of technical and analytical skills as they relate to the integration of form, content, and materials. This section will introduce students to a variety of techniques and processes associated with the making of sculpture, including, but not limited to, woodworking and welding. Sculpture encompasses a broad scope of approaches and materials, therefore a wide variety of media exploration is encouraged and expected. This course is structured on a series of sculpture projects, which investigate formal and conceptual practices, with the ultimate goal being visual fluency and successful expression of ideas. A substantial amount of time outside of class is expected to complete these projects.

Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality of work produced, depth and quality of the investigative process, participation in critiques, and attendance with laboratories
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: any ARTS 100 class, or permission of instructor
Enrollment Limit: 12
Materials/ Lab Fee: TBD will be added to the student's term bill
Distributional Requirements: Division I
Fall 2017
STU Section: 01 W 01:10 PM 03:50 PM Instructor: Kim Felzer/AMST

ARTS 302 Landscape and Language
Crosslistings: ENGL 302/ARTS 302
Fall 2017
Colloquially, the word "landscape" refers to pictures or scenes of the land, from farms to forests to wilderness. But more broadly, landscape evokes the complex, dynamic, and ever-shifting relationship between "nature" and our experience of it. Landscape and Language is a seminar that considers the tools we use to represent and narrate our relationship to the natural world. Together, we will investigate how cultural conventions travel, perspective, nature, and ecology influence the ways we see and understand place. Drawing from discourses of literature, architecture, art history, contemporary art, and ecocriticism, our goal is to develop a deeper critical understanding of art and landscape (as a collective of readers and as individual investigators). Texts for this course will include an art historical exploration of the relationship between landscape, power, and identity by W.J.T. Mitchell, as well as an ethnographic investigation of nearly obsolete place names by Robert MacFarlane, poems by historical and contemporary poets like Jean Toomer, Terrance Hayes, and Lucille Clifton, and contemporary visual art by Helen Mirra and Xaviera Simmons, among others.

Class Format: seminar
Requirements/Evaluation: weekly discussion in an online forum; two short response papers, and a final research paper or creative project (10-12 pages or equivalent) investigating a specific landscape
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors
Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division I, Not Offered Academic Year 2018
SEM Instructor: Stefanni Jemison

ARTS 319(F) Junior Seminar
The objectives of this intensive seminar for studio majors are, through weekly studio projects, to strengthen both creative and technical skills as well as analytical and critical abilities. This seminar will be composed of a studio component and a studio workshop.

Requirements/Evaluation: evaluation will be based on the quality of work produced, participation in class discussions and critiques, successful completion of all assignments and attendance
Prerequisites: three studio courses required for the major, or permission of instructor
Enrollment Preferences: enrollment is limited to studio art majors (or permission of instructor)

Department Notes: Studio Art and Art History and Practice majors are required to take this course in the junior year unless studying abroad during the fall semester
Materials/ Lab Fee: TBD will be added to the student's term bill
Distributional Requirements: Division I
Fall 2017
STU Section: 01 T 09:00 AM 12:00 PM Instructor: Laylah Ali

ARTS 321(F) Social Commentary and Experimental Printmaking
The nature of the multiple allows images and text to reach a large number of people, and so it is not surprising that, historically, printmaking has had a close relationship to politics and social commentary. We will use a combination of printmaking, drawing, and painting to explore image-making as it relates to social space and the power dynamics that touch all of our lives. We will think critically about the world we live in and, through images, we can analyze our current states of being and imagine new ones. We will also investigate the politics around image-making through a variety of short texts, as well as examine a range of artists and collectives that have used drawing, painting, printmaking, and other media in this manner; this will include a visit to the Williams College Museum of Art. Students will be encouraged to think beyond traditional uses of printmaking in their semester-long exploration. The course is aimed at those who have some printmaking and drawing experience.

Class Format: studio
Requirements/Evaluation: quality of projects and homework completed, overall participation and contribution to critiques, and attendance
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: prior printmaking or drawing experience
Enrollment Preferences: none
Enrollment Limit: 14
Expected Class Size: 12-14
Materials/ Lab Fee: TBD
Distributional Requirements: Division I
Fall 2017
STU Section: 01 W 01:10 PM 03:50 PM Instructor: Nicole Maloof

ARTS 322T The Empowered Object
The development of "found object" in the language of art has played a significant role in constructing meaning in the consciousness of the twenty-first century. This tutorial will have students explore that tradition further through their own creative endeavors. They will be asked to add to the...
lineage of art that uses "found objects" in a creative and meaningful way. They will have the freedom to choose which medium will convey their ideas most effectively. They include, but are not limited to: sculpture, painting, drawing, photography, printmaking and video. For example, within the investigation of the "found object", projects could include: still life painting with a focus on developing one's own personal aesthetic, 2-dimensional work dealing with incorporating real objects, collage, assemblage, etc. The "found object" in art will be examined through: art practice, readings and presentations. As a tutorial, the course is designed to meet individual needs and to stress student participation and responsibility for learning. Students will meet weekly with a peer and the professor to review work.

Class Format: tutorial
Requirements/Evaluation: evaluation is based on the conceptual and technical quality of the work, as well as the level of participation in the tutorial meetings
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: any 200-level art course in the area that you are planning to work that is housed solely in the studio wing of the art department
Enrollment Limit: 10
Expected Class Size: 10
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1 Not Offered Academic Year 2018
TUT Instructor: Amy Podmore

ARTS 329(F) Architectural Design II
A continuation and expansion of ideas and skills learned in Architectural Design I. There will be four to six design projects requiring drawings and models, each of which will emphasize particular aspects of architectural theory and design. One project will be full-scale by the students in the class.
Class Format: design studio, site visits, lectures, readings
Requirements/Evaluation: evaluation will be based on quality of designs during the term
Prerequisites: ARTS 220 or ARTS 215
Enrollment Limit: 125
Expected Class Size: 15
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1
Other Attributes: ENVI Humanities, Arts + Social Science Electives
Fall 2017
STU Section: 01 F 01:10 PM 03:50 PM Instructor: Ben Benedict

ARTS 333T Narrative Strategies
Crosslistings: ARTS 333/COMP 333
In this tutorial, we will examine the use of narrative in a range of fine art practices, which could include painting, drawing, video, sculpture, installation, public art, and sound art. Students who are interested in telling or referencing stories in their work in some way will be given the opportunity to develop their ideas and skills in a challenging studio class. In addition to intensive projects, we will look at and discuss the work of artists such as Huma Bhabha, Lorna Simpson, Joe Sacco, Lydia Davis, Raymond Pettibon, Todd Solondz, Sophie Calle, Jenny Holzer, and Omer Fast among others. One of the aims of this course is to challenge traditional notions and expectations of narrative. For instance, what could minimally constitute a narrative piece? How do different mediums allow for different ways of telling stories? How does omission play a powerful role in a narrative? How might the role of the narrator (often so powerful and present in novels and short stories) change in a visual arts context? This is a studio tutorial with an emphasis on demanding, weekly projects. Students will work both in mediums of their choice and be asked to experiment with new, unfamiliar formats. Readings and screenings will be required in addition to tutorial hours.
Class Format: studio tutorial with an emphasis on demanding, weekly projects; students will work both in mediums of their choice and be asked to experiment with new, unfamiliar formats; readings and screenings will be required in addition to tutorial hours
Requirements/Evaluation: evaluation based on assignments, studio performance, class participation, and attendance
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: students are required to have taken at least two ARTS 200-level classes in any area, or permission of instructor
Enrollment Preferences: Art Studio majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1 Not Offered Academic Year 2018
TUT Instructor: Laylah Ali

ARTS 376 Sculpture Expanded
This course is designed to expand the definitions of sculpture by adding interdisciplinary solutions to the artistic ideas at hand. The class will be using a wide array of artistic practices towards developing three-dimensional spaces and emphasizing environmental or performative outcomes. Media such as video, drawing, painting, photography, architecture, as well as other artistic practices may be incorporated to create visual solutions to the projects. This is an upper level course focusing on developing one’s artistic voice while simultaneously strengthening technical and analytical skills. A substantial amount of time outside of class is expected to complete these projects.
Class Format: studio
Requirements/Evaluation: evaluation will be based on the quality of work produced, depth and quality of the investigative process, participation in critiques, and attendance
Prerequisites: ARTS 275 or any 200 level course in the media that will be incorporated or permission of instructor
Enrollment Limit: 10
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1 Not Offered Academic Year 2018
STU Instructor: Amy Podmore

ARTS 385 The Sculptural Costume and It's Performance Potential
Crosslistings: ARTS 385/THEA 385
A team-taught studio art / theatre course designed to explore the rich territory of the wearable sculpture and its generative role in art and performance. From ritual costumes, to Carnival, to Dada performance, to Bauhaus dance, to Helio Oiticica’s Parangole, and Nick Cave's sound-suits, there has been a rich tradition where sculpture and costumes merge. Students will study artists who have bridged distinctions between the theatrical costume and the sculptural object as well as produc

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: successful completion of any 200-level course in art studio or performing arts, or permission of the instructor
Enrollment Preferences: Art and Theater majors
Enrollment Limit: 14
Expected Class Size: 12
Materials/Lab Fee: lab fee TBD will be added to the student's term bill
Distributional Requirements: Division 1 Not Offered Academic Year 2018
STU Instructor: Amy Podmore

ARTS 418(S) Senior Seminar
In this capstone class for the studio art major, students define, research, create and present an original body of work to be exhibited in the Williams College Museum of Art. Students meet weekly in large and small groups to develop critical skills, to refine technique and expressive qualities, and to plan and execute all aspects of installing a professional exhibition.
Class Format: seminar on Wednesday and weekly tutorial meetings to be scheduled
Requirements/Evaluation: a strong concept; adequate research to support the project, dedication to production of the project; successful presentation of the project in the museum context; critical skills in discussion; collaborative skills; creativity
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: you must be a senior Art Studio major with all requirements fulfilled by the end of this term
Enrollment Preferences: Art Studio seniors, Art majors pursuing History and Practice may have permission of the instructor to enroll
Enrollment Limit: none
Expected Class Size: 15
Materials/Lab Fee: no lab fee, students are responsible for purchasing supplies
Distributional Requirements: Division 1
Spring 2018
STU Section: 01 W 01:10 PM 03:50 PM Instructor: Michael Glier

ARTS 497(F) Independent Study: Art Studio
With current staffing limitations, it is difficult for studio faculty to supervise more than a very few independent studies projects. We feel our curriculum includes rich and varied offerings and believe that the need for most independent work can be met through those regular offerings.
Class Format: independent study
Prerequisites: no student will be accepted into an independent study project unless he/she has completed two 200-level ARTS courses and one 300-level ARTS tutorial; permission of instructor is required
Distributional Requirements: Division 1
Fall 2017
IND Section: 01 TBA Instructor: Peter Low

ARTS 498(S) Independent Study: Art Studio
With current staffing limitations, it is difficult for studio faculty to supervise more than a very few independent studies projects. We feel our curriculum includes rich and varied offerings and believe that the need for most independent work can be met through those regular offerings.
Class Format: independent study
Prerequisites: no student will be accepted into an independent study project unless he/she has completed two 200-level ARTS courses and one 300-level ARTS tutorial; permission of instructor is required
Distributional Requirements: Division 1
GRADUATE COURSES IN ART HISTORY
Requirements for the Degree of Master of Arts in Art History

To qualify for the Master of Arts degree in art history, candidates complete a minimum of twelve courses for graduate credit plus two winter study periods, the latter comprising an international Study Trip in the first year (normally in January) (ARTH 51) and preparation of a Draft Qualifying Paper in the second (ARTH 52). Students must also demonstrate reading proficiency in two foreign languages, one of them German (for more specific information on the language requirements, see below, after the listing for ARTH 597/598). At the end of the second year, all students present a shortened version of the Qualifying Paper in the annual Graduate Symposium.
At least eight of the twelve courses must be graduate seminars. Included among them are four required of all students: ARTH 504, "Methods of Art History," to be taken during the first semester; ARTH 506, "Graduate Art History Writing Workshop" and ARTH 507, "Object Workshop," to be taken in the second; and ARTH 509, "Graduate Student Symposium," to be taken in the fourth.

Students must also fulfill a distribution requirement by undertaking coursework in three of six areas:
- East Asian, Indian, Islamic art
- Ancient Near Eastern, Egyptian, Greek, and Roman art
- Early Christian, Byzantine, and Western Medieval art to 1400
- Western art, 1400 to 1780
- Western art, 1700 to present
- Arts of Africa, Oceanica, and the Americas (Pre-Hispanic or Native American cultures)

Students may petition the Director to apply a thematic or non-period specific course toward the distribution requirement by demonstrating substantial work in an appropriate area.

Undergraduate Courses and Private Tutorials

With permission from the Director and the individual instructors, students may take up to four undergraduate courses for graduate credit, with the understanding that research papers submitted in such courses meet a standard commensurate with those prepared for graduate seminars.

In addition to regularly offered seminars and classes, students may arrange up to two private tutorials (ARTH 595/596) by submitting petitions to the Director describing the substance of their projects, including bibliography, and the nature of the work they will submit for evaluation. The petitions must be co-signed in advance by both the students and their faculty supervisors.

Of the minimum requirement of twelve courses, the combined number of private tutorials and undergraduate courses applied to the degree may not exceed four.

The Qualifying Paper

The Qualifying Paper is normally a revision of a seminar or private tutorial paper produced in one of the previous three semesters, expanded and refined over the second Winter Study term and a portion of the fourth semester. Students submit the topic of the Qualifying Paper in writing to the Director by the final day of exams of their third semester. Before this, students must present a tentative teaching supervisor’s agreement to be engaged in the Qualifying Paper process.

On the first Friday of their fourth semester, students submit drafts of their Qualifying Paper, including illustrations, to three faculty readers (generally the advanced seminar professors, the Director, and the Post-Doctoral Teaching Fellow). Although a draft, this version of the paper should be brought to a high level of completion.

Early in the fourth semester, students and their readers meet together to discuss the drafts. Within six weeks of these discussions (at a date determined by the Director), students submit their Qualifying Papers. Qualifying Papers should not exceed 8,000 words, including footnotes and bibliography.

The Graduate Symposium

All second-year students speak in the Symposium, presenting 20-minute talks developed from their Qualifying Papers. Each student has an ad hoc committee to give advice in preparing these presentations (ad hoc committees comprise, but are not limited to, the Director, one additional faculty mentor, one first-year graduate student, and one second-year graduate student). Preparations include at least three practice sessions for each student. Speakers present the first and third of these thoughts to the ad hoc committee, the second to the other second-year students in a workshop scheduled by the Director.

Grades and Academic Standing

The Program uses the following grading system:

- A+= truly exceptional (4.33)
- A= outstanding (4.00)
- A- = excellent (3.67)
- B+= good (3.33)
- B= satisfactory (3.00)
- B- = barely adequate (2.67)
- C = inadequate (0)

Courses in which students receive a grade below B- do not receive graduate credit.

Language Courses

The Graduate Program’s degree requirements include reading competence in two languages (other than English) of scholarly and academic relevance to the history of art. One of the two languages must be German. Many students select French as the second although, with permission of the Director, other languages may serve. The Program offers dedicated courses in French and German for art history. Other language classes at Williams are listed in the course catalog, although the coordination of undergraduate and graduate schedules can be challenging.

Incoming students’ language preparation is assessed through exams administered at the outset of the semester. In French and German, scores attained on SAT II reading examinations determine placement within the two-semester language course sequence.

French: if students attain a minimum score of 700 on the French placement exam, they are exempted from further coursework in that language. With a score between 500 and 700, they are placed into the graduate course of readings in art history, French 512. With a score below 500, they enroll in the introductory course, French 511.

In the case of a second language other than French, arrangements will be made on an individual basis.

German: With a score below 450, students enroll in the introductory course, German 515. Students who score between 450 and 500 are placed into German 516. With scores between 500 and 700, students enroll in the advanced reading course, German 513. Students attaining a minimum score of 700 on the German placement exam are exempted from further coursework in that language.

ARTH 500(F) Ottoman and Orientalist Visual Culture
Crosslistings: ARTH 500/ARTH 400

Jean-Léon Gérôme’s famous painting, The Snake Charmer, at the Clark Art Institute will be our starting point for examining the connections between Orientalism and art of the modern period. Those who were fascinated by the Near East (Gérôme, Ingres, Delacroix, Lewis, Renoir and Matisse) will be studied alongside Orientalist photography, international exhibitions, theories of ornament, travel literature and film. This course examines diverse regional orientations (in Poland, Russia, Turkestan, the Near East, the Islamic world, the Ottoman Empire, America and Australia) and the distinctive contribution of women artists. Western engagement with the Islamic world will be examined alongside contemporaneous Ottoman art, patronage and the visual culture of statecraft. We will consider Ottoman modernization as a context through which the alternative images of the region were generated. The cultural and political significance of Orientalist visual culture will be critically analyzed through comparative study of French-trained Ottoman artists and their Orientalist mentors Gérôme and Boulanger.

Class Format: seminar
Requirements/Evaluation: each student will write one short midterm paper and a longer concluding essay, as well as present a couple of readings to the class.
Extra Info: may not be taken on a pass/fail basis
Enrollment Preferences: places for 8 undergraduates and 8 graduate students assured
Enrollment Limit: 16
Expected Class Size: 16

Distributional Requirements: Division 1

Fall 2017
5TH Section: 01 R 01:10 PM 03:50 PM Instructor: Mary Roberts
personal choice began gaining traction as a legitimate foundation for conjugal union—gradually superseding parental decree—love was considered indissociable from such equally fraught domains as trust and risk. Drawing on the collection of the Clark, we will think critically about the ascendancy of genre painting and the category of the roccoco, giving special attention to case studies like Boucher, Fragonard and Greuze; the growth of artworks depicting the signing of marriage contracts; the importance of epistolary practice and the vogue for love letter pictures—a theme that we will consider in connection to the expansion, in a period of globalizing capitalism, of a paper culture.

Instructor: Christopher Heuer

ARTH 509(S) An Expository Writing Workshop
A common and depressing consequence of too much education is how our writing tends to devolve, as the task of saying what we mean is complicated by new anxieties: trying to impress our potential employers, intimidate our competitors, claim our place in an intellectual community, and generally avoid looking like fools. In many professions, bad prose tends to proliferate like some disgusting disease, as scholars, trying above all to avoid mistakes, become tentative, obscurantist, addicted to jargon, and desperate to imitate other bad writers. In this course we will try to relearn the basic skills of effective communication and adapt them to new and complicated purposes. In class we will go over weekly or bi-weekly writing assignments, but we will also look at the essays you are writing for your other courses, to give them an outward form that will best display their inner braininess. Among other things, I am a fiction writer, and part of my intention is to borrow the techniques of storytelling to dramatize your ideas successfully.

Class Format: seminar
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 T 01:10 PM 03:50 PM Instructor: Christopher Heuer

ARTH 508(S) Art and Conservation: An Inquiry into History, Methods, and Materials
This course is designed to acquaint students with observation and examination techniques for works of art, artifacts, and decorative arts objects; give them an understanding of the history of artist materials and methods; and familiarize them with the ethics and procedures of conservation. This is not a conservation training course but is structured to provide a broader awareness for those who are planning careers involving work with cultural objects. Sessions will be held at the Williamsburg Art Conservation Center, Williams College, the Clark Art Institute, and the Governor Nelson A. Rockefeller Empire State Plaza Art Collection in Albany. Examination questions may be formulated from exhibitions at these locations. Six exams will be given. Exam scores will be weighed in proportion to the number of sessions covered by the exam (e.g., the paintings exam, derived from six sessions of the course, will count as 25% of the final grade).

Class Format: slide presentations, lectures, gallery talks, hands-on opportunities, technical examinations, and group discussions
Requirements/Evaluation: attendance is required at all sessions; the course grade is based on exams given throughout the semester; there is no final exam
Enrollment Preferences: Graduate Program students, then students in art history or studio art
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 MR 06:30 PM 08:30 PM Instructor: Thomas Branchick

ARTH 506(S) An Expository Writing Workshop
This course is designed to assist qualified fourth-semester graduate students in preparing a scholarly paper to be presented at the annual Graduate Symposium. Working closely with a student and faculty ad hoc advisory committee, each student will prepare a twenty-minute presentation based on the Qualifying Paper. Special emphasis is placed on the development of effective oral presentation skills.

Class Format: symposium
Requirements/Evaluation: each student will present three practice runs and a final oral presentation at the symposium
Prerequisites: successful completion and acceptance of the Qualifying Paper
Enrollment Preferences: limited to and required of second-year students in the Graduate Program in the History of Art
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 R 01:10 PM 03:50 PM Instructor: Christopher Heuer

ARTH 507(F) Object Workshop
Meeting for six sessions over the semester, this workshop is designed to introduce first-year graduate students to technical, material, and connoisseurial perspectives relevant to the study and analysis of art objects. We will draw on local collections and expertise for our case studies.

Class Format: seminar
Requirements/Evaluation: participation
Prerequisites: none
Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art
Distributional Requirements: Division 1
Fall 2017
SEM Section: 01 TBA
Spring 2018
SEM Section: 01 TBA

ARTH 503(S) Museums: History and Practice
Crosslistings: ARTH 503/LEAD 301
This course will examine the history of museums in Europe and America, focusing on historical traditions and current expectations affecting institutional operations today. Historical tradition and current practice as they relate to museum governance and administration, architecture and installation, acquisitions and collections, and cultural property issues as well as the many roles of exhibitions in museum programming will be addressed, along with museums’ social responsibility as scholarly and public institutions in an increasingly market-driven, nonprofit environment.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on oral presentations as well as two research papers
Extra Info: may not be taken on a pass/fail basis
Enrollment Preferences: Graduate Program students then to senior Art History majors
Enrollment Limit: 14
Dept. Notes: satisfies the seminar requirement for the undergraduate Art History major
Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under LEAD
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 R 01:10 PM 03:50 PM Instructor: Nina Dubin

ARTH 502 History, Theory, and Techniques of Printmaking
This course will consider the history of prints in Europe and America from the fifteenth century through the 1920s. Focusing primarily on the holdings of the Clark, classes will be held in the new Manton Study Center for Works on Paper where students will view original works of art. Equal emphasis will be placed on primary literature, theoretical texts, and a careful understanding of printmaking processes. Media to be investigated include, among others, 15th-century woodcuts by Albrecht Dürer, drypoints by Rembrandt, engravings by Philipp-Louis Debucourt, aquatints by Francesco Goya, lithographs by Edouard Manet, etchings by James McNeill Whistler, photomechanical processes like photogravure by artist Alfred Stieglitz, and color woodcuts by the German Expressionists. The rise and fall of various processes and practitioners will be explored from a socio-historical perspective, considering market, taste, and changing exhibition strategies. Additionally, consideration will be given to the status of the printmaker over the centuries as their roles shifted from professional to amateur and back again.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on involved class participation, several short presentations, one short paper, and a final paper of approx. 20 pages
Extra Info: may not be taken on a pass/fail basis
Enrollment Preferences: Graduate Program students and then to Art History majors
Enrollment Limit: 14
Expected Class Size: 14
Distributional Requirements: Division 1
Not Offered Academic Year 2018

ARTH 510(F) Approaches to Drawing from Connoisseurship to Conceptualism

The course will consider the art of drawing as a pedagogical tool and cultural practice from the sixteenth to the twentieth century. Creative and commercial forces over four centuries have fostered different types of and reasons for production: presentation drawings in sixteenth century Italy, an increased market for draughtsmanship in seventeenth century Holland, a fashion for powdery pastels in eighteenth century France, and the critical promotion of drawing as a form of autographic thinking in the nineteenth century. Drawing has enjoyed a resurgence in the last fifty years as Minimalism and Conceptualism have pushed the traditional boundaries of the medium. This course will be concerned with the history of collecting and materials from the invention of the Conté crayon to the deteriorating effects of acidic paper. We will discuss approaches for identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA staff, one or more of these objects will be acquired. The agreed strategy, and the object will be part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be responsible for presenting three papers, dealing with the objects, the likely cost, and the best strategy

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: preference given to Graduate Program students and then to senior Art History majors

Enrollment Limit: 14

Expected Class Size: 8

ARTH 526 Shadows of Plato's Cave: Image, Screen, and Spectacle Crosslistings: PSCI 374/COMP 374/ARTH 526

In Book VII of the Republic, Plato describes famously asks his interlocutors to picture people living in a cave, bound in chains and able to see only shadows on the wall. Thus begins the presentation of perhaps the most influential metaphor in the history of philosophy. One might even claim that when Plato develops the metaphor in an extended allegory, he constituted the fields of both philosophy and political theory. In repeatedly examining the allegory over the centuries, later thinkers have elaborated their approaches not only to Plato but also to the nature of politics and the tasks of thinking. This class begins with the Republic and other key Platonic discussions of appearances, visual representation, and (literal and metaphorical) seeing, asking how Plato's approaches to image, politics, and theory/philosophy shape each other. Building on those inquiries, we next take up important twentieth and twenty-first century returns to the cave, engaging such figures as Heidegger, Strauss, Arendt, Derrida, Irigaray, Rancière, and Badiou. Finally, we examine recent theories of screen and spectacle—read both for their resonances with and departures from debates over the Platonic legacy—and case studies in the politics of both military and racial spectacles in the U.S. The question of what is an image and what images do will run from the beginning of the course to the end. Beyond the authors mentioned, readings may include such authors as Allen, Bruno, Clark, Deleuze, Friedberg, Goldsby, Josell, Mitchell, Nightrongale, Rodowick, Rogen, Silvayon, Virilio. Insofar as it fits student interest, we will also explore the cave's considerable presence in visual culture, ranging from Renaissance painting through such recent and contemporary artists as Kelley, Demand, Hirschhorn, Kapoor, Lemoane, and Walker, to films such as The Matrix.

Class Format: seminar

Requirements/Evaluation: regular glow posts and three 7- to 8-page essays or one 20-page final paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: one prior course in political theory, art history, cultural-literary theory, or philosophy or permission of the instructor

Enrollment Preferences: majors in political science, comparative literature, or philosophy, as well as students (up to 4) in the graduate program in art history

Enrollment Limit: 19

Expected Class Size: 12

Distribution Notes: meets Division 2 requirement if registration is under PSCI; meets Division 1 requirement if registration is under COMP or ARTH

Distributional Requirements: Division 2

ARTH 527(F) Acquiring Art: Selecting and Purchasing Objects For WCMA Crosslistings: ARTH 327/ECON 227/ARTH 527

How do museums acquire art? Factors considered in selecting objects include: the museum's existing collection, its mission, the availability of suitable objects, evaluation of the art historical importance of potential purchases, and the available budget. How can objects be identified and obtained at the most reasonable cost? How do auctions work and what strategies are best for purchasing works at auction? Is it more economical to purchase art at auction or to work with dealers or (for contemporary works) directly with artists? Do museums consider value in the same way as private collectors? What role does an object's history and condition play in the evaluation process? In this course students will work as teams to identify and propose objects for addition to the collection of the Williams College Museum of Art (WCMA). A significant budget will be made available for the acquisition. This will include the integration of identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA staff, one or more of these objects will be acquired. The agreed strategy, and the object will be part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be responsible for presenting three papers, dealing with the objects, the likely cost, and the best strategy

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: ECON 110 or permission of instructor

Enrollment Preferences: seniors in major in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors

Enrollment Limit: 20

Expected Class Size: 20

Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under ECON

ARTH 533 Michelangelo: Biography, Mythology, and the History of Art Crosslistings: ARTH 433/ARTH 533

One might argue that Michelangelo's enduring fame, and his preeminence in the European art historical canon, is as much a product of his artistic persona as the artistic practice that produced his works. As the iconic, brooding, tortured genius of unstoppable creative force finds its roots in the Italian Renaissance, and specifically in the fascinating biography—and mythology—of Michelangelo. With a life and career more fully documented than those of any western artist to precede him, Michelangelo provides the foundations for a triangulation of person-persona-artisanic production that has a modern. But what are the limits of our knowledge, or the boundaries of interpretation? How might we approach the study of an artistic self when that self, also, a work of art? In this course, we will explore Michelangelo's experience of images from the past. Authors studied will include Leonard Barkan, Simona Cohen, Georges Didi-Huberman, Anthony Grafton, Michael Ann Holly, George Kubler, Keith Moxey, Alexander Nagel, Erwin Panofsky, Marvin Trachtenberg, Aby Warburg, and Chris Wood.

Class Format: seminar

Requirements/Evaluation: an oral presentation, a research paper, short response papers, and critical commentary on work of peers

Prerequisites: ARTH 301 or permission of instructor (prerequisite for 400-level)

Enrollment Preferences: equally given to senior Art majors and graduate students in the history of art

Enrollment Limit: 18

Distributional Requirements: Division 1

Other Attributes: ARTH pre-1600 Courses

Not Offered Academic Year 2018

SEM Instructor: Stefanie Solum

ARTH 534(S) Renaissance Time

“Once upon a time,” noted the historian Randolph Starn, “the Renaissance stood on its rock-like foundations directly under our feet.” We think of the changing perception of time during the fifteenth and sixteenth centuries—a mounting awareness of the place of the present moment in the larger arc of history—as a defining feature of the Renaissance. Yet, while this new temporal self-consciousness underpins our experience of images from the past. Authors studied will include Leonardo, Botticelli, Raphael, Michelangelo, and Titian. This course will introduce a historiographic lens on the varied art historical interpretations of temporality and the imagery of time. Finally, we will consider our own temporal position as it relates to our experience of images from the past. Authors studied will include Leonard Barkan, Simona Cohen, Georges Didi-Huberman, Anthony Grafton, Michael Ann Holly, George Kubler, Keith Moxey, Alexander Nagel, Erwin Panofsky, Marvin Trachtenberg, Aby Warburg, and Chris Wood.

Class Format: seminar

Requirements/Evaluation: collaborative class discussion and focused peer critique, short ungraded response essays, oral seminar report, 15- to 20-page
The imagined cleave between "scientific" and "theoretica" art history has never so clearly been on display even in the most extreme of art historians. In late medieval and Renaissance North Europe, artworks incorporated materials from all over the human and natural world — azurite, gold, paper, blood, ivory, ash, bone. This "stuff" — rather than any forms it might be fashioned into — held its own auratic charge. How are we to think about these various species of matter, about their various processes of transformation? How did changing philosophies and concepts of matter alter the concept of the artwork, particularly in globally-connected North Europe? What role (if any) was played by rediscovered antique texts about matter (Lucretius, etc.)? This seminar pivots on two questions: first, how did Renaissance artists and audiences understand the material constituents of their craft? And second, can we imagine an art-history of material today outside a rubric of blunt materialism? Material art history shouldn't mean shucking hermeneutics or criticality. After all, going back to how something could be more "philosophical" than matter itself? At the same time, the "scientific" scrutiny of artworks — using X-rays, infrared scanning, radiographic photography, chemical analysis, and dendrochronology — has long been a particular fetish of the study of Northern Renaissance art. The insights onto the artistic process these methods offer are indisputable. Yet aside from verifying (or undermining) claims to age, authorship, or condition of old artworks, it remains extremely unclear to many scholars what motivates scientific examination — in many respects a solution without a clear problem — are addressing. Worse, such investigations often seem like advocacy fornerences of artistic intention — a concept viewed with skepticism by many historians today. Theory's "return to the object" turn in art history (a maneuver, since the 1980s, often rooted in Northern artworks) has showed possibilities, but also limitations. Durability — the reigning dictate of many early objects — poses specific challenges to narratives privileging stories of rupture. Art historians include: alchemy, the studio, early atomistic theories, restoration, animation, authenticity, fakтура, and "science."

SEM Instructor: Christopher Heuer

ARTH 540(F) In Vinculis Invictus: Portraits in Prison

Among the most portraiture in Europe during the modern period, some have been painted or more recently photographed in prison. Artists themselves have made self-portraits during their own imprisonments, or sometimes a portrait of one of their fellow prisoners. More often it was the prisoners or their relatives who commissioned an artistic record of their detention. The idea of commemorating such a moment, or to evoke it as a claim to fame, seems surpising at best, at worst outrageous and provocative. But there is, indeed, an enduring tradition of portraiture in prison with its masterpieces and its pantheon, a tradition that fits into the wider pictorial attention to the prison itself. With the French Revolution, the nature of prison changed. It became a tragic symbol of the political "debates." Prison became the arena for a new martyr, one that endures for ideas or simply to be born. The portrait in prison was a way to commemorate not a disgrace or an embarrassment, but a glory and a moment of virtue. Within a few years, a terrifying series of portraits appeared. They would nurture Western political thought and visual culture until now. Portraits in prison are at a crossroads of politics, law, art, and identity; they offer a great opportunity to think about art and society. This course will explore the topic throughout the modern period until the contemporary period.

Class Format: Seminar

ARTH 551 Winslow Homer

In this seminar we will explore the life and art of Winslow Homer (1836-1910). Paintings, prints, drawings, and photographs in the collection of the Clark and the Williams College Museum of Art will focus our discussions and provide the basis for understanding Homer's art-making and his place within the art-culture of his day. A consideration of his subjects will necessarily intersect with many of the nation's most pressing issues during his era: the Civil War and Reconstruction; the rise of middleclass leisure; the relation of man to the environment.

Class Format: seminar
Requirements/Evaluation: two short writing assignments, twenty page final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Enrollment Preferences: Graduate Program students and then to senior Art History majors
Enrollment Limit: 14
Expected Class Size: 8-12

ARTH 554 The Matrix and the Market: Printmaking and Photography in the Nineteenth Century

During the last half of the 19th century, technical, commercial, and aesthetic approaches to printmaking and photography experienced dramatic paradigm shifts. Etching, for example, simultaneously functioned as a reproductive medium and one that carried experimental, vanguard associations. Practitioners of lithography strove to distance themselves from denigrating commercialism and raise the medium's status to a respected art form. Photography, in turn, negotiated the boundaries between "documentary" and "artistic." This seminar will address the complex issues that swirled around printmaking and photographic matrices, critical responses to the various processes, artist-driven initiatives, and the formative role of the art market with book trade in securing the commercial, aesthetic, and critical significance of these works.

Class Format: seminar
Requirements/Evaluation: students will be responsible for readings and involvement class discussion; several short and one long presentation; and a final paper (20-25 pages)
Enrollment Preferences: Graduate Program students and then to senior Art History majors
Enrollment Limit: 12
Expected Class Size: 8-12

ARTH 562/567 Japanese Popular Visual Culture

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century. A consideration of his subjects will necessarily intersect with many of the nation's most pressing issues during his era: the Civil War and Reconstruction; the rise of middleclass leisure; the relation of man to the environment.

Class Format: seminar
Requirements/Evaluation: two short writing assignments, twenty page final paper

ARTH 567 What is Art Criticism? Current Debates, Past Precedents

Artists and art critics are involved in ongoing debates concerning a purported "crisis" of art criticism, this seminar considers traditions of writing about the visual arts in the years before 20th century. We will begin with current art criticism and then pivot back to the eighteenth century, tracing a sequence of episodes in art criticism's evolution as a genre by looking at key works of art as mediated by their first critics. Emphasis will be placed on close readings of primary historical texts as prompts for thinking through the following broad questions, among others: What is art criticism? Is the art critic a judge, a historian, a part-time, or an artist in her own right? How do forms of distribution impact the content of art criticism, and how does art criticism impact the form and content of art? What is the relationship, if any, between taste, assessment of value, and interpretation of meaning? Artists considered include, among others, Boucher, Friedrich, Whistler, Seurat, Pollock, Piper.

Class Format: seminar
Requirements/Evaluation: two short writing assignments, twenty page final paper
Extra Info: may not be taken on a pass/fail basis
Enrollment Requirements: Division 1
Not Offered Academic Year 2018
SEM Instructor: Emmelyn Butterfield-Rosen

ARTH 573 Modern and Contemporary Art from the Middle East and North Africa

This is an exciting time for art from the Middle East and North Africa. Contemporary artists are exhibiting in international shows and biennials, and the global art market has responded with keen interest. We will survey recent developments and consider their international ramifications. The visibility and celebration of these artists, however, does not take into account the larger historical arena of cultural production and artistic practice from which they emerge. In terms of the discipline of art history, the field of modern painting and contemporary visual practice in the region is in its first generation of formation and definition. Drawing on very recent scholarship in art history and visual anthropology, we will explore the "history" of modern and contemporary art in the Middle East and North Africa (from the 1920s-the present). We will pay particular attention to how key terms and categories such as: modern, contemporary, Islamic, and Arab, have been constructed, deployed and debated by artists, institutions and scholars in the field. We will explore the role of museums, art schools, archives and biennials in the region, the creation of art publics and communities, and how the international market has responded to contemporary production. And perhaps most importantly, we will study works by artists that identify with the region and engage and complicate constructions of race, gender, religion, nation, and community.

Class Format: seminar
Requirements/Evaluation: short response essays and a culminating research paper
Enrollment Preferences: graduate program students and then senior Art History and Arabic Studies majors

Distribution Requirements: Division 1
Not Offered Academic Year 2018
SEM Instructor: Katarzyna Pieprzak

ARTH 586 Japanese Popular Visual Culture

Crosslistings: COMP 286/ARTH 286/ARTH 586/ASST 286

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo-e, Superflat), classic film (Ozu,
Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Okazaki), and animation (Oshii, Miyazaki, Kon). We will focus on developing visual reading skills to come up with original interpretations of these works, and on comparing different media to make them shed light on one another.

**ASIAN STUDIES (DIV I & II, see explanation below)**

Chair: Associate Professor Li YU

Professors: C. CHANG, S. KAGAYA, C. KUBLER, C. NUGENT, K. YAMAMOTO. Associate Professor: L. YU. Assistant Professor: M. HE.

**Mission Statement and Learning Objectives**

The mission of the Department of Asian Studies is to help as many students as possible—both majors and non-majors—develop practical proficiency in Asian languages and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of one or more of the disciplines represented within Asian Studies (including anthropology, art history, economics, history, linguistics, literature, music, political science, religion, and sociology), so that they may realize their fullest intellectual and personal potential and be able to make useful contributions to society. We offer three distinct major tracks: Asian Studies, Chinese, and Japanese.

**Learning Objectives for the Asian Studies Major**

Asian Studies is a multi-disciplinary and interdisciplinary major track that combines the humanities and social sciences with language study. It aims to help students develop practical proficiency in an Asian language and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of Asia through a particular disciplinary lens. Beyond training in the discipline they choose for their three-course disciplinary qualification, students have the opportunity to explore a range of other disciplinary approaches and perspectives.

**Majors in Asian Studies will:**

- Attain a practical proficiency in an Asian language (either Chinese or Japanese currently offered by the department, or Hindi or Korean, offered by the Critical Language Program of the Center for Foreign Languages, Literatures, and Cultures)
- Gain awareness and understanding of a particular country or region in Asia through training in one of the disciplines represented in the Department of Asian Studies (anthropology, art history, economics, history, linguistics, literature, music, political science, religion, or sociology).
- Have an opportunity to explore a range of disciplinary approaches and perspectives in addition to their primary disciplinary focus and apply a range of research methodologies with a focus on interdisciplinary.
- Develop close reading, analytical writing, and critical thinking skills by engaging in cross-linguistic, cross-cultural, and comparative historical analysis.
- Gain a comparative perspective on issues affecting Asia as a region.
- Develop global awareness and engagement through identification of the values, perspectives, and practices of Asian societies, both past and present.

**Learning Objectives for the Chinese Major**

Consisting of a core language curriculum and a variety of courses in the various disciplines represented in the department, the Chinese major track enables students to achieve proficiency in aural comprehension, speaking, reading, and writing in Mandarin Chinese, as well as to understand the cultural traditions and diversity of the Chinese-speaking regions in the world. Majors in Chinese are expected to function as responsible global citizens, able to use the Chinese language to interact and collaborate in their community and the globalized world, while remaining keenly aware and respectful of varying cultural beliefs, norms, and sensitivities.

**Students who complete the requirements for a major in Chinese will be able to:**

- Attain the “advanced” level in speaking, listening and reading, and “intermediate-high” level in writing based on the ACTFL proficiency guidelines.
- Understand the basic grammar and vocabulary of Classical Chinese.
- Master intercultural skills to competently navigate a wide range of social and cultural contexts.
- Critically read and analyze a variety of Chinese-language primary sources for academic and professional purposes.
- Acquire research, problem-solving, and critical thinking skills by engaging in cross-linguistic, cross-cultural, and comparative historical analysis.
- Engage critically with important aspects of the historical and cultural developments and trends in China’s diverse and complex past and present.
- Continue their engagement with the target language and culture as lifelong learners and users of Chinese.

**Learning Objectives for the Japanese Major**

The Japanese major consists of a core language curriculum and a variety of interdisciplinary courses offered in the Asian Studies Department. In the Japanese language courses, students attain linguistic and cultural proficiency from the elementary through the advanced level. The interdisciplinary courses are designed to deepen students’ understanding of and familiarity with diversity and dynamism in Japanese culture.

**Students who complete the requirements for a major in Japanese will be able to:**

- Demonstrate linguistic competency/proficiency in comprehending, speaking, reading, and writing in Japanese at the ACTFL intermediate-high to advanced levels.
- Critically read and analyze a variety of Japanese primary sources for academic and professional purposes.
- Conduct research by engaging in cross-linguistic, cross-cultural, and comparative historical analysis with problem-solving and critical thinking skills.
- Engage critically with Japanese culture, past and present, recognizing its diversity and vibrancy.
- Navigate a wide range of social and cultural contexts by communicating effectively and appropriately with people of other cultures in their local and global communities.
- Continue their engagement with Japanese language and culture as lifelong learners and users of Japanese.

**THE MAJOR**

We offer courses in English in the field of Asian Studies as well as courses in Chinese and Japanese language, literature, and culture. Three distinct majors are offered: a major in Chinese; a major in Japanese; and an interdisciplinary Asian Studies major. Students choose from a wide range of courses in the anthropology, art, economics, history, languages, linguistics, literatures, music, politics, religion, and sociology of China, Taiwan, Japan, and other Asian countries. An increasing number of courses on South Asia are also offered (e.g. ASST 117, ASST 221, ASST 244, ASST 246, ASST 248, ASST 252, ASST 256, ASST 391, ASST 415, ASST 424, ASST 431, ASST 488). Students interested in taking Korean or Hindi may take these languages through the Critical Language Program administered by the Center for Foreign Languages, Literatures, and Cultures. Students with questions about the Asian Studies majors or about Asian Studies course offerings should consult the chair. Please note: Courses with ASST prefix carry...
Division II credit unless otherwise noted and courses with CHIN and JAPN prefixes carry Division I credit unless otherwise noted.

All students wishing to major in the Department of Asian Studies are required to take and pass a total of eleven courses, as follows:

One course that explicitly compares at least two countries in Asia, such as ASST 103, ASST 126, ASST 245, ASST 248, ASST 250, ASST 256, ASST 271, ASST 391, ARTH 414, ASST 424, ASST 431. Or students may take instead a course on a country that is different from their country of primary focus.

Four semesters of Chinese or Japanese language (including no more than two 100-level courses).

In addition to completing (1) and (2) above, all majors choose either an Area Studies track, leading to a major in Asian Studies; or a Language Studies track, leading to a major in Chinese or Japanese. The requirements for each of these tracks are indicated below:

Asian Studies Major
Three course qualification in one of the disciplines represented within Asian Studies (anthropology/sociology, art history, economics, history, linguistics, literature, music, political science, religion). The qualification, to be determined through consultation between students and their advisor, normally includes an introductory course and more advanced courses. At least two of these three courses must be on Asia.

Three approved electives, which may include further language work

Chinese Major
Four additional semesters of Chinese language (300-level or higher)
One semester of Classical Chinese
One approved course in Chinese literature, linguistics, or culture

Japanese Major
Four additional semesters of Japanese language (300-level or higher)
One approved course in Japanese language (400-level), literature or culture
One approved elective on Japan

STUDY ABROAD
Students intending to major in Asian Studies are encouraged to study in Asia during one or both semesters of their junior year. Williams faculty serve on the boards of several study abroad programs in China and Japan.

Opportunities to study in India, Indonesia, Korea, Taiwan, Thailand, and other Asian countries are also available. Prospective Asian Studies majors who are planning to study abroad should discuss their plans with their advisor as far in advance as possible. Up to eight courses taken overseas may be counted toward graduation, and up to four courses taken off campus may be counted toward the major. You can find general study away guidelines for Asian Studies here.

THE DEGREE WITH HONORS
Students interested in writing an honors thesis in Asian Studies, Chinese, or Japanese should submit a proposal to the department chair before they pre-register for senior courses in the spring of their junior year. The proposal should include a statement of the goal and methods of the research project, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. Admission to the honors thesis program will normally be limited to students who have maintained at least a B+ average in their courses for the major.

Students admitted to the program should register for ASST 493-W31-494, CHIN 493-W31-494, or JAPN 493-W31-494. They will be expected to turn in the final draft of their thesis shortly after spring break and to discuss their results formally with their faculty graders. Their final grades in the three courses listed above and the award of Honors, Highest Honors, or no honors will be determined by the quality of the thesis and the student's performance in the oral defense.

THE ASIAN STUDIES ENDOWMENT
The Linen summer grants for study abroad, the Linen visiting professorships, and several other programmatic activities in the department are made possible by the support of the Linen Endowment and funds established by family and friends in memory of James A. Linen III, Class of 1934, Trustee of the College from 1948 to 1953 and from 1963 to 1982.

ASST 103 Asian Art Survey: From the Land of the Buddha to the World of the Geisha (D)
Crosslistings: ARTH 103/ASST 103
This course introduces students to some of the most enduring masterpieces of Asian art with an emphasis on the art of India, China, and Japan. Its contextual approach helps students gain insight into the aesthetic, religious, and political ideas and cultural meanings conveyed by the works of art. It also provides students with the vocabulary, techniques, and patterns of thinking needed for advanced art history courses. Highlights include sexual symbolism in Hindu and Buddhist art; nature or landscape painting as moral and political metaphor; the spinning wheel and basket weaving in India; and the meeting of the Eastern and Western art. This course is one of the four foundational courses; art history majors may choose any three of the four courses ARTH 101, ARTH 102, ARTH 103, and ARTH 104 to fulfill the foundational requirements. As an EDI course, its historical, visual, and thematic analyses will bear upon the interconnectedness not only among these three distinctively different cultures, but their respective interactions with the West.

Class Format: lecture
Requirements/Evaluation: evaluation will be based on three quizzes, two short papers, film screening and class attendance
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none; highly recommended for first-year students
Enrollment Preferences: none
Enrollment Limit: 35
Distribution Notes: meets Division 1 requirement if registration is under ASST

DISTRIBUTIONAL REQUIREMENTS: Division 1, Exploring Diversity
Other Attributes: ARTH pre-1600 Courses, GBST East Asian Studies Electives
Not Offered Academic Year 2018
LEC Instructor: Ju-Yu Jang

ASST 115(S) The World of the Mongol Empire (W)
Crosslistings: HIST 115/ASST 115

By the middle of the thirteenth century, Mongol armies led by Genghis Khan had conquered an enormous swath of territory, extending from China westward to Eastern Europe. Further expanded by Genghis's descendants, the Mongol Empire incorporated a vast range of different peoples and cultures, enhancing communications, trade, and exchange among them. In this course we will examine the "world order" of the Mongol Empire from its origins on the Asian steppe through its expansion, consolidation, disintegration, and legacies for later periods. From a wide range of primary and secondary sources, including travelers' accounts, chronicles, art, and literature, we will investigate the diverse experiences of the Mongol world in different places, such as China, Russia, Persia, and Central Asia.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, several short papers, and a final research paper
Extra Info: not available for the fifth course option
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar
Enrollment Limit: 19

Expected Class Size: 15-19
DISTRIBUTIONAL REQUIREMENTS: Division 2, Writing Intensive
Other Attributes: GBST East Asian Studies Electives, HIST Group B Electives - Asia, HIST Group P Electives - Premodern
SELECTION: Spring 2018
LEC Instructor: Anne Reinhardt

ASST 117 Bombay/Mumbai: Making of a Modern Metropolis (W)
Crosslistings: HIST 117/ASST 117/GBST 117
BOMBAY or MUMBAI is India's foremost urban center and is well known today as a truly global city. It is the heart of India's commercial life comparable in vibrancy and multiculturalism with the world's emerging cities like Shanghai, Hong Kong and Sao Paulo. What are the historical elements that contributed to the making of India's most modern and global metropolis? What are the antecedents of the modernity, the vibrant culture, dark underbelly and economic diversity that characterize Bombay today? What does the history of Bombay tell us about modernity in India and the emerging countries of the third world in general? This seminar will help students to answer these questions through historical, social and cultural lenses. Bombay was as well a wide range of multimedia sources including cinema, photography and literature. With a focus on the 19th and 20th centuries, we will explore themes like the commercial culture of a colonial port city, the modern public sphere, theatre and film, labor migration, public health and prostitution to understand what went into the making of this modern metropolis. The primary objective of this course is to introduce students to a wide range of historical sources and ways of interpreting them. The other objective is facilitating their understanding of the history of modern India through the history of its most important city.

Class Format: seminar
Requirements/Evaluation: assessment will be based on class participation and weekly responses to readings, 2-3 short papers, leading to an oral presentation and final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: first-year or sophomore standing
Enrollment Preferences: first-year students, then sophomores
Enrollment Limit: 19

Expected Class Size: 15-19
DISTRIBUTIONAL REQUIREMENTS: Division 2, Writing Intensive
Other Attributes: GBST South + Southeast Asia Studies Electives, HIST Group B Electives - Asia
Not Offered Academic Year 2018
LEC Instructor: Aparna Kapadia

ASST 121(T) The Two Koreas (W)
Crosslistings: HIST 121/ASST 121

The two Koreas—North and South—were born in the aftermath of World War II, when the United States and the Soviet Union arbitrarily divided the peninsula into two zones of occupation at the 38th parallel. Today, over six
decades later, the split endures as what has been called "the Cold War's last divide." This tutorial examines the history of the two Koreas from their creation in 1945 to the present. We will explore the historical and ideological origins of the division; how tensions between North and South led to the outbreak of the Korean War; why the paths of the two Koreas have differed so starkly; and how the current nuclear crisis has been shaped by its political leaders and their ideologies; and what recent developments in North Korea, including its nuclear program, have meant for relations on the peninsula and beyond. Course material will include primary and secondary sources of various kinds, including political documents, intellectual treatises, films, and short stories.

**Class Format:** tutorial

**Requirements/Evaluation:** students will meet with the instructor in pairs for an hour each week; a student either will write and present orally a 5- to 7-page essay on the assigned readings or will be responsible for offering an oral critique of their partner's work.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Preferences:** first-year students, and then sophomores who have not previously taken a 100-level seminar

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 2, Writing Intensive

**Other Attributes:** GBST East Asian Studies Electives, HisT Group B, Electives, Asia

**Not Offered Academic Year 2018**

**TUT Instructor:** Eiko Siniawer

**ASST 122T(S) Old Shanghai, New Shanghai (W)**

Crosslistings: CHIN 422/ASST 122

Once nicknamed as "Paris of the East," Shanghai, now a megacity with a population of 25 million, has been the primary industrial, commercial and financial center of contemporary China. Shanghai is often depicted as a metropolis that marked the beginning of China's modernity and urban culture. People from other regions in China see Shanghai as a city full of opportunities, but characterize its ocean as a substitute and shrewd, cocky and unwelcoming. Foreigners, however, find the city appealing and its people open-minded. Jews fleeing Nazi persecutions during WWII, found Shanghai to be a "paradise of ghetto" that provided the only haven of survival. For local people, there have always been two Shanghai: an old one and a new one. They are proud of the new Shanghai but constantly nostalgic about the old one. This tutorial examines the multifaceted city of Shanghai and its people from historical and cultural perspectives. We will look at the city's history (from the late nineteenth century to present day) its local language and culture, and everyday life of the people (including migrants and foreigners) living in it. The central ideas we will explore are "modernity" and "regional identity." We will investigate how these theoretical constructs play out in the making of the city of Shanghai and the formation of its unique local identity. Course readings include historical and cultural studies as well as documentaries in English about Shanghai, and primary sources in Chinese in a wide range of genres including fiction, essays, and films. (English translation of the primary sources are available for students taking the course in English). The course is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST 122T and students wishing to take the course in Chinese should register under CHIN 422T. Students will come away with an understanding of how China's regional cultures and one of its most important metropolitan cities. Chinese language learners will be able to improve their reading and writing skills in Chinese through this course. The course has a required field trip to a Chinese restaurant on a Saturday or Sunday, depending on all students' schedules.

**Class Format:** tutorial

**Requirements/Evaluation:** each tutorial pair will meet with the instructor for one hour per week, during which time we will discuss a 5-page paper that one of the partners has submitted.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none for students taking ASST 122T; CHIN 402 or permission of the instructor taking CHIN 422T

**Enrollment Preferences:** current or prospective Asian Studies, Chinese, or Japanese majors

**Enrollment Limit:** 10

**ASST 126 Musics of Asia (D)**

Crosslistings: MUS 112/ASST 126

This course offers an introduction to the great diversity of Asian music. Our survey will span from East Asia (China, Korea, and Japan) to Southeast Asia (Thailand and Indonesia) to the Indian subcontinent, Central Asia (Tibet and Afghanistan), to the Middle East (Iran and the Arabian peninsula), and will end with the extension of Asian music across North Africa and into Eastern Europe. Within this broad survey, we will focus on selected and representative musical cultures and genres. In each section of the course, aspects of cultural context (including music's function in religious life and its relationship to the other arts), will be emphasized. While our focus will be on the traditional and classical musics of these cultures, we will also briefly consider how the current world scene. Encounters with this music will include attendance at live performances when possible. This course satisfies the EID requirement by exploring how the diverse musical traditions of Asia are shaped by radically different religious beliefs and social norms and by demonstrating how Asian cultures can be understood through their musical traditions. Much of the music we will encounter presents aesthetics and cultural norms that differ radically from mainstream Euro-American cultural practices. To engage with these traditions students must attempt to place themselves within different cultural frameworks, to hear music that they may find shockingly foreign with a different set of ears.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** evaluation will be based on four tests and two papers

**Prerequisites:** none; no musical experience necessary

**Enrollment Limit:** 25

**Expected Class Size:** 20

**ASST 200 History of the Book**

Crosslistings: CLAS 200/ASST 200/HIST 392/REL 260/COMP 280

From ancient clay tablets, bamboo strips, and papyrus rolls to modern hardbacks, paperbacks, and e-readers, no object has so broadly and deeply represented the capacity for humans to create, preserve, and transmit knowledge, information, and ideas as the book. Books have been worshiped and condemned, circulated and censored, collected and destroyed. From works of art to ephemeral trash, they have been public and private, sacred and profane, magical and commonplace. Likewise, notions of the book have influenced every subsequent form of communication and transmission, whether we are browsing film and song "libraries" or "scrolling" down "pages" on the web. This course will explore aspects of the material, social, cultural, and intellectual history of the book, from the invention of the earliest writing systems through the modern development of digital media. Our inquiry will span the globe and the millennia; but we will pay particular attention to the history of the book in ancient and medieval Chinese, Greek, and Latin traditions and their enduring influence in the modern world. Topics will include orality and literacy, manuscript production, the invention and spread of printing, typography, reading culture, notions of authorship, libraries and collections, censorship, and the digital book. Through a variety of readings, hands-on exercises, and interactions with our abundant library resources, we will investigate how the changing form and function of the book interact across its long and diverse history. All readings are in translation.

**Class Format:** seminar

**Requirements/Evaluation:** class participation, short written assignments, and a final project

**Prerequisites:** none

**Enrollment Preferences:** none

**Enrollment Limit:** 25

ASST 217(S) Early Modern Japan

Crosslistings: HIST 217/ASST 217

Over a century of constant warfare came to an end in the late 1500s, ushering in more than two hundred years of relative peace in a Japan that was ruled by a military government. This course will take up the extraordinary changes and enduring continuities of the period between the establishment of the Tokugawa government in the early 1600s and its eventual collapse in 1868, an era characterized by societal order and tensions, economic growth and stagnation, the development of cities and towns, the flourishing of urban culture, the spread of new and different ideas, and the decline of the samurai. We will focus on the political, social, and cultural history of early modern Japan, including topics such as the establishment of the Tokugawa order, the nature of the political system, foreign relations, urbanization, popular culture, and material culture, the quality of life, legal order, gender and sexuality, and the fall of the Tokugawa government. Assigned materials will include government documents, intellectual treatises, autobiographies, literature, and films.

Class Format: seminar

Requirements/Evaluation: grading will be determined by class participation, two short essays, and a 15-page research paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

ASST 212 Modern Japan

Crosslistings: HIST 218/ASST 218

Stunning revolutions, the construction and collapse of an empire, the waging of wars, devastating defeat and occupation by a foreign power, and postwar economic recovery -- all ups and downs have marked Japan's modern experience. This course will explore how various Japanese from politicians and intellectuals to factory workers and farmers have understood, instigated, and lived the upheavals of the past century and a half. We will ask why a modernizing revolution emerged out of the ashes of the early modern order; how Japan's encounters with "the West" have shaped the country's political and cultural life; what democracy and its failures have wrought; how world war was experienced and what legacies it left in its wake; how national identity has been constructed and reconstructed; and how postwar Japan has struggled with the successes and costs of affluence. Materials will include
anthropological studies, government documents, intellectual tracts, fiction, films, and oral histories.

Class Format: lecture/discussion
Requirements/Evaluation: class participation, response papers, two short papers (5 pages), and a self-scheduled final exam or research paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none; open to all
Enrollment Limit: 40
Expected Class Size: 30

TUT Instructor: George Crane

ASST 219 Japanese Culture and History from Courtiers to Samurai and Beyond (D)

Crosslistings: HIST 219/COMP 229/ASST 219
This course will introduce students to the history, literature, and artistic culture of premodern Japan, from the time of the first recorded histories in the 800s through the absorption of the samurai class in the late 1800s. We will focus on the political and aesthetic culture of the ruling elite, and from the heyday of the imperial court through the rise and eventual decline of the samurai warrior and the growth of Edo (Tokyo), with its new mode of early modern government and new forms of literature, theater, and art. Team taught by faculty from History and Comparative Literature, the course will examine historical texts alongside works drawn from literature, visual culture, and performing arts, and will ask students to consider how these different kinds of texts can shed light on one another. What is the difference between reading history and reading literature, or is it even meaningful to distinguish the two? By critically engaging in various kinds of textual analysis, this EDI course not only considers the relationship between politics, culture, and society in modern Japan but also explores how we can attempt to know and understand different times and places. Primary texts will include court diaries, war tales, and fiction; laws and edicts; essays and autobiographies; noh, kabuki, and puppet theater; and tea ceremony, visual art, and architecture. Students should register under the prefix specific to the Division in which they want to receive credit.
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, response assignments, two short papers (approximately five pages each), and a final exam
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none; open to all
Enrollment Preferences: students majoring or considering a major in a related field
Enrollment Limit: 40
Expected Class Size: 30
Distribution Notes: meets Division 2 requirement if registration is under HIST or ASST; meets Division 1 requirement if registration is under COMP

ASST 220 The Monkey King: Transformation of a Legend

Crosslistings: COMP 219/ASST 220
The devious and irascible Monkey King, born of stone, defying all authority yet compelled to behave by a dubious Buddhist magic, is one of the most beloved figures of Chinese culture. This course will trace the transformation of the Monkey King legend from its origins in early representations of monkeys in folklore and a seventh-century Chinese monk’s arduous journey to India in search of Buddhist learning, through its maturation in the sixteenth century, and into works of the Asian diaspora in the U.S. We will examine textual and visual representations of the Monkey King in popular culture, folklore, and literature, to explore topics including ideas about conformity and individual autonomy, morality and law, and the cultural negotiations necessitated by travel and contact with people (or monkeys) of other civilizations.
Class Format: seminar
Requirements/Evaluation: 5 short (1-2 page) papers, a mid-term paper (4-5 pages), and a take-home final
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: comparative literature and asian studies majors
Enrollment Limit: 25
Expected Class Size: 12
Distribution Notes: meets Division 1 requirement if registration is under ASST

ASST 221 The Making of Modern South Asia: 1750-1950 CE

Crosslistings: HIST 221/ASST 221/GBST 221
This course focuses on the history of South Asia with the aim of providing an overview of the political and social landscape of the region from the end of the Mughal Empire through British colonial rule and the Partition of India and Pakistan. We will explore a range of themes including the rise of colonialism, nationalism, religion, caste, gender relations, and the emergence of modern social and political institutions on the subcontinent. In addition to reading key texts and historical primary sources on the specific themes, we will also work with a variety of multimedia sources including films, short stories and website content. One objective of this course is to introduce students to the different political and social processes that led to the creation of India, Pakistan and Bangladesh; another is to teach students to think critically about the significance of history and history writing in the making of the subcontinent.
Class Format: lecture/discussion
Requirements/Evaluation: class participation, response papers (2-3 pages), two short essays (4-5 pages), midterm and final exams
Prerequisites: none; open to all
Enrollment Limit: 40

ASST 222(S) History and Society in India and South Asia: c. 2000 to 1700s CE

Crosslistings: HIST 220/ASST 222
This course is an introduction to the history of India and South Asia from prehistoric times to the emergence of early modernity. During these centuries, the subcontinent emerged as one of the most diverse and complex regions of the world, as it continues to be even today. The course will cover the period between the rise of the Indus Valley civilization to the end of the Mughal Empire and will address topics such as the "discovery of India", the connect of the " Aryans", society and culture in the great epics like the Ramayana, the beginnings of Jain and Buddhist thought, politics and patronage under Islamic polities, the formation of Mughal imperial authority through art, architecture and literature, among others. Through the study of multiple sources, the course will focus on the diversity and connectedness that have defined the subcontinent throughout its history. It will also consider the role of history in the region and how a number of events from the past continue to inform its present.
Class Format: lecture/discussion
Requirements/Evaluation: class participation, response papers and presentation, 2 essays, a mid-term and a final exam
Prerequisites: none; open to all
Enrollment Preferences: none
Enrollment Limit: 40
Expected Class Size: 20-25

ASST 223(S) Spiritual Crossroads: Religious Life in Southeast Asia (D)

Crosslistings: ANTH 233/ASST 233/REL 253
No region of the world presents a richer tapestry of religious beliefs, practices, and institutions than Southeast Asia. Buddhism, Hinduism, Christianity and Islam are all to be found and all of them interpenetrate and contend with each other and with a deep undercurrent of animism, shamanism, and mystical folk belief systems. This course will survey these religious traditions through time and space, looking in particular at the growing tension between religion and the state as fundamentalism and religious military have spread into the region in recent times. All of Southeast Asia will be covered, but particular attention will be devoted to Indonesia, where religion and state, politics and culture all have roles in this story. For religious traditions, the course will focus on the diversity and connectedness that have defined the subcontinent throughout its history. It will also consider the role of history in the region and how a number of events from the past continue to inform its present.
Class Format: seminar
Requirements/Evaluation: midterm, short essays, term paper
Prerequisites: none; open to non-majors
Enrollment Limit: 19
Expected Class Size: 15

ASST 243 Red Chamber Dreams: China’s Greatest Novel as Literature and Legacy

Crosslistings: COMP 245/ASST 243
The eighteenth-century novel Dream of the Red Chamber, also known as Story of the Stone, is widely regarded as China’s greatest novel due to the intricacy of its narrative and the sophistication with which it deals with themes as varied as romance, enlightenment, sexuality and gender identity, and the construction of public and private spaces. We will read the novel through a variety of critical approaches, addressing it both as a work of literature and as a cultural phenomenon.
Class Format: seminar
Requirements/Evaluation: three 2-page papers, one 5-page paper, and a final 6-to-7-page paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: COMP majors, then ASST majors
Enrollment Limit: 25
Expected Class Size: 20
ASST 244(F) Mind and Persons in Indian Thought

Crosslistings: REL 244/ASST 244

In this course, we follow the conversations among Indian philosophers concerning the self and the attainment of consciousness. We start with some of the Hindu views about the self and the mind and consider their ethical implications. We then consider a range of Buddhist critiques of these views, focusing more particularly on the Madhyamaka philosophy, which radicalizes the critique of the idea of an independent self. We then examine the Yogacara school, which offers a process view of reality focusing on the analysis of experience. We conclude by considering some of the later Hindu and historical commentary and responses to the Buddhist critique. In this way we come to realize that far from being the irrational foil of "the West," Indian tradition is a rich resource for thinking through some of the central ideas that have challenged philosophers in both traditions.

Class Format: lecture/discussion

Requirements/Evaluation: full attendance and participation, three short essays (6 pages)
Prerequisites: prior exposure to Buddhism or philosophy, or permission of instructor
Enrollment Preferences: selection based on the basis of relevant background
Enrollment Limit: 18
Expected Class Size: 18

ASST 245T Nationalism in East Asia (D)

Crosslistings: PSYC 245/ASST 245/IST 318

This tutorial examines the theoretical literature on nationalism, and then uses insights from those readings to study of the emergence and development of modern nationalist movements and national identities in China, Japan, Korea — both South and North — and Taiwan. It is an Exploring Diversity Initiative course and, as such, engages in explicit and critical cross-cultural comparisons, asking how theories of nationalism developed largely from European history might need to be revised when applied to East Asia, and how experiences of nationalism and expressions of national identity vary within East Asia.

Class Format: tutorial
Requirements/Evaluation: five 5-page papers and five 2-page critiques
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Political Science and Asian Studies majors
Enrollment Limit: 10
Expected Class Size: 10

ASST 246T(F) India’s Identities: Reproducing the Nation, Community and Individual (D) (W)

Crosslistings: REL 246/ANTH 246/WGSS 246/ASST 246

This course considers India's contradictory legacy as a booming Asian democracy and fragile society built upon deep and enduring divisions. Why is India's growing population so often described in terms of multiple identities or fragmenting oppositions — Hindu/Muslim, rich/poor, high caste/outcaste, male/female? Why have the historic roots and ongoing causes that produce structural violence around these axes of difference? We pay particular attention to key moments (Partition, communal riots in Gujarat in 2003, Hyderabad in 1990, Delhi in 1984), and places (Punjab, Bengal, Jammu & Kashmir) for our analysis of how religion, gender, and caste intersect to produce a landscape of communal violence, social hierarchy, and fragmented subjectivity in India today. We are as interested in discourses and practices that shore up these binaries as well as the third terms that attempt to transcend or diffuse them. For instance, we look at how Buddhism is and is not a middle path between Hindu-Muslim conflict in Indian Kashmir. Our course readings include ethnographic, sociological, and historical analyses, as well as oral histories and popular media. This course fulfills the Exploring Diversity Initiative by the theorizing the cultural and political significance of these readings and analysis have been used to effect profound historical & social changes in India.

Class Format: tutorial
Requirements/Evaluation: weekly writing assignments and tutorial attendance every week
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: majors in Anthropology and Sociology, Religion, Asian Studies, or Women’s, Gender & Sexuality Studies

ASST 247 Tibetan Civilization (D)

Crosslistings: REL 245/ASST 247

Often depicted as Shangri-la, a mythical and ideal country, Tibet has had the unfortunate focus of Western fantasies. One cannot but wonder about the motives and sources of this mythology. Although this course examines these representations, its main focus is an immersion in the complex and historical Tibet of Tibetan civilization, which give students the tools with which to understand Tibetan culture from the inside. As such this course is part of the Exploring Diversity Initiative. We first consider the early history of Tibet, the introduction of Buddhism, the relations between Buddhism and the indigenous religion, and some of the stages in the development of Tibetan Buddhism. We also examine the historical developments that led to the development of the institutions (such as the Dalai-Lama) unique to Tibet and some of the aspects of the culture that these institutions helped to create (such as gender roles, family structure and social stratification). Finally, we consider the more recent tragic events and examine the profound transformations that they have brought. Throughout the course, we consider the central role of the complex interaction between Buddhism and politics in Tibetan history, both in the pre-modern period and in more recent times, when the Tibetans have faced the challenge of how to use their institutions and culture to resist oppression. In this way, we get a feeling in the Tibetan world, and the indispensable assessment of Western representations of Tibet becomes not just an exercise in self-representation but also a gate to a better understanding of a remarkable but tragically threatened civilization. This course, which explores in depth Tibetan cultural and the tragic cross-cultural misunderstandings that threaten its integrity, is part of the Exploring Diversity Initiative.

Class Format: lecture/discussion
Requirements/Evaluation: full attendance and participation, three 6-page essays
Prerequisites: none
Enrollment Limit: 30
Expected Class Size: 30

ASST 248 Body Politics in South Asia: Gender, Sex, Religion, and Nation (D) (W)

Crosslistings: REL 248/ASST 248/ANTH 248/WGSS 249/GBST 248

This course examines the relationship between body, gender, sex, and society in South Asia. Using three countries and religions—India, Sri Lanka, and Bangladesh—and Buddhism, Hinduism, and Islam—as its foil, the course uses the body as a lens by which to unpack South Asian discourses that link body and sexuality with nation, community, and population. In particular, it explores a South Asian sociology that links individual and social bodies in ways that occasion solidarity as well as social suffering, violence as well as communal cohesion. How do bodies come to signify the purity or prosperity of the nation or community and with what social or discursive effects? We begin by unpacking foundational theories of the body as proposed by Mauss, Foucault, Douglas, and Bourdieu in order to better understand how local discourses of the body help produce gender and other social hierarchies in South Asia. By considering how the human body can serve as a map for society and vice versa, we examine both classical discourses and modern institutional practices of the body including the temple, the monastery, the mosque, and the mendicant, as well as bodily practices such as yoga, celibacy, sex work, and new reproductives technologies. We also analyze how the body has served as a symbol of nation, community, and social health. Throughout, we are interested in the cross-cutting effects of gender and sex in perpetuating structural hierarchies and social suffering among the body in South Asia.

Class Format: lecture
Requirements/Evaluation: the course has weekly writing, more than 20 pages total, and there is student-faculty feedback every week including a week dedicated to a one-one writing feedback session between student and instructor
Prerequisites: none
Enrollment Preferences: majors in Religion, Women’s, Gender and Sexuality Studies, Asian Studies and Anthropology/Sociology

ASST 250(F) Scholars, Saints and Immortals: Virtue Ethics in East Asia (D)
Crosslistings: REL 250/ASST 250
In East Asian cultures, as in the United States, popular conceptions of morality typically take their shape, not from explicit rules, but from moral paragones that are idealized virtues that are said to embody a distinct cluster of virtues. For example, American Christians invoke not only Jesus, but also a pantheon of “secular saints” as diverse as Martin Luther King Jr. and General Patton, George Washington and Cesar Chavez. This course will explore the cultural productions of moral paragones, as part of how societies manage difference and articulate hierarchies of privilege and power.
Class Format: lecture/discussion
Requirements/Evaluation: in-class participation, short writing assignments, midterm, and a self-scheduled final exam
Prerequisites: none
Enrollment Preferences: Religious Studies and Asian Studies majors
Enrollment Limit: 30
Expected Class Size: 20

ASST 251 Zen Buddhism: History and Historiography
Crosslistings: REL 251/ASST 251
Because mystifying references to Zen are strewn throughout American popular culture—from episodes of the Simpsons to names of perfumes and snack foods—most Americans have an image of Zen Buddhism that is disconnected from anything actually practiced in East Asia. This course offers a corrective to this image by familiarizing students with both the history of Zen and the historiographical roots of these popular perceptions. This course will explore the origins of Zen (Ch’an) in China, trace its transmission to Japan, and cover its development in both cultural contexts. It will conclude with an examination of Zen’s unique role in American popular culture. The course will enrich the conventional image of Zen by addressing its involvement with power and governance, gods and demons, mummies and sacred sites, sex and violence, nationalism and scholarship.
Class Format: lecture/discussion
Requirements/Evaluation: participation in class discussion, short response papers (2-3 pages), a mid-term exam, and a take-home final exam

ASST 253(S) Love and Death in Modern Japanese Literature (D)
Crosslistings: COMP 255/ASST 253
One thing that surprised many first-time readers of modern Japanese fiction is its striking similarity to Western fiction. But equally surprising are the intriguing differences that lie concealed within that sameness. This course investigates Japanese literature and compares it with our own by reading Japanese fiction and asking how the universal human experiences—love and death—and asking what inflections Japanese writers give these ideas in their work. The course begins with tales of doomed lovers that were popular in the eighteenth-century kabuki and puppet theaters, and that still feature prominently in Japanese popular culture, from comics to TV dramas. From there we move on to novels and films that examine a range of other relationships between love and death, including parental love and sacrifice, martyrdom and love of country, sex and the occult, and romance at an advanced age. We will read novels and short stories by canonical modern authors like Tanizaki, Kawabata, and Mishima as well as more contemporary fiction by writers like Murakami Haruki; we will also look at some visual literature, including puppet theater, comics, animation, and Japanese New Wave film. The class will be conducted in English.
Class Format: seminar/lecture/discussion
Requirements/Evaluation: attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project
Extra Info: may not be taken on a pass/fail basis

ASST 254 Beauty, Danger, and the End of the World in Japanese Literature
Crosslistings: COMP 264/ASST 254
From the endemic warfare of the medieval era to the atomic bombing and the violent expansion of Eurocentrism in the late last century, the end of the world is an idea which has occupied a central place in almost every generation of Japanese literature. Paradoxically, the spectacle of destruction has given birth to some of the most beautiful, most moving, and most powerfully thrilling literature in the Japanese tradition. Texts may be drawn from medieval war narratives such as The Tale of the Heike; World War II fiction and films by Isse Masuji, Imamura Shôhei, and Ichikawa Kon; fantasy and science fiction novels by Abe Kôbô, Murakami Haruki and Murakami Ryû; and apocalyptic comics and animation by Oshii Mamoru, Ôtomo Katsuhiro, and others. The class and the readings are in English; no familiarity with Japanese language or culture is required.
Class Format: lecture/discussion
Requirements/Evaluation: in-class exam, ungraded creative project, and a few short response assignments, plus two 5- to 7-page papers emphasizing original, creative readings of the literary texts
Prerequisites: none; open to all
Enrollment Limit: none
Expected Class Size: 15

ASST 255(F) Buddhism: Ideas and Practices
Crosslistings: REL 255/ASST 255/ANTH 255
This course introduces students to Buddhism by examining its ideas and practices as they have taken place in actual social contexts rather than as disembodied textual objects. After examining the main ideas and narratives of the tradition, we turn our attention to Thailand where we examine how these ideas and narratives have shaped a whole range of practices, from meditation to Shamanistic rituals. We then consider the transformations that Buddhism is undergoing in contemporary society, examining the rise of meditation movement, the changing role of monks and laity, the resurgence of the nun order, the rise of Buddhist social activism and the development of new Buddhist social philosophies. We ask questions such as: How can Buddhism adapt to a modern global consumerist society? What are the transformations involved in this process and the role that Buddhism can play in such a global society? Should Buddhists take advantage of the opportunities of this new global culture or should they adopt a critical stance toward its consumerist values?
Class Format: lecture/discussion

ASST 256 Engendering Buddhism: How Women and Men Shape and Are Shaped by Buddhism (D) (W)
Crosslistings: REL 256/WGSS 256/ANTH 256/ASST 256
This course looks at how gender has shaped Buddhism as well as how Buddhism has shaped gender. Most generally, it considers the myriad ways that Buddhist soteriology and practice produce the very gender differences they purport to overcome. How have the Buddha and his far-flung disciples transformed gender in spite of their putative goal of transcending duality? We examine the varying experiences of women and men in Buddhist societies and literatures as a lens by which to analyze the pervasive operation of social and gender hierarchies. Last but not least, we discuss the ways in which women and men in America revisions of Buddhism have transformed gender and other forms of difference. Our analysis revolves around several interdependent themes. (1) How do female and male bodies become the subject of a specific set of Buddhist gazes? What does Buddhist discourse say about the possibility of gaining enlightenment in the female body? (2) How do gender divisions reflect deeper social divisions such as...
class and race in Buddhist discourse? (3) How have feminist deconstructions of Buddhism transformed gender and social hierarchies in the contemporary world? This course fulfills the Exploring Diversity Initiative by seeking to theorize the ways that Buddhism has produced and reinscribed gender differences and social hierarchies.

ASST 266(F) Confession and Deception in Japanese Literature Crosslistings: COMP 266/ASST 266

Situated at the origins of Japanese literature are the beautiful and revealing diaries of ladies in waiting at the tenth-and-eleventh-century court. Yet one of the most famous of these women turned out to be a man. For the next thousand years, Japanese literary tradition would place a premium on confessional writing, but the distortions and concealments of these narrators (and the authors hiding behind them) would always prove at least as interesting as the revelations. This course examines several centuries of Japanese literature to ask whether you can ever put your true self into writing; along the way I will ask you what you reveal, conceal, discover, or reinvent about yourself when you write about literature for a class like this. Texts will range from classical and medieval court literature by Sei Shônagon and Lady Nijô, through autobiographical and confessional novels by Sôseki, Tanizaki, Mishima, and Abe Kôbô, to documentary and subculture films like The New God and Kamikaze Girls. The class and the readings are in English; no familiarity with Japanese language or culture is required.

Class Format: seminar

Requirements/Evaluation: attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project

ASST 270(S) Japanese Art and Culture (D)

Crosslistings: ARTH 270/ASST 270

This course is a survey of traditional Japanese painting, sculpture, architecture, woodblock prints, and decorative arts. Special attention will be paid to the development of pictorial techniques and subject matter in the works of contemporary cultural phenomena. Through visual analysis students learn the aesthetic, religious, and political ideals and cultural meanings conveyed in the works of art. Course highlights include the transmission of Buddhism and its art to Japan; Zen Buddhism and its art (dry gardens; temples; and tea ceremony related art forms) in the context of samurai culture; the sex industry and kabuki theater, their art, and censorship; and the Western influences on Japanese art and culture and vice versa, (Japanese woodblock prints' impact on Impressionist and Post-Impressionist paintings, for example). As an EDI course, this course also helps acquire skills in cultural critique, especially when considering the interconnectedness between Japan and other cultures, both Eastern and Western, throughout its history.

Class Format: lecture/studio

Requirements/Evaluation: three 30- to 40-minute quizzes, two short papers, film screening, class attendance

ASST 271 Erotic, Grotesque, Sublime: Ghosts and Monsters in East Asian Religion and Popular Culture Crosslistings: REL 271/ASST 271/COMP 279/WGSS 279

“Ghosts and monsters” (Chinese yaoguai, Japanese yokai, Korean yoge)

have long figured prominently in East Asian cultural history. In medieval East Asian chronicles, wrathful demons attacked the imperial palace, ghosts haunted abandoned temples, and shape-shifting foxes infiltrated the bedrooms of royal concubines. These creatures persisted into the modern era when nineteenth century tabloids reported the existence of demon-foxes, human-animal hybrids, and other supernatural entities. In the latter half of the nineteenth century, monsters began crossing over into the realm of fiction, and Japanese, Chinese, and Korean popular novels and films continue to crawl with images of traditional dark beasts. The opening contention of this course is that ghosts and monsters signify the “normal” as it is constructed in a given culture and time period—they often come to represent transgressions of nature, gender, sexuality, race, morality, or subvert distinctions such as those between human and animal, man and woman, animate and inanimate, present and past, and living and dead. This course will analyze East Asian ghosts and monsters in their historical cultural context, thinking about how they come to embody particular cultural fears and desires. We will use a range of East Asian materials in translation—including okotoks, medieval bestiaries, short stories, and films, alongside a heavy dose of theory including works by feminist scholars Julia Kristeva, Itaka Quindeau, Susan Sontag and various others who attempt to understand the monstrous and the uncanny. Students will undertake an extended research project on a ghost or monster tale they find fascinating and locate it in its broader cultural context. Doing so will put you in a position to explore central themes, such as the connection between the grotesque and the erotic, the cultural performance of gender, the social construction of illness, the trauma of memory, the commodification of the supernatural, and the boundaries of the human.

ASST 274(S) Chinese Calligraphy: Theory and Practice Crosslistings: ARTH 274/ASST 274/ARTS 274

Beginning in the fourth century, Chinese calligraphy has remained one of the highest art forms in China and in East Asia generally, practiced by the literati, or highly erudite scholars. This course has two components: art history and studio practice. The first offers students an opportunity to acquire an understanding of the theoretical and aesthetic principles of Chinese calligraphy. It also examines the religious, social, and political functions of Chinese calligraphy in ancient and contemporary China. Students will also have an opportunity to investigate contemporary artists, both Eastern and Western, whose works are either inspired or influenced by Chinese calligraphy, and those whose works are akin to Chinese calligraphy in their abstraction. Studio practice allows students to apply theories to creating beautiful calligraphy (from Greek kallos “beauty” + graphe “writing”). This course can be taken as either an Art History or a Studio Art course.

Class Format: lecture/studio instruction

Requirements/Evaluation: one midterm, one short paper, oral presentations, participation in class discussion, a final project (artistic or scholarly), class attendance, film screening

ASST 284 Introduction to Asian American History (D) Crosslistings: HIST 284/ASST 284/ASST 284

This course serves as the introduction to Asian American history, roughly covering the years 1850 to the present. It examines the lives of Chinese, Japanese, Koreans, Filipinos, Indians, and Southeast Asians in America, and the historical conflicts that they came to face due to their status as foreigners. It examines interactions with other ethnic-racial groups in the United States. Topics include the anti-Asian exclusion movements, the wartime incarceration of Japanese Americans, the increase of Asian immigration after the 1965 Immigration Act and the war in Vietnam, and the impact of the events of September 11, 2001 on Asian American communities. These themes and others will be explored through the use of historical texts, primary documents, novels, memoirs, and films. This is an EDI course because it examines how people from different Asian countries and cultures interacted with each other and those already here in the US. Theirs is a story of immigration, exclusion,
resistance, accommodation, and the process of "becoming American."

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based on four response papers, two short critical essay (5-7 pages) and a final oral history/family history of an Asian American (10-15 pages)

Prerequisites: none; open to all

Enrollment Limit: 40

ASST 286 Japanese Popular Visual Culture

Crosslistings: COMP 286/ARTH 286/ARTH 586/ASST 286

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, print culture, animation (Oshi, Miyazaki, Kurosawa), manga/comics (Tezuka, Otomo, Okazaki), and (Oshi, Miyazaki, Kurosaki). We will focus on developing visual reading skills to come up with original interpretations of these works, and on comparing different media to make them shed light on one another.

ASST 319(F) Gender and the Family in Chinese History (D)

Crosslistings: HIST 319/WGSS 319/ASST 319

Although sometimes claimed as part of a set of immutable "Asian values," the Chinese family has not remained fixed or stable over time. In this course, we will use the framework of "family" to gain insight into gender, generational, and sexual roles in different historical periods. Beginning in the late imperial period (16th-18th Centuries), we will examine the religious, marital, sexual, and child-related practices associated with the "orthodox" Confucian family. We will then explore the wide variety of "heterodox" practices in imperial China, debates over and critiques of the family system in the twentieth century, and configurations of gender and family in contemporary China. As an EDI course, this class makes use of anthropological and gender studies methods to analyze both the specificities of Chinese ideas and practices regarding family, gender and sexuality as well the considerable variety among these ideas and practices at different points in time.

Class Format: discussion

Requirements/Evaluation: evaluation will be based on class participation, several short papers, and a final paper

Extra Info: not available for the fifth course option

Prerequisites: none; open to first year-students with instructors permission

Enrollment Limit: 25

Expected Class Size: 20

Distributional Requirements: Division 2, Exploring Diversity

ASST 321(F) History of U.S.-Japan Relations (D)

Crosslistings: HIST 321/ASST 321

An unabating tension between conflict and cooperation has been an undercurrent of U.S.-Japan relations for over 150 years, at times erupting into clashes reaching the scale of world war and at times allowing for measured cooperation. We will examine the U.S.-Japan relationship from the perspectives of both countries with a focus on how culture, domestic concerns, economic and political aims, international contexts, and race have helped shape its course and nature. This course will fulfill the requirements of the Exploring Diversity Initiative by examining not just the dichotomous relationship between the U.S. and Japan, but also how various types of interactions have influenced the dynamics of power between these two countries. We will have shared readings in which each country is understood and portrayed by the other. Topics will include early U.S.-Japan encounters; the rise of both countries as imperial powers; the road to, and experience of, World War II; the politics and social history of the postwar American occupation of Japan; the U.S.-Japan security alliance; trade relations; and pop culture. Content will also be discussed.

Class Format: lecture/discussion

Requirements/Evaluation: evaluation will be based on class participation, response papers, two short papers (5 pages), and a self-scheduled final exam or research paper

Prerequisites: none; open to first-year students with instructors permission

Enrollment Limit: 25

Expected Class Size: 25

Distributional Requirements: Division 2, Exploring Diversity

Other Attributes: ASST East Asian Studies Electives, HIST Group B Electives - Asia, HIST Group P Electives - U.S. + Canada, MAST Interdepartmental Electives

ASST 337 Zen and Philosophy: The Kyoto School and its Legacy in Japanese Thought

Crosslistings: REL 337/ASST 337/COMP 337

Popularly regarded as the most important philosophical movement in modern Japanese history, the Kyoto School creatively marshaled the resources of Buddhism to address the impasses of Western philosophy to starting effect. Although the members of the Kyoto School were not all of one mind, their shared aims were ambitious: to bridge the dualism between subject and object, to overcome nihilism, to explore the implications of absolute nothingness, and to surmount what they saw as the chasm between Japanese and European thought. After providing some brief background in Japanese Buddhism, we will read the writings of the core thinkers of the Kyoto School: Nishida Kitaro, Tanabe Hajime, Nishitani Keiji, and some of their later protégés. Thematically, we will explore issues in ethics, epistemology, phenomenology, metaphysics, and the philosophy of religion; and demonstrate the continued relevance of their insights in these areas. Finally, we will reflect on the group’s engagement with Japanese nationalism. All readings will be in translation.

Class Format: seminar

Requirements/Evaluation: regular participation and attendance, regular reading assignment, and 1-2 short papers (5 pages each)

Prerequisites: none, but previous coursework in Religion, Comparative Literature, Political theory, and/or Philosophy is strongly recommended

Enrollment Preferences: Religion, Asian Studies, and Comparative Literature majors

Enrollment Limit: 15

Expected Class Size: 15

Distribution Notes: meets Division 2 requirement if registration is under REL or ASST; meets Division 1 requirement if registration is under COMP

ASST 341 Caste, Race, Hierarchy (D)

Crosslistings: ANTH 341/AFR 341/ASST 341/GBST 341

Caste in India looms large in global social thought as a kind of benchmark against which all other world’s are measured. This prominence has much to do with British colonial ideologies of rule, but it also has a deeper and different history: the Buddha compared caste to Greek slavery, early modern Jesuits related it to the system of European estates, and since the nineteenth century, anticolonial radicals from Dalit, or "untouchable," backgrounds have drawn a sustained comparison between the forms of oppression they face and those with which African Americans contend in the United States. Reciprocally, thinkers from W.E.B. DuBois to Toni Morrison have deployed the category of caste in their writings on race. What can the study of caste in postcolonial South Asia contribute to global debates over the persistence of "traditional" forms of social hierarchy? What are the stakes of bringing caste and race into the same conversation, and what are the implications of refusing to do so? In this seminar, we will acquire a thorough grounding in the anthropological literature on caste and then investigate the politics of the caste-race comparison over the last hundred years. Assignments include weekly postings of 1-page critical response papers and either a research paper or an interview-based, ethnographic final project examining "caste" in one's own community. In its engagement with
cultural history of our various communities, and in its critical theorization of the
commensurability (or not) of distinctive systems of inequity, the course
fulfills the EDI requirement.
Class Format: seminar
Requirements/Evaluation: weekly postings of 1-page critical response
papers and research paper or ethnographic final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth
course option
Prerequisites: none

ASST 347 Tribe and State on the Afghan-Pakistan Border
Crosslistings: ANTH 347/ASST 347
One of the major challenges President Obama will face in his first term in
office involves the perilous situation on the border between Afghanistan and
Pakistan. While the problems in the region are generally framed in relation to
Islamic extremism, the more fundamental issue is the failure of the Afghan
and Pakistani governments to exercise control over the tribes that occupy the
mountainous frontier. This course will look first at the history of the Afghan
and Pakistani states and of the Pashtun and Baluchi tribes that are part of,
yet independent from the states that surround them. We will go on to consider
the role of Islam as a political force in the region, with particular emphasis on
the ways in which outside religious groups, most recently al-Qaeda, have
managed to gain a foothold in the borderlands, despite the historic resistance of the tribes to outsiders of any kind. The course will also examine the efforts of,
first, the Soviet Union in the 1980s and, more recently, the United States and
its allies to control the borderlands, and we will conclude with a
consideration of the geopolitical implications if Afghanistan and Pakistan
prove in the end to be “failed states.” Readings will include theoretical discussions of tribe/state relations, British and Soviet era accounts of the
frontier (non-fiction and fiction), ethnographies of tribal societies, and
contemporary studies.
Class Format: seminar
Requirements/Evaluation: class participation, short response papers, research paper, and final exam
Prerequisites: none; open to first-year students
Enrollment Preferences: Anthropology and Sociology majors
Enrollment Limit: 25
Expected Class Size: 20-25

ASST 376 Zen Buddhist Visual Culture: The Path to Nirvana (W)
Crosslistings: ARTH 376/ASST 376/REL 252
This course is about the cultural phenomena in which images are produced, viewed, and
used in the Zen Buddhist tradition. It explores the various ways in which
visual culture is a key part of Zen Buddhist teaching in China and Japan. In this
class we will look at both high art and popular expressions of Zen.
Buddhist visual culture. Topics of interest include: 1) Buddhist image making and
icon worship; 2) Gardens; 3) tearooms, tea ceremony and tea bowls; 4)
The Zen temples Ryoan-ji, Daisen-in, and Daitoku-ji; 5) The political function of
Zen and its art in Japan’s samurai culture; 6) The popular Zen Buddhist
cult of Bodhidharma Avalokiteshvara and his gender transformation; and 7)
Daruma (Bodhidharma) imagery in popular culture. This course is a CRAAS
(critical reasoning and analytical skills) course. The class format also offers
students opportunities to practice public speaking and writing skills.
Class Format: lecture/class discussion
Requirements/Evaluation: class discussions and participation; oral
presentations, short papers; and a research paper
Enrollment Preferences: sophomores, juniors and seniors
Enrollment Limit: 10
Expected Class Size: 8
Distribution Notes: meets Division 1 requirement if registration is under
ARTH/ASST, meets Division 2 requirement if registration is under REL

ASST 384(F) Selected Topics in Asian American Studies (D)
Crosslistings: HIST 384/ASST 384

This course explores Vietnam's twentieth century wars, including an anti-
colonial war against France (1946-1954), a massive Cold War conflict
involving the United States (1965-1973), and postcolonial confrontations with
China and Cambodia in the late-1970s. Course materials will focus primarily on
Vietnam's domestic politics and its relations with other countries. Lectures,
readings, films, and discussions will explore the process by which Vietnam's
anti-colonial struggle became one of the central conflicts of the Cold War, and
examine the ramifications of that fact for all parties involved. The impact of
these wars can hardly be overstated, as they affected the trajectory of French
decolonization, altered America's domestic politics and foreign policy,
invigorated anti-colonial movements across the Third World, and left Vietnam
isolated in the international community. Students will learn a number of
scholarly texts, primary sources, memoirs, and novels to explore everything from
high-level international diplomacy to personal experiences of conflict and
dramatic social change wrought by decolonization and decades of warfare.
Class Format: lecture
Requirements/Evaluation: class participation, several short papers, and a
10- to 12-page final paper
Prerequisites: none; open to all
Enrollment Preferences: History and Asian Studies majors
Enrollment Limit: 25
Expected Class Size: 15-20
Distributional Requirements: Division 2
Not Offered Academic Year 2018
SEM Instructor: Scott Wong

ASST 391 When India was the World: Trade, Travel and History in the
Indian Ocean (D)
Crosslistings: HIST 391/ASST 391/GBST 391

What do the ruins of Ben Yiju, a Jewish merchant from 11th century Yemen, Ibn
Batutah, a Muslim scholar from 15th century Morocco and Captain Kidd, a
17th century English pirate have in common? All three men travelled
and lived in the Indian Ocean region! This course explores the history of one of the
world’s oldest maritime highways that has connected the diverse cultures of
Asia, Africa and Europe for millennia, thus making it a vital element in the
birth of globalization. Moving away from conventional land-centric histories,
we will focus instead on understanding the human past through oceanic
interactions. South and Southeast Asian ports and cities remained the fulcrum of the Indian
Ocean world throughout its history; traders, travellers, nobles, scholars, pilgrims and pirates from all over the world travelled to the Indian
coast in search of adventure, spices, knowledge and wealth. Thus we will
primarily focus on the Indian Ocean roughly from the rise of
Islam in the seventh century CE through the expansion of various European
communities in the region and the subsequent rise of the global economy
and colonialism in the nineteenth century. Rather than following a strict
temporal sequence, we will explore the various cultural interactions that
shaped the region, with special attention to trade and exchange; trust and friendship; religion and society; pilgrimage;
piracy; the culture of port cities; and food across time.

**Class Format:** seminar

**HIST 413T (F) History of Taiwan (W)**

**Crosslistings:** HIST 481/ASST 413

Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation; an "invaluable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. The goal of the course is neither to debate nor resolve the "Taiwan question," but to explore the history and historical arguments that inform it.

**Class Format:** tutorial

**Requirements/Evaluation:** weekly papers and critiques

**HIST 414 Merchant Cultures and Capitalist Classes in China and India**

**Crosslistings:** HIST 414/ASST 414

As the expression "Chindia" in the title of a recent book suggests, contemporary commentators find it difficult to resist conflating the rise of China and India as economic powers in the early 21st century. There are, however, both significant parallels between the two national histories and important distinctions that shape their contemporary viewpoints and futures. This seminar will examine various historical dimensions of entrepreneurial activity in China and India from the early modern period through the twentieth century. It will focus on topics such as indigenous forms of merchant organization, the impact of nineteenth-century imperialism, the adoption of Western business forms and methods, and the relationship of entrepreneurial elites to the modern state.

**Class Format:** seminar

**Requirements/Evaluation:** evaluation will be based on participation in discussion, several short papers, a literature review, and a final research paper

**Prerequisites:** upper division work in History or Asian Studies

**Enrollment Preferences:** advanced History and Asian Studies majors

**Enrollment Limit:** 15

**Expected Class Size:** 10-15

**Distributional Requirements:** Division 2

**Other Attributes:** HIST Group B Electives - Asia

**Not Offered Academic Year 2018**

**SEM Instructor:** Anne Reinhardt

**HIST 415 Gods and Kings: Historical Narratives from India (W)**

**Crosslistings:** HIST 415/ASST 415/COMP 415

India's long history with earliest written records going back to 2000 B.C.E. presents multiple challenges that are unique among the ancient civilizations. The critical challenge is conceptual: how do we recognize the historical sense of societies whose past is recorded in ways that are different from European conventions? British rulers claimed that India had no sense of history before the colonial period. And this view has persisted despite research that has undermined the factual and conceptual basis of this theory. The purpose of this course is two fold: first, to discuss the analytical methods one could apply to understand the 'history' contained in the diverse body of classical Indian literature; second, to study a representative set of primary sources that belong to the distinct historical traditions of India. Students will learn to apply these methods to gain new insights and debate the limitations of the approach. The course will begin with an exploration of the epic tradition and continue with in-depth readings of narratives from other important genres including popular bardic accounts, royal biographies and court dramas ranging from c. 1000 BCE to 1500 CE.

**Class Format:** seminar

**Requirements/Evaluation:** class participation, several short papers and a substantial final paper based on primary sources

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** some experience with HIST courses preferred

**Enrollment Preferences:** History majors; Comp lit majors; Asian Studies Majors

**Enrollment Limit:** 15

**SEM Instructor:** Jessica Leight

**ASST 465 War and Remembrance in Vietnam (W)**

**Crosslistings:** HIST 465/ASST 465

This seminar, which includes a required spring break field trip to Vietnam, examines how that country's twentieth century wars for independence have been remembered, memorialized, and represented by the Vietnamese state, by citizens and scholars, and by the ever-growing number of international tourists who visit Vietnam each year. All class members are eligible to participate in the spring break field trip to Vietnam. Leading up to the trip, students will read a number of scholarly works on war and memory that will prepare them to think critically and knowledgeably about the representations of Vietnam's recent past that they encounter inside the country's borders. Students will consider the following questions: What factors influence representations of war in Vietnam? What cultural assumptions underlie them? What political, social, or economic purposes might they serve? How do official memorials in state-run museums and monuments differ from other perspectives? How do Vietnamese memories and representations of the Vietnam Wars differ from American memories and representations, and for what reasons? These questions will serve as the basis for a research paper or final project on one aspect of war and remembrance in Vietnam that students will complete during the second half of the semester, based in part on observations recorded during the trip.

**Class Format:** seminar

**Requirements/Evaluation:** class participation, several short writing assignments, and a substantial final research paper or other approved final project

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** History and Asian Studies majors; students with prior coursework related to the Vietnam Wars

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Dept Notes:** this course can only accommodate 10 students due to the required field trip to Vietnam, funded by the Global Initiatives Fund

**Distributional Requirements:** Division 2, Writing Intensive

**Other Attributes:** HIST Group B Electives - Asia, HIST Group P Electives - U.S. + Canada

**Not Offered Academic Year 2018**

**SEM Instructor:** Jessica Chapman

**ASST 486 The Pacific War in Japanese Historical Memory (W)**

**Crosslistings:** HIST 486/ASST 486

Almost seven decades after Japan's surrender, the enduring question of how to best remember the Pacific War continues to provoke controversy within both Japan and between Japan, South Korea, and China. This tutorial will explore how this difficult past has been remembered in postwar Japan, and how and why these memories have changed from 1945 to the present. Our focus will be on certain sites of memory—museums, shrines, literature, textbooks, and films—and how they have expressed and shaped memories of various aspects of the war from the atomic bombings of Hiroshima and Nagasaki to military conflict women and the Nanjing massacre. Key issues include how various Japanese have tried to make sense of death and personal sacrifice in the name of a lost war; the implications of Japan's unique position as both...
perpetrator of wartime atrocities and victim of atomic bombings; the relationship between memory and nationalism; and what it means to come to terms with pasts contested both within and between countries. Class Format: tutorial; students will meet with the instructor in pairs for an hour each week; a student either will write and present orally a 5- to 7-page essay on the assigned readings or be responsible for offering an oral critique of the work of their partner; Requirements/Evaluation: students will be evaluated on these essays and critiques, and there will be a final paper (12-15 pages) on the themes of the course; Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option; Prerequisites: none; open to all; Enrollment Preferences: History and Asian Studies majors, and then to students who have taken courses in History or Asian Studies; Enrollment Limit: 10; Expected Class Size: 10; Distributional Requirements: Division 2, Writing Intensive; Other Attributes: HIST Group B Electives - Asia; Not Offered Academic Year 2018; TUT Instructor: Eiko Sinaiwer

ASST 488(T) Gandhi: Nationalism, Philosophy, and Legacy (D) (W) Crosslistings: HIST 488/ASST 488/GBST 488/REL 388 This course studies the work and ideas of M.K. Gandhi (1869-1948, one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspects of everyday human behavior and morality: truth, vegetarianism, sex and family, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. The tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the nature of Gandhian nationalism? Did it help to integrate the Indian nation? How, if at all, was shaped by Gandhi's engagements with moral philosophy and human behavior? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action? Class Format: tutorial; students will meet with the instructor each week for one hour sessions in pairs; Requirements/Evaluation: 5 to 7-page essays or 2-page critiques due each week and a final report (3-4 pages) at the end of the semester; Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option; Prerequisites: none; Enrollment Preferences: upper level History majors; Enrollment Limit: 10; Expected Class Size: 10; Distributional Requirements: Division 2, Exploring Diversity, Writing Intensive; Other Attributes: GBST South + Southeast Asia Studies Electives, HIST Group B Electives - Asia; Spring 2018; TUT Section: T1 TBA Instructor: Aparna Kapadia

COURSES IN CHINESE (Div. I)
The department regularly offers four levels of instruction in Modern Standard Chinese (Mandarin), designed to enable the student to become proficient in oral comprehension, speaking, reading, and writing, as well as Classical Chinese, and, on an irregular basis, introductory courses in Cantonese, Taiwanese, Chinese linguistics, and Second Language Acquisition. The course numbering system for Mandarin is sequential. Students must take courses from CHIN 101 to 102 to 201, 202, 301, 302, 401, 402. Independent study (Chinese 497, 498) may be offered depending on student needs and available resources. Those students entering with proficiency in Chinese should see the Coordinator concerning placement. The department also offers courses on Chinese literature and culture in English translation or Chinese for students who wish to become acquainted with the major achievements in Chinese literary, intellectual and cultural history. For the purpose of the distribution requirement, all courses in Chinese are considered Division I unless otherwise noted.

STUDY ABROAD
Students majoring in Chinese are strongly encouraged to study in mainland China or Taiwan during one or both semesters of their junior year, during the summer, or over Winter Study. It is important that students interested in any of these options consult as early as possible with the department and the Dean's Office concerning acceptable programs.

CHIN 101(F) Basic Chinese (D)
An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing at about the 200-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively. This is an EDI course. Throughout the course we will address issues of how cultural differences inform and are informed by different linguistic contexts and practices; Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English; Requirements/Evaluation: evaluation is based on classroom performance, homework, quizzes, unit tests, and an oral and written final exam; Extra Info: students registered for CHIN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (CHIN 101 and 102) are taken not available for the fifth course option; Prerequisites: none; Enrollment Limit: 12; Expected Class Size: 12; Distributional Requirements: Division 1, Exploring Diversity; Fall 2018; LEC Section: 01 MWF 09:00 AM 09:50 AM TR 08:30 AM 09:45 AM Instructor: Cornelius Kubler; LEC Section: 02 MWF 10:00 AM 10:50 AM TR 09:55 AM 11:10 AM Instructor: Cornelius Kubler

CHIN 102(S) Basic Chinese (D)
An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing in both the simplified and the traditional script at about the 500-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively. This is an EDI course. Throughout the course we will address issues of how cultural differences inform and are informed by different linguistic contexts and practices; Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English; Requirements/Evaluation: evaluation is based on classroom performance, homework, quizzes, unit tests, and an oral and written final exam; Extra Info: students registered for CHIN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (CHIN 101 and 102) are taken not available for the fifth course option; Prerequisites: none; Enrollment Limit: 12; Expected Class Size: 12; Distributional Requirements: Division 1, Exploring Diversity; Spring 2018; LEC Section: 01 MWF 09:00 AM 09:50 AM TR 08:30 AM 09:45 AM Instructor: Cornelius Kubler; LEC Section: 02 MWF 10:00 AM 10:50 AM TR 09:55 AM 11:10 AM Instructor: Cornelius Kubler
CHIN 131 Basic Cantonese
An introduction to Standard Cantonese, a major regional language of southern China which is spoken by over 70 million people in Hong Kong, Macao, Guangdong, and Guangxi as well as by many overseas Chinese in Southeast Asia and North America. Due to the prestige influence of Hong Kong as well as the economic transformation of Guangdong Province, the prestige of Cantonese within China has been rising steadily over the past few decades. Our focus in this course will be on developing basic listening and speaking skills, though some attention will also be paid to written Cantonese, including the special characters which have been used for centuries to write colloquial Cantonese and which have become more widely used in Hong Kong since 1997. Since students will ordinarily possess prior proficiency in Mandarin, a closely related language, they should be able to attain in one semester approximately the same proficiency level that is attained in the first two semesters of Mandarin.

Class Format: dialog performance, drills, communicative exercises, oral reading, questions and discussion.

Requirements/Evaluation: evaluation is based on classroom performance, homework, quizzes, unit tests, and an oral and written final exam.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: CHIN 202 or permission of instructor.

Enrollment Preferences: Chinese and Asian Studies majors who have no prior background in Cantonese.

Enrollment Limit: 12

Distributional Requirements: Division 1

Expected Class Size: 12

Not Offered Academic Year 2018

LEC Instructor: Cornelius Kubler

CHIN 140(F) Introduction to Traditional Chinese Literature
Concluding CHIN 140...

With a written record stretching over 3000 years, China's literary cultures are some of the richest and most varied in human history. Their influence continues to be felt not only in modern China, but also throughout much of the world. This course will examine the development of the different literatures of China from their earliest stages up until the end of the imperial system in 1911. We will read texts ranging from the Analects of Confucius to the medieval poetry of the Tang dynasty, from Buddhist sutras to plays about prostitutes and singing girls. An invulnerable monkey god may make an appearance to sow chaos as well. He's difficult to pin down. Some important themes will include: the role of the individual versus that of the community, responses to catastrophe and disorder, the fantastic, the articulation of the self through literature and ways of dealing with historical and literary legacies. All readings are in English translation.

Class Format: lecture.

Requirements/Evaluation: five short writing assignments (2 pages each), one paper (6-7 pages), and a final exam.

Prerequisites: none.

Enrollment Preferences: none.

Distributional Requirements: Division 1

Fall 2017

CHIN 201(F) Intermediate Chinese (D)

These two courses are designed to consolidate the foundations built in Basic Chinese and continue developing students' skills in aural comprehension, speaking, reading, and writing. Upon completion of the course, students should be able to speak Chinese with fluency on everyday topics, reach a literacy level of 1000 characters (approximately 1200 common words written in both traditional and simplified characters), read materials written in simple standard written Chinese, and produce both orally and in writing short compositions on everyday topics. Conducted in Mandarin. This is an EDI course. Throughout the course we will address issues of how cultural differences inform and are informed by different linguistic contexts and practices.

Class Format: drill/discussion/reading.

Requirements/Evaluation: evaluation will be based on classroom performance, homework, daily quizzes, regular written and oral unit tests, and a final exam.

Extra Info: not available for the fifth course option.

Prerequisites: CHIN 102 or permission of instructor.

Enrollment Limit: none.

Expected Class Size: 12.

Distributional Requirements: Division 1, Exploring Diversity.

CHIN 223 Ethnical Minorities in China: Past and Present (D)

Crosslistings: CHIN 223/ANTH 223...

By 2000, of the 1.3 billion population of China, more than 100 million were ethnic minorities (shaoshu minzu). Most of these reside in autonomous regions and districts, which constitute 64% of China's total acreage. This course introduces students to the multilingual aspect of China's past and present. We will address topics such as the minority-group identification project; the definition of minzu; government policy toward and the current situation of the fifty-five official ethnic minority groups; historical sino-centric visions of foreign ethnic "barbarians" ideas of "diversity," "unity," and "sinicization"; and the roles that "barbarians" have played in China's long history. All readings will be in English. This is an EDI course. We will explore various meanings of "diversity" and "being ethnic" in the Chinese context and compare them with students' own experiences through class discussions and an essay assignment.

Class Format: lecture/discussion.

Requirements/Evaluation: evaluation will be based on attendance, in-class participation, oral presentations, two short response papers, one mid-term, and one final paper.

Prerequisites: none; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish to open up to other possibilities.

Enrollment Preferences: Chinese, Japanese, or Asian Studies majors, and then first-year students.

Enrollment Limit: 20.

Distributional Notes: Division 2 requirement if registration is under CHIN.

LEC Instructor: Li Yu.

Distributional Requirements: Division 2, Exploring Diversity.

CHIN 226(S) Chinese Film and Its Significant Others

Crosslistings: CHIN 226/COMP 296.

From the "wows" that the first short films invoked at a Shanghai teahouse in 1896 (A Trip to the Moon, $527 grossed at the box-office by a 3D fantasy in 2016, Chinese films have struck a responsive chord among domestic and foreign audiences. In this survey course, we will explore the evolving relationships between Chinese films and foreign-language industries to write colloquial Cantonese and which have become even more widely used in Hong Kong since 1997. Since students will ordinarily possess prior proficiency in Mandarin, a closely related language, they should be able to attain in one semester approxim--
CHIN 227/COMP 227/THREA 227
This course explores the ways in which twentieth-century Chinese performative culture fashioned our contemporary understanding of "China." Starting with Chinese hybrid theatres staged in the US, Japan, and the semicolonial Shanghai of the early 1900s and ending with the 2008 Beijing Olympic Opening Ceremonies, this course examines performative works drawn from the breadth of an expanded 20th century; including film, spoken drama, intercultural reproductions of Peking and Kun Opera, revolutionary and avant-garde rock concerts, and global mass mediated performances. Emphasis will be placed on how performances (encompassing the performance onset and the performance-making backstage) place "China" on the global stage; and shaped racial, gender, and national identities among play-going audiences. We will also explore how performance practices were reinvented as "cultural tradition" and "a national essence" in the early 20th century; and how agents of Chinese performance, as makers of meaning, interpreted "a world of real things and threats to real-life articulations of power. The class will be structured around the themes of "Inventing Tradition on the World Stage," "Acting the Right Part," and "Performing the Nation." Students will learn to engage performances as cultural texts embedded in national and global histories. By gaining knowledge about major playwrights, creative thinkers, artists, and performers, students, also become fluent in the landscape of performance culture in China. All class materials and discussions are in English.

Class Format: lecture/discussion
Requirements/Evaluation: regular in-class participation, three short papers (3-5 pages), and one final project
Prerequisites: none
Enrollment Preferences: students who major or plan to major in Chinese and/or Asian Studies
Enrollment Limit: 19

Distributional Requirements: Division 1
Not Offered Academic Year 2018
LEC Instructor: Man He

CHIN 228 Traditional Chinese Poetry (D) (W)
Crosslistings: CHIN 228/COMP 225
Poetry was the dominant form of literature in China for most of the pre-modern period. It could be used to justify the overthrow of dynasties or to court a beloved woman. Chinese poets sang about communicating with the gods and about brewing ales, sometimes in the same poem. In this course we will read and discuss poems from the first 2000 years of the Chinese literary tradition. Some of the issues we will explore include the ways in which poems present the world and make arguments about it; how Chinese poets construct different notions of the self through their poems; and how poetry can give voice to conflicts between aesthetics and morality, between the self and the community, and between the state and other sources of social capital. We will also look at Chinese theories of literature and poetry and compare them with dominant Western models. This is an EDI course and we will be concerned throughout with differences in the way Chinese and other cultures thought about and utilized poetry. We will examine the implicit biases inherent in the ways Western scholars in particular have analyzed and translated Chinese poetry. All readings in English translation.

Class Format: lecture/discussion
Requirements/Evaluation: numerous short response papers, two longer papers (1700-2300 words), and a final exam; participation in class discussions required
Prerequisites: none
Enrollment Preferences: students with previous experience of poetry or Chinese required
Enrollment Limit: open to all
Expected Class Size: 19
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Not Offered Academic Year 2018
LEC Instructor: Christopher Nugent

CHIN 227(F) Present Past: The Politics of Memory in Contemporary Chinese Literature and Films (W)
Crosslistings: CHIN 227/COMP 227
What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "past" remembered, for better or worse, in Chinese culture? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant-readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, and home and diaspora in the PRC, Taiwan, and Hong Kong from the late 1980s until today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the international cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies.

Class Format: tutorial
Requirements/Evaluation: attendance and participation, five short papers, five short critical essays on a partner's paper, one final project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: current or prospective Chinese, Asian Studies, and Comparative Literature majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1, Writing Intensive
Fall 2017
TUT Section: T1 TBA Instructor: Man He

CHIN 252(F) Bridging Theory and Practice: Learning and Teaching Chinese as a Second Language
This course introduces students to the principles of second language acquisition (SLA), a second language study that investigates how people learn a foreign language and provides a basis for understanding research related to foreign language learning and teaching. Theoretical issues to be covered include second language learners' cognitive, affective, and social profiles, factors affecting memory, language, factors that affect the learning process, and the role of one's native language. We will also examine what SLA research has discovered about teaching grammar, pronunciation, vocabulary, and writing. The goal is to explore ways in which SLA theories can be applied to facilitate acquisition of second languages. This course is recommended for students who are planning to teach Chinese as a second language at all levels. The course will be useful to both students who want to improve their own learning of Chinese and those who plan to teach or conduct research on Chinese.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, several oral presentations and short papers, and a final research project
Prerequisites: CHIN 101 or permission of instructor
Enrollment Limit: 15
Expected Class Size: 15

CHIN 253 "Disease" in Modern Chinese Literature and Culture (D)
Crosslistings: CHIN 253/COMP 254/WGSS 255
From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "Disease"—a universal human experience that is nevertheless heavily bound by culture and history. Specifically, we examine the cultural and social meaning of "disease"; the relationship between diseases on the one hand, and the politics of body, gender, and class on the other; we ask how infectious (sexual) disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "diseases," such as infectious cannibalism and fin-de-siecle "virus," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan), to the "Second New Wave" film director of Taiwanese Cinema (Tsai Ming-liang); and we explore how Freud's psychoanalysis and post-Freudian psychotherapy are "practiced" in literature circulated in both print and internet cultures. Throughout the course, we will explore how literature and culture in China and the West have "practiced" in literature circulated in both print and internet cultures. Throughout the course, we will explore how literature and culture in China and the West have

CHIN 312(F) Introduction to Classical Chinese
This course is an introduction to the grammar and basic vocabulary of Classical Chinese, the standard written language of China from around the seventh century B.C.E. through the 1920s (and for many centuries an important written language in Japan, Korea, and Vietnam as well). Aspects of Classical Chinese continue to play a role in both written (e.g., in newspaper, academic, and legal writing) and in spoken (e.g., proverbs and aphorisms) modern Chinese. Our work in this course will be based on reading, translating, and discussing philosophical, political, literary, and historical anecdotes from the Spring and Autumn (770-481 B.C.E) through the Han (206 B.C.E-220 CE) periods, as they served as the foundation for the language. We will conduct discussions of grammatical and philological issues primarily in English and most of our translation work will be from Classical Chinese into English. We will, however, frequently discuss the points of intersection between Classical and Modern Chinese. Students are required to have completed CHIN 202 or the equivalent. Students who have extensive reading knowledge of Chinese characters through other languages (such as Japanese) may also take this course with the instructor's permission.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on classroom performance, homework, quizzes, tests, and a final exam
Prerequisites: CHIN 202 or extensive reading knowledge of Chinese characters through other languages
Enrollment Limit: none
Expected Class Size: 12

CHIN 413(S) Intermediate Classical Chinese: Ideas of Authority in Classical Chinese Literature
This course builds on the foundation established in Introduction to Classical Chinese (CHIN 412) and more complicated texts from the Warring States (403-221 BCE) and Han (206 BCE-220 CE) periods. While our focus will be on careful linguistic analysis and translation, we will also discuss these texts in terms of their philosophical ideas, rhetorical methods, and cultural and historical contexts. The works we will read include some of the foundational texts of Chinese philosophical and political thought, including the Confucian Analects, the Mencius, and the Zhuangzi. While this course is a continuation of Chinese 312, students with prior work in Classical Chinese (through study abroad, attending high school in a Chinese speaking region, etc.) are welcome as well.
CHIN 421 Slides, Stage, and Cinema: Modern Writers “Looking at” China

"Liberated" by the development of written vernacular Chinese yet "famed" by the concerns of modern Chinese intellectuals, via their mediated eyes and experimental pens, interpreted China from an array of perspectives in the first half of the 20th century, creating linguistic, genre hierarchies, and cultural modernity. The course, taught in Chinese, takes a thematic approach to study how China's media culture complicated the canonization of modern Chinese literature and the practices of literary modernity. We will closely read selections from a broad range of modern literary texts written by influential male and female writers from the 1890s to the 2000s, including fiction, essays, and films (English translation of the primary sources and relevant background). We will explore modern Chinese literature and familiar with many of the key texts of Chinese literature from the 20th century.

CHIN 422T(S) Old Shanghai, New Shanghai (W)

**Crosslistings**: CHIN 422/ASST 122

Once nicknamed as "Paris of the East," Shanghai, now a megacity with a population of 25 million, is the industrial, commercial and financial center of contemporary China. Shanghai is often depicted as a metropolis that marked the beginning of China's modernity and urban culture. People from other regions in China see Shanghai as a city full of opportunities, but characterize its people as astute and shrewd, cocky and unwelcoming. Foreigners, however, find the city appealing and its people open-minded. Jews fleeing Nazi persecutions during WWII, found Shanghai to be a "paradise of ghetto" that provided the only haven of survival. For local people, there have always been two Shanghai: an old one and a new one. They are proud of the new Shanghai but constantly nostalgic about the old one. This tutorial examines the multicultural city, its people from historical and cultural perspectives. We will look at the city's history (from the late nineteenth century to present day), its local language and culture, and everyday life of the people (including migrants and foreigners) living in it. The central ideas we will explore are "modernity" and "regional identity." We will investigate how these theoretical constructs play out in the making of the city of Shanghai and the formation of its unique local identity. Course readings include historical and cultural studies as well as documentaries in English about Shanghai, and primary sources in Chinese in a wide range of genres including fiction, essays, and films (English translation of the primary sources are available for students taking the course in English). The course is conducted in either Chinese or English. Students wishing to take the course in English should register under CHIN 422T. Students can choose to register for CHIN 422T and students wishing to take the course in Chinese should register under CHIN 422T.

**CHIN 431 Introduction to Chinese Linguistics**

Is Chinese—whose nouns "lack" number and whose verbs have no tense—a monosyllabic, "primitive" language? Are the Chinese characters a system of logical symbols or "ideographs," which indicate meaning directly without regard to sound? Could (and should) the characters be done away with and alphabetized? Are Cantonese, Hakka, and Taiwanese dialects or languages? What is the relationship between Chinese, Japanese, Korean, and Vietnamese? These are some of the questions we will be taking up in this one-semester introduction to the scientific study of the Chinese language. The class will be divided into: the phonological, syntactical, and lexical structure of Modern Standard Chinese; the Chinese writing system; the modern Chinese dialects; the history of the Chinese language; sociolinguistic aspects of Chinese; and language and politics in various Chinese-speaking societies. Readings in English and Chinese, with class discussion in Mandarin.

**Class Format**: lecture/discussion

**Requirements/Evaluation**: evaluation will be based on classroom performance, homework, two short papers, and one longer paper

**COURSES IN JAPANESE (Div. I)**

The department regularly offers four levels of language instruction in Modern Japanese, designed to enable the student to become proficient in aural comprehension, speaking, reading, and writing. Courses on Japan, culture, linguistics and literature in translation are also offered. The course numbering system for Japanese is sequential. Students move from Japanese 101-102 to 201, 202, 301, 302, 401, 402 and, if appropriate, 403, 404, 405 and 406. Independent study (Japanese 497, 498) may be offered to students who have completed 402 or the equivalent, depending on student needs and available resources. Students interested in pursuing independent study must contact the Coordinator of the Japanese Program one semester in advance and present a proposal to the professor with whom they wish to study by the first day of pre-registration week. Those students entering with proficiency in Japanese should see the Coordinator concerning placement. For the purpose of

---
of the distribution requirement, all courses in Japanese are considered Distribution I unless otherwise noted.

**STUDY ABROAD**

Students majoring in Japanese are encouraged to consider study in Japan at some point in their Williams career—during one or both semesters of their junior year, during the summer, or over Winter Study. It is important that students interested in any of these options consult carefully with the department and the Dean’s Office starting at an early date.

**JAPN 101(F) Elementary Japanese (D)**

An introduction to modern spoken and written Japanese, the course aims to instill proficiency in Japanese by developing four necessary skills of speaking, listening, reading, and writing to successfully interact with native speakers. The relationship between language and culture and the sociolinguistic appropriate use of language will be stressed throughout. Audio, video and computer—assisted learning materials will be used extensively. Classes consist of a combination of "act" classes, conducted exclusively in Japanese, where students use language in various types of drills and communicative activities, and "fact" classes, conducted in Japanese and English, where students learn about the language and culture. This is an EDI course. Throughout the course we will address issues of how cultural difference inform and are informed by different linguistic contexts and practices.

**Class Format:** fact classes, three hours per week; act classes three hours per week

**Requirements/Evaluation:** evaluation will be based on daily classroom performance, homework, quizzes, a midterm, and a final exam

**Extra Info:** students registered for JAPN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (JAPN 101 and 102) are taken

**Prerequisites:** none

**Enrollment Limit:** none

**Expected Class Size:** 15

**Distributional Requirements:** Division 1, Exploring Diversity

**Fall 2017**

LEC Section: 01 TR 11:20 AM 12:35 PM Instructor: Kasumi Yamamoto

CON Section: 02 MWF 11:00 AM 11:50 AM Instructor: Jinhwa Chang

CON Section: 03 MWF 12:00 PM 12:50 PM Instructor: Jinhwa Chang

**JAPN 102(S) Elementary Japanese (D)**

An introduction to modern spoken and written Japanese, the course aims to instill proficiency in Japanese by developing four necessary skills of speaking, listening, reading, and writing to successfully interact with native speakers. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Audio, video and computer—assisted learning materials will be used to facilitate learning. Classes consist of a combination of "act" classes, conducted exclusively in Japanese, where students use the language in various types of drills and communicative activities, and "fact" classes, conducted in Japanese and English, where students learn about the language and culture. This is an EDI course. Throughout the course we will address issues of how cultural difference inform and are informed by different linguistic contexts and practices.

**Class Format:** fact classes, three hours per week; act classes three hours per week

**Requirements/Evaluation:** evaluation will be based on daily classroom performance, homework, quizzes, a midterm, and a final exam

**Extra Info:** students registered for JAPN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (JAPN 101 and 102) are taken

**Prerequisites:** JAPN 101

**Enrollment Limit:** none

**Expected Class Size:** 20

**Distributional Requirements:** Division 1, Exploring Diversity

**Spring 2018**

LEC Section: 01 TR 11:20 AM 12:35 PM Instructor: Jinhwa Chang

CON Section: 02 MWF 11:00 AM 11:50 AM Instructor: Mamoru Hatakeyama

CON Section: 03 MWF 12:00 PM 12:50 PM Instructor: Mamoru Hatakeyama

**JAPN 131 Introduction to Japanese Linguistics**

This course is an introduction to the basic ideas and methodology of linguistics. We learn how to formally analyze the patterns of speech sounds (phonetics and phonology), word formation (morphology), sentence structures (syntax), and meanings (semantics and pragmatics). Other topics, such as first language acquisition and language variation, are discussed where appropriate. The analysis of linguistic data will be used to illustrate the fundamental concepts of the course. We will also use Japanese as the target language data throughout the course, we occasionally look at data from other languages for further application of linguistic methodology and for the better understanding of cross-linguistic variation and underlying universality across languages.

**Class Format:** lecture

**Requirements/Evaluation:** class discussion, reading assignments (as preparation for class), written assignments (exercises), mid-term and final exam

**Prerequisites:** no background knowledge of Japanese or linguistics is required; open to all students who are interested in Japanese language or language in general

**Enrollment Preferences:** first-year and sophomore students

**Enrollment Limit:** 25

**Expected Class Size:** 20

**Distributional Requirements:** Division 1

**Not Offered Academic Year 2018**

LEC Instructor: Mamoru Hatakeyama

**JAPN 201(F) Intermediate Japanese (D)**

This course is a continuation of First-Year Japanese 101-102, further developing the four skills of speaking, listening, reading, and writing. The sociolinguistic methodology will be used. Upon completing the course, students will have been introduced to most of the major structural patterns of contemporary Japanese and will be able to read simple expository prose. This is an EDI course. Throughout the course we will address issues of how cultural difference inform and are informed by different linguistic contexts and practices.

**Class Format:** fact classes, three hours per week; act classes three hours per week

**Requirements/Evaluation:** evaluation will be based on daily performance, homework, quizzes, a midterm, and a final exam

**Prerequisites:** JAPN 101-102 or permission of instructor

**Enrollment Limit:** none

**Expected Class Size:** 20

**Distributional Requirements:** Division 1, Exploring Diversity

**Fall 2017**

LEC Section: 01 TR 08:30 AM 09:45 AM Instructor: Mamoru Hatakeyama

CON Section: 02 Cancelled Instructor: Jinhwa Chang

CON Section: 03 MWF 10:00 AM 10:50 AM Instructor: Jinhwa Chang

**JAPN 202(S) Intermediate Japanese (D)**

This course is a continuation of Japanese 201, further developing the four skills of speaking, listening, reading, and writing. The sociolinguistic methodology will be used. Upon completing the course, students will have been introduced to most of the major structural patterns of contemporary Japanese and will be able to read simple expository prose. This is an EDI course. Throughout the course we will address issues of how cultural difference inform and are informed by different linguistic contexts and practices.

**Class Format:** fact classes, three hours per week; act classes three hours per week

**Requirements/Evaluation:** evaluation will be based on daily performance, homework, quizzes, a midterm, and a final exam

**Prerequisites:** JAPN 201 or permission of instructor

**Enrollment Limit:** none

**Expected Class Size:** 10

**Distributional Requirements:** Division 1, Exploring Diversity

**Spring 2018**

LEC Section: 01 TR 08:30 AM 09:45 AM Instructor: Mamoru Hatakeyama

CON Section: 02 MWF 09:00 AM 09:50 AM Instructor: Kasumi Yamamoto

CON Section: 03 MWF 10:00 AM 10:50 AM Instructor: Kasumi Yamamoto

**JAPN 223(S) Japanese Food Culture in a Global Context (D)**

**Crosslistings:** JAPN 223/COMP 223

The bourgeoning popularity of Japanese food on a global scale has resulted in the emergence of new research literature, and films. Conversely, the effects of globalization have transformed the dining experience within Japan to be ever more multilethic. This interdisciplinary course explores the complex relationship between food and culture in Japan, and the emergence of Japanese cuisine as a global phenomenon, referring to a variety of materials and practices. Topics to be addressed include modernization, nation-building, militarization, globalization, the environment, and popular culture. This is an EDI course, as this course explores issues of diversity in socio-cultural, historical, and political contexts.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, three response papers, two small projects (including descriptions & class presentations), and one research paper & presentation

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** none

**Enrollment Preferences:** none

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Distributional Requirements:** Division 1, Exploring Diversity

**Spring 2018**

SEM Section: 01 MR 01:10 PM 02:25 PM Instructor: Shinko Kagaya

**JAPN 258(S) Language and Literacy Development**

**Crosslistings:** JAPN 258/CGBS 258/PSYC 258

Language is uniquely a human function and fundamental to one’s participation in society. Children learn to talk in the first three years of life at an impressive speed. However, in order to successfully participate in academic and social life, it is critical for one to develop literacy skills. Learning to read is a multifaceted process that involves various cognitive resources. This course is an introduction to language development and literacy
acquisition in first language and in a cross-linguistic environment including Japanese, Chinese and English. Linguistic concepts such as phonology, syntax and morphology will be introduced as we discuss the acquisition processes. Questions to be addressed include: How does a child develop oral language from birth? How does a child learn the meaning of words? How is learning to talk and read similar or different across various languages? How is learning to read different from learning to speak? How "natural" is it to learn to read?

Class Format: seminar
Requirements/Evaluation: active participation in the class discussion, weekly reaction paper, quiz, final paper
Prerequisites: none
Enrollment Preferences: Japanese, Chinese, Asian Studies, and Psychology majors
Enrollment Limit: 20
Expected Class Size: 20
Distributional Requirements: Division 1 requirement if registration is under JAPN, meets Division 2 requirement if registration is under COGS, or PSYC
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 MR 02:35 PM 03:50 PM Instructors: Mamoru Hatakeyama, Kasumi Yamamoto

JAPN 260 Japanese Theatre and its Contemporary Context
Japan's rich and varied performance traditions, old and new, born of different historical settings, coexist to this day and compete for the attention of audiences, domestically and abroad. The forms to be considered (nohgaku, kabuki, bunraku, shingeki, butoh, and Takarazuka all female revue among others) are all dynamic, each has transformed itself in response to evolving social conditions. This course examines these performance traditions, considers how each reflects the social, cultural, and political context of its birth, and poses the question, "of what relevance is each to a contemporary audience?" Some of the other questions we will explore are: How have these performing traditions transformed themselves throughout history, including after 3.11? What do we mean by traditional? How are traditional and contemporary performance genres interacting with each other? How have the central themes of these works evolved? All readings and discussion will be in English.

Class Format: lecture/discussion
Requirements/Evaluation: active class participation, presentations, written journals, two short papers, and one longer paper
Prerequisites: none; open to all
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1
Other Attributes: GBST East Asian Studies Electives
Not Offered Academic Year 2018

JAPN 271 Transitional Japanese Literature into the Twentieth Century
Crosslistings: JAPN 271/COMP 269
After more than two centuries of National Seclusion, Japan's modern era began suddenly in the middle of the nineteenth century, with the unexpected arrival of Commodore Perry, the destabilization of the 250-year old shogunal government, and the violent restoration of Imperial rule. Rapid and radical changes followed in every aspect of society, from fashion to philosophy. This course will examine how these changes have been expressed in literature, film and performance. We will trace how the authors of literary and other artistic works perceived, integrated and at times rejected experiences of the new and the foreign. All readings and discussions will be in English.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on active class participation, presentations, written journals, two short papers, and one longer paper
Prerequisites: none; open to all
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1
Not Offered Academic Year 2018
SEM Instructor: Shinko Kagaya

JAPN 274T(F) Confronting Japan (W)
Crosslistings: JAPN 274/COMP 274
This tutorial looks into confrontations, within Japan and across its borders, how such confrontations are perceived, handled and narrated, and what they tell us about Japanese society. Through literature and other media, we will probe domestic issues, such as gender/economic disparities, aging, minorities, suicide, reclusion and post 3-11 recovery, and international issues, related to Japan's shifting roles within East Asia and beyond. Discussions will untangle the conflicting perspectives, and elaborate the thoughts and feelings of the various contemporaries. All readings and discussions will be in English. Some course materials will also be available in Japanese, for those interested. As this tutorial actively explores diversity of human thought, and the contexts that create such diversity, this is an EDI course.

Class Format: tutorial
Requirements/Evaluation: 4- to 5-page papers and 2-page critiques (in alternating weeks), and one final report at the culmination of the course
Prerequisites: none
Enrollment Preferences: Japanese majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1, Writing Intensive
Fall 2017
TUT Section: T1 TBA Instructor: Shinko Kagaya

JAPN 276 Premodern Japanese Literature and Performance Crosslistings: JAPN 276/COMP 278
Some of Japan's performance traditions, which developed in different historical settings, have survived to this day and continue to coexist and compete for the attention of audiences both domestically and abroad. This course examines the Japanese literature of three major periods in Japan's history, focusing on how literary and performance traditions have been interrelated in the unfolding of Japanese literary history. We will begin by looking at the Heian period (794-1185), when the work of female authors occupied center stage and some of the canonical texts of the Japanese literary and cultural tradition were born. Next we will consider the medieval period (1185-1590), when we will see the expansion and consequent shift in the domain of artistic creation. Then we will look at the Edo period (1600-1867), when a new bourgeois culture flourished and audiences were greatly transformed. We will also explore the continuing force of premodern literary traditions in contemporary performing arts. All readings and discussions will be in English.

Class Format: lecture/discussion
Requirements/Evaluation: active class participation, presentations, written journals, two essay questions, one paper, and attendance of live performance events
Prerequisites: none; open to all
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1
Other Attributes: GBST East Asian Studies Electives, PERF Interdepartmental Electives
Not Offered Academic Year 2018

JAPN 301(F) Upper-Intermediate Japanese (D)
This course is a continuation of Japanese 201 and 202. Students will, further develop their four skills of speaking, listening, reading, and writing, while consolidating the foundations built in Elementary and Intermediate Japanese. The same general methodology will be used. In this course, students begin to emphasize vocabulary building through the study of situationally oriented materials stressing communicative competence. The reading of expository prose in both semi-authentic and authentic materials of intermediate difficulty will also receive some extensive attention. This is an EDI course. In addition to involving immersion in a classroom Japanese environment, much of our focus will be on the ways that various cultural issues are perceived and addressed differently (and, in many instances, in similar ways) in Japan and the US.

Class Format: three 75-minute classes
Requirements/Evaluation: evaluation will be based on daily performance, homework, quizzes, a midterm, and a final exam
Prerequisites: JAPN 202 or permission of instructor
Enrollment Limit: none
Expected Class Size: 15
Distributional Requirements: Division 1, Exploring Diversity
Fall 2017
LEC Section: 01 MW 08:30 AM 09:45 AM Instructor: Mamoru Hatakeyama

JAPN 302(S) Upper-Intermediate Japanese (D)
This course is a continuation of Japanese 301. Students will, further develop their four skills of speaking, listening, reading, and writing, while consolidating the foundations built in Elementary and Intermediate Japanese. The same general methodology will be used. In this course, students begin to emphasize vocabulary building through the study of situationally oriented materials stressing communicative competence. The reading of expository prose in both semi-authentic and authentic materials of intermediate difficulty will also receive some extensive attention. This is an EDI course. In addition to involving immersion in a classroom Japanese environment, much of our focus will be on the ways that various cultural issues are perceived and addressed differently (and, in many instances, in similar ways) in Japan and the US.

Class Format: three 75-minute classes
Requirements/Evaluation: evaluation will be based on daily performance, homework, quizzes, a midterm, and a final exam
Prerequisites: JAPN 301 or permission of instructor
Enrollment Limit: none

Distributional Requirements: Division 1, Exploring Diversity
Spring 2018
LEC Section: 01 MW 08:30 AM 09:45 AM Instructor: Jinhwa Chang

JAPN 401(F) Advanced Japanese (D)
A continuation of Japanese 301 and 302, developing speaking, listening, reading, and writing skills in the discussion of social issues in contemporary Japan. Topics may vary according to the level of the students. This is an EDI course. In addition to involving immersion in a Japanese environment, much of our focus will be on the ways that various cultural issues are perceived and addressed differently (and, in many instances, in similar ways) in Japan and the US.

Class Format: three 75-minute classes
JAPN 402(S) Advanced Japanese (D)
A continuation of Japanese 401, developing speaking, listening, reading, and writing skills in the discussion of social issues in contemporary Japan. Topics may vary according to the level of the students. This is an EDI course. In addition to involving immersion in a Japanese environment, much of our focus will be on the ways that various cultural issues are perceived and addressed differently (and, in many instances, in similar ways) in Japan and the US.
Class Format: three 75-minute classes
Requirements/Evaluation: evaluation will be based on daily performance, homework, quizzes and projects (presentations)
Prerequisites: JAPN 401 or permission of instructor
Enrollment Limit: none
Expected Class Size: 8
Distributional Requirements: Division 1, Exploring Diversity
Fall 2017
LEC Section: 01 MWF 11:00 AM-12:15 PM Instructor: Shinko Kagaya

JAPN 403 Advanced Seminar in Japanese I (D)
This course provides advanced training in listening, speaking, reading and writing Japanese, focusing on current issues in Japan. This is an EDI course. In addition to involving immersion in a classroom Japanese environment, much of our focus will be on the ways that various cultural issues are perceived and addressed differently (and, in many instances, in similar ways) in Japan and the US.
Class Format: three hours per week
Requirements/Evaluation: evaluation will be based on classroom performance, homework, quizzes and projects
Prerequisites: JAPN 402 or permission of instructor
Enrollment Limit: none
Expected Class Size: 5
Distributional Requirements: Division 1, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: Shinko Kagaya

JAPN 404 Advanced Seminar in Japanese II (D)
This course is designed for advanced Japanese language students. The goal is for students to be able to carry on extended discourse—such as a discussion, a speech, or an interview—in a culturally appropriate manner; to read authentic materials with ease; and to make presentations and write research papers on issues of interest. The course will focus on current social, cultural, educational, and political issues in Japan. This course, which is conducted entirely in Japanese, has the EDI designation since students are immersed in a Japanese language environment and the course materials will involve critical thinking and discussion of two diverse cultures, Japan and the US.
Class Format: three hours per week
Requirements/Evaluation: evaluation will be based on daily classroom performance, homework, quizzes, and projects
Prerequisites: JAPN 403 or permission of instructor
Enrollment Limit: none
Expected Class Size: 5
Distributional Requirements: Division 1, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: Shinko Kagaya

JAPN 405 Thematic Reading and Writing in Japanese I (D)
This course is designed for the advanced students of Japanese who want to develop their reading and writing skills intensively. Students will be exposed to various genres of readings on the themes of modern and pre-modern Japanese society in contrast to those of the U.S. Research and writing skills will be developed in conjunction with student projects. This course also aims to develop a high level of speaking proficiency through discussion and narrative discourse. This is an EDI course because students are immersed in a Japanese environment in class and will learn how to express their ideas and opinions using Japanese discourse patterns both in texts and dialogues. This requires reflective thinking over different cultural perspectives between Japan and the U.S. or whatever cultural heritage each student may have.
Class Format: seminar
Requirements/Evaluation: evaluation will be based on daily preparation and in-class performance, a weekly journal, and a final research paper
Prerequisites: any one of JAPN 400-level courses or permission of instructor; open to all
Enrollment Preferences: JAPN majors and then seniors and juniors
Enrollment Limit: 5
Expected Class Size: 5
Distributional Requirements: Division 1, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: Kasumi Yamamoto

JAPN 406 Thematic Reading and Writing in Japanese II (D)
This course is designed for the advanced students of Japanese who want to develop their reading and writing skills intensively. Students will be exposed to various genres of readings on the themes of modern and pre-modern Japanese society in contrast to those of the U.S. Research and writing skills will be developed in conjunction with student projects. This course also aims to develop a high level of speaking proficiency through discussion and narrative discourse. This is an EDI course because students are immersed in a Japanese environment in class and will learn how to express their ideas and opinions using Japanese discourse patterns both in texts and dialogues. This requires reflective thinking over different cultural perspectives between Japan and the U.S. or whatever cultural heritage each student may have.
Class Format: seminar
Requirements/Evaluation: evaluation will be based on daily preparation and in-class performance, a weekly journal, and a final research paper
Prerequisites: any one of JAPN 400-level courses or permission of instructor; open to all
Enrollment Preferences: JAPN majors and then seniors and juniors
Enrollment Limit: 5
Expected Class Size: 5
Distributional Requirements: Division 1, Exploring Diversity
Not Offered Academic Year 2018
SEM Instructor: Kasumi Yamamoto
JAPN 498(S) Independent Study: Japanese
Japanese independent study. For students who have completed Japanese 402 or the equivalent.

Distributional Requirements: Division 1
Spring 2018

ASTRONOMY (DIV III)
Chair: Professor KAREN KWITTER
Professors: K. KWITTER, J. PASACHOFF. Observatory Supervisor/Senior Lecturer: S. SOUZA.

How long will the Sun shine? How do we discover Earth-like planets among the many exoplanets circling other stars? How did the universe begin and how has it evolved over its 13.8-billion-year history? How do we detect not only light but also gravitational waves from gravitational radiation? Astronomy is the science that asks and tries to answer questions like these. We have come a long way toward understanding what makes the sky appear as it does and how the Universe behaves. The Astronomy Department offers courses for anyone who is interested in learning about the Universe, and who would like to be able to follow new astronomical discoveries as they are made. All courses in Astronomy satisfy the Division III requirement. The Astrophysics major (administered jointly with the Physics Department) and the Astronomy major are described below.

The beginning astronomy courses are offered on two levels. Astronomy 101, 102, 104, and 330-range courses are intended primarily for non-science majors and have no prerequisite. Astronomy 111 is designed for students with some preparatory study in physics. It has a prerequisite of one year of high school physics or permission of the instructor, and a co-requisite of Mathematics 140 or equivalent background in calculus.

Most of the astronomy courses take advantage of our observational and computational facilities including a 24-inch computer-controlled telescope with sensitive electronic detectors, and our own computer network for image processing and data analysis. The Astronomy Department home page can be found at astronomy.williams.edu

ASTROPHYSICS MAJOR

The Astrophysics major is designed for students who want a rigorous introduction to the field, including not only those who plan graduate study in astronomy, astrophysics, or a closely related area, but also those interested in a wide variety of careers. Astrophysics alumni are not only astronomers but also computer scientists, geologists, teachers, doctors, lawyers, business school professors, and so on. In recent years, many astrophysics majors have had a second major in fields as wide ranging as mathematics, computer science, geosciences, economics, English, and art history. This major emphasizes the description of the Universe and its constituents in terms of physical processes. Potential Astrophysics majors should consult early with members of the Astronomy and Physics Departments to determine their most appropriate route through the major. An essential ingredient in such students’ undergraduate training is experience in physics and mathematics. Therefore, the major normally begins in the first year a student is at Williams with Physics 131, 141, or 151 and Mathematics 140 or 150 or 151 in the fall. Students with very good background placing them out of Physics 142 and out of Mathematics 140 may choose to take Physics 201 and Mathematics 150 or 151 instead. Astronomy 111 will often be taken in the fall of the sophomore year; however, many students take it in the fall of their first year at Williams, along with physics and math. Students who might place out of physics courses should read the section on placement under Physics; those who place out of Physics 131 or 141 into Physics 142 or 151 should particularly consider taking Astronomy 111 in the fall of their first year.

In addition to the major courses described below, other courses in geosciences, mathematics, and computer science may also be appropriate.

Major Requirements for Astrophysics

Astronomy 111 Introduction to Astrophysics or Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home or Astronomy 104 The Milky Way Galaxy and the Universe Beyond

Three 400-level astronomy courses or Two 400-level astronomy courses and one of the following: Astronomy 211T Astronomical Observing and Data Analysis Physics 302 Statistical Physics Physics 402T Applications of Quantum Mechanics Physics 405T Electromagnetic Theory Physics 411T Classical Mechanics Physics 418 Gravity

Physics 131 Particles and Waves or Physics 141 Particles and Waves—Enriched or equivalent placement

The total number of courses required for the Astrophysics major, an interdisciplinary major, is eleven. Students entering with Advanced Placement and/or mathematics may obtain credit toward the major for the equivalent of Physics 141 and/or Mathematics 140 and/or 150 or 151 taken elsewhere, but at least 8 courses in astronomy, physics, and mathematics must be taken at Williams. There are some aspects of astrophysics that are closely related to chemistry or geosciences. In recognition of this relationship, certain advanced courses in those departments can be accepted for credit toward the Astrophysics major on a two-for-one basis. It is not possible to double major in Astrophysics and Physics.

THE DEGREE WITH HONORS IN ASTROPHYSICS

The honors degree in Astrophysics will be awarded on the basis of a senior thesis presenting the results of an original observational, experimental, or theoretical investigation carried out by the student under the direction of a faculty member in Astronomy or Physics. There are no specific grade requirements (other than College-wide requirements for remaining in good academic standing) for entry into the thesis research program; however, a student wanting to do a thesis should have demonstrated both ability and motivation for independent work in previous courses and in any earlier research involvement. Students doing theses will normally choose a topic and an advisor early in the second semester of their junior year and usually begin the thesis work during the summer. During the senior year, those students whose proposals have been approved will elect two courses and a winter study project in addition to the minimum requirements for the major.

Preparation for the thesis will occupy at least one course (Astrophysics 493) and the winter study project (Astrophysics 031). At the end of the winter study period, the departments will decide, in consultation with each student, whether to admit that student to honors candidacy. Both a written thesis and an oral presentation to faculty and fellow students are required. The degree with honors will be awarded to those who meet these requirements with distinction. The degree with highest honors will be awarded to those who fulfill the requirements with unusually high distinction.

The number of courses devoted to thesis research within the general guidelines of two courses and a winter study project over and above the minimum major requirements and the written and oral presentations, especially in cases of students with advanced standing and/or summer research experience. Students considering unusual requests are urged to consult with potential advisors or the department chairs as early as possible.

ASTRONOMY MAJOR

The Astronomy major is designed for students with an interest in learning about many aspects of modern astronomy, but who do not choose to take the most advanced physics and math courses of the astrophysics major. It also provides for the second major for students concentrating in another field. The Astronomy major emphasizes understanding the observed properties of the physical systems that comprise the known Universe, from the Sun and solar system, to the evolution of stars and star clusters, to the Milky Way Galaxy, to external galaxies and clusters of galaxies. Because some knowledge of physics and calculus is necessary to understand many astronomical phenomena, the Astronomy major requires the first two semesters each of the physics and calculus that are also required of Physics majors and Astrophysics majors.

There are several possible routes through the Astronomy major, depending on preparation and interest. Students considering a major in Astronomy should consult with members of the department early and often. A first-year student, if unsure about choosing between Astronomy and Astrophysics, may wish to take not only Astronomy 111 but also Physics 131, 141, or 151 and Mathematics 140 (if necessary) in the fall. Students who might place out of physics courses should read the section on placement under Physics.

Major Requirements for Astronomy

Astronomy 111 Introduction to Astronomy or Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home or Astronomy 104 The Milky Way Galaxy and the Universe Beyond

Two 200-level Astronomy courses (or additional 400-level Astronomy courses as substitutes)

Two 400-level Astronomy courses

Physics 131 Particles and Waves or Physics 141 Particles and Waves—Enriched or equivalent placement

Physics 42G Foundations of Modern Physics or Physics 151 Seminar on Modern Physics

134
ASTR 101(F) Stars: From Sun to Black Holes
What makes a star shine? For how long will the Sun keep shining and what will happen to it then? What are black holes and how can they form? What about the recently discovered “chirp” from gravitational radiation resulting from two giant black holes merging? What do we learn about the Sun from total solar eclipses? Astronomy 101, a non-major, general introduction to the part of contemporary astronomy that includes how stars form and how they end their existence, will provide answers to these questions and more. The course will speculate on the exciting discoveries of the past few years. Topics include modern astronomical instruments such as the Hubble Space Telescope, the Chandra X-ray Observatory, the Kepler, K2 and TESS missions to discover planets around other stars, the latest huge telescopes and their findings, how astronomers interpret the light received from distant celestial objects; the Sun as a typical star (and how its future will affect ours); and our modern understanding of how stars work and how they change with time. The course also discusses pulsars and black holes resulting from the evolution of normal, massive stars and how supermassive black holes lurk at the center of galaxies and quasars. We will discuss the discovery of planets around stars other than the Sun. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course, on the same level as Astronomy 102 (solar system) and 104 (galaxies and cosmology), and students have taken those courses are welcome. Observing sessions will include use of the 24-inch telescope and other telescopes for nighttime observations of stars, star clusters, planets and their moons, nebulae, and galaxies, as well as use of other telescopes for daytime observations of the Sun.
Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration
Requirements/Evaluation: evaluation will be based on two hour tests, a final exam, an observing portfolio, and lab reports
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Limit: 48
Expected Class Size: 24

ASTR 102(S) Our Solar System and Others
What makes Earth different from all the other planets? What has NASA’s Curiosity on Mars found about Mars’s past running water and suitability for life? How has knowledge about Pluto been transformed by NASA’s 2015 flyby and the associated ground-based studies with which Williams College faculty and students participate? Will asteroids or comets collide with the Earth again? What is a solar eclipse like? What do we learn from the rare transits of Mercury and of Venus that Williams faculty and students have studied? Astronomy 102, a non-major, general introduction to the part of contemporary astronomy that comprises the study of the solar system, will provide answers to these questions and more. We will cover the historical development of humanity’s understanding of the solar system, examining contributions by Aristotle, Ptolemy, Copernicus, Galileo, Newton, Einstein, and others. We will discuss the discovery of over 4000 exoplanets around stars other than the Sun. The course gives special attention to exciting discoveries of the past few years by space probes and by the Hubble Space Telescope and the Kepler/K2/TESS missions. We regularly discuss the latest news briefs and developments in astronomy and relate the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 (stars and stellar evolution) and 104 (galaxies and cosmology), and students who have taken those courses are welcome.
Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration
Requirements/Evaluation: evaluation will be based on two hour tests, a final exam, an observing portfolio, and lab reports
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Limit: 48
Expected Class Size: 24

ASTR 104 The Milky Way Galaxy and the Universe Beyond
It has been less than a century since the Sun was discovered not to be at the center of the Milky Way Galaxy, and the Milky Way Galaxy was determined to be only one of countless “island universes” in space. A host of technological advances is enabling us to understand even more clearly our place in the

ASTR 101(F) Stars: From Sun to Black Holes
What makes a star shine? For how long will the Sun keep shining and what will happen to it then? What are black holes and how can they form? What about the recently discovered “chirp” from gravitational radiation resulting from two giant black holes merging? What do we learn about the Sun from total solar eclipses? Astronomy 101, a non-major, general introduction to the part of contemporary astronomy that includes how stars form and how they end their existence, will provide answers to these questions and more. The course will speculate on the exciting discoveries of the past few years. Topics include modern astronomical instruments such as the Hubble Space Telescope, the Chandra X-ray Observatory, the Kepler, K2 and TESS missions to discover planets around other stars, the latest huge telescopes and their findings, how astronomers interpret the light received from distant celestial objects; the Sun as a typical star (and how its future will affect ours); and our modern understanding of how stars work and how they change with time. The course also discusses pulsars and black holes resulting from the evolution of normal, massive stars and how supermassive black holes lurk at the center of galaxies and quasars. We will discuss the discovery of planets around stars other than the Sun. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course, on the same level as Astronomy 102 (solar system) and 104 (galaxies and cosmology), and students have taken those courses are welcome. Observing sessions will include use of the 24-inch telescope and other telescopes for nighttime observations of stars, star clusters, planets and their moons, nebulae, and galaxies, as well as use of other telescopes for daytime observations of the Sun.
Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration
Requirements/Evaluation: evaluation will be based on two hour tests, a final exam, an observing portfolio, and lab reports
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Limit: 48
Expected Class Size: 24

ASTR 102(S) Our Solar System and Others
What makes Earth different from all the other planets? What has NASA’s Curiosity on Mars found about Mars’s past running water and suitability for life? How has knowledge about Pluto been transformed by NASA’s 2015 flyby and the associated ground-based studies with which Williams College faculty and students participate? Will asteroids or comets collide with the Earth again? What is a solar eclipse like? What do we learn from the rare transits of Mercury and of Venus that Williams faculty and students have studied? Astronomy 102, a non-major, general introduction to the part of contemporary astronomy that comprises the study of the solar system, will provide answers to these questions and more. We will cover the historical development of humanity’s understanding of the solar system, examining contributions by Aristotle, Ptolemy, Copernicus, Galileo, Newton, Einstein, and others. We will discuss the discovery of over 4000 exoplanets around stars other than the Sun. ASTR 104 The Milky Way Galaxy and the Universe Beyond
It has been less than a century since the Sun was discovered not to be at the center of the Milky Way Galaxy, and the Milky Way Galaxy was determined to be only one of countless “island universes” in space. A host of technological advances is enabling us to understand even more clearly our place in the
...universe and how the universe began. For example, the recently discovered "chirp" from gravitational radiation (reported in 2016) resulting from two giant black holes merging has opened a whole different way of observing the universe from the traditional use of light and other forms of electromagnetic radiation. Further, the Hubble Space Telescope and the Chandra X-ray Observatory bring clarity and images of this vast sea of objects and their environment. We will study these objects and their properties, and thus enlarge our understanding of the Big Bang. In addition, study of the early universe (most recently from the Planck spacecraft) and large-scale mapping programs such as the Sloan Digital Sky Survey are giving clues into how the universe is currently and its history and the universe, and the exploits the answers to questions like: What is the Milky Way? What are quasars so luminous? Is the universe made largely of "dark matter" and "dark energy"? What determines the ultimate fate of the universe? How have studies of Cepheid variables and distant supernovae with the Hubble Space Telescope determine that the universe is 13.8 billion years old and indicated that the universe's expansion is accelerating? We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 and 102, and students who have taken those courses are welcome.

Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration.

Requirements/Evaluation: evaluation will be based on two hour tests, a final exam, lab reports, and an observing portfolio.

Extra Info: not available for the fifth course option.

Prerequisites: none; not open to students who have taken or are taking ASTR 330.

Enrollment Limit: 48

Expected Class Size: 24

Dept. Notes: non-major course

Not Offered Academic Year 2018

LEC Instructor: Jay Paschoff

ASTR 111(F) Introduction to Astrophysics (Q)

How do stars work? This course answers that question from start to finish! In this course we undertake a survey of some of the main ideas in modern astrophysics, with an emphasis on the observed properties and evolution of stars. ASTR 111 is the first course in the Astrophysics and Astronomy major sequences. It is also appropriate for students planning to major in one of the other sciences or mathematics, and for others who would like a quantitative introduction that emphasizes the relationship of contemporary physics to st

Class Format: lecture/discussion, observing sessions, and five labs per semester.

Requirements/Evaluation: evaluation will be based on problem sets, two hour tests, a final exam, lab reports, and an observing portfolio.

Prerequisites: a year of high school Physics, or concurrent college Physics, or permission of instructor, and MATH 140 or equivalent.

Enrollment Limit: 28

Expected Class Size: 20

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Fall 2017

LEC Section: 01 TR 11:20 AM-12:35 PM Instructor: Karen Kwitter

LAB Section: 02 M 01:00 PM-04:00 PM Instructor: Steven Souza

LAB Section: 03 R 01:00 PM-04:00 PM Instructor: Steven Souza

ASTR 207T Extraterrestrial Life in the Galaxy: A Sure Thing, or a Snowball's Chance in Hell?

A focused investigation of the possibility of life elsewhere in the galaxy, and the chances of our detecting it. In this course, pairs of students will explore the astronomical and biochemical requirements for the development of Earth-like life. We will consider the conditions on other planets within our solar system as well as on newly-discovered planets circling other stars. We will also analyze the famous "Drake Equation," which calculates the expected number of extraterrestrial civilizations, and attempt to evaluate its component parts: how we examine current efforts to detect signals from intelligent alien civilizations and contemplate humanity's reactions to a positive detection.

Class Format: tutorial.

Requirements/Evaluation: evaluation will be based on the student's papers, responses to the partner's papers, and evidence of growth in understanding over the semester; as well as improvement in speaking and writing.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: ASTR 111 or BIOL 101-102, CHEM 101-102, or GEOS 101 or equivalent science preparation; instructor's permission required.

Enrollment Preferences: if overenrolled, preference given to students who have had ASTR 111.

Enrollment Limit: 10

Expected Class Size: 10

Distributional Requirements: Division 3, Writing Intensive

Not Offered Academic Year 2018

TUT Instructor: Karen Kwitter

ASTR 211(F) Astronomical Observing and Data Analysis (Q)

This course will introduce techniques for obtaining and analyzing astronomical data. We begin by learning about practical observation planning and move on to discussion of CCD detectors, signal statistics, digital data processing, and reduction techniques. We will then use this knowledge to learn how to detect gravitational waves, galaxies and clusters of galaxies, stars and their planets, supernovae, and asteroids. Finally, we will examine current efforts to detect planets within our solar system as well as on newly discovered extrasolar planets (including a discussion of the first reported detection of gravitational waves, the launching of the James Webb Space Telescope) and ground-based (e.g., Atacama Large Millimeter Array), and work with some of their data.

Class Format: tutorial, plus a 1-hour weekly group meeting, computer lab work and observing.

Requirements/Evaluation: evaluation will be based on tutorial presentations and weekly problem sets, an hour exam and observing projects.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: MATH 150 or 151; prior experience with Unix is helpful, but not required.

Enrollment Limit: 10

Expected Class Size: 8

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Fall 2017

TUT Section: T1 F 01:00 PM-02:00 PM Instructor: Karen Kwitter.

LAB Section: T2 M 07:00 PM-09:40 PM Instructor: Karen Kwitter.

ASTR 330 The Nature of the Universe

This course is a journey through space and time from the first few seconds to the present day and the future. The universe billions of years ago, and we analyze the evidence for the Big Bang and its remnant cosmic background radiation, cosmic inflation, conditions during the first three minutes, creation of the elements, stellar and giant black holes, relativistic, the detection of gravitational waves, galaxies and quasars, and the structure of the Universe. We will explore current ideas about the future of the Universe, in particular the acceleration of the Universe's expansion, and its implications for the end of time.

Class Format: lecture/discussion, three hours per week.

Requirements/Evaluation: evaluation will be based on two hour tests, a small observing portfolio, occasional quizzes, and a final exam.

Extra Info: not available for the fifth course option.

Prerequisites: none; open only to juniors and seniors; closed to students who have taken or are taking ASTR 104, and closed to ASTR, ASPH, and PHYS majors.

Enrollment Limit: 48

Expected Class Size: 20

Dept. Notes: non-major course; course in the 33X sequence are meant as general education courses for students in all majors.

Distributional Requirements: Division 3, Not Offered Academic Year 2018

LEC Instructor: Karen Kwitter.

ASTR 336(S) Science, Pseudoscience, and the Two Cultures (W)

Crosslistings: ASTR 336/HSCI 336

A famous dichotomy between the sciences and the humanities, and public understanding of them, was laid down by C. P. Snow and has been widely discussed, with ignorance of the second law of thermodynamics compared with ignorance of Shakespeare. In this seminar, we will consider several aspects of science and scientific culture, including how scientific thinking challenges the claims of pseudoscience. We will consider C. P. Snow and his critics as well as the ideas about the Copernican Revolution and other "grand narratives" of the universe, and using such recent journals as The Skeptical Inquirer and The Scientific Review of Alternative Medicine, we consider from a scientific point of view what is now called complementary or alternative medicine, including both older versions such as chiropractic and newer nonscientific practices. We will discuss the current global-climate-change controversy and their effects on policy. We discuss the vaccination policy. We consider such topics as GM (genetically modified) foods, the safety and regulation of dietary supplements, and the validity of government and other recommendations relevant to the roles of dietary salt, sugar, and fat in health. We also consider the possible effects that superstitious beliefs have on the general public's cooperation in vaccination programs and other consequences of superstition. We also consider a range of dramas that are based on scientific themes, such as Tom Stoppard's Arcadia and Michael Frayn's Copenhagen.
ASTR 340 Great Astronomers and Their Original Publications (W)  
In the 2014-15 academic year of the study of the book, honoring the new library and the expansion of the Chapin Library of Rare Books, we study many of the greatest names in the history of astronomy, consider their biographies, assess their leadership roles in advancing science, and examine and handle their first-edition books and other publications. Our study includes the original books published as follows: 16th-century: Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th-century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; Dialogo, 1632), Johannes Kepler (laws of planetary motion, 1609, 1619), Johannes Hevelius and Elisabeth Hevelius (atlases of stars and the Moon, 1647 and 1687), Isaac Newton (laws of universal gravitation and motion, 1687); 18th-century, Edmond Halley (Miscellanea curiosa, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (Atlas Coelestis, 1729); William Herschel and Caroline Herschel (1781, 1793). In more recent centuries, the original works are articles: 20th-century: Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble’s law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell (pulsar discovery, 1968); 21st-century: Wendy Freedman (Universe’s expansion rate, 2000s). We will also read biographies and recent novels dealing with some of the above astronomers. With the collaboration of the librarians, we will meet regularly in the Chapin Library of Rare Books and also have a session at the library of the Clark Art Institute to see its rare books of astronomical interest.

Class Format: Seminar  
Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper  
Enrollment Preferences: if not offered, preference by written paragraph of explanation of why student wants to take the course  
Enrollment Limit: 15  
Distribution Notes: meets Division 3 requirement if registration is under ASTR; meets Division 2 requirement if registration is under HSCI or LEAD  
Distributional Requirements: Division 3, Writing Intensive  

ASTR 402T(S) Between the Stars: The Interstellar Medium (Q)  
The matter between the stars—the interstellar medium—manifests itself in many interesting and unexpected ways, and, as the detritus of stars, its properties reveal clues to the history and future evolution of both stars and the galaxies that contain them. Stars are accompanied by diffuse matter all through their lifetimes, from their birthplaces in dense molecular clouds, to the stellar winds they eject with varying ferocity as they evolve, to their final fates as they shed their outer layers, whether as planetary nebulae or dazzling supernovae. As these processes go on, they enrich the interstellar medium with the products of the stars' nuclear fusion. The existence of life on Earth is eloquent evidence of this chemical enrichment. In this course we will study the interstellar medium in its various forms. We will learn about many of the physical mechanisms that produce the radiation we observe from diffuse matter, including radiative ionization and recombination, collisional excitation of forbidden lines, collisional ionization, and synchrotron radiation. Applying our understanding of these processes, we will analyze the physical conditions and chemical compositions of a variety of nebulae. This course is observing-intensive. Throughout the semester students will work in small groups to design, carry out, analyze, and critique their own observations of the interstellar medium using the equipment on our observing deck.

Class Format: Tutorial, plus a 1-hour weekly group meeting; computer lab work and observing projects  
Requirements/Evaluation: evaluation will be based on tutorial presentations and weekly problem sets. Credit will be given for programing and technical problems and for the results of their independent analysis and experiments.

ASTR 412T Solar Physics (W)  
We study all aspects of the Sun, our nearest star. We evaluate scientific results from the total solar eclipse of August 21, 2017, the first eclipse whose totality crosses the U.S. from coast to coast since 1918 and the first to be entirely visible in the US since the nation’s founding. In addition to discussing what has been learned about the solar atmosphere from eclipse and related space research, we discuss the solar interior (including the Nobel-prize-winning solar neutrino experiment and helioseismology), the photosphere, the chromosphere, the corona, and the solar wind. We discuss the Sun as an example of stars in general. We discuss both theoretical aspects and observational techniques, including work at recent total solar eclipses. We discuss results from current spacecraft, including the Solar and Heliospheric Observatory (SOHO), the Solar Dynamics Observatory, the Sun Watcher (SWAP), and Hinode (Sunrise), and the new GOES16/UVSI (Solar Ultraviolet Imager) run by an alumnus as well as additional Total Solar Irradiance measurements from ACRIMSAT and SORCE. As a special timely treat, we will discuss the role of solar observations in confirming Einstein’s General Theory of Relativity with the bending of light at the 1919 and 1922 total solar eclipses as well as gravitational redshift measurements in solar spectral lines, extending our discussion to recent “chirps” of gravitational radiation from AIGO. We will also incorporate into our sessions the results from the 2016 solar eclipse of Oregon and the 2017 eclipse of the Sun (and the 2019 eclipse of the Moon) that will cross the U.S. from coast to coast since 1918 and the first to be entirely visible in the US since the nation’s founding. In the Spring 2018 class, we will also include a visit to a solar observatory in California.

Class Format: Tutorial; students will meet weekly with the professor in groups of two or three to discuss readings and make presentations, often in PowerPoint or Keynote format.

Requirements/Evaluation: evaluation will be based on four 5-page papers, discussions, and presentations; students will be expected to improve their understanding of the course. Participation expectations are high.

Extra Info: May be taken on a pass/fail basis; not available for the fifth course option  
Enrollment Preferences: permission of department

Distributional Requirements: Division 3, Writing Intensive  

ASTR 493(F) Senior Research: Astronomy  
An original experimental or theoretical investigation is carried out under the direction of a faculty member in Astronomy, as discussed under the heading of the degree with honors in Astronomy above.

Class Format: Independent study

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option  
Prerequisites: permission of department

Distributional Requirements: Division 3, Writing Intensive  

ASTR 494(F) Senior Research: Astronomy  
An original experimental or theoretical investigation is carried out under the direction of a faculty member in Astronomy, as discussed under the heading of the degree with honors in Astronomy above.

Class Format: Independent study

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option  
Prerequisites: permission of department

Distributional Requirements: Division 3, Writing Intensive  

ASTR 497(F) Independent Study: Astronomy  
In consultation with a faculty member, independent study of topics not covered in the current curriculum.

Class Format: Independent study

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option  

Distributional Requirements: Division 3, Writing Intensive  

ASTR 498(S) Independent Study: Astronomy  
Independent study

Class Format: Independent study

Extra Info: May not be taken on a pass/fail basis; not available for the fifth course option  

Distributional Requirements: Division 3, Writing Intensive  

ASTR 499(F) Physics and Astronomy Colloquium  
Crosslistings: PHYS 499/ASTR 499  
Physicists and astronomers from around the country come to explain their research. Students of Physics and Astronomy at any level are welcome. Registration is not necessary to attend. A non-credit course.
BIOCHEMISTRY AND MOLECULAR BIOLOGY (DIV III)
Chair: Professor DANIEL LYNCH

Biochemistry and molecular biology are dynamic fields that lie at the forefront of science. Through elucidation of the structure and function of biologically important molecules (such as nucleic acids, lipids, proteins, and carbohydrates) these disciplines have provided important insights and advances in the fields of molecular engineering (recombinant DNA technology, "intelligent" drug design, "in vitro evolution"), genomics and proteomics, signal transduction, immunology, developmental biology, and evolution.

The Biochemistry and Molecular Biology Program is designed to provide students with an opportunity to explore living systems in molecular terms. Biochemistry and molecular biology are at the interface between the chemical and biological methods of looking at nature; therefore, the program draws heavily from these disciplines. While chemistry is concerned with the relationship between molecular structure and reactions, and biology focuses on cells and organisms, biochemistry and molecular biology probe the details of the structures and interactions of molecules in living systems in order to provide the foundation for a better understanding of biological molecules both individually and as members of more complex structures.

PROGRAM

While aspects of biochemistry and molecular biology can be very diverse, a common set of chemical and biological principles underlie the more advanced topics. With this in mind, the program has been structured to provide the necessary background in chemistry and biology and the opportunity to study the many facets of the modern areas of the biochemical sciences. Students interested in the Biochemistry and Molecular Biology Program should plan their course selection carefully. Since it is expected that Biochemistry 321 and 322 would be taken in the junior year, students are advised to take the prerequisites for those courses in both chemistry and biology during their first two years at Williams. While the program is open to all students, it is expected that it will appeal primarily to majors in biology and chemistry because of the number of courses required in those fields. In addition to taking the required courses, students planning to complete the Biochemistry and Molecular Biology Program are strongly encouraged to elect courses in mathematics and physics.

The following interdepartmental courses serve as the core of the Biochemistry and Molecular Biology Program. BIMO 321 and 322 provide a comprehensive introduction to biochemistry. BIMO 401, the capstone course for the concentration, provides students the opportunity to examine the current scientific literature in a wide variety of BIMO-related research areas.

To complete the concentration in Biochemistry and Molecular Biology, a student must complete all of the required courses listed below, take at least one elective in biochemistry and one elective in chemistry from the list below, and attend at least eight Biology and/or Chemistry Department colloquia. Since the Chemistry Department counts two biology courses and the Biology Department counts two chemistry courses toward the majors (each of which can be completed with only eight other courses), a student majoring in either chemistry or biology would have to take only two or three additional courses to complete the program.

Required Courses

- BIMO 321/BIOI 321/CHEM 321 Biochemistry I: Structure and Function of Biological Molecules
- BIMO 321/BIOI 321/CHEM 321 Biochemistry II: Metabolism
- BIMO 401 Topics in Biochemistry and Molecular Biology
- BIOL 101 The Cell
- BIOL 102 The Organism
- BIOL 202 Genetics
- CHEM 151 Introductory Chemistry or CHEM 153 Concepts of Chemistry or CHEM 155 Principles of Modern Chemistry
- CHEM 156 Organic Chemistry: Introductory Level
- CHEM 251 Organic Chemistry: Intermediate Level
- CHEM 256 Advanced Chemical Concepts (not required if CHEM 155 was taken)

Students can check with the program chair to see if other courses not listed here might count as electives.

Elective Courses

BIMO 301 Developmental Biology
BIMO 305 Evolution
BIMO 306 Cellular Regulatory Mechanisms
BIMO 308 Integrative Plant Biology: Fundamentals and New Frontiers
BIMO 310/NSCI 310 Neural Development and Plasticity
BIMO 313 Immunology
BIMO 315 Microbiology: Diversity, Cellular Physiology, and Interactions
BIMO 319/MATH 319/CHEM 319/PHYS 319/CSC 319 Integrative Bioinformatics, Genomics, and Proteomics Lab
BIMO 326 Cellular Assembly and Movement
BIMO 406 Dynamics of Membrane Systems
BIMO 407/NSCI 347 Neurobiology of Emotion
BIMO 408 RNA Worlds
BIMO 410 Nanomachines in Living Systems
BIMO 414 Life at Extremes: Molecular Mechanisms
BIMO 416 Epigenetics
METB 418 Signal Transduction to Cancer
BIMO 426 Frontiers in Muscle Physiology: Controversies
BIMO 430 Genome Sciences: At the Cutting Edge
CHEM 324 Enzyme Kinetics and Reaction Mechanisms
CHEM 326 Chemical Biology: Discoveries at the Interface
CHEM 338 Bioinorganic Chemistry
CHEM 341/ENVI 341 Toxicology and Cancer
CHEM 342 Synthetic Organic Chemistry
CHEM 343 Medicinal Chemistry
CHEM 344 Physical Organic Chemistry
CHEM 348 Polymer Chemistry
CHEM 364/ENVI 364 Instrumental Methods of Analysis
CHEM 366 Thermodynamics and Statistical Mechanics
CHEM 367 Biophysical Chemistry

Colloquium Requirement

Concentrators must attend at least eight Biology and/or Chemistry Department colloquia. The Biology and Chemistry Departments hold colloquia on Friday afternoons during the fall and spring semesters. Scientists from other academic or research institutions are invited to present their research to students. Therefore, there are approximately a dozen colloquia offered each semester among which BIMO concentrators may choose. Attendance at the honors student research presentations and the Biology/BIMO Alumni Reunion poster session also count toward the colloquium requirement. Concentrators may receive credit for colloquia attended during any of their semesters at Williams College.

BIMO 321(F) Biochemistry I: Structure and Function of Biological Molecules (Q)

Crosslistings: BIMO 321/BIOI 321/CHEM 321

This course introduces the basic concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The laboratory provides a hands-on opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays.

Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports
Extra Info: may not be taken on a pass/fail basis
Prerequisites: BIOL 101 and CHEM 251/255 and CHEM 155/256
Enrollment Preferences: junior and senior Biochemistry and Biology majors and BIMO concentrators
Enrollment Limit: 48
Expected Class Size: 48
Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: BGNP Related Courses, BIMO Required Courses

BIMO 322(S) Biochemistry II: Metabolism (Q)

Crosslistings: BIMO 322/BIOI 322/CHEM 322

This lecture course provides an in-depth presentation of the complex metabolic reactions which are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino
acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: lecture, three hours per week; laboratory, three hours per week.

Requirements/Evaluation: evaluation is based on several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphical analysis of the data generated

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course.

Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Enrollment Limit: 64

Expected Class Size: 64

Dept. Notes: does not satisfy the distribution requirement in the Biology major.

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Other Attributes: BGNP Related Courses, BIMO Required Courses

Spring 2018

LEC Section: 01 MWF 10:00 AM 10:50 AM Instructor: Pei-Wen Chen
LAB Section: 02 T 01:00 PM 04:00 PM

BIMO 401(S) Topics in Biochemistry and Molecular Biology (W)

This seminar course involves critical reading, analysis, and discussion of papers from the current biochemistry and molecular biology literature. Specific topics vary from year to year but are chosen to illustrate the importance of a wide range of both biological and chemical approaches to addressing important questions in the biochemical and molecular biological fields. To facilitate discussion, students will prepare written critiques analyzing the data and conclusions of the chosen literature.

Class Format: seminar, three hours per week

Requirements/Evaluation: evaluation will be based on class presentations and discussions, frequent short papers, and a final paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: BIOL 202 and BIMO 321

Enrollment Preferences: those completing the BIMO program; open to others with permission of instructor

Enrollment Limit: 12

Expected Class Size: 10

Distributional Requirements: Division 3, Writing Intensive

Other Attributes: BIMO Required Courses

Spring 2018

SEM Section: 01 MW 11:00 AM 12:15 PM Instructor: Robert Savage

BIOINFORMATICS, GENOMICS, AND PROTEOMICS (DIV III)

Bioinformatics, genomics, and proteomics are rapidly advancing fields that integrate the tools and knowledge from biology, chemistry, computer science, mathematics, physics, and statistics in research at the intersection of the biological and informational sciences. Inspired by the enormous amount of biological data that are being generated from the sequencing of genomes, these new fields will help us pose and answer biological questions that have long been considered too complex to address. Research in genomics, proteomics, and bioinformatics will also significantly impact society affecting medicine, culture, economics, and politics.

The Bioinformatics, Genomics, and Proteomics curriculum involves faculty from the biology, chemistry, computer science, mathematics/statistics, and physics departments and was designed to provide students with an understanding of these revolutionary new areas of investigation. The introductory level course, Computer Science and Biology and Statistics, Biologists are accessible to all students interested in gaining familiarity with the power of genomic analysis. Students interested in graduate work in bioinformatics, genomics, and proteomics should take the core courses and five of the recommended courses. Interested students are also encouraged to participate in independent research with members of the advisory faculty as they explore the development of these new fields.

Core Course
BIOL 319/MATH 319/CHM 319/PHYS 319/CSCI 319 Integrative Bioinformatics, Genomics, and Proteomics Lab

Recommended Courses (in addition to the core course):
BIOL 202 Genetics
BIOL 305 Evolution
BIOL 430 Genome Sciences: At the Cutting Edge
CSCI 134 Introduction to Computer Science
CSCI 136 Data Structures and Advanced Programming
CSCI 256 Algorithm Design and Analysis

PHYS 315/CSCI 315 Computational Biology
STAT 101 Elementary Statistics and Data Analysis
STAT 201 Statistics and Data Analysis

Related Courses
BIMO 321/BIOLOG 321 Biochemistry I: Structure and Function of Biological Molecules
BIMO 322/BIOLOG 322 Biochemistry II: Metabolism
MATH 337 Phylogenetics
PHYS 302 Statistical Mechanics & Thermodynamics
STAT 231 Statistical Design of Experiments

BIOLOGY (DIV III)

Chair: Professor JOAN EDWARDS

The Biology curriculum has been designed to provide students with a broad base for understanding principles governing life processes at all levels, from biochemistry and cell biology to physiology and ecology and behavior. Courses emphasize fundamentals common to all sub-disciplines including the coupling of structure to function, the transfer of energy in living systems, communication, and the molding of diversity by the evolutionary process. In upper-level courses and in independent and honors research, students have the opportunity to investigate areas at the frontiers of modern biology.

Although the Biology major is specifically designed to provide a balanced curriculum in the broader context of the liberal arts, it is also excellent preparation for graduate studies in the life sciences and in the health professions.

MAJOR REQUIREMENTS

In order to make the major accessible to students with diverse interests, required courses are kept to a minimum. The Biology major is satisfied by nine courses, as follows:

- Biology 101 The Cell
- Biology 102 The Organism
- Biology 202 Genetics
- Any two 300-level courses, each of which must have a laboratory associated with it
- Any one 400-level course other than 493-494
- Any other three courses or any other two courses and two semesters of Organic Chemistry

Note: Independent study courses and AMS 311 (Same as Biology 231) do not fulfill the 300-level or 400-level course requirements. WIOX 316 Biology: Evolution, in the Williams Oxford Program qualifies for major credit at the 200-level.

Distribution Requirement

In order to ensure that majors broaden their knowledge of biology, one of the elective courses for the major must include an upper-level course covering biological processes at levels of organization above the cell. Courses that satisfy this distribution requirement are indicated in the individual course description.

COURSE SELECTION AND PLACEMENT

It is preferable for students who plan to major in biology, or think they may be interested in doing so, to take Biology 101, 102 during their first year at Williams. It is also possible to begin the Biology major during the sophomore year, although students should understand that it may require taking two or more biology courses during several semesters.

Students interested in biology, whether or not they intend to major in it, are encouraged to take Biology 101, 102. It is also possible, with permission of the instructor, to take Biology 203 Ecology, Biology 204 Animal Behavior and Biology 220 Field Botany without prerequisite. Other 100-level biology courses are designed specifically for students who do not intend to take additional upper-level courses in biology. All of these courses satisfy the Division III distribution requirement.

Beginning students should normally enroll in Biology 101 and 102. Students with unusually strong backgrounds in biology, such as those with outstanding performance on the College Board Biology Advanced Placement Test, may be permitted to elect a sophomore-level course in lieu of Biology 101 and/or Biology 102 upon successful completion of a departmental qualifying exam, administered during First Days.

COURSES RELATED TO THE BIOLOGY MAJOR

Students planning to pursue their interest in biology and related fields after completing their undergraduate degrees are strongly encouraged to take one year of college chemistry, at least one semester of mathematics (a course in statistics is recommended), and one semester of physics. Students may wish to check the requirements for graduate admission at relevant universities, and are also encouraged to consult with the Biology Department’s graduate school advisor about prerequisites for admission to graduate programs.
BIOCHEMISTRY AND MOLECULAR BIOLOGY
Students interested in Biochemistry and Molecular Biology (BIMO) should consult the general statement under Biochemistry and Molecular Biology.

BIOINFORMATICS, GENOMICS AND PROTEOMICS
Students interested in Bioinformatics, Genomics and Proteomics (BiGP) should consult the general statement under Bioinformatics, Genomics and Proteomics. Biology majors interested in this field are strongly encouraged to enroll in Integrative Bioinformatics, Genomics, and Proteomics (Biology 319).

NEUROSCIENCE
Students interested in Neuroscience (NSCI) should consult the general statement under Neuroscience.

PUBLIC HEALTH
Students interested in Public Health (PH) should consult the general statement under Public Health.

ENVIRONMENTAL STUDIES
Students interested in Environmental Studies (ENVI) should consult with Biology faculty members associated with the program and the general statement under Environmental Studies.

THE DEGREE WITH HONORS IN BIOLOGY
In order to be recommended for the degree with honors, a Biology major is normally expected to have completed the equivalent of two semesters and a winter study (031) of independent research culminating in a thesis which demonstrates outstanding achievement of an original and innovative nature. Although the presentation of a thesis and associated oral presentation in the fall and poster defense are required for consideration for a degree with honors, their completion should not be interpreted as a guarantee of a degree with honors. The principal considerations in admitting a student to the program of independent honors research will be mastery of fundamental principles and knowledge and the student’s ability to complete the independent study successfully, and demonstrated interest and motivation. Students interested in participating in the honors program should consult with the department early in the spring semester of the junior year; approval must be received before spring registration in the junior year. The number of Biology Department faculty available to mentor research students and the number of students each can accommodate in her/his lab vary from year to year. Although the department will make every effort to provide an opportunity for students to conduct Honors research, you should be aware that it may not be possible to assign all applicants to a laboratory.

The minimum course requirement for a degree with honors in Biology are Biology 101, Biology 102, Biology 202, two 300-level biology courses (each of which must have a laboratory), two 400-level courses (one of which must have laboratory), and Biology 493, Biology 494, WSP 031, and any other two courses in biology (or any other one course and two semesters of Organic Chemistry).

Note: A student who has a double major cannot count any course twice. For example, if a student is a Biology and Chemistry major, Organic Chemistry can only be counted in one of the two majors.

In addition to the normal honors route, which includes two semesters (Biology 493-494) and a winter study of research (WSP 031) during senior year, students have the option, subject to the approval of their thesis advisor, to begin the honors research during winter study junior year or during the second semester junior year. In general, thesis students who start during WSP or spring semester of their junior year are working on a project that requires winter study. Students beginning honors in winter study of junior year would take Biology 494 in the spring of their junior year followed by Biology 493 in the fall of their senior year; students beginning honors during the second semester of junior year would take Biology 494 that semester, followed by Biology 493 in the fall of senior year and winter study research in the winter of the senior year.

STUDY ABROAD
Students planning on majoring in Biology are strongly advised to take Biology 202 before going abroad, since Biology 202 is required for the major and a prerequisite for many upper-level courses; a Genetics course taken while studying away cannot substitute for Biology 202. Biology majors studying abroad may receive credit toward the major for at most two 200-level electives; the departmental distribution requirement can be satisfied through an appropriate course taken during study abroad. Students should meet with the Department Chair to discuss study abroad options. You can find general study away guidelines for Biology here.

CREDIT FOR COURSES AT OTHER INSTITUTIONS
Students who enroll in study away programs may receive credit for up to two 200-level electives toward the biology major upon approval of the course syllabi by the Biology Department Chair.

Students wishing to satisfy prerequisites for courses offered by the Biology Department with courses taken at other institutions should consult, in person, with a member of the Biology Department; prior to registering for the course that requires a prerequisite. Such consultations will include a review of the course syllabi and the transcripts of the relevant previous college work, and students should bring these materials with them.

RESEARCH AND THESIS COURSES
Individual research projects must be approved by the department. Application should be made to the department prior to spring registration.

Note: Senior thesis and independent study courses do not count as 300-level or 400-level course requirements for the major. Only one research course (i.e., BIOL 297, BIOL 298, BIOL 493, or BIOL 494) may be counted towards the major requirements.

BIOL 101(F) The Cell
This course investigates cell structure and function as a consequence of evolutionary processes, and it stresses the dynamic properties of living systems. Topics include an introduction to biological molecules and enzymes, action, membrane structure and function, energy exchange and design of metabolic systems, expression of genetic information, cell signaling, cell trafficking, the cell cycle, and cancer. Student-designed laboratory experiments and discussions based on primary biology literature will highlight how biological knowledge is created and understood.

Class Format: Lecture, 3 hours per week; laboratory and discussion, 3 hours per week
Requirements/Evaluation: evaluation will be based on hour tests, a final exam, lab reports, discussion assignments, and discussion participation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first year students
Enrollment Limit: 48/Lecture
Expected Class Size: 192
Distributional Requirements: Division 3

BIOL 102(S) The Organism
This course focuses upon the developmental and evolutionary processes that have given rise to a wide diversity of multicellular organisms. We consider many levels of biological organization, from molecular and cellular to whole individuals and populations in our examination of evolutionary concepts. Topics include meiosis and sexual reproduction, developmental and evolutionary mechanisms, and speciation with representative examples from a diversity of plants and animals. Readings are drawn from a variety of sources, including the recent primary literature.

Class Format: lecture/discussion/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on hour tests, a final exam, three lab reports, and problem sets
Extra Info: may not be taken on a pass/fail basis
Prerequisites: BIOL 101 or permission of instructor
Enrollment Limit: none
Expected Class Size: 152
Distributional Requirements: Division 3

BIOL 110(F) Bowen’s World of Biology
This course, intended for the non-scientist, focuses on the impact of exercise and nutrition on the human body. We will discuss topics such as how different types of training influence exercise performance; the changes that occur in the cardiovascular system during an exercise routine; the inherent limits of the body to perform aerobic and anaerobic tasks; and the long-term health consequences of a lifetime of activity of inactivity. We will also examine how nutrition and metabolism affect body composition. For example, we will rigorously and scientifically scrutinize the use of “fad” diets as a means to lose weight.

Class Format: lecture 3 hours per week
Requirements/Evaluation: evaluation will be based on exams and biweekly laboratory exercises and laboratory report
Prerequisites: none
Enrollment Preferences: seniors, juniors, sophomores, then first-year students
Enrollment Limit: 120
Expected Class Size: 120
Dept. Notes: does not satisfy the distribution requirement for the Biology major
BIOL 134(S) The Tropics: Biology and Social Issues (D) Crosslistings: BIOL 134/ENVI 134

Intended for the non-scientist, this course explores the biological dimensions of social issues in tropical societies, and focuses on specifically on the peoples and cultures of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to the human environment and physiology. The course begins with a survey of the tropical environment of humans, including major climatic and habitat features. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria and AIDS. The final part of the course covers the place of human societies in local and global environmental issues of tropical food production, the importance of organic diversity, and the interaction of humans with their supporting ecological environment. This course fulfills the ED requirement.

Class Format: lecture/debate, three hours per week
Requirements/Evaluation: evaluation will be based on two hour exams, a short paper, and panel presentations in class exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Preferences: seniors, juniors, sophomores, and first-year students—in that order
Enrollment Limit: 60
Expected Class Size: 60

BIOL 136 Studying Human Genetic Diversity: Individuals, Populations, and ‘Races’—Dangerous Biology (D)

Scientists are rapidly acquiring DNA sequence information on thousands of individuals from a wide variety of human populations. This information can be used to illuminate human history and evolution. It can also be used in the field of medicine to develop new drugs and as a first step toward tailoring treatments to match individuals’ genomes. This information can also create new ethical and social dilemmas. Do such studies support or refute the idea of a biological basis for “race”? Can the data be used to justify societal inequities? Do the data have any use outside of scientific circles? Through reading scientific articles we’ll explore genome sequencing data to determine the types of DNA differences that exist among humans. We’ll examine the data in the light of human population history (migration, population bottlenecks, selection) to understand how these variations come about. Through these and other implications of these studies for individuals and for society. In particular we’ll critique the use of such information in guiding policy and practice in areas such as genetic screening and eugenics, ancestry testing, ‘race-based’ medicine, forensics, as an ED course, we’ll examine issues of power and privilege in shaping practice and policy associated with these genetic initiatives, such as in deciding what populations to study, in administering informed consent, and in addressing health disparities.

Class Format: seminar
Requirements/Evaluation: one exam, one short paper (4-6 pages), final paper (10-12 pages); class participation
Prerequisites: none

Enrollment Preferences: juniors, sophomores, seniors, first-years; not open to students who have taken BIOL 202 or BIOL 132
Enrollment Limit: 20
Expected Class Size: 20

Distributional Requirements: Distribution 3, Exploring Diversity
Other Attributes: PHLL Biomedical Determinants of Health
Not Offered Academic Year 2018

BIOL 202(F) Genetics (Q)

Genetics, classically defined as the study of heredity, has evolved into a discipline whose limits are continually expanded by innovative molecular technologies. This course covers the experimental basis for our current understanding of the inheritance, structures, and functions of genes. It introduces approaches used by contemporary geneticists and molecular biologists to explore questions in areas of biology ranging from evolution to medicine. The laboratory part of the course provides an experimental introduction to modern genetic analysis. Laboratory experiments include linkage analysis, bacterial transformation with plasmids and DNA restriction mapping.

Class Format: lecture/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on bi-weekly problem sets, weekly laboratory exercises and laboratory reports, and examinations

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: BIOL 101 and 102

Enrollment Limit: none

Expected Class Size: 84

Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: PHLL Biomedical Determinants of Health

BIOL 203(F) Ecology (Q) Crosslistings: BIOL 203/ENVI 203

This course combines lectures with field and indoor laboratory exercises to explore factors that determine the distribution and abundance of plants and animals in natural systems. The course begins with an overall view of global patterns and then builds from the population to the ecosystem level. An emphasis is given to basic ecological principles and relates them to current environmental issues. Selected topics include population dynamics (competition, predation, mutualism); community interactions (sucception, food chains and diversity) and ecosystem function (biogeochemical cycles, energy flow).

Class Format: lecture/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on problem sets, lab reports, hour exams, and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: BIOL 101 and 102, or ENVI 101 or 102, or permission of instructor
Enrollment Limit: none

Expected Class Size: 35

BIOL 204(S) Animal Behavior Crosslistings: BIOL 204/NSCI 204

Making sense of what we see while watching animals closely is both an enthralling pastime and a di
e

Class Format: lecture/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on examinations, lab reports, and a research paper
Extra Info: not available for the fifth course option

Prerequisites: BIOL 102, or PSYC 101, or permission of instructor

Enrollment Preferences: Biology majors and Neuroscience concentrators
Enrollment Limit: 32

Expected Class Size: 32

Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3
Other Attributes: PHLL Biomedical Determinants of Health

BIOL 205(S) Physiology

This lecture-based course examines principles, patterns, and mechanisms of physiological function from the level of cells and tissues to the whole organism. The themes of the course include structure and function, mechanisms of
regulation, control and integration, and adaptation to the environment. Examples of these themes are taken from a wide variety of organisms with a focus on vertebrates. Laboratories provide practical experience in measurement and experimental elucidation of physiological phenomena and final analysis of gross structure.

Requirements/evaluation: evaluation will be based on hour exams, laboratory reports, and a final exam
Prerequisites: BIOL 101 and 102; open to first-year students with permission of the Biology department
Enrollment Preferences: seniors, then juniors, then sophomores
Enrollment Limit: 72
Expected Class Size: 72

BIOL 210(S) Mathematical Biology (Q)

Crosslistings: MATH 310/BIOL 210

This course will provide an introduction to the many ways in which mathematics can be used to understand, analyze, and predict biological dynamics. We will learn how to construct mathematical models that capture essential properties of biological processes while maintaining analytic tractability. Analytic techniques, such as stability and bifurcation analysis, will be introduced in the context of both continuous and discrete time models. Additionally, students will use analytic tools with numerical simulation to gain a more global picture of the biological dynamics. Possible biological applications include, but are not limited to, single and multi-species population dynamics, neural and biological oscillators, tumor cell growth, and infectious disease dynamics. In addition to lecture and discussion sessions, there will be computer labs and a final project.

Class Format: lecture
Requirements/Evaluation: homework, exams, final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: MATH 209 (or related), MATH 250, or permission of instructor
Enrollment Preference: students who have not taken a modeling course as well as students interested in pursuing mathematical biology
Enrollment Limit: 30
Expected Class Size: 20

BIOL 211 Paleobiology

Crosslistings: GEOS 212/BIOL 211

The fossil record is a direct window into the history of life on Earth and contains a wealth of information on evolution, biodiversity, and climate change. This course investigates the record of ancient life forms, from single-celled algae to snails to dinosaurs. In addition to the intellectual discovery of extinct organisms; and using fossil communities to reconstruct past ecosystems. Laboratory exercises will take advantage of Williams' superb fossil collections as well as published datasets to provide a broad understanding of fossils and the methods we use to study the history of life on Earth. We will also view a diversity of fossils in their geologic and paleo-environmental context on our field trip to Eastern New York.

Class Format: lecture/laboratory; field trip to the the Paleozoic of New York State
Requirements/Evaluation: evaluation will be based on lab assignments, short quizzes and writing assignments, and a final exam
Prerequisites: any BIOL 102, 203 or 205 course or BIOL 102, 203 or 205
Enrollment Preferences: sophomores and juniors
Enrollment Limit: 15
Expected Class Size: 12

BIOL 212(F) Neuroscience

Crosslistings: NSCI 201/BIOL 212/PSYC 212

A study of the relationship between brain, mind, and behavior. Topics include a survey of the structure and function of the nervous system, basic neurophysiology, development, learning and memory, sensory and motor systems, consciousness and clinical disorders such as schizophrenia, autism, Parkinson's disease, and addiction. The laboratory focuses on current topics in neuroscience.

Class Format: lecture, three hours a week; laboratory, every other week
Requirements/Evaluation: evaluation will be based on a lab practical, lab reports, two hour exams and a final exam
Extra Info: may not be available/or the fifth course option
Prerequisites: BIOL 101 or PSYC 101; open to first-year students only with permission of instructor
Enrollment Preferences: sophomores and Biology and Psychology majors
Enrollment Limit: 72
Expected Class Size: 72

BIOL 214T Mathematical Ecology (Q)

Crosslistings: MATH 410/BIOL 214

Using mathematics to study natural phenomena has become ubiquitous over the past couple of decades. In this tutorial, we will study mathematical models comprised of both deterministic and stochastic differential equations that are used in various areas such as ecology, epidemiology, and economics. We will learn how to understand these models through both standard analytic techniques such as linearization and bifurcation analysis as well as through simulation using computer programs such as MATLAB. Possible topics include fisheries management, disease ecology, control of invasive species, and predicting critical transitions in ecological systems.

Class Format: tutorial
Requirements/Evaluation: written and programming assignments, oral presentations, and exams
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: MATH 250 or permission of instructor; Math 209 preferred
Enrollment Preferences: programming experience, students with interests in the intersection of math and biology

BIOL 219T Dangerous Exposures: Environment, Immunity, and Infectious Disease (W)

Global reports of emerging infectious diseases and old diseases with new pathogenic properties incite fears for personal safety as well as national security. The specter of a contagious pandemic has captured the public imagination through the mass news media, movies, and even popular online and board games. In this tutorial course, we will explore the ecology and evolution of several recently emergent diseases such as Ebola hemorrhagic fever, dengue, and AIDS. Topics to be considered include transmission dynamics, epidemiological modeling of vaccination strategies, and wildlife reservoirs that contribute to human virus exposure. We will examine progress in preventing the parasitic disease malaria and why such diseases have proven so refractory. We will also discuss the science behind the recent development of the vaccine against the human papillomavirus, which causes cervical cancer, and the intriguing and highly unusual transmissible cancers in dogs and Tasmanian devils. Finally, we will think about the contributions of inadequate diagnostic capacities world-wide and broader issues of resource shortages in driving the global emergence of drug resistance in tuberculosis and other chronic diseases. One common theme in each of these case studies will be the interplay between the host immune response and the evolution of the pathogen. Although the primary focus of the course is on biology rather than policy, each week's readings will have implications for public health and/or conservation biology.

Class Format: tutorial
Requirements/Evaluation: six 4- to 5-page papers; tutorial presentations, and the student's progress towards intellectual independence and creativity as a presenter and a respondent
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 101 and 102
Enrollment Preferences: sophomores, students interested in public health

BIO 220(S) Field Botany and Plant Natural History
Crosslistings: BIO 220/ENVI 220
This field-lecture course covers the evolutionary and ecological relationships among plant groups represented in our local and regional flora. Lectures focus on the evolution of the land plants, the most recent developments in plant systematics, characteristics of plant families, and cultural-economic uses of plants, especially native species. The labs cover field identification, natural history, and ecology of local species.
Class Format: lecture
Requirements/Evaluation: evaluation will be based on exams, field quizzes, field notes, and a class project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: seniors, Biology majors, and Environmental Studies majors & concentrators
Enrollment Limit: 30
Expected Class Size: 25
Dept. Notes: satisfies the distribution requirement in the Biology major
Distributional Requirements: Division 3
Other Attributes: ENVI Natural World Electives, EVST Living Systems Courses, EXPE Experiential Education Courses, PHLH Nutrition, Food Security+Environmental Health
Spring 2018
LEC Section: 01 MWF 09:00 AM-09:50 AM Instructor: Heny Art
LAB Section: 02 T 01:00 PM-04:00 PM Instructor: Heny Art
LAB Section: 03 W 01:00 PM-04:00 PM Instructor: Heny Art

BIOL 231(F,S) Marine Ecology
Crosslistings: MAST 311/BIO 231
Using the principles of evolutionary biology and experimental ecology, this course examines the processes that control the diversity, abundance and distribution of marine organisms. Major marine communities, including estuaries, the rocky shore, sandy beaches, salt marshes, coral reefs, and the deep sea are discussed in detail.
Class Format: lecture/laboratory, including coastal and near-shore field trips, 10 days offshore, and a laboratory or field research project
Requirements/Evaluation: two tests, a research project, and a presentation
Extra Info: offered only at Mystic Seaport
Prerequisites: BIOL 101 or GEOS/MAST 104, or permission of instructor
Distributional Requirements: Division 3
Other Attributes: ENVI Natural World Electives, EVST Living Systems Courses, EXPE Experiential Education Courses
Fall 2017

BIOL 234T(S) Biology of our Sexes: The Genetic and Epigenetic Regulation of Sex Determination (W)
Many physical and behavioral characteristics that are associated with male and female anatomy, physiology, and behavior are initially the products of molecular choices arising from the action of our chromosomes in early development. The embryonic assignment of sex can also lead to intersex or hermaphroditic outcomes in many different organisms with extraordinary and illuminating biological effects. We will explore the molecular mechanisms and evolutionary basis of sex determination in both plants and animals, as well as the physical and behavioral expression of sex by the organism discussed, and experiments that create and characterize traits and behavior of mosaic/intersex organisms. Additionally, the epigenetic regulation of the X chromosome in mammals has a canonical role in our understanding of sex determination, but whole genome studies and investigations of autosomes and the Y chromosome have raised new layers of complexity for understanding the molecular basis of human sex and sexuality.
Class Format: tutorial
Requirements/Evaluation: six 5-page papers; six 1-page response papers; tutorial presentations; discussion skills/investment
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202 (Genetics)
Enrollment Preferences: sophomores and juniors, with preference to Biology majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 3, Writing Intensive
Spring 2018
TUT Section: T1 MWF 08:30 AM-09:45 AM Instructor: Tim Lebestyck

BIO 297(F) Independent Study: Biology
Biology 200-level independent study. Each student carries out independent field or laboratory research under the supervision of a member of the department.
Class Format: independent study
Distributional Requirements: Division 3
Fall 2017
IND Section: 01 TBA Instructor: Joan Edwards

BIO 298(S) Independent Study: Biology
Biology 200-level independent study. Each student carries out independent field or laboratory research under the supervision of a member of the department.
Class Format: independent study
Distributional Requirements: Division 3
Spring 2018
IND Section: 01 TBA Instructor: Joan Edwards

BIOL 301 Developmental Biology
Developmental biology has undergone rapid growth in recent years and is becoming a central organizing discipline that links cells and molecular biology, evolution, anatomy and medicine. We are now beginning to have a molecular understanding of fascinating questions such as how cells decide their fate, how patterns are created, how male and females can be distinguished, and how organisms came to be different. We have also discovered how the misregulation of important development regulatory genes can lead to a variety of known cancers and degenerative diseases in humans. In this course we will examine these and related topics combining a rich classical literature with modern genetic and molecular analyses.
Class Format: lecture/discussion/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on hour exams, short papers, and a final exam
Prerequisites: BIOL 202 or permission of instructor
Enrollment Preferences: Biology majors
Enrollment Limit: 24
Expected Class Size: 15
Dept. Notes: does not satisfy the distribution requirement in the Biology major
Distributional Requirements: Division 3
Other Attributes: BIOM Interdepartmental Electives
Not Offered Academic Year 2018
LEC Instructor: Robert Savage

BIOL 302 Communities and Ecosystems (Q)
Crosslistings: BIO 302/ENVI 312
An advanced ecology course that examines how species interact with each other and their environment with a focus on conservation implications. This course emphasizes phenomena that emerge in complex ecological systems, building on the fundamental concepts of population biology, community ecology, and ecosystem science. This foundation will be used to understand specific topics relevant to conservation including the functional significance of diversity for ecosystem stability and processes. Lectures and labs will explore how to characterize the emergent properties of communities and ecosystems, and how theoretical, comparative, and experimental approaches are used to understand their structure and function. The lab component of this course will emphasize hypothesis-oriented field experiments but will also include some laboratory microcosm experiments. The laboratory component of the course will culminate with a self-designed independent or group project.
Class Format: lecture/laboratory, six hours a week
Requirements/Evaluation: evaluation will be based on lab reports, a midterm exam, a term project presentation, and a final project paper
Prerequisites: BIOL/ENVI 203 or 220
Enrollment Preferences: Biology majors and Environmental Studies majors and concentrators
Enrollment Limit: 28
Expected Class Size: 24
Dept. Notes: satisfies the distribution requirement in the Biology major
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: ENVI Natural World Electives, EVST Living Systems Courses, EXPE Experiential Education Courses
Not Offered Academic Year 2018
LEC Instructor: Manuel Morales

BIOL 305(S) Evolution (Q)
This course offers a critical analysis of contemporary concepts in biological evolution. We focus on the relation of evolutionary mechanisms (e.g., selection, drift, and migration) to long term evolutionary patterns (e.g., evolutionary innovations, origin of major groups, and the emergence of diversity). Topics include micro-evolutionary models, natural selection and adaptation, sexual selection, speciation, the inference of evolutionary history among others.
Class Format: lecture/discussion/laboratory, six hours per week
Requirements/Evaluation: evaluation will be based on independent research project, problem sets, participation in discussions and exams
Prerequisites: BIOL 202
Enrollment Preferences: Biology majors
Enrollment Limit: 24
Expected Class Size: 24
Dept. Notes: satisfies the distribution requirement in the Biology major
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: BIOM Interdepartmental Recommended Courses, BIMO Interdepartmental Electives, COGS Related Courses
Spring 2018
LEC Section: 01 MWF 10:00 AM-10:50 AM Instructor: Luana Maroja
LAB Section: 02 W 01:00 PM-04:00 PM Instructor: Luana Maroja
LAB Section: 03 R 01:00 PM-04:00 PM Instructor: Luana Maroja

BIOL 306 Cellular Regulatory Mechanisms
This course explores the regulation of cellular function and gene expression from a perspective that integrates current paradigms in molecular genetics,
intracellular trafficking, genomics, and synthetic biology. Selected topics include: the contribution of nuclear organization to genome regulation, mechanisms to maintain genomic integrity, transcriptional and post-transcriptional regulation, nuclear export, cell cycle and cell signaling. A central feature of the course will be discussion of articles from the primary literature, with an emphasis on the molecular bases for a variety of human pathologies such as cancer and aging. The laboratory will consist of a semester-long project that incorporates fluorescence-based approaches, quantitative PCR analysis of transcriptional patterns, bioinformatics, and protein analysis.

**Class Format:** lecture/discussion/laboratory

**Requirements/Evaluation:** evaluation will be based on three take-home tests, in-class discussion of papers, laboratory notebook/report, an independent lab research project, and a research paper

**Prerequisites:** BIOL 202

**Enrollment Preferences:** Biology majors; not open to first-year students

**Enrollment Limit:** 24

**Expected Class Size:** 22

**Dept. Notes:** does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives

*Not Offered Academic Year 2018*

**LEC Instructor:** Dawn Carone

---

**BIOL 308 Integrative Plant Biology: Fundamentals and New Frontiers**

Plants are one of the most successful groups of organisms on Earth and have a profound impact on all life. Successful use of plants in addressing global problems and understanding their role in natural ecosystems depends on fundamental knowledge of the molecular mechanisms by which they grow, develop, and respond to their environment. This course will examine the molecular physiology of plants using an integrative approach that considers plants as dynamic organisms, with internal and environmental factors that can affect their growth and development. Water transport, hormone physiology, and flowering, from the molecular to the organismal level. Environmental effects on these processes will be addressed in topics including plant development, stress physiology, mineral nutrition, and plant-microbe interactions. Discussions of original research papers will examine the mechanisms plants use to perform these processes and explore advances in the genetic engineering of plants for agricultural, environmental, and medical purposes. Laboratory activities stress modern approaches and techniques used in investigating plant physiological processes.

**Class Format:** lecture/discussion/laboratory, six hours per week

**Requirements/Evaluation:** evaluation will be based on lab reports, a term paper, and an exam

**Prerequisites:** BIOL 202

**Enrollment Preferences:** Biology majors

**Enrollment Limit:** 24

**Expected Class Size:** 12

**Dept. Notes:** satisfies the distribution requirement in the Biology major

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives, PHLH Nutrition, Food Security+Environmental Health

*Not Offered Academic Year 2018*

**LEC Instructor:** Claire Ting

---

**BIOL 310 Neural Development and Plasticity**

Crosslistings: BIOL 310/NSCI 310

Development can be seen as a tradeoff between genetically-determined and environmentally determined processes. The tension between these two inputs is particularly apparent in the developing nervous system, where many events must be predetermined, and where plasticity, or altered outcomes in response to environmental conditions, is also essential. Plasticity is reduced as development and differentiation proceed, and the potential for regeneration after injury or disease in adults is limited; however some exceptions to this rule exist, and recent data suggest that the nervous system is not hard-wired as previously thought. In this course we will discuss the molecular mechanisms governing nervous system development, from relatively simple nervous systems such as that of the fruitfly, to the more complicated nervous systems of humans, examining the roles played by genetically specified programs and non-genetic influences.

**Class Format:** lecture/lab, six hours per week

**Requirements/Evaluation:** exams

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth core course option

**Prerequisites:** BIOL 212 (same as PSYC 212 or NSCI 201) and BIOL 202 (or permission of instructor)

**Enrollment Preferences:** Biology majors; Neuroscience concentrators; Psych majors

**Enrollment Limit:** 24

**Expected Class Size:** 24

**Dept. Notes:** does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives, NSCI Group A Electives

*Not Offered Academic Year 2018*

**LEC Instructor:** Tim Lebesky

---

**BIOL 311(F) Neural Systems and Circuits**

Crosslistings: BIOL 311/NSCI 311

This course will examine the functional organization of the vertebrate brain, emphasizing both neuroanatomy and neurophysiology. How do specific populations of neurons and their connections analyze sensory information, form perceptions of the external and internal environment, make cognitive decisions, and execute movements? How does the brain produce feelings of reward/motivation and aversion/pain? How does the brain regulate homeostatic functions such as sleep, food intake, and thirst? We will explore these questions using a holistic, integrative approach, considering molecular/cellular mechanisms, physiological characterizations of neurons, and connectivity among brain systems. Laboratory sessions will provide experience in examining macroscopic and microscopic neural structures, as well as performing electrophysiological and functional imaging techniques to elucidate the structure and function of neural systems using classical and cutting-edge techniques.

**Class Format:** lecture/lab, six hours per week

**Requirements/Evaluation:** class participation, laboratory notebooks and papers, hour exams and a final exam

**Prerequisites:** BIOL 212 (same as PSYC 212 or NSCI 201) or BIOL 205

**Enrollment Preferences:** Biology majors and Neuroscience concentrators

**Enrollment Limit:** 24

**Expected Class Size:** 24

**Dept. Notes:** does not satisfy the distribution requirement in Biology

**Distributional Requirements:** Division 3

**Other Attributes:** NSCI Group A Electives

*Fall 2017*

**LEC Section:** 01 MWF 09:00 AM 09:50 AM Instructor: Matt Carter
**LAB Section:** 02 M 01:00 PM 04:00 PM Instructor: Matt Carter
**LAB Section:** 03 T 01:00 PM 04:00 PM Instructor: Matt Carter

**BIOL 313(S) Immunology**

The rapidly evolving field of immunology examines the complex network of interacting molecular mechanisms that function to recognize and respond to agents foreign to the individual. In this course, we will focus on the biochemical mechanisms that act to regulate the development and function of the immune system and how alterations in different system components can lead to disease. Textbook readings will be supplemented with current literature.

**Class Format:** lectures, three hours a week; laboratory, three hours a week

**Requirements/Evaluation:** evaluation will be based on exams, laboratory reports, and a research paper

**Prerequisites:** BIOL 202

**Enrollment Preferences:** senior and then junior Biology majors

**Enrollment Limit:** 24

**Expected Class Size:** 24

**Dept. Notes:** does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives, PHLH Biomedical Determinants of Health

*Spring 2018*

**LEC Section:** 01 MWF 11:00 AM 11:50 AM Instructor: Damian Turner
**LAB Section:** 02 M 01:00 PM 04:00 PM Instructor: Damian Turner
**LAB Section:** 03 T 01:00 PM 04:00 PM Instructor: Damian Turner

**BIOL 315(F) Microbiology: Diversity, Cellular Physiology, and Interactions**

Bioterrorism and the alarming spread of antibiotic resistant bacteria are but two of the reasons for the resurgence of interest in the biology of microorganisms. This course will examine microbes from the perspectives of evolution, genetics, molecular biology, and ecology. A central theme will be the adaptation of bacteria as they evolve to fill specific ecological niches, with an emphasis on microbe/host interactions that lead to pathogenesis. We will consider communication among bacteria as well as between bacteria and their environment. Topics include: microbial development, population dynamics, metagenomics, bioremediation, plant and animal defenses against infection, and bacterial strategies to subvert the immune system. In the lab, major projects will focus on horizontal gene transfer, metagenomics, and the development and characterization of bacteria from natural environments. The lab experience will culminate in multi-week independent investigations. Readings will be supplemented by articles from the primary literature.

**Class Format:** lectures, three hours a week; laboratory, three hours a week

**Requirements/Evaluation:** evaluation will be based on exams/assignments, responses to thought questions on readings, a lab report/notebook, and a poster presentation

**Prerequisites:** BIOL 202

**Enrollment Preferences:** senior and then junior Biology majors

**Enrollment Limit:** 24

**Expected Class Size:** 24

**Dept. Notes:** does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives, PHLH Biomedical Determinants of Health

*Fall 2017*

**LEC Section:** 01 MWF 11:00 AM 11:50 AM Instructor: Lois Banta
**LAB Section:** 02 T 01:00 PM 04:00 PM Instructor: Lois Banta
**LAB Section:** 03 R 01:00 PM 04:00 PM Instructor: Lois Banta

**BIOL 319 Integrative Bioinformatics, Genomics, and Proteomics Lab (Q)**
Crosslistings: BIOL 319/MATH 319/CHEM 319/PHYS 319/CSCI 319
What can computational biology teach us about cancer? In this capstone experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, physics, or students with their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, phylogenetics, and recombinant DNA techniques to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the MAPK signal transduction pathway in human ovarian cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry will be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week
Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal
Prerequisites: BIOL 301 and CSCI 225 or consent of instructor

BIOL 321(F) Biochemistry I: Structure and Function of Biological Molecules (Q)

Crosslistings: BIMO 321/BIOI 321/CHME 321
This course introduces the basic concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The laboratory provides a hands-on opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzyme assay. Note: students who have taken BIOL 202 but have not taken BIOL 101 and CSCI 315 or PHYS 315 may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Preferences: seniors, then juniors, then sophomores
Enrollment Limit: 15
Expected Class Size: 12
Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Attributes: BGNP Core Courses, BIMO Interdepartmental Electives
Not Offered Academic Year 2018
LEC Instructor: Lois Banta

BIOL 322(S) Biochemistry II: Metabolism (Q)

Crosslistings: BIMO 322/BIOI 322/CHME 322
This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: lecture, three hours per week; laboratory, three hours per week
Requirements/Evaluation: evaluation is based on several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of the data generated
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Preferences: junior and senior Biology and Chemistry majors
Enrollment Limit: 64
Expected Class Size: 64
Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Attributes: BGNP Related Courses, BIMO Required Courses

BIOL 326(F) Cellular Assembly and Movement

This course will focus on how multi-protein complexes are assembled to control key cellular processes in eukaryotic systems: 1) protein sorting and trafficking, 2) establishment and maintenance of cell architecture, and 3) mitosis, cell migration and tissue morphogenesis that require coordination of the membrane transport and cytoskeleton. The course will highlight involvement of these processes in pathological conditions. Laboratories will use mammalian tissue culture as a model system to study cellular functions. Important techniques in cell biology will be introduced in the first half of the semester; in the second half of the term, students will conduct a multi-week independent project. Textbook readings will be supplemented with primary literature.

Class Format: lectures, three hours a week; laboratory, three hours a week, the laboratory projects will require additional time outside of class hours
Requirements/Evaluation: three exams, in-class discussion of papers, lab reports, an oral presentation and research paper based on an independent lab research project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: BIOL 202

Enrollment Preferences: senior and junior Biology majors
Enrollment Limit: 24
Expected Class Size: 24
Dept. Notes: does not satisfy the distribution requirement in the Biology major

Distributional Requirements: Division 3
Attributes: BIMO Interdepartmental Electives

BIOL 329(F) Conservation Biology (Q)

This course examines the application of population genetics, population ecology, community ecology, and systematics to the conservation of biological diversity. The overall theme of the course is on the role of stochastic and spatial processes for small populations and lecture/discussion topics will include extinction, the genetics of small populations, metapopulations, and conservation strategies. Labs will include a mixture of field, computer, and lab projects.

Class Format: lecture
Requirements/Evaluation: Evaluation will be based on lab assignments, two exams, and discussion participation.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202, 203, 302, or permission of instructor
Enrollment Preferences: preference given to biology majors, seniors, and juniors
Enrollment Limit: 24
Expected Class Size: 24
Dept. Notes: meets the distribution requirement of the biology major.

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

BIOL 330(S) Genome Architecture

This course will concentrate on the origin, function, and evolution of central features of eukaryotic genomes, including gene structure, genome size, and the complexity of gene regulation. Students will develop the ability to evaluate the contribution of neutral and adaptive processes in shaping genome complexity through: 1) critical evaluation of the primary research literature, 2) investigation of genome structural variation using wet-lab approaches, and 3) an original research project using publicly available genomic data.

Class Format: lectures, three hours a week; laboratory, three hours a week;
the laboratory projects will require additional time outside of class hours
Requirements/Evaluation: three exams, written responses and in-class discussion of papers, laboratory reports, and a research paper based on an independent research
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202
Enrollment Preferences: Biology majors
Enrollment Limit: 24
Expected Class Size: 24
Distributional Requirements: Division 3
Spring 2018
LEC Section: 01 MWF 09:00 AM 09:50 AM Instructor: David Loehlin
LAB Section: 02 T 01:00 PM 04:00 PM Instructor: David Loehlin
LAB Section: 03 W 01:00 PM 04:00 PM Instructor: David Loehlin

BIOL 402(S) Rapid Evolution in Ecology
Darwin believed that evolution was a slow process. Until recently, the impact of evolutionary changes on short-term ecological studies was considered to be minimal. However, empirical documentation of rapid, directly observed evolution has changed this view and has led to an increased focus on the joint dynamics of ecology and evolution including community genetics, niche construction, and evolutionary rescue. In this course, we will first study the literature presenting the evidence for rapid evolutionary change in natural and experimental populations. Then, we will explore the consequences of rapid evolutionary change for our understanding of population, community, and ecosystems, including the impacts that evolutionary changes have on conservation efforts and predicting the response of organisms to global environmental and climate change.
Class Format: seminar
Requirements/Evaluation: Evaluation will be based on participation in discussions, several short papers, and presentations.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202
Enrollment Preferences: Biology seniors who have not yet taken a 400-level course
Enrollment Limit: 12
Expected Class Size: 12
Dept. Notes: satisfies the distribution requirement in the biology major
Distributional Requirements: Division 3
Spring 2018
SEM Section: 01 TR 11:20 AM 12:35 PM Instructor: Ron Bassar

BIOL 405T Sociobiology (W)
Sociobiology, or the study of social behavior, has challenged the limits of evolutionary theory since Darwin described the non-reproductive castes among social insects (i.e., eusociality) as “one special difficulty.” Inclusive fitness theory and Hamilton’s rule—that an altruistic act can evolve wherever the benefit to related individuals exceeds the cost to the actor—potentially resolves Darwin’s paradox. Nevertheless, explanations including delayed fitness benefits and ecological constraints have been suggested as alternatives to inclusive fitness theory. Moreover, the theoretical justification for inclusive fitness theory has recently been vigorously challenged. This course will use readings from the primary literature to examine the evidence for inclusive fitness as a potential explanation for topics including the evolution of helping behavior, eusociality and its relationship to extra-ordinal sex ratios, and spittle behavior. Other topics that we will cover include the evolution of deceit and self deception.
Class Format: tutorial
Requirements/Evaluation: evaluation will be based on five (4-5-page) papers, tutorial presentations, & the student's effectiveness as a critic.
Extra Info: may be not taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202 and either BIOL/ENVI 203 or 204 or 302 or 305 or permission of instructor; open to juniors and seniors
Enrollment Preferences: senior Biology majors who have not taken a 400-level course
Enrollment Limit: 10
Expected Class Size: 10
Dept. Notes: satisfies the distribution requirement in the Biology major
Distributional Requirements: Division 3, Writing Intensive
Not Offered Academic Year 2018
TUT Instructor: Manuel Morales

BIOL 406 Dynamics of Internal Membrane Systems
Eukaryotic cells build and maintain a diverse set of internal membrane compartments, such as the endoplasmic reticulum, the Golgi compartment, and lysosomes, which exist as parts of an interconnected and dynamic membrane system. Each of these membrane compartments has unique functions despite a general role of exchange between the different organelles.
This course will mechanistically examine the dynamics of how the identity and function of a number of proteins that are involved in the formation and maintenance of membrane systems such as the endoplasmic reticulum, Golgi apparatus, and lysosomes is achieved via highly regulated membrane trafficking events and investigate the importance of membrane trafficking in specialized biological processes including neurotransmission, glucose homeostasis, and immune cell killing. We will read and discuss current primary literature articles and discuss the essential techniques, experimental design, and models of cell biology.
Class Format: seminar
Requirements/Evaluation: discussion, three hours per week; evaluation will be based on class participation and 4 three page papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 202
Enrollment Preferences: open to juniors and seniors with preference given to senior biology majors who have not taken a 400-level course, then to juniors
Enrollment Limit: 12
Expected Class Size: 12
Distribution Notes: does not satisfy the distribution requirement in Biology
Distributional Requirements: Division 3
Other Attributes: BIMO Interdepartmental Electives
Not Offered Academic Year 2018
SEM Instructor: Alex Engel

BIOL 407 Neurobiology of Emotion
Crosslistings: BIOL 407/NSCI 347
Emotion is influenced and governed by a number of neural circuits and substrates, and emotional states can be influenced by experience, memory, cognition, and many external stimuli. We will read and discuss articles about mammalian neuroanatomy associated with emotion as defined by classic lesion studies, pharmacology, electrophysiology, fMRI imaging, knockout mutant studies, as well as new opti-genetic methods for investigating neural circuitry in order to gain an understanding of the central circuits and neurotransmitter systems that are implicated in emotional processing and mood disorders.
Class Format: discussion, three hours per week
Requirements/Evaluation: evaluation will be based on class participation and several short papers
Prerequisites: BIOL 202 and 212; open to juniors and seniors
Enrollment Preferences: senior Biology majors who have not taken a 400-level Biology course; then to eligible NSCI concentrators
Enrollment Limit: 12
Expected Class Size: 12
Dept. Notes: does not satisfy the distribution requirement in the Biology major
Distributional Requirements: Division 3
Other Attributes: BIMO Interdepartmental Electives, NSCI Group A Electives
Not Offered Academic Year 2018
SEM Instructor: Tim Lebestky

BIOL 408 RNA Worlds
Ribonucleic acids (RNAs) serve as genomes, catalysts, messengers, adaptors, regulators, structural components, and evolutionary substrates. Non-coding RNAs such as miRNAs, ribozymes, and small interfering RNAs control a diverse range of biological processes including plant and animal development, translation, epigenetic chromosome silencing, and cancer. This course explores recently discovered non-coding RNAs and considers evidence for their mechanisms of action. Through extensive reading of primary literature, we will analyze experimental investigations that reveal our current understanding of the functions and evolution of non-coding RNAs in all three domains of life.
Class Format: discussion, three hours per week
Requirements/Evaluation: evaluation will be based on class participation and several short papers
Prerequisites: BIOL 202; open to juniors and seniors
Enrollment Preferences: senior Biology majors who have not taken a 400-level course & BIMO concentrators
Enrollment Limit: 12
Expected Class Size: 12
Dept. Notes: does not satisfy the distribution requirement in the Biology major
Distributional Requirements: Division 3
Other Attributes: BIMO Interdepartmental Electives
Not Offered Academic Year 2018
SEM Instructor: Dawn Carone

BIOL 409T(F) Cultural Evolution in Biological Systems (W)
The evolution of genetically transmitted traits has been the subject of extensive study since the “modern synthesis” combined Darwin’s and Mendel’s ideas—later enriched by molecular approaches to developmental biology. More recently, the study of evolution has been extended to traits that are not genetically encoded via social learning. The cultural evolution that occurs in such behavioral traits has many parallels with evolution based on genes: errors and innovation correspond to genetic mutations, immigration may bring in new forms of the behavior, and population bottlenecks can result in loss of behavioral traits. However, there is also a crucial difference between genetic and social transmission of traits: social learners can potentially acquire traits from many members of their population, including unrelated individuals. This difference has many implications, including the acceleration of the evolutionary time scale. We will explore the ways socially learned behaviors evolve, using systems such as tool use (primates, crows), vocal learning (songbirds, orcas), and social organization (baboons). Among the topics we will consider are the role of neutral models and random processes, how neuroethological constraints guide social learning, how social status influences the choice of tutors, and how competition and sexual selection drive changes in learned behavior. We will also consider how these processes interact and how they generate differences as well as parallels between cultural and genetic evolution.
Class Format: tutorial
inhibitors of pathway components. We will consider the effectiveness of these inhibitors in pharmacological studies, clinical trials and potential cancer treatments.

**Class Format:** seminar

**Requirements/Evaluation:** four papers

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** BIOL 202 or permission of instructor

**Enrollment Preferences:** seniors and then juniors

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Dept. Notes:** does not satisfy the distribution requirement in Biology

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives

**Not Offered Academic Year 2018**

**Seminar Instructor:** Robert Savage

---

**BIOL 422 Ecology of Sustainable Agriculture**

**Crosslistings:** BIOL/ENVI 422

A seminar/field course investigating patterns, processes, and concepts of stability in human-dominated, food production ecosystems. As a capstone course, the course will draw upon the experiences that students have had in biology and environmental studies courses. Topics will include: the relationships among diversity, ecosystem function, sustainability, resilience, and stability of food production, distribution systems, nutrient pools and processing in human dominated ecosystems. Two extensive field trips will be taken to agricultural operations in the region. Each student will present a seminar on a topic requiring extensive reading of primary resources and is responsible for leading the discussion that ensues. Reading question paper assignments will be given for the seminar. Criticism paper assignments will be made at approximately bi-weekly intervals and due two days after the seminar to which they relate.

**Class Format:** seminar; two 75 minute sessions per week

**Requirements/Evaluation:** evaluation will be based on writing assignments, seminar presentation, and course participation

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** BIOL/ENVI 203 or BIOL 302 or permission of instructor

**Enrollment Preferences:** open to juniors and seniors

**Enrollment Limit:** 16

**Expected Class Size:** 12

**Dept. Notes:** Satisfies the distribution requirement in Biology; the ENVS biology track; the Natural World distributional requirement of the Environmental Studies program

**Distributional Requirements:** Division 3

**Other Attributes:** ENVI Natural World Electives, PHLH Nutrition, Food Security+Environmental Health

**Not Offered Academic Year 2018**

**Seminar Instructor:** Henry Art

---

**BIOL 426T Frontiers in Muscle Physiology: Controversies (W)**

While an active muscle produces force, contraction of muscle is far from the only function of this intriguing organ system. Muscle plays a major role in metabolic regulation of organisms, acts as a glucose storage facility, regulates blood pressure in mammals, and produces numerous hormones. The mechanism for contractile activity varies not only among different organisms, but also among different muscles within the same organism. Controversies, disagreements, and arguments pervade the muscle biology literature perhaps because of the integrative nature of the science. In this tutorial course, we will utilize molecular, physiological, comparative, and evolutionary aspects of muscle biology to address current controversies of this dynamic tissue. Some questions that will be addressed include: 1) Lactic acid generated by skeletal muscle is / is not involved with fatigue at high exercise intensity, 2) Satellite cells are / are not obligatory for skeletal muscle hypertrophy, 3) Do mammals possess the same "stretch activation" of skeletal muscle as seen in insect flight muscle?, 4) Are smooth and skeletal muscles from the same lineage of cells, or do they represent convergent evolution on the tissue level? After an initial group meeting, students meet weekly with a tutor/partner and the instructor for an hour each week. Every other week at this tutorial meeting, students present a written and oral critical analysis of the assigned research articles. Students not making a presentation question and critique the work of their colleague.

**Class Format:** tutorial; one hour a week

**Requirements/Evaluation:** evaluation is based on five tutorial papers of four pages each, five critiques, tutorial presentations, and general participation

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** BIOL 205

**Enrollment Preferences:** Biology majors who have not had a 400-level biology course

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Dept. Notes:** does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3, Writing Intensive

**Other Attributes:** BIMO Interdepartmental Electives

**Not Offered Academic Year 2018**

---

**BIOL 430T Genome Sciences: At the Cutting Edge (W)**

Research in genomics has integrated and revolutionized the field of biology, including areas of medicine, plant biology, microbiology, and evolutionary biology. Moreover, recent developments in "metagenomics" (genomic studies of entire communities of microorganisms in natural environments, such as the mammalian gut and the deep sea) and "metatranscriptomics" (studies of genome wide changes in expression and mRNA levels in natural communities of organisms) have generated unprecedented knowledge about the genomic potential of a community and the in situ biological activity of different ecological niches. In this course we will explore how research in these and related areas, including proteomics, have advanced our fundamental understanding of (1) organisms in the three domains of life, and their interactions and evolutionary relationships; (2) biological systems and environments, such as the human body, extreme environments, and the oceans; (3) strategies for solving global challenges in medicine, agriculture, energy, materials, and environmental sciences. During the course, students will meet each week for one hour with a tutorial partner and the instructor. Every other week, students will present a written and oral critical analysis of the assigned research articles. On alternate weeks, students will question/critique the work of their colleague.

**Class Format:** tutorial

**Requirements/Evaluation:** evaluation will be based on five (4-5 page) papers, tutorial presentations, and the student's effectiveness as a critic

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** BIOL 202

**Enrollment Preferences:** open to juniors and seniors; senior Biology majors who have not taken a 400-level course

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Dept. Notes:** BIMO, BGP; does not satisfy the distribution requirement in the Biology major

**Distributional Requirements:** Division 3, Writing Intensive

**Other Attributes:** BGNP Recommended Courses, BIMO Interdepartmental Electives

**Not Offered Academic Year 2018**

**TUT Instructor:** Claire Ting

---

**BIOL 432(F) Evolutionary Genetics**

The synthesis of evolutionary processes with the mechanistic understanding of genetics has lent insight into many mysteries of life. The goal of this course is to explore the interface between evolution and genetics to make sense of fundamental biological processes. For example, why do we expect that male and female offspring occur in 50:50 ratios? How and why do unusual sex-ratios occur? Other topics include: conflict among genes, evolution of allelic dominance, adaptation at the molecular level, and genetics of speciation. Class discussion and written assignments will emphasize critical evaluation and synthesis of the scientific literature.

**Class Format:** seminar

**Requirements/Evaluation:** class participation and several short papers

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** BIOL 202; open to juniors and seniors

**Enrollment Preferences:** seniors who have not taken a 400 level course, then juniors and Biology majors

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Dept. Notes:** meets distribution requirements of the Biology major

**Distributional Requirements:** Division 3

**Fall 2017**

**SEM Section:** 01 TR 09:55 AM 11:10 AM **Instructor:** David Loehlin

---

**BIOL 493(F) Senior Thesis Research: Biology**

Each student prepares a thesis under the supervision of a member of the department. Thesis work can begin either in the spring of the junior or the fall of the senior year, and includes the Winter Study period of the senior year. The number of Biology Department faculty available to mentor research students and the number of students each can accommodate in her/his lab vary from year to year. Although the department will make every effort to provide an opportunity for students to conduct Honors research, you should be aware that it may not be possible to assign all applicants to a laboratory.

**Class Format:** independent study

**Extra Info:** this is part of a full-year thesis (493-494)

**Seminar Instructor:** Senior majors and concentrators are required to participate in Biology Colloquium, which are scheduled for most Fridays at 1:10pm

**Distributional Requirements:** Division 3

**Fall 2017**

**HON Section:** 01 TBA **Instructor:** Joan Edwards

---

**BIOL 494(S) Senior Thesis Research: Biology**

Each student prepares a thesis under the supervision of a member of the department. Thesis work can begin either in the spring of the junior or the fall of the senior year, and includes the Winter Study period of the senior year. The number of Biology Department faculty available to mentor research students and the number of students each can accommodate in her/his lab vary from year to year. Although the department will make every effort to provide an opportunity for students to conduct Honors research, you should be aware that it may not be possible to assign all applicants to a laboratory.

**Class Format:** independent study

**Extra Info:** this is part of a full-year thesis (493-494)

**Seminar Instructor:** Spring 2018
BIOL 499(F,S) Biology Colloquium

Scientists from around the country who are on the cutting edge of biological research come to talk about their work. Students of Biology at any level are welcome.

Class Format: lecture

Extra Info: this is a for-credit course; registration is not necessary to attend

Distributional Requirements: Non-clearing

Fall 2017
LEC Section: 01  TBA  Instructor: Joan Edwards

Spring 2018
LEC Section: 01  TBA  Instructor: Joan Edwards

CHEMISTRY (DIV III)
Chair: Professor AMY GEHRING

MAJOR
Through a variety of individual courses and sequential programs, the department provides an opportunity for students to explore the nature and significance of chemistry, an area of important achievement in our quest for knowledge about ourselves and the world around us. The student of chemistry is able to become aware of the special viewpoint of chemists, the general nature of chemical investigation, some of its important results, how these results are expressed, and something of their significance within the fields of science and in the area of human endeavor as a whole. The Chemistry major provides excellent preparation for graduate study in chemistry, biochemistry, chemical engineering, environmental science, materials science, medicine, and the medical sciences.

A major in chemistry can be achieved in several ways, preferably beginning in the student’s first year at Williams, but also beginning in the sophomore year. Building on a foundation in general chemistry, organic chemistry, and physical chemistry, a student elects additional advanced courses to complete a major that is consistent with their background in other sciences, interests, and goals. A student’s program might emphasize biochemistry, organic chemistry, physical chemistry, or inorganic chemistry, with additional courses available in analytical chemistry, environmental science, and materials science. Students considering a major in chemistry should consult with a member of the department as early as possible in order to plan a program which best suits their interests and abilities and which makes full use of their previous preparation.

All students begin their study in the department with either Chemistry 151, 153, or 155. Placement at the introductory level is based upon performance on the departmental placement test and consultation with the chair.

Foundation Courses
First Year
Fall: 151, 153 or 155 Gateway courses
Spring: 156 Organic Chemistry: Introductory Level

Second Year
Fall: 251 (or 255) and Chemistry 256 (those students who complete 155 are exempted from 256). Completion of a Chemistry major requires either nine semester chemistry courses or eight semester chemistry courses plus two approved courses from among the following: Biology 101; Computer Science 134; 134I; Mathematics 130, 140, 150, 151; Physics 131, 141; or any courses in these departments for which the approved courses are prerequisites. CHEM 155 counts for two courses toward the major, but a single course toward graduation credit. Starting at the 300 level, at least three of the courses taken must have a laboratory component, and at least one must be selected from Chemistry 361, 366, 364, or 367. (The specific course elected, in consultation with the chair or major advisor, will depend on the student’s future plans.) In addition, the department has a number of “Independent Research Courses” which, while they do not count toward completion of the major, provide a unique opportunity to pursue an independent research project under the direction of a faculty member.

Elective Courses
319 Integrative Bioinformatics, Genomics, and Proteomics Lab
321 Biochemistry I-Structure and Function of Biological Molecules
322 Biochemistry II-Metabolism
324 Enzyme Kinetics and Reaction Mechanisms
326 Chemical Biology: Discoveries at the Interface
335 Inorganic/Organometallic Chemistry
336 Materials Chemistry
338 Bioinorganic Chemistry: Metals in Living Systems
341 Toxicology and Cancer
342 Synthetic Organic Chemistry
343 Medicinal Chemistry
344T Physical Organic Chemistry
348 Polymer Chemistry
361 Quantum Chemistry and Chemical Dynamics
364 Instrumental Methods of Analysis
366 Thermodynamics and Statistical Mechanics
367 Biophysical Chemistry
368T Computational Chemistry and Molecular Spectroscopy

Independent Research Courses
393-W31-394 Junior Research and Thesis
397, 398 Independent Study, for Juniors
493-W31-494 Senior Research and Thesis
497, 498 Independent Study, for Seniors

For the purpose of assisting students in selecting a program consistent with their interests and possible continuation of their studies at the graduate level, the following groupings of electives and faculty advisors are suggested. However, a case can be made for selecting courses from the different groups.

Biochemistry: Chemistry 321, Chemistry 322, Chemistry 324, Chemistry 326, Chemistry 341, Chemistry 364, Chemistry 367. Students interested in biochemistry should consult with Professors Blair, Gehring, Hart, Kaplan, or Lovett.

Organic Chemistry: Chemistry 341, Chemistry 342, Chemistry 343, Chemistry 344T, Chemistry 348, Chemistry 361, Chemistry 363. Students interested in organic chemistry should consult with Professors C. Goh or Park.

Physical and Inorganic Chemistry: Chemistry 335, Chemistry 336, Chemistry 338, Chemistry 361, Chemistry 364, Chemistry 366, Chemistry 368T. Students interested in physical chemistry should consult with Professors Carrasquillo, Peacock-Lopez, or Thoman. Students interested in inorganic chemistry should consult with Professors C. Goh or Park. Students interested in materials science should consult with Professors C. Goh or Park. Students interested in environmental chemistry should consult with Professor Carrasquillo.

While any accepted route through the major would permit a student to proceed to graduate study in chemistry, four electives should be considered a minimum, and at least a semester of research is strongly recommended. The department’s curriculum is approved by the American Chemical Society (A.C.S.), a professional body of academic, industrial, and research chemists. The A.C.S. suggests the following courses for someone considering graduate study or work in chemistry.

The degree with honors in Chemistry provides students with an opportunity to undertake an independent research project under the supervision of a faculty member, and to report on the nature of the work in two short oral presentations and in a written thesis.

Students interested in Materials Science are encouraged to elect courses from the Materials Science Program offered jointly with the Physics Department, and should consult that listing.

The DEGREE WITH HONORS IN CHEMISTRY

The degree with honors in Chemistry provides students with an opportunity to undertake an independent research project under the supervision of a faculty member, and to report on the nature of the work in two short oral presentations and in a written thesis.

Chemistry majors who are candidates for the degree with honors take the following in addition to a major outlined above.

Chemistry 493-W31-494 Senior Research and Thesis

The principal considerations in selecting a student to a program of independent research are mastery of fundamental materials and skills, ability to pursue independent study successfully, and demonstrated student interest
and motivation. In addition, to enroll in these courses leading to a degree with honors, a student must have at least a B- average in all chemistry courses or the permission of the chair. At the end of the first semester of the senior year, the department reviews the student’s progress and determines whether the student is a candidate for a degree with honors. The designation of a degree with honors is based primarily on a departmental evaluation of the accomplishments in these courses and on the quality of the thesis. Completion of the research project in a satisfactory manner and preparation of a well-written thesis usu­ally results in a degree with honors. In cases where a student has demonstrated unusual commitment and initiative resulting in an outstanding thesis based on original results, combined with a strong record in all of their chemistry courses, the department may elect to award a degree with highest honors in Chemistry.

EXCHANGE AND TRANSFER STUDENTS

Students from other institutions who wish to register for courses in chemistry involving college-level prerequisites should do so in person with a member of the Chemistry Department. Registration should take place by appointment during the spring semester prior to the academic year in which courses are to be taken. Students are requested to have with them transcripts of the relevant previous college work.

COURSES FOR NON-MAJORS WITH NO PREREQUISITES

Students with principal interests outside of the sciences may extend a secondary school foundation in chemistry by electing a basic two-semester introductory course of a general nature or they may elect semester courses designed for non-majors. All courses in chemistry satisfy the distribution requirement.

STUDY ABROAD

Students who wish to complete a chemistry major (or chemistry requirements for pre-medical study) as well as to study abroad during their junior year are encouraged to begin taking chemistry in their first semester at Williams, and should consult with members of the department as early as possible. You can find general study away guidelines for Chemistry here.

CHEM 113(F) Chemistry and Crime: From Sherlock Holmes to Modern Forensic Science

In this course, designed for students who do not plan to major in the natural sciences, we use a case-oriented approach to explore selected topics of forensic science. These include: (1) the scientific and technological foundation for the examination of physical, chemical, and biological items of evidence, and (2) the scope of expert qualifications and testimony, the legal status of scientific techniques, and the admissibility of the results in evidence. The analysis of trace evidence, including glass, soil, gunpowder residues and bullet fragments, and inorganic and heavy metal poisons are discussed through an understanding of the basic concepts of chemistry and analytical chemistry. Forensic toxicology and pharmacology are applied to the analysis of alcohol, poisons, and drugs based upon the principles of organic chemistry and biochemistry. The characterization of blood and other body fluids necessitates an understanding of serology and molecular genetics. The cases which stimulate the exploration of these areas include: the John and Robert Kennedy assassinations, the Jeffrey MacDonald case (Fatal Vision), the Wayne Williams case, the deaths of celebrities Marilyn Monroe, John Belushi, and Janis Joplin, the authenticity of the Shroud of Turin, the Casey Anthony case, the Tylenol poisonings, and the identity of Anastasia. Interactive demonstration sessions provide an appreciation of scientific experimentation in general and the variety of techniques used in the analysis of evidence and provides an opportunity to learn forensic techniques such as chromatography (for ink, drug, and fire accelerant analysis), spectroscopy (for alcohol and drug analysis), and electrophoresis (for DNA fingerprinting).

Class Format: lecture, three times per week
Requirements/Evaluation: evaluation is based on problem sets and/or quizzes, hour tests, a final exam, and a paper
Prerequisites: none; designed for the non-science major who does not intend to pursue a career in chemistry; not open to students who have taken CHEM 151, 153, 155, 156/251, or 256
Enrollment Preferences: seniors and juniors
Enrollment Limit: 30
Expected Class Size: 30
Distributional Requirements: Division 3
Other Attributes: JLS Enact/Admissions in Institutions, SCST
Elective Courses

CHEM 115 AIDS: The Disease and Search for a Cure

Since the discovery of the human immunodeficiency virus (HIV-1) in 1983, modern techniques of molecular biology have revealed much about its structure and life cycle. The intensity of the scientific investigation directed at HIV-1 is unprecedented in history. We now know a great deal about this virus than any other known pathogen. However, the early optimism concerning the prospects for an effective AIDS vaccine has now waned and HIV strains that are resistant to drug therapies are common. We are now three decades into the AIDS pandemic and the World Health Organization estimates that there are more than 34 million HIV-infected persons worldwide. After an introduction to chemical structure, we examine the molecular biology of the HIV virus, the molecular targets of anti-HIV drugs, and the prospects for a cure. We look at how HIV-1 interacts with the human immune system and discuss prospects for developing an effective HIV vaccine.

Class Format: lecture, three hours per week
Requirements/Evaluation: evaluation is based on problem sets, a midterm, quizzes, a final exam, and a paper
Prerequisites: none; designed for the non-science major who does not intend to pursue a career in the natural sciences
Enrollment Limit: 45
Expected Class Size: 45
Distributional Requirements: Division 3
Other Attributes: PHIL Biomedical Determinants of Health, SCST
Not Offered Academic Year 2018
LEC Instructor: Rebecca Taurog

CHEM 116 Chemistry and Physics of Cooking (Q)

Cooking is a creative and artistic process, but it is based on fundamental chemical and physical principles. In this course, which is intended for students who do not plan to major in the natural sciences, we explore these scientific principles and their application to the kitchen. We draw on edible examples such as chemical batters and intermolecular forces (saling, emulsification, and spherification), acid-base chemistry (leaning, making jam, and macaroni and cheese), kinetics and thermodynamics (cooking styles and times), states of matter (carbonation, ices, foams, and gels), types of chemical reactions (baking bread, grilling vegetables, tenderizing meat), and energy transfer (kitchen equipment and gadgets). The kitchen is a laboratory—in the classroom, we carry out experiments to demonstrate and to test these scientific concepts. This course also considers the science behind traditional food recipes and contemporary ideas in cooking known as "modernist cuisine" and/or "molecular gastronomy". Bon appetit!

Class Format: lecture
Requirements/Evaluation: weekly quizzes and problem sets, two exams, and a paper
Prerequisites: none, but students who have not taken high school chemistry should consult the instructor
Enrollment Limit: 45
Expected Class Size: 45
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Not Offered Academic Year 2018

CHEM 151(F) Introductory Chemistry (Q)

This course provides an introduction to chemistry for those students with little or no high school chemistry. Students will be introduced to concepts fundamental to studying matter at the molecular level. Principal topics include introductions to the nature of atoms and molecules, stoichiometry, solubility rules and equilibria, gas laws, chemical equilibrium, acid-base reactions, periodic relationships, chemical bonding, molecular structure, intermolecular forces, oxidation-reduction reactions, and related applications. Laboratory work comprises a system of qualitative analysis and quantitative techniques. The course provides preparation for further study of organic chemistry, biochemistry, physical and inorganic chemistry and is intended for students who are anticipating professional study in chemistry, in related sciences, or in one of the health professions, as well as for those students who are interested in exploring the fundamental ideas of chemistry as part of their general education.

Class Format: lecture, three times per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on frequent electronic quizzes and on written weekly problem sets, assignments, laboratory work and reports, quizzes, two tests, and a final exam
Extra Info: information about the Chemistry Placement Test can be found at http://chemistry.williams.edu/placement/
may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: all students planning to enroll are required to take the online Chemistry Placement Test prior to registering for the course (and incoming first year students are required to meet with a faculty member during First Days)
Enrollment Limit: 48
Expected Class Size: 48
Dept. Notes: CHEM 151 may be taken concurrently with MATH 102—see under Mathematics; CHEM 151 or its equivalent is prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration
Distribution Notes: students who have studied chemistry for one or more years are directed to CHEM 153 or 155
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: BIMO Required Courses

CHEM 153(F) Concepts of Chemistry (Q)

This course broadens and deepens the foundation in chemistry of students who have had typically one year of chemistry at the high school level. Most
students begin study of chemistry at Williams with this course. Familiarity with stoichiometry, basic concepts of equilibria, and the model of an atom is expected. Principal topics for this course include kinetic theory of gases, modern atomic theory, molecular structure and bonding, states of matter, chemical equilibrium (acid-base and solubility), and an introduction to atomic and molecular spectroscopies. Laboratory work includes synthesis, qualitative and quantitative chemical analysis, and molecular modeling. The course is of interest to students who anticipate professional study in chemistry, related sciences, or one of the health professions, as well as to those who want to explore the fundamental ideas of chemistry and of their general education.

Class Format: lecture, three hours per week; laboratory, four hours per week

Requirements/Evaluation: evaluation is based on quantitative weekly problem set assignments, laboratory work and reports, hour tests, and a final exam

Extra Info: information about the Chemistry Placement Test can be found at http://chemistry.williams.edu/placement/; may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: all students are required to take the online Chemistry Placement Test prior to registering for the course (and incoming first year students are required to meet with a faculty member during First Days)

Enrollment Preferences: incoming first year students also must meet with a faculty member during First Days

Enrollment Limit: none

Expected Class Size: 60

Dept. Notes: one of CHEM 151 or 153 or 155 required for the BIMO concentration

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Other Attributes: BIMO Required Courses

CHEM 155(F) Principles of Modern Chemistry (Q)

This course is designed for students with strong preparation in secondary school chemistry, including a laboratory experience, such as provided by an Advanced Placement chemistry course (or equivalent) with a corresponding score of at least a 5 on the AP Chemistry Exam (or a 7 on the IB Exam, or equivalent). Topics include chemical thermodynamics, kinetics, structure and bonding, coordination chemistry, electrochemistry and spectroscopy and their application to fields such as materials science, industrial, environmental, biological and medical chemistry. Laboratory work includes synthesis, characterization, and reactivity of coordination complexes, electrochemical analysis, materials chemistry, qualitative analysis, and molecular modeling. This course is of interest for students who are anticipating professional study in chemistry, related sciences, or one of the health professions, as well as for students who want to explore the fundamental ideas of chemistry as part of their general education.

Class Format: lecture, three hours per week; laboratory, four hours per week

Requirements/Evaluation: evaluation is based on weekly problem sets, laboratory work and reports, an hour test, and a final exam

Extra Info: information about the Chemistry Placement Test can be found at http://chemistry.williams.edu/placement/; may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: all students are required to take the online Chemistry Placement Test prior to registering for the course (and incoming first year students are required to meet with a faculty member during First Days)

Enrollment Preferences: incoming first year students must also meet with a faculty member during First Days

Enrollment Limit: none

Expected Class Size: 36

Dept. Notes: one of CHEM 151 or 153 or 155 required for the BIMO concentration

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Other Attributes: BIMO Required Courses, MTSC Related Courses

CHEM 156(S) Organic Chemistry: Introductory Level (Q)

This course provides the necessary background in organic chemistry for students who are planning advanced study or a career in chemistry, the biological sciences, or the health professions. It initiates the systematic study of the common classes of organic compounds with emphasis on theories of structure and reaction and the fundamentals of molecular modeling as applied to organic molecules are presented. Specific topics include basic organic structure and bonding, isomerism, stereochemistry, molecular energetics, the theory and interpretation of infrared and nuclear magnetic spectroscopy, substitution and elimination reactions, and the addition reactions of alkenes and alkydes. The coordinated laboratory work includes synthesis and separation techniques, structure-reactivity studies, organic synthesis, IR and NMR spectroscopy, and the identification of unknown compounds.

Class Format: lecture, three hours per week; laboratory, four hours per week

Requirements/Evaluation: evaluation will be based on quantitative problem sets, laboratory performance, including written lab reports, three midterm exams, and a final exam

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: CHEM 151 or 153 or placement exam or permission of instructor

Enrollment Limit: 16 per lab

Expected Class Size: 120

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Other Attributes: BIMO Required Courses, MTSC Related Courses

CHEM 251(F) Organic Chemistry: Intermediate Level

This course is a continuation of CHEM 156 and it concludes the systematic study of the common classes of organic compounds with emphasis on theories of structure and reactivity. Specific topics include radical chemistry, an introduction to mass spectrometry and ultraviolet spectroscopy, the theory and chemical reactivity of conjugated and aromatic systems, the concepts of enantiomer and diastereomer control, an extensive treatment of the chemistry of the polycyclic hydrocarbon, alcohols, ethers, polyfunctional compounds, the concept of selectivity, the fundamentals of organic synthesis, an introduction to carbohydrates, carboxylic acids and derivatives, alkyl substitution reactions, and the introduction to amino acids, peptides, and proteins. The coordinated laboratory work includes application of the techniques learned in the introductory level laboratory, along with new functional group analyses, to the separation and identification of several unknown samples. Skills in analyzing NMR, IR, and MS data are practiced and further refined.

Class Format: lecture, three hours per week; laboratory, four hours per week

Requirements/Evaluation: evaluation is based on midterm exams, problem sets, laboratory performance, including written lab reports, and a final exam

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: CHEM 156 or permission of instructor

Enrollment Limit: 16 per lab

Expected Class Size: 100

Distributional Requirements: Division 3

Other Attributes: BIMO Required Courses, MTSC Related Courses

CHEM 255(F) Organic Chemistry: Intermediate Level—Special Laboratory Section

This course is a continuation of CHEM 156 and contains the same material as CHEM 251 except for the laboratory program described below. The aim of this advanced laboratory section is to enrich and enhance the laboratory experiences of motivated students of recognized ability by providing a laboratory program that more closely resembles the unpredictable nature and immediacy of true chemical research. Students synthesize, isolate, and characterize (using a range of modern physical and spectroscopic techniques) a family of unknown materials in a series of experiments constituting an integrated research investigation. A flexible format is employed in which the students are responsible for helping to plan the course of their laboratory work based upon discussions with the instructor about the previous week’s experimental results. Students are drawn from CHEM 156 with permission based upon student selection and nomination by the CHEM 165 instructor. Participants attend their regular CHEM 251 lecture but attend the special laboratory section instead of a CHEM 251 laboratory section.

Class Format: lecture, three hours per week; laboratory, four hours per week; weekly one-hour discussion

Requirements/Evaluation: evaluation is based on the requirements for the CHEM 251 lecture and performance in this special laboratory section including written laboratory reports and participation in discussions

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: permission of instructor

Enrollment Preferences: sophomores

Expected Class Size: 12

Dept. Notes: course was developed under a grant from the Ford Foundation

Distributional Requirements: Division 3

Other Attributes: MTSC Related Courses
CHEM 256(S) Advanced Chemical Concepts
This course treats an array of topics in modern chemistry, emphasizing broad concepts that cut across the various subdisciplines of the field—biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. It provides necessary background in chemical science for students who are planning advanced study or a career in chemistry, biological science, geoscience, or a health profession. Topics include coordination complexes, thermonodynamics, electrochemistry, kinetics, and nuclear chemistry. Laboratory work includes experiments involving synthesis, characterization, and reactivity studies of coordination and organic complexes, spectroscopic analyses, thermonodynamics, electrochemistry, kinetics, and nuclear chemistry.
Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on homework assignments, laboratory work, and a final exam
Extra Info: may not be taken on a pass/fail basis
Prerequisites: BIOL 101 and CHEM 251/255, or permission of instructor
Enrollment Limit: 48
Expected Class Size: 100

CHEM 359 Integrative Bioinformatics, Genomics, and Proteomics Lab (Q)
This course provides a hands-on opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays.
Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on quizzes, a midterm exam, a problem set, and performance in the laboratories including lab reports
Extra Info: may not be taken on a pass/fail basis
Prerequisites: BIOL 101 and CHEM 251/255 and CHEM 155/256
Enrollment Preference: junior and senior Biology and Chemistry majors and BIMO concentrators
Enrollment Limit: 48
Expected Class Size: 48
Dept. Notes: does not satisfy the distribution requirement in the Biology major
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: BGNP Related Courses, BIMO Required Courses

CHEM 321(F) Biochemistry I: Structure and Function of Biological Molecules (Q)
This course introduces the basic concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The laboratory provides a hands-on opportunity to study

CHEM 322(S) Biochemistry II: Metabolism (Q)
This lecture course provides an in-depth presentation of the complex metabolic reactions which are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transduction of metabolites; and biochemical reaction mechanisms involving the structures and mechanisms of coenzymes. This comprehensive study also includes the biochemistry and metabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.
Class Format: lecture, three hours per week; laboratory, three hours per week
Requirements/Evaluation: evaluation is based on several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative analysis of the data generated
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor
Enrollment Preference: senior and junior Biology and Chemistry majors and BIMO concentrators
Enrollment Limit: 64
Expected Class Size: 64
Dept. Notes: does not satisfy the distribution requirement in the Biology major
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: BGNP Related Courses, BIMO Required Courses

CHEM 324(S) Enzyme Kinetics and Reaction Mechanisms
Enzymes are complex biological molecules capable of catalyzing chemical reactions with very high efficiency, stereo-selectivity, and specificity. The study of enzymatically-catalyzed reactions gives insights into the study of organic reaction mechanisms in general, and into the topic of catalysis especially. This course explores the methods and frameworks for determining enzymatic reaction mechanisms. These methods are based on a firm foundation of organic reaction mechanisms and chemical kinetics. We will investigate the major types of biochemical reactions, focusing on their catalytic mechanisms and how those mechanisms can be elucidated. We will lay the foundation for their integration with a systematic consideration with discussion of transition state theory, structure-reactivity relationships, steady state and pre-steady kinetics, use of isotope, genetic modification, and other tools for probing enzymatic reactions. We will also examine the catalytic roles of a variety of vitamins and cofactors.
Class Format: lecture, three hours per week
Requirements/Evaluation: evaluation is based on problem sets, quizzes, a midterm exam, a paper, and a final exam
Extra Info: may not be taken on a pass/fail basis
Prerequisites: CHEM/BIOl/BIMO 321 or permission of instructor
Enrollment Limit: none
Expected Class Size: 60

CHEM 326(F) Chemical Biology: Discoveries at the Interface
Complex biological behavior is driven by the chemistry of biological molecules including secondary messengers, lipids, proteins, and nucleic acids. Chemists and biologists have recognized that manipulating the chemistry of these systems affords a powerful method to regulate and study cellular
activity. The burgeoning field of chemical biology encompasses these efforts. This course introduces the tools of chemical biology, focusing on how small chemical molecules directed at biological systems facilitate answering important questions in biology. Building upon this foundation of chemical and biological techniques, this course will study current applications of these techniques through a series of case studies. These case studies highlight what may be covered include bioconjugation, chemical genetics, extending the genetic code, activity-based probes and fragment-based drug discovery.

**Class Format:** lecture, three hours per week

**Requirements/Evaluation:** evaluation is based on problem sets, course papers, mid-term exams, and a final exam project

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CHEM 155 or CHEM 256 and 251/255

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives

**Not Offered Academic Year 2018**

**LEC Instructor:** Christopher Goh

**CHEM 341(S) Toxicology and Cancer**

**Crosslistings:** CHEM 341/ENVI 341

What is a poison and what makes it poisonous? Paracelcus commented in 1537: “What is not a poison? All things are poisons (and nothing is without poison). The dose alone keeps a thing from being a poison.” Is the picture really this bleak? Is modern technology-based society truly swimming in a sea of toxic materials? How do we assess the nature and severity of toxicity established, if at all? Do toxic properties—the qualities that are responsible for the observed toxicity—exist, or are they all the same manner, or can materials be poisonous in a variety of different ways? Are the safety levels set by regulatory agencies low enough for a range of common toxic materials, such as mercury, lead, and certain pesticides? How are poisons metabolized and how do they lead to the development of cancer? What is cancer and what does it take to cause it? What biochemical defense mechanisms exist to counteract the effects of poisons? This course attempts to answer these questions by surveying the fundamentals of modern chemical, medicinal, and pharmacological research. The course will cover topics such as the toxic response, including risk assessment, to the basic mechanisms underlying toxicity, mutagenesis, carcinogenesis, and cancer repair.

**Class Format:** lecture, three times per week

**Requirements/Evaluation:** evaluation is based on two hour tests, a class presentation and paper, participation in discussion sessions, a self-exploration of the literature and review articles, and a final exam project

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** CHEM 156, may be taken concurrently with CHEM 251/255; a basic understanding of organic chemistry

**Enrollment Limit:** 30

**Expected Class Size:** 24

**Dept. Notes:** satisfies the Natural World requirement for the Environmental studies concentration

**Distributional Requirements:** Division 3

**Other Attributes:** BIMO Interdepartmental Electives, ENVI Natural World Electives, PHLH Biomedical Determinants of Health

**Spring 2018**

**LEC Section:** 01  MWF 11:00 AM 12:15 PM  Instructor: David Richardson

**CHEM 342(S) Synthetic Organic Chemistry (W)**

The origins of organic chemistry are to be found in the chemistry of living things and the emphasis of this course is on the chemistry of naturally-occurring compounds. This course presents the logic and practice of chemical total synthesis while stressing the structures, properties and preparations of important synthetic objects, such as polyalkylides and alkoalids. Modern synthetic reactions are surveyed with an emphasis on the stereochemical and mechanistic themes that underlie them. To meet the requirements for the semester’s final project, each student chooses an article from the recent literature and then analyzes the logic and strategy involved in the published work in a final paper. A summary of this paper is also presented to the class in a short seminar. Laboratory sessions introduce students to techniques for synthesis and purification of natural products and their synthetic precursors.

**Class Format:** lecture, three hours per week; laboratory, four hours per week

**Requirements/Evaluation:** evaluation is based on problem sets, mid-term exams, laboratory work, a final project, and class participation

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CHEM 256 or permission of instructor

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Distributional Requirements:** Division 3, Writing Intensive

**Other Attributes:** BIMO Interdepartmental Electives

**Spring 2018**

**LEC Section:** 01  TR 09:55 AM 11:10 AM  Instructor: Thomas Smith

**Lab Section:** 02  M 01:00 PM 05:00 PM  Instructor: Thomas Smith

**CHEM 343 Medicinal Chemistry**

This course explores the design, development, and function of pharmaceuticals. Fundamental concepts of organic chemistry are extended to the study of pharmacodynamics—the interactions between drugs and their targets that elicit a biological effect—and pharmacokinetics—the study of how the body absorbs, distributes, metabolizes, and eliminates drugs. The path of drug development is traced from discovery of an initial lead, through optimization of structure, to patenting and production. Mechanisms by which drugs target cell membranes, nucleic acids, and proteins are discussed. Drug interactions with enzymes and receptor targets are studied extensively. Specific drug classes selected for detailed analysis may include opiates.
analysis, aspirin and other NSAIDs, antibacterial agents, cholinergic & adrenergic agents, CNS agents, as well as antiviral, antilucre, and anticholesterol drugs.

Class Format: lecture, three hours per week
Requirements/Evaluation: evaluation is based on problem sets, midterm exams, class participation, and a final project
Prerequisites: CHEM 251 & BIOL 101 or permission of instructor; not open to students who have taken CHEM 111 or CHEM 112
Enrollment Limit: 36
Expected Class Size: 24

Distributional Requirements: Division 3

Other Attributes: BIMO Interdepartmental Electives, PHLH Biomedical Determinants of Health

Not Offered Academic Year 2018
LEC Instructor: Thomas Smith

CHEM 344(T) Physical Organic Chemistry
This course extends the background derived from previous chemistry courses to the understanding of organic reaction mechanisms. Correlations between structure and reactivity are examined in terms of kinetic and thermodynamic parameters including: solvent effects, isotope effects, stereochemical specificity, linear free energy relationships, acid/base theory, delocalized bonding, and aromaticity. For the first 7 weeks, the class meets once a week for an introductory lecture. A second tutorial meeting between the instructor and 2 other students occurs early the following week, for example during the laboratory time period. During this time, students work through and present solutions to an assigned problem set. For the remaining 5 weeks, students execute a self-designed set of laboratory experiments that revolve around physical organic methods. Students present and critique results each week (in the hour time slot). The experiments culminate in a final paper.

Class Format: tutorial, 90 minutes per week; lecture, one hour per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on problem sets, participation, laboratory work, and a final laboratory paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CHEM 251/255
Enrollment Preferences: Chemistry majors
Enrollment Limit: 10
Expected Class Size: 10

Distributional Requirements: Division 3

Other Attributes: BIMO Interdepartmental Electives

CHEM 348(F) Polymer Chemistry
From synthetic to natural macromolecules, we encounter polymers everywhere and everyday. This course explores the multitude of synthetic techniques available and discusses how structure defines function. Topics include condensation and chain (anionic, cationic, radical) polymerizations, dendrimers, controlling molecular weight, ring opening, and biopolymer syntheses. Fundamentals of composition and physical properties of polymers, and methods of characterization are also covered.

Class Format: lecture, two meetings per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on problem sets, participation, exams, laboratory work, and a final project
Prerequisites: CHEM 251/255
Enrollment Preferences: Chemistry majors
Enrollment Limit: 12
Expected Class Size: 12

Distributional Requirements: Division 3

CHEM 361(F) Quantum Chemistry and Chemical Dynamics
This course provides an introduction to quantum mechanics which serves as the basis for understanding atomic and molecular structure as well as spectroscopic methods. This leads to a discussion of chemical kinetics and molecular reaction mechanisms. In the latter part of the course, computational chemistry methods are used to illustrate chemical concepts, to interpret experimental data, and to extend hypotheses. Applications of these principles are chosen from contemporary research fields, including polymer chemistry, photochemistry, atmospheric chemistry, and solid and liquid state chemistry. Quantitative laboratory experiments and consultation with the scientific literature provide the background necessary for carrying out an independent theoretical or experimental project.

Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on class participation, problem sets, exams, laboratory work, and an independent project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: CHEM 155 or 256
Enrollment Limit: none
Expected Class Size: 12

Distributional Requirements: Division 3

CHEM 364(S) Instrumental Methods of Analysis
Crosslistings: CHEM 364/ENVI 364
This course promotes an understanding of the applicability of current laboratory instrumentation both to the elucidation of fundamental chemical phenomena and to the measurement of certain atomic and molecular parameters. Student will gain knowledge and understanding of the theoretical and practical instrumental techniques; including, but not limited to, chromatography, mass spectrometry, thermal methods, electroanalytical techniques, atomic and molecular absorption and emission spectroscopy, X-ray diffraction, and optical and electron microscopies, with examples drawn from the current literature. Analytical chemical and instrumental techniques will be developed in the lecture and extensively applied within the laboratory. These skills are useful in a wide variety of scientific areas. Through exploration of primary literature and review articles we will discuss recent developments in instrumental methods and advances in the approaches used to address modern analytical questions.

Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on class participation, problem sets, oral presentation and discussion of selected topics, laboratory work, and an independent project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: CHEM 155 or 256 and 251/255; may be taken concurrently with CHEM 256 with permission of instructor
Enrollment Limit: 12

CHEM 366(S) Thermodynamics and Statistical Mechanics
The thermodynamic laws provide us with our most powerful and general scientific principles for predicting the direction of spontaneous change in physical, chemical, and biological systems. This course develops the concepts of energy, entropy, free energy, temperature, heat, work, and chemical potential within the framework of classical and statistical thermodynamics. The principles developed are applied to a variety of problems: chemical reactions, phase changes, energy technology, industrial processes, and environmental issues. Laboratory experiments provide qualitative and practical demonstrations of the theory of real and ideal systems studied in class.

Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on class participation, oral presentations, problem sets, laboratory work, and an independent project.
Extra Info: may not be taken on a pass/fail basis
Prerequisites: CHEM 155 or 256, and basic knowledge of applied integral and differential calculus
Enrollment Limit: none
Expected Class Size: 12

CHEM 367(S) Biophysical Chemistry
This course is designed to provide a working knowledge of basic physical chemistry to students primarily interested in the biochemical, biological, or medical professions. Topics of physical chemistry are presented from the viewpoint of their application to biochemical problems. Three major areas of biophysical chemistry are discussed: 1) the conformation of biological macromolecules and the forces that stabilize them; 2) techniques for the study of biological structure and function including spectroscopic, hydrodynamic, electrophoretic, and chromatographic; 3) the behavior of biological macromolecules including ligand interaction and conformational transitions.

Class Format: lecture, three hours per week; laboratory, four hours per week
Requirements/Evaluation: evaluation is based on problem sets and/or quizzes, laboratory work, and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CHEM 155 or 256 and 251/255, and MATH 140 or equivalent
Enrollment Preferences: junior and senior Chemistry majors
Enrollment Limit: 18
Expected Class Size: 18

Distributional Requirements: Division 3

CHEM 368T Computational Chemistry and Molecular Spectroscopy (Q)
This course provides an introduction to the principles of computational quantum mechanics and their application to problems of chemical interest such as chemical bonding, chemical reactivity, and molecular spectroscopy. Emphasis is placed upon modern electronic structure calculations, their fundamentals, practical considerations, interpretation, and applications to current research questions. Under guidance in the laboratory session and through independent work, students will use computational methods to explore assigned weekly research problems. The research results will be presented to and discussed with the tutorial partner at the end of each week.
Class Format: tutorial, meeting time to be determined
Requirements/Evaluation: evaluation is based on tutorial participation, presentation, research paper, and submitted paper.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CHEM 361 or equivalent background in Physics
Enrollment Limit: 10

CLASSICS (DIV I)
Chair: Professor EDAN DEKEL
Professors: K. CHRISTENSEN, E. DEKEL. Associate Professor: A. WILCOX*, Assistant Professor: N. BROWN. Visiting Assistant Professor: K. DRAPER.

The course offerings in Classics enable students to explore the ancient Greek, Roman, and Greco-Roman worlds from various perspectives, including literature, history, archaeology, art, philosophy, and religion. Courses are of two types: language (Greek and Latin) and translation (Classical Civilization). The 100-level language courses introduce students to the ancient minds. The 200-level language courses combine comprehensive grammar review with readings from Greek or Latin texts of pivotal historical periods; Latin 302 and the 400-level language courses are seminars that explore in depth selected authors or topics and the methods of analysis appropriate to each of them. Courses in which texts are read in translation provide both surveys and more specialized study of the classical world from earliest historical times through late antiquity.

MAJOR
Majors and prospective majors are encouraged to consult with the department's faculty to ensure a well-balanced and comprehensive selection of Classics courses appropriate to their individual interests. A course or courses in ancient history are strongly recommended. Majors may also benefit from advice on courses offered in other departments that would complement their particular interests in Classics. A reading knowledge of French, German, and Italian is useful for any study in Classics and is required in at least two of these modern languages by graduate programs in classics, ancient history, classical art and archaeology, and medieval studies.

The department offers two routes to the major: Classics and Classical Civilization.

Classics: (1) Six courses in Greek and/or Latin, with at least two 400-level courses in one language; (2) Three additional courses, elected from the offerings in Greek, Latin, or Classical Civilization or from approved courses in other departments; 3) Participation in the Senior Colloquium.

Classical Civilization: (1) Either Classics 101 or 102 and one of Classics 222, 223, or 224; (2) Three additional courses from the offerings in Classical Civilization or from approved courses in other departments (3) Three courses in Greek or Latin with at least one at the 400 level, or four courses in Latin at any level; (4) A senior independent study is normally required to complete the Classical Civilization major. Several of the courses elected, including the independent study, should relate to each other in such a way as to reflect a concentration on a particular genre, period, or problem of Greek and Roman civilization, including topics in ancient art and archaeology, religion in the Greco-Roman world, and ancient philosophy; 4) Participation in the Senior Colloquium.

A number of courses from other departments are cross-listed with Classics and may be elected for the major, for instance, Art History 213 Greek Art and Myth, Philosophy 201 Greek Philosophy, and Religion 210 Reading Jesus, Writing Gospels. Appropriate courses that are not cross-listed may also count toward the major with the approval of the chair of Classics. Examples of such courses, which vary from year to year, are Art History 105 Picturing God in the Middle Ages, Religion/Jewish Studies 201 The Hebrew Bible, Religion 212 The Development of Christianity, and Political Science 231 Ancient Political Thought.

Senior Colloquium: Senior majors are required to enroll in CLAS 499 in both semesters. The topics and activities of this colloquium, which normally meets every other week for an hour, vary according to the interests of the participants. Junior majors are also encouraged to participate.

THE DEGREE WITH HONORS IN CLASSICS
Students who wish to be considered for the degree with honors will normally prepare a thesis or pursue appropriate independent study in one semester and winter study of their senior year. The thesis or independent study offers students the opportunity to work in depth on a topic of their choosing and to apply and develop the techniques and critical methods with which they have become acquainted during their regular course work. It may also include relevant work with members of other departments. In order to write a thesis, students normally must have a minimum GPA of 3.3 in their major courses and must submit a thesis proposal that earns departmental approval before the end of the spring semester of their junior year. To be awarded the degree with honors in Classics, the student is required to have taken a minimum of ten semester courses in the department (not including the thesis or independent study) and to have demonstrated original or superior ability in studies in the field both through course work and through the thesis or equivalent independent study.
COURSE NUMBERING SYSTEM

Language Courses: The numbering of courses through the 300 level reflects the prerequisites involved. The only prerequisite for any 400-level course is Greek 201 or Latin 302, or equivalent language preparation. The rotation of 400-level courses is arranged to permit exposure, in a three- to four-year period, to most of the important periods and genres of classical studies. Students may enter the rotation at any point.

Classical Civilization Courses: The numbering of these courses often suggests a regularly arranged and reasonably consistent sequence of study within a given area of classical studies. Most of these courses do not assume prior experience in Classics or a cross-listed field.

STUDY ABROAD

We strongly encourage Classics majors to study abroad in their junior year, at programs in Italy (especially the semester-length program at the Intercollegiate Center for Classical Studies in Rome), major programs in Greece (especially the College Year in Athens, which students need only attend for one semester), and in the Williams at Oxford Program. Our majors also have had excellent Classics experiences in other study-abroad programs in Italy and Greece and at various universities in Europe and the United Kingdom. In addition, we encourage students to take advantage of opportunities available in the summer: study abroad programs in Italy and Greece, archaeological digs, or even carefully planned individual travel to sites in Greece, Italy, or other areas of the ancient Greco-Roman world. When the college cannot do so, the department may be able to provide some financial support for summer study abroad. The department’s faculty are always available to advise students, the chair has materials to share, and students can visit the department’s website for information and links to helpful sites. You can find general study away guidelines for Classics here.

CLASSICS COURSES

CLASS 102(F) Roman Literature: Foundations and Empire
Crosslistings: CLAS 102/COMP 108

In the first book of Vergil’s Aeneid, the god Jupiter prophesies the foundation and the greatness of Rome: “I place no limits on their fortunes and no time; I grant them empire without end.” Yet elsewhere in this epic account of Rome’s origins, this promise of unlimited power for the descendants of Romulus seems to be threatened. So have some readers seen, not only in the Aeneid but throughout classical Roman literature, a persistent tendency to inscribe the decay and disintegration of Roman power into the very works that proclaim and celebrate Roman preeminence. This course explores the ancient Romans’ own interpretations of their past, their present, and their destiny: the humble beginnings of their city, its rise to supreme world power, and premonitions of its decline. Related topics for our consideration will include Roman constructions of gender, the location and expression of virtue in the public and private spheres, the connections and conflicts between moral probity and political success, the exercise of individual power versus action on behalf of the commonwealth, the absorption of foreign customs and peoples into Rome, the management of literal and imaginary frontiers, and other anxieties of empire. We will read selections and complete works by a variety of authors and poets of the ancient Roman world. When the college cannot do so, the department may be able to provide some financial support for summer study abroad. The department’s faculty are always available to advise students, the chair has materials to share, and students can visit the department’s website for information and links to helpful sites. You can find general study away guidelines for Classics here.

CLASS 205(S) Ancient Wisdom Literature
Crosslistings: REL 205/CLAS 205/COMP 217/JWST 205

The Biblical books of Proverbs, Ecclesiastes, and Job are often grouped together under the Hebrew category of hokhmah, ‘wisdom.’ Although these books are often read in different contexts, they can all be interpreted as meditations on ethical and practical philosophy. In this way, they represent the Hebrew Bible’s canonical embrace of a widespread Near Eastern literary phenomenon. From the instructional literature of Egypt and Mesopotamia to Greek poetry and fables, ancient Mediterranean cultures constructed a wide range of texts that engage the issues of personal behavior, leadership, and justice. Starting with the central wisdom books of the Hebrew Bible and moving through relevant material from the Apocrypha, New Testament, and the Egyptian and Babylonian traditions, this course will examine the literature of ancient wisdom throughout the ancient world with an eye toward understanding its various social, political, and philosophical contexts. We will then consider the Greek wisdom tradition in such texts as Herodotus’ Works and Days, Aesop’s fables, and fragments from the pre-Socratic philosophers. Finally, we will explore the influence of these ancient sources on later expressions of wisdom in medieval European literature, as well as more recent examples such as Benjamin Franklin’s Poor Richard’s Almanack. All readings are in translation.

CLASS 207(F) From Adam to Noah: Literary Imagination and the Preimval History in Genesis
Crosslistings: REL 207/COMP 250/JWST 207/CLAS 207

How long did Adam and Eve live in the Garden of Eden? What was the mark
of Cain? Why did Enoch not die? Who was Noah's wife? How did Giants survive the Flood? These are only a few of the fascinating questions that ancient readers and interpreters of the Book of Genesis asked and attempted to answer. The first ten chapters of Genesis present a tantalizingly brief narrative account of the earliest history of humankind. The text moves swiftly from the creation of the good and the immediate aftermath, but this masterful economy of style leaves many details unexplained. This course will explore the rich and varied literary traditions associated with the primeval history in the Genesis. Through a close reading of ancient noncanonical sources such as the Book of Jubilees and the Life of Adam and Eve, as well as Jewish traditions represented in Josephus, Philo, and Rabbinic literature and other accounts presented in early Christian and Gnostic texts, we will investigate the ways in which the elliptical style of Genesis generated a massive body of ancient folklore, creative exegesis, and explanatory re-imagination of the early history of humankind. We will then turn to several continuations of these variant traditions in medieval and early modern literary texts with particular attention to the extensive material on the figures of Cain and Noah.

All readings are in translation.

Class Format: discussion
Requirements/Evaluation: evaluation will be based on class participation and several writing assignments
Extra Information/Notes: none

Enrollment Preferences: none

Enrollment Limit: 19

Expected Class Size: 19

Distribution Notes: Division 2 requirement if registration is under REL or JWST; meets Division 1 requirement if registration is under COMP or CLAS

Distributional Requirements: Division 2

Other Requirements: JWST Core Electives

Fall 2017

LEC Section: 01 TR 09:55 AM 11:10 AM Instructor: Edan Dekel
The study of Roman history involves questions central to the development of Western institutions, religion, and modes of thought. Scholars have looked to Rome both for actual antecedents of European culture and for paradigmatic scenes illustrating what they felt were cultural universals. Yet Roman history also encompasses the most far-reaching experience of diverse cultures, being absorbed and reformed by practices known in the Western tradition until perhaps contemporary times. A close analysis of Roman history on its own terms shows the complex and fascinating results of an ambitious, self-confident nation’s encounter both with unexpected events and crises at home, and with other peoples. As this course addresses the history of Rome from its mythologized beginnings through the reign of the emperor Constantine, it will place special emphasis on the impressive Roman ability to turn the unexpected into a rich source of cultural development, as well as the complex tendency later to interpret such ad hoc responses as predestined and inevitable. The Romans also provide a vivid portrait of the relationship between power and self-confidence on the one hand, and violence and ultimate disregard for dissent and difference on the other. Readings for this course will concentrate on a wide variety of original sources, and there will be a strong emphasis on the problems of historical interpretation.

Instructor: Kerry Christensen
CLAS 241T Sex and Gender in Ancient Greece and Rome (D) (W) Crosslistings: CLAS 241/COMP 241/WGSS 241

In the ancient Mediterranean world, sexuality and gender shaped a broad range of attitudes and actions. These categories created and reinforced difference in virtually every aspect of life, from the household to the political arena. This course examines the diverse discourses and practices around sexuality and gender in the cultures of ancient Greece and Rome, while also dismantling false assumptions about the continuity of the “classical” past with our own contemporary norms and values. We will carefully analyze contextualized textual and material culture, and compare a variety of texts, including selections from tragedy and comedy (Euripides, Terence), epic ( Homer, Ovid) and lyric poetry (Sappho, Catullus), novels, epistles, and early saints’ lives, in order to gain a deeper and more complex understanding of how gender and sexuality were expressed, experienced, and regulated in Greece and Rome. Our emphasis will be on the processes by which gender and sexuality took form, and how they were signified in art, visuality, and theory. This course will also explore how gender and sexuality have long been important sources for intellectual and cultural traditions in the West, and which are still invoked today, sometimes misleadingly, to explain or justify positions and practices of privilege or oppression.

Class Format: seminar

Requirements/Evaluation: short writing assignments, mid-term exam, final exam, paper

Extra Info:

Not Offered Academic Year 2018

LEC Instructor: Amanda Wilcox

CLAS 242(S) The Country and the City in the Classical World Crosslistings: CLAS 242/ENVI 242/ANTH 242

A growing urban-rural divide is defining political discourse around the world. The interrelation and tension between “city” and “countryside” are not new, however. We may not date back to the time when cities first began. How do cities occupy and transform, interact with and displace rural landscapes? What are the values, stereotypes, and ideals—as well as artistic, literary, and architectural forms—associated with the city and the countryside? What role does one play in the political, social, and economic life of the other? When a focus on ancient Greece and, especially, Rome, this course will combine archaeological evidence and contemporary scholarship with primary sources ranging from Hesiod, Theocritus, Vergil, and Propertius to Cato the Elder, Varro, Vitruvius, and Pliny the Elder, to examine an array of topics including land surveying and colonization; agrarian legislation; the urban food supply; rustic religion in the city; urban parks and gardens; and the concept of the pastoral. Together, we will explore the city and the countryside - not just as places, but also as states of mind. All readings are in translation.

Class Format: seminar

Requirements/Evaluation: informed participation, two short papers (2-5 pages), final paper (8-10 pages)

Extra Info:

Prerequisites: none, although prior knowledge of the ancient world will be useful

Enrollment Preferences: declared and intending majors in Classics and Environmental Studies

Enrollment Limit: 25

Expected Class Size: 20

Distribution Notes: meets Division 1 requirement if registration is under CLAS or COMP; meets Division 2 requirement if registration is under WGSS

Distributional Requirements: Division 1, Exploring Diversity

Not Offered Academic Year 2018

TUT Instructor: Amandra Wilcox

CLAS 248 Greek Art and the Gods Crosslistings: ARTH 238/CLAS 248/REL 216

In the Iliad, when the god Apollo is visualized, it is as a man, angry in his heart, condescending from the peaks of Olympos, bow and quiver on his shoulders, the arrows clanging as the god moves, “like the coming of night,” to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into human from in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address detail in influential artistic monuments, literary forms, and social phenomena, including the didactic poem; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural functions of visual representations of gods, and the continued interest in the gods long after the end of antiquity. Readings assignments will include selections from Homer, Hesiod, Aeschylus, Sophocles, Euripides, Plato, Walter Burkert, Jean-Pierre Vernant, Nikolaus Himmelmann, Erika Simon, and Friedrich Nietzsche.

Class Format: discussion and seminar

Requirements/Evaluation: short writing assignments, mid-term exam, final exam, final paper

CLAS 260 Augustan Rome Crosslistings: CLAS 260/HIST 224/ARTH 261

In 27 BCE, Octavian ascended Marc Antony at Actium, the culminating battle in a bloody civil war that had wrecked the Roman state for years. As victor, Octavian found himself in a complex position: he was sole ruler over a society that traditionally abhorred monarchy, he had defeated a charismatic Roman citizen whose supporters might now pose resistance, and he had promised to re-establish a governmental system that seemed hopelessly broken. Octavian, soon given the honorific name Augustus, set about repairing the war-torn state while simultaneously solidifying his power. He announced that he had “restored the Republic,” yet we regard him as Rome’s first emperor. How did those living through this transition and subsequent ancient authors interpret it? How do works of art from Augustus’ time contribute to, or resist, the idea that he ushers in a Roman “golden age”? In this course we will consider these questions using a range of sources including monuments and visual art, ancient historiography, biography, and poetry (Dio, Suetonius, Tacitus, Horace, Propertius, Vergil, Ovid), and selections from contemporary scholarship. In the process, we will gain a better understanding of a pivotal period of ancient history, as well as tools for thinking comparatively about power, rhetoric, and propaganda in our own day. All readings are in translation.

Class Format: lecture/discussion

Requirements/Evaluation: short class discussion, student presentations, quizzes, two papers, and a final exam

CLAS 289T Socrates (W) Crosslistings: PHIL 289/CLAS 289

Socrates was executed in 399 BCE on the charges of impiety and corruption of the youth of Athens. Apparently he corrupted the youth by engaging with them in philosophy. In this class, we will attempt to carry on the noble tradition of corruption by philosophy. We will read works by three of Socrates' contemporaries: Aristophanes, Xenophon, and especially Plato. Through an examination of these works, we will try to get some feeling for what Socrates' controversial positions and his arguments for these positions may have been. While he never wrote any philosophical works of his own, Socrates is one of the most influential thinkers in the western tradition. His thought influenced the thought of subsequent generations of philosophers. In fact, Socrates seems to have been thought of as a kind of intellectual saint in the Hellenistic world. The stoics and skeptics both claimed a Socratic imprimatur for their own thought. Stoicism and skepticism, however, are wildly divergent schools - while the stoics and skeptics both claimed a Socratic imprimatur for their own thought. Stoicism and skepticism, however, are wildly divergent schools.
Comparative Literature

Enrollment Preferences: first-years and sophomores; some preference will be given to prospective Philosophy and Classics majors

CLAS 306 The Good Life in Greek and Roman Ethics (W)

Crosslistings: PHIL 306/CLAS 306

It was a common opinion in the West that humans spend much of their time thinking and talking about how we ought to live and about what counts as a good life for a human being. The philosophers of ancient Greece and Rome were among the first thinkers to develop systematic arguments in response to such musings. Much of the moral philosophy produced in Greece and Rome remains as relevant today as when it was written. In this course, we will examine some central texts in ancient Greek and Roman moral philosophy. We will begin by reading some of Plato’s early dialogues and his Republic. We will then turn to Aristotle’s Nicomachean Ethics. We will then examine writings in the Stoic and Epicurean traditions, as well as Cicero’s On the Ends of Good and Evil. As we proceed through the course, we will look at the way in which each thinker characterizes happiness and the relation between the two. We will also pay close attention to the way in which each of these thinkers takes the practice of philosophy to play a key role in our realization of the good human life. This course is part of the Philosophy major and will count towards the Mercer County Jail and House of Corrections and will be held at the jail. Transportation will be provided by the college. The class will be composed equally of Williams students and inmates, and one goal of the course will be to encourage students from different backgrounds to think together about issues of common human concern.

Class Format: seminar

Requirements/Evaluation: several short response pieces. A final paper of 10-15 pages

Extra Info: may not be taken on a pass/fail basis

Enrollment Preferences: juniors & seniors & students who can demonstrate an interest in the subject matter of the class; there will not be any preference purely on the basis of major; final selection for the course will be made on the basis of an interview with the instructor

CLAS 330 Plato (W)

Crosslistings: PHIL 330/CLAS 330

CLAS 323 Leadership, Government, and the Governed in Ancient Greece (W)

Crosslistings: CLAS 323/LEAD 323/HIST 323

CLAS 332 Aristotle’s Metaphysics (W)

Crosslistings: PHIL 332/CLAS 332

Expectations: Preface of Aristotle’s Metaphysics, concentrating of books gamma-theta. Aristotle sets out to study being qua being, or what is insofar as it is. The thoughts that Aristotle expresses in these books were instrumental in setting an intellectual agenda that dominated Western thought through the Middle Ages and provided the backdrop against which the modern philosophical tradition arose. Furthermore, many of the issues that
Aristotle takes up in these books remain of central importance in contemporary philosophy. Our main goal in this course is to work our way through Aristotle's text which can be extremely daunting, and to reconstruct his central positions and his arguments for these positions. We will also read selections from the vast secondary literature on Aristotle's Metaphysics.

**Class Format:** seminar

**CLAS 485T After Rome (W)**

Crosslistings: HIST 485/CLAS 485

What happened to the Western Roman Empire? Did barbarians destroy it, did internal weakness undermine it, or did its participants voluntarily set it aside in favor of new cultural, social and political ideas? How did the evolution of imperial political and military structures change the cultural and religious fabric of Europe? And above all, what is it that divides the ancient from the medieval world? Few questions in European history have occupied historians as insistently as these, and yet for all the lengthy books, ponderous, documentary, and political polemics, we are no closer to a consensus view. This tutorial will approach these timeless questions, first, through a comparative survey of the post-Roman Mediterranean, considering North Africa, Spain, Italy, Gaul, and the Byzantine East in turn. We will consult key primary sources for each region, including tax records, laws, narrative histories, letters, religious texts and archeological finds, as they are variously available. This first-hand experience with the problems of post-Roman history will prepare us to engage with secondary scholarship on the late imperial and early medieval worlds. Alongside the classic catastrophist readings of post-Roman history, which see the centuries after 476 CE as a period of severe economic and social dislocation, we will explore more recent arguments that seek to circumvent the problem of Rome's fall by positing an era of economic, cultural and intellectual continuity from the fifth through the eighth centuries.

Class Format: tutorial

Requirements/Evaluation: six essays (5-7 pages each) and six critiques, together with a longer, final essay (ca. 10 pages)

**Enrollment Limit:** 15

**Expected Class Size:** 8-10

**Distributional Requirements:** Division 1
CLGR 201(F) Intermediate Greek
Reading of selections from Hesiod and from Plato, combined with grammar review. The primary goal of this course is to develop fluency in reading Greek. We will also read the texts closely to explore important continuities and changes in Greek culture between the archaic and classical periods. The emphasis will vary from year to year, but possible subjects to be explored include: the education and socialization of the community's children and young adults; religion and cult practices; the performative aspects of epic (and choral) poetry and of prose genres like oratory and the philosophical essay; the influence of epic poetry and storytelling and the growth of literacy; the construction of woman, of man; the development of the classical polis.

Class Format: recitation/discussion
Requirements/Evaluation: evaluation will be based on classroom participation, quizzes, homework, and a final exam
Prerequisites: CLGR 101-102 or two years of Greek in secondary school
Enrollment Limit: 12
Expected Class Size: 5-10
Distributional Requirements: Division 1

Spring 2018
LEC Section: 01 MWF 11:00 AM-12:15 PM Instructor: Kerry Christensen

CLGR 402(S) Homer: The Odyssey
From the early archaic era through the classical and beyond, Homer's Iliad and Odyssey remained foundational in Greek discourse about community, leadership, war, heroism, family, friendship, loyalty, the gods, justice, and much more. Not only did the ancient Greek culture and society of the archaic and classical periods develop out of a dialogue with these epics, in our course, we will read extensive selections from the Odyssey in Greek and the entire epic in translation.

Class Format: seminar
Requirements/Evaluation: class participation, short written assignments, and/or oral reports, a midterm and final exams, and a final paper
Prerequisites: CLGR 101 or permission of instructor
Enrollment Preferences: majors in Classics, Comparative Literature, English and other literatures
Enrollment Limit: 12
Expected Class Size: 5-6
Distributional Requirements: Division 1

Fall 2017
LEC Section: 01 TF 02:35 PM-03:50 PM Instructor: Kenneth Draper

CLGR 403 Poetry and Revolution in Archaic Greece
The age of experiment, lyric poetry, tyranny, migration and discovery, and the personal voice: it takes many images to describe the profound changes in Greek society, thought, and self-expression that took place during the archaic era (roughly 800 BCE to the Persian invasion of 479 BCE). We will first read selections from the lyric poets (e.g. Archilochus and Sappho, Tyrtaeus and Solon), whose concise and expressive poems reflected contemporary culture in a way that the archaic epics did not. Their poems create for modern readers, as they did for the Greeks, a powerful sense of the poet's personal presence and engagement with his (or her) audience. A similar intimacy characterizes the writings of many of the pre-Socratics, from which we will next read selections. In the ability of the human mind to understand both the human and the physical world, the pre-Socratics anticipated what came to be known as philosophy and natural science. We will then turn to other writers who spoke directly about the political upheavals of the archaic age, focusing on the poignant narratives of Herodotus. Throughout the semester we will also consider such significant material changes in the archaic era as the development of monumental public sculpture, the evolution of the temple, and the undertaking of vast building programs, all of which transformed the visual scale of the Greek cities and their citizens’ sense of self and community.

Class Format: recitation/discussion
Requirements/Evaluation: evaluation will be based on daily translations and contributions to class discussion, several translation quizzes, an oral presentation, a final paper, and a final exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Limit: 12

Distributional Requirements: Division 1 Not Offered Academic Year 2018

Spring 2018
SEM Section: 01 MR 01:10 PM-02:25 PM Instructor: Kenneth Draper

CLGR 405 Greek Lyric Poetry
This course will explore the development of Greek lyric poetry from the eighth to the fifth centuries BCE. Beginning with Archilochus, Sappho, and Alcaeus, and proceeding through such poets as Solon, Anacreon, Ibycus, and Theognis, we will focus on the wide range of forms and subjects found in the genre. This year through to investigate subjects such as the influence of epic and choral poetry on the evolution of the genre, and the difficulties of evaluating a fragmentary corpus. Finally, we will explore the influence of political and economic changes in the early fifth century on the work of Simonides. The goal throughout is to introduce students to the structures, innovations, and problems of poetic self-expression in early Greek poetry.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Limit: 12
Expected Class Size: 5
Distributional Requirements: Division 1 Not Offered Academic Year 2018
SEM Instructor: Edan Dekel

CLGR 407 Rhetoric and Democracy: the Greek Orators
The Greek orators of the 4th-century BCE were specialists in rhetoric and persuasive discourse, and in the deployment of the one to produce the other. They formulated techniques for enlisting enthusiasm, memory, truth, and falsehood in shaping both the poems they wrote and when they were read independently of the works they have inspired. In this course we will read substantial selections from one or more of the so-called middle dialogues (Symposium, Phaedo, Republic, Phaedrus), in which a variety of speakers, including Socrates, ask and provisionally answer questions such as what are love, beauty, and justice, and how does the human soul in possession of these goods participate in the divine?

Class Format: seminar
Requirements/Evaluation: evaluation will be based on class participation, several short written assignments, a midterm and final exam, and a longer final paper
Prerequisites: CLGR 201 or permission of instructor
Enrollment Preferences: if oversubscribed, preference given to majors in Classics, Philosophy, Comparative Literature, English or another literature
Enrollment Limit: 12
Expected Class Size: 5-6
Distributional Requirements: Division 1 Not Offered Academic Year 2018
SEM Instructor: Kenneth Draper

CLGR 410T Enchantment and the Origins of Poetry (W)
Crosslistings: CLAS 320/COMP 320/CLGR 410
Since the earliest period of Greek literature, poets have been intimately bound up in the notion of enchantment, or theesis. The power of song to alter the emotional states of the audience and the world at large has always been intertwined with the wide variety of uses to which ancient magic was applied. Similarly, the idea of divine or supernatural inspiration can be interpreted as a reflexive enchantment that binds the poet to the transformative power of language. In this seminar, you will read selections from the Socratic dialogues of Plato, the dramatic works of Sophocles, the philosophical essays of Cicero, Virgil, Horace, Ovid, Roman love elegy, Old English charms, Old Norse poetry, Marlowe's Dr. Faustus, Shakespeare's A Winter's Tale, Coleridge, Shelley, Mallarmé, Valéry, T. S. Eliot, and various other poets and critics. All works will be read in English translation, but students who have studied ancient Greek will be expected to read significant portions of the early material in the original.

Class Format: tutorial
Requirements/Evaluation: students will meet with instructor in pairs once a week to discuss a short paper every other week and critique partners' papers in alternate weeks
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: preference given to majors in Classics and Comparative Literature
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1, Writing Intensive

162
CLGR 412(F) Herodotus
This course will focus on the reading in Greek of Herodotus' Histories, his multivocal and deeply human account of how and why several hundred years of conflict and contact between the Greek city-states and non-Greek peoples to the east culminated in the Persian invasion of Greece. We will explore the ways in which his rich narrative style and intellectual landscape reflect the influence of Greek and near-eastern oral traditions, Ionian philosophical thought, Greek tragedy, and contemporary Athenian rhetoric and philosophy. We will also study his use of anthropological methods, ethnography, and geography in explaining human events. Among the many themes that permeate his work, we will pay special attention to the working of divine versus human justice, the mutability of human affairs, the nature of authority, the role of family, and the quest for wisdom.

Class Format: Seminar
Requirements/Evaluation: Class participation, short written assignments, a midterm exam, a final paper, and a final exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Preferences: Classics majors
Enrollment Limit: 12
Expected Class Size: 8
Distributional Requirements: Division 1

Fall 2017
SEM Section: 01 Canceled Instructor: Kerry Christensen

CLGR 413 Hellenistic Poetry
After the death of Alexander the Great in 323 BCE, a new cultural center emerged in the recently founded city of Alexandria in Egypt. From across the Greek-speaking world, intellectuals who were both scholars and poets flocked to Alexandria's Museum (the shrine to the Muses) and its renowned library to categorize and publish the literature of the past while creating new kinds of poetry and poetic ideals. This course surveys the poetry of Hellenistic period with a focus on the "big three" poets of the third century, Callimachus, Theocritus, and Apollonius Rhodius, who were especially influential on later Latin poetry of the Republic and Augustan ages. As we read a variety of texts including epigrams, hymns, mimes, pastoral idylls, and selections from epic, we will pay close attention to issues of genre, the tension between tradition and innovation, and the cultural context of Greco-Egyptian Alexandria.

Class Format: Seminar
Requirements/Evaluation: Based on class participation, shorter written exercises and/or oral reports, midterm and final exams, and a final paper
Prerequisites: CLGR 201 or permission of instructor
Enrollment Preferences: Classics majors
Enrollment Limit: 12
Expected Class Size: 5-7
Distributional Requirements: Division 1

Not Offered Academic Year 2018
SEM Instructor: Leanna Boychenko

CLGR 414(F) Thucydides
This course will focus on Thucydides' powerful history of the Peloponnesian War. It is a rich text with much to say about human nature, human motivation, power, morality, the fragility of civilized life, the nature of democracy, leadership, causality in human affairs, and the impact on the Greek city-states of thirty years of nearly continuous war.

Class Format: Seminar
Requirements/Evaluation: Class preparation and participation, a midterm exam, a final paper, and a final translation exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Preferences: Classics majors
Enrollment Limit: 12
Expected Class Size: 6
Distributional Requirements: Division 1

Fall 2017
SEM Section: 01 MR 02:35 PM-03:50 PM Instructor: Kerry Christensen

CLLA 101(F) Introduction to Latin
This is a full-year course on the fundamentals of the Latin language. The first semester and part of the second emphasize learning basic grammar; the rest of the second semester is devoted to reading selections from Latin poetry (e.g., Ovid's Metamorphoses) and from Latin prose (e.g., Pliny's Letters).

Class Format: recitation/discussion
Requirements/Evaluation: Evaluation will be based on frequent quizzes, tests, classroom exercises, and a final exam
Extra Info: Credit granted only if both semesters (CLLA 101 and 102) are taken
Prerequisites: None; this course is designed for the student with no previous preparation in Latin. At the end of only a little Latin who wishes to refresh: a student with some previous experience in Latin may want to enroll in COLA 102 only (consult the department)
Enrollment Limit: 15
Expected Class Size: 8-10
Distributional Requirements: Division 1

Fall 2017
LEC Section: 01 MWF 11:00 AM-12:15 PM Instructor: Kenneth Draper

CLLA 102(S) Introduction to Latin
This is a full-year course on the fundamentals of the Latin language. The first semester and part of the second emphasize learning basic grammar; the rest of the second semester is devoted to reading selections from Latin poetry (e.g., Ovid's Metamorphoses) and from Latin prose (e.g., Pliny's Letters).

Class Format: recitation/discussion
Requirements/Evaluation: Evaluation will be based on frequent quizzes, tests, classroom exercises, and a final exam
Extra Info: Credit granted only if both semesters (CLLA 101 and 102) are taken
Prerequisites: CLLA 101 or permission of department
Enrollment Limit: 18
Expected Class Size: 10-12
Distributional Requirements: Division 1

Spring 2018
LEC Section: 01 MWF 11:00 AM-12:15 PM Instructor: Nicole Brown

CLLA 201(F) Intermediate Latin: The Late Republic
Reading of selections from Latin prose and poetry, normally from a speech or letters by Cicero and from the poetry of Catullus. This course includes a comprehensive review of Latin grammar and aims primarily at developing fluency in reading Latin. At the same time it acquaints students with one of the turning points in Roman history and attends to the development of their interpretative and analytic skills.

Class Format: Discussion/recitation
Requirements/Evaluation: Evaluation will be based on classroom performance, quizzes, a midterm, and a final exam; occasional oral presentations or short essays may be required as well
Prerequisites: CLLA 101-102 or 3-4 years of Latin in secondary school
Enrollment Limit: 12
Expected Class Size: 6-10
Distributional Requirements: Division 1

Fall 2017
LEC Section: 01 MWF 09:00 AM-09:50 AM Instructor: Nicole Brown

CLLA 302(S) Vergil's "Aeneid"
This course is a comprehensive introduction to Vergil's Aeneid. Students will develop their ability to read and translate the Latin text of the poem, while at the same time exploring the major interpretive issues surrounding the definitive Roman epic. Through a combination of close reading and large-scale analysis, we will investigate the poem's literary, social, and political dimensions with special attention to Vergil's consummate poetic craftsmanship.

Class Format: Discussion/recitation
Requirements/Evaluation: Evaluation will be based on class participation, a mid-term exam, a final paper, and a final exam
Prerequisites: CLLA 201 or permission of instructor
Enrollment Limit: 12
Expected Class Size: 10
Distributional Requirements: Division 1

Spring 2018
SEM Section: 01 TF 02:35 PM-03:50 PM Instructor: Edan Dekel

CLLA 403 The Invention of Love: Catullus and the Roman Elegists
This course will explore the development of Latin love poetry in the first century BCE. Beginning with Catullus, we will examine the influence of Greek lyric on the invention of the elegiac form as well as Roman attitudes toward love exhibited in other literature of the Late Republic. We will then turn to the full development of the elegiac form in the love poems of Propertius, Tibullus, and Sulpicia. Finally, we will explore the transformation of the genre in Ovid's Ars Amatoria. The goal throughout is to investigate the conventions, innovations, and problems of expressing personal desire and longing amid the social and political upheaval of the transition from Republic to Principate.

Class Format: Discussion/recitation
Requirements/Evaluation: Evaluation will be based on class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLLA 302 or permission of instructor
Enrollment Preferences: Classics majors
Enrollment Limit: 12
Expected Class Size: 10-12
Distributional Requirements: Division 1

Not Offered Academic Year 2018
LEC Instructor: Edan Dekel

CLLA 405 Livy and Tacitus: Myth, Scandal, and Morality in Ancient Rome
Mythical stories of Rome's founding, which were formulated by many generations of Roman authors and public figures, served as a framework for these very thinkers to analyze and articulate Roman self-image in rich and creative ways; one who stands out among these figures is the Augustan historian Livy. The "second founding" of the Republic by Augustus, and the careers of his successors, in turn gave later Roman writers like Tacitus fresh inspiration for Roman self-imagining and self-analysis. We will begin the semester in mythical Rome, reading selections from Book 1 of Livy's history which present figures like Aeneas, the Trojan refugee whose arrival in Italy was conceptually crucial to Rome's development and position in Italy and the Mediterranean; Romulus, by whom Rome was founded in an act of fratricide; the Sabine women, whose nobility prevented a deadly war between their fathers and their Roman kidnappers; and Lucretia, whose virtuous self-sacrifice led to the liberation of Rome from a decadent and violent monarchy...
and to the founding of the Roman Republic. We will examine how Livy deploys the storyteller's art to excite his readers' pathos, indignation, and sympathy; we will examine as well how Livy often filters his account of mythical Rome through the lens of his own time, thereby constructing Rome's past through the Augustan present. Writing more than a century after Livy, Tacitus offers a different view of Augustus, and his account of the ruler and his rise to power is the vehicle for his stern yet often sardonic psychological insights, which subtly manage to combine moral judgment with prurient pleasure in the scandals of others.

**CLASS FORMAT**: Discussion

**Requirements/Evaluation**: evaluation will be based on class preparation and participation, an 8-10 page paper, a midterm, and a final exam

SEM Instructor: Kerry Christensen

---

**CLLA 407 Caesar and Cicero**

The one a brilliant strategist, the other preeminent in the courts, Caesar and Cicero were both master politicians whose ambitions for their country and themselves brought them into bitter conflict. Their combined oeuvres provide compelling, detailed accounts of the events and personalities that ended the Roman Republic and ushered in an era of prolonged civil war. Moreover, despite striking differences, their works justifiably are regarded as the twin epics of classical Roman prose. In this course we will read extensive selections from Caesar's commentaries (the *Bellum Gallicum* and *Bellum Civile*) and from Cicero's speeches and letters, aiming throughout at a better understanding of these authors' stylistic achievements and performing careful analysis of their pragmatic persuasive goals.

**CLASS FORMAT**: recitation/discussion

**Requirements/Evaluation**: evaluation will be based on class participation, several short pref assignmentments (such as article reviews), a midterm exam and essay of moderate length, plus a final exam and longer paper

**Prerequisites**: CLLA 302 or permission of instructor

**Enrollment Limit**: 12

**Expected Class Size**: 6-9

**Distributional Requirements**: Division 1

Not Offered Academic Year 2018

---

**CLLA 408 Roman Comedy**

Roman comedy flourished only briefly, between the second and third Punic Wars, but its cultural-historical importance is undeniable. In these *fabulae palliatae*, Latin comedies staged in Greek costume and featuring ostensibly Greek characters, Roman attitudes are questioned and mocked but ultimately reasserted. We will read the *Menaechmi* of Plautus and the *Adelphoe* of Terence, two plays that burlesque the stereotypical relationships between fathers, brothers, sons, and slaves. We may also consider selections from Cato the Elder, Cicero's letters, and other primary and secondary texts that shed additional light on Roman familial relationships and their place in republican society.

**CLASS FORMAT**: discussion/recitation

**Requirements/Evaluation**: evaluation will be based on class participation, several papers of varying length, a midterm and a final exam

**Prerequisites**: CLLA 302 or permission of instructor

**Enrollment Preferences**: if the course is oversubscribed, preference will be given to majors and potential majors in Classics and Comparative Literature

**Enrollment Limit**: 12

**Expected Class Size**: 8-10

**Distributional Requirements**: Division 1

Not Offered Academic Year 2018

SEM Instructor: Amanda Wilcox

---

**CLLA 409 Seneca and the Self**

Through a close reading of selections from his *Dialogues*, *Epistulae Morales*, and a tragedy (probably *Medea*), this course will consider ethical and literary dimensions of self-fashioning, self-examination, and the perception of self in the Stoic philosophy of Seneca. The focus of the course will be squarely in the first century CE, and on the analysis of Seneca's own texts. We will begin, however, with an introduction to the ethics of Roman Stoicism through the personae theory of Panaetius as recorded in Cicero's De Officiis. Moreover, we will read and discuss selections from some of Seneca's most famous and influential interpreters, including Montaigne and Foucault, in order to enrich our understanding of contemporary assessments of his work and to gain an appreciation of Seneca's considerable influence on later theories of self-fashioning

**CLASS FORMAT**: seminar

**Requirements/Evaluation**: evaluation will be based on class participation, several short written and oral assignments, midterm and final exams, and a final paper

**Prerequisites**: CLLA 302 or permission of instructor

**Enrollment Limit**: 12

**Expected Class Size**: 5-10

**Distributional Requirements**: Division 1

Not Offered Academic Year 2018

SEM Instructor: Amanda Wilcox

---

**CLLA 414(F) Vergil's Eclogues and Georgics**

This course will explore the two major works of Vergil that precede the *Aeneid*: the *Eclogues*, a series of ten pastoral poems that range widely across personal, political, and mythological themes; and the *Georgics*, a longer didactic poem in four books that uses an agricultural framework to examine issues of life, death, power, suffering, and love. The goal throughout is to investigate the literary, political, and social dimensions of the poems with special attention to their relationships to earlier models, as well as their exquisite poetic craftsmanship.

**Class Format**: seminar

**Requirements/Evaluation**: class participation, a midterm exam, a final paper, and a final exam

**Prerequisites**: CLLA 302 or permission of instructor

**Enrollment Preferences**: Classics majors

**Enrollment Limit**: 12

**Expected Class Size**: 10

**Distributional Requirements**: Division 1

**CLLA 416(S) Praise, Blame, and Performance in Flavian and Trajanic Rome**

In this course, we will consider how authors of imperial Rome represent the spectacle of their urban surroundings. Poets such as Martial and Statius describe the lavish entertainments that Domitian put on in the newly constructed Colosseum: Saturnalia festivities, beast hunts, gladiatorial combats. But their interest in these imperial displays is just one aspect of a greater preoccupation with social performance and self-fashioning during this time. Statius invites readers to marvel at imperial statues, aristocratic villas, and even an impressive new road built by Domitian. Martial, on the other hand, does not preclude but blame: in his epigrams, he encourages readers to laugh at the ridiculous displays of upstarts, flatterers, and deviants, casting vice as entertainment. As we read selections from Statius' *Silvae*, Martial’s *De Spectaculis* and epigrams, Pliny's letters about public and literary life, and his speech of praise for the emperor Trajan, we will pay particular attention to questions such as the following: What do these authors' representations of spectacle tell us about the values of Flavian and Trajanic Rome? How do their works constitute performances in their own right? What do these texts reveal about the social functions of literature under autocratic rule?

**Class Format**: seminar

**Requirements/Evaluation**: class participation, short writing assignments, two translation exams, and a final paper

**Prerequisites**: CLLA 302 or permission of instructor

**Enrollment Preferences**: majors and potential majors in Classics and Comparative Literature

**Enrollment Limit**: 12

**Expected Class Size**: 5-10

**Distributional Requirements**: Division 1

---

**COGNITIVE SCIENCE (DIV II)**

Chair: Professor JOSPEH CRUZ

Advisory Committee: Professors: J. CRUZ, A. DANYLUK, K. KIRBY, H. WILLIAMS***, S. ZAKI. Associate Professor: N. KORNELL.

Cognitive science is concerned with how humans, non-human animals, and computers acquire, represent, manipulate, and use information. As an inter-disciplinary field it combines research and theory from computer science (e.g., artificial intelligence), cognitive psychology, philosophy, linguistics, and neuroscience, and to some extent evolutionary biology, math, and anthropology. Complex issues of cognition are not easily addressed using traditional intra-disciplinary tools. Cognitive researchers in any discipline typically employ a collection of analytic and modeling tools from across traditional disciplinary boundaries. Thus, the methods and research agenda of cognitive science are broader than those of any of the fields that have contributed to cognitive science. The Cognitive Science Program is designed to provide students with the broad interdisciplinary foundation needed to approach issues of cognition.

**THE CONCENTRATION**

The concentration in Cognitive Science consists of six courses, including an introductory course, four electives, and a senior seminar.

**Minds, Brains, and Intelligent Behavior (COGS 222)** is the entry point into the concentration, and provides an interdisciplinary perspective on issues of cognition. Ideally, it should be taken before the end of the sophomore year. Emphasizing the highly interdisciplinary nature of the field, the four electives must be distributed over at least three course prefixes. In the fall of the senior year, concentrators will participate in a senior seminar (COGS 493) or a senior tutorial, depending on enrollments.

**Required Courses**

COGS/PHIL/PSYC 222 Minds, Brains, and Intelligent Behavior: An Introduction to Cognitive Science

COGS 493 Senior Seminar or Senior Tutorial (In years where 493 is not
Offered, students should register for COGS 497 and should contact the Program Chair for details).

Elective Courses

Four electives are required, chosen from at least three prefixes, at most two of which can be at the 100 level.

- ASST 258 Language and Literacy Development
- BIOL 204/NSCI 204 Animal Behavior
- CHIN 431 Introduction to Chinese Linguistics
- CSCI 134 Introduction to Computer Science
- CSCI 136 Data Structures and Advanced Programming
- CSCI 361/MATH 361 Theory of Computation
- CSCI 373 Artificial Intelligence
- CSCI 374 Machine Learning
- JAPN 130 Intro. to Linguistic Analysis
- NSCI 201/BIOL 212/PSYC 212 Neuroscience
- PHIL 207 Contemporary Philosophy of Mind
- PHIL 216/ENVI 216 Philosophy of Animals
- PHIL 388 Consciousness
- PSYC 221 Cognitive Psychology
- PSYC 322 Cross-Cult: Mind, Brain, and Culture
- PSYC 324 Great Debates in Cognition
- PSYC 326 Choice and Decision Making
- PSYC 327 Cognition and Education
- REL 288/PHIL 288 Embodiment and Consciousness: A Cross Cultural Exploration

Recommended Courses

The following courses are recommended for students seeking a richer background in cognitive science. These will not count as electives for the cognitive science concentration.

- BIOL 209/NSCI 209 Animal Communication
- BIOL 305 Evolution
- MATH 250 Linear Algebra
- MATH 433 Mathematical Modeling
- PHIL 209 Philosophy of Science
- PSYC 201 Experimental and Statistics
- STAT 101 Elementary Statistics and Data Analysis
- STAT 201 Statistics and Data Analysis
- STAT 231 Statistical Design of Experiments

THE DEGREE WITH HONORS IN COGNITIVE SCIENCE

Formal admission to candidacy for honors will occur at the end of the fall semester of the senior year and will be based on promising performance in COGS 493. This program will consist of COGS W31–494(S), and will be supervised by members of the advisory committee from at least two departments. Presentation of a thesis, however, should not be interpreted as a guarantee of a degree with honors.

STUDY ABROAD

Students who wish to discuss plans for study abroad are invited to meet with any member of the Cognitive Science advisory committee. You can find general study away guidelines for Cognitive Science [here](#).

COGS 222(F) Minds, Brains, and Intelligent Behavior: An Introduction to Cognitive Science

Crosslistings: COGS 222/PHIL 222/PSYC 222

This course will emphasize interdisciplinary approaches to the study of intelligent systems, both natural and artificial. Cognitive science synthesizes research from cognitive psychology, computer science, linguistics, neuroscience, and contemporary philosophy. Special attention will be given to the philosophical foundations of cognitive science, representation and computation in symbolic and connectionist architectures, concept acquisition, problem solving, perception, language, semantics, reasoning, and artificial intelligence.

Class Format: lecture/discussion
Requirements/Evaluation: midterm and final exams, and self-paced weekly exercises
Prerequisites: PSYC 101 or any introduction to PHIL course or CSCI 134 or permission of instructor; background in more than one of these is recommended
Enrollment Preferences: first-year and sophomore students
Enrollment Limit: 25
Expected Class Size: 25
Dept. Notes: meets Contemporary Metaphysics & Epistemology requirement only if registration is under PHIL

Distributional Requirements: Division 2
Other Attributes: PHIL Contemp Metaphysics & Epistemology Courses, PSYC 200-Level Courses

Fall 2017
LEC Section: 01 MW 11:00 AM 12:15 PM Instructor: Joseph Cruz

COGS 258(S) Language and Literacy Development

Crosslistings: JAPN 258/COGS 258/PSYC 258

Language is uniquely a human function and fundamental to one's participation in society. Children learn to talk in the first three years of life at an unprecedented rate. However, in order to successfully participate in academic and social life, it is critical for one to develop literacy skills. Learning to read is a multifaceted process that involves various cognitive resources.

This course is an introduction to language development and literacy acquisition in first language and in a cross-linguistic environment including Japanese, Chinese and English. Linguistic concepts such as phonology, syntax and morphology will be introduced as we discuss the acquisition processes. Questions to be addressed include: How does a child develop oral language from birth? How does a child learn the meaning of words? How is learning to talk and read similar or different across various languages? How is learning to read different from learning to speak? How “natural” is it to learn to read?

Class Format: seminar
Requirements/Evaluation: active participation in the class discussion, weekly reaction paper, quiz, final paper
Prerequisites: none
Enrollment Preferences: Japanese , Chinese , Asian Studies, and Psychology majors
Enrollment Limit: 20
Expected Class Size: 20
Distributional Notes: meets Division 1 requirement if registration is under JAPN; meets Division 2 requirement if registration is under COGS, or PSYC

Distributional Requirements: Division 1

Spring 2018

SEM Section: 01 MR 02:35 PM 03:50 PM Instructors: Mamoru Hatakeyama, Kasumi Yamamoto

COGS 493 Advanced Topics in Mind and Cognition

Crosslistings: COGS 493/PHIL 394

In the last decade the science of the mind has continued to draw on its 20th century history as well as expand its methodological repertoire. In this seminar we will investigate current trends in mind and cognition by considering research in cognitive neuroscience, embodied cognition, dynamic systems theory, and empirical approaches to consciousness. Throughout, we will attend both to the specific empirical details as well as the conceptual foundations of this work. We will discuss how it elaborates, expands, and sharpens early views of the domain and methodology of philosophy of mind and cognitive science.

Class Format: seminar
Requirements/Evaluation: weekly short essays 1000 words, seminar presentation, final paper/project 7,000 words

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: COGS 222 or PSYC 221 or PHIL 207 or permission of program chair
Enrollment Limit: 12
Expected Class Size: 9

Dept. Notes: required of senior cognitive science concentrators, but juniors and seniors from other departments who meet prerequisites are most welcome

Distributional Requirements: Division 2

Not Offered Academic Year 2018

SEM Instructor: Joseph Cruz

COGS 494(S) Senior Thesis: Cognitive Science

The senior concentrator, having completed the senior seminar and with approval from the advisory committee, may devote winter study and the spring semester to a senior thesis based on the fall research project.

Class Format: independent study
Prerequisites: permission of program chair

Distributional Requirements: Division 2

Spring 2018

HON Section: 01 TBA Instructor: Joseph Cruz

COGS 497(F) Independent Study: Cognitive Science

Cognitive Science independent study

Class Format: independent study
Prerequisites: permission of program chair

Spring 2018

IND Section: 01 TBA Instructor: Joseph Cruz

COMPARATIVE LITERATURE (DIV I)

Chair: Professor CHRISTOPHER NUGENT

Students motivated by a desire to study literary art in the broadest sense of the term will find an intellectual home in the Program in Comparative

165
Literature. The Program in Comparative Literature gives students the opportunity to develop their critical faculties through the analysis of literature across cultures, and through the exploration of literary and critical theory. By crossing national, linguistic, historical, and disciplinary boundaries, students of Comparative Literature learn to read texts for the ways they make sense across national, linguistic, and historical boundaries. Each student is expected to take 11 courses in the Program in Comparative Literature to fulfill the requirements for the major.

Eleven courses are required for Track 1 of the major — students should aim to complete core requirements by the end of junior year:

Comparative Literature 110 Introduction to Comparative Literature
Comparative Literature 111 The Nature of Narrative

Any three comparative literature core courses. A core course is any course that meets at least one of the following criteria: a) it must treat primarily literature and/or b) it must be genuinely comparative across cultures and/or historically.

The three core courses may be chosen from the offerings of the Program in Comparative Literature or from the offerings of other departments and programs, including, but not limited to, foreign language programs and English, Religion, Africana Studies, Latino/Latina Studies, and Women’s, Gender, and Sexuality Studies. Examples of core courses include the following:

- COMP 117 Introduction to Cultural Theory
- COMP 200 European Modernism—and its Discontents
- COMP 205 The Book of Job and Joban Literature
- COMP 223 Comparative Middle Eastern and Latin American Cultural Studies
- COMP 242 Americans Abroad
- COMP 243 Modern Women Writers and the City
- COMP 259 Adultery in the Nineteenth-Century Novel
- COMP 340 Literature and Psychoanalysis
- COMP 345 Museums, Memorials, and Monuments: The Representation and Politics of Memory
- COMP 380 Literary and Critical Theory in the Twentieth Century

Three literature courses in the student’s specialty language, in which texts are read in the original. At least one of the three must be at the 300-level or above. Students should aim to acquire intermediate-level proficiency in their specialty language by the end of the sophomore year.

Three courses in which most of the course work concerns literature other than that of the student’s specialty language or literary theory. These courses may be selected from Comparative Literature offerings or from other departments and must be approved by the student’s major advisor. Only one may be in English or American literature.

Comparative Literature 401 Senior Seminar (variable topics). Students are expected to take the version of 401 offered in their senior year.

With the permission of their advisor or the chair, students may also count appropriate courses in music or art toward major requirements. Students who wish to study abroad during their junior year may receive major credit for up to 4 courses taken during study abroad. At least three courses towards the major must be at the 300-level or above. At least one of the courses counted toward the major must be Writing Intensive.

Track 2

This track within the Comparative Literature major allows for a wide-ranging exploration of literary forms across national, linguistic, and historical boundaries. Students in this track are not required to choose a specialty language, although the serious study of literature in one or more foreign languages is strongly encouraged. Each student should choose a faculty advisor, with whom the student will meet each semester to discuss how best to fulfill the requirements for the major.

Eleven courses are required for Track 2 of the major — students should aim to complete core requirements by the end of junior year:

Comparative Literature 111 The Nature of Narrative
Comparative Literature 110 Introduction to Comparative Literature

Any four comparative literature core courses. A core course is any course that meets at least one of the following criteria: a) it must treat primarily literature and/or b) it must be genuinely comparative across cultures and/or primarily theoretical. The four core courses may be chosen from the offerings of the Program in Comparative Literature or from the offerings of other departments, including, but not limited to, foreign language programs and English, Religion, Africana Studies, Latino/Latina Studies, and Women’s, Gender, and Sexuality Studies. See above under “Track 1” for some examples of core courses.

Comparative Literature 401 Senior Seminar (variable topics). Students are expected to take the version of 401 offered in their senior year.

With the permission of their advisor or the chair, students may also count appropriate courses in music or art toward major requirements. Students who choose to study abroad during their junior year may receive major credit for up to 4 courses taken during study abroad. At least three courses towards the major must be at the 300 level or above. At least one of the courses counted toward the major must be Writing Intensive.

The Degree with Honors in Comparative Literature

Prerequisites

Honors candidates in Comparative Literature are required to have maintained a GPA of 3.5 in the major to qualify for submitting a thesis proposal. In addition, candidates must demonstrate a strong interest in a specific topic for which an appropriate faculty advisor will be available in the senior year.

Timing

Students wishing to pursue a thesis in Comparative Literature are strongly urged to secure an advisor by the end of the week after Spring Break in their junior year. By May 15th of their junior year, candidates must submit to the Program Advisory Committee a one- to two-page proposal and a preliminary bibliography. The Advisory Committee will inform candidates by June 1 whether they may proceed with the thesis and advise them about the changes that should be made in the focus or scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and preparing for the process of writing the thesis.

In their senior year, candidates will devote two semesters and the winter study period to their theses (493-W31-494). By the end of the Fall semester, students will normally have undertaken substantial research and produced the draft of at least the first half of the project. At this point students should also have a clear sense of the work remaining for completion of the thesis. In the course of the Fall semester, students will also have chosen and met with a second reader for the project, who will provide additional guidance and read the final thesis. By the end of Winter Study, students should have completed a first draft of the entire project. At that time the Program Advisory Committee, together with the advisor, will determine whether the project may continue as an Honors Thesis, or whether its first portions (COMP 493-W) will be graded as Independent Studies.

The second semester of independent thesis work will be spent revising as necessary. The completed thesis in its final form will be due one week before the last day of classes. At the end of the Spring term, the student will make a public presentation of the final project, to which members of the Advisory Committee will be specially invited.

Characteristics of the Thesis, Evaluation, and Major Credit

The topic of the thesis must be comparative and/or theoretical. It is also possible to write a thesis that consists of an original translation of a significant text or texts; in this case, a theoretical apparatus must accompany the translation. The complete thesis must be at least 50 and at most 75 pages in length, excluding the bibliography.

The advisor will assign the grades for the thesis courses (COMP 493-W- 494); the Advisory Committee will determine whether a candidate will receive
Honors, Highest Honors, or no honors.
For students who pursue an honors thesis, the total number of courses required for the major—including the thesis course (COMP 493-W-494)—is 12, i.e., one of the thesis courses may substitute for one elective.

STUDY ABROAD
The Program in Comparative Literature strongly urges its students to study abroad. Students in track 1 should seriously consider study abroad in a country where their specialty language is spoken; they will likely be able to complete work on the specialty language as required for the major during study abroad. But all students can benefit from study abroad; literature courses from abroad are often candidates for credit as major electives. You can find general study away guidelines for Comparative Literature here.

COMP 106(F) Temptation (W)
Crosslistings: ENGL 107/COMP 106
We want most those things we can’t—or shouldn’t.—Have. Or, to put it another way, it is when limitations are placed on our actions by law, religion, or the facts of our own biology that we experience desire most acutely. In this course, we will examine fictional narratives, lyric poems, and philosophical meditations in which people are tempted to act against their better judgement. Free will, ambition, temperance, suspense, despair, and repression will be our conceptual preoccupations. We will get to know such writers and artists as Homer, Euripides, Ovid, Augustine, Shakespeare, Donne, Milton, Laclos, Mozart, Freud, Frost, and Scorsese.

Class Format: seminar
Requirements/Evaluation: four-five page papers, in-class presentation, thoughtful participation in discussions
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive
Fall 2017
SEM Section: 01 TR 08:30 AM 09:45 AM Instructor: Emily Vasiiauxkas

COMP 108(F) Roman Literature: Foundations and Empire
Crosslistings: CLAS 102/COMP 108
In the first book of Vergil’s Aeneid, the god Jupiter prophesies the foundation and the greatness of Rome: “I place no limits on their fortunes and no time; I grant them empire without end.” Yet elsewhere in this epic account of Rome’s origins, this promise of unlimited power for the descendants of Romulus seems to be seriously abridged. Some readers have seen, not only in the Aeneid but throughout classical Roman literature, a persistent tendency to inscribe the decay and disintegration of Roman power into the very works that proclaim and celebrate Roman preeminence. This course explores the ancient Romans’ own interpretations of their past, their present, and their destiny: the humble beginnings of their city, its rise to supreme world power, and premonitions of its decline. Related topics for our consideration will include Roman constructions of gender, the location and expression of virtue in the public and private spheres, the connections and conflicts between moral probity and political success, the exercise of individual power versus action on behalf of the commonwealth, the absorption of foreign customs and peoples into Rome, the management of literal and imaginary frontiers, and other anxieties of empire. We will read selections and complete works by a wide variety of Roman authors, including Cicero, Catullus, Caesar, Vergil, Sallust, Horace, Ovid, Seneca, and Tacitus. All readings will be in translation.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on short written assignments, midterm and final exams with essays, and contributions to class discussion
Prerequisites: none
Enrollment Preferences: first-year students and sophomores and majors in Classics and Comparative Literature
Enrollment Limit: 25
Expected Class Size: 15
Distributional Requirements: Division 1
Fall 2017
SEM Section: 01 MR 02:35 PM 03:50 PM Instructor: Kenneth Draper

COMP 110 Introduction to Comparative Literature
Crosslistings: ENGL 115/COMP 115
Comparative literature involves reading and analyzing literature drawn from different times, movements, cultures, and media. In this class, we will study English translations of texts from eras spanning the ancient to the contemporary: literary movements including romanticism, realism, and postmodernism; national traditions arising in Western and Eastern Europe, Asia, and Latin America; and media including prose fiction, graphic memoir, and film. Throughout the course, we will consider what it means to think about all of these works as literary texts. To help with this, we will also read selections of literary theory that define literature and its goal in abstract or philosophical terms. Assignments will focus on close, creative reading of relatively short texts by authors like Homer, Sei Shônagon, Kleist, Lemontov, Zola, Borges, Wilde, Marot, Bechdel, and others. All readings will be in English.

Class Format: lecture
Requirements/Evaluation: class participation, presentation, four short 4- to 5-page interpretation papers, final 8- to 10-page research paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: ASAM Related Courses
Fall 2017
SEM Section: 01 Cancelled Instructor: Anjuli Raza Kolb

COMP 117(F) Introduction to Cultural Theory (W) Crosslistings: ENGL 117/COMP 117
This course has a clear purpose. If you had signed up for a course in biology, you would know that its purpose is to teach you the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study "culture," what is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word "culture" means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around a number of "classic" thinkers: Matthew Arnold to Constance Penley, but we will also, in order to put our new ideas to the test, watch several films (Ferris Bueller's Day Off, Silence of the Lambs, The Lord of the Rings) and listen to a lot of rock & roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.
Class Format: discussion/seminar
Requirements/Evaluation: five short papers totaling about 20 pages, class attendance and participation in lecture
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19

SEM Section: 02 TF 02:35 PM 03:50 PM Instructor: Christian Thorne

COMP 128 Reading Asian American Literature (W) Crosslistings: AMST 128/ENGL 128/COMP 128
Though the category and term "Asian American" came about as a result of political struggle in the 1960s, what we now call Asian American writing in English began in the nineteen century and has played a significant role in every American literary "movement" from Modernism, realism, protest literature to various avant-gardes, the graphic novel, and digital poetics. This writing-intensive course closely reads a sampling of texts in a variety of genres and styles--produced by writers from various Asian American ethnic groups--from the late nineteenth century to the present and contextualizes them historically, both domestically and globally. We will examine the material, cultural, political, and psychic intersections of larger structural forces with individual and group identities. Along the way, we will interrogate the notion of "Asian American"--its contradictions, heterogeneous nature, and our assumptions--and its relation to the idea of "American." Some questions we will ask: Why have Asian Americans and Asian American writers and writing surfaces been viewed "other" to the American body politic and the English-language literary tradition?" "How might Asian American writing be linked to other English-language texts in the Asian diaspora?"
Class Format: seminar
Requirements/Evaluation: six 2-3 pp. papers, participation (attendance, discussion, GLOW posts), and a final project (the final project is 7-9 pages: either a creative project or an analytical paper)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: prospective AMST or ENGL majors
Enrollment Limit: 15
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under AMST; meets Division 1 requirement if registration is under COMP or ENGL
Distributional Requirements: Division 2, Writing Intensive
Other Attributes: AMST Arts in Context Electives
Not Offered Academic Year 2018
SEM Instructor: Dorothy Wang

COMP 140(F) Introduction to Traditional Chinese Literature Crosslistings: CHIN 140/COMP 140
With a written record of stretching over 3000 years, China's literary cultures are some of the richest and most varied in human history. Their influence continues to be felt not only in modern China, but also throughout much of the world. This course examines the origins and development of the different literatures of China from their earliest stages up until the end of the imperial system in 1911. We will read texts ranging from the Analects of Confucius to the medieval poetry of the Tang dynasty, from Buddhist sutras to plays about prostitutes and singing girls. An invulnerable monkey god may make an appearance to sow chaos as well. He's difficult to pin down. Some important themes will include: the role of the individual versus that of the community, responses to catastrophe and disorder, the fantastic, the articulation of the self through literature, and ways of dealing with historical and literary legacies. All readings are in English translation.
Class Format: lecture
Requirements/Evaluation: five short writing assignments (2 pages each), one paper (6-7-pages), and a final exam
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: none
Expected Class Size: 15
Distributional Requirements: Division 1
Spring 2018
LEC Section: 01 TF 02:35 PM 03:50 PM Instructor: Christopher Nugent

COMP 141(S) Black Autobiography Crosslistings: AFR 140/COMP 141
Autobiography—whether slave narrative, memoir, or semi-fictional life account—has served as a primary form of writing for people of African descent. From slavery to segregation to the struggle against Black selfhood, Black autobiographies also ask other questions like: How do Black reflections on the self necessitate critiques of society and culture? How have Black autobiographies been utilized for political mobilization? And, what might a collective analysis of Black autobiographies reveal about changes in conceptions of Black selfhood over time? We will explore these concerns by reading autobiographies across time and space by authors like Ottobah Cugoano, W. E. B. Du Bois, and Alice Walker.
Class Format: discussion
Requirements/Evaluation: evaluation will be based on class participation, two to three short papers (5- to 7-pages), and a 15- to 20-page paper or multimedia final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Class Format: lecture
Requirements/Evaluation: attendance, participation, some responses, two papers (5-7 pages), test
Prerequisites: none
Enrollment Preferences: students majoring in a related field
Enrollment Limit: 40
Expected Class Size: 20

COMP 153 Japanese Film Crosslistings: COMP 153/ASST 153
From the swashbuckling samurai films of Kurosawa and delicate family dramas of Ozu to edgy cinematic experiments and a breathtaking range of animation, Japan has one of the most varied and exciting film traditions in the world. This course will introduce you to major periods, genres, and directors in that tradition. We will read film criticism that represents a range of approaches, but focus particularly on learning and practicing the kind of close visual analysis that will allow you to build your own original descriptions of how a given scene "works." Throughout the course we will consider the relationship between classic cinema and popular genres like sword flicks, melodramas, psychological thrillers, and anime, focusing particularly on directors whose work seems to borrow equally from genre film and the artistic avant-garde. All texts are translated or subtitles. All levels welcome.
Class Format: discussion
Requirements/Evaluation: attendance, participation, some responses, two papers (5-7 pages), test
Prerequisites: none
Enrollment Preferences: students majoring in a related field
Enrollment Limit: 40
Expected Class Size: 20
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 1 requirement if registration is under ASST

COMP 156 Thirteen Ways of Looking at Jazz (D) Crosslistings: AFR 156/COMP 156/AMST 156/ENGL 223
Taking its title from the Wallace Stevens poem, "Thirteen Ways of Looking at a Blackbird," which interprets the blackbird in different ways, this course similarly explores a more complex, multi-layered perspective on jazz, from jazz and American democracy to jazz in visual art. Accordingly, the course introduces students to several genres, including historical documents, cultural criticism, music, literature, film, photography and art. The course does not draw on a musicological method but rather a socio-cultural analysis of the concept, music and its effects—so students are not required to have any prior musical knowledge or ability. In this writing intensive course, students will write and revise short close analyses of multiple types of media, ultimately honing their writing skills on one form of media for a polished, original analysis that weds their increased critical thinking skills. This EDI course explores the musical expressions of the culturally diverse peoples of African descent in the New World, as well as the myriad ways in which
representations of jazz signify on institutional power, reaffirm dominant U.S. and/or European hierarchies of race, gender and class, and signal inequality in order to contest it.

**Class Format:** lecture

**Requirements/Evaluation:** evaluation will be based upon class participation, 1 quiz, a 2-page response essay, one 3-page essay, one 5-page essay, one oral presentation/performance with 3-page critical report, totaling approximately 20 pages of written work.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:**

**Enrollment Limit:** 19

**COMP 172 Myth in Music (W)**

Crosslistings: MUS 172/COMP 172

Orpheus, Prometheus, Faust, and Don Juan—these figures have captured the imagination of writers, artists, and composers throughout history. This course explores how prominent myths of western civilization have found expression in a broad variety of musical works, e.g., operas by Claudio Monteverdi, Wolfgang Amadeus Mozart, Jacques Offenbach, and Richard Wagner; songs by Franz Schubert, Hugo Wolf, Ricky Ian Gordon, and Adam Guttell; ballets by Louis van Beethoven and Igor Stravinsky; symphonic poems by Franz Liszt, Richard Strauss and Alexander Scriabin; Broadway musicals by Richard Adler and Randy Newman; and mixed-media projects by Rinde Eckert. Our inquiry will lead us to ponder an array of questions: Why have certain myths, especially appealing to composers? What accounts for these myths' musical longevity? How have myths been adapted to different musical genres and styles, and for what purposes? How do the works reflect the historical cultures in which they originated? How have they engaged with different social, political, artistic, and intellectual concerns?

**Class Format:** lecture/discussion

**Requirements/Evaluation:** evaluation will be based on class participation, three 6-page papers (with revisions), and a final presentation

**Prerequisites:** none

**Enrollment Preferences:** students with a demonstrated interest in literature or music

**Enrollment Limit:** 15

**Expected Class Size:** 10

**Distributional Requirements:** Division 1, Writing Intensive

**COMP 200(S) European Modernism—and Its Discontents**

What is/was Modernism? An artistic movement? A new dynamic and sensibility? A transformative response to changed conditions? All these and more? The temptation to deal with such issues via examination of certain key works spanning the years 1850-1930. Topics to be considered: the rise of industrial capitalism and the literary market, advances in science and technology, urban alienation and social conflict, anti-"bourgeois" stances, the displacement of religion, the fragmented self, the proliferation of multiple perspectives, the breaks with the past and privileging of the present, and the horrors of war. To be studied: poetry by Baudelaire, Yeats, and Neruda; prose fiction by Dostoevsky, Kafka, Proust, Joyce, and Woolf; drama by Beckett; Futurist and Surrealist manifestoes; German Expressionist films; and theoretical writings by Marx, Freud, Nietzsche, Ortega y Gasset, and Benjamin. In addition, select portions of Bell-Villada's Art for Art's Sake and Literary Life and Peter Gay's Modernism will serve as general background to the course. All readings in English.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** class participation, brief weekly journals, one class presentation, three 6-page papers, a mid-term, and a final

**Prerequisites:** none

**COMP 201 The Hebrew Bible**

Crosslistings: REL 201/COMP 201/JWST 201

The Hebrew Bible is perhaps the single most influential work in the history of Western philosophy, literature, and art. But the overwhelming presence of the text in nearly every aspect of modern culture often obscures the sheer brilliance of its narrative technique as well as the complex interplay between law, history, prophecy, and poetry. This course offers a comprehensive introduction to the literary, historical, and theological aspects of the Hebrew Bible with an eye towards developing a sophisticated understanding of the text in its ancient context. Through the close reading of substantial portions of the Hebrew Scripture in translation and the application of various modern critical approaches to culture and literature, students will explore fundamental questions about the legacy of ancient Israel, as well as the fundamental power of storytelling that has resonated across two millennia.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** evaluation will be based on class participation, short written assignments, and two to three longer papers

**Prerequisites:** none

**Enrollment Preferences:** Jewish Studies concentrators, Religion and Comparative Literatur majors

**COMP 203(F) Nineteenth-Century Russian Literature in Translation**

Crosslistings: RUSS 203/COMP 203

This course introduces students to landmark texts of 19th century Russian literature, exploring their aesthetic, social and philosophical implications and significance. We will begin by reading Pushkin, Lermontov and Gogol's innovative realist variations on pre-existing Romantic literary tropes. We will then trace how these initial themes and ideas are expanded upon and given new configurations by subsequent "giants" of Russian realism: Dostoevsky and Tolstoy. Additional literary and ideological issues of the century will be addressed in the works of Turgenev and Goncharov, two other representative authors of the "Golden Age". Finally, we will turn to the works of Chekhov, who represents an acute ambivalence within the realist method of portrayal, thus anticipating modernist sensibilities of the 20th century.

Knowledge of Russian is not required; all course readings will be in English.

**Class Format:** lecture

**Requirements/Evaluation:** participation, short written responses, an oral presentation, research paper

**Prerequisites:** none

**Enrollment Preferences:** students majoring or considering a major in Russian or Comparative Literature

**Enrollment Limit:** none

Not Offered Academic Year 2018
LEC Instructor: Gene Bell-Villada

COMP 206 The Book of Job and Joban Literature (W)
Crosslistings: REL 206/COMP 206/JWST 206
The Book of Job has often been described as the most philosophical book of the Hebrew Bible. The story of one man's struggle to understand the cause of his suffering and his relationship to God represents the finest flowering of the Near Eastern wisdom literature tradition. Through its exploration of fundamental issues concerning human suffering, fate and divinity, and the nature of philosophical self-examination, Job has served as a touchstone for the entire history of existential literature. At the same time, the sheer poetic force of the story has inspired some of the greatest literary and artistic meditations in the Western tradition. This course will engage in a close reading of the Book of Job in its full cultural, religious, and historical context, with special attention to its literary, philosophical, and psychological dimensions. We will then proceed to investigate key modern works in several genres that involve Joban motifs, themes, and text both explicitly and implicitly. These texts will include Franz Kafka's The Trial, Archibald Maclish's J.B., Robert Frost's "Masque of Reason," Carl Jung's Account to Job, and William Blake's Illustrations to the Book of Job. All readings are in translation.
Class Format: discussion
Requirements/Evaluation: evaluation will be based on class participation, weekly short written assignments, and two longer papers
Prerequisites: none
Enrollment Limit: 19

COMP 207T Tolstoy: The Major Novels (W)
Crosslistings: RUSI 210/COMP 207
This tutorial will focus on Lev Tolstoy's four novelistic masterpieces—War and Peace, Anna Karenina, Resurrection, and Hadji Murat—placing them in their appropriate historical, social, and philosophical context. For each week of class, students will read a significant portion of a novel by Tolstoy, as well as a selection of secondary literature taken from those works that inspired the author, reactions that arose at the time of the novel's publication, and scholarship that seeks to explain the power and enduring significance of these novels. Students will meet with the professor in pairs, with one student writing a five-page paper for each class session and the other student providing a critique of the paper. For those students without Russian language skills, all works will be read in English translation. Those students who have completed at least three years of college-level Russian may take the course in Russian.
Class Format: tutorial
Requirements/Evaluation: evaluation will be based on completion of weekly reading and writing assignments and active discussion during tutorial sessions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: for students taking the tutorial in ENGL: none; for students taking the tutorial in RUSS: either RUSI 252 or permission of instructor

COMP 209 Dolls, Puppets and Automatons (W)
Crosslistings: Comp 209, LATS 240/AMST 240/COMP 210
This course focuses on the ambiguous origins of anthropomorphic representations, first in the form of idols, fetishes, or statues for religious worship, later in the shape of puppets, dolls, or automatons for their entertainment qualities. And yet, these objects have always played multiple roles in human society; modernity in particular shows a great interest paired with great ambivalence towards dolls, puppets, and automatons, regarded both as uncanny Doppelgänger or threatening machines. In order to encompass the scope of our modern fascination with these figures, we will explore their haunting presence in literary texts by ETA Hoffmann, Achim von Arnim, Theodor Storm, Felisberto Hernandez, and Viktor & Rolf. Conducted in English.
Class Format: seminar
Requirements/Evaluation: active class participation, one oral presentation, three 5- to 8-page papers
Prerequisites: none

COMP 210 Latin/o Language Politics: Hybrid Voices (D)
Crosslistings: LATS 240/AMST 240/COMP 210
In this course we will focus on issues of language and identity in the contemporary cultural production and lived experience of various Latin/o communities. As such, how are cultural values and material conditions expressed through Latin/o language and literature? How does Latin/o identity challenge traditional notions of the relationship between language, culture, and nation? In what ways might Latin/o literary and linguistic practices serve as tools for social change? Departing from an overview of common linguistic phenomena such as code-switching (popularly known as "Spanglish") and Latin/o English, we will examine bilingual education, recent linguistic legislation, and the English Only movement. Throughout the course we will engage with texts culled from Latin/o theatre, autobiography, novels, and poetry. Both directly and/or indirectly, these texts address Latin/o language politics, as well as the broader themes of power, community, ethnico-racial identity, gender, sexuality, class, and hybridity.
Class Format: seminar
Requirements/Evaluation: participation, two essays, final take-home examination
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Latin/o Studies concentrators, American Studies majors, Comparative Literature majors by seniority

Not Offered Academic Year 2018
SEM Instructor: Maria Elena Cepeda

COMP 211 Introduction to Latin/o Literatures (D)

Crosslistings: LATS 208/AMST 207/COMP 211/ENGL 251

This discussion course serves as an introduction; the reading list is not meant to be exhaustive or comprehensive, but will rather provide a sampling or range of the many possibilities for students to engage. We will explore a number of readings across different genres (the novel, play, poem, story, graphic novel).

Students will endeavor to understand how each author defines Latinidad. What characterizes Latinidad for each of these writers and how do their works articulate the intersections and contradictions out of which the Latin/o experience emerges? How is Latin/o literature marked by notions of language, nationality, gender, sexuality, class, politics, form, and genre? The readings will provide both a survey of general ideas in Latin/o literature as well as specific case studies and historical examples from which we will extrapolate about the larger field. Readings include works by Tómas Rivera, Cristina García, Cristy C. Road, Oscar Zeta Acosta, Junot Díaz, Alisa Valdes-Rodriguez, and more.

This course fulfills the Exploring Diversity initiative requirements as it offers students the chance to critically engage with and question the unknown, through an exploration of the texts by Latin/o/a writers, and an understanding of the Latin/o/a experience, both within the U.S. and around the world.

Expected Class Size: 15

Distribution Notes: meets Division 1 requirement if registration is under REL or GBST; meets Division 1 requirement if registration is under ARAB or COMP

Enrollment Limit: 19

Enrollment Preferences: Latin American Studies majors and those with compelling justification for admission

Enrollment Preferences: Religion and Arabic Studies majors

Nontraditional note: may not be taken on a pass/fail basis

Instructor: Saadja Yacoob

COMP 212 Moses: Stranger in a Strange Land

Crosslistings: REL 202/JWST 202/COMP 214

As chief priest, prophet, and lawgiver all in one, Moses occupies the central place in the historical narrative of Israelite and Jewish leaders. However, he is a somewhat unlikely candidate for such an important role. He is God's chosen leader among the enslaved Israelites, but he is raised as an Egyptian prince. He is a spokesman for his people, but he is slow of speech. He is the lawgiver and first judge of his nation, yet he is quick-tempered and impatient. The story of the most revered figure in the Jewish tradition, who nevertheless remains an outsider to the very end, has fascinated commentators and inspired countless artistic and literary interpretations. This course will engage in a close study of the figure of Moses by examining the biblical narrative of his life and career from Exodus through Deuteronomy with an eye towards understanding the complex and often contradictory portrait of this self-described "stranger in a strange land." We will also examine some of the ancient legendary and folkloric accounts about Moses, as well as philosophical and allegorical treatments in Hellenistic Jewish, early Christian, and Muslim literatures. We will then proceed to investigate key modern reconfigurations and critiques of Moses in several genres, which may include renaissance visual depictions, literary works by Sigmund Freud, George Eliot, Thomas Mann, and Zora Neale Hurston, and even musical and cinematic renditions. All readings are in translation.

Class Format: seminar

SEM Instructor: Edan Dekel

COMP 215 Experimental Asian American Writing

Crosslistings: AMST 215/ENGL 217/COMP 215

Asian American literature did not begin in the 1980s with Amy Tan's Joy Luck Club. Nor has the writing primarily been confined to autobiographical accounts of generational conflict, divided identities, and glimpses of Chinatown families. Asian American literary writings in English began with poetry in the late nineteenth century, and has encompassed a variety of aesthetic styles across the last century—from Modernism to New York School poetry to protest poetry to digital poetics. This course will explore Asian American writings that have pushed formal (and political) boundaries in the past 100+ years, with a particular focus on avant-garde and experimental writings that have emerged in the past 40 years. The poets we will look at such authors as Jose Garcia Villa, Chuang Hua, Wong May, Theresa H., Cha, John Yau, Mei-mei Benssbrugge, Tan Lin, Prageeta Sharma, Bhanu Kapil, and Tao Lin.

Class Format: seminar

Requirements/Evaluation: pages (6-8 p. and 10-12 pp.) plus in-class presentation, brief response papers, and class participation

Prerequisites: none

COMP 213(S) Reading the Qur'an (D) (W)

Crosslistings: REL 238/ARAB 238/GBST 236/COMP 213

In the nearly 1,500 years of Islamic history, the Qur’an has been a central source of spiritual insight, ethical and legal guidance, sacred stories, and theological principles. Considered the divine word of God, the Qur’an is central to devotional life. This course will explore the Qur’an as a text that is always in a state of production. We will focus significantly on close readings of the text of the Qur’an, in addition to pre-modern and modern Qur’anic exegesis. The course will begin with a historical account of the revelation and composition of the Qur’an, placing the form and content of the text in the context of 7th century Arab society and the life of the Prophet. We will then study Qur’anic commentaries to discuss how Muslims have drawn theological, legal, philosophical, and mystical meaning from the Qur’an. We will pose specific questions, and following the different exegetical methods tell us about the intertextual nature of the Qur’an. How have these shifting notions affected the meaning made from Qur’anic verses and passages? What role do interpretive communities play in determining what the Qur’an means? In this course, through an interpretation of Qur’anic texts, calligraphy, and Qur’an manuscripts, we will explore the ways in which the Qur’an is also an object of devotion in Muslim life.

Extra Info: class participation, weekly reading responses, 3- to 4-page midterm paper, and a final project with a media component and a 4- to 6-page analytical essay

Instructor: Saadia Yacoob
COMP 216(F) Folk and Fairy Tales in Literature and Beyond (W)
From cannibalistic crones in sugary cottages to frogs who can be transformed with a kiss, the Brothers Grimm collected a broad range of stories that have been beloved, told billeted, transmitted and transformed for hundreds of years in many cultures. This course will look broadly at folktales from different traditions, ranging from early China to medieval Europe and contemporary America. In this course we will approach the folktale from a number of perspectives, including typological approaches; moral notions embedded in such tales; and the often porous borders between the natural and the supernatural, the animal and the human, and living and dead. We will consider the way normative gender and ethnic roles are portrayed and shaped in folktales. This course will be framed in a comparative approach, and will consider the complex literary histories of folktale, looking at the interplay of oral and written traditions, folktales as alternative histories, notions of authorship, and the ways stories transform in the course of transmission.

Class Format: seminar
Requirements/Evaluation: over the course of the semester students will write 5 2-page response papers, a 4- to 5-page midterm paper, and a 7- to 8-page final paper (with opportunity for revision of the final paper) and will receive detailed written feedback on their work
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: comparative literature majors

COMP 217(S) Ancient Wisdom Literature
Crosslistings: REL 295/CLAS 205/COMP 217/JWST 205
The Biblical books of Proverbs, Ecclesiastes, and Job are often grouped together under the Hebrew category of hokhma, wisdom.1 Although these books are very different, they can all be interpreted as meditations on ethical and practical philosophy. In this way, they represent the Hebrew Bible's canonical embrace of a widespread Near Eastern literary phenomenon. From the instructional literature of Egypt and Mesopotamia to Greek didactic poetry and fables, ancient Mediterranean cultures offer a wide range of texts that engage the issues of personal behavior, leadership, and justice. Starting with the central wisdom books of the Hebrew Bible and moving through relevant material from the Apocrypha, New Testament, and the Egyptian and Babylonian traditions, this course will examine the literature of wisdom throughout the ancient world with an eye toward understanding its various social, political, and philosophical contexts. We will then consider the Greek wisdom tradition in such texts as Esiod's Works and Days, Aesop's fables, and fragments from the pre-Socratic philosophers. Finally, we will explore the influence of these ancient sources on later expressions of wisdom in medieval European literature, as well as more recent examples such as Benjamin Franklin's Poor Richard's Almanack. All readings are in translation.
Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based on class participation, short written assignments, and two longer papers
Prerequisites: none

COMP 220(F) Contemporary Russian Culture and Politics
Crosslistings: RUSE 214/GBST 101/COMP 220/PSCI 294
For almost a century, Hollywood films have been the world's most influential art form, shaping how we dress and talk, how we think about sex, race, and power, and what it means to be American. We'll examine both the characteristic pleasures provided by Hollywood's dominant genre—including action films, horror films, thrillers and romantic comedies—and the complex, sometimes unsavory fantasies they mobilize. We will do this by looking carefully at a dozen or so iconic films, probably including Psycho, Casablanca, The Godfather, Schindler's List, Bridesmaids, Groundhog Day, and 12 Years a Slave. In addition to the assigned reading, students will be required to attend free screenings of course films on Sunday evenings at Images Cinema.
Class Format: lecture
Requirements/Evaluation: mandatory attendance at free Sunday 8:00 pm film screenings at Images, two 2-page essays analyzing a short film sequence, two editing exercises (produce a clip and a <2 page essay), one midterm, and a final essay.
Extra Info: may not be taken on a pass/fail basis

COMP 222 Detective Fiction (W)
Despite the genre's comparative youth, detective fiction has proven unusually adaptable and stunningly prolific. In the less than 200 years since its birth, detective fiction has traveled to virtually every region of the globe and into countless languages, found a home in both high art and popular culture, penetrated media including print, cinema, the internet, and the smartphone, and spawned subgenres as sundry and specific as the police procedural, cooking detective fiction, medieval monk detective fiction, and lesbian detective fiction. This class seeks to understand the genre's explosion in the wake of Edgar Allan Poe's seminal stories by surveying the diverse material that has followed. We will critically analyze the pleasures provided by these diverse narratives, as well as work by those who theorize detective fiction. In addition to reading classics by Poe, Arthur Conan Doyle, and Agatha Christie, we will read detective fiction from outside the Anglo-American world, discover what separates men from women detectives, explore Hollywood and television's fascination with the detective, and see what happens when the detective gets self-consciously conceptual in works by writers such as Jorge Luis Borges and Paul Auster. All readings will be in English.
Class Format: seminar
Requirements/Evaluation: regular attendance, active participation in class
discussions, three short papers of varying lengths, and a final paper of 10-12 pages.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option.

**COMP 223(S) Japanese Food Culture in a Global Context (D)**

**Crosslistings:** JAPN 223/COMP 223

The bourgeoning popularity of Japanese food on a global scale has resulted in a surge of interest in the culture. This course addresses the effects of globalization on the culinary landscape of Japan, and the development of Japanese cuisine as a global phenomenon, including the history of Japanese food both in the United States and other parts of the world. We will explore how the food and culture of Japan has been influenced by different cultures and how those influences have shaped the modern Japanese cuisine.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, three response papers, two small projects (including descriptions & class presentations), and one research paper & presentation

**Extra Info:** may not be taken on a pass/fail basis

**COMP 224 The Cookbook Through History**

More than a compilation of recipes and instructions, a cookbook is a means of cultural transmission. This course will read between the recipe lines, exploring cookbooks as important documents that reveal a surprising amount about history and society. As Arjun Appadurai has noted, cookbooks "tell unusual cultural tales, combining the sturdy pragmatic virtues of all manuals with the vicarious pleasures of the literatures of the senses." We will begin by examining the cookbooks of antiquity for what they can tell us about social status, global trade, and the distribution of foodstuffs and wealth. Moving into the medieval period we will look at cookbooks-cum-medical texts and consider the importance of diet and nutritional advice. Many early modern cookbooks were also agricultural and household primers, so we will touch on garden and table design and also discuss how the recipes reflect the great shifts of the Columbian exchange. The "receipt" books kept by many women were often their sole means of expression; these manuscripts will lead to discussions of gender and class. As we progress to the 19th century, we'll look at cookbooks intended to assimilate immigrant groups, as well as the cookbooks those groups published to keep their culinary traditions intact. We will see how cookbooks have evolved over more prescriptive, as do "domestic science" and "home economics" as ways of validating women's kitchen labors. The 20th century brings a proliferation of culinary instruction in new forms, including artists' books, TV shows and videos. Because cookbooks engage with issues still pertinent today—gender, race, immigration, global trade, national identity, health, and religious and cultural tensions—we will approach the books through many different disciplines, from culinary history to sociology and anthropology, to the visual arts, gender studies and nutrition. Students will actively use the rich collection of rare cookbooks in Chapin Library.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, 4 response papers, one 5-10 page paper, 10 project

**COMP 225 Traditional Chinese Poetry (D) (W)**

**Crosslistings:** CHIN 228/COMP 225

Poetry was the dominant form of literature in China for most of the pre-modern period. It could be used to justify the overthrow of dynasties or to court a beloved; Chinese poets sang about communing with the gods and about eating or drinking; in the same time period. In this course we will read and discuss poems from the first 2000 years of the Chinese literary tradition. Some of the issues we will explore include the ways in which poems present the world and make arguments about it; how Chinese poets construct different notions of the self through their poems; and how poetry can give voice to conflicts between aesthetics and morality, between the self and community, and between the state and other sources of social capital. We will also look at Chinese theories of literature and poetry and compare them with dominant Western models. This is an EDI course and we will be concerned throughout with differences in the way Chinese and other cultures thought about and utilized poetry. We will examine the implicit biases inherent in the ways Western scholars in particular have analyzed and translated Chinese poetry. All readings in English translation.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** numerous short response papers, two longer papers (1700-2300 words), and a final exam; participation in class discussions required

**Prerequisites:** none; no previous experience with poetry or Chinese required

**Enrollment Preferences:** Chinese majors; open to all

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Distributional Requirements:** Division 1, Exploring Diversity, Writing Intensive

**Not Offered Academic Year 2018**

**LEC Instructor:** Christopher Nugent

**COMP 226T The Ancient Novel (W)**

**Crosslistings:** CLAS 226/COMP 226

In this course we read and closely analyze long works of fiction composed in the ancient Mediterranean between the first century BCE and the fourth century CE. To call these ancient works "novels" might be misleading, if our definition depended on the historical conditions that fostered the emergence of the modern novel (e.g., industrialization and widespread literacy). On another definition, however, the novel is that genre which, more than any other, devours and incorporates other genres. Judged by this standard, the works we will deal with in this course are quintessentially novel. They afford new perspectives on the diverse, cosmopolitan culture of the Hellenistic and late antique Mediterranean world in which they were originally written and read. Replete with spectacular tales of true love, death, danger, miracles, superstitions, conventions, triumphant recognitions and happily-ever-after reconciliations, they access other classical genres such as history, tragedy, and epic by means of parody, allusion, and homage.

**Class Format:** tutorial

**Requirements/Evaluation:** alternating papers and critiques

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**COMP 227 Made in China or Making "China"?: Twentieth-Century Chinese Performatative Culture**

**Crosslistings:** CHIN 227/COMP 227/THEA 227

This course explores the ways in which twentieth-century Chinese performativist culture fashioned our contemporary understanding of "China." Starting with Chinese hybrid theatres staged in the US, Japan, and semicolonial Shanghai in the early 1900s and ending with the 2008 Beijing Olympics Opening Ceremonies, this course examines performative works drawn from the breadth of an expanded 20th century; including film, spoken drama, intercultural reproductions of Peking and Kun Operas, revolutionary and avant-garde theatre, Chinese Rock concerts, and global mass mediated performances. Emphasizing the complex ways performances and performance-making backstage) placed "China" on the global stage; and shaped racial, gender, and national identities among play-makers and audiences. We will also explore how Chinese operas were reinvented as "traditional culture" and a "national essence" in the early 20th century; and how agents of Chinese performance, as makers of spectacle, staging, directors, artists, networks, and ideas, students will also become fluent in the landscape of performance culture in China. All class materials and discussions are in English.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** regular in-class participation, three short papers (3-5 pages), and one final project

**COMP 229 Japanese Culture and History from Courtiers to Samurai and Beyond (D)**

**Crosslistings:** HIST 219/COMP 229/ASST 219

This course will introduce students to the history, literature, and artistic culture
of premodern Japan, from the time of the first recorded histories in the 800s through the abolition of the samurai class in the late 1800s. We will focus on the politics and aesthetic culture of the ruling elites in each period, from the heyday of the imperial court through the rise and eventual decline of the samurai warrior and the growth of Edo (Tokyo), with its new mode of early modern urban life as well as between the written and the visual, so we will also examine examples from architecture, visual art, and/or broader pop culture. Texts will include essays by Jean Baudrillard, Fredric Jameson, Jean-François Lyotard, and others; novels and short stories by writers like Don DeLillo, Italo Calvino, and others; and primary sources from Japanese print culture, such as Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

Class Format: tutorial; after an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week.

Requirements/Evaluation: 5 pages (4-5 pages each) and 5 responses (1 page each) in small groups.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: none.

Enrollment Preferences: first-year and sophomore students considering a major in Comparative Literature majors, students with a demonstrated interest in religion and Comparative Literature majors, Arabic Studies students majoring or considering a major in a related field.

Instructor: Christopher Bolton

COMP 232T Reading and Writing the Body (W)

COMP 232T Reading and Writing the Body (W)

Crosslistings: ENGL 228/COMP 230

At the same time that the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as Shakespeare, Marlowe, Spenser, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt. The course will contribute to the College’s Exploring Diversity Initiative by examining the role of historical and cultural differences within and beyond Europe at the very beginning of globalization.

Class Format: seminar

Requirements/Evaluation: five 4-page papers, in-class presentation, thoughtful participation in discussions.

Prerequisites: none.

Enrollment Preferences: first-year and sophomore students considering a major in Comparative Literature majors, students with a demonstrated interest in religion and Comparative Literature majors, Arabic Studies students majoring or considering a major in a related field.

Instructor: Christopher Bolton

COMP 235 The Qur’an and Literature Crosslistings: COMP 235/ARAB 235/REL 235

This course explores the rich and multifaceted relationship between the Qur’an and literature from several different perspectives. The first part of the course will examine Qur’anic aesthetics through primary readings in translation and scholarship on the question of whether the Qur’an is literature. Students will consider how the Qur’an sheds light on the category of literature through attention to such features as sound, figurative language, and genre. Students will also discover how the Qur’an has been interpreted by poets and philosophers over time, and how the Qur’an has been used to defend the Islamic world against attacks from other religions. The latter part of the course will consider the influence of postmodernism on the Qur’an and on Islamic literature, and the impact of classical Islamic literary traditions on the Qur’an in early Islamic history. Finally, we will read a selection of later literature that takes up Qur’anic themes and language in Islamic history, in order to explore questions of intertextuality, rewriting, and the guises that commentaries can take.

Class Format: seminar

Requirements/Evaluation: 2 pages (5-7 pp., 8-10 pp.), short response papers, class participation.

Enrollment Preferences: Comparative Literature majors, Arabic Studies majors.

Instructor: Janeke van de Stadt

COMP 236T She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings (W)

Critic Crosslistings: AFR 205/COMP 236/WGSS 207

The practice of colorism, or skin color discrimination, is very familiar to people of color globally. Often described as intra-racial racism, colorism within the Black American community is a part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison’s writings. Employing the methods of literary history and method criticism, this tutorial will investigate the ways in which we can critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic observation.

Class Format: tutorial

Requirements/Evaluation: six 2-page papers, two 5- to 7-page papers, 10-minute vlog, annotated bibliography

COMP 237 Love, Desire, and Longing in Classical Arabic Poetry

Crosslistings: COMP 237/ARAB 237

The genre of ghazal, or love poetry, has a long and fascinating history in classical Arabic literature. In its various guises, it has been a vehicle for expressing many forms of desire, including erotic passion, “platonic” yearning for God, and living in relationship to God. This course will explore the development of ghazal and the pre-Islamic odes, continuing through the rise of the ghazal as an independent genre, and then take up its adaptations across the classical and pre-modern Arabic-speaking world. We will pay close attention to aesthetics, tone, emotional effect, and features particular to different sub-genres of ghazal such as the ghazal as representation of the historical, cultural, and literary contexts and will further interpretive light on the poetry. Through these sources, which come from lands as diverse as Iberia, North Africa, the Levant, and the Arabian Peninsula, we will investigate how classical Arabic-language love poets expressed issues of gender, class, sexuality, existential despair, hope and loss, and living in relationship to God.

Class Format: seminar

Requirements/Evaluation: 2 papers (5-7 pp., 8-10 pp.), short response papers, class participation

Prerequisites: none

Enrollment Preferences: Comparative Literature majors, Arabic Studies majors

Expected Class Size: 15

Distribution Notes: meets Division 1 requirement if registration is under ARAB

Distribution Requirements: Division 1 Not Offered Academic Year 2018

SEM Instructor: Rachel Friedman

COMP 238 Introduction to Ecocriticism: North-South Dialogues on Nature and Culture (D)

Crosslistings: ENVI 239/COMP 238

This course will introduce students to the study of the relationship between literature and the environment, often referred to as “ecocriticism,” through careful examination of Jean de Léry’s 1577 History of a Voyage to the Land of Brazil and related texts. Léry’s fascinating account of a yearlong stay among the ‘cannibals’ of Brazil gets at many of the themes and debates taken up by ecocritics today. How do political, economic, religious and philosophical factors influence individual and collective conceptions of ‘nature’ and its value? How do acts of reading and writing inform (or deform) our understanding of the ‘natural’ world? What is the role of aesthetics in environmental politics, and how can we unspoken assumptions about race, gender, and cultural difference influence representations of global environmental issues like deforestation and global warming? Envi 238/Comp 238 fulfills the origins of the Environmental Curricular Goals by examining recent questions and debates about the field of environmental politics, and it contextualizes current questions of international environmental policy within the long history of colonialism, challenging students to think about cultural diversity as well as economic inequality as relevant to contemporary debates about the value and distribution of natural resources. In addition to Léry’s history, we will also read landmarks of ecocriticism by scholars including Lawrence Buell, William Cronon, Candace Slater and Jorge Marcone, as well as more recent literary interventions into environmental issues in the Americas.

Class Format: lecture-discussion

COMP 239(F) The Novel in Theory (W)

Crosslistings: ENGL 240/COMP 239

What is a novel? Where did it come from? Why would anyone invent such a thing in the first place? In spite of its title, this is not a course about merely theoretical novels, but rather a literary history of the novel. From the time of the ancient Greek novelists up through the novels of the 21st century, as well as to see how the novel's own academic and popular fortunes are linked to the particular character of today, novel theory is legion. To try to come up with a name for a few, one can find theories of the novel that identify themselves as formalist, psychoanalytic, post-structuralist, Marxist, historical, and post-colonial, as well as accounts that emphasize sexuality and gender, for example, or the novel's trans-national development. Rather than try for an encyclopedia of either the novel or its theories, this course will use two or three novels as a means of testing out a range of representative works of novel theory. We will move back and forth from the theory of the novel to its practice in order to see how novel theory has developed over the past century, as well as to see how the novel's own academic and popular fortunes relate to its theoretical accounts. Theorists are likely to include Henry James, Shklovsky, Benjamin, Lukacs, Barthes, Watt, McKeon, Jameson, Franco, Eve Sedgwick, Edward Said, Frano Moretti. Novelist may include Austen, Dickens, Conrad, etc.

Class Format: seminar

Requirements/Evaluation: 4-5 papers totaling about 20 pages; regular, substantial, and intensive participation in class

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 240(F) Introduction to Literary Theory (W)

Crosslistings: ENGL 230/COMP 240

This course introduces students to some of the most significant and compelling trends in modern criticism—such as gender and postcolonial theory, deconstruction, sociological analysis, and psychoanalytic criticism—in an organized and systematic way. The course begins with pre-Freudian theory from Shakespeare to Hitchcock by way of varied theoretical approaches. Can Othello be read as a feminist text? A site of class struggle? A staging of the relationship between language and the unconscious? The course aims both to make familiar some of the critical methods students are likely to encounter in the field of literary studies these days, and to show how such methods can transform our understanding of a text, opening surprising possibilities even in familiar works. In the process, the course will also raise broader questions about the imperatives and usefulness of literary theory in relation to texts and worlds.

Class Format: seminar

Requirements/Evaluation: frequent short papers totaling 20 pages

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Preferences: first-year students, sophomores, English majors who have yet to take a Gateway, and potential Comparative Literature majors
COMP 241T Sex and Gender in Ancient Greece and Rome (D) (W)
Crosslistings: CLASS 241/COMP 241/WGSS 241
In the ancient Mediterranean world, sexuality and gender shaped a broad range of attitudes and actions. These categories created and reinforced difference in virtually every aspect of life, from the household to the political arena. This course examines the diverse discourses and practices around sexuality and gender in the cultures of ancient Greece and Rome, while also dismantling false assumptions about the continuity of the "classical" past with our own contemporary notions and values. We will carefully analyze, contextualize, and compare a variety of texts, including selections from tragedy and comedy (Euripides, Terence), epic (Homer, Ovid) and lyric poetry (Sappho, Catullus), novels, epigraphs, and early saints' lives, in order to gain a deeper and more complex understanding of how gender and sexuality were experienced, expressed, and regulated in Greece and Rome. Our emphasis will be on ancient texts, but selections from contemporary criticism and theory will enrich the methodological framework through which we approach those primary sources. The course fulfills the EDI requirement by providing sufficient context for students to make independent investigations of how literary and religious texts and practices engaged with political and social institutions to maintain different life courses and different systems of reckoning for the values of men's lives, women's lives, and the lives of individuals who didn't fit easily into either category. Additionally, the course will promote students' capacity to critically evaluate two past cultures that have long been important sources for intellectual and cultural traditions in the West, and which are still invoked today, sometimes misleadingly, in an attempt to justify or justify positions and practices of privilege or oppression.

Class Format: tutorial
Requirements/Evaluation: five to six weekly tutorial papers, five to six responses, a midterm conference with instructor, a mid-length final paper (approximately eight pages) consisting of a revision and expansion of a previously written paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth term
Prerequisites: none
Enrollment Preferences: majors or intended majors in Classics, WGSS, and Comparative Literature
Enrollment Limit: 10

Not Offered Academic Year 2018
TUT Instructor: Amanda Wilcox

COMP 242(S) Americans Abroad (D) (W)
Crosslistings: COMP 242/ENGL 250/AMST 242
This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Readings will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler's expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts.
Class Format: seminar
Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: any literature course at Williams or permission of instructor
Enrollment Limit: 10
Expected Class Size: 10

COMP 243 Modern Women Writers and the City (W)
Crosslistings: COMP 243/WGSS 252
Ambivalence has always been a vital part of literary responses to city life. Modernists may praise the city or blame it, while writers react to the urban environment in a significantly different way from men. While male writers have often emphasized alienation and strangeness, women writers have celebrated the mobility and public life of the city as liberating. We will look at issues of gender, women's work, class politics, sexual freedom or restriction, rituals of consumption, the conservation of memory by architecture, and community-building in cities like London, New York, Berlin, Paris. We will examine novels and short stories about the modern city by writers as diverse as Virginia Woolf, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Edwidge Danticat. We will consider theoretical approaches to urban spaces by historians (Christine Boyer) and anthropologists and sociologists (Janet Abu-Lughod, David Sibley, Michael Sorkin). Several contemporary films will be discussed. All readings in English.
Requirements/Evaluation: two short papers of 3-5 pages, one of 5-7 pages, and one final paper of 8-10 pages
Prerequisites: COMP 111 or a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19

COMP 244(F) Race and (post)Colonialism in Eurasia (D)
Crosslistings: RUSS 215/COMP 244/GBST 214
This course explores representations of non-Slavic peoples of Eurasia in Russian art and thought from the 19th century to the present. In the process of its historical expansion across Eurasia, the Russian Empire submerged under its political, military, economic and linguistic domains a variety of non-Slavic ethnic groups across the Caucasus and Central Asia. Their non-Slavic appearance, languages, and religious and cultural practices—broadly taken as markers of “race”—gave rise to oriental and exotic images in Russian popular fiction and visual art of the 19th century. In the 20th century, however, Soviet generations of indigenous minorities could not only claim the Russian language and cultural heritage as part of their hybrid linguistic and cultural identities, but also actively contribute to the evolving body of the Russian cultural canon, from novels to cinema, while developing their own national traditions. The new (self)representations of Russia’s frontier minorities, former imperial “others” and new Soviet “brothers and sisters,” within the Russian cultural sphere combined and problematized the notions of imperial subjugation and peripheral agency, colonialism and modernization. In the post-Soviet period, destabilization of the political boundaries of the Russian state is paralleled by new images of non-Russian “others” who appear (threateningly) close to the Russian “heartland” as never before. At the same time, Russia’s frontier minorities, former colonies, and regions regarded as exotic or marginal have been reinscribed into the Russian national consciousness and have become major sources of both national identity and cultural resources. The course will complement the EDI requirement by studying how Russian and other Eurasian cultures and peoples have interacted and responded to each in history and how such interaction continues to influence their contemporary cultural development.
Class Format: seminar

COMP 245 Red Chamber Dreams: China’s Greatest Novel as Literature and Legacy
Crosslistings: COMP 245/ASST 243
The eighteenth-century novel Dream of the Red Chamber, also known as Story of the Stone, is widely regarded as China’s greatest novel due to its intricacy of narrative and the sophistication with which it deals with themes as diverse as love, sex, politics, and family. The novel also explores the construction of public and private spaces. We will read the novel through a variety of critical approaches, addressing it both as a work of literature and as a cultural phenomenon.
Class Format:� s work, class politics, sexual freedom or restriction, rituals of consumption, the conservation of memory by architecture, and community-building in cities like London, New York, Berlin, Paris. We will examine novels and short stories about the modern city by writers as diverse as Virginia Woolf, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Edwidge Danticat. We will consider theoretical approaches to urban spaces by historians (Christine Boyer) and anthropologists and sociologists (Janet Abu-Lughod, David Sibley, Michael Sorkin). Several contemporary films will be discussed. All readings in English.

COMP 245 Red Chamber Dreams: China’s Greatest Novel as Literature and Legacy
Crosslistings: COMP 245/ASST 243
The eighteenth-century novel Dream of the Red Chamber, also known as Story of the Stone, is widely regarded as China’s greatest novel due to its intricacy of narrative and the sophistication with which it deals with themes as diverse as love, sex, politics, and family. The novel also explores the construction of public and private spaces. We will read the novel through a variety of critical approaches, addressing it both as a work of literature and as a cultural phenomenon.
Class Format:� s work, class politics, sexual freedom or restriction, rituals of consumption, the conservation of memory by architecture, and community-building in cities like London, New York, Berlin, Paris. We will examine novels and short stories about the modern city by writers as diverse as Virginia Woolf, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts.
Class Format: seminar
Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student’s own experiences
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: any literature course at Williams or permission of instructor
Enrollment Limit: 10
Expected Class Size: 10
Distribution Notes: meets Division 1 requirement if registration is under COMP or ENGL; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive
Other Attributes: AMST Arts in Electives, GBST Borders, Exiles + Diaspora Studies Electives
Spring 2018
This course explores the figure of the vampire and seeks to explain the popular appeal such a fictive creature has been enjoying for over two centuries. What kind of fears and fantasies does it crystallize? And what kind of discourse around sexuality, death, and disease does it validate? What does its mere existence reveal about gender and ethnicity? We will examine the emergence of the vampire in gothic literature of the late 18th and 19th centuries, its omnipresence in cinema in the 20th century and investigate its resurgence in 21st-century pop culture. In order to gain a deeper understanding of the figure of the vampire, we will read poems by August Bürger and Goethe, the first vampire story by John Polidori, novels by Sheridan, Stoker, and contemporary vampire fiction by Anne Rice and Stephen King. We will also discuss music video clips by Lady Gaga and Marilyn Manson, and fashion shows by Alexander McQueen, John Galliano and Vivienne Westwood.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Enrollment Limit:**

**Expected Class Size:** 19

**Distributional Requirements:** Division 1, Writing Intensive

**Other Attributes:** FMT Core Courses

**Tuition:**

**SEM Instructor:** Christophe Kone

**COMP 247 Gender, Sexuality and Modern Performance (D) (W)**

This interdisciplinary tutorial explores aspects of gender, sexuality, performativity, race, class, and representations of the body in modern theatre and performance in America. While attention will be given to the still understudied role of women in the arts, we will focus primarily on the transsexualities of social identities under intersected systems of oppression. Close analysis of works by dramatists—such as Adrienne Kennedy, Caryl Churchill, Wendy Wasserstein, Ntozake Shange, Tony Kushner, Naomi Iizuka, Paula Vogel, Suzan-Lori Parks, David Henry Hwang, Tarell McCraney, Gina Gionfriddo, and Taylor Mac—will draw us towards the diversity of race, class and ethnicity represented by the subjects of our study as well as towards the political power of theatre and performance.

**Class Format:** tutorial

**Requirements/Evaluation:** students will meet with instructor in pairs for an hour each week; they will write a 5- to 7-page paper every other week (five in all), and comment on their partner’s papers in alternate weeks

**Extra Info:** emphasis will be placed on developing skills in reading, interpretation, and critical writing, and critical written and oral response may not be taken on a pass/fail basis; not available for the fifth course option

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 1, Exploring Diversity, Writing Intensive

**Other Attributes:** AMST Arts in Context Electives, PERF Interdepartmental Electives

**Tutor:**

**COMP 248 The Modern Theatre: Plays and Performance**

This seminar will examine major trends in global theatre and performance from the turn of the nineteenth century through the postwar period. We will explore a variety of national traditions, comparing and positioning works in the context of revolutionary transformations of theatre practice. Artists to be considered may include: Strindberg, Ibsen, Wilde, Chekhov, Shaw, Pirandello, Trelawny, Artaud, O'Neill, Hughes, Stein, Williams, Hansberry, Al-Hakim, Brecht, Beckett, Abe, Genet, Soyinka, Pinter, Albee, Wilson, Gamarra, and Fornes. Although emphasis will be given to textual analysis and close reading, we will also consider trends in theatre architecture and the actor/audience relationship whenever possible.

**Class Format:** seminar

**Requirements/Evaluation:** two-page papers; two “deep-reading” responses; active participation in class discussion; attendance at selected Theatre Department and Center Series productions

**Prerequisites:** none

**Enrollment Preferences:** Theatre, English and Comparative Literature majors

**Enrollment Limit:** 18

**Expected Class Size:** 10

**Distributional Requirements:** Division 1

**Tall Instructor:** Amy Holzapfel

**COMP 250 From Adam to Noah: Literary Imagination and the Primeval History in Genesis**

This course will investigate the ways in which the elliptical style of Genesis generated a massive body of ancient folklore, creative exegesis, and explicit literary re-imagining of the early history of humankind. We will then turn to several continuations of these variant traditions in medieval and early modern literature, with particular attention to the extensive material on the figures of Cain and Noah. All readings are in translation.

**Class Format:** discussion

**Requirements/Evaluation:** evaluation will be based on class participation and several writing assignments

**Extra Info:** core course for COMP

**Prerequisites:** none

**Enrollment Preferences:** students who have already taken a course in Biblical literature

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

**Other Attributes:** ARAB Arabic Studies Electives, JWST Core Electives

**Fall 2017**

**LEC Section:** 01

**Instructor:** Edan Dekel

**COMP 251 Popular Culture in the Arab World: Youth, Populism, and Politics**

Since the uprisings in the Arab world in 2011, much attention has been paid to the significant role of the “popular” in creating social and political transformations. The voice of the youth and “the street,” in particular, emerged as massive sources and sites for political mobilization. But, are these categories identical? Does youth culture equal popular culture? This seminar will focus on providing students with an introduction to the different layers that constitute popular culture in the Arab world since the decolonization of Arab states in the 1950s. Questions that we will ask include: What constitutes “popular culture” in the Arab world? How is it different than folk culture, mass culture or “high” culture? Who are the key players in the creation and dissemination of “popular” culture? Besides globalization, for example, what other social, political and economic dynamics engulf the definition of the “popular”? What are modes of self-fashioning and representation of Arab identity that characterize this culture? To answer these questions we will watch several documentaries about music, politics and youth in the Arab world. We will also read a selection of essays from anthrology, Arab culture studies, political science, and journalism to provide historical and critical context for the material discussed in class.

**Required graphic texts include Naji Al-Alil’s A Child in Palestine and Majidi Shafi’s Metro: A Story of Cairo**

**Class Format:** lecture

**Requirements/Evaluation:** active class participation, several short response assignments (2-3 pages each), and final paper (5-7 pages)

**Prerequisites:** none

**Enrollment Preferences:** students majoring in or considering a major in Arab Studies

**Enrollment Limit:** 40
COMP 252 Arab Women Memoirs: Writing Feminist History
Crosslistings: ARAB 252/COMP 252/WSGS 252/HISTORY 309
This course reviews selected autobiographical writings by Arab women writers from the wave of independence in the 20th century to the contemporary Arab diasporas, passing through all the transformations that globalization and the technosphere have instigated. We will examine the role that first-voice narrative plays in shaping literature, history and thought, while pointing both in space and time to reclaim cultural, social and political agency. Focusing on the different articulations of self-representation, our discussion will address how these women reflect on the shifting discourses of identities, gender, nationalism, religion, feminism, sexuality, politics, borders and their histories. Questions we will address include: How did these memoirs contribute to the development of Arab feminist consciousness? In addition to the memoirs, we will look at women's blogs and watch films that focus on first-person narrative to discuss related topics, such as, visual testimonies, virtual political participation and feminist resistance in the technosphere. Required texts may include: Fadwa Tugan (A Mountainous Journey: An Autobiography), Fatima Mernissi (Dreams of Trespases: Tales of a Harem Girlhood), Leila Ahmed (A Border Passage: From Cairo to America—a Woman's Journey), Fadwa Fatig and Shirley Eder (In the House of the Dead: Autobiographical Writings by Arab Women Writers), and Jumana Haddad (I Killed Scheherazade: Confessions of an Angry Arab Woman), as well as critical essays and selections from autobiographical writings that reflect the diversity of Arab women in the Middle East and the diaspora.
Class Format: seminar
Requirements/Evaluation: active class participation, several short response papers, three short papers (3-5 pages), and a final paper (7-10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 25
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under ARAB or COMP; meets Division 2 requirement if registration is under HIST or WSGS

COMP 253 Narratives of Placement and “Dis-placement” from the Global South (W)
Crosslistings: COMP 253/ARAB 253
This seminar deals with the theme of placement and “dis-placement” in literature from different sites in the Global South in the late 20th century. Situating the question of place in different historical and cultural contexts in different sites in the Southern hemisphere, the location of much of the “developing world,” including the Middle East and North Africa, Latin America, the Caribbean, the African Diaspora and the US-Mexico borderland, we will address the following questions: What distinguishes exile from Diaspora? What constitutes “dis-placement”? How do the experiences of up-rootedness and forced migration among Palestinian refugees and Mexican migrant workers (within Mexico and the US; with or without documents) inform our notion of home and belonging? How do the legacy of French colonialism in North Africa and the rise of globalisation in Latin America, for example, shed light on the ongoing massive immigration of subjects from the Global South to the North? Our emphasis will be on working together to find avenues for expressing yourselves in writing and other media, such as creating your own blog entries about these topics. In addition to a course reader with selected stories, poems, and critical essays, readings will include: Benjamin’s Go Down, Moses, Aimé Césaire’sReturn to My Native Land, Ghassan Kanafani’s Men in the Sun, Mamud Danwish’s Journal of an Ordinary Grief, and Laila Lalami’s Hope & Other Dangerous Pursuits.
Class Format: seminar
Requirements/Evaluation: active class participation, several short response assignments (1-2 pages), one midterm paper (5-6 pages), and final paper (7-10 pages)
Prerequisites: none
Enrollment Preferences: students majoring in Comparative Literature
Enrollment Limit: 20
Expected Class Size: 19
Distribution Notes: meets Division 1 requirement if registration is under ARAB

COMP 254 “Disease” in Modern Chinese Literature and Culture (D)
Crosslistings: CHIN 253/COMP 254/WSGS 255
From early modern anxieties about China’s status as the “sick man of Asia” to contemporary concerns regarding the prospect of transnational pandemics, “diseases” and their related stories have played a critical role in making and challenging national and individual identities and representations within the 19th and 21st centuries. Actual diseases, from tuberculosis to AIDS, constitute not only real socialities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, nationhood, identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes “disease”—a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we will examine the cultural and political uses of “disease,” the relationship between diseases on the one hand, and the politics of body, gender, and class on the other; we ask how infectious (sexual) disease, and mental illness are defined, represented, and contested. We will read in both the context of new writers’ analytical essays and fictional writings in the 20th century; we examine how metaphorical “diseases,” such as infectious cannibalism and fin-de-siècle “virus,” are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). In the House of Silence: Autobiographical Essays by Arab Women, by Amal Eqeiq, as well as critical essays and selections from autobiographical writings that reflect the diversity of Arab women in the Middle East and the diaspora.
Class Format: lecture/discussion
Requirements/Evaluation: regular in-class presentation, three short papers (3-5 pages) and one final project
Prerequisites: none
Enrollment Preferences: none

COMP 255(S) Love and Death in Modern Japanese Literature (D)
Crosslistings: COMP 255/ASST 253
One thing that surprises many first-time readers of modern Japanese fiction is its striking similarity to Western fiction. But equally surprising are the intriguing differences that lie concealed within that sameness. This course investigates Japanese culture and compares it with our own by reading Japanese fiction about two universal human experiences—love and death—and asking what inflections Japanese writers give these ideas in their work. The course begins with tales of doomed lovers that were popular in the eighteenth-century kabuki and puppet theaters, and that still feature prominently in Japanese and world fiction. We will move on to novels and films that examine a range of other themes, such as, visual testimonies, visual poetry, and by questioning the power and privilege inherent within such categories as “factual” and “fictional,” “sci-fi” and “literature,” and “East” and “West.”
Class Format: lecture/discussion
Requirements/Evaluation: in-class exam, ungraded creative project, and two short papers (5-7 pages each) emphasizing original, creative, and convincing readings of the class texts
Prerequisites: none; no familiarity with Japanese language or culture is required
Enrollment Limit: none
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 2 requirement if registration is under ASST
Distributional Requirements: Division 1, Exploring Diversity

COMP 256 Arab and Anglophone: Narratives Beyond Nation and Diaspora
Crosslistings: ARAB 256/COMP 256/ENGL 284
This course takes a close look at contemporary Anglophone Arab writings. The objective is to familiarize students with major Arab writers, and/or writers of Arab descent who live in the Anglo-Saxon diaspora, especially the UK, North America and Australia. We will investigate the work of these writers with special attention to the history of Arab migration to these geographies, and the emergence of hyphenated Arab identities and literatures. At the heart of
of this course is a desire to not only shed light on what it means to be an Arab or an immigrant producing English literature, but also to understand the multiple ways in which we conceptualize and seek to define what transnational literature means. Texts for this course may include novels by the following writers: Rabih Alameddine (Lebanon/USA), Mohja Kahf (Syria/USA), Leila Aboulela (Sudan/UK), Hisham Matar (Libya/UK), and Randa Abdel-Fattah (Palestine-Egypt/Australia). There will also be a course reader that includes critical essays, poems, as well as a number of films and selections of music that shed light on the different articulations of being Arab and Anglophone.

Class Format: seminar
Requirements/Evaluation: active class participation, 4 short response assignments (2-3 pages), and final paper (5-7 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none

COMP 257 From Putin to Pussy Riot: Discourses of Post-Soviet Gender (D)
Crosslistings: RUS 213/GBST 213/WGSS 214/COMP 257
In this tutorial, we will read four novels written between 1850 and 1900, all of which focus on the figure of the adulteress: Gustave Flaubert's Madame Bovary (1857), Lev Tolstoy's Anna Karenina (1873-77), Leopoldo Alas' Ureña's La Regenta (1884-85), and Theodor Fontane's Effi Briest (1894). For each week of class, students will read one of these primary texts, as well as a selection of secondary literature that will allow us to understand, over the course of the semester, how and why the adulteress played a key role in the cultural imagination of Europe during this time. All works will be read in English translation.

Class Format: tutorial; students will meet with the professor in pairs, with one student from each pair writing a 5-page paper for each class session
Requirements/Evaluation: evaluation will be based on completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 260(F) Reading Comics from the French-Speaking World
Crosslistings: RLFR 260/COMP 260
In this introductory course to the global postcolonial novel, we will examine novels in translation and ask questions concerning the legacy of the different forms of European colonialism in these distinct geographies. This course has two goals: First, to familiarize students with classical, canonical and popular Arabic, Latin American and Caribbean novels that deal with the history of European colonialism and/or its aftermath. Second, to introduce student to some of the critical trends and theoretical debates concerning the potential and limits of reading these novels as resistance and/or postcolonial literature. In addition to selected critical essays, the readers for this course may include novels by the following writers: Assia Djebar (Algeria), Gamal al-Ghitani (Egypt), Sahar Khalifeh (Palestine), Tayyib Saleh (Sudan), Alejo Carpentier (Cuba), Rosario Castellanos (Mexico), Jamaica Kincaid (Antigua), and Gabriel Garcia Marquez (Colombia).

Class Format: seminar
Requirements/Evaluation: weekly response papers, two short papers, presentation/final project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 261 Comparative Postcolonial Narratives: Novels from the Arab World, Latin-America and the Caribbean (W)
Crosslistings: COMP 261/ARAB 261
In this introductory course to the global postcolonial novel, we will examine novels in translation. This course is designed for any student who wishes to understand the canonical and contemporary literary production in the Arab World, Latin America, and the Caribbean. The course will be divided into three parts: the first part will focus on the Brazilian and Latin American novel, the second part on the Arab novel, and the last part on the Caribbean novel. The course will be based on a mixture of lectures, discussions, and exercises.

Class Format: lecture/discussion/studio
Requirements/Evaluation: class attendance and participation; frequent (probably weekly) writing assignments that will include several short responses, three essays (1000-2000 words), three production exercises; and a final long paper or project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: majors or prospective majors in Comparative Literature or Arab Studies

COMP 258 Film and Media Studies: An Introduction
Crosslistings: ENGL 274/COMP 258
This team-taught interdisciplinary course introduces students to concepts and skills central to the study of moving images. After familiarizing ourselves with the basic elements—visual, narrative, and auditory—necessary for formal analysis, we will develop critical tools for understanding film and media in their historical and social contexts. We will discuss influential ideas, theories, and methods in the discipline of film and media studies. Students will learn to respond to works drawn from a wide range of forms: fiction and nonfiction films, animation, television, video games, and emerging forms of virtual reality. Throughout, our emphasis will be on the diverse ways in which moving pictures create meaning. How can we best think about the reciprocal relations between film, new media, and contemporary life? This course will be presented as a mixture of lectures, discussions, and exercises.

Class Format: lecture/discussion/studio
Requirements/Evaluation: class attendance and participation; frequent (probably weekly) writing assignments that will include several short responses, three essays (1000-2000 words), three production exercises; and a final long paper or project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: none

COMP 259T Adultery in the Nineteenth-Century Novel (W)
Crosslistings: COMP 259/ENGL 261/WGSS 259
In this tutorial, we will read four novels written between 1850 and 1900, all of which focus on the figure of the adulteress: Gustave Flaubert’s Madame Bovary (1857), Lev Tolstoy’s Anna Karenina (1873-77), Leopoldo Alas’ Ureña’s La Regenta (1884-85), and Theodor Fontane’s Effi Briest (1894). COMP 262 Japanese Theatre and its Contemporary Context
Crosslistings: JAPN 260/COMP 262
Japan's rich and varied performance traditions, old and new, born of different historical settings, coexist to this day and compete for the attention of audiences, domestically and abroad. The forms to be considered (nohgaku, kabuki, bunraku, shingeki, butoh, and Takarazuka all female revue among others) are all dynamic. Each has transformed itself in response to evolving social conditions. This course examines these performance traditions, considers how each reflects the social, cultural, and political context of its birth, and poses the question, “of what relevance is each to a contemporary audience?” Some of the other questions we will explore are: How have these performing forms changed over time? What do they have in common? What happened after 3.11? What do we mean by traditional? Contemporary? How are traditional and contemporary performance genres interacting with each other? How have the central themes of these works evolved? All readings and discussion will be in English.
Class Format: lecture/discussion
Requirements/Evaluation: active class participation, presentations, written journals, two short papers, and one longer paper
Prerequisites: none; open to all
Enrollment Limit: 15
Expected Class Size: 15
Distribution Requirements: Division 1
Other Attributes: GBST East Asian Studies Electives
Not Offered Academic Year 2018

COMP 263T Colonial Landscapes: Latin America’s Contemporary
Environmental Literature (D) (W)
"It is not by coincidence that our societies are both racist and anti-ecological," wrote the Chilean sociologist Fernando Mires in his now-classic study, The Discourse of Nature. This tutorial explores works of contemporary literature that implicitly and explicitly link Latin America's ongoing environmental crisis to the region's long and multi-layered history of colonialism: novels by Sylvia IPPARRAGUIRE (Argentina), Mayra Montero (Puerto Rico), Giaconda Belli (Nicaragua), Luis Sepúlveda (Chile); poetry by Homero Aridjis (México); essays by Octavio Paz (Mexico), Eduardo Viveiros de Castro (Brazil); and more. Representing a wide variety of geographies, literary styles and ideological perspectives, these writers nevertheless converge in challenging us to consider the effects of environmental crisis within structures of power that are radically unequal at the local, national, and global levels; and to recognize that consciousness of environmental vulnerability can prompt new forms of inclusion and community as well as exclusion. Topics to be explored also include the role of indigenous cosmologies in contemporary environmental politics, the place of urban ecologies within the environmental imaginary, and the ongoing debates among academic critics and others regarding the scope and limits of ecocriticism as an approach to Latin American literature. Students have the option of tutorial in Spanish or in English; partners will be assigned accordingly. Each tutorial pair will meet with me for one hour during the week, during which time we will discuss a 5-page essay that one of the partners has submitted the night before. This adds up to a substantial amount of (reading and) writing for each student in the course; i.e., six 5-page essays over the course of the semester. This tutorial meets the goals of the Exploring Diversity Initiative by challenging students to position themselves, intellectually and imaginatively, in the space of those excluded from modernity's material benefits as they struggle to brace themselves against its catastrophic environmental effects.
Class Format: tutorial
Requirements/Evaluation: each tutorial pair will meet with me for one hour during the week, during which time we will discuss a 5-page paper that one of the partners has submitted the night before
Extra Info: may not be taken on a pass/fail basis, not available for the fifth course option
Prerequisites: RLSIP 105, or RLSIP 200, or results of Williams College Placement Exam, or permission of instructor

COMP 264 Beauty, Danger, and the End of the World in Japanese Literature
Crosslistings: COMP 264/ASST 254
From the endemic warfare of the medieval era to the atomic bombing and the violent exploitation of technology in the last century, the end of the world is an idea which has occupied a central place in almost every generation of Japanese literature. Paradoxically, the spectacle of destruction has given birth to some of the most beautiful, most moving, and most powerfully thrilling literature in the Japanese tradition. Texts may be drawn from medieval war narratives like The Tale of the Heike; World War II fiction and films by Ibuse Masuji, Imamura Shôhei, and Ichikawa Kon; fantasy and science fiction novels by Abe Kôbô, Murakami Haruki and Murakami Ryû; and apocalyptic comics and animation by Oshii Mamoru, Ôtomo Katsuhiro, and others. The class and the readings are in English; no familiarity with Japanese language or culture is required.
Class Format: lecture/discussion
Requirements/Evaluation: in-class exam, ungraded creative project, and a few short response assignments, plus two 5- to 7-page papers emphasizing original, creative readings of the literary texts
Prerequisites: none; open to all
Enrollment Limit: none
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 2 requirement if registration is under ASST
Distribution Requirements: Division 1
Other Attributes: GBST East Asian Studies Electives
Not Offered Academic Year 2018

COMP 265(S) Theories of Language and Literature (W)
Crosslistings: ENGL 209/COMP 265
This course is made up of questions: What is literature and why anyone want to study it? What can you figure out by examining language that you can't figure out by studying history or psychology? Do students of literature have distinctive ways of asking questions about the world? Why do we want to perform poetry in the right kind of book? Is there a difference between verbal forms of art and visual or auditory ones? Can novels do things that plays and poetry cannot? Why does anything need poetry anyway?
Class Format: seminar
Requirements/Evaluation: four short papers totaling 20 pages, informal weekly writing, class attendance and participation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first-years and sophomores considering the English major
Enrollment Limit: 19
Expected Class Size: 19

COMP 266(F) Confession and Deception in Japanese Literature
Crosslistings: COMP 266/ASST 266
Situated at the origins of Japanese literature are the beautiful and revealing diaries of ladies in waiting at the tenth and eleventh-century court. Yet one of the most famous of these women turned out to be a man. For the next thousand years, Japanese literary tradition would place a premium on confessional writing, but the distortions and concealments of these narrators (and authors hiding behind them) would always prove at least as interesting as the revelations. This course examines several centuries of Japanese literature to ask whether you can ever put your true self into writing; along the way I will ask you what you reveal, conceal, discover, or reinvent about yourself when you write literature for a class like this. Texts will range from classical and medieval court literature by Sei Shônagon and Lady Nijô, through autobiographical and confessional novels by Sôseki, Tanizaki, Mishima, and Abe Kôbô, to documentary and subculture films like The New God and Kamikaze Girls. The class and the readings are in English; no familiarity with Japanese language or culture is required.
Class Format: seminar
Requirements/Evaluation: attendance and participation, 2 or 3 short response assignments, one test, two 5-page papers, and an ungraded creative project
Prerequisites: none; no familiarity with Japanese language or culture is required
Enrollment Preferences: students majoring or considering a major in Comparative Literature
Enrollment Limit: 25
Expected Class Size: 15
Distribution Notes: meets Division 1 requirement if registration is under COMP; meets Division 2 requirement if registration is under ASST

COMP 269 Transitional Japanese Literature into the Twentieth Century
Crosslistings: JAPN 271/COMP 269
After more than two centuries of National Seclusion, Japan’s modern era began suddenly in the middle of the nineteenth century, with the unexpected arrival of Commodore Perry, the destabilization of the 250-year old shogunal government, and the violent restoration of Imperial rule. Rapid and radical
changes followed in every aspect of society, from fashion to philosophy. This course will explore how such changes have been expressed through literature, film and performance. We will trace how the arts and other artistic works were perceived, integrated and at times rejected experiences of the new and the foreign. All readings and discussions will be in English.

Class Format: lecture

Requirements/Evaluation: evaluation will be based on active class participation, presentations, written journals, two short and one longer paper

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 15

Distributional Requirements: Division 1

Not Offered Academic Year 2018

SEM Instructor: Shinko Kagaya

COMP 270(S) Russian Literature and European Existentialism Crosslistings: RUSS 222/COMP 270

Existentialism was a highly influential movement in twentieth-century European literature and thought. Nowadays the terms existentialism and existentialist are broadly used to describe the worldview and literary style of writers, but their meaning and significance are much more complex. In this course, we will examine the origins of the existentialist worldview in early and modern Russian literature (Dostoevsky, Chekhov, Leonid Andreyev); read and discuss existentialist texts by Kafka, Albert Camus, and Sartr; and look at the existentialist legacy in contemporary Russian and Western culture, including rock music. All readings are in English.

Class Format: lecture

Requirements/Evaluation: participation, writing assignments, research paper

Prerequisites: none

Enrollment Preferences: students majoring or considering a major in Russian or Comparative Literature

Enrollment Limit: none

Expected Class Size: 15

COMP 271 From Kleist to Kafka Crosslistings: GERM 271/COMP 271

Heinrich von Kleist (1777-1811) and Franz Kafka (1883-1924) wrote some of the most puzzling and intriguing work in European literary history. From Kleist's drama Penthesilea, which culminates in the consumption of the hero by the heroine (literally!), to Kafka's "A Hunger Artist," profiling a man who starves for a living, the texts in the course attempt to access the most profound—and at times bizarre—regions of the human mind. Works we will read include Kleist's dramas Prince Friedrich of Homburg, Amphitryon, and Penthesilea, and his novels The Marquise of O., The Eros and the Basset Hound in Chile, "The Founding," "St Cecilia and the Power of Music," and "The Betrothal in Santo Domingo." By Kafka we will study "The Judgment," "The Metamorphosis," "A Hunger Artist," "In the Penal Colony," "The Burrow," "A Country Doctor," and others. Literary readings will be supplemented by selected letters and essays by Kleist, and by excerpts from Kafka's diaries. Readings and discussion in English.

Class Format: seminar

Requirements/Evaluation: intensive participation, four 2- to 3-page response papers, one 5- to 7-page paper, final project

Prerequisites: none

Enrollment Preferences: prospective Comparative Literature majors

Expected Class Size: 15

COMP 272(S) The History and Mythology of Chinese Scripts (D) Crosslistings: CHIN 272/COMP 272

Written scripts using what are most often called "Chinese characters" have an attested history of over 3000 years and have been used all over the world to represent a range of different languages. In this course, we will examine the history and development of Chinese characters from their earliest extant examples on sacrificial animal bones to their often amusingly misguided uses in contemporary times. We will look at historical evidence and mythology, carefully constructed grammatical studies and wild orientalist imaginings. Some topics will include: comparisons between the development of Chinese characters and other written scripts, the relationship between Chinese characters and the languages of China, the use of Chinese characters to write non-Chinese languages, Chinese characters in art and calligraphy, theories of connections between Chinese characters and Chinese philosophy and literature, issues of education and literacy, and the future of Chinese characters in the digital era.

Class Format: lecture/discussion

COMP 274F(T) Confronting Japan (W) Crosslistings: JAPN 274/COMP 274

This tutorial looks into confrontations, within Japan and across its borders, of how such confrontations are perceived, handled and narrated, and what they tell us about Japanese society. Through literature and other media, we will probe domestic issues, such as gender, aging, and death, as well as international topics, like minorities, suicide, reclusion and post-3-11 recovery, and international issues, related to Japan’s shifting roles within East Asia and beyond. Discussions will untangle the conflicting perspectives, and elaborate the thoughts and feelings of the various contestants. All readings and discussions will be in English. Students will play the roles of regionally different characters interested. As this tutorial actively explores diversity of human thought, and the contexts that create such diversity, this is an EDI course.

Class Format: tutorial

Requirements/Evaluation: 4- to 5-page papers and 2-page critiques (in alternating weeks), and one final report at the culmination of the course

Prerequisites: none

Enrollment Preferences: Japanese majors

Enrollment Limit: 10

Expected Class Size: 10

COMP 275(T) American Drama: Hidden Knowledge (W) Crosslistings: JAPN 275/COMP 275

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What’s the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising; theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli’s The Prince, Thomas Carlyle’s Lying and Deception: Theory and Practice, among others), we will proceed to a series of American plays from across a wide spectrum of playwrights, including Eugene O’Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what can we learn in particular from American drama about a national relationship to honesty and its opposites.

Class Format: tutorial

Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner

COMP 276(T) Black Europeans (W) Crosslistings: COMP 276/AFR 276

This course explores the invisibility of Black Europeans from the Enlightenment to the present with a particular focus on French, German, Austrian, Dutch, British, and Russian history. With the European Enlightenment as point of departure, the tutorial investigates the large presence of Blacks as objectified subjects in paintings and decorative artifacts of the 18th and 19th centuries while interrogating their century-long presence in a European categorization of races. In the tutorial, we will start discussing the significance of the Code Noir (1685) as well as the major economic impact of the Atlantic Slave Trade on European countries such as Great Britain, France, and the Netherlands. We will read historical biographies about a handful of outstanding Black Europeans in France (composer Monsieur de Saint George), Germany (Prussian officer Gustav Sabac el Cher, philosopher Wilhelm Anton Amo), Austria (royal tutor Angelo Solomon), Holland (Prince Kwasi Boach), and Russia (military leader Abram Petrovich Gannibal) during the 18th and 19th centuries, story painting and decorative arts of the 18th and 19th centuries depicting black servants—
such as Hyacinthe Rigaud's Portrait of Marquise de Louville (1708), Nicolas Lancelot's The Escaped Bird (1730), and Manet's Olympia (1863) to name a few—and watch the biopic Belle by Amma Asante (2013), narrating the life of an extraordinary black heiress Dido Elizabeth Belle in 18th-century England. We will also do a quick survey of 20th-century European cinema, that has until now cast very few black actors in prominent leading roles, and we will ponder the representation of black people in recent films that were commercially successful at the box office (such as Les Intouchables by Nakache-Toledano, France 2011). Finally, we will reflect on the deep roots of European colonialism that took the form of national debates surrounding the naming of chocolate-coated treats and licorice sweets (Têtes de diable, Mohrenkopf, and Negerkuss) or of a controversy around cultural identity resulting from the grotesque depiction of black men in folkloric tradition (like Zwarte Piet in the Netherlands).

COMP 279 Erotic, Grotesque, Sublime: Ghosts and Monsters in East Asian Religion and Popular Culture
Crosslistings: REL 271/ASST 271/COMP 279/WGSS 279
"Ghosts and monsters" (Chinese yeyaogu, Japanese yokai, Korean yōgo) have long figured prominently in East Asian cultural history. In medieval East Asian chronicles, wrathful demons attacked the imperial palace, ghosts haunted abandoned temples, and shape-shifting foxes infiltrated the bedrooms of royal concubines. These creatures persisted into the modern era with nineteenth century tabloids reporting the existence of demon-foxes, giant, and vengeful spirits. In the latter half of the nineteenth century, monsters began crossing over into the realm of fiction, and Japanese, Chinese, and Korean popular novels and films continue to wrestle with images of traditional dark beasts. The opening contention of the course is that ghosts and monsters signify deviances from "the normal" as it is constructed in a given culture and time period—they often come to represent transgressive modes of being, gender, sexuality, race, morality, or to subvert distinctions such as those between human and animal, man and woman, animate and inanimate, present and past, or living and dead. This course will analyze East Asian ghosts and monsters in their historical cultural context, thinking about how they come to embody particular cultural fears and desires. We will draw from works by feminist scholars Julia Kristeva, Ilka Quinlan, Susan Sontag, and various others who attempt to understand the monstrous and the uncanny. Students will undertake an extended research project on a ghost or monster of their choice and locate it in its broader cultural context. Doing so should put us in a position to explore central themes, such as the connection between the grotesque and the horrific, the cultural performance of gender, the social construction of illness, the trauma of memory, the commodification of the supernatural, and the boundaries of the human.

Class Format: seminar

COMP 284 The Concept of Bildung: the literature and Philosophy of Self-Discovery
This course traces the influential concept of Bildung, or self-discovery, through the literature and philosophy of Germany, England, France, and other traditions, from the Enlightenment to the present. At the time of the French Revolution and amid the general fervor for democratic self-rule that it represented, a handful of German philosophers asked themselves a simple and yet profound question: If modern individuals could free themselves from dogmatism and tradition, from the political and cultural institutions that such beliefs supported, what new aesthetic, social, and political forms could express and support this freedom, and how might these new forms be discovered and maintained? The famously untranslatable concept of Bildung, whose meaning spans notions of education, cultivation, self-discovery, and self-actualization, was a response to this question that would inform joint projects of scientific discovery, artistic self-expression, and political self-determination well beyond the borders of Germany, and to the present day. Through careful analysis of key texts from this tradition, students will explore how representations of Bildung reflect changing ideas about identity, agency, pleasure, knowledge, and power. Readings will include literary works by writers like Goethe, C. Bronté, Wordsworth, Flaubert, Wilde, Equiano, Fanon, and Coetzee, in combination with critical and philosophical texts by figures like Kant, Hegel, Nietzsche, and Freud.
Class Format: seminar
Requirements/Evaluation: one 5- to 7-page and one 8- to 10-page paper, a few other short writing assignments, and one in-class presentation
Prerequisites: none
Enrollment Preferences: students majoring or considering a major in Comparative Literature or a related discipline
Enrollment Limit: 15

COMP 285 World War II in Russian Culture
Crosslistings: REL 227/COMP 285/GBST 220
This course traces the development of state-sponsored collective memory of the Great Patriotic War, as the Eastern front of World War II is called in Russia, and its counter-narratives. The veritable cult of the war, as it was shaped by the late Soviet period, took decades to coalesce and went through multiple transformations. The relative disregard in the immediate post-war years under Stalin was followed by the striking re-enactments in literature and film of the period of Kruschev’s Thaw. The memory of the war for new generations was further defined in state-sponsored memorials, museums and public events under Brezhnev. While Soviet ideology was discredited in the wake of the USSR’s collapse, ordinary Russians and politicians alike continue to this day to see Russia’s victory over Nazi Germany with pride and as part of their national identity. This course explores the contradictory elements that make up the images and narratives of the war — in novels, short stories, feature films, and oral histories — which bring together state violence and individual freedom, patriotism and oppression, remembrance and forgetting. After an initial acquaintance with the colossal human cost of the war, we will examine the artistic, cultural and ideological traditions that address the national trauma that have evolved in the official and unofficial discourses of the war. The search for a “usable past” of the war continues in contemporary Russia, breaching previously suppressed topics yet also obfuscating public attempts to critically examine people’s experiences of the war beyond the inherited Soviet myths.
Class Format: seminar

COMP 286 Japanese Popular Visual Culture
Crosslistings: COMP 286/ARTH 286/ARTH 586/ASST 286
The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan’s earliest visual pop culture dates back to the 17th century, when woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern poster and visual art (ukiyo-e, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Okazaki), and animation (Oshii, Miyazaki, Kon). We will focus on developing visual reading skills to come up with original interpretations of these works, and on comparing different media to make them shed light on one another.
Class Format: lecture
Requirements/Evaluation: attendance, participation, two 5-page papers, final exam
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: students majoring or considering a major in a related discipline

COMP 287 Introduction to Postcolonial Studies (D) (W)
Crosslistings: ENGL 287/COMP 287/GBST 227
This course asks: What does the term "postcolonialism" mean? Is it a historical notion or an ideological term? When exactly does the 'postcolonial' begin? What are the theoretical and political implications of using such an umbrella term to designate the ensemble of writings and artworks by those subjects whose identities and histories have been shaped by the colonial encounter? We will situate the "postcolonial" historically, aesthetically, and conceptually across multiple time periods, geographic regions. We will read such authors as Frantz Fanon, Edward Said, Stuart Hall, Homi Bhabha, and Gayatri Spivak. The course will contribute to the College’s Exploring Diversity Initiative by examining cultural difference and distributions of power across the world during the colonial, postcolonial, and globalized eras.
Class Format: seminar
Requirements/Evaluation: evaluation through participation in discussion and a class blog, and approximately 20 pages of writing distributed over four papers
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

COMP 289(F) Theorizing Magic (W)
Crosslistings: REL 297/COMP 289/ANTH 297
What is stage magic, sleight of hand, or the art of pulling rabbits out of hats. You will learn no card tricks. But instead we will learn about those people who believed in the reality of certain powers; from the ability to summon good or evil spirits, transform base metals into gold, predict the future, or manipulate matter by thought alone. The problem of how to theorize magic has long been a cause of concern for the natural and social sciences. Many a sociologist and anthropologist has imagined that belief in magic should have vanished with modernity (despite much evidence to the contrary). Meanwhile, philosophers of science have been long fascinated with the demarcation problem—figuring out grounds by which to distinguish legitimate sciences (like astronomy) from their magical or pseudoscientific cousins (like astrology). We will trace these discussions and problematize them by looking at the beliefs of self-defined witches and magicians. This should put us in a position to interrogate the construction of concepts of magic, science, and religion and show how the boundaries between these categories emerged historically. Topics to be discussed will include: the rationality of magic, the fine lines separating magic, science and religion, the persecution of witches, and the role notions of magic and...
superstition played in European modernization and colonization projects. The crises, and by their insight into the struggles of the nation and the evolution of lives and loves at moments of historic upheaval: the detailed patterning of build-ups and climaxes, that are possible in such works. We will read but two novels, both preoccupied with the disruption and evolution of lives and loves at moments of historic upheaval: War and Peace (1869), Leo Tolstoy’s epic of the Napoleonic Wars, and Paradise’s End (1924–28), Ford Maddox Ford’s modernist masterpiece about World War I and its transformation on English social life. Set a century apart, the novels are distinguished by vivid and scrupulous representation of their respective wars, by their shrewd accounts of political and social pressures informing the crises, and by their insight into the struggles of those whose lives are engulfed in global crisis. Tolstoy’s and Ford’s approaches to fictional representation, however, provide intriguing contrasts: one favors the lucidity of classic realism, the other the challenges of modernist innovation; one deploys a single multiplot novel, the other a tetralogy of shorter novels deployed in a single plot. We will discuss the differing strategies and effects of these two approaches, as well as the more general difficulties of reading and interpreting long fiction.

COMP 294T Philosophy and Narrative Fiction (W) 
Crosslistings: PHIL 294/COMP 294
What is it for a novel, a story, a play or a film to be a philosophical narrative? It is not enough for it merely to be about a character who happens to be a philosopher; nor is it just that philosophical positions are reviewed in the narrative, as in Gaarder’s Sophie’s World. Milan Kundera tried to answer this question by saying that a good philosophical novel does not serve philosophy by merely illustrating it, but rather tries to “get hold of a domain that (...) philosophy had kept for itself. There are metaphysical problems, problems of human existence, that philosophy has never known how to grasp in all their concreteness and that only the novel can seize.” If Kundera is right, fictional narratives (such as thrillers) sometimes do the philosophical work that philosophy cannot do for itself. What kind of work is that, and how is it accomplished? Why can’t argumentative prose—philosophers’ preferred form of expression—clearly say, and moreover prove, what literature, theatre and film illustrate, show and display? One possible answer which we will examine is that, while many philosophers recognize that there are intimate connections between what we believe, feel and do, philosophical argumentation by its nature appeals to belief alone; narrative art, by contrast, can be persuasive in ways that are not, thus resulting not only in deepening our understanding, but also in transformation of the self. To properly address a number of interrelated questions concerning philosophy in literature and film, and philosophical problems of meaning, interpretation and evaluation of narrative fiction, we will discuss both narrative works of art and theoretical approaches to their analysis. We will consider the ways in which narrative fiction presents and engages its audience in philosophical reflections on personal identity, nature of the self, interpersonal relationships, memory, time, human existence, freedom, and the meaning of life. The choice of literary works and films to be discussed will to some extent depend on students’ interest. Most of the authors we will come from this list, however: Sarah, de Beauvoir, Kafka, Dostojevsky, Thomas Mann, Camus, Eco, Walser, Resnais, Marciano Marani, Be, Chateau, Mora, Alejandra Kurosawa, Bunuel, Kubrick, Godard, Visconti and Guillermo del Toro. The theoretical aspect of the course will involve close readings of selected articles in contemporary aesthetics, philosophy of literature and philosophy of film. 

Crosslistings: PHIL 294/COMP 294

Instructor: Stephen Tiffth
COMP 295 Philosophy of Film and Film Theory (W)
Crosslistings: PHIL 295/COMP 295
Philosophy of film is a relatively young, but very rich and rapidly growing field. Its central questions are: What is film?—has been approached and framed in many different ways; naturally, the answers to that question, and the theoretical assumptions that underlie the answers, differ as well. This course will offer a selective overview of the debates that characterized philosophy of film since the early 20th century. Starting with early film theorists (such as Münsterberg, Bazin, and Soviet formalists), we will examine how their insights and disagreements influenced later developments in continental and analytic philosophy of film, and in film theory. While looking at film as art, as document, as experiment and as entertainment, we will always keep in sight specific theoretical assumptions that underlie different understandings of film, and different critical approaches to the medium. Some of the questions we will ask are: What is the nature of filmic representation? Does film accurately capture reality, as no other art does? Does it advance our thinking and increase our awareness of the world? Or is it a supreme illusion, a dream-like escape, the domain in which the viewer's unconscious wishes are magically fulfilled? How does film generate meaning? Is film a creation of a single artist - the director? Or is it the result of a loose collaboration of many different people, each guided by her or his particular vision? Is there a room for the notion of collective intention in filmmaking? What is the nature of audience's response to film? By do we seek to experience through film fear and anguish that we avoid in our daily lives? Are there ethical considerations that should govern both film production and spectatorship? Finally, is there a reason for philosophy of film and film theory to exist as a separate field? Is philosophy of film really autonomous, independent from traditional philosophical disciplines which help generate its central questions, such as aesthetics, philosophy of art, epistemology, ontology, semiotics, ethics, social and political philosophy? Is film today really distinct from a number of new, emerging visual media? How should we think about the boundaries and methods of theorizing about film?
Class Format: seminar
Requirements/Evaluation: this is a reading, writing & viewing intensive class; evaluation will be based on class participation, 5 short response papers (about 800 words each), & two 5 pages long papers

COMP 296(S) Chinese Film and Its Significant Others
Crosslistings: CHIN 226/COMP 296
From the “wows” that the first short films invoked at a Shanghai teahouse in 1896 to the $527 million (or 3.4 billion RMB) grossed at the box-office by a 3D fantasy in 2016, Chinese films have struck a responsive chord among domestic and foreign audiences. In this survey course, we will explore the evolving relationship between Chinese films and five “significant others” that are central to film and film-making. Roughly following a chronological order, this course will examine 1) the effect of new technological developments (such as photography, sound, color, special FX) on film; 2) the tension between film and traditional modes of public entertainment (such as operas and shadow plays); 3) film’s social role to affirm and contest gender, national, and class identities; 4) the need to garner differing sources of financial support (state funding, cultural entrepreneurs, and transnational capital); and 5) the circulation of Chinese films in the global market. Class materials include various genre films (melodrama, horror, martial arts, comedy, etc.), directors’ notes, contemporary reviews, and scholarship in China and media studies. All materials and discussions are in English.
Class Format: lecture
Requirements/Evaluation: attendance and participation, short response papers (1-2 pages each), one final project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: current or prospective Chinese, Asian Studies, and Comparative Literature majors

COMP 297(T) Present Past: The Politics of Memory in Contemporary Chinese Literature and Films (W)
Crosslistings: FLMST 297
What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical “past” remembered, forgotten, and subverted in a literary “present”? This tutorial explores the politics of memory in contemporary literatures and films from the People’s Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these “post” societies represent state-sponsored narratives of remembrance, dissidents’ collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close-and distant-readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, amnesia and nostalgia, and home and homeland in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include “root-seeking”, “new realist”, “avant-garde” and “hooligan” novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and seventh new wave filmmakers from these three “post” societies.
Class Format: tutorial

COMP 298(S) Introduction to French and Francophone Film (D)
Crosslistings: RLFR 228/COMP 298
In this course, we watch and examine seminal French and Francophone films. Starting with early French cinema and silent movies of the end of the nineteenth century, we continue with landmark films from the 1920s, ’30s and ’40s. World War II serves as a point of rupture to explore how the advent of Francophone film parallels postcolonial theory. Throughout the semester, we discuss film as spectacle, the emergence of narrative forms, innovative technical practice and their connection to aesthetics. We also look at the role of film in addressing larger questions that include acts of rebellion, decolonization, the radical rejection of societal values, colonialism, dislocation, alienation, collaboration during the German occupation, and the intersection of history and biography, as well as migration, in between-ness, and transnationalism. Films from the Lumière brothers, Méliès, Guy-Blaché, Vigo, Truffaut, Sembène, Mamébty, Malle, Varda, Peck, and Sissako. Conducted in French.

COMP 299(T) Coffee, Sugar, Wigs, and Desks: Writing and Material Life in Early Modern France (W)
Crosslistings: RLFR 229/COMP 299
This tutorial considers the relationship between slavery, colonial commerce, and the burgeoning market in material and cultural goods. We look at France’s “consumer revolution” through the lens of four material objects—sugar, coffee, wigs, and desks—to consider how eighteen-century concepts of race, gender, and social status related to taste, sociability, appearance, and written identity. Readings by Voltaire, Aulnoy, Genlis, Bernardine de Saint-Pierre, and others will be paired with critical texts from literary and material historians as well as objects found in local collections.
Class Format: tutorial
Requirements/Evaluation: five papers and five responses Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: RLFR 105, a 200-level course, or instructor permission
Enrollment Preferences: first- and second-year students
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1, Writing Intensive
Spring 2018
In this tutorial course, we will explore interdisciplinary ways of theorizing the outraged reception of certain works of film, theater, and fiction. When riots, censorship, and vilification greet such works in moments of political and social upheaval, the public outrage is often strangely out of proportion to either the work's aesthetic nature or its overt commentary on the political or social events it portrays. Something powerful symptomatically at work, then: a set of threatened investments, unrecognized values, and repressed ideas which surface explosively, but indirectly, in the aesthetic outrage. In an attempt to understand the strange logic of public outrage against works of art, we will explore the respects art's historical contexts, and use theoretical models—aesthetic, political, psychological, social—as a means of illuminating the dynamics of outrage and exposing understated linkages between a work's figurative logic and its historical moment. We will study instances of outrage in the context of French Revolution (Beaumarchais' The Marriage of Figaro), the wave of anarchist terrorism in turn-of-the-century Paris (Jarry's Ubu the King), the sodomy trials of Oscar Wilde (The Importance of Being Earnest), the Irish Revolution (Smythe's The Playboy of the Western World and O'Casey's The Plough and the Stars), and Stalinist collectivization (Eisenstein's suppressed film Bezbin Meadow). After two weeks in which we will meet as a group, students will meet with the instructor in pairs for one hour each week during the rest of the semester. They will write a 5- to 6-page paper every other week (five in all), and a short written analyses of their partners' papers in alternate weeks. Emphasis will be placed on developing skills not only in reading and interpretation (of historical events and of theoretical texts as well as of literature and film), but also in composing critical arguments and responding to them in written and oral critiques. 

Class Format: tutorial

Requirements/Evaluation: active participation in tutorial discussions, five 5- to 6-page papers, five 1- to 2-page critiques

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Preferences: English majors, Comparative Literature majors, highly qualified sophomores

Enrollment Limit: 10

COMP 301(S) Sublime Confusion: A Survey of Literary and Critical Theory

Crosslistings: COMP 301/ENGL 301

Which is more appealing, a roller coaster or a rose? For much of its history, art and literary theory has conceived itself as a science devoted to explaining and defining "beauty." But running alongside this is an edgier countercurrent that worships something else: an experience of excitement, fear, suspense, art and literary theory has conceived itself as a science devoted to explaining and defining "beauty." But running alongside this is an edgier countercurrent that worships something else: an experience of excitement, fear, suspense, or thrilling confusion often described as "the sublime." The sublime interested early critics, from classical moralists to the German Idealists, as a way to make aesthetics paradoxical by identifying the doorway through which art and literature escaped the realm of reason. More recently, the notion of literature's exciting confusion has played a key role in modern critical theory from Russian formalism to new criticism, deconstruction, postmodernism, and posthumanism. (In fact, poststructuralist criticism itself has a thrillingly confusing quality that we will not ignore.) We will take up a cross section of critical theory from classical times to the present, focusing on careful reading of relatively short texts by Plato, Aristotle, Addison, Burke, Schiller, Nietzsche, Shklovsky, I.A. Richards, Barthes, Derrida, Lyotard, Fredric Jameson, Haraway, and others. Case studies ranging from opera to Xbox will enlighten, thrill, and confound you. Written assignments will encourage you to parse these theories carefully and apply them to the literary texts that most interest you: prose, poetry, or drama from any time and place; film, visual art, or architecture; music, new media, or digital media, and beyond.

Class Format: seminar

Requirements/Evaluation: active class participation, several short response, a polished oral presentation, and a final 15-page paper

Extra Info: may not be taken on a pass/fail basis

Prerequisites: 200- or 300-level course in literature, theory, or philosophy, or permission of the instructor

COMP 302T Latino Writing: Literature by U.S. Hispanics (W)

Crosslistings: RLSP 306/COMP 302

Writing by U.S. Hispanics constitutes a new voice in American letters. In this tutorial, we will read and discuss work by U.S. Latinos and examine the social backgrounds to their texts. The experiences of immigration and assimilation, and the specific complexities of being both Hispanic and North American will be addressed. Authors to be studied: Jose Antonio Villarreal, Tomas Rivera, Richard Rodriguez, Sandra Cisneros, Rudolfo Anaya, Piri Thomas, Oscar Hijuelos, Cristina Garcia, Junot Diaz and historical texts by Carlos Castaneda, and Rodolfo Acuna. Given the absence of a critical consensus around these recent titles, our task is to gain some sense of their common traits as a tradition, and place them within the larger body of literature of the Americas and the world. The tutorial will examine one work or set of authors per week. Students will be asked to take an oral or written presentation focusing on the artistic features and sociocultural content of the assigned reading. Questioning of the presenter, on the part of the second tutee and the tutor, will follow. The course is designed to accommodate both Spanish and English reading students and is intended to enable able to read and speak Spanish will be paired together with another student of similar proficiency. Students who neither read nor speak Spanish will be paired together.

Class Format: tutorial

Requirements/Evaluation: five short oral presentations/papers (about 20-25 minutes) and a final longer one (about 40-45 minutes)

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: some previous course work in any literature beyond the 100 level is helpful; students selecting the Spanish option for credit toward the Spanish major must have taken at least one 200-level RLSP course or seek permission of the tutor

COMP 304 Queer of Color Critique: Race, Sex and Urban Life (D)

Crosslistings: WGSS 306/AMST 306/AFR 306/LATS 306

This seminar is an introduction to queer of color critique, a field of scholarship that seeks to intervene in the predominantly white canon of queer studies. We will take up the critical enterprise, beginning with black and Chicana feminisms and extending into present day issues and activism highlighting intersectionality, exploring how and why QOCC became a necessary intervention into the then still emerging field of queer studies. Our texts include scholarly works as well as science fiction novels, plays, films, diaries, and graphic novels. Methodologically, we draw on many fields of study, including anthropology, literary studies, feminist studies, and ethnic studies. We focus primarily but by no means exclusively on US contexts, paying particular attention to the role that urban environments have served for queer communities of color. Topics include: feminisms of color, inter-racial desire and fetishization, orientalism and colonial fantasy, black queer science fiction, transgender subjectivities, and the political economy of sexual desire. A key feature of this course will also be the inclusion of numerous and diverse authors to appear on Skype or in person to answer questions about their work as we read it in class.

Class Format: discussion/lecture

Requirements/Evaluation: mid-term essay, choice of final exam essay or 8-10 page research paper, responses to performance/special events

COMP 305 Dostoevsky: Context and Interpretation

Crosslistings: RUS 305/COMP 305

This course examines some of the best-known works of Fedor Dostoevsky by exploring the richness of their possible interpretations. On the one hand, we will situate the novels in the Russian social and ideological context of the author's time. On the other, we will study the ways in which Dostoevsky's texts engage universal questions of human existence in a post-traditional and fluid society of the modern age. Key works of Dostoevsky criticism are assigned alongside the following novels: Poor Folk, The Double, Notes from Underground, Crime and Punishment, and The Brothers Karamazov. All readings are in English.

Class Format: seminar

Requirements/Evaluation: class participation, oral presentation, research paper

COMP 308 Everyday Life in Literature and Film

Crosslistings: COMP 308/WGSS 309

To bring the all too familiar everyday to our attention, artists and writers have made it strange. What happens when we view everyday life from elsewhere? While everyday culture has often been experienced as repressive and alienating in modern Western societies, a new importance assigned to everyday life made it liberating in Japan during the twenties and in contemporary China. The new works of culture by Asian American artists and filmmakers are often political and are curiosities about black identity, "identity politics," the theories of gender and sexuality. In some instances, we will look at applied effects on people of color—especially members within the African Diaspora. From skin bleaching creams like "Whitenarios" to rap music's fetishization of light-skinned women, colorism is a very real and present issue affecting Black life. From the literary works of Wallace Thurman and Toni Morrison, to the lyrics of blues crooner Big Bill Broonzy and rapper Lil Wayne, we will analyze the pathologies that produce these standards of beauty and attractiveness, perceptions of behavior and criminality, and economic attainment and stability.

Class Format: Seminar

Requirements/Evaluation: evaluation in this course will be based upon class participation, response papers, one 6- to 8-page paper, and a formal class presentation

COMP 310(S) Theorizing Shakespeare

Crosslistings: ENGL 311/THEA 311/WGSS 311/COMP 310

For complex reasons, Shakespeare has always revealed as much about those who speculate on him as the speculators have revealed about him. In this course, we will engage a few plays in considerable depth: The Merchant of Venice, Hamlet and King Lear. We will also use these works as a means to engage some of the most compelling trends in recent critical thought, including cultural theory and post-Marxist analysis, political theory, deconstruction and rhetorical theory, psychoanalytic thought and theories of gender and sexuality. In some instances, we will look at applied criticism, in others we will simply place a theoretical work alongside a play and see what they have to say to each other, for instance, what would a Shakespearean reading of Jacques Lacan look like?

Class Format: Seminar

Requirements/Evaluation: 20 pages of writing in the form of two short and one longer paper

Prerequisites: a 100-level ENGLISH literature exam, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

COMP 311 Experimental African American Poetry

Crosslistings: AMST 307/COMP 311/AFR 301/ENGL 327

Contemporary African American poets in various cities and towns across the nation—South New Orleans, LA, Chicago, New York City, Los Angeles, from Berkeley to Durham, N.C.—are currently producing a vibrant and thriving body of formally experimental work, yet this poetry is largely unknown to readers both within and outside the academy. This formally innovative poetry defamiliarizes what is familiar, and thereby becomes a means to engage some of the most compelling trends in recent critical thought, including cultural theory and post-Marxist analysis, political theory, deconstruction and rhetorical theory, psychoanalytic thought and theories of gender and sexuality. In some instances, we will look at applied criticism, in others we will simply place a theoretical work alongside a play and see what they have to say to each other, for instance, what would a Shakespearean reading of Jacques Lacan look like?

Class Format: Seminar

Requirements/Evaluation: two papers (6-8 pp., 8-10 pp.), short response papers, oral presentation, and class participation

Prerequisites: none, though at least one previous literature course preferred

COMP 312 Francogaphic Islands (D)

Crosslistings: RLF 320/COMP 312/AFR 312

Utopia, paradise, shipwreck, abandonment, exile, death. Man’s fascination and obsession with the island as place of discovery, beauty and imprisonment stretches across the centuries. In this class, we will read French literary and imagined islands alongside islands constructed by
Francophone Caribbean, Indian Ocean and non-Western writers in French. What does the island symbolize in individual, community, national, and imperial imaginations? And how does the island become an agent in these processes? For example, a former teacher damned for violating nature—as well as historical and literary characters: Ulysses, Thomas Aquinas, Plato, Virgil, Adam. Though the Comedy is probably now best known for its savagery—the bodies split open, the Popes turned upside down, and lit on fire—it is also, as Dante claims, a love story and a work of high imaginative daring. Among its final images is a vision of paradise rendered through the precise if also mind-bending language of non-European geometry. In this course we will read the three books of the Comedy (Inferno, Purgatorio, Paradiso), the Vila Nuova, and a selection of Dante’s other works. All readings will be in translation.

Class Format: seminar
Requirements/Evaluation: active class participation, weekly response papers, midterm essay and final essay
Prerequisites: open to students who have taken a literature course in RLFR at Williams, or permission of instructor
Enrollment Preferences: French majors and certificate candidates, Comparative Literature majors, and Africana Studies concentrators

COMP 314T Enlightenment and its Discontents (W)
Crosslistings: GERM 306 COMP 314
“Sapere Aude,” declared Immanuel Kant in his essay “What is Enlightenment?” (1784): “Have the courage to make use of your own capacity to reason.” Kant’s exhortation sums up the mood of the high Enlightenment, a trend in Western thought that gave birth to most of the ideas that we still hold dear: the primacy and universality of reason, the autonomy of the individual, the educational and moral powers of the nuclear family. Today we confront daily with the tensions and gaps hidden inside Enlightenment thinking; in fact, the fissures in the edifice of the Enlightenment were subtly present from the beginning. This course will trace the development of Enlightenment assumptions through German literature and theory. Our reading will move through several stations of the development of Enlightenment thinking, from its most fervent proponents (Kant, Lessing), through those who challenged it to a severe test (Kleist, Hoffmann, Büchner), to the outright subversion of its premises (Nietzsche, Freud, Kafka). Readings and discussion in German for those who know German, in English for those who do not.
Class Format: tutorial
Requirements/Evaluation: 5-page papers or 2-page written commentaries every other week
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: for German students, GERM 201 or the equivalent; for non-German students, one college literature course; not open to first-year students, except with permission of instructor

COMP 316 An American Family and "Reality" Television (W)
Crosslistings: ARTH 316/SFS 316/AMST 333/COMP 316
An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, public controversy and, from the beginning, Francophone commentary. In 1973, Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family’s life over the course of eight months, the series chronicled the dissolution of the Louds’ marriage and broadcast the “coming out” of eldest daughter. The series in its entirety, research the program’s historical reception, and analyze its influence on broadcast and media, particularly on “reality” television. A final 16- to 20-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and graded over the course of the semester.
Class Format: seminar
Requirements/Evaluation: class presentations, research assignments, and final 16- to 20-page research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 318 Twentieth-Century French Novel: From Adversity to Modernity
Crosslistings: RLFR 318/COMP 318
In this sequel to the Twentieth Century (1863), Jules Verne envisions an era of technological superiority, complete with hydrogen cars and high-speed trains, televisions and skyscrapers, computers and the internet. But in Verne’s vision of modernity, technological sophistication gives way to intellectual and social indifference, a world where poetry and literature have been abandoned in favor bureaucratic efficiency, mechanized surveillance, and the merciless pursuit of profit. To contest or confirm this dystopic vision, we will examine a broad range of twentieth-century novels and their focus on adversity and modernity. In a century dominated by the devastation of two World Wars, the atrocities of colonial empire, and massive social and political transformation, the novel both documented and interrogated France’s engagement with race and ethnicity, gender and sexuality, colonialism and immigration. Within this historical context, we will discuss the role of the novel in confronting war and disease, challenging poverty and greed, and exposing urban isolation and cultural alienation in twentieth-century France. Readings to include novels by Colette, Genet, Camus, Duras, Ernaux, Guibert, Begag. Lectures to include discussions of Gide, Proust, Sartre, Beauvoir, Cixous, Foucault, Jelloun, Djebar. Films to include works by Fassbinder, Annadar, Lloret, Ducastel, Martineau, Téchiné, Charef. Conducted in French.
Class Format: seminar
Requirements/Evaluation: active class participation, midterm exam, and two to three papers
Prerequisites: a 200-level course; or by placement test; or permission of instructor
Enrollment Preferences: French majors and certificate students, Comparative Literature majors; and those with compelling justification for admission; seniors returning from study abroad (in France or other countries) are particularly welcome
Enrollment Limit: 20

COMP 319(F) Black Migrations: African American Performance at Home and Abroad
Crosslistings: AFR 317/COMP 319/DANC 317/ENGL 317/TEAH 317A
In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and abroad. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black religion and culture in Harlem? How did Russian-Canadian historian to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration of the relationship between migration and autobiography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.
Class Format: seminar/discussion
Requirements/Evaluation: evaluation will be based upon class participation,
COMP 32(T) Enchantment and the Origins of Poetry (W)

Crosslistings: CLAS 320/COMP 320/CLGR 410

Since the earliest period of Greek literature, poems have been intimately bound up in the notion of enchantment, or thevish. The power of song to alter the mental and physical states of the audience and the world at large is intertwined with the wide variety of uses to which ancient Greek and Roman poetry, and its later offspring, are configured and understood as a kind of enchantment or incantation. By examining works that explicitly depict acts of enchantment as well as those that represent themselves as spells, dreams, charms, and curses, we will attempt to understand the structural and semantic relationships between song and magic across several genres. We will also consider the role of inspiration, enthusiasm, memory, truth, and falsehood in shaping both the poems themselves and discourses about poetry. Finally, we will investigate the reception and elaboration of these concepts in later European poetic traditions from the middle ages through modernity. Readings may include selections from Homer, Hesiod, Sappho, Pindar, Aeschylus, Euripides, Plato’s and Aristo’s Theocritus, Virgil, Horace, Ovid, Roman love elegy, Old English charms, Old Norse poetry, Marlowe’s Dr. Faustus, Shakespeare’s A Winter’s Tale, Coleridge, Shelley, Mallarmé, Valéry, T. S. Eliot, and various other poets and critics. All works will be read in English translation, but students who have studied ancient Greek will be expected to read significant portions of the early material in the original.

Class Format: tutorial
Requirements/Evaluation: students will meet with instructor in pairs once a week; one 5- to 7-page paper every other week and critique of partners’ papers in alternate weeks
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none
Enrollment Preferences: preference given to majors in Classics and Comparative Literature
Enrollment Limit: 10

TUT Instructor: Edan Dekel

COMP 32 Groovin’ the Written Word: The Role of Music in African American Literature

Crosslistings: AFR 314/AMST 314/COMP 321/ENGL 314

In an interview with Paul Gilroy, Toni Morrison once said, “Music provides a key to the whole medley of Afro-American artistic practices.” Morrison is not the only one who believes that music speaks to numerous aspects of the African American experience. From Sterling Brown and Zora Neale Hurston to John Edgar Wideman and Suzan Lori-Parks, many African American authors have drawn on music to take political stands, shape creative aesthetics, and articulate black identity. In this course, students will explore the work of these authors and more, investigating music’s ability to represent and critique African American culture in their literature. Texts will cover a range of literary forms including poetry, plays, short stories and novels alongside theatrical and critical essays. Students will discuss such key issues as assimilation into mainstream culture, authenticity claims on black music, and music used as a tool for protest. Additionally, class assignments will include musical examples in spirituals/gospel, blues, jazz, and rock rhythm and blues. While this class requires students to practice in-depth literary and performance analysis skills, students are not required to have technical musical knowledge.

Class Format: lecture/discussion
Requirements/Evaluation: evaluation will be based upon class participation, short weekly reading responses and/or listening assignments, one 3-page paper, one 6- to 8-page paper comparing two works, one in-class spoken word performance with 2-page report, final presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none; open to all
Enrollment Limit: 20
Expected Class Size: 15

COMP 322(S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora

Crosslistings: AFR 323/AMST 323/ARTH 223/COMP 323/ENGL 356

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as Jeremy Love’s Bayou and Ho Che Anderson’s King: A Comic Biography, this course illustrates and critiques how graphic novels can provide a method for transgressing the boundaries and preconceived notions that have historically shaped the ways African American history is remembered. Students will be introduced to the genre of the graphic novel, which will be defined as a narrative told in sequential illustrations, usually in conjunction with accompanying text, that seeks to establish a narrative in a manner similar to the comic book. The graphic novel also has the potential to create more engaging, more relatable approaches to the presentation of the life stories of African American people. This course will explore the potential of this medium for representing the African American past. Reading assignments will include graphic novels and comic strips, with the help of critical essays, reviews and films; the chosen texts will center on African American culture, prompting students to consider how the graphic novel may act as a useful alternate history for marginalized peoples. During the course, students will keep a journal with images, themes and reflections and will use Comic Life software and ipads to create their own graphic stories based on historical and/or autobiographical narratives.

Class Format: seminar
Requirements/Evaluation: evaluation will be based upon class participation, weekly written responses, student-led facilitation, one 3-page graphic analysis, one 6- to 8-page essay, and a final project (producing a graphic short story with Comic Life)
Extra Info: may not be taken on a pass/fail basis, not available for the fifth course option

Prerequisites: none
Enrollment Preferences: none
Enrollment Limit: 10
Expected Class Size: 19

COMP 323 Reason, Unreason and Anti-Reason from the Enlightenment to the Third Reich (W)

Crosslistings: GERM 323/COMP 323

From its inception in the eighteenth century, modern German art and thought have probed the nature of human reason. At every turn, the celebration of rationality as triumphing over the irrational has brought with it a resistance to the rational: Lessing’s Enlightenment dramas find their counterpart in those of the Sturm und Drang movement; Kleist’s preoccupation with reliable justice and predictable happiness can’t hide an unblinking knowledge of life’s randomness; Freud’s search for ultimate knowledge is constantly shadowed by the unknowable; in the acts and “theories” of the Nazis, we see the ultimate horror of rationality reduced to rigid mechanics, in the service of the ultimate falsehood. This course will involve reading closely and writing intensively about texts by, among others, Lessing, Goethe, Kleist, Büchner, Nietzsche, Freud, Kafka, and the Nazi propagandists. Offered in English or German: Reading, discussion and writing will be in German for German-speakers, in English for non-German speakers.

Class Format: tutorial
Requirements/Evaluation: two seminar meetings with the entire group; five 5-page papers, five 2-page critiques of the partner’s papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: for students taking the tutorial in German: GERM 201 or the equivalent; for students taking the course in English: one college-level literature course

Enrollment Preferences: German or Comparative Literature majors
Enrollment Limit: 10
Expected Class Size: 10

Distributional Requirements: Division 1, Writing Intensive
Not Offered Academic Year 2018

TUT Instructor: Gail Newman

COMP 324(S) The Orientalist Sublime and the Politics of Horror (D)

Crosslistings: ENGL 334/COMP 324

Islamophobia is on the rise once again, but its history is long and storied. This course will look at how we got here by asking simple questions: how do we name the things that are beyond the grasp of reason, outside the realm of intelligibility? How do we attempt to domesticate that which is foreign or other? What, to Western Europeans, was the deep mysterious Orient but a new instance of the sublime? What is the Arab world to Americans now? In this seminar, we will take up the inheritance of the eighteenth-century fad in Europe for all things Oriental that followed the translation of The Arabian Nights into French in 1707. We will read the Nights alongside Edmund Burke’s and Immanuel Kant’s theories of the sublime and writings on the French Revolution in order to investigate the relationship between the real politics of Empire and the politics of imperial representation. Raced and
gendered imaginations will play a crucial role in our study. In aiming to understand how literature and art deal with the magisterial, the infinite, the unmapped, the horror, and the mystery of the sublime East, we will touch on important writers and artists in the long history and afterlife of European Orientalism from the eighteenth century to the present. Authors and artists include Daniel Defoe, William Beckford, Comte de Lautréamont, Edgar Allan Poe, Wilkie Collins, Richard Marsh, E.M. Forster, Jorge Luis Borges, and Salman Rushdie.

Class Format: seminar

Requirements/Evaluation: one 2-3 page provocation paper to be revised into a formal essay of 5-6 pages following consultation; one final research paper of 10-12 pages on a topic developed out of the course materials

Extra Info: may not be taken on a pass/fail basis

COMP 325 American Social Dramas (W)

Crosslistings: SOC 328/AMST 328/COMP 325/THEA 328

As Shakespeare wrote memorably in As You Like It, “All the world’s a stage, and all the men and women merely players.” Sociologists have heeded Shakespeare’s warning that social and political events are “performances” that take shape in accordance with familiar cultural scripts, and indeed that social actors implicitly interpret real-world events using plot structures from literary and dramatic genres such as romance, irony, comedy, and tragedy. We will explore this thesis through the lens of contemporary American political events, including the Clinton-Lewinsky scandal, September 11, Hurricane Katrina, the 2012 presidential election, and current debates over Confederate symbolism. We will also pay careful attention to the unfolding drama associated with the 2016 presidential election. How do social performances and struggles to “control the narrative” shape the meanings and outcomes of political events? Are they merely “spectacles,” or wellsprings for genuine civic participation? What role do political comedy, satire, and social media play in shaping the trajectory of contemporary events? Major authors will include Victor Turner, Clifford Geertz, J.L. Austin, Erving Goffman, and Jeffrey Alexander. Throughout the semester, each student will develop a significant project on a political event of his or her choosing.

Class Format: seminar

Requirements/Evaluation: active participation, five 2-page response papers, a 12-page paper that will go through draft and revision stage, and a presentation

Prerequisites: none

Enrollment Preferences: Anthropology and Sociology majors

Enrollment Limit: REL 328

COMP 326T Queer Temporalities (W)

Crosslistings: REL 326/LATS 426/WGSS 326/COMP 326

Birth, childhood, adolescence, college, adulthood, career, marriage, family, mid-life, old age, death, afterlife. How are all these facets of being human imagined as stages in time, as axes on certain progressive lines that delineate human social relations? How do we experience and represent time, and what factors might account for both our experiences and our representations of time? What are some of the ways that people experience and mark the passing of time? What are some of the different ways that people have made sense of time and themselves in time? How have our conceptions of time and our demarcations of lifecycles shifted historically? How do people whose experiences of time have been shaped by cultural and social forces negotiate ideas of lifecycle and timing? Especially for individuals and peoples who have been denied self-representation and narratives of place, how do competing notions of time, history, space, and location get negotiated? In this course, drawing from within the broad corpus of queer theory (including theorists such as Gloria Anzaldúa, Elizabeth Freeman, J. Halberstam, and José Esteban Muñoz) we will examine some non-linear, non-normative, and interruptive approaches to making sense of time, space-time, and self within time.

Class Format: tutorial

Requirements/Evaluation: evaluation will be based on class attendance, analytical essays, responses, and revised essays

Extra Info: Pairs will meet with the instructor for one hour each week. Almost every week one from the pair will write a 5-page analysis of the week’s reading. The other student will respond orally with a 2-page response to their partner’s paper.

Pairs will also prepare a midterm synthesis, students will revise two of their 5-page analytical papers: one from the first half of the semester, one from the second half due at the end of the semester. may not be taken pass/fail or fifth

TUT Instructor: Jacqueline Hidalgo

COMP 327 Theory after Postmodernism: New Materialisms and Realism

Crosslistings: LATS 319/AMST 319/REL 316/COMP 328/ENVI 318

Since the 1970s much of the academy has labored under a particular form of linguistic skepticism (often called postmodernism or poststructuralism) that is directed at the destruction of stable conceptions of subjectivity and meaning. It is often said that everything is a text and that all knowledge is power. But just as the typewriter has given way to the computer and disco to dubstep, as we exit postmodernity new philosophies are appearing on the conceptual horizon. This course will layout this challenge to postmodernism by exploring the work of cutting edge theorists in French and American movements known as new materialism, speculative realism, and actor-network theory. Often, drawing on work in ecology, feminism, science studies, neuroscience and complexity theory, these thinkers aim to reclaim knowledge of the real world, to summarize the separation between the sciences and the humanities, and to contest what they see as the dualism between matter (as dead or inert) and mind (as the locus of life and agency). By so doing, they claim to empower the object-world and dethrone humanity from the center of philosophy.

Thinkers to be considered may include: Karen Barad, Jane Bennett, Bruno Latour, Catherine Malabou, Quentin Meillassoux and Bernard Stiegler. While the relevance of these movements to the study of religion will be discussed, this course is intended for students of any major who wish to study critical, political, or philosophical theory.

Class Format: seminar

Requirements/Evaluation: regular participation and attendance, regular short writing assignments, 10- to 15-page final paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none, although prior coursework in critical theory, political theory, or continental philosophy is strongly recommended

Enrollment Preferences: Religion, Philosophy and Comparative Literature majors

Enrollment Limit: 15

Expected Class Size: 10

COMP 328 California: Myths, Peoples, Places (W)

Crosslistings: LATS 318/AMST 318/REL 318/COMP 328/ENVI 318

California: the place most defined by environmental disaster and agricultural wonderland, between Reagan and Berkeley, between a land of all nations and a land of multiracial enmity, a diversity of myths have been inscribed onto and pursued within the space we call California. How did certain narratives of California come to be, who has imagined California in certain ways, and why? What is the relationship between certain myths, the peoples who have imagined them, and the other peoples who have shared California dreams? In this course, we will examine some of the myths that surround California by looking at a few specific moments of interaction between the peoples who have come to make California home and the specific places in which they have interacted with each other. Of special interest will be imaginations of the Spanish missions, the Gold Rush, agricultural California, wilderness California, California as “sprawling multicultural dystopia,” and California as “west of the west.”

Class Format: seminar

Requirements/Evaluation: this course will be mostly discussion oriented, with regular participation, short writing exercises, 1-3 page review essay with mandatory revision, one 5- to 8-page midterm review essay, and a final 10- to 15-page comparative review essay

Prerequisites: none

Enrollment Preferences: none

Enrollment Limit: 19

COMP 329(S) Political Romanticism
COMP 330(S) New Orleans as Muse: Literature, Music, Art, Film and Theatre in the City

Crosslistings: THEA 330/COMP 330/AMST 331

This course will look at the representation of a city and how it has influenced artists. Students will read, listen to, and view a selection of the literature, music, film and art that represent the city both pre-flood and current re-building. Reading selections will include examples such as Harper's Weekly (La fusco (New Orleans)), The Awakening (Kate Chopin), A Streetcar Named Desire (Tennessee Williams), The Moviegoer (Walker Percy), Why New Orleans Matters (Tom Piazza), A Confederacy of Dunces (John Kennedy O'Toole), New Orleans Sketches (William Faulkner), One Dead in the Attic (Chris Rose). Film examples such as A Streetcar Named Desire, An Interview with a Vampire, The Curious Case of Benjamin Button, When the Levees Broke, Treme, Waiting for Godot (in the 9th Ward). Music selections from examples such as Louis Moreau Gottschalk, Jelly Roll Morton, Louis Armstrong, Fats Domino, The Meters, Kermit Ruffins and the Rebirth Brass Band. Art selections will come from a variety of sources such as THE OGDEN Museum of Southern Art and Prospect 1, 2, & 3. Class Format: seminar. Requirements/Evaluation: will be on active participation, weekly response essays on film viewings, 2 short essays on class topics, a final paper and a contemporary creative project/performance. Prerequisites: none. Enrollment Preferences: none. Enrollment Limit: 12. Expected Class Size: 10. Distribution Notes: meets Division 1 requirement if registration is under THEA or COMP; meets Division 2 requirement if registration is under AMST. Distribution Requirements: Division 1. COMP 331T The Brothers Karamazov (W)

Crosslistings: RUSS 331/COMP 331/ENGL 371

What are the greatest novels one ever written, Dostoevsky's The Brothers Karamazov contains a series of enigmas, not the least of which is precisely who murdered the Karamazov father. In addition to exploring the shared guilt of all four of the brothers Karamazov in the crime of patricide, Dostoevsky poses the most probing questions of his day: Are families lied together merely by blood or by deeper spiritual bonds? Is religious faith possible in an age of reason, science, and technology? Can man's earthly pleasures ever be carried out divine justice? Is humanity prepared to bear the burden of responsibility? This course will follow an entire semester exploring Dostoevsky's masterwork, and we will read a variety of secondary sources alongside The Brothers Karamazov, including history, philosophy, and literary theory. Our goal will be to understand Dostoevsky's answers to these social and political questions through the unique artistic form of The Brothers Karamazov. Class Format: tutorial. Requirements/Evaluation: will be based on completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option. Prerequisites: at least one 200-level literature class. Enrollment Preferences: students majoring or considering a major in Russian, Comparative Literature, or English. Enrollment Limit: 10. Expected Class Size: 10. Distribution Requirements: Division 1, Writing Intensive. Other Attributes: JLST Interdepartmental Electives, Not offered Academic Year 2018. TUT Instructor: Julie Cassiday

COMP 333T Narrative Strategies

Crosslistings: ARTS 333/COMP 333

In this tutorial, we will examine the use of narrative in a range of fine art practices, which could include painting, drawing, video, sculpture, installation, performance, and sound art. Students who are interested in telling stories in their work in some way will be given the opportunity to develop their ideas and skills in a challenging studio class. In addition to intensive projects, we will look at and discuss the work of artists such as Huma Bhabha, Lorna Simpson, Joe Sacco, Lynn Davis, Raymond Pettibon, Todd Solondz, Sophie Calle, Jeff Hilde, and Others. One of the goals of this course is to challenge traditional notions and expectations of narrative. For instance, what could minimally constitute a narrative piece? How do different mediums allow for time to unfold in unexpected ways? How does omission play a powerful role in a narrative? How might the role of the narrator (often so powerful and present in novels and short stories) change in a visual arts context? This is a studio tutorial with an emphasis on demanding, weekly projects. Students will work both in mediums of their choice and be asked to experiment with new, unfamiliar formats. Readings and screenings will be required in addition to tutorial hours. Class Format: studio tutorial with an emphasis on demanding, weekly projects; students will work both in mediums of their choice and be asked to experiment with new, unfamiliar formats; readings and screenings will be required in addition to tutorial hours. Requirements/Evaluation: evaluation based on assignments, studio performance, class participation, and attendance. Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option. Prerequisites: students are required to have taken at least two ARTS 200-level classes in any medium, or permission of instructor. Enrollment Preferences: Art Studio majors. Enrollment Limit: 10. Expected Class Size: 10. Distribution Requirements: Division 1, Not offered Academic Year 2018. TUT Instructor: Laylah Ali

COMP 334(S) Imagining Joseph (W)

Crosslistings: ANTH 334/COMP 334/JWST 334/REL 334

Beloved son, rival brother, faithful servant, dreamer, seer, object of desire, lover, husband, bureaucrat, Joseph is one of the most fully-limned and compelling figures in the Jewish, Christian, and Muslim scriptural traditions. The story of Joseph unfolds over fourteen chapters in the Hebrew Bible, and is the subject of the fourth longest sura in the Qur'an. Through millenia, the story of Joseph has inspired a wealth of interpretations, commentary, apocrypha, re-tellings, and back-stories, including a book of scripture about Joseph and his wife, Asenath, Sufi poetry about Joseph and Zuleikha (Potiphar's wife), a trilogy by the 20th century German novelist Thomas Mann, a musical by Andrew Lloyd Weber, and many expressions in Western visual art. The course will explore these various expressions, looking to them for the ways in which Joseph has captured the imaginations of peoples and cultures across time and space. The course will be organized as a collaborative seminar in which the class will read the foundational scriptures together, followed by thematic discussions to which students will contribute insights from their own readings of particular peripheral texts. Students will learn the pleasures of close and intense exegetical reading in approaching the Hebrew Bible and Qur'an, as well as the more expansive pleasures of linking post-scriptural expressions together. Class Format: seminar. Requirements/Evaluation: 3- to 5-page weekly response papers; 15-page final paper; class participation. Prerequisites: based on responses to a questionnaire. Enrollment Preferences: based on responses to a questionnaire. Enrollment Limit: 12. Expected Class Size: 10. Distribution Notes: meets Division 2 requirement if registration is under ANTH, JWST, or REL; meets Division 1 requirement if registration is under COMP. Distribution Requirements: Division 2, Writing Intensive. Other Attributes: JWST Core Electives. Spring 2018 SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Peter Just

COMP 335T Two American Poets: Wallace Stevens and John Ashbery (W)

Crosslistings: AMST 336/ENGL 320/COMP 335

This tutorial focuses on the work of two major American poets who are known for their "difficult" poetry. In some respects, Stevens (1879-1955) and Ashbery (b. 1927) book-end twentieth-century poetry. Stevens is a major
Modernist poet, perhaps the most philosophically oriented American poet of the twentieth century, and Ashbery is considered by most critics to be the most important American poet alive. Students will do close readings of their poems and one play, "Three Travelers Watch a Sunrise," by Stevens, as well as read their writing on poetry and art. We will discuss the overlaps between Stevens and Ashbery, and how their having grown up in the Northeast and attended Harvard, what some see as the abstractness of their writing, their mastery of tone, among others—but also the differences: Ashbery's sexuality, his having lived in France, the supposedly more "avant-garde" nature of Stevens' work, and so on. Along the way, we will ask questions about the nature of poetic difficulty, of abstraction, of the (lyric) poetic speaker in their works, of poetic tone, of the link between the poem and the world (e.g., in description), of the thinking and philosophizing that poems do. We will discuss important "movements" (Modernism, the New York School) and pose questions that are rarely asked about their poetry, such as "What are the politics, implicit and explicit, in their poems?" "What are their views about the" "American society and culture?" "What assumptions about race, gender and class are embedded in their poetry? And, always, we will be paying close attention to the question of form and language in Stevens' and Ashbery's poetry.

Class Format: tutorial
Requirements/Evaluation: typical tutorial format; papers every other week.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Composers of the Millennium: New, Emergent, and Avant-garde
Distributional Requirements: AMST & Arts in Context Electives

Enrollment Preferences: English majors, COMP majors; AMST majors; preference will be given to students who have already taken at least one literature class
Enrollment Limit: 10

COMP 337E Zen and Philosophy: The Kyoto School and Its Legacy in Japanese Thought
Crosslistings: REL 337/ASST 337/COMP 337

Popularly regarded as the most important philosophical movement in modern Japanese history, the Kyoto School creatively marshaled the resources of Buddhism to address the impasses of Western philosophy to startling effect. Although the members of the Kyoto School were not all of one mind, their shared aims were ambivalent: to bridge the dualism between subject and object, to overcome nihilism, to explore the implications of absolute nothingness, and to surmount what they saw as the chasm between Japanese and European thought. After providing some brief background in Japanese Buddhism, we will read the writings of the core thinkers of the Kyoto School: Nishida Kitaro, Tanabe Hajime, Nishitani Keiji, and some of their later protégés. Thematically, we will explore issues in ethics, epistemology, phenomenology, metaphysics, and the philosophy of religion; and demonstrate the continued relevance of their insights in these areas. Finally, we will reflect on the group's engagement with Japanese nationalism. All readings will be in translation.

Class Format: seminar
Requirements/Evaluation: regular participation and attendance, regular short writing assignments, 10- to 15-page final paper
Prerequisites: none, but previous coursework in Religion, Comparative Literature, Political theory, and/or Philosophy is strongly recommended
Enrollment Preferences: Religion, Asian Studies, and Comparative Literature majors
Enrollment Limit: 15
Expected Class Size: 15
Distribution Notes: meets Division 2 requirement if registration is under REL or ASST; meets Division 1 requirement if registration is under COMP
Distributional Requirements: Division 2; Writing Intensive
Not Offered Academic Year 2018
SEM Instructor: Jason Storm

COMP 338 The Culture of Carnival (D)
Crosslistings: THSA 335/COMP 338

Carnival is a regenerative festival as well as a transgressive one. It is a time for upheavals and recreating for one day, a new world order. Men dress as women, women dress as men, the poor become kings; drink and sex and outrageous behavior is sanctioned. We will look at festivals in such places as New Orleans, Venice, and Rio. Central to this course are the cultural and religious lives of these societies, and how these festivals exist politically in a modern world as theatre and adult play. A variety of sources will be used, such as newspaper accounts, films, photography, personal memoirs and essays on the subject.

Class Format: studio
Requirements/Evaluation: students will be evaluated on regular active class participation, one oral presentation including a 5-page essay, one 15-page research final paper and participation in a group project/public parade.
Prerequisites: none
Enrollment Preferences: sophomores and first-year students
Enrollment Limit: 20
Expected Class Size: 18

COMP 339 Race, Gender, and Performance from Literature to Social Media (W)
Crosslistings: WGSS 330/COMP 339/AMST 332/LATS 335/THSA 322

How can contemporary performance expand ideas and practices of belonging in the United States, as figured through race, gender, and sexuality? This spring course will begin with readings of dramatic literature including Suzan-Lori Park's Venus, David Henry Hwang's M. Butterfly, and Young Jean Lee's The Shipment to analyze literary and staged performance, then continue to discussions and readings on the performance of everyday life via the work of performance artists including Adrian Piper, Nao Bustamante, and Yoko Ono. We will develop shared vocabulary and methodologies of performance studies, including readings by scholars including J.L. Austin, Judith Butler, and José Esteban Muñoz. This course will engage foundational texts to pursue course studies and offer an interdisciplinary approach to scholarship in gender and sexuality studies, critical ethnic studies, and performance studies from the 1970s to the present. This course recognizes a suspicion for diversity discourses that universalize human experience and asks: how do we recontextualize and deconstruct the regulating logics of those forces? This EDI course will critically engage with diversity from the heterogeneous and multiple perspectives of racial, sexual, and gender minorities, asking students not only to examine the diversity of human experience but to explore the political stakes of creative expression through interdisciplinary methods and forms.

Class Format: seminar
Requirements/Evaluation: in-class participation, partnered presentation, weekly reading responses, performance analysis, final paper.
Extra Info: not available for the fifth course option
Prerequisites: none
Enrollment Limit: 20
Expected Class Size: 15

COMP 340 Literature and Psychoanalysis (W)
Crosslistings: COMP 340/ENGL 363

The British psychoanalyst D. W. Winnicott once wrote: "It is a joy to be hidden, and a disaster not to be found." This course will explore the many ways in which writing enacts this paradox, examining in the process several main strands of psychoanalytic thought in relation to literature that precedes, accompanies, and follows it in history. Approximately the first two-thirds of the
course will involve close readings of theoretical and literary texts, which will be shared in a seminar format. In the latter portion of the course, students will work with each other and with the instructor on analyzing the processes of reading and writing as they produce original psychoanalytic readings of texts of their choice. All readings in English.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** active engagement with the material and with each other, plus two 5-page papers, one 8-page paper, and a symposium presentation.

**Prerequisites:** one previous course in either COMP or ENGL, or permission of instructor.

**Enrollment Preferences:** Comparative Literature majors

**Enrollment Limit:** 15

**Expected Class Size:** 19

**Distributional Requirements:** Division 1, Writing Intensive

**Other Attributes:** AMST Critical and Cultural Theory Electives, ENGL Criticism Courses

Not Offered Academic Year 2018

SEM Instructor: Gail Newman

**COMP 341 (F) Cinematic Representations of Work and Migration after the Wall**

Crosslistings: COMP 341/WGSS 341

The increased flow of migrants from East to West and from South to North into the center of Europe and the simultaneous tightening of restrictions against illegal migration have brought to the forefront issues of labor, gender, and precarity, citizenship and cultural belonging. We will analyze feature films and documentaries that trace the changing face of work and migration, with an emphasis on flows from countries the former east bloc and Africa to Europe. We will discuss new expressive forms of globalization such as the monetization of feeling and personal relations (Harvey), the concept of intensification and the disembodied state (Nealon and Foucault), but also with what new opportunities might arise, and for which groups. We will study the depictions of manual labor, illegal migration, women as caregivers, Internet marriage, sex work, and the migrant as a raced and othered body. Theory by Dina Iordanova and William Brown, Ewa Mazierska, Sandra Mezzadra and Ben Neilson, Jeffrey Nealon, Lara Agustín, Angela Metillopolous, Lauren Betrandt and Mieke Bal. Films will likely include: Illegal, Working Man’s Death, NordSud.com, Lichter (Lights), Code Unknown, The Flower Bridge, Occident, Since Otar Left, Losers and Winners, Where’s Glory, Le Havre and Time Out.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, two short papers, an oral presentation, and a final paper

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** a 200-level ENGL or COMP course, or permission of instructor

**Enrollment Preferences:** Comparative Literature and Women’s Gender & Sexuality majors

**Enrollment Limit:** 19

**Expected Class Size:** 10

**Distribution Notes:** meets Division 1 requirement if registration is under COMP or ENGL; meets Division 2 requirement if registration is under WGSS

**Distributional Requirements:** Division 1

**Other Attributes:** ENGL Criticism Courses

Fall 2017

SEM Section: 01 TR 08:30 AM 09:45 AM Instructor: Helga Dru克斯

**COMP 342 The City and the Globe (D)**

Crosslistings: ENGL 344/COMP 342/AFR 344

This course will inquire into the ways literary and filmic representation can tell us about the new and shifting forms of human life that arise in the fluctuating cityscapes of the contemporary world. Working with short stories, novels, and film, this course journeys through depictions of urban life in developing cities across the globe. Our itinerary takes us to literary and cinematic versions of the Caribbean, Asian, South American, and African city. We will read texts by such authors as Italo Calvino, Chimamanda Adichie, Vikram Chandra, Teju Cole, Emiliano Zapata, Roberto Bolaño, and view films such as Chungking Express and City of God. Our secondary and theoretical texts will include writing by Walter Benjamin, Mike Davis, Saskia Sassen, and Achille Mbembe. The course will contribute to the College’s Exploring Diversity Initiative by comparison with cultural and societal urban contexts from a global perspective.

**Class Format:** seminar

**Requirements/Evaluation:** participation in discussion and a class blog, and approximately 20 pages of writing distributed over three papers

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**COMP 343 Spectacles on His Nose and Autumn on his Heart:**

Oeuvre of Isaac Babel (D) (W)

Crosslistings: RUSS 343/COMP 343/JWST 343/GBST 343

Known alternately as "master of the short story" and "Russian Maupassant," Isaac Babel was not only one of the most celebrated and intriguing authors of early Soviet Russia, but also a cultural figure of profound national and international significance. For a number of reasons (political, aesthetic, professional, ethical) Babel was not prolific and this will allow us to read almost all of his creative output, something we rarely get to do in the course of a single semester. Babel's writing is extremely varied—it includes, sketches, journalism, prose, short stories, plays, movie scripts, one unfinished novel—and richly intertextual. This will afford us the opportunity to read the work of some of his contemporaries and predecessors, from both Russia and abroad, with whom he fascinated brilliant literary conversations, among them Gorky, Ants Chekhov, Sholem Aleichem, and Ivan Turgenev. Babel saw self-definition as the core of his writing and as an ED offering, this course will ask students to reflect on what it meant to be a Russian, a Jew, and a necessary author—an outsider, intertwined, and coexisting into one—in the highly unsettled, and unsettling, 1920s and 1930s. All course readings will be in translation, but students are highly encouraged to read in the original (Russian, French, Yiddish) whenever possible.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, frequent short writing assignments, a final project, and an oral presentation

**Prerequisites:** none

**Enrollment Preferences:** Russian and Comparative Literature majors, Jewish Studies and Global Studies concentrators

**Enrollment Limit:** 12

**Expected Class Size:** 10

**Distribution Notes:** meets Division 1 requirement if registration is under RUSS or COMP; meets Division 2 requirement if registration is under JWST or GBST

**COMP 344 From Hermeneutics to Post-Coloniality and Beyond (D)**

Crosslistings: REL 304/COMP 344

This course explores and critiques some of the resources offered by "Theory" for making sense of our contemporary situation, focusing on the nature of interpretation and its role in the construction of the self in a global world. We start with Gadamer's hermeneutics, which offers a classical formulation of the philosophy of liberal arts education, stressing the importance of questioning one's prejudices. Although this approach offers important resources for understanding ourselves in a world of cultural differences, it also has limitations, which we explore through the works of Derrida, Foucault and Said. In this way, we question some of the notions central to understanding ourselves such as identity and difference, suggesting some of the difficulties in the ever more important yet problematic project of knowing oneself. We also suggest that representation is not innocent but always implicated in the world of power and its complexities, particularly within the colonial and postcolonial contexts explored by Said. We conclude with a critique of the constructivist paradigm central to this course done from the point of view of cognitive sciences and suggest that the future of "Theory" may well be in a dialogue with the emerging mind sciences. This course, which theorizes the possibilities of post-colonial and trans-cultural thinking as part of the Exploring Diversity Initiative, will be useful to students interested in the study of comparative literature, politics and cultural studies, and international relations.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** full attendance and participation and three essays (6 pages)

**Prerequisites:** some familiarity with philosophy and/or theory is recommended

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Distribution Notes:** meets Division 2 requirement if registration is under RB; meets Division 1 requirement if registration is under COMP

**COMP 345 Museums, Memorials, and Monuments: The Representation and Politics of Memory**

In the past 25 years, we have seen an extraordinary boom in museum, memorial and monument building around the world. In this class, we will explore what this growth means to cultural practices of memory and global politics. We will explore the question of whether or not museums, memorials, and cultural and aesthetic studies such as: Why is there a "global rush to commemorate atrocities" (Paul Williams)? Why do we live in a "voracious museal culture" and how does this impact our ability to imagine the future (Andreas Huyssen)? We will look at museum history and recent museum controversies. We will analyze debates surrounding memorials and monuments. In addition to our work on institutions, we will also read a number of novels that claim to do the work of museums (Orhan Pamuk's The Museum of Innocence) and that interrupt processes of memorialization (Amy Waldman's The Submission).
COMP 347T Silence, Loss and (Non)Memory in Twentieth-Century Austria (D) (W)
Crosslistings: GER 331/COMP 347
Think of Austria and glaring Klimt paintings come to mind, or the majestic Alps of The Sound of Music, or perhaps a melody from Mozart or Strauss plays in the ear. And no wonder: tourism is one of the largest industries in Austria; the nation is proud of this modern fact deal is invisible and inaudible to the tourist in Austria. In this course we will explore the hidden core of Austrian culture from 1900 to the present. We'll begin with the tremendous intellectual ferment surrounding Sigmund Freud's elaboration of the unconscious at the turn of the century, from Hofmannsthal's paralysis of language through Wittgenstein's streams of consciousness to Kafka's carefully crafted renderings of inner worlds. Then we will turn to an examination of the phenomenon of loss at the end of World War I: loss of empire, loss of relevance, loss of hierarchical certainty. Stefan Zweig documents this phenomenon timelessly. The second half of the course will focus on the driver of Austrian identity from 1938 on, the so-called Anschluss (annexation) by the Nazis, and the (non)memory of the horrors that ensued. We will probe the idiosyncratic mixture of trauma and guilt that characterizes Austria today, through the work of contemporary authors and filmmakers, focusing on three: Elisabeth Reichtart, whose fiction sensitively but relentlessly uncovers secrets that have become part of the fabric of forgetting in the Austrian psyche; Marcus Cameron, born to a Austrian mother and an American father, who unblinkingly documents his mother's and grandmother's attempts (or non-attempts) to come to terms with their family's Nazi past, not looking away from his own complex relationship to all involved; and finally, Gerhard Roth, the author of the semi-text series The Archives of Silence, a monumental collection of photos, essays and novels demonstrating the fact, as Roth conveyed to me in an interview, that "we are just as blind and deaf to the whole picture as the blind and deaf are to the usual communications of our society." Psychoanalytic theory from Freud to recent discussions of the transgenerational transmission of trauma and perpetrator guilt will provide a conceptual framework for the literary works. The tutorial may be taken in German or English. For those who do it in German, all literary readings and at least 4 of the papers will be in German. This tutorial will fulfill the Exploring Diversity Initiative, because it involves a close and critical examination of the exercise and denial of power, namely complicity in the Holocaust and resistance to acknowledging that complicity. The investigation of Austria's curious combination of guilt and trauma can be extended to our own context; in fact, the Allies in 1944 published a declaration that Austria was the first victim of Hitler, clearly demonstrating the continuing principle that not looking at the transgressions of oneself and one's own kind is a feature of those in power.
Class Format: seminar
Requirements/Evaluation: five 5-page papers, one revision, discussion
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: for those taking it in German: GERM 202 or the equivalent, for those taking it in English: one college-level literature course

COMP 348(F) Drawing Democracy: Graphic Narratives as Democratic Ideals
Crosslistings: LATS 348/AMST 348/COMP 348
This course examines the graphic narrative in terms of how each author/illustrator employs narrative elements (plotting, structure, characterization, text vs. image) to express social realities within the context of democratic ideals. The primary focus will be on texts that explore themes of democracy and Latinidades. We will also discuss the “graphic activism” of artists like Sharon Lee De La Cruz of Digital Citizens Lab, a design collective with a focus on civic technology. Throughout the course, students will have the opportunity to create their own graphic narratives, either digitally or in print. Possible guest speaker: comic book artist Ivan Vélez (Planet Bronz, 2015 Creative Capital Award in Visual Arts).
Class Format: seminar
Requirements/Evaluation: evaluation will be based on attendance and class participation, short writing exercises, 4-5 page midterm paper (close-reading a text), 10-15 page final creative paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Latina/o Studies concentrators
Enrollment Limit: 15
Expected Class Size: 15

COMP 349 Max Weber & Critical Theory as Rationalization & Its Discontents
Crosslistings: REL 350/SOC 350/COMP 349
We live in an age characterized by unprecedented technological and scientific progress—we have unwired the building blocks of life, witnessed the birth of stars at the edge of the galaxy, and harnessed the power of the atom—and yet modern life often appears fundamentally meaningless and lacking in ultimate value—we eat, we excrete, we die, perhaps in the interim shuffling paperwork, sucking up to our boss, and asking ourselves, “What kind of dining set defines me as a person?” Few thinkers have explored the ramifications of this modernity as thoroughly as Max Weber, a German sociologist often regarded as the single most important social theorist of the twentieth century. Weber wanted to know why it was European civilization in particular that gave birth to the grand trifecta of rationality, science, and capitalism and how we have become enslaved by the very things that were once supposed to have set us free. Weber's key innovation was to trace the grand trajectory of Western “rationalization”—the historical attempt to produce a world in which “one can, in principle, master all things by calculation.” Further, he demonstrated how this rationalization produced not just mastery over nature, but also “the disenchantment of the world”—value fragmentation, hyper-specialization, bureaucracy, and ultimately the “iron cage” of modernity. The first part of this course will follow in Weber's footsteps by studying his theory of rationalization and by exploring it in different social contexts. We will examine Weber's key innovations in detail, and the secularization of religion. The second half of the course will look at Weber's legacy in Critical Theory. We will show how thinkers such as Theodor Adorno, Georges Bataille, Jurgen Habermas, Michael Löwy, and Alasdair MacIntyre suggested various lines of flight from the iron cage of modernity.
Class Format: seminar
Requirements/Evaluation: attendance and participation, weekly critical reflections, 5- to 6-page midterm paper, 10- to 15-page final essay
Prerequisites: none

COMP 350 Cervantes “Don Quixote” in English Translation
Crosslistings: COMP 350/RLSP 303
A close study of one of the most influential and early European novels. Don Quixote by Miguel de Cervantes (1547-1616 C.E) was a hit in its day in the seventeenth century, and has not ceased to influence artists and thinkers since. Engaging, and at times, acerbic, Cervantes takes on several issues in the Quixote: the point of fiction in real life, the complications of relationships between men and women, the meaning of madness, the experience of religious co-existence, the shapes of friendship, and the task of literary criticism. Just to name a few. From the original English-language translation, and set it in several relevant contexts to better understand its original intellectual horizon—seventeenth-century Spain—as well as the reasons for its continuing relevance.
Class Format: seminar
Requirements/Evaluation: active participation, three short papers, and a final project designed in consultation with the instructor
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: any 200-level literature course in foreign languages, COMP, or ENGL, or permission of the instructor.
Enrollment Preferences: Comparative Literature majors and upperclassmen
Enrollment Limit: 30
Expected Class Size: 30
Dept. Notes: does not count toward the major in Spanish

COMP 351(S) Friedrich Nietzsche: Philosopherizing with a Hammer
Crosslistings: REL 354/COMP 351
In one of his last major writings, Twilight of the Idols (Götzen-Dämmerung, 1889), Friedrich Nietzsche described his project as an attempt to sound out various established philosophical truths or intellectual “idols,” saying, “they will be touched here with a hammer as with a tuning fork, these are the oldest, most convincing, puffed-up, and fat-headed idols you will ever find...And so to the most hollow.” To be sure, Nietzsche directed his often combative prose against everything from traditional religion to philosophy
itself. Nietzsche is one of the most frequently cited and most frequently misunderstood philosophers of our current era. By reading Nietzsche’s writings in context, this course will attempt to liberate Nietzsche from his later reputation. We will think with and sometimes against Nietzsche, focusing on his notions of religion, mythology, power, morality, and enlightenment, and we will pay special attention to his radical ideas such as the superman and the will to power. Along the way, students will get a new sense of Nietzsche’s most famous formulations such as “the death of God,” the Ubermensch, and the split between Dionysian/Apollonian modes of thought.

COMP 352 Writing after the Disaster: The Literature of Exile Crosslistings: COMP 352/JWST 352/RLSP 352

This course will consider different kinds of works (poetry, memoirs, fiction, essay) written by authors forced to live in exile as a consequence of political and/or religious persecution. Our point of departure will be the paradigmatic expulsion and subsequent diaspora of the Jews of Spain and Portugal. Most assignments, however, will be drawn from twentieth century texts written during, or in the wake of, the mass expulsions and diaspora that were brought about by the Spanish Civil War and World War II. How is the life lost portrayed? How are the concepts of home and the past intertwined? What kind of life or literature are possible for the diasporic survivor? We will discuss the role of exile and remembrance in relation to political history, as well as in the context of individual survival. Readings might include works by Nuñe de Reinoso, León, Cernuda, Semprún, Benjamin, Nancy, and Blanchot.

Class Format: seminar

Requirements/Evaluation: active participation in class discussions, an oral presentation, several short writing assignments, a midterm paper and a final paper

Prerequisites: COMP 111 or an equivalent ENGL course

Enrollment Preferences: Comparative Literature majors

Enrollment Limit: 20

SEM Instructor: Soledad Fox

COMP 353(F) Anticolonial Avant Gardes: Literature, Film, Theory (D) Crosslistings: ENGL 352/COMP 353

Chic, sophisticated, experimental, bohemian, radical: the words we think of when we think of the “avant garde” call to mind the great cities of Europe and America in the early decades of the twentieth century. From the Left Bank in Paris, from Paris, London, Moscow, Rome, and New York, but many of them claimed to be mining the “naive arts” and primitive energies of the “uncivilized societies” in Africa, Asia, and beyond. Can we recover these Others, these understudied but essential artists, as more than unconscious transmitters of unfamiliar cultures, and locate in their work a distinct set of aesthetic and political practices? Can we trace the global vectors of a representational strategy that is not Euro-American but is nevertheless poetically and formally radical? Writers, artists, and filmmakers like Jean Toomer, G.V. Desani, Amos Tutuola, Émile Habiby, Jean Genet, Aimé Césaire, Haroun Farocki, Patrick Chamoiseau, Claire Denis, and Antje Krog will help us locate and consider the explosive diversity of a broader avant garde’s experiments with image, story, and language, as well as how these texts have contributed to and put pressure on more traditionally Western modernisms. In posing the question about the geographical and cultural purview of the Avant Garde around the time of the world wars, this class encourages students to interrogate the transmissibility of aesthetic practice in an age of global upheaval. We will look to writers and artists working in a variety of traditions and, equally importantly, against those traditions, in order to examine how power and resistance inflected the avant grade texts of modernist expression.

Class Format: seminar

Requirements/Evaluation: class participation; one short 2- to 3-page provocation paper to be revised into a formal 5- to 6-page essay; presentation; final 15- to 25-page research paper

COMP 354(F) The Literary Afterlife Crosslistings: ENGL 319/COMP 354

What do writers mean when they say that they will live on after death through their books? In this course, we will explore the long history of thinking about literature after life. We will pay special attention to the two afterlives this question can address: the recovery of pagan antiquity during the Renaissance, across the theological transformations of the Reformation, to the consequences of print. The course delves into the relationship of these two afterlives, to make a lasting contribution to human culture—but we will often find ourselves caught in an undertow of skepticism. Is writing any less susceptible to decay than human bodies are? If so, is literary accomplishment worth the risk of one’s soul? Authors and texts will include Sappho, Ovid, Lucretius, Ecclesiastes, Augustine, Petrarch, Dante, Montaigne, Shakespeare’s Hamlet and Richard II, Jonson, Donne, and Milton.

Class Format: seminar

Requirements/Evaluation: one-page paper, one 10-page page paper, in-class presentation, thoughtful participation in discussions

COMP 355 Contemporary Theatre and Performance Crosslistings: THEA 345/ENGL 349/COMP 355/AMST 345

As Gertrude Stein once remarked, “The hardest thing is to know one’s present moment.” What is going on in theatre and performance today? What is our present moment? What is this present moment? What are the hot topics? Who are the writers, performers, and directors of our recent past and present moment? This seminar course will consider both experimental and mainstream drama and performance mainly in the U.S. from the past twenty years. Focusing on topics such as: postmodern performance, theatre of images, auteurs-directors, new realism, identity theatre, eco-theatre, performance art, postdramatic theatre, devised performance, virtuosic theatre, immersive theatre, social practice, neo-collectivism, and more. As part of the seminar, students will conduct individual research on selected topics and present their findings through oral reports. Students will be required to attend theatre, dance and other performances at the 62 Center. Artists and groups considered may include: The Wooster Group, Richard Foreman, Robert Wilson, Meredith Monk, Edward Albee, Maria Irene Fornes, Sam Shepard, Caryll Churchill, Tony Kushner, Suzan-Lori Parks, Sarah Kane, Will Eno, Richard Maxwell, Young Jean Lee, Annie Baker, Branden Jacobs-Jenkins, Quiara Alegria Hudes, Antonio Waskin, Elevator Repair Service, Nature Theatre of Oklahoma, The Civilians, and many others. As a final project, students will work individually or in small groups to create a script or short performance that addresses the question: “What is the most important story to be telling right now?”

Class Format: seminar

Requirements/Evaluation: evaluation will be based on written and dramaturgical-based assignments, an oral presentation, as well as in-class discussions and a final creative writing and/or performance project

COMP 362(T) Story, Self, and Society (W)
Crosslistings: SOC 362/COMP 362
From The Moth to StoryCorps to Williams College's own Storytime, stories are ubiquitous in contemporary society. Indeed, sociologists have argued that social life is itself "storied", structures, using them to "construct" identities and "tell" our lives. Stories, in this view, are not only the stuff of literature, but also the very fabric of social life: the foundation for individual and collective identities. This tutorial will grapple with the role of stories and storytelling in modern social life. What role do stories play in constructing personal identity? What cultural templates structures the stories we tell? Why are memoirs so popular, and how can we explain the more recent resurgence of interest in oral forms of storytelling? Specific topics will include illness narratives, confessionals, oral history, and memoir. As a capstone exercise, each student will construct a narrative analysis focused on a memoir of his/her choosing. The course will conclude with a final seminar meeting during which each student may tell a story of his/her own, and we will work together to consider how the theories we have encountered throughout the semester might illuminate our own narratives.

Class Format: Tutorial
Requirements/Evaluation: 5-page paper every other week; comments on the partner's paper in alternate weeks
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 363 Thinking Critically: Major Debates in Modern Arab Thought (W)
Crosslistings: ARAB 330/COMP 363
The aim of this course is to introduce students to some of the major debates in Arab intellectual history in the 20th century and the ways in which they have shaped Arab identities as a discipline. We will read a range of texts from History, Religion, Politics, Anthropology, Cultural Studies, Literature, Gender, Sexualities and Women Studies, in order to gain a deeper insight into critical debates about nationhood, modernity, post-coloniality, democracy, feminism, social and religious movements, Orientalism and post-Orientalism, and the making of modern Arab subjectivities. In addition to a course packet with selected texts and essays, students are required to read the following books: Ibrahim Abu-Rabi', Contemporary Arab Thought: Studies in Post-1967 Arab Intellectual History (2004), Elizabeth Suzanne Kassab, Contemporary Arab Thought: Cultural Critique in Comparative Perspective (2010) & Tarik Sabry, Arab Cultural Studies: Mapping the Field (2012).

Class Format: seminar

COMP 365(F) Beckett, Pinter and Stoppard
Crosslistings: THEA 365/ENGL 365/COMP 365
Samuel Beckett, Harold Pinter and Tom Stoppard have been amongst the most influential playwrights of the anglophone theatre over much of the last six decades. This course will explore their mutual concern with the capacities and dysfunctions of language, their questioning of Art's van and the scope for originality in the post-nuclear and postmodern era, and, above all, their collective focus on the extent to which selfhood may be realized and through performance. Besides reading major plays, we will also give some consideration to the dramatic work crafted by these writers for radio, television and film, and to the political and social commitments animating and counterpointing their literary careers. Readings may include: Endgame, The Cherry Orchard, Rosencrantz and Guildenstern are Dead, Krapp's Last Tape, The Homecoming, No Man's Land, Betrayal, Waiting for Godot, Dogg's Hamlet, The Invention of Love, Arcadia, Rock 'n' Roll, Not I, Rockaby, A Kind of Alaska, Catastrophe, The Real Thing, Indian Ink, Artist Descending a Staircase, and One Last Thing. We will give consideration to these works as both literary and theatrical texts.

Class Format: seminar
Requirements/Evaluation: two long papers, four 1- to 2-page shorter reflections, class participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 366(F) Joyce, Woolf, and Proust
Crosslistings: ENGL 325/COMP 366
This seminar focuses on novels of three of the most important writers of modernist fiction: Marcel Proust (Swann's Way, the first novel of his seven-volume In Search of Lost Time), Virginia Woolf (To the Lighthouse, and James Joyce (Ulysses, written in slightly abridged form). By juxtaposing these pathbreaking texts, we will examine the distinctive yet related ways in which they explore crucial preoccupations of modernism: the threat and the exhalation of cultural loss in face of social and political transformations in the early twentieth century; the turn to memory, to art, and to objects as stays against de-stabilized subjectivity and as means of re-thinking value; the emergence of new forms of political and sexual identity; the highlighting of consciousness to the verge of transport or disintegration; and the roots and perversities of desire. Students who have studied Ulysses in a previous course are welcome.

Class Format: seminar
Requirements/Evaluation: regular class participation, two 8- to 10-page papers
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, a score of 5 on the AP English Lit exam, or a score of 6 or 7 on the Higher Level IB English exam; students who have taken ENGL 360 are welcome

COMP 368(F) Arab Women Writers: Remapping Urban Narratives (W)
Crosslistings: ARAB 368/COMP 368/WGSS 368
In "In the Lover of Blue Writing above the Sea" (1985) a poem written to console a lover after the death of his beloved, Syrian poet, Ghada al-Samman, pens: "If you are sad and burn the edge of my book/I shall come to you/like the genie in my grandmother's Damascene stories..." As these lines insinuate, our grandmothers' Damascene stories have the power to equally amend broken hearts and restore memories of loss. In this course, we will adopt "the grandmother's Damascene stories" as a conceptual metaphor that guides our line inquiry into the intersection of Arab women's narrative and the city. We will read novels and short stories by Arab women writers about cities and capitals in the Arab world and the diaspora. The goal of this course is not only to familiarize students with prominent Arab women novelists, such as Hoda Barakat, Radwa Ashur, Liana Badr, Rajia'a Alem, Alia Mamdouh, and Ahlam Mosteghanemi, among others, but also to introduce them to the literary and visual cartography of Beirut, Granada (via Cairo), Ramallah, Mecca Baghdad, and Constantine, respectively. We will also read short stories about other cities in the world, such as New York, Paris, London, Bucharest, Tokyo and Sao Paulo. The course will consider material that addresses these questions: How does the city appear as a protagonist? How do Arab women writers represent cities beyond the Arab world? To answer these questions, we will also look at Arab women's blogs and watch films that focus on the city as a site for spatial articulation of national histories, popular revolutions, and femininity, public spheres.

Class Format: seminar
Requirements/Evaluation: active class participation, several short response papers, three short papers (3 - 5 pages), a final performance project, and a final 10-page paper (7 - 10 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Arabic Studies majors and Comparative Literature majors

COMP 389(S) Indigenous Narratives: From the Fourth World to the Global South (D) (W)

Crosslistings: COMP 369/ARB 369/GRST 369/HIST 306

In the late 20th century, world literature has witnessed a “boom” in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern narrative and the indigenous in terms of literary justice fostered by theoretic and political discourses as well as the influence of colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this “indigenous boom” by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigenity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashsheliyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arte Angechu and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: seminar
Requirements/Evaluation: active class participation, several short response assignments (2-3 pages each), final performance project, and final paper (5-7 pages)

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Comparative Literature majors

COMP 374 Shades of Plato’s Cave: Image, Screen, and Spectacle
Crosslistings: PSCI 374/COM 374/ARTH 526

In Book 7 of the Republic, Aristotle asks his interlocutors to picture people living in a cave, bound in chains and able to see only shadows on the wall. Thus begins the presentation of perhaps the most influential metaphor in the history of philosophy. One might even claim that when Plato deployed the metaphor in an extended allegory, he constituted the fields of metaphoric seeing, how Plato’s approaches to image, politics, and theory/philosophy shape each other. Building on those inquiries, we next take up important questions about image and representation. How did metaphoric seeing, as evident in the works of the Kardish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Seminar

COMP 375 New Asian American, African American, Native American, and Latino/a Writing (D)
Crosslistings: AMST 375/COM 375/ENGL 375/AFR 333/LATS 403

CRITICS reading minority writing often focus on its thematic—i.e., sociological—content. Such literature is usually presumed to be inseparable from the "identity"/body of the writer and read as autobiographical, ethnographic, representational, exotic. At the other end of the spectrum, avant-garde writing is seen to concern itself "purely" with formal questions, divorced from the socio-historical (and certainly not sullied by the taint of race). In the critical realm we currently inhabit, in which "race" is opposed to the "avant-garde," an experimental minority writer can indeed seem an oxymoron. In this class we will closely read recent work by Asian American, African American, Native American and Latino/a writers which challenges preconceptions about ethnic literature, avant-garde writing, genre categorization, among other things. The writing done by these mostly young, mostly urban, poets and fiction writers is some of the most exciting being written in the United States today; their texts push the boundaries of aesthetic form while simultaneously engaging questions of culture, politics, and history. Reading them forces us to re-think our received notions about literature. Authors to be read include Wil Alexander, Sherwin Bitsui, Monica de la Torre, Sesshu Foster, Renee Gladman, Bhanu Kapil, Tan Lin, Tao Lin, Ed Roberson, James Thomas Stevens, Roberto Tejada, and Edwin Torres.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on either one 16- to 18-page seminar paper or two shorter papers (one 7-8 pages and one 9-10 pages); short response papers; participation
Prerequisites: those taking this as an ENGL class must have previously taken a 100-level ENGL course
Enrollment Preferences: American Studies majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 2, Exploring Diversity

COMP 380 Literary and Critical Theory in the Twentieth Century Crosslistings: COMP 380/ENGL 370

From the rise of modern literary criticism around 1900 to the explosion of high theory in the 1980s and 1990s, the twentieth century witnessed an international flowering of new ideas about how to interpret art and literature: structuralism, deconstruction, new varieties of hermeneutic criticism, French Structuralism and...
Crosslistings: AMST 382/COMP 382

In this course, we will examine transnational Asian/American film and video through the frameworks of cultural studies and critical media literacy. We will traverse communal, national, and transnational lines through an exposure to different forms and genres, including narrative, documentary, experimental, short film, music video, public access television, and YouTube. We will consider three levels of analysis: (1) the conditions of power and visibility that are being mediated by sites of representation, (2) the networks and platforms that help to make these sites possible, and (3) the materials, meanings, and acts being performed by them. How does the Asian-American, and/or Asian American representation being produced, performed, embodied, and consumed? What are the historical, social, political, economic, and cultural ideologies at play in a given context? What formal and performative tactics are being used by the creators and actors? And what are the possibilities and stakes for different strategies of invention and intervention, activism and resistance? We will consider films from the United States as well as the Asian context. Students will produce a creative media project at the end of the semester.

Class Format: seminar
Requirements/Evaluation: attendance and participation; weekly online journal entries (1-2 pages); midterm paper (5-7 pages); final creative project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

COMP 383(S) Representing History
Crosslistings: ENGL 383/COMP 383

Moments of political turmoil expose those highly charged ways in which a culture structures itself around a narrative past. In this course, we will read literary and cinematic works that invoke such moments of upheaval—the French and Russian Revolutions as well as those of 1848, the rise of fascism and the Great Depression of the 1930s, the battle for Algerian independence, the AIDS crisis, among others—in order to explore those fraught narratives of the past. We will consider such issues as the rise of the historical novel, the aesthetics of fascism and of democracy under pressure, fantasies of colonialization, representations of culture, forms of cultural, historical, and sexual disorientation, and the uses of melancholy in representing historical loss. Readings will be drawn from literary works by Gay, Edgworth, Scott, Shelley, Balzac, Eliot, Conrad, Kafka, Babel, Mann, Borges, Stoppard, Kushner, Morrison, Pahlmuk, Bolano, and Philip, and theoretical essays by Kant, Burke, Carlyle, Marx, Benjamin, Adorno, Foucault, de Certeau, Jameson, Lefort and Ahmed. Films will include such works as Eisenstein's October, Reifenstahl's The Blue Light, Wellman's Nothing Sacred and Pontecorvo's The Battle of Algiers.

Class Format: seminar
Requirements/Evaluation: one 8- to 10-page essay and one 10- to 12-page essay
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors

COMP 385(S) Fiction of Beckett and Sebald
Crosslistings: ENGL 385/COMP 386

This seminar explores two of the most original and influential fiction-writers of the last half of the 20th century, Samuel Beckett and W. G. Sebald. The work of both writers was profoundly influenced by World War II and the Holocaust, and their fiction centers on issues of loss and memory, of decay (of bodies, things, cultures, traditions), of reason and imagination, of the past. We will read some of Beckett's short fiction and his novel Molloy, Malone Dies, and The Unnamable; Sebald's major works of fiction, Vertigo, The Emigrants, The Rings of Saturn, and Austerlitz; and a few short stories and novellas by precursors or successors such as Kafka, Borges, and Thomas Bernhard.

Class Format: seminar
Requirements/Evaluation: regular class participation, two 8- to 10-page papers
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors, Comparative Literature majors
Enrollment Limit: 20

COMP 392(F) Wonder
Crosslistings: ENGL 392/COMP 392

We tend to imagine "wonder" as a naïve, wide-eyed response, something quite distinct from the cool and sophisticated act of critical analysis. In this seminar we will ask whether there is a concept, but one that raises provocative questions about the nature and limits of our own, distinctly modern forms of critical engagement. The course examines three historical incarnations of "wonder," each involving complex relations between the aesthetic, philosophical, and social domains: the Renaissance tradition on wonder and the marvelous; the eighteenth-century analysis of the sublime; and twentieth-century accounts of the culture of spectacle. We will consider writers such as Shakespeare, Sir Thomas Browne, Wordsworth, Borges, and W. G. Sebald (all wonderful); painters such as Leonardo and Vermee, the photography of Andreas Gursky and Thomas Struth; films including Lang's Metropolis and Scott's Blade Runner; and critical or philosophical writers, including Aristotle, Descartes, Kant, and Walter Benjamin.

Class Format: seminar
Requirements/Evaluation: three papers totaling 20 pages
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English and Comparative Literature majors

COMP 395(F) Signs of History
Crosslistings: ENGL 395/COMP 395/HIST 395

What is an historical event, and how do such events differ from other occurrences? How has the culture of wonder changed reflected in or produced by literature, art and other cultural forms? Who or what makes history and what is the nature of historical agency? Is history always "written by the victors," as one says, or are there ways of challenging dominant accounts of the past? This seminar will attempt to answer these questions through readings of works of philosophy, poetry, history, prose fiction, film, photography, and cultural criticism that reflect upon the nature of history. Though answers will be multiple, course reading and discussion will in general strive to determine the consequences of understanding history as a site in which reading and writing, experience and narration, and action and interpretation interpenetrate. Readings may include works by Burke, Hegel, Charlotte Smith, de Tocqueville, Marx & Engels, Woolf, and Benjamin.

Class Format: seminar
Requirements/Evaluation: evaluation based on two papers, one 6 and one 10-12 pages in length, and general participation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English, Comparative Literature, History and German majors

COMP 401(F) Senior Seminar: The Antigone Project
Crosslistings: COMP 401/THEA 402
What is the role of the individual in the making and sustaining of democracy? Conversely, what is the state’s role in upholding democratic rule? Such questions—while pressing in our contemporary social and political climate—reside at the core of one of the most foundational works of the ancient Athenian context: Socrates’ Antigone. For the Sophists, the Antigone in Comparative Literature, students will spend the semester exploring in depth the single work of Antigone, approaching it through various lenses: theoretical, historical, social, philosophical, political, literary, performative, and creative. In this course, we will explore the richness and meaning of Antigone by understanding it as performance, social practice, text, translation, and adaptation (in works by artists such as Jean Anouilh, Bertolt Brecht, Seamus Heaney, Giselda Gambaro, Karen Hartman, and Lynn Nottage, and in theory by Aristotle, Hegel, Nietzsche, or Zizek). Assignments will include: four 1- to 2-page writing reflections, a 6- to 8-page midterm paper, an oral presentation, and group collaboration. As a major final assignment, students will work to complete a 15- to 20-page translation or adaptation that envisions their own creative, curatorial, and critical approach to Antigone. This course is a requirement for senior Comparative Literature majors and is also open, with permission of the instructor, to advanced students undertaking the major in units such as Theatre, English, Classics, and Art.

Class Format: seminar
Requirements/Evaluation: four 1- to 2-page writing reflections, a 6-8 page midterm paper, an oral presentation, group collaboration, and a final creative project

COMP 403 Topics in Advanced Arabic: Contemporary Arab Cinema Crosslistings: ARAB 401/COMP 403
The Arab world is a rich treasure trove with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze selected movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

COMP 404 Before We Were Queer: Gay and Lesbian Lives before 1990 (D)
Crosslistings: WGSS 404/COMP 404
Reclaimed by activists in the 1990s as an expression of defiance and pride, the word queer has come to be identified with a wide range of lesbian, gay, bisexual, and transgender identities, as well as entire fields of intellectual theory, popular culture, and political engagement. The past 25 years of queer studies, media, and activism (1990-2015) have led to unprecedented visibility and acceptance for many LGBT people, especially in North America and Western Europe: from breakthroughs in the treatment of HIV/AIDS, to victories for Gays in the Military, Employment Non-Discrimination, and Gay Marriage in 16 US states and another 16 countries around the world. For many, however, this era of queer visibility and acceptance has also sealed the past 2 decades has eclipsed the time before, when those who were pejoratively labeled as queer struggled with homophobic discrimination, isolation, and violence, by seeking one another out in major cities, specific neighborhoods, underground bars, and in the narrative spaces and cultural engagements of variously transmitted infections, and a growing disinterest in queer social spaces beyond the virtual. In this course, we will explore the literary, cinematic, and cultural history of gay and lesbian lives before the 1990s, and consider what has changed and what has not. This course begins with a reading of the late twentieth-century isolation of the closet, (1890s-1950s), the formation of clandestine gay and lesbian communities during and after World War II (1940s-60s), the Stonewall riots and the first decade of Gay Liberation (1969-1979), and the devastating losses and community responses to AIDS (1979-1985). For its critical engagement with cultural diversity, comparative investigation of gender, sexuality, and ethnicity, and historical analysis of queer identities, this course fulfills the goals of the Exploring Diversity Initiative.

Class Format: seminar
Requirements/Evaluation: active participation, two short papers, an oral presentation, and a final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: WGSS 101 or 202, or another 200-level or 300-level course in WGSS, COMP, HIST, ENGL, or AMST, or another courses focusing on gender
Enrollment Preferences: Women’s Gender & Sexuality Studies and Comparative Literature majors, as well as History, English, and American Studies majors. Other sophomores, juniors, and seniors may email Prof Martin (smartin@williams.edu) to inquire
Enrollment Limit: 16

COMP 407(S) Literature, Justice and Community (D)
Crosslistings: ENGL 407/COMP 407
Can we imagine possibilities of justice not dictated by already determined norms? What would a community founded on such a conception of justice look like? Can we imagine community without exclusion? What would the members of such a community look like? Would such a community even be possible? Would it be a community? And might literature in particular help us to say anything about the possibilities of communities, freedom, and justice? This course will look at recent, theoretically-oriented writing on justice and community, with an emphasis on the work of Hannah Arendt, Jacques Derrida, Jean-Luc Nancy and Giorgio Agamben. We will practice reading, discussing, and imaginatively imagining collaborative political work in relation to fiction from Euripides to Kafka, Farhadi, and Louise Erdrich’s poetry, and Farhadi's A Separation. But the course will equally suggest that such contingency is inherent in the concept of justice as such, as there is no possibility of justice bound up with forms of constituting indebtedness that define humans as communal beings. In that sense, contingency and difference mark justice even in its most familiar instances—intimately and closely to home, as it were.

Class Format: seminar
Requirements/Evaluation: one 5-page paper, and a final 15-page paper
Prerequisites: a 300-level ENGL course or permission of instructor

COMP 410 Black Literary and Cultural Theories Crosslistings: AMST 410/COMP 410/ENGL 410/AFR 354
This course will examine the writings of black twentieth- and twenty-first-century Anglophone and Francophone literary and cultural theorists in the African diaspora. We will begin with Sojourner Truth and W.E.B. Du Bois and end with current debates between the "Afro-Pessimists" and "Afro-Optimists." We will be reading writers from the United States, Britain, Africa, the Caribbean, and Europe, moving through the writings of the Harlem Renaissance, Negritude, Pan-Africanism, the Black Arts movement and Black Panthers, the Black Atlantic, and black feminism and queer studies. We will come to see that there is no easy separation between questions of politics (e.g., anti-colonialist, anti-racist, anti-capitalist) and those of aesthetics and culture more broadly.

Class Format: seminar
Requirements/Evaluation: midterm, participation (attendance, discussions, GLOW posts), short paper (4-5 pp.), two response papers (2-3 pp. papers), final project (10-12 pp; analytical paper)
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: AMST majors
Enrollment Limit: 15
Expected Class Size: 10
Distribution Notes: meets Division 2 requirement if registration is under AMST or AFR; meets Division 1 requirement if registration is under COMP or ENGL
Distributional Requirements: Division 2
Other Attributes: AMST Critical and Cultural Theory Electives
Not Offered Academic Year 2018
SEM Instructor: Dorothy Wang
Readings will include novels by M. Shelley, Hogg, Dickens, Eliot, Conrad, and a range of recent critics. We will also watch films by Riefenstahl, Hitchcock and Pontecorvo, and look at paintings, drawings and sculpture by Fragonard, Goya, and Shibonare. Since fanaticism has recently had considerable political currency, we will also examine contemporary accounts that reanimate the debates and concerns of the recent past.

Class Format: seminar
Requirements/Evaluation: two 10- to 12-page essays or one long final essay
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors

COMP 440(S) Wittgenstein and Literary Studies (W)

Wittgenstein is widely regarded as one of the most important figures in twentieth-century philosophy, yet his groundbreaking writings remain perplexingly under-appreciated in the world of literary studies. In this course we will address this shortcoming in two ways. First, we will familiarize ourselves with some of Wittgenstein's key works (and the works of thinkers deeply influenced by him, like Stanley Cavell and Cora Diamond) and try to see what is so radical about them. Second, we'll explore the still untapped potential of Wittgenstein's writings for those of us whose primary home is in the field of literary studies. Topics considered will include: meaning, intention, and interpretation (Derrida, de Man); ethical alterity and the concept of the Other (Levinas); sex, gender, and the body (Butler, Foucault, Moi); ethics of the self, authenticity, and style (Fried, Taylor); modernity and modernism (Pippin); experimental writing (Perloff, Bruns); and the relationship between humans and animals (Wolfe). Some prior experience with philosophy and/or literary theory will obviously be helpful but is not necessary. This course will have much to offer students who are majoring in English, Comparative Literature, or Philosophy. If you have questions about this course and its suitability for you and your intellectual interests, feel free to contact me at brhie@williams.edu.

Class Format: seminar
Requirements/Evaluation: quality of class participation, a final 20- to 25-page research paper
Prerequisites: a 100-level English course or permission of the instructor
Enrollment Preferences: English majors, by seniority; then Comparative Literature and Philosophy majors
Enrollment Limit: 15
Expected Class Size: 15
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: ENGL Criticism Courses, PHIL - Related Courses

SEM Section: 01 MR 01:10 PM 02:25 PM
Instructor: Bernard Rhee

COMP 465 Race and Abstraction

Crosslistings: HIST 392/COMP 465/ENGL 326

Minority artists—and visual artists mainly and, to a lesser degree, musicians—face a difficult “double bind” when creating works of art: the expectation is that they, like their racially marked bodies, will exhibit their difference by means (details, tropes, narratives, themes) of racial difference. Thus, the work is judged primarily in terms of its embodied sociological content (material, empirical) and not by "abstract" standards of aesthetic subtlety, philosophical sophistication, and so on. At the same time, the popular and academic imaginary, minority subjects and artists poets occupy a single abstract signifying category—homogeneous, undifferentiated, “other,” marginalized, non-universal—while racially "unmarked” (white) artists occupy the position of being universal and innate to all. The irony, of course, is that, say, an African American poet's being read as an abstract signifier does not mean that the black subject or writer is seen as capable of engaging in abstract ideas. This course will ask questions about the problem of race and abstraction by looking at the work of various African American and Asian American writers, visual artists and musicians—including Will Alexander, Mei-mei Bensenbrugge, David Hammons, Yayoi Kusama, Tan Lin, Nathaniel Mackey, and Cecil Taylor—as well as critics. We will pay particular attention to formally experimental works. This course will ask questions about the problem of race and abstraction by looking at the work of various African American and Asian American writers, visual artists and musicians—including Will Alexander, John Keene, Mei-mei Bensenbrugge, John Yau, Cecil Taylor, David Hammons, and Yoko Ono—as well as critics. We will pay particular attention to formally experimental works.

Class Format: seminar
Requirements/Evaluation: two papers (one 6-8 pages and the other 10-12 pages), in-class presentation, brief response papers, and class participation
Prerequisites: none if registering under AMST, AFR, or COMP, though a previous lit, art or music class would be helpful; if registering under ENGL, 100-level ENGL course, or 5 on AP English Lit exam or 6 or 7 on the Higher Level IB English exam required
Enrollment Limit: 13
Expected Class Size: 13
took good advantage of the unlimited possibilities available.

Computers and computation are pervasive in our society. They play enormously important roles in areas as diverse as education, science, business, and the arts. Understanding the nature of computation and exploring the great potential of computers are the goals of the discipline of computer science. A sample of the areas of research investigated by the Williams Department of Computer Science alone illustrates the vast range of topics that are of interest to computer scientists and computer professionals today. This includes: the use of computer-generated graphic images in the arts and as a tool for visualization in the sciences and other areas; the protocols that make transmission of information over the Internet possible; the design of revolutionary new computer languages that simplify the process of constructing complex programs for computers; the development of machine learning algorithms that can extract useful and even novel information from data that is too complex for humans to analyze; algorithms that can solve problems that were previously too hard to solve in a reasonable amount of time, just by giving up a little bit of optimality in the solution; the investigation of machine architectures and specific hardware aimed at making computing fast.

The department recognizes that students’ interests in computer science will vary widely. The department attempts to meet these varying interests through: (1) the major; (2) a selection of courses intended for those who are interested primarily in an introduction to computer science; (3) recommended course sequences for non-major who wants a more extensive introduction to computer science in general or who seeks to develop some specific expertise in computing for application in some other discipline.

MAJOR

The goal of the major is to provide an understanding of algorithmic problem solving as well as the conceptual organization of computers and complex programs running on them. Emphasis is placed on the fundamental principles of computer science, building upon the mathematical and theoretical ideas underlying these principles. The introductory and core courses build a broad and solid base for understanding computer science. The more advanced courses allow students to sample a variety of specialized areas including graphics, artificial intelligence, computer architecture, networks, compiler design, and operating systems. Independent study and honors work provide opportunities for students to study and conduct research on topics of special interest.

The major in Computer Science equips students to pursue a wide variety of career opportunities. It can be used as preparation for a career in computing, for graduate school, or to provide important background and techniques for the student whose future career will extend outside of computer science.

MAJOR REQUIREMENTS

Required Courses in Computer Science

A minimum of 6 courses is required in Computer Science, including the following:

- Introductory Courses
  - Computer Science 134 Introduction to Computer Science
  - Computer Science 136 Data Structures and Advanced Programming

- Core Courses
  - Computer Science 237 Computer Organization
  - Computer Science 256 Algorithm Design and Analysis
  - Computer Science 334 Principles of Programming Languages
  - Computer Science 361 Theory of Computation

- Elective Courses
  - Two or more electives (bringing the total number of Computer Science courses to at least 8) chosen from 300- or 400-level courses in Computer Science, Computer Science elective courses (reading, research, and thesis courses) will normally not be used to satisfy the elective requirements. Students may petition the department to waive this restriction with good reason.

Required Courses in Mathematics

Any Mathematics or Statistics course at the 200-level or higher except for MATH 200

Required Proficiency in Discrete Mathematics

Students must demonstrate proficiency in discrete mathematics by either passing the departmental Discrete Mathematics Proficiency Exam or by earning a passing grade in MATH 200

Students considering pursuing a major in Computer Science are urged to take Computer Science 134 and to begin satisfying their mathematics requirements early. Note in particular that the Discrete Mathematics Proficiency requirement is a prerequisite for many advanced courses.

Students who take Computer Science 102T, 107, or 109 may use that course as one of the two electives required for the major in Computer Science. Those who count Computer Science 109 toward the major must select an elective different from Computer Science 371 (Computational Graphics) if they want elective credit. Computer Science 102T, 107, 109, and 134 are not open to students who have taken a Computer Science course numbered 136 or higher.

To be eligible for admission to the major, a student must normally have completed Computer Science 136 as well as fulfilled the Discrete Mathematics Proficiency Requirement by the end of the sophomore year. A Mathematics course at the 200-level or higher (except for MATH 200) must be completed by the end of the junior year. Students are urged to have completed two of the four core courses (Computer Science 237, 256, 334, and 361) by the end of the sophomore year and must normally have completed at least three out of the four core courses by the end of the junior year.

All computer science majors must attend at least twenty Computer Science Colloquia. Juniors and seniors are encouraged to attend at least five during each semester they are present on campus.

With the advance permission of the department, two appropriate mathematics or statistics courses may be substituted for one Computer Science elective course. Appropriate mathematics classes are those numbered 300 or above, and appropriate statistics courses are those numbered 200 or above. Other variations in the required courses, adapting the requirements to the special needs and interests of the individual student, may be arranged in consultation with the department.

LABORATORY FACILITIES

The Computer Science Department maintains two departmental computer laboratories for students taking Computer Science courses, as well as a lab that can be configured for teaching specialized topics such as robotics. The workstations in these laboratories also support student and faculty research in computer science.

THE DEGREE WITH HONORS IN COMPUTER SCIENCE

The degree with honors in Computer Science is awarded to students who have demonstrated outstanding intellectual achievement in a program of study extending beyond the requirements of the regular major. The principal considerations in recommending a student for the degree with honors will be: mastery of core material, ability to pursue independent study of computer science, originality in methods of investigation, and creativity in research. Honors study is highly recommended for those students with strong academic records in computer science who wish to attend graduate school, pursue high-level industrial positions in computing, or who would simply like to experience research in computer science.

Prospective honors students are urged to consult with their departmental advisor at the time of registration in the spring of the sophomore or at the beginning of the junior year to arrange a program of study that could lead to the degree with honors. Such a program normally consists of Computer Science 483 and 494 and a WSP of independent research under the guidance of a Computer Science faculty member, culminating in a thesis that
is judged acceptable by the department. The program produces a significant piece of written work and often includes a major computer program. All honors candidates are required to give an oral presentation of their research in the Computer Science Colloquium in early spring semester.

Students considering honors work should obtain permission from the department before registering in the fall of the senior year. Formal admission to candidacy occurs at the beginning of the spring semester of the senior year and is based on promising performance in the fall semester and winter study units of honors work. Recommendations for the degree with honors will be made for outstanding candidates who require honors. Highest honors will be recommended for students who have displayed exceptional ability, achievement, or originality.

INTRODUCTORY COURSES

Computer Science 134 provides an introduction to computer science with a focus on developing computer programming skills. These skills are essential to most upper level courses in the department. As a result, Computer Science 134 together with Computer Science 136 are required as a prerequisite to most advanced courses in the department. Those students intending to take several Computer Science courses are urged to take 134 early.

Those students interested in learning more about exciting new ideas in computer science, but not necessarily interested in developing extensive programming skills, should consider Computer Science 102 The Socio-Techno Web, 107 Creating Games, or 109 The Art and Science of Computer Graphics.

Students with significant programming experience should consider electing Computer Science 136 (see "Advanced Placement" below). Students are always welcome to contact a member of the department for guidance in selecting a first course.

COMPUTER SCIENCE 134

Introduction to Computer Science covers fundamental concepts in the design, implementation, and evaluation of computer programs including loops, conditionals, functions, elementary data types and recursion. There is a strong focus on constructing correct, understandable and efficient programs. The department offers a family of courses listed under the CSCI 134 heading. Each course provides an introduction to computer science, but the particular topic or programming language employed may vary. Students may only take a single course with the CSCI 134 heading.

STUDY ABROAD

Study abroad can be a wonderful experience. Students who hope to take computer science courses while abroad should discuss their plans in advance with the chair of the department. Students who plan to study away but do not expect to take courses toward the major should work with the department to create a plan to ensure that they will be able to complete the major. While study abroad is generally not an impediment to completing the major, students should be aware that certain computer science courses must be taken in a particular sequence and that not all courses are offered every semester (or every year). Students who wish to discuss their plans are invited to meet with any of the faculty in Computer Science. You can find general study abroad guidelines for Computer Science here.

ADVANCED PLACEMENT

Students with an extensive background in computer science are urged to take the Advanced Placement Examination in Computer Science. A score of 4 or better on the exam is normally required for advanced placement in Computer Science 136.

Students who wish to be placed in Computer Science 136 but who have not taken the Advanced Placement Examination should consult with the department. Such students should have had a good course in computer science using a structured language such as Java.

PLANS OF STUDY FOR NON-MAJORS

The faculty in Computer Science believes that students can substantially enrich their academic experience by completing a coherent plan of study in one or more disciplines outside of their majors. With this in mind, we have attempted to provide students majoring in other departments with options in our department’s course offerings to form two or more collections of courses equivalent to what would constitute a minor at institutions that recognize such a concentration. Students interested in designing such a plan of study are invited to discuss their plans in detail with a member of the faculty. To assist students making such plans, we include some suggestions below.

Students seeking to develop an extensive knowledge of computer science without majoring in the department are encouraged to use the major requirements as a guide. In particular, the four core courses required of majors are intended to provide a broad knowledge of topics underlying all of computer science. Students seeking a concentration in Computer Science are urged to complete at least two of these courses followed by one of our upper-level electives. Such a program would typically require the completion of a total of five Computer Science courses in addition to the Discrete Mathematics Proficiency requirement.

There are several sequences of courses appropriate for those primarily interested in developing skills in programming for use in other areas. For general programming, Computer Science 134 followed by 136 and 256 will provide students with a strong background in algorithm and data structure design together with an understanding of issues of correctness and efficiency. Students of the Bioinformatics program are encouraged to take Computer Science 134 at a minimum, and should also consider Computer Science 136 and 256. The sequence of courses Computer Science 109 and 134 would provide sufficient fall of the senior in computer graphics for many students interested in applying such knowledge either in the arts or sciences. For students requiring more expertise in the techniques of computer graphics, Computer Science 136 and 371 could be added to form a four-course sequence.

There are, of course, many other alternatives. We encourage interested students to consult with the department chair or other members of the department’s faculty.

GENERAL REMARKS

Divisional Requirements

All Computer Science courses may be used to satisfy the Division III distribution requirement.

Alternate Year Courses

Crosslistings: CSCI 102T, 107, 109, 205, 315, 331, 336T, 337T, 339, 354, 356T, 371, 372, 373, 374T, 375, 376, 432, and 434T are each normally offered every other year. All other Computer Science courses are normally offered every year.

Course Numbering

The increase from 100, through 200 and 300, to 400 indicates in most upper level courses in the department. Students who plan to study away but do not expect to take courses toward the major should consult with the department. Courses Open on a Pass-Fail Basis

Students taking a Computer Science course on a pass-fail basis must meet the requirements set for students taking the course on a graded basis.

With the permission of the department, any course offered by the department may be taken pass-fail (with the exception of tutorials), though enrollment in the pass-fail option may not be used to satisfy any of the major or honors requirements. However, with the permission of the department, courses taken in the department beyond those requirements may be taken on a pass-fail basis.

CSCI 102T(F) The Socio-Techno Web (Q)

This course introduces many fundamental concepts in computer science by examining the social aspects of computing. As more and more people use the technologies and services available via the Internet, online environments like Facebook, Amazon, Google, Twitter, and blogs are flourishing. However, so are the problems related to security, privacy, and trust that exist in the real world transfer and become amplified in the virtual world created by the ubiquity and pervasiveness of the Internet. In this course, we will investigate how the social, technological, and natural worlds are connected, and how the structure of the Social Web and networks in general; issues such as virtual identity, personal and group privacy, trust evaluation and propagation, and online security; and the technology, economics, and politics of Web information and online communities. No background in computer science or programming is required or expected.

Class Format: tutorial

Requirements/Evaluation: evaluation will be based on tutorial discussions, presentations, problem sets and labs, a midterm exam, and a final project or paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Enrollment Preferences: first-year students and sophomores who have not previously taken a computer science course

Enrollment Limit: 10

Expected Class Size: 10

Distributional Requirements: Division 3, Quantitative/Formal Reasoning

Other Attributes: SCST Related Courses

Fall 2017

LAB Section: T2 F 11:00 AM 12:15 PM Instructor: Bill Jannen

CSCI 107 Creating Games (Q)

Crosslistings: CSCI 107/ARTS 107

This game is unique as the only broadly successful interactive art form. Video games also co-opt programming and computer graphics as new tools for the modern artist. As a result, games are collaborative interdisciplinary constructs that use computation as a medium
for creative expression. Students analyze and extend contemporary video and board games using the methodology of science and the language of the arts. They explore how computational concepts like recursion, state, and complexity apply to interactive experiences. They then synthesize new game elements using mathematics, programming and both digital and traditional art tools. Emphasis is on the theory of design in modern European board games. Topics covered include experiment design, gameplay balance, minimax, color theory, pathfinding, game theory, composition, and computability.

**Class Format:** lecture and studio  
**Requirements/Evaluation:** evaluation will be based on participation, studio work, and quizzes  
**Extra Info:** may not be taken on a pass/fail basis  
**Prerequisites:** none; no programming or game experience is assumed  
**Enrollment Preferences:** first-year students  
**Enrollment Limit:** 19  
**Expected Class Size:** 19  
**Dept. Notes:** not open to students who completed a Computer Science course number 136 or above; does not count toward the Art Major  
**Materials/Lab Fee:** lab fee of $25 will be added to the student's term bill  
**Distribution Notes:** meets Division 3 requirement if registration is under CSC1. images are uploaded to this course, but do not count toward the ART requirement.

**Distributional Requirements:**  
Division 3, Quantitative/Formal Reasoning  
Other Attributes: FMST Core Courses  
Not Offered Academic Year 2018  
LEC Instructor: Morgan McGuire

**CSCI 109 The Art and Science of Computer Graphics (Q)**  
This course provides an opportunity to develop an understanding of the theoretical and practical concepts underlying 2- and 3-dimensional computer graphics on a personal computer. Students will learn to design programs in a wide range of application areas, from games to spam filters and image editing to scientific simulations. Programming topics include object-oriented programming, control structures, arrays, recursion, and event-driven programming. Students will learn to design programs with an emphasis on designing
design that is both functional and aesthetically pleasing. Students will learn to design programs with an emphasis on designing programs that are both functional and aesthetically pleasing.

**Class Format:** lecture/laboratory  
**Requirements/Evaluation:** evaluation will be based on progress in project work and two examinations.  
**Prerequisites:** this course is open to students who have successfully completed a CSC1 course number 136 or above.  
**Enrollment Preferences:** first-year students and sophomores who have not previously taken a computer science course.  
**Enrollment Limit:** 36  
**Expected Class Size:** 36  
**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning  
**Other Attributes:** FMST Related Courses  
Not Offered Academic Year 2018  
LEC Instructor: Duane Bailey

**CSCI 134(F) Introduction to Computer Science: Objects, Events, and Graphics (Q)**  
Computing is central to many aspects of our lives and the world. This course introduces fundamental ideas in computer science and builds the skills necessary to create computer programs in the Java programming language, with an emphasis on object-oriented programming and user interfaces. Students will learn to design games in a wide range of application areas, from games to spam filters and image editing to scientific simulations. Programming topics include object-oriented programming, control structures, arrays, recursion, and event-driven programming. Students will learn to design programs with an emphasis on designing programs that are both functional and aesthetically pleasing. Students will learn to design programs with an emphasis on designing programs that are both functional and aesthetically pleasing.

Not Offered Academic Year 2018  
LEC Instructor: Duane Bailey

**CSCI 134(S) Introduction to Computer Science: Digital Communication and Computation (Q)**  
A digital revolution has transformed the way we communicate and process information. Digital cameras have replaced film, MP3s have replaced LPs, communications through email, chat systems, and the Web have become part of daily life. This course explores the principles that underlie such digital information processing and communication systems. All digital information processing and communication systems are driven by precise rules or algorithms expressed as computer programs. We will develop an appreciation for the nature and limitations of such algorithms by exploring abstract algorithms and data structures.

**Class Format:** lecture/laboratory  
**Requirements/Evaluation:** evaluation will be based on progress in project work and two examinations.  
**Prerequisites:** none, except for the standard prerequisites for a (Q) course; previous programming experience is not required.  
**Enrollment Preferences:** first-year students and sophomores  
**Enrollment Limit:** 30  
**Expected Class Size:** 30  
**Dept. Notes:** students with prior experience with object-oriented programming should discuss appropriate course placement with members of the department  
**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning  
**Other Attributes:** BGNP Recommended Courses, COGS Interdepartmental Electives  
**Spring 2018**

LAB Section: B5 T 01:00 PM 04:00 PM Instructor: Thomas Murtagh

**CSCI 134(F) Introduction to Computer Science: Algorithmic Problem Solving with Robots (Q)**  
This course provides experience with one fundamental approach to problem solving and begins study of a second. The control of robots serves as an application theme for solving problems. Fundamental concepts include point-top-line design, common algorithms, assertions, program organization, control structures, functions, arrays, and linked lists. Using the C programming language as a vehicle for precise expression of algorithms, students will learn to design algorithms for manipulating data. Students will learn to design algorithms for manipulating data.

**Class Format:** lecture/laboratory  
**Requirements/Evaluation:** evaluation will be based on progress in project work and two examinations.  
**Prerequisites:** none  
**Enrollment Preferences:** first-year students and sophomores  
**Enrollment Limit:** 30  
**Expected Class Size:** 30

**CSCI 134(S) Introduction to Computer Science: Diving into the Deluge of Data (Q)**  
We are surrounded by information: weather forecasts, twitter feeds, restaurant reviews, stock market tickers, music recommendations, among others. This course introduces fundamental computational concepts for representing and manipulating data. Using the programming language Python, this course explores effective ways to organize and transform information in order to solve problems. Students will learn to design algorithms to search, sort, and manipulate data in application areas like text and image processing, social networks, scientific computing, databases, and the World Wide Web. Programming topics covered include object-oriented and functional programming, control structures, types, recursion, arrays, lists, streams, and dictionaries. This course is appropriate for all students who want to create software and learn computational techniques for manipulating and analyzing data. More details are available on the department website, http://www.cs.williams.edu

ultimate outcome of any programming endeavor is likely to be incomplete, unreliable, and un maintainable unless principles methods for software construction are followed. This course explores those methods. Specific topics include: software processes; specifying requirements and verifying correctness; software architectures; concurrent, parallel, and scalable systems; design; testing and debugging; and performance evaluation.

**Class Format:** lecture/lab

**Requirements/Evaluation:** homework, programming assignments, group work, presentations, exams

**Prerequisites:** CSCI 336

**Enrollment Preferences:** current or expected Computer Science majors; those who have not yet taken a project course

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Not Offered Academic Year 2018

**CSCI 331(F) Introduction to Computer Security (Q)**

Program flaws are common. Many of these flaws lie dormant in production code, being either undiscovered or dismissed as benign. However, such flaws frequently offer malicious users an opportunity to alter program behavior. Compilers produce widespread software with little oversight, and vulnerable code is a significant security risk. This class explores common vulnerabilities in computer systems, how attackers exploit them, and how systems engineers design defenses to mitigate them. The goal is to be able to recognize potential vulnerabilities in one’s own software and to practice defensive design. Hands-on experience writing C/C++ code to inspect and modify the low-level operation of running programs is emphasized. Finally, regular reading and writing assignments round out the course to help students understand the cultural and historical background of the computer security “arms race.”

**Class Format:** lecture

**Requirements/Evaluation:** assignments, midterm exam, and final exam

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 136 and CSCI 237

**Enrollment Preferences:** upper-level students

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Fall 2017

**LEC Section:** 01 TR 08:30 AM 09:45 AM Instructor: Daniel Barowy

**CSCI 334(S) Principles of Programming Languages (Q)**

This course examines the concepts and structures governing the design and implementation of programming languages. It presents an introduction to the concepts behind compilers and run-time representations of programming languages; features of programming languages supporting abstraction and polymorphism; and the procedural, functional, object-oriented, and concurrent programming paradigms. Programs will be required in languages illustrating each of these paradigms.

**Class Format:** lecture

**Requirements/Evaluation:** evaluation will be based on weekly project sets and programming assignments, a midterm examination and a final examination

**Prerequisites:** CSCI 136 and CSCI 237

**Enrollment Preferences:** current or expected Computer Science majors

**Enrollment Limit:** 24

**Expected Class Size:** 24

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Spring 2018

**LEC Section:** 01 TR 09:55 AM 11:10 AM Instructor: Daniel Barowy

**LEC Section:** 02 TR 11:20 AM 12:35 PM Instructor: Daniel Barowy

**CSCI 336T Computer Networks (Q)**

This course explores the design and implementation of computer networks. Topics include wired and wireless networks; techniques for efficient and reliable encoding and transmission of data; addressing schemes and routing mechanisms; resource allocation for bandwidth sharing; and security issues. An important unifying theme is the distributed nature of all network problems. We will examine the ways in which these issues are addressed by current protocols such as TCP/IP and 802.11 WiFi.

**Class Format:** tutorial

**Requirements/Evaluation:** evaluation will be based on problem sets, programming assignments, and midterm and final examinations

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 136

**Enrollment Preferences:** current or expected Computer Science majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Not Offered Academic Year 2018

**TUT Instructor:** Thomas Murtagh

**CSCI 337T(S) Digital Design and Modern Architecture (Q)**

This tutorial course considers topics in the low-level design of modern architectures. Course meetings will review problems of designing effective architectures including instruction-level parallelism, branch-prediction, caching strategies, and advanced ALU design. Readings will be taken from recent technical literature. Labs will focus on the development of custom CMOS circuits to implement projects from gates to bit-sliced ALU’s. Final group projects will develop custom logic demonstrating concepts learned in course meetings.

**Class Format:** tutorial

**Requirements/Evaluation:** evaluation will be based on microprocessor design projects, participation in tutorial meetings, and examinations

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 237

**Enrollment Preferences:** current or expected Computer Science majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Spring 2018

**TUT Section:** T1 TBA Instructor: Duane Bailey

**CSCI 339(F) Distributed Systems (Q)**

This course studies the key design principles of distributed systems, which are collections of independent networked computers that function as single coherent systems. Covered topics include communication protocols, processes and threads, naming, synchronization, consistency and replication, fault tolerance, and security. Students also examine some specific real-world distributed systems case studies, including Google and Amazon. Class discussion is based on readings from the textbook and research papers. The goals of this course are to understand how large-scale computational systems are built, and to provide students with the tools necessary to evaluate new technologies after the course ends.

**Class Format:** lecture

**Requirements/Evaluation:** evaluation will be based on homework assignments, programming projects, and exams

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 136 or equivalent programming experience, and CSCI 237, or permission of instructor

**Enrollment Preferences:** current or expected Computer Science majors

**Enrollment Limit:** 30

**Expected Class Size:** 30

**Dept. Notes:** project course

**Distributional Requirements:** Division 3, Quantitative/Formal Reasoning Fall 2017

**LEC Section:** 01 MR 01:10 PM 02:25 PM Instructor: Jeanne Albrecht

**CSCI 353(T) Algorithms and Applications: Opportunities and Risks**

Algorithms are designed to address specific needs, but these algorithms also may have unintended consequences. For example, in her book, *Weapons of Math Description*, Cathy O’Neil describes how big data increases inequality and threatens democracy.* This tutorial will examine approximately five application areas, including problems being addressed, selected details of the underlying algorithmic solutions, effectiveness of the solutions, and potential risks. Initial work for this tutorial will use O’Neil’s book as a starting point. What data are collected for several socially-oriented applications, what algorithms are used, to what extent are results biased, and how might one measure that bias? The selection of later topics will depend upon the interests of students in the class. For each such application, students will first determine a (partial) list of specifications, and attention will then focus on needed hardware, networks, algorithms, and other implementation challenges. With this background, students will explore the current state-of-the-art for modern systems. What results are achieved successfully, how might systems be tested, what risks might arise, what impact the systems might have on various stakeholders, and how might challenges be addressed?

**Class Format:** tutorial

**Requirements/Evaluation:** written work and technical projects

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 256

**Enrollment Preferences:** Computer Science majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 3 Fall 2017

**TUT Section:** T1 TBA Instructor: Henry Walker

**CSCI 356T Advanced Algorithms (Q)**

This course explores advanced concepts in algorithm design, algorithm analysis and data structures. Areas of focus will include algorithmic complexity, randomized and approximation algorithms, geometric algorithms, and advanced data structures. Topics will include combinatorial algorithms for graphs, covering and partitioning problems, algorithms for proximity and visibility problems, linear programming algorithms, approximation schemes, hardness of approximation, search, and hashing.

**Class Format:** tutorial

**Requirements/Evaluation:** evaluation is based on weekly problem sets, several small programming projects, weekly paper summaries, and a small, final project

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** CSCI 256; CSCI 361 is recommended but not required
Expected Class Size: 10
Distributional Requirements: Division 3, Quantitative/Formal Reasoning

CSCI 361(F) Theory of Computation (Q)
Crosslistings: CSCI 361/MATH 361
This course introduces a formal framework for investigating both the computability and complexity of problems. We study several models of computation including finite automata, regular languages, context-free grammars, and Turing machines. These models provide a mathematical basis for the study of computability theory—the examination of what problems can be solved by algorithms and which problems cannot be solved—and the study of complexity theory—the examination of how efficiently problems can be solved. Topics include the halting problem and the P versus NP problem.

Class Format: lecture/laboratory
Requirements/Evaluation: evaluation will be based on problem sets, a midterm examination, and a final examination
Prerequisites: CSCI 256 or both a 300-level MATH course and permission of instructor
Enrollment Preferences: current or expected Computer Science majors

CSCI 371 Computational Graphics (Q)
PhotoShop, medical MRIs, video games, and movie special effects all represent graphically created and manipulated digital images. This course teaches the fundamental techniques behind these applications. We begin by building a mathematical model of the interaction of light with surfaces, lenses, and an imager. We then study the data structures and processor architectures that allow us to efficiently evaluate that physical model.

Students will complete a series of programming assignments for both photorealistic image creation and real-time 3D rendering using C++, OpenGL, and GLSL. These assignments cumulate in a multi-week final project. Topics covered in the course include: projective geometry, ray tracing, bidirectional surface scattering functions, binary space partition trees, matting and compositing, shadow maps, cache management, and parallel processing on GPUs.

Class Format: lecture, with optics laboratory exercises
Requirements/Evaluation: evaluation based on assignments, projects, and exams
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 136 and CSCI 237 or permission of instructor
Enrollment Preferences: current or expected Computer Science majors

CSCI 372T Visual Media Revolution (Q)
We live at the beginning of the second revolution in visual media. Two centuries ago, the camera and the Jacquard loom introduced machines for creating art. By automating the artist's hand, they also forced questions of how objective technique gives rise to subjective meaning and where the border lies between mechanical and human contributions. Those progenitors eventually led to digital film, computer games, and digital content creation for architecture and industrial design. Today, accessible and pervasive computer composes a second revolution. Augmented reality, 3D scanning, 3D printing, virtual reality, and computational photography are exploding into mainstream experience. Where previously digital media refined analog practice through evolution, these are forms that could not exist without computing. As the world seeks the promise of new visual forms, we find that through evolution, these are forms that could not exist without computation.

This tutorial investigates the technology of emerging computational media and explores their impact on the relationship between process and aesthetics.

Class Format: tutorial
Requirements/Evaluation: oral presentations and short papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 256
Enrollment Preferences: current or expected Computer Science majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: FMST Core Courses
TUT Instructor: Morgan McGuire

CSCI 373(S) Artificial Intelligence (Q)
Artificial Intelligence (AI) has become part of everyday life, but what is it, and how does it work? This course introduces theories and computational techniques that serve as a foundation for the study of artificial intelligence. Potential topics include the following: Problem solving by search, Logic, Planning, Constraint satisfaction problems, Uncertainty and probabilistic reasoning, Bayesian networks, and Automated Learning.

Class Format: lecture
Requirements/Evaluation: several programming projects in the first half of the semester and a larger project spanning most of the second half of the semester; readings responses and discussion; midterm examination
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 136 and (CSCI 256 or permission of instructor)
Enrollment Preferences: current or expected Computer Science majors

CSCI 374T(S) Machine Learning (Q)
This tutorial examines the design, implementation, and analysis of machine learning algorithms. Machine Learning is a branch of Artificial Intelligence that aims to develop algorithms that will improve a system's performance. Improvement might involve acquiring new factual knowledge from data, learning to perform a new task, or learning to perform an old task more efficiently or effectively. This tutorial will cover examples of supervised learning algorithms (including decision tree learning, support vector machines, and neural networks), unsupervised learning algorithms (such as Q learning and temporal difference learning). It will also introduce methods for the evaluation of learning algorithms, as well as topics in computational learning theory.

Class Format: tutorial
Requirements/Evaluation: evaluation will be based on presentations, problem sets, programming exercises, empirical analyses of algorithms, critical analysis of current literature
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 136 and CSCI 256 or permission of instructor
Enrollment Preferences: Computer Science majors

CSCI 375(F) Natural Language Processing (Q)
Natural language processing is a branch of computer science that studies methods for analyzing and generating written or spoken human language. It is a rapidly developing field that has given rise to many useful applications including search engines, speech recognizers, and automated personal assistants. Potential topics include information retrieval, information extraction, question answering, and language models.

Class Format: lecture
Requirements/Evaluation: exams, problem sets, and programming projects
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 136 and (CSCI 256 or permission of instructor)
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Other Attributes: COGS Interdepartmental Electives

CSCI 376(S) Human-Computer Interaction
Human-Computer Interaction (HCI) principles are practiced in the design and evaluation of most software, greatly impacting the lives of anyone who uses interactive technology and other products. There are many ways to design and build applications for people, so what methods can increase the likelihood that our design is the most useful, intuitive, and enjoyable? This course provides an introduction to the field of human-computer interaction, through a user-centered approach to designing and evaluating interactive systems. HCI draws on methods from computer science, the social and cognitive sciences, and interaction design. In this course we will use these methods to: ideate and propose design problems, study existing systems and challenges, explore design opportunities and tradeoffs, evaluate and improve designs, and communicate design problems and solutions to varying audiences.

Class Format: lecture
Requirements/Evaluation: course projects, in-class group work/participation, and exams
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 136 and (CSCI 256 or permission of instructor)

Fall 2018

CSCI 432 Operating Systems (Q)
This course explores the design and implementation of computer operating systems. Topics include historical aspects of operating systems development, systems programming, process scheduling, synchronization of concurrent processes, virtual machines, memory management and virtual memory, I/O and file systems, system security, os/architecture interaction, and distributed operating systems.
Class Format: lecture/laboratory
Requirements/Evaluation: evaluation will be based on several implementation projects that will include significant programming, as well as written homework and exams
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 237 and either CSCI 256 or 334
Enrollment Preferences: current or expected Computer Science majors
Enrollment Limit: 24
Expected Class Size: 24
Dept. Notes: project course
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Not Offered Academic Year 2010
LEC Instructor: Jeannie Albrecht

CSCI 434T Compiler Design (Q)
This tutorial covers the principles and practices for the design and implementation of compilers and interpreters. Topics include all stages of the compilation and execution process: lexical analysis; parsing; symbol tables; type systems; scope; semantic analysis; intermediate representations; runtime environments and interpreters; code generation; program analysis and optimization; and garbage collection. The course covers both the theoretical and practical implications of these topics. As a project course, students will construct a full compiler for a simple object-oriented language.
Class Format: tutorial
Requirements/Evaluation: evaluation will be based on presentations, problem sets, a substantial implementation project, and two exams
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: CSCI 237 and 361 (concurrent enrollment is acceptable); CSCI 334 is recommended, but not required
Enrollment Preferences: current or expected Computer Science majors
Enrollment Limit: 10
Expected Class Size: 10
Dept. Notes: project course
Distributional Requirements: Division 3, Quantitative/Formal Reasoning
Not Offered Academic Year 2010

CSCI 493(F) Research in Computer Science
This course provides highly-motivated students an opportunity to work independently with faculty on research topics chosen by individual faculty. Students are generally expected to perform a literature review, identify areas of potential contribution, and explore extensions to existing results. The course culminates in a concise, well-written report describing a problem, its background history, any independent results achieved, and directions for future research.
Class Format: independent study
Requirements/Evaluation: evaluation will be based on class participation, presentations, and the final written report
Enrollment Preferences: open to senior Computer Science majors with permission of instructor
Dept. Notes: this course (along with CSCI W31 and CSCI 494) is required for students pursuing honors, but enrollment is not limited to students pursuing honors
Distributional Requirements: Division 3
Fall 2017
HON Section: 01 TBA Instructor: Jeannie Albrecht

CSCI 494(S) Senior Thesis: Computer Science
Class Format: independent study
Requirements/Evaluation: evaluation will be based on class participation, presentations, and the final written report
Prerequisites: CSCI 493
Enrollment Preferences: open to senior Computer Science majors with permission of instructor
Distributional Requirements: Division 3
Spring 2018
HON Section: 01 TBA Instructor: Jeannie Albrecht

CSCI 497(F) Independent Reading: Computer Science
Directed independent reading in Computer Science.

CONTRACT MAJOR
Contract Major Advisor: RASHANDA BOOKER

Students with the talent and energy for working independently and with the strong support of two primary faculty sponsors may undertake a Contract Major: a coherent study of an interdisciplinary subject not covered by a regularly offered major. Such a major must be in an area suitable to the talents of the faculty in residence and cannot consist of minor modifications to an existing major. A Contract Major also must conform to the structure and have the coherence of a departmental or program major—i.e., it must embody a disciplined cumulative study that moves from an elementary to an advanced level and culminates in a synthesis similar to a senior major course.

The process of constructing a proposal for a Contract Major is both interesting and demanding. As part of that process, students should consider carefully the advantage of working within existing majors or programs, taking note of the considerable intellectual pleasures involved in sharing similar educational experiences with other students working within the same field. Students might also consider whether their interests could be met by completing a regular major and coordinate program, or two majors, or simply by working outside a major field in courses of special interest. Because the Contract Major represents an exceptional opportunity provided for students whose interests cannot be met through existing departmental and interdepartmental majors and programs, it cannot be pursued in conjunction with another major.

Students who wish to explore or propose a Contract Major should consult with the Contract Major Advisor and with potential faculty sponsors as early as possible in the fall semester of the sophomore year and, then—during the sophomore year—follow these procedures:

1) The student must initiate discussion with at least two members of the faculty from differing departments who expect to be in residence during the student’s senior year and who are willing to endorse the Contract Major and undertake a central role in supervising its implementation, criticism, evaluation, and ultimate validation. Since in essence faculty sponsors substitute for the student’s major department, they are expected to play an important role in the Contract Major.
2) The student must develop, in conjunction with the faculty sponsors, a written proposal (forms and guidelines are available in the Dean’s Office) which should contain:
   a) a description of the proposed major area of study and an explanation of the reasons for proposing the Contract Major. A sound and persuasive rationale for the major is crucial for obtaining approval from the Committee on Educational Policy (C.E.P.)
   b) a list of all courses in the proposed major and an explanation for each course choice. A minimum of nine semester courses, one of which must be designated the senior major course (and taken during the senior year), must be included for a Contract Major. Normal rules governing course grades and grade point average apply for entry into and continuation in a Contract Major.
   c) a list of other courses taken or anticipated to meet College distribution requirements, including grades received in courses already completed.
   d) a list of completed courses toward a backup major(s) in case the contract major is not approved.
3) No later than mid-November, the student must meet with the Contract Major Advisor to discuss and further develop the proposal.
4) By the end of the second week of spring semester classes, the
student must submit a complete draft of the proposal to the Contract Major Advisor for feedback. No later than MARCH 15th, the student must submit the final proposal to the Contract Major Advisor. By this date also, the two faculty sponsors must submit their endorsement forms to the Contract Major Advisor. If the student is essentially proposing to transform an existing coordinate program (e.g., Africana Studies, area studies programs, Public Health), into a Contract Major, the chair of that program should also submit to the Contract Major Advisor a statement attesting to the validity of the proposal. THERE WILL BE NO EXTENSIONS AND NO EXCEPTIONS TO THIS DEADLINE. PROPOSALS THAT ARE NOT COMPLETE BY THIS DEADLINE WILL BE REJECTED.

The Contract Major Advisor then conveys the proposal, the two faculty sponsors’ endorsement forms, and recommendations regarding the feasibility and substance of the proposal, for approval by the Committee on Educational Policy. The C.E.P., after consultation with departments and programs substantially affected by a proposal, will vote on each proposal individually and will notify students and sponsors before the spring registration deadline. In making its decisions, the C.E.P. considers the student’s academic record, the coherence and feasibility of the plan of study, and the degree of support expressed by the faculty sponsors and, if appropriate, program chairs.

Subsequent changes in a Contract Major must be requested in writing by the student and approved by the two faculty sponsors as well as by the Contract Major Advisor. Before making changes in the courses originally proposed for the junior and senior years, the new courses need to be approved by the two faculty sponsors and the Contract Major Advisor. During the fall of both the junior and senior years, contract majors should be in touch with their two faculty sponsors and the Contract Major Advisor about their progress in the major and the courses they are taking even if there have not been changes. When the Contract Major Advisor has determined that there has been substantial alteration of the original program, the Contract Major Advisor will forward the student’s written request along with the endorsements from their two faculty sponsors to the C.E.P. for reconsideration.

THE DEGREE WITH HONORS IN THE CONTRACT MAJOR

The route to the degree with honors in the Contract Major is a senior thesis which is either two semesters and a winter study or one semester and a winter study to be determined in consultation with your faculty advisors. The Contract Major with honors shall comprise a minimum of nine semester courses (two-semester thesis) or ten semester courses (one-semester thesis) plus one winter study focused specifically on the thesis work. One semester of independent study undertaken for the thesis may be allowed to fulfill the requirement for a senior major course. Application to enter the honors program is made prior to the time of spring registration in April of the junior year and is based on a solid record of work of honors caliber, normally defined as maintaining at least a B+ average in courses taken for the Contract Major. Students who intend to write a thesis submit a proposal to their two faculty sponsors and the Contract Major Advisor at this time. Students who will be away during the spring semester of their junior year need to make arrangements to apply while they are off campus in the spring. Admission to honors depends on the assessment by the two faculty sponsors and the Contract Major Advisor of the qualifications of the student and the feasibility of the project. If a student is admitted to honors, the student shall determine three readers (at least one of whom shall be a faculty sponsor) in consultation with the Contract Major Advisor.

Honors Contract Majors shall submit a draft of the thesis to the three readers by the end of the winter study of the senior year. The faculty readers shall determine prior to the start of spring semester of the senior year whether the student is to continue as an honors candidate. If not admitted to honors candidacy, the student may elect not to continue further independent study. If admitted to honors candidacy, the student shall submit the finished written thesis or mini-thesis to the three readers no later than the third Monday after spring break. After the thesis has been completed, the student publicly presents their work. The readers shall determine Highest Honors, Honors or no honors.

CMAJ 493 Senior Thesis: Contract Major

Contract Major senior thesis.

Class Format: independent study

Distributional Requirements: Division 1

CRITICAL LANGUAGES (DIV I)

Coordinator: JANE CANOVA

The Critical Languages Program enables students to study important foreign languages relevant to their academic interests but not taught in regular courses at Williams. The program can field a limited number of courses per year*, and it has offered one-year of elementary Hebrew, Hindi, Korean and Swahili thus far. Students work independently with standard language textbooks and audio materials for roughly ten hours per week and attend biweekly group review sessions with tutors who are native speakers. Language faculty from other institutions provide the course syllabus, conduct the exams, and determine the final grades. An organizational meeting for enrolled students is held the first week of each semester.

Interested students must present an application and have it approved before registering for a course. Applications are available during the first two weeks of April and can be obtained from the Coordinator at the Center for Foreign Languages, Literatures, and Cultures, Holland 230 or online at https://cflcl.williams.edu/critical-languages/.

Note that like other elementary language courses, the Critical Languages courses are hyphenated, meaning no credit is given for the first semester until the second semester is successfully completed. Students must normally begin a course in the fall semester. It cannot be taken Pass/Fail. An organizational meeting will be held the first week of each semester.

A consecutive year of intermediate language study will be considered only upon petition of those students completing a full year of elementary study with the Critical Languages Program and as long as a minimum of two students are enrolled to continue their language study.

All courses adhere to the guidelines of the National Association of Self-Instructional Language Programs (NASILP).

* A Critical Languages course will be scheduled only if and when at least two students are accepted for study and provided a native tutor and outside examiner have been contracted.
CRHI 201(F) Hindi  
Elementary Hindi.

CRPO 201(F) Elementary Portuguese  
A course in elementary Portuguese will be offered for one year on a trial basis with Vassar College, to be conducted online with their native-speaking tutor. The course will be given according to the Vassar College academic schedule, which sometimes will not coincide with the Williams academic year schedule.  
Class Format: lecture; course meets 2x/wk for one-hour review sessions  
Requirements/Evaluation: grading is 20% attendance/preparedness, 30% midterm and 50% final; exams are oral and written and administered by an outside consultant  
Extra Info: may not be taken on a pass/fail basis  
Prerequisites: none  
Enrollment Preferences: based on application; application & information period opens the first day after spring break for two weeks; there will be a form online at http://cflc.williams.edu/critical-languages/ or interested students may pick up the form in Hollander 230.  
Enrollment Limit: 8  
Expected Class Size: 2-4  
Distributional Requirements: Division 1  
Fall 2017  
LEC Section: 01  TBA  Instructor: Jane Canova

CRPO 202(S) Elementary Portuguese  
A course in elementary Portuguese will be offered for one year on a trial basis with Vassar College, to be conducted online with their native-speaking tutor. The course will be given according to the Vassar College academic schedule, which sometimes will not coincide with the Williams academic year schedule.  
Class Format: lecture; course meets 2x/wk for one-hour review sessions  
Requirements/Evaluation: grading is 20% attendance/preparedness, 30% midterm and 50% final; exams are oral and written and administered by an outside consultant  
Extra Info: may not be taken on a pass/fail basis  
Prerequisites: CRPO 201  
Enrollment Preferences: based on application  
Enrollment Limit: 8  
Expected Class Size: 2-4  
Distributional Requirements: Division 1  
Spring 2018  
LEC Section: 01  TBA  Instructor: Jane Canova

CRSW 201(F) Swahili  
Elementary Swahili.  
Class Format: independent study  
Extra Info: may not be taken on a pass/fail basis  
Prerequisites: sophomore or higher standing with a GPA of 3.0 or higher; application to the Critical Language Department in early April  
Dept. Notes: minimum of two students in order to schedule the course  
Distributional Requirements: Division 1  
Fall 2017  
LEC Section: 01  TBA  Instructor: Jane Canova

DANCE (DIV I)  
Chair: SANDRA BURTON  
Senior Lecturer: S. BURTON. Artist in Residence: E. DANKMEYER. Artist in Residence in African Music and Performance: T. MUPARUTSA. Artist in Residence: J. PARKER. Visiting Assistant Professor: M. RAHMAN. Accompanists: RZAB, SAUER.  
The purpose of the Dance Department is to educate students in the physical disciplines, cultural traditions and expressive possibilities of dance. The department curriculum offers complementary study in the disciplines of Theater, Visual Art, Africana Studies, American Studies, Asian-American Studies, Global Studies, Gender Studies, Music, and Performance Studies. Dance technique courses include ballet, modern and African Dance. Currently we do not offer a major or concentration, but students seeking to anchor their academic and creative study in dance may pursue the contract major option. More information can be found at https://dean.williams.edu/academic-advising-info/contract-major/  
Courses are offered for academic and/or physical education credit and academic courses are listed at http://catalog.williams.edu/catalog.php?&subinfo=danc  
All students are welcome to audition for membership in the Department's performing companies which include: CoDa, whose members train in and perform works created in the vocabularies of modern dance and ballet; Kusika, an African Dance and percussion ensemble which accepts members as dancers, musicians, and storytellers; Sankofa, the college's step team, whose members present this percussive dance form with both respect to tradition and an energetic exploration of new ideas; and the Zambezi Marimba Band, which performs music from Zambia and Zimbabwe, as well as from around the world. Membership is also possible through invitation by the company directors. Company members study with faculty, guest artists and peers. Student choreographers are also supported.

Fall 2017  
Beginner Ballet  
In this class, students learn the fundamentals of ballet technique, in a manner that is both safe and challenging. This is an absolute beginning course. EVERYONE is welcome! In barre work and center/traveling exercises, the class will begin to develop a working understanding of basic positions of the arms and legs; individual steps such as turns and jumps; and simple combinations. Through repetition and logical progression artistry, musicality, strength and coordination will develop and grow.  
Instructor: Janine Parker  
Prerequisites: none  
Enrollment Limit: 25  
Times: TR 11:20-12:35 (PE credit only; FULL SEMESTER)  
Advanced Ballet  
This is a traditional ballet class composed of barre work followed by center and traveling exercises that incorporate adage, pirouettes, petit and grand allegro. Proper alignment and rigorous but safe application of technique are expected, while at the same time artistry, musicality and dynamics are
Beginner/Intermediate Ballet
This course is for students who have reached a beginning/intermediate level of ballet and are serious about continued progression in their technique and artistry. Classes will follow the traditional ballet class format of barre work proceeding into center work; vocabulary, ability and stamina will be built in a safe but challenging atmosphere. Students will learn to work safely and correctly with their individual abilities.

Instructor: Janine Parker
Prerequisites: Prior experience with ballet training; email permission of and/or placement class with instructor required. *Please note that the class for those without previous ballet training is taught in the Fall Semester.

Enrollment Limit: 20
Times: MR 1:10-2:25 (PE credit only or, for full academic credit, please see description of DANC 203)

Advanced Ballet
This is a traditional ballet class composed of barre work followed by center and traveling exercises that incorporate adage, pirouettes, petit and grand allegro. Proper alignment and rigorous but safe application of technique are expected, while at the same time artistry, musicality and dynamics are explored and encouraged.

Instructor: Janine Parker
Prerequisites: At least 3 years prior experience in ballet, and with permission from instructor

Enrollment Limit: 20
Times: MW 11:00-12:15 (PE credit only; FULL SEMESTER)

DANC 100(F) Foundations in Dance
This course is an introduction to the fundamentals of dance history and techniques focusing on Ballet, Modern dance and African dance and music genres. Regular physical work that provides experience in dance technique, reading, discussion about cultural context and significant innovators, viewing media/live performance and writing about dance are required. This course may not be taken for PE credit.

Dance 1
Fall 2017
STU Section: 01 MR 01:10 PM 02:25 PM Instructors: Janine Parker, Munjulika Rahman, Sandra Burton, Erica Dankmeyer, Tendai Muparutsa
LAB Section: 02 MR 02:35 PM 03:50 PM Instructors: Janine Parker, Munjulika Rahman, Sandra Burton, Erica Dankmeyer, Tendai Muparutsa

DANC 102(F) In the Room Together: An Introduction to Dance, Theatre, and Live Performance
Crosslistings: THEA 102/DANC 102/ARTS 102
This course offers an introduction to the time-based art of performance, focusing on the embodied and social act of collaboration. Students will explore through a rotating studio and seminar-based format methods for creating and approaching art across a range of time-based media (dance, theatre, performance art, social media, spoken-word poetry), providing a foundation for the expression of ideas through performance. Over the term, students will develop, workshop and perform site-specific pieces, culminating in a final public presentation to the community. Through independent research projects, writing and class discussion, students will study makers whose work unsettles the boundaries of dance, theatre, and performance, such as: Anne Bogart, Bill T. Jones, Pina Bausch, Meredith Monk, Lin Manuel-Miranda, E. Patrick Johnson, Young Jean Lee, and Beyoncé.

Evaluation will be based on active participation and progress in the techniques, quality of written assignments and project presentations.

Extra Info: may not be taken for PE credit
Prerequisites: none; experienced dancers who wish to enroll in Dance Department courses may waive this course by taking the department’s advanced placement class or by permission of the faculty

Enrollment Preferences: beginning dancers and students with prior experience

Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division 1

DANC 125 Music and Social Dance in Latin America (D)
Crosslistings: MUS 125/DANC 125
This course offers an introduction to the sounds, movements, and social characteristics of a number of Latin American social dance forms, including samba, salsa, tango, and the African-Surinamese genre, awasa. Through critical listening and viewing assignments, performance workshops, and writings from ethnography, dance studies, Latin American studies and history, students will combine a technical understanding of the musical and choreographic features of these genres with a consideration of their social impact. Among the questions that will drive class discussions are the following: How do sound and movement interrelate? What aspects of gender, sexuality, class, race and ethnicity arise in the performance and consumption of Latin American genres of social dance? How do high political, economic, and personal stakes emerge through activities more commonly associated with play and leisure? No prior music or dance training is necessary, however this course does require regular engagement in interactive and performance-based assignments and workshops.

Class Format: seminar/studio
Requirements/Evaluation: one performance/analysis project, one group project, one paper (10-12 pages)
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: upperclassmen, Music majors, and Latina/o Studies concentrators

Enrollment Limit: 20
Expected Class Size: 15
Dept. Notes: MUS World Music/Ethnomusicology
Distributional Requirements: Division 1, Exploring Diversity
Other Attributes: GBST American Studies Electives, MUS World Music/Ethnomusicology
Not Offered Academic Year 2018
SEM Instructor: Corrinna Campbell

DANC 201(F) African Dance and Percussion
Crosslistings: DANC 201/AFR 201/MUS 220
This course focuses on selected dance and music forms from the African continent for example, Kpanlogo from Ghana, Lamban from Guinea, Senegal and Mali or Bira from Zimbabwe. We will examine their origins (people, history and cultures) and influence beyond geographic perimeter to more fully understand the function of these forms in contemporary times. Students will study movement and percussion and are evaluated on the quality of progress with the selected forms throughout the semester. Forms may not be the same every semester. This course can be taken for academic and/or PE credit.

Class Format: studio/lecture/discussion
Requirements/Evaluation: participation in assignments that include research and performance projects and short papers; students enrolled for PE credit only are not required to do short paper or research assignments; all students must participate in all performance projects

This course may be taken for academic and/or PE credit; see description for more details
Prerequisites: DANC 100 or permission of instructor

Enrollment Preferences: students who have taken Dance 100 or advanced placement
Enrollment Limit: 25
Expected Class Size: 20
Dept. Notes: MUS World Music/Ethnomusicology
Distribution Notes: meets Division 1 requirement if registration is under DANC or MUS; meets Division 2 requirement if registration is under AFR
Distributional Requirements: Division 1
Other Attributes: GBST African Studies Electives, MUS World Music/Ethnomusicology

Fall 2017
STU Section: 01 TF 01:00 PM 03:50 PM Instructors: Sandra Burton, Tendai Muparutsa

DANC 202(S) African Dance and Percussion
Crosslistings: DANC 202/AFR 202/MUS 221
Course continues the investigation of selected music and dance from the African continent. Advancing dance and music skills, deepening understanding of history and context of the material are focus of readings, discussions and projects throughout the semester. Questions we will address include: the impact of religion, travel, immigration, media, politics, and the continued emergence of new forms. Material may include Gum Boots (Iscathulo) from Southern Africa, Juju in Nigeria or Hip Hop in several nations. This course can be taken for academic and/or PE credit.

Class Format: studio/lecture/discussion
Requirements/Evaluation: participation in assignments that include research and performance projects and a short paper; students enrolled for PE credit only are not required to do short paper or research assignments; all students must participate in all performance projects
Prerequisites: none
DANC 203(S) Intermediate Ballet: Technique, Ensemble Work and History
This course is designed for dancers who have achieved an intermediate level of Ballet, and are serious about continuing to build their strength, artistry and understanding of classical ballet. Students will have ballet technique class twice a week. All students will learn and rehearse excerpts from major ballets specific to that semester’s focus. Assigned readings and for viewings will introduce students to various phases of ballet history; students will submit written responses to these assignments. When applicable the class will go on one or two field trips to attend performances by professional ballet companies and will write response papers about the experience. This course may be taken for academic and/or physical education credit and may be repeated for academic credit. PE-only participants must attend the ballet technique portion of the class two times per week for credit.

Class Format: studio/seminar/studio

Requirements/Evaluation: participation and progress throughout the semester; quality of responses to weekly assignments; response papers, when applicable; 1st and 2nd quarter quizzes; and individual performance in midterm and final showings.

Prerequisites: experience in ballet techniques and permission of instructor

Enrollment Preferences: students with demonstrated prior experience

Enrollment Limit: 16

Expected Class Size: 8

Distributional Requirements: Division 1

Spring 2018

DANC 205 Modern Masterworks
In this course students will examine select masterworks and philosophies of key artists in the development of modern dance while simultaneously studying modern dance technique. Students will develop a critical framework for understanding dance by examining works both loved and misunderstood in their respective times. This semester will focus on Martha Graham and a key artist in the development of modern dance while simultaneously exploring these topics through MoMA’s African American Dance Project. Assignments will include written responses, two short papers, and a final project, which can be either a research paper or a creative project. Your dancing abilities are not evaluated; no previous dance experience is required.

Class Format: seminar/studio

Requirements/Evaluation: participation, reading responses, two short papers, and a final project, which can be either a research paper or a creative project

Prerequisites: none

Enrollment Limit: 20

Expected Class Size: 15

Distributional Requirements: Division 1

Not Offered Academic Year 2018

STU

DANC 208 Dance and Diaspora (D)
Both dance and migration involve human bodies in motion, making dance a powerful lens through which to view the experience of diaspora. In this course, we will analyze both continuity and creative reinvention in dance traditions of multiple diasporas, focusing in particular on the African and South Asian diasporas. We will analyze dance as a form of resistance to slavery, imperialism, and colonialism; as an integral component of community formation; as a practice that shapes racial, gendered, religious, and national identity; and as a commodity in the global capitalist marketplace. We will explore these topics through readings, film viewings, discussion, attendance at live performances, and in-class movement workshops, which will happen approximately once every two or three weeks in lieu of discussion. Evaluation is based on participation in discussion, reading responses, two short papers, and a final project, which can be either a research paper or a creative project. Your dancing abilities are not evaluated; no previous dance experience is required.

Class Format: seminar/studio

Requirements/Evaluation: participation, reading responses, two short papers, and a final project, which can be either a research paper or a creative project

Prerequisites: none

Enrollment Limit: 20

Expected Class Size: 20

Distributional Requirements: Division 1, Exploring Diversity

Not Offered Academic Year 2018

DANC 210(S) LET’S MAKE A DANCE: Dance Making and Re-Making
This course is designed for first-time dance makers as well as more experienced dance students who seek the opportunity to practice dance making in a structured setting within which students present work-in-progress in dialogue with others. Any genre or style of dance may be explored in the making and research of the student. Projects are designed primarily to empower the creator to clarify the intent and vision for their work. Central to the course is the process of giving and receiving feedback, which will follow Liz Lerman’s Critical Response Process (CRP). Using the adaptable nature of CRP during the course of the semester, groups will likely evolve their own procedures unique to their group. Projects may include solo and group work, site-specific dance making. Students are expected to rigorously build upon and revise their work(s) by making active use of CRP sessions in three possible roles: artist, respondent, and facilitator. Class will focus on creative thinking by looking at process, body, and other documentation of dance makers in a variety of genres will give further context to our work. Weekly presentation of assignments, active participation in CRP sessions, identifying to the group one's intended goal(s) for the week, written reflection on sessions, and final showing will be required.

Class Format: tutorial; plus one full class meeting per week

Requirements/Evaluation: weekly presentation of assignments, participation in CRP sessions, identifying to the group one's intended goal(s), written reflection on sessions, and final showing.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Limit: 10

Expected Class Size: 10

Distributional Requirements: Division 1

DANC 212T From Stage to Page: Writing about Dance (W)
Crosslistings: DANC 212/THEA 212

We commonly understand the word “choreography” to mean the creation of dance movement. The Greek roots of choreography, however, are choreia – the performance of dance, and diada – a duel or fight. In this course, we will explore this etymology of the word “choreography” by investigating the history of dance journalism and dance criticism. How is dance journalism different from dance criticism? What is the difference between a dance critic and dance journalist? Does dance journalism actually contribute to the life of dance, or is it just an academic exercise? How do we “[read]” dance? In this course, we will define a masterwork? What does the work reflect about its time, its creator, and the place of dance in society? We will examine topics suggested by the works, such as how the body is constructed/deconstructed in, and by, the work; religion and spiritual practice in relation to dance-making; the social identity of the creator and the performers; the uses of music/sound in relation to movement expression, and how we “read” dances as individuals. Weekly viewings, critical and historic readings and discussion will be required along with studio practice.

Class Format: seminar and studio

Requirements/Evaluation: based upon class participation, weekly written response, and a final research presentation

Prerequisites: none

Enrollment Limit: 20

Expected Class Size: 15

Distributional Requirements: Division 1

Not Offered Academic Year 2018

STU

DANC 214(F) Performance Ethnography: Global Approaches to Dance (D)
Crosslistings: DANC 214/GBST 215/AMST 214/THEA 215

The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance. Ethnography is considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) will read ethnographic studies of dance and performance practices from different parts of the world, and (iii) will do field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and will include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance experience required.

Class Format: seminar

Requirements/Evaluation: class participation, reading responses, fieldwork and field notes, short papers, and final essay

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none

Enrollment Limit: none

DANC 216T Journey to Accompong: Diaspora Diaspora (S)
Crosslistings: DANC 216/DVST 216

We will do field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and will include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance experience required.
Expected Class Size: 10
Distribution Notes: meets Division 1 requirement if registration is under DANC or THEA; meets Division 2 requirement if registration is under GBST or AMST
Distributional Requirements: Division 1, Exploring Diversity
Fall 2017
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Munulika Rahman

DANC 214(S) Global Approaches to Dance: Asian-American Identities in Motion (D)
Crosslists: DANC 241/GBST 215/AMST 214/THEA 215
The course aims to explore dance and movement-based performances as mediums through which identities in Asian-American (including South Asian) diasporas are cultivated, expressed, and contested. We will examine theories related to nationalism, post-colonialism and diasporic identity-formation, and learn about the historical contexts in which performances are used to maintain cultural continuity. We will explore how diasporic artists use performances to enforce or resist traditional practices and ideologies.
Throughout the course, we will investigate issues of race, gender, sexuality, ethnicity, nationality, tradition/innovation, agency/resistance, and performance spaces. The course is designed as a discussion-based seminar course but will also include attendance at live performances in the area, film screenings, and discussion and workshops with guest artists. No previous dance experience required.
Class Format: seminar
Requirements/Evaluation: evaluation includes reading responses, participation, short papers, a midterm, and a final essay
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

DANC 215(F) Ways of Knowing: Music, Movement, Memory (D)
This interdisciplinary seminar proceeds from the premise that the body knows. Ongoing colonial modernity is rooted in a racialized hierarchy; the "civilized" life of the mind vs. the "primitive" instincts of the flesh. According to this binary, the body is marked as irrational, sinful, outside of the archive. The body cannot know because the happenings of the body are ephemeral: unlike documents, they don't last. In this course, we will subject this logic to close scrutiny. As performance scholar Diana Taylor asks, "Whose memories, traditions, and claims to history disappear if performance practices lack the staying power to transmit vital knowledge?" In this course, we look to music, movement, and other repertoires as ways of knowing, remembering, and world-making. How does embodied knowledge travel across time and space? How have performance practices served as modes of what Ashinaga cultural theorist Gerald Vizenor calls "survivance" (survival + resistance) for indigenous, queer, and colored communities. Case studies include: the Middle Passage and the syncretic birth of the Blues in the Americas; nomadism, the nation-state, and the migration of Romani music; and the evolution of queer ball culture. Students will engage with a variety of texts (verbal, sonic, visual, kinesthetic) and respond to them critically not only through writing and discussion, but also through their own performance practices.
Class Format: seminar
Requirements/Evaluation: in-class participation, creative/critical responses to texts, final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Limit: 14
Expected Class Size: 14
Distribution Notes: meets Division 1 requirement if registration is under DANC or THEA; meets Division 2 requirement if registration is under AFR or WGSS
Distributional Requirements: Division 1, Exploring Diversity
Fall 2017

DANC 226(S) Gender and the Dancing Body
Crosslists: DANC 226/WGSS 226/AMST 226/THEA 226
This course posits that the dancing body is a particularly rich site for examining the history of gender and sexuality in America and beyond. The aim of the course is to explore ideas related to gender and sexuality as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative values. We will examine a wide range of dance genres, from stage performance to popular forms to dances to enforce or resist traditional practices and ideologies. We will also include attendance at live performances, film screenings, and discussions with guest artists. No previous dance experience required.
Class Format: seminar
Requirements/Evaluation: participation, reading responses, viewing responses, short midterm paper, final paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: WGSS majors
Enrollment Limit: 20
Expected Class Size: 10-15
Distribution Notes: meets Division 1 requirement if registration is under DANC or THEA; meets Division 2 requirement if registration is under WGSS or AMST
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Munulika Rahman

DANC 242 Body of Knowledge
Crosslists: DANC 242/THEA 242
This course will explore the intersections of dance as spectacle and dance as knowledge. The body is the sole mediator of human experience and the site where all creative work resides, so we must integrate movement as a source and resource in our work. We will engage the body as an expressive tool in support of artistic craft and technique and build confidence in our ability to translate creative impulses through physical action. We will focus on the kinetic application of movement in the art-making process, using core energy, dynamics, breath connection, strength, flexibility, stamina, and relaxation techniques through movement.
We will also examine how movement informs creative work across disciplines through readings, films, and museum visits.
Class Format: studio and seminar
Requirements/Evaluation: students will be assessed individually based on active class participation, journals, and final project
Prerequisites: experience in dance, acting, music, or the visual arts, or by permission of the instructor
Enrollment Limit: 12
Expected Class Size: 12
Distributional Requirements: Division 1
Not Offered Academic Year 2018

DANC 267(S) Performance Studies: An Introduction
Crosslists: COMP 267/WGSS 267/THEA 267/DANC 267
The artistic, intellectual, and practical roles of a designer vary widely, from the spectacle of Broadway to the do-it-yourself ingenuity of downtown theater to the conceptual frame of the art gallery space. This course explores the art and techniques of lighting and scenic design for performance. While grounded in a conceptual methodology for development of a design based in textual analysis and research, this course is equally concerned with providing instruction in the techniques and craft necessary for bringing a design to fruition, including: sketching, technical drafting, and model-making; basic physics and theories of color in both surfaces and light; the use of volume, movement, color, intensity, and texture as compositional and storytelling
tools; the variety of stage lighting instruments and theatrical soft goods available, and their uses; writing cues; and the translation of concept into light plots, channel hookups, plans and elevations. We will use a variety of performance texts (plays, musicals, opera, and dance) to discover and explore the creative process from the perspective of scenic and lighting designers. The class format will be a combination of lectures, discussions and studio work.

Class Format: studio

Requirements/Evaluation: comitted class participation and thoughtfull, timely completion of all assignments and projects

Prerequisites: none

Enrollment Preferences: students who have completed THEA 101, 102, 201 or 244, ARTS 100, or equivalent course or practical experience in the performing or studio arts

Enrollment Limit: 10

Expected Class Size: 6

Materials/Lab Fee: fee of up to $125 for materials and copying to be added to student term bill

Distributional Requirements: Division 1

Fall 2017

STU Section: 01 Instructor: TBA

DANC 300(F) Advanced Ballet: Technique, Variations and History

This course is designed for dancers who have achieved an advanced level of ballet technique, Students will have technique classes, followed by, when applicable, men's work, partnering, and pointe work (students who are not on pointe will be able to do the work in regular ballet slippers). Students will also be taught and coached in variations and/or ensemble (corps de ballet) work from existing ballets. Assignments will include readings, viewing of media and performance; students will submit written responses to the assignments. The class may go on one or two field trips to attend performances and will write response papers assignment applicable. This course may be taken for academic and or PE credit and MAY BE REPEATED for academic credit. PE-only participants must attend the ballet technique portion of the class two times per week for credit.

Class Format: seminar/studio

Requirements/Evaluation: based on participation and progress throughout the semester, the quality of assignment responses, and the rehearsal and performance of ballet variations taught during the semester

Prerequisites: a minimum of three years prior training in ballet, and a demonstrated ability to safely keep up with this level of instruction; all students must contact instructor for permission to enroll in class

Enrollment Preferences: students with demonstrated ability and desire to continue rigorous study

Enrollment Limit: 10

Expected Class Size: 5

Distributional Requirements: Division 1

Fall 2017

STU Section: 01 MWF 11:00 AM 12:50 PM Instructor: Janine Parker

DANC 301 Creative Process in Dance

This course examines the methods used to make dances. It is intended for the experienced mover who is ready to focus on theory, methods and the history of composing dance in various traditions. Students will be asked to identify their own methods and engage in research and regular presentations of their creative processes. The class will also study inventive professional choreographers such as Pina Bausch, Ping Chong, George Balanchine, Eiko and Koma, Rennie Harris, Alvin Ailey, Martha Graham, Ronald K. Brown, Lucinda Childs and Merce Cunningham. To more fully understand the context in which these works were created, the class will read essays by dance scholars such as Louis Horst, Liz Lerman, Deborah Jowitt, Sally Banes, and Susan Leigh Foster.

Class Format: seminar/studio

Requirements/Evaluation: evaluation will be based on the quality of participation, assigned projects and presentations

Prerequisites: a minimum of 1-2 years experience as a dancer or choreographer prior to college or 1-2 years experience in a Williams College dance company or similar experience in dance composition

Enrollment Preferences: students who have experience in the process of making dances or using movement as part of making theater and other kinds of performance

Enrollment Limit: 12

Expected Class Size: 12

Distributional Requirements: Division 1 Not Offered Academic Year 2018

DANC 305 Choreographies

By unpacking the idea of choreography, this course will be a laboratory for deepening a student's thinking, writing and practice of performance. Choreography will take on new significance for those who study the dance industry in terms of issues and a methodology for a more informed approach to movement, text and objects as well as our lens for discussing cultural phenomena such as protests, public ceremonies and performance. Cleaning cues from these public spectacles, morning class exercises will focus on a skill or aspect of performance such as physicality, image, affect, duration, obstructions, objects, speech, timing and place. Afternoon sessions will be composition accompanied by a writing practice as each student navigates matters such as identity, representation and social space. How does choreography operate in society at large? What is the line between representing and doing something with one's body? How might performance question or transgress notions of identity? How can writing further performance as an expanded field of thought and action? The semester will culminate in a series of choreographies installed on campus, in locations chosen by the students. We will consider the work of established and emerging artists including: Vito Acconci, Marina Abramovic, Bankey, luciana acorn-carnes, William Pope, Jackson, Jamel M'Hamams, Trishnell Brown, Jan Rosenblit, Guerrilla Girls, Stuart Sherman, Jerome Bel and Visual AIDS. We will also read texts by Andre Lepecki, Michel Foucault, Douglas Crimp, Jennifer Doyle, José Muñoz, Marten Spanberg, Fred Moten, Jenn Joy, Judith Butler, Annie Edwards and Cesare Deleuze. Evaluation will be based on class participation, 2 short response papers, a longer paper and a final choreography.

Class Format: seminar/studio

Requirements/Evaluation: based on class participation, 2 5-page short response papers, a longer 10-page paper and a final choreography

Prerequisites: At least one course in creative writing, dance, voice, music, theater, studio art or performance with live performance. Contact instructor with further questions.

STU Instructor: Will Rawls

DANC 317(F) Black Migrations: African American Performance at Home and Abroad

Crosslistings: AFR 317/COMP 319/DANC 317/ENGL 317/THETA 317/A In this course, students will investigate, critique and define the concepts of migration and diaspora with primary attention to the experiences of African Americans. Using a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and narrates a country's migratory experience. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to Paris to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple performances in the African diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: seminar/discussion

Requirements/Evaluation: evaluation will be based upon class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 10

Distribution Notes: meets Division 2 requirement if registration is under AFR or AMST; meets Division 1 requirement if registration is under COMP, DANC, ENGL or THEA

Distributional Requirements: Division 2

Other Attributes: AFR Core Electives, AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, AMST Space and Place Electives

Fall 2017

SEM Section: 01 W 07:00 PM 09:40 PM Instructor: Rashida Braggs

"Folklore is a mixture of traditions, poems, songs, dances and legends of the people. It is no more than the reflection of the life of the country and if that country develops, there is no reason why the folklore which is the living expression of that country should not develop as well. Modern folklore in present Africa is as authentic as the Africa of old." —Keita Fodeba, founding Artistic Director of Les Ballet Africain, Guinea, West Africa. This course will involve intensive study and musical practice that is rooted in traditional and contemporary sources from the African continent and the Diaspora. We will examine the international impact of countries who achieved independence from Europe in the late 1950’s-1990’s such as Les Ballets Africains, National Dance Company of Senegal, Bembeya Jazz, Ghana Dance Ensemble, and the national dance and music companies of Zimbabwe, Jamaica, Nigeria, and Cuba. Our study will include the impact of artists such as James Brown, Miriam Makeba, Michael Jackson, and Youssou N’Dour, as well as Hip Hop culture and the emergence of new forms of music and dance or modern folklore.

Class Format: studio

Requirements/Evaluation: student progress with music and dance material, quality of assigned short papers, quality of research and performance midterm and final projects

Prerequisites: Any of the following courses offer students preparation or experience DANC 100, 201, 202; MUS 111, 117, 120, 211, 222, 233; AFR 193, 200, 223, experience in a campus-based dance or music ensemble or permission of the instructor

Enrollment Preferences: students who have taken DANC 201, 202 or any of the courses listed in the prerequisites
ECONOMICS (DIV II)
Chair: Professor KENNETH KUTTNER

GENERAL INFORMATION

The primary objectives of the economics major are to develop an understanding of how individuals, organizations and societies meet their material needs. The introductory courses present the fundamental principles of economics at a level that is useful for understanding a wide range of social and policy issues. The core theory courses provide a more rigorous grounding in the tools used in analyzing individual choice, the functioning of markets, and the behavior of output, employment, and inflation. The econometrics course familiarizes students with the methods used to analyze economic behavior and public policy.

The economics major and business careers. The analytical and critical thinking skills taught in economics classes are useful for many careers, including business. The major is not designed to provide pre-professional training in business or management, however. Students from a wide variety of majors, including the sciences and humanities, have gone on to successful business careers. We therefore advise those interested in business to acquire a broad exposure to the arts, social science, and natural sciences, and to major in a subject that engages their interest even if that subject is something other than economics.

Planning for a possible economics major. Given the hierarchical structure of the economics major, students considering the economics major should try to start with ECON 110 during their first year. Since ECON 255 requires a prior statistics course (STAT 201 but STAT 101 is acceptable), prospective economics majors should complete the statistics requirement relatively early in their college careers. Since the 400-level electives typically require at least two of the intermediate core courses (ECON 251, 252, or 252), students are strongly encouraged to complete the core courses by the end of junior year. We prefer that the three intermediate core classes be taken at Williams, so students planning on studying abroad as juniors should aim to complete these courses before departure if possible.

Preparation for graduate school. Graduate study in economics requires considerably more mathematical training than that necessary for the economics major. We advise students who are considering pursuing a Ph.D. to take a minimum MATH 150 or 151, MATH 200 or 300, MATH 250, and MATH 350. We also advise students to consider electives such as ECON 451, 471, 472, or 475 that present advanced perspectives on contemporary economic theory or econometrics. As graduate schools look for evidence of research aptitude, we also encourage those interested in graduate school to pursue the Honors program.

MAJOR REQUIREMENTS

Except for those receiving AP, IB, or A-level credit (see below), nine courses are required for the economics major. These are:

Introductory Courses
- Economics 110 Principles of Microeconomics
- Economics 120 Principles of Macroeconomics. Prerequisite: ECON 110

Elective Courses
- Economics 251 Price and Allocation Theory. Prerequisites: differential calculus (MATH 130 or equivalent) and ECON 110
- Economics 252 Macroeconomics. Prerequisites: differential calculus (MATH 130 or equivalent), ECON 110 and ECON 120
- Economics 255 Econometrics. Prerequisites: differential calculus (MATH 130 or equivalent) plus either STAT 101 or 201. The combination of STAT 201 and 346 will satisfy the ECON 255 major requirement, although not all upper-level electives and seminars accept STAT 201/346 as a prerequisite in lieu of ECON 255. POEC 253 may not substitute for ECON 255 in fulfilling the major requirements, although some electives may accept POEC 253 as a prerequisite in lieu of ECON 255.

The three core classes may be taken in any order. All of the 300- and 400-level electives will require at least one of the core classes, and many of the 400-level seminars require ECON 255.

Credit for AP, IB and A-Level Exams
The ECON 110 requirement will be waived for students who earned a 5 on the microeconomics AP exam, and the ECON 120 requirement will be waived for those who received a 5 on the macroeconomics AP exam. Students satisfying either criterion will receive major credit for the course and may complete the major with either eight or seven additional courses, depending on whether they place out of one or both introductory courses. These would include the introductory course for which no advanced placement was granted (if applicable), the three core classes, and four electives.

Students who received an A on the A-level exam in economics or earned a 6 or 7 on the higher economics IB exam will receive credit for both ECON 110 and 120, and may complete the major with only seven additional courses. These would include the three core classes and four electives.

A score of 5 on the statistics AP exam, a 6 or 7 on the statistics IB exam, or an A on the A-level statistics exam will satisfy the statistics prerequisites for ECON 255.

STUDY ABROAD AND TRANSFER CREDIT

Students may receive credit for college courses taken at other institutions, including those taken as part of a study abroad program. Most economics courses taken elsewhere will qualify for 200-level elective credit. Some may apply towards a specific departmental requirement, including the introductory or core courses, or qualify as a 300-level elective. In order to receive the appropriate credit, courses must be approved ahead of time by the Department's Coordinator for Transfer/Study Abroad Credit. (The Department’s web site will indicate which faculty member is serving as the Coordinator.) You can find general study away guidelines for Economics.
here.

THE DEGREE WITH HONORS IN ECONOMICS

Graduating with honors requires the completion of a substantial piece of independent research. Those with an economics GPA of at least 3.5 are encouraged to apply. In addition, because thesis topics typically make use of empirical methods, those considering writing a thesis are strongly advised to complete Econ 255 before the end of junior year.

The honors program involves working closely with a faculty adviser on a subject related to the faculty member’s area of expertise. The first step in pursuing honors is therefore to develop a thesis proposal in consultation with a faculty adviser. The proposal is then submitted to the Department for approval.

The Department offers both a half-year and a full-year honors program:

- The half-year program entails enrolling in a one-semester seminar plus a WSP class. Students may either enroll in Econ 491 in the fall semester and Econ 30 during winter study, or they may take Econ 30 during winter study and Econ 492 in the spring. Proposals for a fall-spring semester are due in May of the junior year, while those doing a spring-fall semesters are due in December of the senior year. Those choosing the half-year option often base their projects on research that had been initiated in an advanced elective or a seminar, although this is not a requirement.
- The full-year program involves taking Econ 493 in the fall, Econ 31 during winter study, and Econ 494 in the spring. Proposals are due in May of the junior year.

Both programs require students to remain on campus during winter study.

Prospective honors students considering studying abroad during their junior year should complete the core courses and at least one 300-level elective by the end of their sophomore year. They are also urged to begin their collaboration with their intended adviser prior to departure, and to consult with the Director of Research on the options for pursuing honors. (The Department will indicate which faculty member is serving as the Director of Research.)

Further details on the two routes, the application procedure and deadlines are contained in memos sent to economics majors in the spring and fall semesters. Information is also available on the Department’s web site.

In addition to completing the research project, the College Bulletin states that in order to graduate with honors, students must take at least one course in addition to the minimum number required for the major. Students in the full-year program will substitute Econ 493 for an upper-level elective (excluding those numbered 400-490). Students enrolled in the half-year program may not substitute Econ 491 or 492 for one of their electives.

GRADUATE COURSES IN DEVELOPMENT ECONOMICS

Graduate courses given by the Center for Development Economics are open to undergraduates who have taken the prerequisites, although in most cases, permission of instructor is also required. Unless otherwise specified in the course description, these courses can substitute for electives numbered 350-395 in the major.

ECON 110(F,S) Principles of Microeconomics (Q)

This course is an introduction to the study of the forces of supply and demand that determine prices and the allocation of resources in markets for goods and services. It may substitute for Econ 110 as a natural resources. The focus is on how and why markets work, why they may fail to work, and the policy implications of both their successes and failures. The course focuses on developing the basic tools of microeconomic analysis and then applying those tools to topics such as labor, and policy interest such as minimum wage, pollution control, competition policy, international trade policy, discrimination, tax policy, and the role of government in a market economy.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets, quizzes, short essays, two exams, two term papers (one for Bradford’s sections), final exam
Extra Info: This course is required of Economics and Political Economy majors and highly recommended for those non-majors interested in Environmental Studies and Women’s, Gender and Sexuality Studies. It may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Limit: 40
Expected Class Size: 40
Dept. Notes: the department recommends students follow this course with Econ 120 or with a lower-level elective that has Econ 110 as its prerequisite; students may alternatively proceed directly to Econ 251 after taking this introductory course.
Distribution Notes: Prof. Bradford’s section only; intends to use the issue of environmental protection in general, and climate change in particular, as the vehicle for presenting and applying many, though not all, of the economic concepts developed in the course.
Distributional Requirements: Division 2, Quantitative/Formal Reasoning

ECON 203(S) Gender and Economics Crosslistings: ECON 203/WGSS 205

This course uses economic analysis to explore how gender differences can lead to differences in economic outcomes, in both households and the labor market. Questions to be covered include: How does the family function as an economic unit? How do individuals allocate time between the labor market and the household? How have changes in family structure affected women’s employment, and vice-versa? What are possible explanations for gender differences in labor force participation, occupational choice, and earnings? What is the role of government in addressing gender issues in the United States, and will these gender differences in a historical and cross-cultural context?

Class Format: lecture/discussion
Requirements/Evaluation: weekly discussion papers, two midterms, and a final paper and presentation
Prerequisites: ECON 110
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2

ECON 204 Economics of Developing Countries Crosslistings: ECON 204/ENVI 234

The leaders of poor countries almost universally proclaim “economic development” to be their eventual destination, but it is not easy to visualize the journey. Is rapid economic growth sufficient to generate development, or do governments need to pro-actively invest in health and education? When
does globalization facilitate development? Is it true that corruption is a major obstacle? Has the climate crisis upended our traditional models to the point where we need to rethink the notion of development? The class will introduce this set of issues, as analyzed by economists.

**Class Format: lecture/discussion**  
**Requirements/Evaluation:** short essays, mid-term examination, 15-page final paper  
**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** one ECON class at Williams or prior course deemed equivalent by the Economics Department

**Enrollment Preferences:** first-year and sophomore students

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 2

**Other Attributes:** GBST Economic Development Studies Electives, POEC Comparative POEC/Public Policy Courses

**Not Offered Academic Year 2018**

**LEC Instructor:** Anand Swamy

**ECON 205(f) Public Economics**

This course examines the role of the government in a market economy. Three broad issues are considered: under what conditions is government intervention in the economy appropriate? When merited what is the most effective form of intervention? What effects do government policies have on incentives and behavior? After examining these questions from a theoretical perspective, the course will turn to analysis of particular government spending programs in the United States including Social Security, various types of publicly-provided insurance, spending on education, and public assistance for the poor. Finally we will study how the government raises revenue through taxation. We will discuss the principles that guide tax design and consider the effects of the tax code on behavior.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** problem sets, short writing assignments, mid-term and final exam

**Prerequisites:** ECON 110

**Enrollment Limit:** 40

**Expected Class Size:** 30

**Distributional Requirements:** Division 2

**Other Attributes:** PHIL Decision-Making by Institutions + Individuals, POEC U.S. Political Economy + Public Policy Course

**Summer 2017**

**LEC Section:** 01  
**MR 01:10 PM 02:25 PM**  
**Instructor:** Tara Watson

**ECON 209(S) Labor Economics and Policy**

Employment—finding it (or looking for but not finding it), its compensation, and the conditions under which it occurs—is a key concern for most residents of advanced economies throughout their adult lives. Work is the main source of income for the vast majority of working-age adults in these economies, and work-related issues and policies reliably top national policy agendas. Labor economics is the study of these issues—how the level and distribution of skills, wages, employment, and income are determined in the market for labor and how various policies affect this market and its outcomes. In this course we will apply the tools of microeconomics to analyze labor force participation, the allocation of time to market work, migration, labor demand, investment in human capital (on-the-job training), discrimination, GBST Economic development, and unemployment. We will also examine the impact of government programs and mandates such as employment-based tax credits, unemployment insurance, anti-poverty programs, and minimum wages on the labor market. We will devote particular attention to topics of current U.S. policy interest, including immigration, income inequality, and education.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** problem sets, short writing assignments, mid-term and final exam

**Prerequisites:** ECON 110

**Enrollment Preferences:** Economics and Political Economy majors and sophomores

**Enrollment Limit:** 40

**Expected Class Size:** 30

**Distributional Requirements:** Division 2

**Other Attributes:** POEC U.S. Political Economy + Public Policy Course

**Spring 2018**

**LEC Section:** 01  
**TF 01:10 PM 02:25 PM**  
**Instructor:** Lara Shore-Sheppard

**ECON 211 Gender in the Global Economy**

Crosslistings: WGSS 211/ECON 211

This course will present a feminist economic analysis of the global economy, and some of the urgent issues facing women in poor countries. The course will start by developing theoretical resources; these will include feminist critiques of economics theory, work on care labor and the shifting boundaries between markets, governments and households, theories of household bargaining, and discussions of intersectonality and difference. Then we will discuss a series of interlinked issues which may include the contradictory effects of structural adjustment and its successors; the informal sector and the ‘invisible assembly line’; the economics of sex work and global sex trafficking; microcredit; the economics of the HIV/AIDS pandemic. We will finish by looking at community-based activism, non-governmental organizations, and the possibilities for first-world/third-world alliances.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** reaction papers, midterm exam, research paper; participation in class discussion will count for part of the grade

**Extra Info:** additional requirements: two oral responses to seminar papers; two 2-page seminar response papers; one response to a peer’s final paper

**Prerequisites:** none

**Enrollment Preferences:** Women’s, Gender and Sexuality Studies majors

**Enrollment Limit:** 30

**Expected Class Size:** 20

**Distributional Requirements:** Division 2

**Other Attributes:** GBST Economic Development Studies Electives, POEC International Political Economy Courses, WGSS Racial Sexual + Cultural Diversity Courses

**Not Offered Academic Year 2018**

**LEC Instructor:** Kiaraan Honderich

**ECON 213(S) Introduction to Environmental and Natural Resource Economics (Q)**

Crosslistings: ECON 213/ENVI 213

We’ll use economics to learn why we harm the environment and overuse natural resources, and what we can do about it. We’ll talk about whether and how various policies affect this market and its outcomes. We’ll study cost-benefit analysis, pollution in general, climate change, natural resources (like fisheries, forests, and fossil fuels), and energy. We’ll take an economic approach to global sustainability, and study the relationship between the environment and economic growth and trade.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** problem sets, short essays, paper(s); exam(s) are possible

**Prerequisites:** ECON 110

**Enrollment Preferences:** sophomores if course is overenrolled

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 2, Quantitative/Formal Reasoning

**Other Attributes:** EVST Social Science/Poicy, MAST Interdepartmental Electives, POEC Comparative POEC/Public Policy Courses

**Spring 2018**

**LEC Section:** 01  
**MR 01:10 PM 02:25 PM**  
**Instructor:** Matthew Gibson

**ECON 215 Globalization**

Crosslistings: ECON 215/GBST 315

This course will examine the causes and consequences of globalization. This includes studying topics such as trade, immigration, foreign direct investment, and offshoring. The impact of these forms of globalization on welfare, wages, employment, and inequality will be a focal point. Throughout we will rely on economic principles, models, and empirical tools to explain and examine these contentious issues.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** problem sets, a midterm, and a final exam

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** ECON 110

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 2

**Other Attributes:** GBST Economic Development Studies Electives, MAST Interdepartmental Electives, POEC International Political Economy Courses

**Not Offered Academic Year 2018**

**LEC Instructor:** Will Olney

**ECON 219T Global Economic History (W)**

Why did Western Europe—and not China, India, or the Middle East—first experience the Industrial Revolution? Why did Latin America fall behind in the 20th century, while Japan and eventually China boomed? What explains the historical success of the US economy? And why has African economic growth been relatively slow for so long? These and other questions will guide our exploration of global economic development over the past several millennia. We will draw on macroeconomic theory and empirical tools to explain and evaluate the historical roots of the modern global economy. Our focus will be broadly comparative across space and time, with an emphasis on how institutions, resource endowments, culture, technology, and market dynamists help explain economic differences and change around the world. Throughout the course we will draw on micro and macroeconomic theories and concepts to help explain and interpret the historical roots of modern global economy.

**Class Format:** tutorial, weekly one hour meetings in groups of two

**Requirements/Evaluation:** evaluation will be based on five 5- to 7-page papers, critiques of fellow students’ papers, a longer revision of a paper, and engagement in discussion

**Extra Info:** may not be taken on a pass/fail basis, not available for the fifth course option

**Prerequisites:** ECON 110 and ECON 120 or equivalent courses subject to instructor approval

**Enrollment Preferences:** first-year students and sophomores intending to major in Economics and/or History

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 2, Writing Intensive

**Other Attributes:** GBST Economic Development Studies Electives, POEC
ECON 220 American Economic History
This course examines the growth and development of the American economy from the colonial era to the modern period. The emphasis will be on the use of economic theory and quantitative evidence to explore key questions and themes in U.S. history. Topics may include some or all of the following: the development of colonial markets, the economic origins of the U.S., Constitution, immigration, agricultural innovation, industrialization, slavery, government regulation and policymaking, the Great Depression, the changing roles of women and the U.S. economy, politics, with monetary countervailing power of the state and interest, and the place of the United States in the modern global economy. Comparisons will be made to European and non-European experiences when appropriate.
Class Format: lecture/seminar
Requirements/Evaluation: midterm, short problem sets, final, and a research paper
Prerequisites: ECON 110 and 120
Enrollment Limit: 35
Expected Class Size: 35
Distributional Requirements: Division 2
Other Attributes: POEC U.S. Political Economy + Public Policy Course
Not Offered Academic Year 2018
LEC Instructor: Steven Naftziger

ECON 222 Economics of the Arts and Culture
What economic forces influence the behavior of artists, presentation, preservation and ownership of art and culture? Should support for the arts be provided through private patronage, private philanthropy, or public sector support? How does the mechanism of support for art affect the productivity and creativity of the artist? Does art make a good investment for an individual? How do art markets function and what determines the price of art? Why do some art museums and performing arts organizations require donations and public support and operate as non-profit enterprises, while others types of culture production (e.g., television, newspapers) are more profit-oriented? How do changes in economic policy affect the performance and impacts on economic vitality and local economic development of cultural and arts organizations? When these impacts arise, how can (or should they) be used for public policy? This course will use the tools of economic analysis to present a framework for discussion and analysis of these and related questions.
Class Format: lecture/discussion
Requirements/Evaluation: midterm and final exam, two policy memoranda
Prerequisites: ECON 110 and 120
Enrollment Preferences: sophomores and juniors
Enrollment Limit: 35
Expected Class Size: 30
Distributional Requirements: Division 2
Other Attributes: POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
LEC Instructor: Stephen Sheppard

ECON 225T Global Financial Crisis and African Economic Development (W)
Will the global financial crunch create a development crisis for Africa? Just two weeks after the 2008 International Monetary Fund published the most optimistic growth projections for Africa in decades, predicting rapid growth driven by higher commodity prices, stronger agricultural output and the dividends of years of difficult economic reforms. Today, economic analysts are downgrading Africa's growth forecasts in the face of growing poverty and macroeconomic challenges. Food prices have more than doubled in some countries—increasing hunger for the most vulnerable groups. Fuel costs—and subsidy policies in some countries—are creating macroeconomic imbalances, and the global financial crisis is depressing demand for Africa's exports. Private capital flows, which reached record levels until 2007, are expected to decline by $300-400 billion over the next two years, with bank lending falling, portfolio investment declining, and foreign direct investment decreasing. This triple-F crisis—food, fuel and financial—is posing renewed challenges to African leaders trying to tackle the imperatives of economic development and pro-poor and inclusive economic growth. This crisis is raising the costs of reforms in countries reliant on exports and international capital flows, although some countries are managing to maintain at least the status quo. What steps might African leaders take to balance the necessary reforms with initiatives that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of these objects. Working with the advice of WCMA curatorial staff, one or more of these objects will be acquired using the agreed strategy, the object will become part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.
Class Format: seminar
Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be required to submit three papers, dealing with the objects, the likely cost, and the best strategy for acquiring one or more of those objects.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 110 or permission of instructor
Enrollment Preferences: seniors or juniors in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 1 requirement if registration is under ARTH; meets Division 2 requirement if registration is under ECON
Distributional Requirements: Division 1
Fall 2017
SEM Section: 01 M 01:10 PM 03:50 PM Instructor: Kevin Murphy

ECON 228T(F) Water as a Scarce Resource (W)
Crosslistings: ECON 228/ENVI 228
For a variety of reasons including environmental pollution, urbanization, changing agricultural techniques, resource mismanagement, and the consequences of climate change, water is becoming a scarce resource even in areas where it was previously plentiful in the past, and it is likely to become an increasingly scarce resource over the coming decades. In this course we will use basic economic models to consider policy issues relating to water: Is access to water a basic human right, and if so, what market and non-market mechanisms should play a role in water allocation? Does public ownership of water improve the way it is provided and used? Why do societies differ in their approaches to allocating water and are some systems better than others? What does it mean to have a property right to water? Could private property rights to water help address the water pollution problem? How can societies change their water-related property rights, regulations and social institutions when individuals have implicit or explicit rights to the institutional status quo? Who has the right to water that crosses international boundaries? How should societies allocate water across generations?
Class Format: tutorial, meeting with the instructor in pairs for an hour each week; a 5- to 7-page paper every other week (5 in all), prepare and present a written critique of their partners’ papers in alternate weeks, and revise and re-submit one of their papers.
Requirements/Evaluation: evaluation will be based on the quality of the papers and on the quality of the student's oral presentations and commentary on the work of his/her colleagues
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 110 or equivalent
Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies, and to students who are already major or concentrators in those subjects
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 2, Writing Intensive

Fall 2017
LEC Section: T1 TBA Instructor: Ralph Bradburd
ECON 229 Law and Economics (Q)  
This course applies the tools of microeconomic analysis to private (i.e., civil) law. This analysis has both positive and normative aspects. The positive aspects deal with how individuals respond to the incentives created by the legal system. Examples include: how intellectual property law encourages the creation of knowledge; how antitrust laws simultaneously restrict the dissemination of intellectual property; how tort law motivates doctors to avoid malpractice suits; and how contract law facilitates agreements. The normative aspects of the analysis ask whether legal rules enhance economic efficiency (or, more broadly, social welfare). How do legal rules influence our decision-making across different contexts? This course provides a survey of the ways in which these two fields intersect, i.e., behavioral economics. Topics include how individual responses to economic incentives can be influenced by heuristics, framing, social norms, and other cognitive or social incentives. Concurrently, the course will review how these concepts can be (or are already being) applied to firm strategy, development, and public policy contexts. These include the role of behavioral economics in programs geared towards reducing poverty, increasing environmental conservation, and encouraging education investment, among others. The course will also discuss whether and how we ought to judge which behaviors are socially desirable and worth encouraging through policy.

Class Format: lecture  
Requirements/Evaluation: one in-class midterm, one final exam, 3-5 problem sets, 1-2 short papers  
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option  
Prerequisites: ECON 110  
Enrollment Preferences: potential social science majors  
Enrollment Limit: 40

ECON 239 The Economics of Health and Health Care (W)  
In recent years, the intersection between health and economics has increased in importance. The costs of health care have been rising, although recently are rising more slowly in the past few years. A substantial fraction of the United States population lacks health insurance, with the implementation of the Affordable Care Act intended to remedy that problem. In the United States and around the world the rising elderly population is putting increasing pressure on health spending. Globally, the HIV/AIDS pandemic is causing severe economic hardship, and many people lack access to basic health care. More positively, advances in health care have widened the scope of possible treatments. Given the importance of good health for individual well-being, it is not surprising that the care and how to pay for it are central to anxiety for individuals and policymakers worldwide. In this course we will analyze the economics of health by applying standard microeconomic techniques to the problems of health and health care markets. The course focuses on three broad issues: the inputs to health and the demand for health care, the structure and consequences of public and private health insurance, and the supply of health care. Special attention will be devoted to topics of current public policy, including the problems of rising costs and cost containment, health insurance reform, the changing nature of healthcare provision, changing public policies in the Medicare and Medicaid programs, hospital competition, and the determinants and consequences of technological change in medicine.

Class Format: lecture/discussion  
Requirements/Evaluation: several short papers and a final research paper and presentation  
Prerequisites: ECON 110  
Enrollment Preferences: Economics majors, Political Economy majors, and Public Health concentrators  
Enrollment Limit: 19  
Expected Class Size: 19  
Distributional Requirements: Division 2, Writing Intensive

ECON 240T Colonialism and Underdevelopment in South Asia (D) (W)  
British colonial rule in South Asia shaped economy and society in fundamental ways. As resistance to colonial rule emerged in the late nineteenth century, “nationalist” writers developed a critique of its economic impact via taxation, fiscal policy, trade, and many other policies. In their turn, supporters of British rule, “apologists,” argued that British rule had laid the foundation for economic growth by securing property rights, enforcing contracts, and developing infrastructure. The debate between “nationalists” and “apologists” has never quite ended, but after the recent growth of the Indian economy it has lost some of its emotional charge. We will use this opportunity to not only examine the economic questions, but also how power and resistance have shaped the answers provided. Therefore, the course is part of the college’s Exploring Diversity Initiative.

Class Format: tutorial  
Requirements/Evaluation: papers  
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option  
Prerequisites: ECON 110  
Enrollment Preferences: students with a prior class on South Asia  
Enrollment Limit: 10

ECON 242(F) Evaluating the Costs and Benefits of Public Policies
How do we determine whether introducing a new vaccine is cost-effective and worth the investment costs or whether a policy to protect a wetland is worth the sacrifice? Is it possible to assess the economic consequences in terms of benefits and costs of new healthcare regulations? Economists typically use the tools of applied cost-benefit (CBA) and cost-effectiveness analysis (CEA) in order to address such policy questions. The goal of applied economic evaluations is to identify, measure, and value all relevant costs and benefits of new public policy investments and regulations. This course covers both theory and practice of economic appraisal of a public policy (an investment project, regulation, a specific treatment etc.), with an emphasis on health care and public health applications. The CBA and CEA methods covered in the class are widely used in many other policy areas as well, including public transportation, infrastructure investment and environmental policy.

Class Format: lecture
Requirements/Evaluation: Computer lab assignments, active class participation, midterm(s), and final exam
Prerequisites: Econ 110 or equivalent, Math 130 or equivalent
Enrollment Preferences: Econ Majors and Public Health Concentrators
Enrollment Limit: 30
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: EVST Social Science/Policy, PHIL Decision-Making by Institutions + Individuals, POEC Comparative POEC/Public Policy Courses

ECON 251(F,S) Price and Allocation Theory (Q)
A study of the determination of prices and their importance in shaping the allocation of resources and the distribution of income. Subjects include: behavior of households in a variety of settings, such as buying goods and services; saving and labor supply; behavior of firms in various kinds of markets; results of competitive and noncompetitive markets in goods, labor, land, and capital; market failure; government policies as sources of and responses to market failure; welfare criteria; limitations of mainstream analysis.

Class Format: lecture
Requirements/Evaluation: weekly problem sets, one or more quizzes, one or two midterms, one or two short essays, and a final exam
Prerequisites: ECON 110 and MATH 130 or its equivalent
Enrollment Limit: 30
Expected Class Size: 25

ECON 252(F,S) Macroeconomics (Q)
A study of aggregate economic activity: output, employment, inflation, and interest rates. The class will develop a theoretical framework for analyzing economic growth and business cycles. The theory will be used to evaluate policies designed to promote growth and stability, and to understand economic developments in the U.S. and abroad. Instructors may use elementary calculus in assigned readings, exams and lectures.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets and/or written assignments, midterm(s), and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 110 and 120 or MATH 130 or its equivalent
Enrollment Limit: 30
Expected Class Size: 25

ECON 255(F,S) Econometrics (Q)
An introduction to the theory and practice of applied quantitative economic analysis. This course familiarizes students with the strengths and weaknesses of the basic empirical methods used by economists to evaluate economic theory against economic data. Emphasizes both the statistical foundations of regression techniques and the practical application of those techniques in empirical research. Computer exercises will provide experience in using the empirical methods, but no previous computer experience is expected. Highly recommended for students considering graduate training in economics or public policy.

Class Format: lecture
Requirements/Evaluation: problem sets, two midterms, group presentations, and possible additional assignments
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: MATH 130 and STAT 101, or STAT 201 or STAT 202 or equivalent, plus one course in ECON
Enrollment Limit: 30
Expected Class Size: 30
Dept. Notes: students may substitute the combination of STAT 201 and 346 for ECON 255

Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: EVST Methods Courses, PHIL Statistics Courses, POEC Required Courses

ECON 299(F) Economic Liberalism and Its Critics Crosslistings: POEC 250/ECON 299/PCS 238
Economic liberalism holds that society is better off if people enjoy economic freedom and that its key critics point to what they believe this position ignores or what it wrongly assumes, and hence, how it would make bad policy. This course explores the relationship between politics and economics by surveying influential works of political economy. Its first part examines major thinkers in relation to the historical development of capitalism in Western Europe and the United States: the classical liberalism of Adam Smith, Karl Marx's revolutionary socialism, and the reformist ideas of John Maynard Keynes. The second part considers mid-20th-century writers who revise and critique economic liberalism from a variety of perspectives, including Friedrich Hayek, Milton Friedman, Ronald Coase, Arthur Okun, and Albert O. Hirschman. The third part surveys significant recent contributions relevant to the themes of the course, with applications to current public policy issues, including topics such as: power relations and autonomy in the workplace; asymmetric information and social insurance; economic inequality and distributive justice; equality of opportunity; the economics of health care; positional goods and the moral foundations of capitalism; economic nationalism and new trade theory; behavioral economics; finance and financial crises; and rent-seeking. The combination of the historical focus of the early part of the course with discussion of modern policy issues and debates in the latter part of the course permits you to appreciate the ongoing dialogue between classical and contemporary views of political economy.

Class Format: lecture/discussion
Requirements/Evaluation: eight short essays, several short homework assignments, and a final exam
Prerequisites: ECON 110 and 120 or equivalent; PCST 201, 202, 203, or 204 (may be taken concurrently with POEC 250); open to non-majors
Enrollment Preferences: Political Economy majors and sophomores intending a Political Economy major
Enrollment Limit: 35
Expected Class Size: 35

Fall 2017
LEC Section: 01 MR 02:35 PM 03:50 PM Instructor: Jon Bakija

ECON 351 Tax Policy (Q) (W)
The tax system is a major element of public policy. In addition to raising revenue for government expenditure programs, policymakers use the tax system to redistribute resources and to promote a variety of economic policies. For example, the United States tax system has specific rules to encourage savings, education, and investment. Inherently, many tax policy choices involve trade-offs between equity and efficiency. The purpose of this course is to clarify the goals and possibilities of tax policy, mainly through an examination of U.S. federal tax policy (though the search for possible reforms may lead us to examine policies from other countries). The course will examine the choice of the tax base (income or consumption), notations of fairness in taxation (e.g., the rate structure), the choice to tax corporate income separately from personal income, and a variety of specific tax policy issues (e.g., retirement saving, child care, the “marriage” tax, capital gains taxation, and the taxation of housing).

Class Format: discussion/seminar
Requirements/Evaluation: several shorter papers, a research paper, and final exam
Prerequisites: ECON 251 and preferably some familiarity with statistical analysis
Enrollment Preferences: senior Economics majors
features of academic labor markets. Particular attention will be paid to the societal returns from investments in higher education, and the distinctive policies universities. In particular, we'll discuss the logic of non-understanding of how to prevent or minimize crises, analyzing government's role as regulator, supervisor, standard setter, contract enforcer, and owner. In this final part, attention will be devoted to the role of institutions (laws, norms, culture) and incentives in financial sector development.

Class Format: lecture/discussion
Requirements/Evaluation: midterm, participation in class discussion and debates, and a final research paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: for undergraduates, POEC 253 or ECON 255; undergraduate enrollment limited and requires instructor’s permission
Enrollment Limit: 25
Expected Class Size: 20-25
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives, POEC Comparative POEC/Policy Public Courses
Spring 2018
LEC Section: 01 MW 11:00 AM 12:15 PM Instructor: Gerard Caprio

ECON 353(F) Mathematical Economics (Q)
This course integrates economics at the intermediate level with the tools of mathematics. Topics such as univariate and multivariate calculus will be reviewed or introduced in the context of how these mathematical concepts enhance economic analysis. The combination of economic and mathematical analysis will provide a strong foundation for thesis writing and advanced study of economic theory.
Class Format: lecture
Requirements/Evaluation: quizzes, midterm and a final
Extra Info: may not be taken on a pass/fail basis
Prerequisites: Econ 251 and Math 130
Enrollment Limit: none
Expected Class Size: 15
Distributional Requirements: Division 2, Quantitative/Formal Reasoning

Fall 2017
LEC Section: 01 TR 08:30 AM 09:45 AM Instructor: Neal Rappaport
ECON 356(S) Empirical Methods in Macroeconomics (Q)
Macroeconomics and related fields in international finance and development have evolved from traditional empirical techniques known generally as macroeconometrics, which are designed to meet the practical challenges that the data and the empirical questions pose in these fields. The course will introduce the theory and application of these techniques, and students will learn how to implement these techniques using real-world data. The course will examine problems such as lagged dependent variables, instrumental variables, and panel data, and students will apply these techniques to a variety of economic problems.
Class Format: seminar
Requirements/Evaluation: short empirical projects, midterm, term paper
Prerequisites: ECON 252, ECON 255 or equivalent, and ECON 393 (ECON 360 may substitute for 393); not open to students who have taken ECON 471
Enrollment Preferences: Economics majors and CDE fellows
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Spring 2018
SEM Section: 01 MR 01:10 PM 02:25 PM Instructor: Peter Pedroni

ECON 357(T) The Economics of Higher Education
This tutorial will utilize economic theory and econometric methods to understand a variety of issues pertaining to the economics of colleges and universities. In particular, we’ll discuss the logic of non-profit enterprises, the financial structure of a college or university, competition in the market for higher education, policies impacting tuition and financial aid, the individual and societal returns from investments in higher education, and the distinctive features of academic labor markets. Particular attention will be paid to selective liberal arts colleges.
Class Format: tutorial; will meet weekly in groups of two
Requirements/Evaluation: evaluation will be based on six 5- to 7-page papers and on the quality of the student’s oral presentations and commentary on the work of his/her colleagues
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251 and 255 or STAT 346 or permission of instructor
Enrollment Preferences: Economics majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 2
Spring 2018
TUT Section: T1 TBA Instructor: David Zimmerman

ECON 358 International Trade
This class will examine the causes and consequences of globalization. We will cover the classic models of international trade and discuss the empirical applications. Additional topics may include the “asset market approach” to exchange rate determination, the nature and purpose of the exchange market, and how it interacts with the financial market. The course will examine the implications of these models for real-world policy, and students will apply these techniques to a variety of economic problems.
Class Format: lecture/discussion
Requirements/Evaluation: problems sets, short essays, midterm, and final
Prerequisites: ECON 251 and ECON 255
Enrollment Preferences: senior Economics majors
Enrollment Limit: 20
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: POEC International Political Economy Courses
Not Offered Academic Year 2018

ECON 359(S) Developing Country Macroeconomics II: Institutions and Policy Regimes
Crosslistings: ECON 515/ECON 359
Developing countries do not find it difficult to initiate rapid growth, but do find it difficult to sustain it. Growth spurs are often derailed by macroeconomic shocks. As developing countries become increasingly open to trade and financial interactions with the rest of the world, they may become more frequent, and potentially more severe. This course examines the types of macroeconomic institutions and policy regimes that can help developing countries withstand such shocks and sustain economic growth. We will examine fiscal and monetary policies, the role of the central bank, the role of the financial sector, and the role of the government in the economy.
Class Format: lecture
Requirements/Evaluation: two midterms and a final project
Extra Info: not available for the fifth course option
Prerequisites: ECON 505 or 506; undergraduate enrollment limited and requires instructor’s permission
Expected Class Size: 25-30
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives, POEC International Political Economy Courses
Not Offered Academic Year 2018

ECON 360 International Monetary Economics
This course studies the macroeconomic behavior of economies that trade both goods and assets with other economies: international financial transactions, especially the buying and selling of foreign money, the role of central banks and private speculators in determining exchange rates and interest rates, and the effects of international transactions on the overall performance of an open economy. Additional topics may include the "asset market approach" to exchange rate determination, the nature and purpose of certain international institutions, and important current events.
Class Format: lecture
Requirements/Evaluation: for first semester: two hour tests and a choice between a 10-page paper or a comprehensive final; requirements for second semester: two exams and a term paper
Prerequisites: ECON 251 and 252
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives, POEC International Political Economy Courses
Not Offered Academic Year 2018

ECON 361 Political Economy and Economic Development
Crosslistings: ECON 361/ECON 524
This course is intended as an introduction to the newly emerging field of political economy of institutions and development. Key questions of interest include how voters behave and how this affects policy and economic outcomes; the nature, evolution and economic implications of corruption, and how it can be controlled; and the economics of conflict. The course is both to provide students of a sense of the frontier research topics in political economy in developing countries and to introduce them to the methodologies used to investigate these topics.
Class Format: lecture/discussion
Requirements/Evaluation: problem sets, quizzes, presentation, final exam
ECON 362(F) Global Competitive Strategies
This course maintains an IO perspective, acknowledging the centrality of large, multinational firms in determining the pattern and success of a nation's international economic activities (which include, but are not limited to, a wide range of licensing, trade, and diverse configurations of foreign direct investment activities, their implications for competitive advantage, profitability, and social welfare at home and abroad.) In this sense, we depart from international economic approaches that focus foremost on the ways in which a country's factor endowments, domestic market characteristics, and government policies promote or impede such activities, although in our treatment we reflect these factors, but treat them as constraints upon, or resources supporting, the optimizing behaviors of large firms. During and following a course-based module in which we learn and simulate the strategic decision processes used by executives of multinationals, we examine the actual trade and investment decisions of those firms, compare them to the predictions of international trade and multinational IO theories, and seek to explain divergences where they are identified. Throughout, competitive strategy, domestic and foreign rivalries in markets around the world are explored. As well, the costs and efficacy of various government policies in promoting the competitiveness of industries in regional and global markets — and how they are linked to recent work in growth theory — are examined. Further, substantial recent shifts in the nature of foreign direct investment activity, including the changing relative mobility and power of capital and labor, are examined. Finally, welfare propositions and policy ideas for addressing welfare impacts are advanced and discussed. Written cases, class participation, a mid-term exam, and a final paper or exam are expected.

Class Format: lecture/discussion
Requirements/Evaluation: written cases; class participation; a midterm exam; and a final paper or exam
Prerequisites: ECON 251 or ECON 252; and ECON 255 or STAT 201
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives
Fall 2017
LEC Section: 01 M 07:00 PM - 09:40 PM Instructor: Michael Fortunato

ECON 364 Theory of Asset Pricing (Q)
What is the price of risk? How do markets allocate resources across time and uncertain states of the world? This course theoretically studies how markets allocate scarce resource across time and when outcomes are risky. The "goods" in such markets are called "assets" and the "price" is what determines the cost of trading resources across time and across uncertain states of the world. We theoretically investigate how equilibrium determines the price of time, then asset price implications; then asset allocations and prices in the presence of risk; finally implications for new assets.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets and exams
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ECON 251 or ECON 252; and ECON 255 or STAT 201
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2, Quantitative/Formal Reasoning

ECON 366 International Trade and Development
Crosslistings: ECON 516/ECON 366
This course will examine the causes and consequences of globalization and its implications for less-developed countries. We will study the classic models of international trade and discuss the empirical relevance of these theories. In addition, we will focus on other dimensions of globalization that are of particular importance to developing countries such as trade and education, emigration, brain drain, remittances, foreign direct investment, trade policies, infant industry protection, trade and growth, the resource course, and trade agreements.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets, midterm, presentation, and final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251 and ECON 255
Enrollment Preferences: undergraduate enrollment limited and requires instructor's permission
Enrollment Limit: 19
Expected Class Size: 19

ECON 372(S) Incentives and Development Policy
Crosslistings: ECON 521/ECON 372
Why isn't the whole world developed? This course (and instructor) is of the opinion that the difficulty of writing policies right is the key source of inefficiency. The course therefore studies how limited enforcement and asymmetric information constrain development, and about innovative development designs that attempt to overcome these constraints. The course requires a mix of field studies, empirical evidence and theoretical tools from game theory. Incentive and corruption problems in health, education, the regulation of banks and natural monopolies, privatization, budgeting, debt forgiveness, foreign aid, microfinance, climate treaties and ethnic violence will be studied using a unified framework. Note: this course was developed to address issues that arise in the course represented at the CDE.

Class Format: seminar
Requirements/Evaluation: two-hour-long tests and a final policy project
Extra Info: may not be taken on a pass/fail basis
Prerequisites: undergraduate enrollment limited and requires instructor's permission
Enrollment Preferences: intended for CDE Fellows
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2
Spring 2018
SEM Section: 01 TR 11:20 AM - 12:35 PM Instructor: Ashok Rai

ECON 374T Poverty and Public Policy (W)
This course begins with a look at the history of economic thinking, from Adam Smith to Joseph Stiglitz to present-day economists. It leads on to a discussion of the ways in which economists typically analyze issues of poverty. We will also explore the design and functioning of these programs, focusing on questions of how well they work, and how they can be improved. We will examine the classic models of economic development; the impact of poverty, social welfare at home and abroad.) In this sense, we depart from traditional models with Dependent Children/Temporary Assistance to Needy Families, Supplemental Nutrition Assistance Program/Food Stamps, Medicaid/Children's Health Insurance Program, and housing assistance), education programs (Head Start and public primary and secondary education), and parts of the tax code (the Earned Income Tax Credit). We will explore the design and functioning of these programs, focusing on questions economists typically ask when evaluating public policy: Does the policy achieve its goals? Does the design of the policy lead to unintended effects (either good or bad)? Could it be redesigned to achieve its goals in a more cost-effective manner? Through in-depth study of these programs, students will learn how economists bring theoretical models and empirical evidence to bear on important questions of public policy.

Class Format: tutorial
Requirements/Evaluation: evaluation will be based on six 5- to 7-page papers and on the quality of the student's oral presentations and commentary on the work of his/her colleagues
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: POEC 253 or ECON 255 or STAT 346 or permission of instructor
Enrollment Preferences: Economics majors, Political Economy majors
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 2, Writing Intensive
Other Attributes: JLST Interdepartmental Electives, POEC U.S. Political Economy + Public Policy Course
Not Offered Academic Year 2018
TUT Instructor: Lara Shore-Sheppard

ECON 377(F) Inspiration/Perspiration: The Economics of Innovation
From the iron plow, to the steam engine, to modern biotechnology创新，drive economic growth and raises living standards. Whether we are talking about great inventions or small tweaks, the tools of economics can help us understand how new ideas and technologies emerge, spread, and become obsolete. In this course, we will examine the creation of new knowledge, the translation of ideas and scientific advances into practical applications, and the adoption of new technologies by producers and consumers. We will study the incentives that potential innovators face, how these are affected by patents and other forms of intellectual property rights, how entrepreneurs finance and market their innovations and how different market structures can influence the resulting trajectory of innovation and adoption. We will also discuss how government policies can foster the financing and development of innovation. Throughout the course, we will explore historical and contemporary case studies of the creation, exploitation, and consequences of innovation.

Class Format: lecture
Requirements/Evaluation: reading responses and short writing assignments; empirical exercises; constructive contributions to class discussions; a group project and an individual research paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ECON 251 and (ECON 255 or POEC 253)
Enrollment Preferences: junior and senior Economics majors
Enrollment Limit: 25
Expected Class Size: 25
developing countries, the economics of fertility and female labor force topics include the economic consequences of population growth in of demographic measurement and mathematical demography. Selected trends in fertility, marriage, and migration, and the behavior and the economic consequences of demographic change. An Crosslistings: ECON 251, 252 or ECON 253 or ECON 255 or permission of instructor

ECON 381 Global Health Policy Challenges (Q)

Poor health is both a cause and a consequence of poverty. It can trap individuals in poverty and reduce aggregate economic growth. This course will be structured around major global health challenges, including maternal health, HIV/AIDS, tuberculosis, malaria, diarrheal disease, nutritional deficiencies and obesity. For each topic, we will first examine the prevalence of the problem. Then, we will turn to the evidence about the costs, benefits, and effectiveness of existing policy solutions. Finally, we will use this information to debate policy alternatives and develop policy recommendations that take into account budgetary, political, and social constraints.

Class Format: lecture
Requirements/Evaluation: three policy memorandums, a midterm exam and a substantive research paper that includes some analysis of existing data
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ECON 251 and (ECON 253 or ECON 255 or STAT 346) or permission of instructor
Enrollment Preferences: seniors and juniors
Enrollment Limit: 25
Expected Class Size: 25

Other Attributes: PHLH Decision-Making by Institutions + Individuals, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
LEC Instructor: Susan Godlonton

ECON 383 Cities, Regions and the Economy

Cities and urbanization can have significant impacts on the economy. In many developed economies, a process of regional decline is associated with older, industrial cities. In developing countries, the process of economic growth is generally associated with increasing urbanization. Urbanization, with its increasing concentration of population and production, puts particular pressure on markets to allocate resources for provision of land, housing, transportation, labor and public goods. Urbanization can alter the productivity of land, labor, and capital in ways that can improve the welfare of residents and the performance of the broader economy. In this course we will examine these conflicting economic forces and examine some recent research that contributes to our understanding of the difference between regional growth and decline, and the role that the urban structure plays in these processes. We will examine the function of land, housing, transportation, and labor markets in the urban context, and the scope for public policies to improve the performance of the regional economy.

Class Format: lecture/discussion
Requirements/Evaluation: two midterms and a research paper
Prerequisites: ECON 251
Enrollment Preferences: seniors and juniors
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2
Other Attributes: AMST Space and Place Electives, GBST Urbanizing World Electives, POEC U.S. Political Economy + Public Policy Course
Not Offered Academic Year 2018
LEC Instructor: Stephen Sheppard

ECON 384(S) Corporate Finance (Q)

This course analyzes the major financial decisions facing firms. While the course takes the perspective of a manager making decisions about both what investments to undertake and how to finance these projects, it will emphasize the underlying economic models that are relevant for these decisions. Topics include capital budgeting, links between real and financial investments, capital structure choices, dividend policy, and firm valuation. Additional topics may include issues in corporate risk management, corporate governance and corporate restructuring, such as mergers and acquisitions.

Class Format: lecture/discussion
Requirements/Evaluation: class participation, problem sets, short quizzes, short projects such as case write ups, a midterm exam, a final exam and a group project
Prerequisites: ECON 251, 252, and some familiarity with statistics (e.g., ECON 255)
Enrollment Preferences: senior Economics majors
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Spring 2018
LEC Section: 01 TR 11:20 AM 12:35 PM Instructor: William Gentry
ECON 385(S) Games and Information (Q)
This course is a mathematical introduction to strategic thinking and its applications. Ideas such as Nash equilibrium, commitment, credibility, repeated games, incentives and signaling are discussed. Examples are drawn from economics, politics, history and everyday campus life.
Class Format: lecture/discussion
Requirements/Evaluation: exams, problem sets and a substantial final project that involves modeling a real world situation as a game
Extra Info: Students who have taken Math 335 cannot receive credit for this class, may not be taken on a pass/fail basis
Prerequisites: ECON 251 and MATH 150, or permission of instructor
Enrollment Preferences: juniors and seniors
Enrollment Limit: 25
Expected Class Size: 25
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Spring 2018
LEC Section: 01 TF 01:10 PM 02:25 PM Instructor: Ashok Rai
ECON 386 Environmental and Natural Resource Policy (Q)
Crosslistings: ECON 386/EVEN 386/ECON 518
Economic activity often damages the environment significantly, especially in developing countries. Firms may clear-cut valuable forests, while consumers may drive high-pollution vehicles with little thought for the environmental consequences. Economists have proposed a variety of policy remedies, from pollution taxes to tradable permit schemes and restrictions on the quantity of pollution. This course first examines the relative merits of these policies from a theoretical perspective. When pollution damage is uncertain, is it better to use a pollution tax or quantity restriction? Is it worse to use a pollution tax too high or too low? If it then proceeds to the practical issues that attend policy implementation, particularly where state capacity is limited.
What is the best policy when inspectors can be threatened or bribed? When resources required to implement a policy to monitor? Case studies will likely include policies aimed at deforestation, mineral ownership and extraction, particulate air pollution from industry and transportation, and carbon emissions from electricity generation. In evaluating policies we will think about both efficiency and equity concerns. We will focus on both the costs and benefits. (What if environmental regulation only benefits the wealthiest people in a country?) We will also examine the environmental consequences of policies aimed at other problems, like poverty and low education.
Class Format: seminar
Requirements/Evaluation: problem sets, paper, brief presentation, a midterm, and a final exam
Prerequisites: ECON 251, familiarity with statistics
Enrollment Preferences: senior Economic majors and CDE fellows
Enrollment Limit: 25
Expected Class Size: 20
Dept. Notes: satisfies the Environmental Policy requirement for the Environmental studies concentration
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: EVEN Environmental Policy, MAST Interdepartmental Electives, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
ECON 387 Economics of Climate Change (Q)
Crosslistings: ECON 387/ECON 522/ENVI 387
This course introduces an economic view of climate change, including both theory and empirical evidence. Given the substantial changes implied by the current stock of greenhouse gases (GHGs) in the atmosphere, we will begin by looking at impacts on agriculture, health, income, and migration in both poor and rich countries. Next we will study adaptation, including capital investments and behavioral changes. We will examine the sources of climate change, especially electricity generation and transportation, and think about optimal policies. What is the socially optimal amount of climate change? Why have countries had such a hard time agreeing on GHG emissions reductions, and how might we overcome such difficulties? We will consider the growing body of evidence from attempts to regulate GHGs, including China’s pilot cap-and-trade programs, the EU ETS, and the US Clean Power Plan. We will pay particular attention to the political economy of regulation and ways in which policy results have departed from theoretical predictions. Throughout the course we will discuss the limits of the economic approach to climate change, pointing out questions on which economic theory provides little guidance.
Class Format: lecture
Requirements/Evaluation: seven problem sets, midterm, group presentation, final exam
Prerequisites: ECON 251, familiarity with statistics
Enrollment Preferences: senior Economic majors and CDE fellows
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: ENVI Environmental Policy, MAST Interdepartmental Electives, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
LEC Instructor: Matthew Gibson
ECON 388 Urbanization and Development
Crosslistings: ECON 388/ECON 517/ENVI 388
At current rates of growth, the combined population of urban areas in developing countries will double in the next 30 years. The land area devoted to urban use is expected to double even more quickly. The costs of providing housing and infrastructure to accommodate this growth are enormous, but the costs of failing to accommodate urban development may be even larger. The decisions made in response to these challenges will affect the economic performance of these countries and the health and welfare of the urban residents. By affecting the patterns of land use, these decisions will have broader impacts on the entire planet. This course will focus on these challenges. What are the economic forces that drive the process of urbanization, and how does the level of urbanization affect economic development? How are urban areas financed? What role does land use play in economic growth, transportation, public finance and development affected by urbanization? What policy choices are available, and which are most likely to succeed in dealing with the challenges of urban growth?
Class Format: lecture/discussion
Requirements/Evaluation: a midterm and a final exam, plus a paper that evaluates specific policies, problem alternatives, and provides some analysis of relevant data
Prerequisites: ECON 251 plus POEC 253, ECON 255, 502 or 503; undergraduate enrollment limited and requires instructor's permission
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: AMST Space and Place Electives, GBST Urbanizing World Electives, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
LEC Instructor: Stephen Sheppard
ECON 389(S) Tax Policy in Emerging Markets (Q)
Crosslistings: ECON 514/ECON 389
ECON 389 is a course that introduces the economic view of climate change, including both theory and empirical evidence. Given the substantial changes implied by the current stock of greenhouse gases (GHGs) in the atmosphere, we will begin by looking at impacts on agriculture, health, income, and migration in both poor and rich countries. Next we will study adaptation, including capital investments and behavioral changes. We will examine the sources of climate change, especially electricity generation and transportation, and think about optimal policies. What is the socially optimal amount of climate change? Why have countries had such a hard time agreeing on GHG emissions reductions, and how might we overcome such difficulties? We will consider the growing body of evidence from attempts to regulate GHGs, including China’s pilot cap-and-trade programs, the EU ETS, and the US Clean Power Plan. We will pay particular attention to the political economy of regulation and ways in which policy results have departed from theoretical predictions. Throughout the course we will discuss the limits of the economic approach to climate change, pointing out questions on which economic theory provides little guidance.
Class Format: seminar
Requirements/Evaluation: problem sets, paper, brief presentation, a midterm, and a final exam
Prerequisites: ECON 251, familiarity with statistics
Enrollment Preferences: senior Economic majors and CDE fellows
Enrollment Limit: 25

LEC Instructor: Matthew Gibson
ECON 390 Financial Crisis, Causes and Cures (W)
Crosslistings: ECON 390/ECON 536
Financial crises have been with us for as long as banking has existed. Why are crises such a regular fixture of societies, and what can be done to prevent them, or at least reduce their cost? Topics examined include bubbles and asset price inflation, especially as they spill over to the broader macroeconomy; the role of information in banking in normal times and in bank runs; boom-bust cycles in asset markets; international contagion; crisis resolution techniques; and the extensive history of attempts to improve regulation so as to reduce the frequency and cost of crises. Crises in developing and developed economies from the South Sea Bubble to the Euro Crisis will be examined, and the role of political economy factors in their run-up and resolution will be featured.
Class Format: tutorial
Requirements/Evaluation: students will write 5-6 papers during the term,
and will prepare and deliver formal comments on 5-6 papers written by other students.

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option.

**Prerequisites:** ECON 252 and 255

**Enrollment Preferences:** Economics majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 2, Writing Intensive

---

**ECON 397(F) Topics in Macroeconomics**

This seminar explores some of the central topics in macroeconomics, including economic growth, saving and investment, business cycle fluctuations, monetary policy, and financial crises. The first part of the course focuses on long-run economic growth. Using economic theory and evidence, we will attempt to answer some of the most important questions in macroeconomics: Why are some countries poor and other countries rich? What can governments do to achieve faster and environmentally sustainable rates of growth? What are the growth consequences of sustained budget deficits? Understanding the behavior of the economy in the current one is one of the key tasks of macroeconomics. But as we have seen during the recent financial crisis, the short run matters as well. In the second part of the class, we will turn our attention to economic downturns and financial crises. Using historical experience with crises and the associated questions in macroeconomics, we will study a host of short-run topics, including financial markets, the effectiveness of fiscal and monetary policies, consumer expectations, asset price movements, and exchange rates. Because this is an advanced class in macroeconomics, we will approach these issues as practicing economists working with the best possible models and empirical techniques. Students will have an opportunity to apply these methods in a required end-of-term research paper.

**Class Format:** seminar

**Requirements/Evaluation:** midterm, final, class participation and research paper

**Prerequisites:** ECON 251, ECON 252, and (ECON 255 or STAT 346)

**Enrollment Preferences:** senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

---

**ECON 453 Research in Labor Economics and Policy (Q)**

The labor market plays a crucial role in people's lives worldwide. In industrialized countries, most households contain at least one wage earner, and income from working represents the largest component of total income. Thus analyses of the labor market are fundamentally relevant to both public policy and private decision-making. This seminar will explore the structure and functioning of the labor market using theoretical and empirical tools. Topics to be covered include labor supply and demand, minimum wages, labor market effects of social insurance and welfare programs, the collective bargaining relationship, discrimination, human capital, immigration, wage distribution, and unemployment. As labor economics is an intensely empirical subfield, students will be expected to analyze data as well as study the empirical work of others.

**Class Format:** seminar

**Requirements/Evaluation:** a series of short papers and empirical exercises, constructive contributions to class discussion, class presentations, and a 15- to 20-page original empirical research paper (written in stages)

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option.

**Prerequisites:** ECON 251 and ECON 255 or POEC 253

**Enrollment Preferences:** senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2, Quantitative/Formal Reasoning

---

**ECON 455(F) Research in Economic History**

Historical approaches towards understanding economic development and current economic issues are increasingly in vogue. This course will explore new developments in the field of economic history, focusing on how economic historians are using old and new, qualitative and quantitative, data and methods to address questions of historical and current relevance. Along the way, we will consider works from both sides of the history - economics boundary, focusing on the ways that the two disciplines can and should borrow from one another. We will range widely across space and time, but some possible topics to be investigated include technological innovation, labor coercion, migration, trade and capital flows, colonialism, corporate governance, and political economy. Students are expected to not only read and analyze recent scholarship in economic history, but to also produce and present their own original research over the semester.

**Class Format:** seminar

**Requirements/Evaluation:** short writing assignments and empirical exercises, constructive contributions to class discussion, class presentations, and a 15- to 20-page original research paper (written in stages)

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** ECON 251 and ECON 255 or consent of instructor, a senior Economics major

**Enrollment Preferences:** senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

---

**ECON 391T Economic Analysis of Housing Markets (W)**

Housing is one of the most basic of human needs and the housing market is one of the largest, most important and most heavily regulated markets in national economies around the world. Various times economists, policy makers and the general public have regarded the housing market as irrational and malfunctioning in a variety of ways. Why? In this tutorial we will explore and analyze the workings of the housing market. In what ways do housing markets differ from other markets? Why (and how often) do house prices “bubbles” occur? How do mortgage markets function and influence housing markets in countries around the world? In what ways can housing and housing conditions serve as an indicator of quality of life? How do housing markets affect the sustainability of cities? These and other questions will be the focus of reading and discussion for the course.

**Class Format:** tutorial

**Requirements/Evaluation:** each student will write a paper every other week, and comment on his/her partner’s work in the other weeks

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** ECON 251 and 255 or permission of instructor

**Enrollment Preferences:** Economics majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 2, Writing Intensive

---

**ECON 394 European Economic History**

Economic history directly informs our understanding of the process of economic development. With this in mind, this course will explore a series of questions related to the economic development of Europe from the early modern period until today. Why did modern economic growth first occur in Europe, and not in China or the Middle East? Why did the Industrial Revolution occur in Britain and not France? What was the role of colonialism in the acceleration of European growth? What explains the rise and fall of the Soviet economy? What are the causes and consequences of European economic integration since World War II? To answer these and other questions, we will investigate how institutional changes, the evolution of technology, aspects of globalization, and various forms of government intervention have impacted economic growth and living standards in European history, and how those developments have affected the rest of the world. Drawing on a wide variety of empirical and theoretical readings, the course will focus on how economic historians marshalled evidence and construct arguments in ways that borrow from and contribute to other fields of economics.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** class participation, reading responses, short assignments, and a final research paper

**Prerequisites:** ECON 251 or ECON 252 AND (ECON 255 or POEC 253 or STAT 346)

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 2

---

**ECON 397(S) Independent Study: Economics**

Students are invited to apply to undertake independent study on subjects of their own choosing. Students should consult with a faculty member about designing an appropriate project well in advance of spring registration.

**Class Format:** independent study

**Prerequisites:** consent of an instructor and of the department chair

**Dept. Notes:** with permission of the department, an approved project may count as one of the two advanced electives required for the major

**Distributional Requirements:** Division 2

---

**ECON 398(S) Independent Study: Economics**

Students are invited to apply to undertake independent study on subjects of their own choosing. Students should consult with a faculty member about designing an appropriate project well in advance of spring registration.

**Class Format:** seminar

**Prerequisites:** consent of an instructor and of the department chair

**Dept. Notes:** with permission of the department, an approved project may count as one of the two advanced electives required for the major

**Distributional Requirements:** Division 2

---

**ECON 456(F) Income Distribution**

This course will explore a variety of issues concerning the distribution of income and wealth in the United States and other industrialized countries. We will consider questions such as: How is income distributed? How does income distribution change over time? How does income distribution vary across countries? How do different policies affect income distribution? To answer these questions, we will use a variety of empirical tools and data sources. The course will focus on empirical methods and data analysis, and will prepare students for careers in economics or related fields.
This course examines the distribution of income in the U.S., with emphasis on how it is affected by taxes, transfers, and other government programs. Questions to be addressed may include the following: How have wage inequality and the skill premium evolved over time? What factors explain a rising skill premium? How does income differ with race and gender? Why and how is poverty related to education, and what are the factors associated with living in poverty? How do government programs change the distribution of income? How much income mobility is there across generations? Students will become more critical readers of current economic literature, and will apply their skills in conducting empirical research.

**Class Format:** Discussion/tutorial

**Requirements/Evaluation:** Short writing assignments, computer lab exercises, oral presentations, and a 15- to 20-page research paper including an original empirical exercise (written and oral presentation stages)

**Extra Info:** May not be taken on a pass/fail basis. Not available for the fifth course option

**Prerequisites:** ECON 251 and 255 or equivalent

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

**Other Attributes:** POEC U.S. Political Economy + Public Policy Course

**Fall 2017**

**SEM Section:** 01  MR 02:35 PM 03:50 PM  Instructor: Sara LaLumia

**ECON 457 Public Economics Research Seminar**

In this class, students will learn how to read, critically evaluate, and begin to produce empirical research on important and interesting public policy questions. Topics will be selected from across the spectrum of public economics issues and will vary from year to year. Examples of specific topics that may be covered include education, environmental policy, taxation, income inequality, anti-poverty policy, health care policy, the economics of crime and corruption, and the implications of behavioral economics and psychology for public policy (we will typically only cover a subset of these topics). Applications will be drawn mostly from the United States but we will also consider some issues and evidence from other industrialized and developing countries. The course will especially emphasize the critical analysis of empirical evidence on public policy questions.

**Class Format:** A mix of lecture, seminar discussion, and time in a computer lab learning to work with data and estimate econometric models

**Requirements/Evaluation:** A 15- to 20-page research paper (written in stages) that is a combination of a research proposal and an original empirical analysis of data, a series of short papers and empirical exercises, and regular constructive contributions to class discussion

**Prerequisites:** ECON 255, ECON 251, and ECON 120

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Dept. Notes:** Ideal preparation for seniors (or juniors, if offered in the spring) interested in writing an ECON thesis, or for students who want a taste of the kind of original empirical research one would do for a thesis without actually having to commit to a thesis

**Distributional Requirements:** Division 2

**Other Attributes:** POEC U.S. Political Economy + Public Policy Course

**Not Offered Academic Year 2018**

**SEM Instructor:** Jon Bakija

**ECON 458T Economics of Risk**

Risk and uncertainty are pervasive features of economic decisions and outcomes. Individuals face risk about health status and future job prospects. For a firm, developing new products is risky; furthermore, once a product has been successfully marketed, the firm faces product liability risk if it turns out to be unsafe. Investment decisions—from managing a portfolio to starting a business—are also fraught with uncertainty. Some risks are environmental—both manmade problems and natural disasters; other risks include the possibility of terrorist attack and, more locally, issues of campus safety. This tutorial explores both the private market responses to risk (e.g., financial markets, insurance markets, private contracting, and precautionary investments and saving) and government policies towards risk (e.g., regulation, taxation, and the legal system). From a theoretical standpoint, the course will build on expected utility theory, diversification, options valuation, principal-agent models, contract theory, and cost-benefit analysis. We will apply these tools to a wide variety of economic issues such as the ones listed above. One goal of the course is to develop common themes across the disparate topics. Students will be expected to read and synthesize a variety of approaches to risk and uncertainty and apply them to various issues.

**Class Format:** Tutorial; students will meet with the instructor in pairs each week

**Requirements/Evaluation:** Each student will write a paper (or do a short project) every other week, and comment on his or her partner's work in the other weeks; the final two weeks will be reserved for applied projects of the student's choice

**Extra Info:** One of the papers during the term will be revised to reflect feedback from the instructor and the student's partner may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** ECON 252, and 255

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

**ECON 459(S) Economics of Institutions (Q) (W)**

Why are some countries so rich and others so poor? Typical answers to this question have emphasized proximate causes like factor accumulation (i.e., growth rates of physical capital and labor), technological progress, and demographic change. The institutional approach to this question, however, emphasizes the role of sociopolitical and cultural factors, broadly defined, as a fundamental determinant of its economic prosperity. This course will study the historical evolution of social, economic, and political institutions around the world and the role of societal structures. They vary from market-based to command, but most large is primarily conditioned by the social arrangements within which these activities occur. Specifically, these social arrangements invariably generate a structure of private incentives, which can either promote behavior that is conducive to higher productivity or impede such behavior.

**Class Format:** Seminar

**Requirements/Evaluation:** 10-page midterm paper and one 15-page final research paper (both involving applied econometric work); extensive class participation

**Extra Info:** May not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** ECON 251, ECON 252 and (either ECON 255 or STAT 346)

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2, Quantitative/Formal Reasoning, Writing Intensive

**Spring 2018**

**SEM Section:** 01  TF 02:35 PM 03:50 PM  Instructor: Quamrul Ashraf

**ECON 460 Economic Development of China**

This course is an introduction to the economic development of China in the post-1978 period. It seeks to provide an overview of the process by which China grew from an economic backwater to the second largest economy in the world, with a particular focus on rural development and the growing gap between rural and urban incomes; human capital and education; and health and gender in the Chinese context. In addition, the course has the goal of familiarizing students with current economics research on Chinese topics and enabling them to be informed consumers of this research.

**Class Format:** Seminar

**Requirements/Evaluation:** In-class quizzes, literature critique, individual project comprising a presentation and final paper

**Extra Info:** May not be taken on a pass/fail basis

**Prerequisites:** ECON 251 and 255

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2

**Not Offered Academic Year 2018**

**SEM Instructor:** Jessica Lengly

**ECON 463(F) Financial History (W)**

What can we learn from financial history to understand the successes and failures of finance today, and how finance and politics interact? This course opens with a brief survey of some of the major characteristics, issues, and challenges of financial systems today, and then examines earlier experience with financial systems in other countries and historical periods. In this course, we will focus on four key periods: 1) the European colonial era, 2) the age of industrialization, 3) the era of the Great Depression and World War II, and 4) the era of globalization. In each of these periods, we will look at the evolution of the financial system and its role in shaping the economy, including the development of financial markets, institutions, and financial intermediaries.

**Class Format:** Seminar

**Requirements/Evaluation:** Evaluation will consist of 6 short papers or a 3 short papers and one longer research paper (student choice), at least one oral presentation, and contributions to class discussions

**Extra Info:** May not be taken on a pass/fail basis

**Prerequisites:** ECON 251, ECON 252, and (ECON 255 or STAT 346)

**Enrollment Preferences:** Senior Economics majors

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2, Writing Intensive

**Fall 2017**

**TUT Instructor:** William Gentry
ECON 465(S) Pollution and the Labor Market
If your home town has polluted air, does that reduce your wage? Do you work less? Are you less likely to finish high school? These are specific versions of an important general question: how does pollution affect labor market outcomes? The answer matters for individual decisions (where to live) and government policies (air pollution regulations). This seminar begins from theories of optimizing worker behavior in the presence of pollution. Building on this foundation, we will evaluate new empirical research into the impacts of pollution on human capital, labor supply, and productivity. We will also study the impact of pollution regulations on wages and employment. Included papers will cover both developed and developing countries.

Class Format: seminar
Requirements/Evaluation: class discussion, presentation of reading, 15- to 20-page empirical paper (written in stages) and accompanying short presentation
Extra Info: not available for the fifth course option
Prerequisites: ECON 251 and ECON 255
Enrollment Preferences: Economics majors, seniority
Enrollment Limit: 15
Expected Class Size: 15

ECON 467T Development Successes (W)
Crosslistings: ECON 531

Although living standards in most of the worlds poor countries have increasingly fallen behind those of the rich industrial countries, a relatively small number of countries that were quite poor in the middle of the last century have achieved dramatic improvements in their incomes since then. These development successes include countries such as Japan, the four dragons (Hong Kong, Korea, Singapore, and Taiwan), the MIT economies (Malaysia, Indonesia, and Thailand), the Asian giants of China and India, as well as non-Asian economies such as Botswana, Chile, and Turkey. This tutorial will explore why these countries have apparently succeeded where many other poor countries have failed. A particular focus of the course will be on extracting insights from the experiences of these success cases about the broad development strategies that have been advocated over the past 50 years by scholars as well as by the international financial institutions.

Class Format: tutorial
Requirements/Evaluation: students will write five papers during the term, and will prepare and deliver formal comments on five papers written by other students
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 204 or 501
Enrollment Preferences: senior Economics majors
Enrollment Limit: 10
Effective Class Size: 10

ECON 468(S) Your Money or Your Life: Health Disparities in the United States

A 25-year-old man living in a high-income household can expect to live 10 years longer than his low-income counterpart. There are also stark differences in mortality and health by education, employment status, race, immigrant status, region, and gender. This class will explore many of the potential explanations for health disparities, including access to insurance and health care, health behaviors, stress, environmental exposure, and intergenerational transmission of health. We will emphasize causal inference and focus on assessing the quality of evidence. We will also investigate how government policies contribute to or ameliorate health disparities in the U.S.

Class Format: seminar, including frequent small group meetings, a computer lab, and a poverty simulation
Requirements/Evaluation: evaluation includes class discussion, oral presentations, 4-6 short response papers, two 5-page critiques of published articles, and one 15-page original empirical research paper
Prerequisites: ECON 251 and ECON 255 or equivalent, or permission of instructor
Enrollment Preferences: senior Economics majors
Enrollment Limit: 19
Expected Class Size: 19

ECON 470 The Indian Economy: Development and Social Justice (D)
The Indian economy has grown rapidly in the last two decades, but poverty has declined relatively slowly. Is this the persistence of long-standing historical disadvantages such as those faced by Scheduled Castes and Tribes? Does this reflect failures in policy, in areas such trade or labor law? Or is the quality of governance, especially the level of corruption, primarily to blame? We will use the traditional theoretical and quantitative methods of an economist to consider these questions, and, consistent with the goals of the Exploring Diversity Initiative, consider how they are shaped by power, privilege, and the social location of the narrator.

Class Format: seminar
Requirements/Evaluation: five short response papers (5 pages), and empirical research project
Prerequisites: ECON 251 and 255, or equivalent, or permission of instructor
Enrollment Preferences: junior and senior majors
Enrollment Limit: 19
Effective Class Size: 15
Distributional Requirements: Division 2, Exploring Diversity

ECON 471(F) Topics in Advanced Econometrics (Q)
The course uses both a practical and conceptual/theory-based approach, with emphasis on methods of structural identification of dynamics in VARs and cointegration analysis, both in conventional time series and panel time series which contain spatial dimensions. The course is well suited for students considering empirically oriented honors theses in fields that employ these techniques, such as macro, finance, growth, trade and development. It is also well suited for students majoring in economics, statistics or mathematics who simply wish to expand their econometrics training and understanding to a more advanced level, or wish to pursue an econ honors thesis in econometrics.

Class Format: seminar
Requirements/Evaluation: periodic homework assignments, midterm exam, term paper
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 252 and ECON 255 (or equivalent)
Enrollment Preferences: students with strong math backgrounds, and to students intending to write an honors thesis
Enrollment Limit: 10
Expected Class Size: 10

ECON 472 Macroeconomic Instability and Financial Markets (Q)
This advanced course in macroeconomics and financial theory attempts to explain the role and the importance of the financial system in the global economy. The course will provide an understanding of why there is financial intermediation, how financial markets differ from other markets, and the equilibrium consequences of financial activities. Rather than separating off the financial world from the rest of the economy, we will study financial equilibrium as a critical element of economic equilibrium. An important topic in the course will be studying how financial market imperfections amplify and propagate shocks to the aggregate economy. The course may cover the following topics: the determination of asset prices in general equilibrium; consequences of limited asset markets for economic efficiency; theoretical foundations of financial contracts and justifications for the existence of financial intermediaries; the roles of financial frictions in magnifying aggregate fluctuations and creating persistence and instability; the role of leverage and financial innovation in fueling financial crises.

Class Format: seminar
Requirements/Evaluation: evaluation will be based on problem sets, exams, and potentially student presentations
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251 and ECON 252
Enrollment Preferences: Economics majors
Enrollment Limit: 19
Effective Class Size: 15
Distributional Requirements: Division 2, Quantitative/Formal Reasoning

ECON 473 Microfinance (D) (Q)
Crosslistings: ECON 473/ECON 520

Unequal access to finance (loans, savings, insurance) contributes to the persistence of poverty in developing countries. We review evidence that the entrepreneurial poor lack access to loans, and discuss how repayments can be enforced even when borrowers do not have collateral. We discuss how recent innovations in micro-insurance can reduce vulnerability. We will study the role of government and donors in equalizing financial access through subsidies or targeting. Finally, we shall explore how microfinance can empower women within the household. Readings include current empirical and theoretical research in development economics. This course is an EDI course because it critically analyzes how microfinance interventions can reduce inequality both within and across households.
ECON 475 Advanced Microeconomic Theory (Q)
The course will cover classical topics in voting, resource allocation, matching, bargaining and time voting, basic elements of auction design. It will discuss important models and fundamental results in the area. Formal arguments and proofs will be an integral part of the course. The course will be useful for those planning to attend graduate school in economics. It will also be appropriate for students with a basic mathematical background and an interest in economic theory.

Class Format: lecture
Requirements/Evaluation: problem sets, paper, midterm, and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: MATH 150 or equivalent
Enrollment Preferences: senior Economics majors
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2, Exploring Diversity, Quantitative/Formal Reasoning
Not Offered Academic Year 2018
SEM Instructor: Ashok Rai

ECON 476(S) Behavioral Economic Theory and Methods
Behavioral economics emphasizes that economic models should account for the psychological plausibility of its assumptions and consequences. The course will review the ways in which prominent behavioral economics models of decision-making differ from classical models found in standard microeconomics textbooks, including how these differences add to our understanding of the psychological processes that underlie economics. The material will also introduce the many methods that behavioral economists use in order to empirically verify these models, including laboratory experiments, biological measures field experiments, and observational data. Class discussions will cover implications of these behavioral models to many disparate contexts such as consumer marketing, public sector policy, asset markets, and managerial decision-making. Students will be expected to analyze academic papers that are appropriate for advanced undergraduate economics students.

Class Format: seminar
Requirements/Evaluation: one 15-25 page paper, 2-3 short writing assignments, class discussions and/or presentations
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251 and (ECON 255 or STAT 346)
Enrollment Preferences: Economics majors
Enrollment Limit: 17
Expected Class Size: 17
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Not Offered Academic Year 2018
LEC Instructor: Arunava Sen

ECON 477 Economics of Environmental Behavior (Q)
Crosslistings: ECON 477/ENVI 376
A community maintains a fishery: a firm decides whether to get a green certification; you choose to fly home or stay here for spring break: behaviors of people and firms determine our impact on the environment. We’ll use economics to model environmental behavior and to consider how policies can help or hurt the environment. Topics we’ll study include: voluntary conservation, social norms and nudges, firm responses to mandatory and voluntary programs, and boycotts and divestment.

Class Format: seminar
Requirements/Evaluation: short essays and empirical exercises, class participation, oral presentation(s), and a final original research paper using an experiment, existing data, or theory
Extra Info: may not be taken on a pass/fail basis
Prerequisites: ECON 251 and (ECON 255 or STAT 346)
Enrollment Preferences: senior Economics majors
Enrollment Limit: 19
Expected Class Size: 15
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: ENVI Environmental Policy, EVST Social Science/Policy, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
SEM Instructor: Sarah Jacobson

ECON 491(F) Honors Seminar: Economics
This course is a research seminar for candidates for honors in economics. Each candidate prepares an honors thesis. Candidates will meet as a group to discuss problems common to all of them (such as empirical methods, data sources, and theoretical approaches) and each one will report on his/her work at various stages for criticism by the group as a whole. Some work is required during the preceding semester.

Class Format: independent study
Prerequisites: admission by the department; required for honors in Economics unless a student writes a year-long thesis
Distributional Requirements: Division 2
Fall 2017
HON Section: 01 TBA Instructor: Kenneth Kuttner

ECON 492(S) Honors Seminar: Economics
This course is a research seminar for candidates for honors in economics. Each candidate prepares an honors thesis. Candidates will meet as a group to discuss problems common to all of them (such as empirical methods, data sources, and theoretical approaches) and each one will report on his/her work at various stages for criticism by the group as a whole. Some work is required during the preceding semester.

Class Format: independent study
Prerequisites: admission by the department; required for honors in Economics unless a student writes a year-long thesis
Distributional Requirements: Division 2
Spring 2018
HON Section: 01 TBA Instructor: Kenneth Kuttner

ECON 493(F) Honors Thesis: Economics
A year-long research project for those honors candidates admitted to this route to honors.

Class Format: independent study
Extra Info: this is part of a full-year thesis (493-494)
Prerequisites: admission by the department in the spring of the junior year
Distributional Requirements: Division 2
Fall 2017
HON Section: 01 TBA Instructor: Kenneth Kuttner

ECON 494(S) Honors Thesis: Economics
A year-long research project for those honors candidates admitted to this route to honors.

Class Format: independent study
Extra Info: this is part of a full-year thesis (493-494)
Prerequisites: admission by the department in the spring of the junior year
Distributional Requirements: Division 2
Spring 2018
HON Section: 01 TBA Instructor: Kenneth Kuttner

ECON 501(F) Economic Growth and Development
This course introduces some of the major theories and ideas about economic growth and development. Motivated by a number of stylized facts from cross-country data, we will begin by posing a series of questions: Why are some countries rich and others poor? Why have some countries grown at high rates over extended periods of time, while others have experienced little or no growth? Do all economies face comparable challenges to achieving sustained economic growth? Will poor countries catch up to rich countries or are they doomed to stagnate in a poverty trap? To answer these “big questions,” we will explore the underlying mechanisms of economic growth. What role is played by savings and investment (i.e., the accumulation of physical capital)? What is the influence of population growth? How important are differences in human capital (i.e., education and population health)? How important are technological differences across countries? How much significance should we ascribe to differences across countries in geographical characteristics? How much should we ascribe to differences in the quality of institutions? For each question, we will explore different theoretical and empirical strategies developed by economists to answer the question, ranging from formal models to historical and anecdotal evidence to cross-country growth and development regressions. We will evaluate the usefulness of the different approaches to each question for informing development-promoting and poverty-aversion policies, and we will also discuss the reasons why so many important questions about economic growth continue to remain difficult to answer.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets, one midterm exam, and a final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251, ECON 252, and (either ECON 255 or STAT 346); undergraduate enrollment limited and requires instructor’s permission
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives, POEC Comparative POEC/Public Policy Courses
Fall 2017
SEM Section: 01 TR 11:20 AM 12:35 PM Instructor: Quamrul Ashraf

ECON 502(F) Statistics/Econometrics
This course focuses on basic methods of bringing economic theory and data together to provide empirical guidance for policy formulation, including use of computers in econometric analysis. This course covers techniques of econometric analysis using a moderate level of mathematical exposition.

Class Format: lecture/discussion
Requirements/Evaluation: problem sets, midterm and final exam
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
This is a practically oriented course in macroeconomic theory and policy. It begins with a review of core concepts and definitions. It then discusses the contributions of households and firms to aggregate production and spending. Next is an introduction to monetary and fiscal policy. It goes on to develop a complete macro model, which is then used to discuss some of the monetary, fiscal, and exchange rate policies faced by developing and emerging market economies. The class is offered as an alternative to Econ 505 for those not intending to specialize in macroeconomics. Consequently, it does not qualify as a prerequisite for Econ 515.

Class Format: lecture

Requirements/Evaluation: two hour tests and a comprehensive final exam

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: none; enrollment limited to CDE students

Enrollment Limit: none

Expected Class Size: 10

Distributional Requirements: Division 2

Fall 2017

LEC Section: 01 MWF 08:30 AM 09:45 AM Instructor: Kenneth Kuttner

ECON 510(S) Financial Development and Regulation Crosslistings: ECON 510/ECON 352
This course focuses on the financial system and its role in economic development. The first part explores the functions of finance, how it contributes to growth, and reviews different models of financial sector development and their influence on how governments viewed the sector. It will examine experiences with financial sector repression and subsequent liberalization, and investigate the causes and impact of financial crises. Then we will study how to make finance effective and how to prevent or minimize crises, analyzing government’s role as regulator, supervisor, standard setter, contract enforcer, and owner. In this final part, attention will be devoted to the role of institutions (laws, norms, culture) and incentives in financial sector development.

Class Format: lecture/discussion

Requirements/Evaluation: midterm, participation in class discussion and debates, and a final research paper

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: for undergraduates, POEC 253 or ECON 255; undergraduate enrollment limited; requires instructor’s permission

Enrollment Limit: 25

Expected Class Size: 20-25

Distributional Requirements: Division 2

Other Attributes: GBST Economic Development Studies Electives, POEC Comparative POEC/Public Policy Courses

Spring 2018

LEC Section: 01 MW 11:00 AM 12:15 PM Instructor: Gerard Caprio

ECON 511 Institutions and Governance
Over the last two decades economists have become increasingly aware of the importance of the “social infrastructure” at various levels of economic activity: capable and honest government officials must be available to formulate and implement policies, markets must be supported by suitable institutional frameworks, property rights must be secure, and contracts reliably enforced. Even the structure of the household, the smallest institution affected by economists, has been shown to have an important influence on economic development. This course will survey the growing literature on institutions and governance.

Class Format: lecture and discussion

Requirements/Evaluation: evaluation will be based on several short assignments, and a longer final paper

Prerequisites: at least one among POEC 253, ECON 255, 502, 503, or STAT 346; requires permission of instructor; students who have previously taken ECON 459 will not be enrolled

Enrollment Limit: 19

Expected Class Size: 19

Distributional Requirements: Division 2

Other Attributes: GBST Economic Development Studies Electives, POEC Comparative POEC/Public Policy Courses

Not Offered Academic Year 2018

LEC Instructor:

ECON 513(S) Empirical Methods in Macroeconomics (Q)
Crosslistings: ECON 513/ECON 356
Macroeconomics and related fields in international finance and development have evolved specialized empirical techniques, known generally as macroeometrics, which are designed to meet the practical challenges that the data and the empirical questions pose in these fields. This course will introduce the theory and application of these techniques, and students will learn how to implement these techniques using real world data to address practical questions drawn from the fields of macro, international finance and development. Topics to which these techniques will be applied include business cycle analysis, sources of exchange rate volatility and determinants of long run economic growth. The course is also available to undergraduates with permission of the instructor. Undergraduates with strong math backgrounds may wish to enroll directly in Econ 471 in lieu of this course. However, those seeking a transition course may wish to enroll in this course prior to taking Econ 471.

Class Format: seminar
ECON 514(S): Tax Policy in Emerging Markets (Q) Crosslistings: ECON 514/ECON 389
Taxes are half of what government does. So if you are interested in what government policy can do to promote efficiency, equity, and economic development, you should be interested in tax policy. Governments must raise tax revenue to finance critical public goods, address other market failures and distributional issues, and to avoid problems with debt and inflation. Taxes typically take up anywhere from ten to fifty percent of a country's income; they profoundly affect the incentives to undertake all varieties of economic activity, and the government expenditures that they finance have potentially large consequences for human welfare. So the stakes involved in improving tax policy are enormous. All of these issues are of great importance in emerging markets (developing and transition economies), but in these nations taxation is especially challenging because of serious problems with tax evasion and administration. This class provides an in-depth exploration of tax policy, with an emphasis on the challenges and issues most relevant in emerging markets. Topics addressed in this class include: how basic economic principles can be applied to help one think about the efficiency and equity consequences of tax policies; how personal income taxes, corporate income taxes, and value-added taxes are designed and administered and how they influence the economy; ideas for fundamental reforms of these taxes; theory and evidence in the debate over progressive taxes versus "flat" taxes; how various elements of tax design affect incentives to save and invest; how market failures and administrative problems may influence the optimality of different tax policies; the implications of global capital flows and corporate tax avoidance for the design of tax policy; tax holidays and other special tax incentives for investment; empirical evidence on the influence of taxes on economic growth, foreign direct investment, labor supply, and tax evasion; tax policy towards natural resources such as minerals and oil; case studies of efforts to reform tax administration and reduce tax evasion and corruption; taxes on land and property; taxes on imports and exports; presumptive taxation; and the informal economy and its implications for tax policy. Class Format: seminar
Requirements/Evaluation: midterm exam, problem sets, two 7- to 10-page essays.
Prerequisites: one public economics course or microeconomics course (ECON 504 or ECON 110), and one empirical methods course (POEC 253 or ECON 255, 502, or 503); students who have previously taken ECON 351 will not be enrolled.
Enrollment Preferences: CDE students, but undergraduates with the prerequisites are welcome.
Enrollment Limit: 19
Expected Class Size: 15-19
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: POEC Comparative POEC/Public Policy Courses, POEC International Political Economy Courses

Spring 2018
LEC 01 09:55 AM 11:10 AM Instructor: Jon Bakija
ECON 515(S): Developing Country Macroeconomics II: Institutions and Policy Regimes Crosslistings: ECON 515/ECON 359
Developing countries do not find it difficult to initiate rapid growth, but do find it difficult to sustain it. Growth spurs are often derailed by macroeconomic shocks. As developing countries become increasingly open to trade and financial interactions with the rest of the world, such shocks may become more frequent, and potentially more severe. This course examines the types of macroeconomic institutions and policy regimes that can help developing countries orient themselves toward sustainable shocks and sustain economic growth. We will examine fiscal rules, policies toward the domestic financial sector, central bank independence, the design of monetary and exchange rate regimes, and capital account regimes. We will also consider how short-cuts in institutions and policy regimes have contributed to macroeconomic crises in developing countries. Class Format: lecture
Requirements/Evaluation: two midterms and a final project
Extra Info: not available for the third course option
Prerequisites: ECON 505 or 506; undergraduate enrollment limited and requires instructor's permission
Expected Class Size: 25-30
Distributional Requirements: Division 2
Other Attributes: GBST Economic Development Studies Electives, POEC International Political Economy Courses
Spring 2018
LEC 01 08:30 AM 09:45 AM Instructor: Peter Montiel
ECON 516 International Trade and Development Crosslistings: ECON 516/ECON 366
This course will examine the causes and consequences of globalization and its implications for less-developed countries. We will study the classic models of international trade and discuss the empirical relevance of these theories. In addition, we will focus on other dimensions of globalization that are of particular importance to developing countries such as trade and education, emigration, brain drain, remittances, foreign direct investment, trade policies, infant industry protection, trade and growth, the resource course, and trade agreements.
Class Format: lecture/discussion
Requirements/Evaluation: problem sets, midterm, presentation, and final
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: ECON 251 and ECON 255
Enrollment Preferences: undergraduate enrollment limited and requires instructor's permission
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 2, Quantitative/Formal Reasoning

Not Offered Academic Year 2018
LEC 01 09:55 AM 11:10 AM Instructor: Willy Olney
ECON 517 Urbanization and Development Crosslistings: ECON 388/ECON/ENVI 388
At current rates of growth, the combined population of urban areas in developing countries will double in the next 30 years. The land area devoted to urban use is expected to double even more quickly. The costs of providing housing and infrastructure to accommodate this growth are enormous, but the costs of failing to accommodate urban development may be even larger. The decisions made in response to these challenges will affect the economic performance of the countries and the health and welfare of the urban residents. By affecting global patterns of energy use, these decisions will have broader impacts on the entire planet. This course will focus on these challenges. What are the economic forces that drive the process of urbanization, and how does the level of urbanization affect economic development? How are policies towards housing, transportation, public finance and development affected by urbanization? What policy choices are available, and which are most likely to succeed in dealing with the challenges of urban growth? Class Format: lecture/discussion
Requirements/Evaluation: a midterm and a final exam, plus a paper that evaluates specific problems, policy alternatives, and provides some analysis of relevant data
Prerequisites: ECON 251 plus POEC 253, ECON 255, 502 or 503; undergraduate enrollment limited and requires instructor's permission
Expected Class Size: 20
Distributional Requirements: Division 2
Other Attributes: AMST Space and Place Electives, GBST Urbanizing World Electives, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
LEC Instructor: Stephen Sheppard
ECON 518 Environmental and Natural Resource Policy (Q) Crosslistings: ECON 386/ENVI 386/ECON 518
Economic activity often damages the environment significantly, especially in developing countries. Firms may clear-cut valuable forests, while consumers may drive high-pollution vehicles with little thought for the environmental consequences. Economic theories have proposed a variety of policy remedies, from pollution taxes to tradable permit schemes and restrictions on the quantity of pollution. This course first examines the relative merits of these policies from a theoretical perspective. When pollution damage is uncertain, is it better to use a pollution tax or a quantity restriction? Is it worse to set a pollution tax too high than to set it too low? It then proceeds to the practical issues that attend policy implementation, particularly where state capacity is limited. What is the best policy when inspectors can be threatened or bribed? When resource extraction is hard to monitor? Case studies will likely include policies aimed at deforestation, mineral ownership and extraction, particulate air pollution from industry and transportation, and carbon emissions from electricity generation. In evaluating policies we will think about both efficiency and distributional issues and benefits. (What if environmental regulation only benefits the wealthiest people in a country?) We will also examine the environmental consequences of policies aimed at other problems, like poverty and low education.
Class Format: seminar
Requirements/Evaluation: problem sets, paper, brief presentation, a midterm, and a final exam
Prerequisites: ECON 251, familiarity with statistics
Enrollment Preferences: senior Economic majors and CDE fellows
Enrollment Limit: 25
Expected Class Size: 20
Dept. Notes: satisfies the Environmental Policy requirement for the Environmental studies concentration
Distributional Requirements: Division 2, Quantitative/Formal Reasoning
Other Attributes: Envi Environmental Policy, MAST Interdepartmental Electives, POEC Comparative POEC/Public Policy Courses
Not Offered Academic Year 2018
ECON 519(S) Population Economics Crosslistings: ECON 380/ECON 519
This course is an introduction to the economic analysis of demographic behavior and the economic consequences of demographic change. An
important aim is to familiarize students with historical and contemporary trends in fertility, mortality, migration, and family composition, and the implications of these trends for the economy. The course demonstrates the application of microeconomic theory to demographic behavior, including fertility, marriage, and migration. Students are introduced to basic techniques of demographic measurement and mathematical demography. Selected topics include the economic consequences of population growth in developing countries, the economics of fertility and female labor force participation, the effects of an older age structure on the social security system, and the relationship between population growth and natural resources.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** at least one exam, a research paper and a class presentation.

**Not Offered Academic Year 2018**

**SEM Instructor:** Ashok Rai

**ECON 521(S) Incentives and Development Policy**

**Crosslistings:** ECON 521/ECON 372

Why isn’t economic development occurring everywhere? This course (and instructor) is of the opinion that the difficulty of getting incentives right is the key source of inefficiency. The course therefore studies how limited enforcement and asymmetric information constrain development, and how innovative development designs that attempt to overcome these constraints. The course readings will be a mix of field studies, empirical evidence and theoretical tools from game theory, incentive and corruption problems in health, education, the regulation of banks and natural monopolies, privatization, budgeting, debt forgiveness, foreign aid, microfinance, climate treaties and ethnic violence will be studied using a unified framework. Note: this course was developed to address issues that arise in the countries represented at the CDE.

**Class Format:** seminar

**Requirements/Evaluation:** two hour-long tests and a final policy project

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** undergraduate enrollment limited and requires instructor’s permission

**Enrollment Preferences:** intended for CDE Fellows

**Spring 2018**

**LEC Section:** 01  
**Instructor:** Ashok Rai

**ECON 522 Economics of Climate Change (Q)**

**Crosslistings:** ECON 387/ECON 522/ENVI 387

This course introduces the economic view of climate change, including both theory and empirical evidence. Given the substantial changes implied by the current stock of greenhouse gases (GHGs) in the atmosphere, we will begin by focusing on impacts on agriculture, health, income, and migration in both poor and wealthy countries. Next we will study adaptation, including capital investments and behavioral changes. We will examine the sources of climate change, especially electricity generation and transportation, and think about optimal policies. What is the socially optimal amount of climate change? Why have countries had such a hard time agreeing on GHG emissions reductions, and how might we overcome such difficulties? We will consider the growing body of evidence from attempts to regulate GHGs, including China’s pilot cap-and-trade programs, the EU ETS, and the US Clean Power Plan. We will pay particular attention to the political economy of regulation and ways in which policy results have departed from theoretical predictions. Throughout this course we will track the limits of the economic approach to climate change, pointing out questions on which economic theory provides little guidance.

**Class Format:** lecture

**Requirements/Evaluation:** seven problem sets, midterm, group presentation, final exam

**Prerequisites:** ECON 251, familiarity with statistics

**Enrollment Preferences:** senior Economic majors and CDE fellows

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 2, Quantitative/Formal Reasoning

**Other Attributes:** POEC Interdepartmental Electives, POEC Comparative POEC/Public Policy Courses

**Not Offered Academic Year 2018**

**LEC Instructor:** Matthew Gibson

**ECON 523 Program Evaluation for International Development (Q)**

**Crosslistings:** ECON 523/ECON 379

Development organizations face strict competition for scarce resources. Both public and private organizations are under increasing pressure to use rigorous program evaluation in order to justify funding for their programs and to design more effective programs. This course is an introduction to evaluation methodology and the tools available to development practitioners, drawing on examples from developing countries. It will cover a wide range of evaluation techniques and discusses the advantages and disadvantages of each. The course is a mix of applied econometrics and practical applications covering implementation, analysis, and interpretation. You will learn to be a critical reader of evaluations, and to develop your own plan to evaluate an existing program of your choice.

**Class Format:** seminar

**Requirements/Evaluation:** problem sets, midterm exam and one 7- to 10-page essay

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** one public economics course or microeconomics course (ECON 504 or ECON 110), and one empirical methods course (POEC 253 or ECON 255, 502, or 503)

**Enrollment Preferences:** CDE Students; undergraduates with the prerequisites are welcome

**Enrollment Limit:** 20

**Expected Class Size:** 20

**Distributional Requirements:** Division 2, Quantitative/Formal Reasoning

**Other Attributes:** POHL Methods in Public Health

**Not Offered Academic Year 2018**

**SEM Instructor:** Susan Godlonton

**ECON 524 Political Economy and Economic Development**

**Crosslistings:** ECON 361/ECON 524

This course is intended as an introduction to the newly emerging field of political economy of institutions and development. Key questions of interest include how voters behave and how this affects policy and economic outcomes; the nature, evolution and economic implication of corruption, and how it can be controlled; and the economics of conflict. The course is both to provide students of a sense of the frontier research topics in political economy in developing countries and to introduce them to the methodologies used to investigate these topics.

**Class Format:** lecture/discussion

**Requirements/Evaluation:** problem sets, quizzes, presentation, final exam

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** ECON 110 and (ECON 255 or STAT 346) or permission of instructor

**Enrollment Preferences:** junior and senior majors

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Not Offered Academic Year 2018**

**LEC Instructor:** Jessica Leight

**ECON 531 Development Successes (W)**

**Crosslistings:** ECON 467/ECON 531

Although living standards in most of the worlds poor countries have increased, many of those of the rich industrial countries, a relatively small number of countries that were quite poor in the middle of the last century have achieved dramatic improvements in their incomes since then. These development successes include countries such as Japan, the four dragons (Hong Kong, Korea, Singapore, and Taiwan), the MIT economies (Malaysia, Indonesia, and Thailand), the Asian giants of China and India, as well as non-Asian economies as diverse as Botswana, Chile, and Turkey. This tutorial will review why these countries have apparently succeeded while so many other poor countries have failed. A particular focus of the course will be on extracting insights from the experiences of these success cases about the broad development strategies that have been advocated over the past 50 years by scholars as well as by the international financial institutions.

**Class Format:** tutorial

**Requirements/Evaluation:** students will write five papers during the term,
and will prepare and deliver formal comments on five papers written by other students.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: ECON 204 or 501

Enrollment Preferences: senior Economics majors

Enrollment Limit: 10

Other Attributes: GBST Economic Development Studies Electives

Not Offered Academic Year 2018

TUT Instructor: Peter Montiel

ECON 532T(S) Inclusive Growth: The Role of Social Safety Nets

Designing and implementing effective national strategies to promote inclusive economic growth can require difficult policy reforms, sometimes with adverse short-term impacts for vulnerable groups within society. Social safety nets provide a pro-poor policy instrument that can balance trade and labor market reform, fiscal adjustments (such as reduced general subsidies) and other economic policies aimed at enabling better market performance. In addition, social safety nets have important budgetary implications, promoting resilience, human capital development and sometimes high-return risk-taking. This tutorial will offer students the opportunity to explore the role of social safety nets in promoting inclusive economic growth, drawing on case studies from Africa, Asia, Latin America and Eastern Europe. The first part of the tutorial will define social safety nets within the broader context of social protection, examining the diversity of instruments and their linkages to economic growth. The second part will delve more deeply into the design and implementation of effective interventions, assessing program choice, affordability, targeting, incentives and other issues. The third part will analyze the role of social safety nets in supporting economic growth strategies, drawing on international lessons of experience.

Class Format: tutorial

Requirements/Evaluation: students will write five papers during the term, and will prepare and deliver formal comments on five papers written by other students.

Spring 2018

TUT Section: T1 TBA Instructor: Michael Samson

ECON 534T(S) Long Term Fiscal Challenges

This tutorial will address the conceptual and theoretical issues that confront policy makers when they face policy challenges that are likely to emerge over the medium-to-long-term and that have important budgetary implications. It will explore the strategies and approaches that a number of countries have attempted to develop to bring the long-term into their current policy and budgetary planning processes. Students will be exposed to different long-term challenges that have important budgetary implications, including aging populations, health care, climate change, energy and infrastructure, and water. The course will consider the specific policy challenges that arise for each and the ways in which different countries are addressing them.

Class Format: tutorial

Requirements/Evaluation: students will write five papers during the term, and will prepare and deliver formal comments on five papers written by other students.

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: permission of instructor for undergraduates

Enrollment Preferences: CDE students and undergraduates with permission of the instructor

Enrollment Limit: 10

Expected Class Size: 10

Distributional Requirements: Division 2

Other Attributes: POEC Comparative POEC/Public Policy Courses

Spring 2018

TUT Section: T1 TBA Instructor: Michael Samson

ECON 535T(S) International Financial Institutions

This tutorial will explore the role of official international financial institutions in the global economic and financial system, their relations with member nations, and proposals for how they might be reformed, and issues that they face. The focus will be principally on the International Monetary Fund, and to a lesser extent the World Bank, the Bank for International Settlements and Financial Stability Board. Topics and readings will focus on such issues as: the roles and governance reform of the IMF and World Bank; lessons from their performance in international crises; initiatives of the Fund and Bank; the global adjustment process; financial system stability; governance reform; lending programs; the management of international reserves; and the provision of advice to members. Participants will meet in pairs with the faculty member. Each week, one student will prepare a policy paper and submit the paper to the professor and to the other student in advance of the meeting. During the meeting, the student who has written the paper will present an argument, evidence, and conclusions. The other student will provide a critique of the paper based on concepts and evidence from the readings and his own research and experience. The professor will participate in the discussion after each participant has presented and ask questions that highlight or illustrate critical points.

Class Format: tutorial

Requirements/Evaluation: each participant will write and present 5 or 6 policy papers and a like number of critiques

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option.

Prerequisites: intended for CDE Fellows; undergraduate enrollment limited, and only with permission of instructor

Enrollment Limit: 10

Expected Class Size: 10

Distributional Requirements: Division 2

Other Attributes: GBST Economic Development Studies Electives, POEC International Political Economy Courses

Not Offered Academic Year 2018

TUT Instructor: Gerard Caprio

ECON 536T Financial Crises: Causes and Cures (W)

Crosslistings: ECON 390/ECON 536

This course, each Fall carries out an individual research study on a topic in which he or she has particular interest, usually related to one of the three seminars. The approach and results of the study are reported in a major paper. Research studies are analytical rather than descriptive and in nearly all cases include quantitative analyses. Often the topic is a specific policy problem in a Fellow’s own country.

Class Format: research

Distributional Requirements: Division 2

Spring 2018

IND Section: 01 Instructor: TBA

ENGLISH (DIV I)

Chair: Professor KATHRYN KENT

The study of English allows students to explore the critical role language and literature play in the shaping of human culture and social experience. Department courses cover a wide range of topics, including the history of the English language, the relationship between literature and culture, and the role of literature in society. The department offers a variety of course options designed to meet the needs of students with diverse interests and backgrounds.

COURSES AND COURSE-NUMBERING

100-level Courses

At the introductory level, the department offers a range of writing-intensive 100-level courses which focus on interpretive skills as well as skills in writing and argumentation. All 100-level courses are designed primarily for first-year students.

231
students, although they are open to interested sophomores, juniors, and seniors. A 100-level course is required for admission to most upper-level English courses, except in the case of students who have placed out of the introductory courses by receiving a score of 5 on the Advanced Placement examination in English Literature or of 6 or 7 on the Higher Level International Baccalaureate English exam.

200-level Courses

Most 200-level courses are designed primarily for qualified first-year students, sophomores, and junior and senior non-majors, but they are open to junior and senior majors and count as major courses. Several 200-level courses have no prerequisites; see individual descriptions for details. 200-level Gateway courses are designed for first- and second-year students who are considering becoming English majors, or who are interested in pursuing an upper-level course work in the department. All Gateway courses are writing-intensive. First-year students who have placed out of the 100-level courses are encouraged to take a Gateway course as their introduction to the department.

300-level Courses

The majority of English Department courses are designed primarily for students who have had some experience with textual analysis, and are open to sophomores, juniors, and seniors. First-year students who wish to enroll in a 300-level course are advised to consult the instructor.

400-level Courses

400-level courses are intensive, discussion-oriented classes. Limited to 15 students, 400-level courses should be attractive to any student interested in a course that emphasizes student initiated independent work. Majors considering Honors should consult the Honors advisor and who wish to prepare for it are urged to take a 400-level course before senior year.

ADVISIGN

All students who wish to discuss English Department offerings are invited to see any faculty member or the department chair.

Prospective majors are particularly encouraged to discuss their interest with a faculty member as soon as they consider becoming English majors, or who are interested in pursuing an upper-level course work in the department. Majors considering Honors should consult the Honors advisor and who wish to prepare for it are urged to take a 400-level course before senior year.

MAJOR

Major Plan. Shortly after declaring the major, all English majors must complete a short written plan for how they intend to complete the major. In this plan, students should consider how they can most fruitfully explore the broad range of genres, historical periods, and national and cultural traditions that literature in English encompasses, and how they wish to focus upon a particular intellectual interest within English. Students are encouraged to begin discussing the Major Plan with a faculty member as soon as they become interested in the major; junior majors must meet with a faculty advisor to discuss the Major Plan. Declared majors will be assigned a permanent advisor shortly after they declare the major.

At least one 200-level Gateway course (grouped at the end of the 200-level course descriptions), Gateway courses are designed for first- and second-year students contemplating the major or intending to pursue more advanced work in the department; these courses focus on analytical writing skills while introducing students to critical methods and historical approaches that will prove fruitful as they pursue the major. (Note: A Gateway course can fulfill a Literary Histories or Criticism requirement as well as the Gateway requirement.)

At least one Criticism course (identified in parentheses at the end of the course description). A course fulfilling the criticism requirement entails a sustained and explicit reflection on problems of critical method, whether by engaging a range of critical approaches and their implications or by exploring a particular method, theoretic, or critic in depth. (Please note that when a Criticism course is also listed as satisfying the Literary Histories requirement, the course may be used to satisfy either requirement, but not both.)

At least three courses at the 300-level or above.

At least three courses designated as Literary Histories. Literary Histories courses concern encompassing issues or specific literary tradition or problem and/or its transformation across multiple historical periods. Literary Histories are identified by LH-A, LH-B, or LH-C in parentheses at the end of the course description.

LH-A: courses dealing primarily with literature written before 1800. LH-B: courses dealing primarily with literature written before 1900 but not included in LH-A (courses on literature from 1800-1900 and some later topics) will also be designated as Literary Histories.

LH-C: courses dealing primarily with literature written after 1900.

Of the three Literary Histories courses required for the major, at least two must focus on literature before 1900 (LH-A or LH-B), with at least one of these focusing primarily on literature before 1800 (LH-A).

For further clarification, please see the English Department webpage at http://web.williams.edu/English/.

Courses Outside the Department

The department will give one elective course credit toward the major for a course taken in literature of a foreign language, whether the course is taught in the original language or in translation. Such a course may not be used to satisfy the department’s Literary Histories, Criticism, or Gateway requirements.

STUDY AWAY

Students who plan to study abroad should be proactive in understanding how this will affect their plans for completing major requirements. Such plans should be discussed in advance with the student’s advisor as well as the department’s academic assistant. Approval of departmental credit for courses taken off-campus must be obtained in advance from the department chair.

You can find general study away guidelines for English here.

THE DEGREE WITH HONORS IN ENGLISH

The English Department offers three routes toward honors: a creative writing thesis, a critical thesis, and a critical specialization. Candidates for the program should have at least a 3.5 average in courses taken in English, but admission will not depend solely on course grades. Formal application to pursue honors must be made to the director of honors (Christopher Pye) by April of the junior year.

All routes require students to take a minimum of ten regular-semester courses (rather than the nine otherwise required for the major). Students pursuing a creative writing thesis must, by graduation, take at least nine regular-semester courses (rather than the nine otherwise required for the major). At least one of these courses must concern the emergence or development of a specific literary tradition, and at least one must be designated as Literary Histories. At least three courses designated as Literary Histories. At least three courses at the 300-level;

Critical Thesis

The critical thesis is a substantial critical essay written during both semesters as well as the winter study period of the senior year. It must consider critical and/or theoretical as well as literary texts. The thesis is normally about 15,000 words (45 pages); in no case should it be longer than 25,000 words (75 pages). The proposal, a 3-page description of the thesis project, should indicate the subject to be investigated and the arguments to be considered, along with a bibliography. The finished thesis is due on the third Monday following spring break. After the critical thesis has been completed, students publicly present their work.

Critical Specialization

The critical specialization route is a series of forays into a broad area of interest relevant to work undertaken in at least two courses. At least one of these courses must be in the English Department, and both need to have been taken by the end of the fall term in senior year. The specialization route entails: (1) a set of three 10-page essays which together advance a flexibly related set of arguments; (2) an annotated bibliography (5 pages) of secondary sources, explaining their importance to the area of specialization; (3) a meeting with the three faculty evaluators (one of whom is the advisor) during the last two weeks in February to discuss the trio of essays and the annotated bibliography; (4) a fourth essay of 12 pages, considering matters that arose during the faculty-student meeting and reflecting on the outcome of the specialization. The 3-page proposal for the specialization should specify the area and range of the study, the issues likely to be explored, and the methods to be used for their investigation. It should also describe the relation between previous course work and the specialization, and include a brief bibliography of secondary works. The first two papers are due by the end of fall semester, the third paper is due at the end of winter study; the bibliography is due mid-February; and the final paper is due the third Monday following spring break.
ENGL 105(S) American Girlhoods (D) (W)
Crosslistings: ENGL 105/WGSS 105/AMST 105
The image of the girl has captivated North American writers, commentators, artists, and cultural producers throughout the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls evoke? What larger cultural and aesthetic concerns do girls explore? What larger cultural and aesthetic concerns do girls help us understand about gender, sexuality, race, and ethnic identity? These are some of the issues we will explore in this course.
We will read works by such authors as Emily Dickinson, Louisa May Alcott, Harriet Jacobs, Henry James, and Sui Sin Far. We will also read works by such authors as Emily Dickinsom, Louisa May Alcott, Harriet Jacobs, Henry James, and Sui Sin Far. We will discuss how these works have influenced contemporary thought, especially during the struggles of the former colonies to establish themselves as independent nations at the turn of the century. This course will take up the work of artists, writers, and theorists who engaged colonial rhetoric and challenged them by giving human beings voice to complex identities, histories, and politics. Our works will take us around the world, and stretch us across multiple phases of colonialism and its aftermaths. In addition to encountering a postcolonial serial killer, a postmodern Indian, and a famed boxing match sponsored by an Afghan dictator, we will watch narrative and documentary cinema, look at visual art, and read poetry, fiction, essays, and philosophy, and consider how these media and genres work as forms of resistance and acts of world-making. Key authors will include Frantz Fanon, Aimé Césaire, V.S. Naipaul, Albert Memmi, Edward Said, Salman Rushdie, and Mahasweta Devi.
ENGL 117(F) Introduction to Cultural Theory (W)
Crosslistings: ENGL 117/COMP 117
This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study “culture,” what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word “culture” means, and our main business will be to get an overview of that conceptual battle. We will pay special attention to the conflicts between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Constance Penley, but we will also, in order to put our new ideas to the test, watch several films (Ferris Bueller’s Day Off, Silence of the Lambs, The Lord of the Rings) and listen to a lot of rock & roll. Why do you think culture matters? Once you stop to pose that question, there’s no turning back.

Class Format: discussion/seminar
Requirements/Evaluation: five short papers totaling about 20 pages, class attendance and participation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive

SEM Section: 02 TF 02:35 PM 03:50 PM Instructor: Christian Thorne

ENGL 120(F) The Nature of Narrative (W)
Crosslistings: 096/ENGL 120
This course focuses on the nature and function of narrative using a wide range of texts from different periods, traditions and genres. We will analyze the ways in which works of fiction communicate their concerns; in other words: how do they say what they say? And why does “how” matter as much as, if not more than, “what”? We will also look at film, articles, and other relevant texts accompanying the readings with a few pertinent theoretical texts. The authors we will study may include Homer, Cervantes, Kleist, Kafka, Zweig, García Márquez, Rankine, and Farahdi. All readings in English, although those with foreign language competency are invited to make comparisons with the original where possible.

Class Format: seminar
Requirements/Evaluation: meaningful class participation, two short papers, and a final paper of 10 pages, which will consist of a draft and a final version
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: students considering a major in Comparative Literature and/or who have studied a foreign language
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: FMST Related Courses
Fall 2017
SEM Section: 01 MR 01:10 PM 02:25 PM Instructor: Gail Newman

ENGL 120(S) Nature of Narrative (W)
Crosslistings: COMP 111/ENGL 120
This course examines the nature and workings of narrative through a wide range of texts from different traditions, genres, and periods. We will explore the ways in which stories are told, how they convey meaning, and how they are shaped by generic conventions. Readings may include the Odyssey, the Chinese Classic of Poetry (Shijing), the Tale of Genji, the late of Marie de France, Austen, Eliot, Féng Měnglóng, and others (all readings will be in English). We will also read a few short theoretical works.

Class Format: seminar
Requirements/Evaluation: consistent and engaged class participation, two short written assignments over the course of the semester, and a longer (10-page) final paper, with the opportunity to revise the final paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: students considering a major in Comparative Literature
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive
Spring 2018
SEM Section: 01 TF 01:10 PM 02:25 PM Instructor: Sarah Allen

ENGL 124(F) Androids, Sci-Fi, and the Self (W)
Crosslistings: ENGL 124/SCST 124
The idea of an almost-human machine dates to antiquity, and such beings have captured the imaginations of epic poets, religious storytellers, and, more recently, novelists and filmmakers. But why are we fascinated by the possibility of non-human robots passing, or almost passing, as human? Why is the idea of an almost-human machine (or a reproductive android so frequently depicted as not only registering massiveness, but revolutions are nevertheless organized via social media or triggered by cell phone images? May include works by Plato, Euripides, Melville, Woolf, Rancière, and Claire Denis.

Class Format: seminar
Requirements/Evaluation: four response papers and three more substantial essays (drafted and revised), for a total of about 20 pages; participation in class discussions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19

Distributional Requirements: Division 1, Writing Intensive
Fall 2017
SEM Section: 01 TR 08:30 AM 09:45 AM Instructor: Ezra Feldman

ENGL 125(F) Theater and Politics (W)
Crosslistings: ENGL 125/THEA 125
This seminar traces the surprisingly close and controversial relationship between theater and politics from ancient Greek tragedy to modern literature, contemporary film and philosophy. When Plato kicked off political philosophy by outlining his ideal city-state, one of his first moves was to ban theatrical performance on the grounds that play-acting would make men poor governors of themselves. In more recent times, however, the work of artists and playwrights as divers as Bertolt Brecht and Anton Artaud have provocatively suggested that theater itself could remedy the ills that Plato thought it caused. In today’s age of global spectatorship, writers, artists, and activists continue to ask: who are the real actors and spectators of today’s digital world-stage, when governments and other powerful institutions have increasingly sophisticated tools for gathering information about and controlling the on-looking masses, but revolutions are nevertheless organized via social media or triggered by cell phone images? May include works by Plato, Euripides, Melville, Woolf, Rancière, and Claire Denis.

Class Format: seminar
Requirements/Evaluation: three pages and a portfolio of interpretive questions, totaling 20 pages of written work
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive
Fall 2017
SEM Section: 01 TR 08:30 AM 09:45 AM Instructor: Walter Johnston

ENGL 129(F) Twentieth-Century Black Poets (D) (W)
Crosslistings: ENGL 129/AFR 129
From Langston Hughes to contemporary poets such as Angola Jackson and Claudia Rankine, African American poets have been preoccupied with the relations of poetry to other traditions. Vernacular speech, English poetry, jazz and other musical forms, folk humor, and African mythology have all been seen as essential sources for black poetry. This course will survey major poets such as Hughes, James Weldon Johnson, Countee Cullen, Robert
Hayden, Gwen Dolyn Brooks, Amiri Baraka, Jackson, and Yusef Komunyakaa, reading their poems and their essays and interviews about poetic craft, we will ask how black poetry has been defined and whether there is a single black poetic tradition or several.

**ENGL 130(S) Direct Action and African American Cultural Texts (D) (W)**  
What sort of actions become politicized differently when performed by blackened bodies? How do we conceive of direct action when eye contact, for example, once constituted an act of defiance against the racial order, punishable by death? How do they methods and aims of African-American direct action shifted over time? Where is the line between violence and nonviolence, when does it shift or blur? In this course we will consider how various literary forms give shape and insight into the legacies of African American struggles and demands for freedom. Course texts include_ My Bondage and My Freedom_ by Frederick Douglass, Alex Haley's _The Autobiography of Malcolm X_, issues of_ Libet Telefesn_ Aché, fiction such as_ Eva’s Man_ by Gayl Jones, comics such as_ John Lewis’s March_, film such as_ Spike Lee’s Do the Right Thing_, speeches by_ Lucy Parsons_ and others. This course contributes to the College’s Exploring Diversity Initiative through discussions of African American political engagement with relations of power and inequality.

**Class Format:** seminar

**Requirements/Evaluation:** weekly response writing, four formal writing assignments totaling 20 pp. including an engaged feedback process, one or two creative assignments

**Extra Info:** may not be taken on a pass/fail basis

**ENGL 135(F) Vengeance (W)**  
For almost three thousand years revenge has been a central preoccupation of European literature. Revenge is inviting to literary and dramatic treatment partly because of its impulse towards structure: it traces a simple arc of injury and retaliation, A injuries B, and B retaliates against A. But retaliation is never easy or equivalent, and there is always a volatile emotive mixture of loss and grievance that stirs up ethical ambiguities that are seldom resolved.

Vengeance also fascinates because it is so paradoxical. The avenger, though isolated and vulnerable, can nevertheless achieve heroic grandeur by coming to personify nemesis. And yet the hero is always contaminated by trying to make a right out of two wrongs—and he usually has to die for it. Driven by past events, cut off from the present, and wrapped up in stratagems for future reprisals, the avenger’s actions are always almost compromised by impotence or excess. At best, revenge is “a kind of Wilde Justice”—a justice that kills its heroes as well as its villains. We will look at personifications of vengeance, across as wide a range of cultures and media, as possible.

_Readings will include_ Sophocles’ _Electra_ , Dante’s _Inferno_ , Shakespeare’s _Hamlet_ ,_ The Tempest_ ,_ Don Quixote_ ,_ Don Quixote de la Cerda’s_ Dangerous Liaisons, and_ Vonnegut’s Slaughterhouse Five, as well as several short stories and films._

**Class Format:** seminar

**Requirements/Evaluation:** two 5-page essays, one 10-page essay; several short response essays; 10% of grade is on participation

**Extra Info:** may not be taken on a pass/fail basis

**ENGL 136(S) Slavery and the Making of a Literary Tradition (D) (W)**  
This course will introduce students to the slave narrative tradition and the major tropes, themes, and debates that emerge out of this genre and have come to define the African American literary landscape. The selection of texts will include writers that have been central to marking a slave narrative tradition, such as Olaudah Equiano, Frederick Douglass, and Harriet Jacobs. We will also read works by black writers such as Harriet Wilson whose autobiographical novel demonstrates how writers have reworked the techniques and structure of the slave narrative genre. In addition to locating the beginnings of African American literature, the selection of texts in this course will allow us to examine the transatlantic circulation of ideas regarding race, nation, citizenship, self-mastery, motherhood, agency, and freedom. To explore how slave writers have framed this trajectory we need to be aware of the slave narratives as a unique genre. In order to explore these concerns in a contemporary context, we will examine Toni Morrison’s _Beloved_ and Chris Abani’s _The Sporting Life_.

**Class Format:** seminar

**Requirements/Evaluation:** active class participation, 4 short papers totaling about 20 pp

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**ENGL 138(F) What is a Self? Investigations in Literature, Philosophy, and Psychology (W)**

_The experience of having a self (or a subjective point of view) infoms and colors literally everything we think, see, and feel. And yet what, exactly, is a self? Is it the unchanging essence of who we are as individuals (like what Christians call the soul)? Or is it the historically contingent product of ever-changing cultural and political forces (like the media, gender norms, and ideologies about race, to name just a few)? Or, perhaps, is the belief that we have a self just one big illusion, as the Buddha suggested millennia ago and as modern philosophers and neuroscientists have argued in their own different idioms more recently? In this class, we’ll explore the deep mystery of human existence that we call “the self” or “subjectivity,” looking at various attempts to capture, represent, and explain it. Our investigations will be wide-ranging, looking at examples from literature, philosophy, religion, and science. Works we may study include: Shakespeare’s_ Hamlet_, Virginia Woolf’s_ To the Lighthouse_, Tim O’Brien’s_ The Things They Carried_, Toni Morrison’s_ Beloved_,_ Don DeLillo’s Mao II_,_ Romantic poetry_,_ the classical philosophical writings of Descartes_,_ Locke_,_ and Hume_, and the more modern philosophical musings of Freud_,_ Sartre_,_ Taylor_,_ Foucault_, and_ Lacan_. We’ll also study scientific findings about the relationship between the mind and the brain that have come from the fields of psychology and neuroscience, perhaps in conjunction with one of a wave of recently published “neuro-novels” (like Richard Powers’_ The Echo Maker_ that portrays the self in terms borrowed from the brain sciences. Students who genuinely find the experience of the self puzzling and fascinating will get the most out of this course. Bring an open mind about what it is to have a mind in the first place._

**Class Format:** seminar

**Requirements/Evaluation:** five analytical papers totaling 20 pages; active class participation; participation in other short writing assignments

ENGL 150(S) Expository Writing (W)

Writing clearly is the most important skill you can learn in college. Do you suffer from writer's block? Do you receive consistent criticism of your writing without also learning strategies for how to improve? This course is for students who want to learn how to write a well-argued, intelligible essay based on close critical analysis of texts. We will derive our method for mastering the complex art of writing from Atul Gawande's bestselling book, *The Checklist Manifesto*. In addition to sharpening your skills in reading, note-taking and literary analysis, this class will give you tools for generating drafts, peer editing, revising, and polishing your writing. The majority of the readings for this course will be literary essays, mostly contemporary, mostly American. (This course and ENGL 152 focus more directly on basic expository writing skills than the other 100-level classes in the English department.)

**Class Format:** seminar

**Requirements/Evaluation:** five essays totaling at least 20 pages, including drafts and revisions; class participation; peer-editing

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** priority is given to first-year students, but all students who need help with their writing are eligible; email instructor for permission to enroll

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Distributional Requirements:** Division 1, Writing Intensive

Spring 2018

**SEM Section:** 02  TR 08:30 AM 09:45 AM  Instructor: Cassandra Cleghorn

ENGL 150(S) Expository Writing (W)

This course is designed to improve your essay-writing skills. We will try to figure out how to write effective college essays in an assortment of disciplines, and get away from the one-size-fits-all template you remember from high school. We will learn how to write introductions that grab you, exposition that thrills you, climaxes that fill you with suspense, and conclusions that feel both surprising and inevitable. We will also read short stories in this class, both as source material for analysis and interpretation, and for story-telling techniques that we can steal. There will be weekly writing assignments, leading up to a twelve- to twenty-page final project.

**Class Format:** seminar

**Requirements/Evaluation:** 4 or 5 papers totaling at least 20 pp.; evaluation partly based on improvement and effort

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** first-year students, especially students with demonstrated need for help with analytical writing

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 1, Writing Intensive

Spring 2018

**SEM Section:** 01  MWF 08:30 AM 09:45 AM  Instructor: Paul Park

ENGL 154(F) Imagination and Authority (W)

A course on the subject of who gets to write about what when it comes to fiction. Among the questions we'll be taking up: What are the outer boundaries of those imaginative acts that should be attempted? The central goal of this course is to teach you how to write a well-argued and interesting analytical paper. We will spend most of our class time actively engaged in a variety of techniques to improve your critical reasoning and analytical skills, both written and oral. Though the skills you learn will be applicable to other disciplines, this is also a literature class, designed as well to prepare you for upper level courses in the English Department.

**Class Format:** seminar

**Requirements/Evaluation:** 4-5 papers totaling at least 20 pp., revisions, student teaching, written and oral comments, final portfolio

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** first year students, especially students with demonstrated need for help with analytical writing

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Distributional Requirements:** Division 1, Writing Intensive

### 200-LEVEL COURSES

**ENGL 201(S) Shakespeare**

One of Shakespeare's most original recent readers has claimed, "Nothing without, perhaps nothing within, Shakespeare's words could discover the power to withstand the power Shakespeare's words release." To put it another way, this was a writer who created something so new, so unfathomable, that neither life nor language could easily contain it. In this course, we will become acquainted with Shakespeare's major works, but we will also remain alert to their capacity to confound. Serious attention will be given to genre, form, the historical conditions of the Renaissance theater and book trade, modes of literary transmission, and the shape of Shakespeare's career. Plays will include *A Midsummer Night's Dream*, *Romeo and Juliet*, *Henry IV, Part I*, *Hamlet*, *King Lear*, *Antony and Cleopatra*, and *The Tempest*. We will also read the *Sonnets*. The course is designed to offer a first encounter with Shakespeare, but more advanced students are welcome too.

**Class Format:** seminar

**Requirements/Evaluation:** one 3-page paper, one 7-page, occasional short expository essays, midterm exam, final exam, class participation

**Prerequisites:** none

**Enrollment Preferences:** English majors and prospective English majors

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Distributional Requirements:** Division 1

ENGL 202(S) Modern Drama

**Crosslistings:** THEA 229/ENGL 202/COMP 202

An introduction to major plays and key movements in European and American theatre since the late nineteenth century. Our focus will be on close reading, with attention also to questions of performance and production. Plays to be discussed will likely include: *Ibsen, Hedda Gabler; Wilde, The Importance of Being Earnest; Chekhov, The Cherry Orchard; Pirandello, Six Characters in Search of an Author; Brecht, Mother Courage*; *Miller, Death of a Salesman*; *Beckett, Waiting for Godot*; *Hansberry, A Raisin in the Sun*; *Pinter, Betrayal*; *Churchill, Cloud Nine*; *Stoppard, Arcadia*.

**Class Format:** lecture

**Requirements/Evaluation:** two 5-page papers; regular journal responses: a final exam; and active participation in class discussions

**Extra Info:** may not be taken on a pass/fail basis; not available for the fifth course option

**Prerequisites:** none

**Enrollment Preferences:** Theatre, English, and Comparative Literature majors

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Department Notes:** the course (or THEA 248) is required for the Theatre major

**Distributional Requirements:** Division 1

ENGL 204(F) Hollywood Film

**Crosslistings:** ENGL 204/COMP 221

For almost a century, Hollywood films have been the world's most influential art form, shaping how we dress and talk, how we think about sex, race, and power, and what it means to be American. We'll examine both the characteristic pleasures provided by Hollywood's dominant genres—including action films, horror films, thrillers and romantic comedies—and the complex, sometimes unsavory fantasies they mobilize. We will do this by looking carefully at a dozen or so iconic films, probably including *Psycho*, *Gone with the Wind*, *The Godfather*, *Schindler's List*, *Bridesmaids*, *Groundhog Day*, and *12 Years a Slave*. In addition to the assigned reading, students will be required to attend free screenings of course films on Sunday evenings at Images Cinema.

**Class Format:** lecture

**Requirements/Evaluation:** mandatory attendance at free Sunday 8:00 pm film screenings at Images, two 2-page essays analyzing a short film sequence, two editing exercises (produce a clip and a <2-page essay), one mid-term, and a final exam.

**Extra Info:** may not be taken on a pass/fail basis

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**Distributional Requirements:** English majors

**Enrollment Limit:** 60

**Expected Class Size:** 60

**Distributional Requirements:** Division 1

**Other Attributes:** FMST Arts in Context Electives, ENGL Literary Histories B, FMST Core Courses

Fall 2017

**LEC Section:** 01  TR 09:00 AM 10:15 AM  Instructors: John Kleiner, James Shepard
ENGL 211(S) English Literature from 1000 to 1600

One of the oldest surviving works in English, Beowulf tells the story of a monster and his mom. In this class we will read key texts from the medieval and early modern periods, starting with Beowulf and ending with Shakespeare's equally bloody Titus Andronicus. Other readings will include selections from The Canterbury Tales, Sir Gawain and the Green Knight, sonnets by Sidney and Donne, and Marlowe's The Jew of Malta. We will discuss the conflicting, often self-contradictory claims that writers in these periods made for the importance of literature and the anxieties that these new types of fiction generate—about sex, about God, about money. We will ask what it meant to read—and misread—before books were commonplace.

Class Format: seminar
Requirements/Evaluation: two papers (5-7 pages), midterm, final
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors
Enrollment Limit: 25
Expected Class Size: 15
Distributional Requirements: Division 1
Other Attributes: ENGL Literary Histories C

ENGL 212(S) Milton through the Romantics

Taking advantage of a relatively quick movement through many representative texts, this survey course will follow the development of English literature and culture from around 1660 to 1830. We’ll focus on Making Connections and Telling the Story; we’ll look at poetry, prose, magazines, paintings, buildings and some other objects. We will watch things happen like the invention of the individual, and gender, and democracy, and other important features of our world. Authors to be studied may include Donne, Milton, Pope, Defoe, Wordsworth, Byron, Shelley and Keats.

Class Format: seminar
Requirements/Evaluation: class attendance and participation, weekly short writing assignments, two 6-7 page papers, and a final 24-hour exam.
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preference: English majors
Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division 1
Other Attributes: ENGL Literary Histories A

ENGL 213 Making Radio

This course has two aims. The first is to teach the necessary skills (including interview technique, field recording, editing, and scoring) to make broadcast-worthy audio nonfiction. The second is to use this process to investigate fundamental aspects of narrative. How does a story build a contract with listeners? What’s the role of the narrator? How can one appropriately speak for (and sometimes against) another person? This is not a course in journalism, but rather an experiment in documentary cinema for the way we will think about what stories are for, generally; what cultural arc of the novel from its beginnings through the later 20th century, and how different characters, authors and texts have managed to deal with the complexity of the truth.

Class Format: seminar
Requirements/Evaluation: five short audio pieces; attendance and active participation
Extra Info: may not be taken on a pass/fail basis
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor
Enrollment Preferences: sophomores; English majors; students with radio or studio art training
Enrollment Limit: 10
Expected Class Size: 10
Distributional Requirements: Division 1
Other Attributes: FMST Core Courses
Not Offered Academic Year 2018

ENGL 216 Introduction to the Novel

There was a time when novels as we understand them didn’t exist; then there was a time—centuries—when novels were overwhelmingly the dominant storytelling mode in literature read in English. This lecture course will follow the cultural arc of the novel from its beginnings through the later 20th century, when novels competed for cultural space with new storytelling modes. Along the way we will think about what stories are for, generally, why this kind of long-form storytelling was invented; and what cultural work novels do and have done. Possible writers to be studied include Defoe, Austen, Bronte, Dickens, Joyce, Stevenson and others.

Class Format: lecture
Requirements/Evaluation: midterm and final exams, one 5-page critical essay, and some short writing assignments
Prerequisites: score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or any Writing Intensive course at Williams
Enrollment Preferences: students who have pre-registered for the course; thereafter, seniors, then juniors, sophomores, and first-years
Enrollment Limit: 45
Expected Class Size: 45
Distributional Requirements: Division 1
Other Attributes: ENGL Literary Histories C
Not Offered Academic Year 2018

LECInstructor:

ENGL 220(S) Introduction to African American Literature

Crosslistings: ENGL 220/AMST 220/AFR 220

What does it mean, socially, culturally, historically, personally, and spiritually, to be African American? No single, simple answer suffices, but African American literature as a genre is defined by its ongoing engagement with this complex question. This course will examine a series of texts that in various ways epitomize the fraught literary grappling with the entailments of American blackness. Readings will include texts by Frederick Douglass, Booker T. Washington, Zora Neale Hurston, Langston Hughes, Richard Wright, Ralph Ellison, Amiri Baraka, Toni Morrison, and Ishmael Reed.

Class Format: seminar
Requirements/Evaluation: writing assignments for the course will total 20 pages, distributed over 3 papers
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Limit: 25
Expected Class Size: 20
Distributional Notes: meets Division 1 requirement if registration is under ENGL; meets Division 2 requirement if registration is under AMST or AFR
Distributional Requirements: Division 1
Other Attributes: AMST Arts in Context Electives, AMST Comp Studies in Race, Ethnicity, Diaspora, ENGL Literary Histories C

Spring 2018

ENGL 224T(S) American Drama: Hidden Knowledge

Crosslistings: THEA 275/COMP 275/ENGL 224/AMST 275

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What’s the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted classical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli’s The Prince, Thomas Carlson’s Lyin’ and Deception: Theory and Practice, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O’Neill, Edith Wharton, Sarah Ruhi, Arthur Miller, Amy Herzog, Susan Glaspey, Sophie Treadwell, Annie Baker, and others. Students will papers will explore how hidden truths are exposed in dramatic action, how different characters create and misread one another, and how lies can reveal as much as they obscure. We might say we learn in particular from American drama about a national relationship to honesty and its opposites.

Class Format: tutorial
Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: none
Enrollment Preferences: Theatre and English majors
Enrollment Limit: 10
Expected Class Size: 10
Distribution Notes: meets Division 1 requirement if registration is under THEA, COMP or ENGL; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: AMST Arts in Context Electives

Spring 2018

TUT Section: T1 TBA Instructor: Robert Baker-White

ENGL 231(F,S) Literature of the Sea (W)

Crosslistings: MAST 231/ENGL 231

Taking advantage of our maritime museum, coastal setting, and three field seminars, we study canonical and lesser-known novelists, short-story writers, dramatists, and poets who set their works in the watery world, often in the exact places where we travel as a class. We read, for example—depending on fall or spring semester—Ernest Hemingway when sailing on the Straits of Florida, John Steinbeck when exploring Cannery Row on Monterey Bay, and Mark Twain on a steamboat on the Mississippi. We read Kate Chopin on the sands of the Gulf of Mexico, Rudyard Kipling out on Georges Bank, and Herman Melville’s masterpiece Moby-Dick aboard Mystic Seaport’s historic whalship, the Charles W. Morgan, a vessel nearly identical to the vessel he climbed aboard at age twenty-one. In the classroom we examine these works through a mixture of lecture, small-group discussion, and writing. To further
appreciation and analysis, this interdisciplinary course uses students’ emerging knowledge of maritime history and marine science.

**Class Format:** small group tutorials with weekly lectures, including coastal and near-shore field trips and ten days at sea

**Requirements/Evaluation:** regular papers, class participation, journal-writing, and a final project

**Extra Info:** offered only at Mystic Seaport may not be taken on a pass/fail basis; not available for the fifth course option

**Distributional Requirements:** Division 1, Writing Intensive

**Other Attributes:** AMST Arts in Context Electives, ENVI Humanities, Arts + Social Science Electives

**ENGL 236 Fields of Barley, Streets of Gold: Utopia in Fiction (W)**

*Each of the gates was a single pearl* And the street of the city was pure gold, As it were transparent glass.

*Revelations 21:21* It makes us happy to imagine the future in apocalyptic terms, partly because we love to say I told you so. You didn’t listen, and now look. Fort Lee is on fire, and zombies are storming downtown New Orleans. Can you imagine a dystopic future in which the utopian vision provides a more delicate thrill. For a writer, the task is to provide a fiction that will not feel like a moral lesson or the illustration of some theory about how we should behave. This course will consider different utopian stories in turn, moving from Plato’s Republic through the invented worlds of Thomas More, Margaret Cavendish, Edward Bellamy, and H.G. Wells, and then into the more contemporary science fiction of Kim Stanley Robinson, Ursula LeGuin, John Crowly, and others. Implicit in any kind of alternative reality is its creators’ rejection of the place they live, and their corresponding longing for something new, which in all cases is as interesting as the way a story might work as a model for social improvement.

In addition to the occasional critical essay, students will invent a personal utopian fiction of about twenty to twenty-five pages, to be read and discussed by the class.

**Class Format:** seminar

**Requirements/Evaluation:** various short assignments and one 20-page project

**Prerequisites:** none

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Distributional Requirements:** Division 1, Writing Intensive

*Not Offered Academic Year 2018*

**SEM Instructor:** Paul Park

**ENGL 237(S) Making Things Visible: Adventures in Documentary Work**

**Crosslistings:** SOC 236/AMST 236/ARTH 237/ENGL 237

Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps and resonances between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will try their hand at methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of classical and recent examples of investigative work that blend language, visual art, and society. In this tutorial, we will read and discuss:

- Critical essays defining the postmodern (essays which themselves often reflect and rewrite dualities and contradictions of literary analysis and theoretical essays defining the postmodern (essays which themselves often embrace this playful and sometimes ironic style), and we will pair them with

ENGL 273(F) Murder 101
Crosslistings: COMP 273/ENGL 273
Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories from around the world. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. At the same time the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Raymond Chandler), and we will also explore examples from Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows and films noir will also be included in the course material. All readings will be in English.

Class Format: seminar
Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation
Prerequisites: none
Enrollment Preferences: Comparative Literature and English majors
Enrollment Limit: 20
Expected Class Size: 15

ENGL 274 Film and Media Studies: An Introduction
Crosslistings: ENGL 274/COMP 258
This team-taught interdisciplinary course introduces students to concepts and skills central to the study of moving images. After familiarizing ourselves with the basic elements—visual, narrative and auditory—necessary for formal analysis, we will develop critical tools for understanding film and media in their historical and social contexts. We will discuss influential ideas, theories, and methods in the discipline of film and media studies. Students will learn to respond to works drawn from a wide range of forms: fiction and nonfiction film, animation, television, video games, and emerging forms of virtual reality. Throughout, our emphasis will be on the diverse ways in which moving pictures create meaning. How can we best think about the reciprocal relations between film, new media, and contemporary life? This course will be presented through a mixture of lectures, discussions, and exercises.

Class Format: lecture/discussion/studio
Requirements/Evaluation: class attendance and participation; frequent (probably weekly) writing assignments that will include several short responses, three essays (1000-2000 words), three production exercises; and a final long paper or project
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: no prior production experience is required
Enrollment Preferences: open to first-year students; approximately 2/3 of places will be reserved for first- and second-year students
Enrollment Limit: 30

ENGL 280(S) Writing for Performance (W)
Crosslistings: THEA 282/ENGL 280
This studio/seminar course is designed for students with some experience in creative writing and/or performance interested in a deep dive into the art of playwriting. What is a play? What distinguishes writing for performance from writing that is meant to be read? How do we craft a blueprint for a live event? In our rapidly evolving digital world, what sorts of stories and phenomena still ask to be experienced live? How are contemporary theater and performance makers pushing the boundaries of what “writing” means and what constitutes “liveness”? We will read works by Sharon Bridgford, Sarah Ruhi, Terrell Alvin McCraney, Tony Kushner, Branden Jacobs-Jenkins, Sarah DeLappe, Suzan-Lori Parks, Edward Albee, August Wilson, Chuck Mee, Maria Irene Fornés, Young Jean Lee, Stephen Dictionary and Virtual Reality, who have deepened and widened the possibilities of the form. We will also write, beginning with exercises in character, dialogue, action, and world-building, and working toward a longer final project. Students will be expected to present their own work and respond to each other’s work regularly. At the end of the term, we will present excerpts of our one-act length works as part of an open studio experience.

Class Format: seminar
Requirements/Evaluation: in-class participation, critical/creative responses to readings, various writing exercises, final one-act performance piece, participation in final presentation
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: students with some experience in creative writing and/or performance
Enrollment Preferences: students who have taken THEA 214/ENGL 214 or another creative writing course
Enrollment Limit: 14
Expected Class Size: 14

Distributional Requirements: Division 1, Writing Intensive
Spring 2018

ENGL 286(F) Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film (D)
Crosslistings: WGS 283/ENGL 286/AFR 283/AMST 283
In this course we will examine the work of influential black filmmakers who have paved the way for contemporary filmmakers. We will engage foundational texts from Black Queer Studies. We will pair texts with film in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1996), U People (Olive Demetrius and Hanifa Waldah, 2009), Tongues Untied (Marlon Riggs, 1989) and Litary for Survival (Ada Gay Griffin and Michelle Parker, 1995). Throughout the course we will evaluate the different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be asked to facilitate a class discussion. You will also be required to do weekly critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that “represents” some segment of Black queer living. The course fulfills the ENL requirement in that it centers questions of power and privilege. Students will also hone their critical theorization skills.

Class Format: seminar
Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film
Extra Info: may not be taken on a pass/fail basis
Prerequisites: none
Enrollment Preferences: Women’s, Gender and Sexuality Studies majors, then Africana Studies concentrators
Enrollment Limit: 20
Expected Class Size: 20
Distribution Notes: meets Division 2 requirement if registration is under WGS, AFR or AMST; meets Division 1 requirement if registration is under ENGL

Distributional Requirements: Division 2, Exploring Diversity

Other Attributes: WGSs Racial Sexual + Cultural Diversity Courses, FMST Core Courses
Fall 2017
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Kai Green

200-LEVEL GATEWAY COURSES
200-level “gateway” courses are designed for first- and second-year students contemplating the major or intending to pursue more advanced work in the department; these courses focus on analytical writing skills while introducing students to critical and historical approaches that will prove fruitful in later courses. (Note: a gateway course can fulfill a period or criticism requirement as well as the gateway requirement. Students contemplating the English major are strongly urged to take a gateway course by the end of sophomore year.)

ENGL 206(S) We Aren’t The World: “Global” Literature in the 20th Century (D) (W)
An eighteenth-century diplomat once referred to the British colonies as a “vast empire on which the sun never set,” and at the time he was right. The British controlled an enormous portion of the globe for nearly three centuries, from the Caribbean to South Asia, from Oceania to Africa. Alongside exploitation and material plunder, another outcome of this vast empire was the creation of a rich tradition of English language literature from around the globe, often in defiance of colonial power. This course will introduce students to this body of English language novels and poetry of the twentieth century, and explore how writers from formerly colonized places have used literary forms like the bildungsroman, national allegory, and testimony to reshape questions about imperialism, nationalism, gender, capital, culture, globalisation, aesthetics, and politics. Readings will include novels, poetry, short stories, and essays by writers like Rudyard Kipling, Jamaica Kincaid, Chinua Achebe, Salman Rushdie, Joseph Conrad, J.M. Coetzee, Chronicles of Ancient Darkness, Derek Walcott, V.S. Naipaul, and Ahdaf Soueif. Roy. We Aren’t the World both interrogates and satisfies the Exploring Diversity requirement.

Class Format: seminar

ENGL 209(S) Theories of Language and Literature (W)

Crosslistings: ENGL 209/COMP 265

This course is made up of questions: What is literature and why would anyone want to study it? What can you figure out by examining language that you can’t figure out by studying history or psychology? Do students of literature have any idea of the world’s past? Why do we call some language literary? Can any language be literary if it appears in the right kind of book? Is there a difference between verbal forms of art and visual or auditory ones? Can novels do things that plays and poetry cannot? Why does anyone read poetry anyway?

Class Format: seminar

Requirements/Evaluation: four short papers totaling 20 pages, informal weekly writing, class attendance and participation

Extra Info: may not be taken on a pass/fail basis

Prerequisites: none

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Enrollment Limit: 19

Expected Class Size: 19

Distributional Requirements: Division 1, Writing Intensive

Spring 2018

SEM Section: 01 MR 10:30 AM 10:45 AM Instructor: Christopher Pye

ENGL 218(F) Gender and Sexuality in the Neo-slave Narrative (D) (W)

Hortense Spillers has noted that ex-slave Harriet Jacobs, "between the lines of her narrative, demarcates a sexuality that is neouterbound" and we live with the aftermath of her observation. "Ungendering," one of the transformations undergone by bodies subjected to the Middle Passage, is one of the keywords that forms the foundation for a conversation about slavery, gender, and sexuality. Throughout this course we will wrestle with the questions: How does the designation "slave" rupture, reify, or expand our understandings of sexuality and gender? What conditions have necessitated the neo-slave narrative form? Texts include: slave narratives and neo-slave narratives in the forms of novels such as Octavia E. Butler's Kindred and Jewelle Gomez's Gilda Stories, comics such as Kyle Baker's Nat Turner, visual art such as Kerry James Marshall's Heirlooms and Accessories, and film such as Jordan Peele's Get Out. This course contributes to the College's Exploring Diversity Initiative by investigating the power of whiteness in shaping consent and coercion for black subjects and determining belonging and exclusion to the categories of gender and sexuality.

Class Format: seminar

Requirements/Evaluation: weekly responsive writing, one presentation, two 8- to 10-page papers, thoughtful class participation

Extra Info: may not be taken on a pass/fail basis

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Enrollment Limit: 19

Expected Class Size: 19

Distributional Requirements: Division 1, Exploring Diversity, Writing Intensive

Other Attributes: ENGL 200-level Gateway Courses

Fall 2017

SEM Section: 01 TF 02:35 PM 03:50 PM Instructor: Christian Thorne

ENGL 229(S) Contemporary American Fiction (W)

In this course we will read and analyze a selection of fiction written between 1945 and the present, with an emphasis on proving (in the sense of testing) the three terms in the course title. Could John Cheever's "The Enormous Radio" really be contemporary? Is James Baldwin's Giovanni's Room American in the same way as Alice Munro's Dear Life? And is Michelle Tea's Black Wave fiction or something else? Along the way, we'll also ask: What forms contemporary African American fiction? And why should we invest in defining the "contemporary" period at all? Other authors we will study include: Raymond Carver, Thomas Pynchon, Toni Morrison, Renata Adler, Margaret Atwood, Lydia Davis, Chang Rae Lee, Jennifer Egan, and Colson Whitehead.

Class Format: seminar

Requirements/Evaluation: four papers totaling about 20 pages; participation in class discussions

Extra Info: not available for the fifth course option

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Enrollment Limit: 19

Other Attributes: ENGL 200-level Gateway Courses, ENGL Literary Histories C

Spring 2018

SEM Section: 01 MR 08:30 AM 09:45 AM Instructor: Ezra Feldman

ENGL 230(F) Introduction to Literary Theory (W)

This course introduces students to some of the most significant and compelling trends in modern criticism—such as poststructuralism, deconstruction, sociological analysis, and psychoanalytic criticism—in an applied, hands-on way. The course will engage a range of primary texts from Shakespeare to Hitchcock by way of varied theoretical approaches. Can Othello be read as a feminist text? A site of class struggle? A staging of the relationship between language and the unconscious? The course aims both to make familiar some of the critical methods students are likely to encounter in the field of literary studies these days, and to show how such methods can transform our understanding of a text, opening surprising possibilities even in familiar works. In the process, the course will also raise broader questions about the imperatives and usefulness of literary theory in relation to texts and worlds.

Class Format: seminar

Requirements/Evaluation: frequent short papers totaling 20 pages

Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Enrollment Limit: 19

Expected Class Size: 19

Fall 2017

SEM Section: 01 MR 01:10 PM 02:25 PM Instructor: Christopher Pye

ENGL 233(F) Great Big Books (W)

Crosslistings: ENGL 233/COMP 293
ENGL 248(F) Black Women in African American Literature and Culture (W) [W]
This course surveys constructions of black womanhood from the nineteenth century to the present through readings of texts by and about black women. In this course, students will trace how black womanhood became central to uplift ideology and the making and sustaining of black communities in the post-Reconstruction, Harlem Renaissance, and Black Power eras. We will read works across a broad historical spectrum to identify the ways different writers wrestle with race and gender using literary tropes, such as the "tragic mulatto," in different forms. Students will also engage a range of forms, including poetry (Patricia Hill Collins’s “Mammies, Matriarchs, and Other Controlling Images”), a choreopoem (Ntozake Shange’s For Colored Girls Who Have Considered Suicide When the Rainbow is Enuf), and socio-political propaganda (the Black is Beautiful movement). This course will end with a consideration of the way writer and producer Issa Rae engages with contemporary ideologies of black womanhood in the HBO series Insecure. This course contributes to the College’s Exploring Diversity Initiative by examining the social, historical, and cultural forces that contribute to depictions of black women in literature and culture.

Class Format: seminar
Requirements/Evaluation: active class participation, 4 short papers totaling about 20 pages, final project on the hashtag blackigirmanic
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

ENGL 258(S) Poetry and the City (W)
In this course, we will consider poems generated out of the experiences of urban life. The city provides for poets a vivid mental and imaginative landscape in which to consider the relation of vice and squalor to glamour; the nature of anonymity and distinction; and the pressure of myriad bodies on the body politic. We will consider the ways in which the body politic emerges in representations of the city as a site both of civilized values and/or struggles for power marked by guile and betrayal. Taking into account the ways in which cities have been transformed over time by changing social and economic conditions, we will consider such issues as the nature of urban space in the New York of the 1950s or the London of the late eighteenth and early nineteenth centuries, and how poetry as a genre might be particularly suited to representing the shifting aspects and populations of urban life. Poets will include Dante, Pope, Swift, Blake, Wordsworth, Whitman, Baudelaire, Yeats, Crane, Moore, Hughes, Brooks, Lorca, Bishop, Ginsberg, Baraka, Ashbery, Yau, Bitsui and Rankine. We will also draw on essays by Simmel, Benjamin, Williams, and Canetti, photographs by Hines, Wenders, Hopper, and Richter, the blues, as sung by Holiday and Vaughan; and films such as Man with a Movie Camera, Rear Window, and Breathless.

Class Format: seminar
Requirements/Evaluation: four 4- to 5-page critical essays
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

ENGL 272 American Postmodern Fiction (W)
Crosslistings: ENGL 272/AMST 272
American fiction took a turn at World War II: from modernism to postmodernism. The most obvious mark of postmodern narration is its self-consciousness. Already a paradox emerges: why would World War II make narratives self-reflexive? The best text for this paradox is Heller’s Catch-22. Subsequent books: Pynchon’s The Crying of Lot 49, Morrison’s The Bluest Eye, DeLillo’s White Noise, Eggers’s What We Talk About When We Talk About Love, Diaz’s The Brief Wondrous Life of Oscar Wao.

Class Format: seminar
Requirements/Evaluation: four papers totaling about 20 pages; participation in class discussions
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course
Enrollment Limit: 15
Expected Class Size: 19
Distribution Notes: meets Division 1 requirement if registration is under ENGL; meets Division 2 requirement if registration is under AMST
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: AMST Arts in Context Electives, ENGL 200-level Gateway Courses, ENGL Literary Histories C
Not Offered Academic Year 2018
SEM Instructor: John Limon

ENGL 289(S) Graphic Storytelling (W)
In the 1890s an artist/author put words and pictures together in boxes, ordered the boxes along a (short) narrative arc featuring a continuing character, published it in a newspaper, and graphic storytelling as we know it was born. 15 years later (in the form of comic strips) it had already become one of the most important storytelling modes in American culture. In this course we will follow the development of this quirky and important American contribution to world culture from comic strips through comic books to the "graphic novel." Along the way we will consider all kinds of interesting general subjects: for instance, the relationship between commerce and creativity, the difference between good and bad culture, and the pervasive human need to tell and experience stories.
Class Format: seminar
Requirements/Evaluation: active class participation and five or six short essays, totaling about 20-25 pages
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: sophomores and first-year students who have not yet taken an ENGL Gateway course
Enrollment Limit: 19
Expected Class Size: 19
Distributional Requirements: Division 1, Writing Intensive
Other Attributes: ENGL 200-level Gateway Courses, ENGL Literary Histories C
Spring 2018
SEM Section: 01 TF 01:10 PM 02:25 PM Instructor: Peter Murphy

300-LEVEL COURSES

ENGL 301(S) Sublime Confusion: A Survey of Literary and Critical Theory
Crosslistings: COMP 301/ENGL 301
Which is more appealing, a roller coaster or a rose? For much of its history, art and literary theory has conceived itself as a science devoted to explaining and defining “beauty.” But running alongside this is an edgier countercurrent that worships something else: an experience of excitement, fear, suspense, or thrilling confusion often described as "the sublime." The sublime interested early critics, from classical rhetoricians to the German Idealists, as a way to make aesthetics more scientific paradoxically by identifying the doorway through which art and literature escaped the realm of reason. More recently the notion of literature’s exciting confusion has played a key role in modern critical theory from Russian formalism to new criticism, deconstruction, postmodernism, and posthumanism. (In fact, poststructuralist criticism itself has a thrilling paradoxical quality that we will not ignore.) We will take up a cross section of critical theory from classical times to the present, focusing on careful reading of relatively short texts by Plato, Aristotle, Addison, Burke, Schiller, Nietzsche, Shklovsky, I.A. Richards, Barthes, Derrida, Lyotard, Fredric Jameson, Haraway, and others. Case studies ranging from opera to Xbox will enlighten, thrill, and confound you. Written assignments will encourage you to parse these theories carefully and apply them to the literary texts that most interest you: prose, poetry, or drama from any time and place; film, visual art; or architecture; music, new media, or digital media, and beyond.
Class Format: seminar
Requirements/Evaluation: attendance and active participation, several short response assignments, final project consisting of a scripted oral presentation and a 15-page final paper
Extra Info: may not be taken on a pass/fail basis
Prerequisites: 200- or 300-level course in literature, theory, or philosophy, or permission of the instructor
Enrollment Preferences: students majoring or considering a major in a related field
Enrollment Limit: 15
Expected Class Size: 9
Distributional Requirements: Division 1
Spring 2018
SEM Section: 01 W 01:10 PM 03:50 PM Instructor: Christopher Bolton

ENGL 302 Landscape and Language
Crosslistings: ENGL 302/ARTS 302
Colloquially, the word "landscape" refers to pictures or scenes of the land, from farms to forest to wilderness. But more broadly, landscape evokes the complex, dynamic, and ever-shifting relationship between "nature" and our experience of it. Landscape and Language is a seminar that considers the topographies we use to represent and narrate our relationship to the natural world. Together, we will investigate how such cultural conventions as travel, perspective, nature, and ecology influence the ways we see and understand place. Drawing from discourses of literature, architecture, art history, contemporary art, and ecocriticism, our goal is to develop a deeper critical understanding of and engagement with landscape (as a collective of readers and as individual investigators). Texts for this course will include an art historical exploration of the relationship between landscape, power, and imperialism by W.J.T. Mitchell, an ethnographic investigation of nearly obsolete place names by Robert MacFarlane, poems by historical and contemporary poets like Jean Toomer, Terrance Hayes, and Lucille Clifton, and contemporary visual art by Helen Mirra and Xaviera Simmons, among others.
Class Format: seminar
Requirements/Evaluation: weekly discussion in an online forum; two short response papers, and a final research paper or creative project (10-12 pages or equivalent) in written translation.
Extra Info: may not be taken on a pass/fail basis; not available for the fifth course option
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Preferences: English majors
Enrollment Limit: 25
Expected Class Size: 20
Distributional Requirements: Division 1 Not Offered Academic Year 2018
SEM Instructor: Stefaniem Jemison

ENGL 304(S) Dante
Crosslistings: ENGL 304/COMP 317
